A. ORDINANCE NO. 2554 - ORDINANCE ESTABLISHING AN EDUCATIONAL ACCESS CHANNEL COMMISSION

Ms. Robin Westbrook, Public and Community Information Coordinator, said that this is the consideration of an ordinance establishing an Educational Access Channel Commission.

The Cable Franchise Agreement adopted by City Council designates three initial access channels to be used for public, educational and/or government programming. In November, 199, the Asheville City Council directed staff to meet with the education community to gather input concerning the formation of an Education Access Channel Commission. Notices were sent to Asheville City Schools, Buncombe County Schools, University of North Carolina at Asheville

(UNCA), Asheville-Buncombe Technical College (AB Tech), the Asheville branch of Shaw University, the Council of Asheville Independent Parochial Schools, the local representative of North Carolina Home School Educators, and the Francine Delany Charter School. State and local officials were contacted to ensure that the accurate contacts were identified. Notices were also printed in the Asheville Citizen-Times and in CityWorks.

The first meeting was held on December 14, 1998. Representatives from Asheville City Schools, Buncombe County Schools, UNCA, AB Tech, and Citizens for Media Literacy were in attendance. A second meeting was held on January 14, 1999. The same members attended as well as Bob Brummond. All those on the original mailing list received notices of both meetings. The following recommendations were made concerning the ordinance establishing the Education Access Channel Commission.

Recommendations from the education community

- A 9 person Commission with membership as follows:
  2 members representing Asheville City Schools
  2 members representing UNCA
  2 members representing AB-Tech
  1 member representing Buncombe County Schools
  2 members at-large representing the public and organizations such as private schools, charter schools, home schools, MAHEC, The Health Adventure, etc.

- Delete the requirement of at least 60% educational programming and no more than 40% athletic programming. The programming mix, which includes athletics, should be determined by the Commission.

- The Commission members should serve four year staggered terms.

- The Commission should solicit wide-spread community input.

Recommendations from others interested in the Educational Access Channel Commission

- An 11 person Commission with membership as follows:
  2 members representing Asheville City Schools
  2 members representing UNCA
  2 members representing AB Tech
  1 member representing Buncombe County Schools
  4 members at-large representing the public and organizations such as private schools, charter schools, home schools, MAHEC, The Health Adventure, etc.

- The programming mix, which includes athletics, should be determined by the Commission. This mix should be of substantial educational interest.

- The Commission members should serve four year staggered terms.

- The Commission should solicit widespread community input.

City staff recommends City Council adopt an ordinance establishing an Educational Access Channel Commission.

Councilman Cobb, Councilman Tomes and the City Manager request the following membership be compromise of: 2 members representing Asheville City Schools; 2 members representing University of North Carolina at Asheville; 2 members representing Asheville-Buncombe Technical Community College; 2 members representing Buncombe County Schools; and 3 members at-large representing the public and organizations such as private schools, charter schools, home schools, MAHEC, The Health Adventure, and the cable company holding the franchise.

All Council members spoke in support of the potential of this channel and the commission.

Mr. Jack Fobes said that all three channels (government, educational and public access) should be seen as a whole for the common purpose of promoting and enhancing community learning. He said that he has provided Council with copies of proposed amendments to the ordinance which he thinks would stress the fact that the three channels are related, there is a common purpose, and would clarify the role and functions of this Educational Access Channel Commission. Developments are proceeding very rapidly and he's sure that before long Council will want to change this Educational Access Channel Commission into something much broader. He felt we needed a broad oversight for all three channels and he would have suggested a preparatory committee to investigate the experience of other communities regarding at least the public access channel before any kind of Request for Proposals was prepared.

Ms. Westbrook passed out a chart consisting of other cities and how their government, educational and public access channels are run. Said chart revealed that in North Carolina, Charlotte's educational channel is operated by Charlotte-Mecklenburg Schools, Raleigh's channel is operated by a local college, Greensboro's channel is operated by Guilford County Schools, and Greenville's channel is operated by East Carolina University.

Mayor Sitnick stressed that City Council is very committed to each of the three channels and recognizing that all three obviously be educational in one way or another, probably each channel will get much more intense focus by being held accountable to education, to government issues, and to public access opportunities. There will be a commission appointed to oversee the public access channel. She hoped that with the educational channel that we make sure that most of it is educational. She does not want to delete the requirement that a major percentage of the educational channel be devoted to education.

Ms. Westbrook said that the Educational Access Channel Commission would establish guidelines and come back to City Council for adoption of those guidelines. City Manager Westbrook also noted that Ms. Westbrook will make the Commission members aware that it is Council's guidance that the channel be mostly educational when they establish their make-up of the guidelines.

Mr. Tim Amos, Assistant Superintendent of the Asheville City Schools, read the following statement from the Asheville City Board of Education dated March 9, 1999: "The Asheville City Board of Education strongly supports the formation of an Educational Access Channel Commission. We also strongly believe that the Council has taken the correct approach and that the Educational Commission should remain separate from that of the Public Access Channel. The missions and philosophies of the two organizations providing programming are different. Additionally, the manner in which the two channels will be set up will be vastly different. Indeed, it would be an injustice for both Educational and Public Access to have a Commission which could not devote 100% of its energies to the unique requirements of each.

"The educational organizations that have been meeting together since November have the same focus and goals in educational programming and, in fact, to combine the two entities might muddy the waters and dilute the effectiveness of each group in providing for the needs of its constituents. Already in the short time that the representatives of the educational institutions have been meeting they have formed a cohesive working relationship.

"Since 1993, our Board has gained considerable experience in providing high quality location origination cable TV Programming in the Asheville Area. We now look forward to working within the framework of the Commission and are eager for the group to begin. We feel comfortable saying that in the near future, working together, the educational organizations can increase the amount of high quality educational programming offered to our community."

A Professor of Mass Communication at UNC-A said that UNC-A feels a very strong sense of support for an autonomously administered Educational Channel. He passed out to Council a Federal Communications Commission Cable Television Fact Sheet regarding public, educational and governmental access channels.

Ms. Rebecca Campbell felt that all weight should be given to autonomous commissions on each of the three channels. She urged City Council visit the sites that actually have public access channels to see how they are operated first-hand. She also felt that there is a need to have a separation of purpose but amalgamation of functions such as the recommendation for a county-wide or regional commission with one facility where the three could operate and consolidate resources.

Upon inquiry of Councilman Tomes, City Manager Westbrook said that Ms. Westbrook would investigate a few more cities regarding the public access channel and report back to Council to see if any member would like to visit the site.

Councilman Cobb assured the public that City Council will act responsibly to fairly distribute the funds that we have to each group so that each will have a chance to be successful.

At the request of Councilman Cobb, Ms. Meldrum explained why staff will not recommend that the proposed amendments be made to the ordinance as requested by Mr. Fobes.

Mayor Sitnick said that members of Council have previously received a copy of the ordinance and it would not be read.

Councilman Cobb moved for the adoption of Ordinance No. 2554. This motion was seconded by Councilman Tomes and carried unanimously.

ORDINANCE BOOK NO. 17 - PAGE 282

B. RESOLUTION NO. 99-46 - RESOLUTION AUTHORIZING CITY STAFF TO PROCEED WITH INVESTIGATING THE PURCHASE OF PROPERTIES KNOWN AS THE LAKE CRAIG AND JOHN MOYER PROPERTIES

Mr. Irby Brinson, Director of Parks & Recreation, said that this is the consideration of a resolution to proceed with investigating the purchase of properties known as the Lake Craig and John Moyer properties.

Mr. Brinson said that for several years, the Parks and Recreation Department has been working towards the purchase of 68 acres in East Asheville known as the Lake Craig property.

The property is located near the Swannanoa River adjacent to the Recreation Park operated by Buncombe County Recreation Services. The Lake Craig Task Force was formed in 1996 and is made up of RiverLink, Western North Carolina Soccer Foundation, Western North Carolina Youth Sports Complex, and the City of Asheville. The intended use for this property would be to develop soccer fields and other facilities on this site. The Parks, Recreation and Greenway Bond has earmarked $2 Million for the Lake Craig property. There are still some outstanding issues, for example, property surveys have to be obtained and there is a need for a feasibility study, and soil compaction and tests.

In addition, approximately 1 year ago, the Public Works Department approached Parks and Recreation Department with regard to developing a partnership to expand this project to include the purchase of property owned by John Moyer.

Ms. Suzanne Molloy, Assistant Director of Public Works, explained that after working with a charter team and evaluating our customers' needs, the Public Works Department has decided to develop a Natural Resource Facility to provide a central location for a composting/mulching facility, a small educational eco-park to showcase the usage of recycled materials and backyard composting demo-sites, and to utilize a site for beneficial fill activities for long-term park development needs. The 78-acre tract will help in the proper management of the City's organic resources and inert debris that can be re-used and recycled. The current methods for managing these materials is not sustainable. White Fawn Reservoir is closing due to its reaching its capacity.. Henson's is relocating and the City's passive leaf composting site on Broadway is too small. Should the city not develop a facility, a transfer station would have to be sited to transfer all of these materials to the Buncombe County Landfill at an estimated annual cost of $700,000 a year. The Moyer property is a logical alternative due to it's central location, prior land usage and potential for park develop. Benefits of site include: located within the city; convenient access for crews and residents; Swannanoa River Greenway link; potential for long-term use; cost savings over current operations; and revenue opportunities.

Ms. Molloy explained the following site development requirements which must be addressed: infrastructure development (roads, bridges); Blue Ridge Parkway Viewshed; composting and mulching must be allowed at parks facilities (UDO); and stormwater management/wetland remediation.

Mr. Brinson said that the next steps would be: surveys and appraisals; community input from public input sessions, informational material, and on-site open house; engineering and planning studies; and phased site construction.

The Parks and Recreation Department and the Public Works Department request City Council's approval to (1) proceed with investigating the purchase of both the Lake Craig Property and the John Moyer Property; (2) work with adjacent property owners and other interested parties in discussing plans for the property and to solicit their input prior to bringing this back to City Council for formal adoption; and (3) authorize the City Manager to enter into a Memorandum of Understanding with the members of the Lake Craig Task Force.

Mayor Sitnick said that if the eco-park proves successful, it should be submitted in the U.S. Conference of Mayors' Best Practices Book.

Mayor Sitnick said that members of Council have been previously furnished with a copy of the resolution and it would not be read.

Vice-Mayor Hay moved for the adoption of Resolution No. 99-46. This motion was seconded by Councilman Sellers and carried unanimously.

RESOLUTION BOOK NO. 25 - PAGE 175

C. CONSIDERATION OF WAIVING THE ASHEVILLE STANDARD SPECIFICATIONS AND DETAILS MANUAL SIDEWALK REQUIREMENT FOR SWEETEN CREEK MINI-STORAGE AT 2600 SWEETEN CREEK ROAD

At the request of the applicant, Councilman Cobb moved to continue this item until the March 23, 1999, City Council meeting. This motion was seconded by Councilman Tomes and carried unanimously.

VI. OTHER BUSINESS:

A. APPROVAL OF THE MINUTES OF THE REGULAR MEETING HELD ON FEBRUARY 23, 1999, AND THE WORKSESSION HELD ON MARCH 2, 1999

Councilman Sellers moved for the adoption of the minutes of the regular meeting held on February 23, 1999, and the worksession held on March 2, 1999. This motion was seconded by Councilman Cobb and carried unanimously.

B. CLAIMS

The following claims were received by the City of Asheville during the week of February 19-25, 1999: Richard Cosgrove (Sanitation), Urban Housing Management (Parks & Recreation), James Ducker (Water), Country Kitchen (Water) and Dana Humes (Streets).

The following claims were received during the week of February 26-March 4, 1999: Terry Owen (Water) and George Loftis (Water).

These claims have been referred to Asheville Claims Corporation for investigation.

VII. INFORMAL DISCUSSION AND PUBLIC COMMENT:

Mayor Sitnick announced the press conference on March 25, 1999, to launch the Great Asheville-Buncombe Clean-Up. She encouraged everyone to call the City's Solid Waste Coordinator Karen Rankin, Quality Forward or the Chamber of Commerce to get a list of events that are currently scheduled.

Mayor Sitnick said that the Vision process has stated their "Let's Talk" community dialog meetings. She said that this is an opportunity for citizens to express their feelings on issues.

VIII. ADJOURNMENT:

Mayor Sitnick adjourned the meeting at 7:36 p.m.

Magdalen Burleson
CITY CLERK

Leni Sitnick
MAYOR

Tuesday - March 16, 1999 - 3:00 p.m.

Worksession

Present:	Mayor Leni Sitnick, Presiding; Vice-Mayor Edward C. Hay Jr.; Councilman M. Charles Cloninger; Councilman Earl Cobb; Councilwoman Barbara Field; Councilman Thomas G. Sellers; and Councilman O.T. Tomes; City Attorney Robert W. Oast Jr.; City Manager James L. Westbrook Jr.; and City Clerk Magdalen Burleson
Absent:	None

CONSENT:

Grant from Community Foundation of WNC for Summertime Kids 1999 Program

Summary: The consideration of a resolution authorizing the City Manager to apply for and enter into an agreement with the Community Foundation of Western North Carolina for a grant to develop and implement outdoor adventure activities in the Summertime Kids 1999 Program.

Funds are available through the Community Foundation of Western North Carolina in the Summertime Kids 1999 program to provide fun and safe summer activities for youth. The Summer Teen Program is designed to provide recreation activities for teens ages 13-16 for eight weeks during the summer. The program is located at six locations throughout the city in community centers. The Teen Program will offer a wide variety of recreation activities and hands-on job training. Grant funds will be used to implement the outdoor enrichment activities including a challenge ropes course, rock climbing, rollerblading, and mountain biking. The amount of the grant request is $1,950. The Parks and Recreation Department's in-kind match of $26,708 will be in labor, administration, transportation, supplies, and training for the overall Summer Teen Program. The funds are budgeted in the Recreation Division.

The Parks and Recreation Department recommends City Council authorize the City Manager to apply for and enter into an agreement with the Community Foundation of Western North Carolina for a grant to develop and implement outdoor adventure activities in the Summertime Kids 1999 Program.

Grant for Gang Resistance Education and Training Program

Summary: The consideration of a resolution authorizing the City Manager to accept grant funds under the Department of the Treasury, Bureau of Alcohol, Tobacco, and Firearms, Gang Resistance Education and Training Program.

The City of Asheville has been awarded a grant under the Fiscal Year 1999 Gang Resistance Education and Training (G.R.E.A.T.) Grant Program in the amount of $44,100.00. A local match of funds is not required. The purpose of the grant program is to fund the following three phases of G.R.E.A.T. education in the community:

Phase I: School-Based Education
Phase II: Summer Education/Recreation
Phase III: Parent Involvement Program

The specific implementation plan of the three phases has not yet been determined.

City staff recommends that the City Council authorize the City Manager to accept the Grant Resistance Education and Training Grant from the Bureau of Alcohol, Tobacco and Firearms and to adopt the budget amendment appropriating said funds.

Amendment to Traffic Consultant Agreement

Summary: The consideration of increasing the contract price for work to be performed for City of Asheville area by Kubilins Traffic Consultants, Inc., consultant, to include reviews of Traffic Impact Analysis (TIA's), speed studies, stop sign warrants, etc. as requested by the City Engineer.

The City entered into a contract with Kubilins Traffic Consultants, Inc., to perform various traffic engineering analysis during the time the City was without a Traffic Engineer. The original contract was in the amount of $20,000. Their services have proven to be extremely beneficial to the City of Asheville, in that they have been able to review TIA's very quickly, perform stop sign warrant analysis, and other traffic engineering tasks.

The City has hired a Traffic Engineer, Michael Moule, that began work on March 15, 1999. Staff would like to retain Kubilins Traffic Consultants to assist Mr. Moule in traffic engineering functions during his first six months of employment.

The funds for this amendment are in the Traffic Engineering Division's operating budget for professional services.

Staff recommends that the City Council accept this amendment to increase the contract with Kubilins Traffic Consultants, Inc. in the amount of $20,000 and authorize the City Manager to execute all necessary documents for this contract.

Budget Amendment to Reallocate Unused Henderson County HOME funds to Transylvania County Housing Corporation

Summary: The consideration of a budget amendment, in the amount of $36,529, to reallocate unused HOME funds from Henderson County to Transylvania County Housing Development Corporation.

On September 22, 1998 the City received a letter from David E. Nicholson, Henderson County Manager. It stated that Henderson County had no projects on which to use the Fiscal Year 1994 HOME funds and chose to return the funds to the Asheville Regional Housing Consortium for use on other regional projects. On December 9, 1998, the Asheville Regional Housing Consortium Board voted to reallocate the unused funds from Henderson County to Transylvania County Housing Development Corp. Transylvania County Housing Development Corp. has proposed to use these funds for new construction activities in a subdivision it is developing.

City staff recommends City Council adopt a budget ordinance amendment, in the amount of $36,529, to reallocate unused HOME funds from Henderson County to Transylvania County Housing Development Corporation.

Establishing Fair Reuse Values for 135 Cherry Street and Parcel 59X on Asheland Avenue

Summary: The consideration of a resolution establishing fair reuse values for 135 Cherry Street and Disposal Parcel 59X in order to market the properties.

Disposal Parcel 59X is located on the west side of Asheland Avenue about 400 feet north of Phifer Street and comprises 27,835 square feet. Terrain includes an elevated berm along the street, some level to gently sloping land behind the berm, and some moderately sloping land at the south end of the lot. The property is crossed by easements which occupy approximately 18.8% of the property thus severely restricting the utility of the land. The zoning is Office Business. The site is best suited for parking and/or possible small commercial building. Francis Naeger, MAI, appraised the site at $139,000 and Joseph Moore, Certified General Appraiser, reviewed the appraisal and recommended the appraised value.

Disposal Parcel 6D is located at 135 Cherry Street fronting the Montford Avenue exit ramp from I-240. The lot comprising 6974 square feet is elevated above street grade and level to gently sloping. Improvements consist of a two story, frame, residential structure of 1,984 square feet being used as offices and seven paved and striped parking spaces. The zoning is Office. Richard Jacobs, MAI, appraised the property at $105,000 and Benjamin Beasley, MAI, reviewed the appraisal and recommended the appraised value.

Community Development staff recommends adoption of the resolution.

Mayor Sitnick asked that the record show that City Council has received this information and instructs the City Manager to place these items on the next formal City Council agenda.

SLIDE PRESENTATION BY THE TREE/GREENWAY COMMISSION

Mr. Peter Loewer and Dr. Peter Gentling, members of the Tree/Greenway Commission's Education Sub-Committee, viewed with City Council a short slide presentation to educate citizens about the role of trees in their community and about the positive role flora has in the community. They hoped that there will be a heightened awareness in the community that will provide positive benefits both today and in the future. Additionally, the Commission hopes to educate developers on the benefits of green space development and the positive impact on the public.

In summary, they urged City Council to thank about funding for City beautification and the need to save open spaces.

Mayor Sitnick was totally supportive of beautifying the City, however, we need to look for ways the community, public sector, private sector, organizations, churches, etc. can help to achieve this goal. She suggested we appeal to the development community and let them know the monetary and quality of life benefits from developing their property into an area that is nicely landscaped.

As a way to find funds for City beautification, Dr. Gentling suggested applying for funds from the Environmental Protection Agency or possibly a portion of the hotel/motel tax being earmarked for beautification. Mr. Loewer suggested developers who cut down trees should be assessed a large fine. He also felt that people who cut trees in the City should be licensed. Mr. Loewer also felt that when until the community sees that the City is making an effort to make developers and the N.C. Dept. of Transportation work to beautify their projects, businesses and foundations probably won't make much of an effort to help the City.

Councilman Cloninger agreed that the City needs to encourage more public/private partnership in the community. He suggested that there may need to be more enforcement on the City's landscape ordinance. But most importantly, encouraged the public to vote in favor of the upcoming Parks, Recreation and Greenways Bond referendum because there is a major component in the Bonds for open spaces.

Mayor Sitnick would like to see the City explore the Better America Bonds. She also encouraged City Council to adopt a new designation in the Unified Development Ordinance that would define parks or open spaces so that they are not zoned according to the area around them. She also felt that we should encourage public/private efforts so that everyone will be responsible for a little part of Asheville. She suggested this slide presentation or an extended version be shown at the various development forums hosted by the City of Asheville. She also suggested the slide program being shown on our new Government Channel and eventually on our Educational Channel.

Councilwoman Field noted that there are a lot of positive steps the City and Quality Forward is taking toward beautification.

Upon inquiry of Mayor Sitnick, Ms. Susan Roderick, Executive Director of Quality Forward, said that she would research some statistics on property values when the property is landscaped vs. when it is not.

On behalf of City Council, Mayor Sitnick thanked the Tree/Greenway Commission for all the time spend and the work they do on behalf of the entire City of Asheville.

FUTURE OF THE TRANSIT SYSTEM

Councilman Cloninger, liaison to the Asheville Transit Authority ("Authority'), said that during Council's retreat in January, City staff was instructed to devise a plan for the City to take back control of the bus system. As a result of that request, Chairman of the Asheville Transit Authority Tom Tomlin discussed with City Council the City Council's decision relative to the future of the transit system.

Mr. Tomlin noted that the Transit Authority has always had a good working relationship with City Council and City Council has been supportive of the Authority. He reviewed with Council the duties of the Authority, which include overseeing the management of the Management Company. Because the drivers of the buses are unionized, when problems arise, the Authority and the Management Company negotiate and the Management Company makes the offer to the union. If the Transit Authority were abolished, City Council would have to be the group to negotiate with the Management Company. Other advantages of the Authority is (1) they handle complaints; (2) they make recommendations to the Management Company about establishing fares and routes; and (3) they hold public hearings. He said that the Authority is vested with the general supervision and control of the transit system and feel that they have done a good job with their charge. He offered the suggestion of having a staff person that reports directly to the Transit Authority, opposed to the current arrangement of a transit planner who reports to the City. He also asked for the City's assistance in installing two phones at the Transit Center along with some "Do Not Enter" signs at the Transit Center. He spoke in support of leaving the relationship between the Authority and the City Council as it is now. However, if a change is anticipated, the Authority would recommend that City Council give up all control to the Authority and merely fund them annually.

Mr. Ron Lamb and Ms. Althea Goode, members of the Authority, both spoke in support of leaving the transit system as it currently is being operated.

Vice-Mayor Hay said that no one has suggested that the Authority has not been doing a good job, because they are. He said that City Council is talking about a reorganization to see how the City can do the best job with the transit system, and that would be taking back control of the transit system. He believed there would be a separate transit commission, similar to the Tree/Greenway Commission, to advise City Council on transit issues. He was convinced, however, that bringing the transit system back into City government is the best step for transit.

Councilman Tomes hoped that there will be an element of sensitivity when the City brings the transit system back into City government. He also felt there should be a regional commitment of trying to do more to get people from one point to another.

Councilman Cloninger said that the Authority and the City has the same goal - to provide public transportation to as many people in the community as possible, as economically and as efficiently as possible. He too said that if the City takes the system back in-house, they will need an advisory board that will give City Council recommendations. He praised the Authority members for their hard work.

Councilman Cobb agreed that City Council has an obligation to provide a wide range of services at the most economical price to our citizens. He said that we will need to look at the size buses we run and the hours the buses run. He agreed with Councilman Tomes about a regional system, perhaps with Buncombe County to start off.

Mayor Sitnick spoke in support of (1) buying buses that don't emit the fumes that harm our environment; (2) using smaller vans or shuttles when the ridership if low; (3) looking at a regional concept; and (4) reviewing after-hour travel needs. She stated that we need to be advocating on a regular basis our state legislators to remind them that Asheville does exist and has needs.

Mr. Lamb responded to the Authority having looked into rearranging routes and also the type buses to buy.

Mr. Black responded to questions from Mayor Sitnick about the lack of heat at the Transit Center and why each bus stop does not have some type of protection from the elements.

At the request of Mayor Sitnick, Mr. Black was instructed to follow-up with the new owner of the Asheville Mall about allowing buses on the Asheville Mall property.

Mayor Sitnick thanked the Authority for their input into this matter.

AT-RISK YOUTH REPORT AND SUMMER YOUTH PROGRAM

Mr. Butch Kisiah, Superintendent of Recreation, said that the Parks and Recreation Department is currently developing a multi-faceted approach to providing recreational, educational and social services to youth at-risk.

In the United States, 75% of all crime is youth related. 93% of all youth crime happens during the hours of 3:00 p.m. and 8:00 p.m. In North Carolina, the average cost of incarcerating one youth offender is $48,000. In Asheville, our youth are under a great deal of stress, at home, school and especially from their peers. A large part of our youth population are "latch key kids," who come home everyday to empty houses because their parents work. Youth today need to know there are places where they can go after school, on weekends and holidays that are both enjoyable and safe. Our youth need to have opportunities for self expression, esteem building and life skill education. Our youth need places where they can be with friends, be safe and have an adult presence to guide, support and nurture.

The following report is a brief update on how the Asheville Parks and Recreation Department is trying to meet this important community need.

The vision statement for the At-Risk Youth Initiative strategically positions the Asheville Parks & Recreation Department to effectively contribute to alleviating societal problems with at-risk youth through prevention and intervention. The goal and objective is to provide alternatives to disruptive and deviant behavior by youth through a cooperative approach with law enforcement, social services and related agencies in Asheville. In today situation (1) 75% of all crime in the United States is youth related; (2) 93% of all youth crime happens during the hours of 3:00 p.m. - 8:00 p.m.; and (3) the average cost of incarcerating a juvenile for one year in North Carolina $48,000.

Reasons why the Parks & Recreation Department is trying to meet these needs is (1) Asheville's recreation centers are spread across the entire community and are therefore more accessible for youth; (2) recreation programs are inherently appealing to large segments of youth in general, including at-risk youth, and provide the incentive for positive interaction and participation; (3) Parks & Recreation personnel are experienced in establishing empathetic relationships with their clients; (4) Parks & Recreation facilities are meant to be safe, inviting, fun places that youth want to enjoy; and (6) Parks & Recreation programs and facilities provide a non-threatening environment for interaction.

What the Parks & Recreation Department is doing now includes: (1) Providing specific programming for teens from ages 13-19 - (a) Summer Teen Program; (b) Afternoon Adventures Program during the school days; and (c) Summer Teen Street Dances; (2) Working cooperatively with other agencies to provide alternative activities for teens - (a) joint Parks & Recreation Department and Police Department "Cruise In" Program; (b) joint Parks & Recreation Department, Police Department, and YMCA "High School Basketball League" with police officers as coaches; and (c) joint Parks & Recreation Department and YMCA "3 on 3 Basketball League which are held on Friday nights outdoors during the summer; (3) Continue to support the youth "boot camp" program each summer in cooperation with the Police Department and the U.S. Marine Corp.; and (4) Increasing our ability to work with teens - (a) creating a professional staff position for Outdoor Adventure Programming.

He described the Outdoor Adventure Program: (1) in cooperation with the Daniel Boone Council of the Boy Scouts we will develop a "venture unit" for high adventure programming; (2) the venture program is specifically designed for young men and women ages 14-21; and (3) this will enable us to use the existing program curriculum of the Boy Scouts of America program and facilities such as Camp Daniel Boone. The Outdoor Adventure Program will provide opportunities for teens to experience the outdoors, i.e., develop outdoor adventure programming for teen leader groups which will include high ropes course to help develop self-esteem, low rope courses to help develop leadership and team building skills and "survival wilderness camping" to help develop self-esteem and self-confidence. The Outdoor Adventure Program will also provide other opportunities for teens to experience the outdoors, i.e., continued support for scouting programs in specific centers and field trips for leader groups to environmental education programs and facilities.

Mr. Kisiah described the teen leader group which will provide volunteer "counselors" for center activities with smaller children. A reward system will be developed so that participation in teen leader programs may result in awards such as parties, dances and trips. Also, each center will develop a teen leaders group for young men and women from ages 14-19 which will (1) provide guidance on programming for teens at the center; (2) provide assistance for other programs at the center; (3) work to get other teens involved in center programs; (4) plan activities and trips for teens; (5) build self-esteem; and (6) build teamwork.

He explained the Youth Employment Program in which the Parks & Recreation Department is working cooperatively with the Human Resources Department to re-engineer this program to (1) provide incentives for teen participation in leader groups; (2) provide career counseling and a variety of work experiences; (3) provide "real life" job seeking experience; (4) give teens jobs that require responsibility; and (5) give teens a chance to build self-esteem. Employment consideration criteria include (1) participation in teen programs at centers; (2) participation in the classroom at school; (3) letter of recommendation from school principle or teacher; (4) good behavior at school and at the center; (5) member of teen leader group, school sponsored activity group or church group. A teen who successfully participates in the "Workrelation" program will be invited to participate in future years. This successful participation will also be considered for future employment as a summer employee of the Parks & Recreation Department. This program will serve as an incentive for trying to do good, not as a reward for doing bad. Youth will work as real employees, going through the same selection process and have same expectations as other employees. During 1998, the Youth Employment Program employed 30 youth ages 14-18 in a variety of work experiences. Funding for this program is provided by City Council on an annual basis. Total funding for 1998 was $100,000. A complete accounting of these funds will be presented at a later date. The youth worked a total of seven weeks during the summer and one week in the winter during the holiday school break. During the winter break the youth (1) assisted with First Night Festival and (2) received additional training in "real world" job training, employer expectations, how to prepare resumes, interviews, etc. What they are planning to do is recreation center enhancements. Those include (1) placing older computers in centers with appropriate software and printers to help with homework and (2) provide multi-media entertainment equipment in centers to entice teens to come to the center. Cable television hook-ups will be available to all recreation centers.

What the Parks & Recreation Department needs to do is develop the Operation Safe Haven Program. They will promote the recreation centers as places where a child can go if they feel threatened in any way. A place where they will be among people who really care for them as individuals and as members of the community, with a staff that will take care of them when they come in the door. Staff will encourage churches, neighborhood associations and individuals to open their doors and be safe havens for children. In addition, the Parks & Recreation Department will strive to (1) provide for additional operating hours at centers, including weekend hours; (2) provide for access to health care when the student health services at Asheville High and Asheville Middle school are closed in the summer; (3) continue to work with the Police Department to offer programs where teens can meet police officers in a fun setting; (4) provide transportation services for teens to get to and from programs and facilities utilizing the Transit Authority, City school buses, City vans and local bus companies; (5) provide "life skills" classes for teen in conjunction with other agencies, i.e., parenting, nutrition, personal hygiene, conflict resolution, stress management and financial management; and (6) enlist the help of local businesses and industry leaders to help teens, i.e., find out about jobs in the community, find out what it will take to get a good job, and visit offices, manufacturing plants and industrial centers.

Mr. Kisiah said that the At-Risk Initiative is not a single activity or event. It must be an ongoing collective of various programs which are flexible enough to meet the changing needs of our at-risk population. It is a cooperative venture in which we all have a part. Working together we can make a difference.

Mr. Kisiah responded to various question from Council, some being, but not limited to: the estimated size of the at-risk population in Asheville, what is the definition of at-risk youth, is there a system in place to track this program to see what works and what doesn't, are we adequately providing for both the male and female populations in our programs;

Councilwoman Field suggested Mr. Kisiah contact Mr. Rich Mathews to see about their computer recycling program.

Vice-Mayor Hay said that if the City were operating the buses, the Parks & Recreation Department would not have to spend money to transport children.

Mayor Sitnick felt the program is terrific, but asked for staff to eliminate the words "at-risk" youth, noting that we do not want to put labels on anyone. City Manager Westbrook said that when grants are applied for, if you write them for "at-risk" youth, you probably have a better chance of receiving the grant than just saying it is for youth. He said that when appropriate, "at-risk" would not be used.

Mayor Sitnick asked that the record show that City Council has received this information and instructs the City Manager to place this item on the next formal City Council agenda.

CITYSCAPE COMMISSION

Ms. Hojun Welker, Urban Trail Coordinator, said that this is the consideration of creating a Cityscape Commission that is charged with consolidating and/or integrating the various programs of the City that are concerned with enhancing and improving the visual quality and aesthetic character of the City.

Cityscape is a term coined to describe the unique character of the City as expressed through its culture, built environment, natural environment, public art, open spaces, streets, people and neighborhoods. It could also be called the landscape or the visual character of the City. At present, the following commissions, committees and staff are involved with various aspects of enhancing or maintaining the City's aesthetic quality.

PLANNING AND ZONING COMMISSION: The Planning and Zoning Commission has responsibility for administering the UDO and focuses on regulating private development. The proposed Cityscape Commission would focus on design review of public sector projects and the use of public property and rights-of-way and streamlining the design review portion of the UDO. It would also take the design element out of the strict regulatory environment to make it more of a development tool.

TREE AND GREENWAY COMMISSION: It was decided by City Council to split this Commission into two bodies with the Tree Commission residing in the Public Works Department and the Greenway Commission to be established in the Parks and Recreation Department. Although having a somewhat different focus than the other commissions, these commissions also have a very influential role in shaping the city's landscape and aesthetic character.

STREETSCAPE: In researching public art programs in other cities, it was found that the emerging trend in public art is to focus on making the city itself a work of art—stressing urban design and using art to enhance and/or create a "sense of place" or identity. The leading edge public art plans attempt to integrate public art and streetscape elements into the overall design of the city. Streetscape plans have also focused on urban design and creating livable, pedestrian-oriented cities with a strong visual identity. City Council has requested that policies and procedures be established to implement the *Downtown Streetscape Plan* adopted in 1993. That plan is being redesigned by the Public Works Department to be applicable to the whole city and to provide a framework for streetscape proposals included in the various area plans prepared by the Planning and Development Department. The Downtown Streetscape Committee of the Downtown Commission has served as an advisory group to this process, but lacks authority to address issues outside of the downtown and has limited authority to implement streetscape proposals within the downtown. The roles and responsibilities of both the Downtown Streetscape Committee and the Downtown Commission are currently under evaluation.

DESIGN AND HISTORIC REVIEW: At present there are mandatory review, voluntary compliance for the downtown and river districts under two separate pieces of legislation, review processes, and review bodies. Different staff are assigned to each and are responsible for "Minor Works" review. "Major Works" review for the river district is by the River District Design

Committee and for the Downtown by the Downtown Commission. The Downtown Commission is staffed by the City Development Division of the Planning and Development Department. In addition, there is a mandatory review and mandatory compliance process for 34 designated historic landmarks and three local historic districts (Albermarle Park, Biltmore Village, and Montford) administered by the Historic Resources Commission, under a separate legislative mandate. All of the staff involved are part of the Planning and Development Department.

PUBLIC ART: The City of Asheville, although listed as seventh in a national survey of favorite "art destination" cities of all sizes and ninth in terms of outstanding small town cultural centers, does not have a policy or program on public art. City Council at both its 1998 and 1999 retreats discussed the need for some sort of mechanism to deal with public art issues and to promote the installation of public art. The *Downtown Streetscape Plan* approved by City Council and the Cultural Arts Task Force of VISION, INC! both have recommended the establishment of a Public Art Commission. The Mayor has requested staff prepare a Public Art Policy. A Public Art Working Group, chaired by Council Member Barbara Field and staffed by the Streetscape and Urban Trail Coordinator, is working on developing a policy for consideration by City Council. Implementation of any sort of public art policy will require some sort of organizational structure and staff commitment. At present public art issues have been covered by the Parks and Recreation Advisory Board which does not see this as part of their mission. The city's one public art related project, the Urban Trail, is currently staffed in the Public Works Department.

All the above mentioned existing and proposed commissions and committees have somewhat unique missions and roles in enhancing the quality of life and protecting the unique character of Asheville. However, the way in which they are currently structured and staffed makes coordination difficult and creates confusion on the part of the consumer (citizen and developer).

Ms. Welker provided Council with a background sheet on the Cityscape Plan.

It was the consensus of City Council to direct staff to look into a concept, such as a Cityscape Commission, to act as an umbrella organization which would focus on public art, design review of public sector projects and the use of public property and rights-of-way.

1999 BELE CHERE BUDGET

Mr. Irby Brinson, Director of Parks and Recreation, said that the Parks and Recreation Advisory Board, Bele Chere Board, and Parks and Recreation Department staff are presenting the 1999 Bele Chere Budget for City Council approval.

This is a budget ordinance amendment appropriating revenue and expenditures for the 1999 Bele Chere Festival. This budget has been approved by the Parks and Recreation Advisory Board, Bele Chere Board, and Parks and Recreation staff. This request represents a balanced budget with appropriate revenue offsetting expenditures.

The Parks and Recreation Advisory Board, Bele Chere Board, and Parks and Recreation staff recommend City Council adopt the budget amendment to appropriate funds for 1999 Bele Chere Festival.

Mayor Sitnick asked that the record show that City Council has received this information and instructs the City Manager to place this item on the next formal City Council agenda.

ORDINANCE REQUIRING THE POSTING OF PRIVATE PARKING LOTS IN DOWNTOWN ASHEVILLE

City Attorney Oast said that this is the consideration of an ordinance requiring that private parking lots in the downtown area be designated as private.

Council and staff have received complaints about enforcement of parking restrictions on private parking lots, primarily related to the towing of vehicles from those lots. Research indicates that local regulation of "motor private carriers with respect to the transportation of property" is pre-empted by federal law. This preemption has been held to apply to non-consensual towing of vehicles from private lots. The effect of the federal law is that cities may not adopt regulations affecting the manner in which privately initiated towing is carried out. To the extent that the federal government does not prohibit local regulation of towing, it appears that, in order for the City to do so, specific authorization would have to be found in State law.

Some North Carolina counties are subject to a law that requires posting of lots as a pre-condition for towing from those lots. Buncombe is not one of those counties. However, there appears to be general authority by which the City can require that private lots be so designated, and to provide that failure to comply subjects the offender (the owner or operator of the lot) to a civil fine. This does not mean that unauthorized vehicles parking in private lots may not be towed. However, it may reduce the level of inadvertent unauthorized parking, and thus reduce the number of non-consensual tows.

This application of this ordinance is limited to the Central Business District zone east of the French Broad River; we have had very few complaints from other areas of town.

He pointed out that if you are a private parking lot owner and you do not want to mind people parking in your private parking lot, you don't have to tow them. However, the private parking lot owner is still required to post the sign saying that if unauthorized cars do park there, they are doing so at their own risk.

The ordinance will become effective sixty days after adoption.

To the extent that this ordinance may help reduce the number of situations where non-consensual tows can occur, its adoption is recommended.

Vice-Mayor Hay said that he did not have a problem in his office parking lot and didn't want to go to the expense and time to put up a sign, especially when they do not want to have any vehicles towed. City Attorney Oast said that he would try to the amend the ordinance as requested by Vice-Mayor Hay in order to limit the signage requirement to privately owned or privately leased parking lots for whom the owners want the privilege of towing.

City Attorney Oast suggested posting the signs at the entrance at a height where people are likely to see it. Councilman Cloninger responded that some businesses already have adequate signage that complies with the existing sign ordinance and he would be reluctant to have them go to the expense of having to put up additional signs at their entrance. City Attorney Oast said that he has exempted these particular signs from the sign ordinance but, he can amend the ordinance to read that if you already have a sign that complies with the existing sign ordinance, you don't have to comply with this ordinance.

Councilman Cobb said that he would like to see the City of Asheville being included in the list of entities that requires posting of lots as a pre-condition for towing from those lots.

At the request of Councilwoman Field, City Attorney Oast said that he would amend the ordinance per Vice-Mayor Hay's request and send a copy to the Merchants Action Coalition and the Asheville Downtown Association to see if they have any concerns with the proposed ordinance. He said that after he receives their input, he will bring this back to Council for possible action.

REPORTS ON BOARD AND COMMISSION

Councilwoman Field said that there is a bill pending that requires anyone appointed to a local board or commission must be a registered voter and a resident of North Carolina. She pointed out that if the bill passes, this will have to be checked before appointments to City boards or commissions are made.

Councilwoman Field noted that Mr. Scott Jarvis, Chair of the Asheville Downtown Commission, resigned and since the City Council appoints the Chair, she suggested that the Commission make a recommendation to City Council for that position.

At the request of Mayor Sitnick, City Attorney Oast said that he would prepare a resolution encouraging our state legislators to support House Bill 222, which strengthens the littering law by increasing the minimum and maximum fines for persons convicted of littering.

Mayor Sitnick pointed out that for any truck that goes into the County landfill that does not have a cover over their back load is subject to a $50 fine. Also with regard to littering, she reminded citizens that the City has a law that you must keep the front, sides and back area clean around your home and business.

Mayor Sitnick reminded City Council and the public of the Great Asheville-Buncombe Clean-Up which kicks off March 25, 1999. She reviewed several clean-up efforts that will take place around the City and encouraged City Council and the public to come out and help clean-up Asheville and Buncombe County.

Mayor Sitnick said that she has a video that shows by computer animation the three routes of the I-26 Connector if any Council member would like to see it.

Mayor Sitnick said that she received an anonymous fax about escort services which were advertised in the Mountain Xpress. The fax accused the Mayor and Council of not caring about our children. She noted that both establishments are in Buncombe County and are not located within the City of Asheville.

ADJOURNMENT:

Mayor Sitnick adjourned the meeting at 6:17 p.m.

Magdalen Burleson
CITY CLERK

Leni Sitnick
MAYOR

Tuesday - March 23,1999 - 5:00 p.m.

Regular Meeting

Present: Mayor Leni Sitnick, Presiding; Vice-Mayor Edward C. Hay Jr.; Councilman M. Charles Cloninger; Councilman Earl Cobb; Councilwoman Barbara Field; Councilman Thomas G. Sellers; and Councilman O.T. Tomes; City Attorney Robert W. Oast Jr.; City Manager James L. Westbrook Jr.; and Deputy City Clerk Phyllis Corns

Absent: None

INVOCATION

Councilman Cobb gave the invocation.

I. PROCLAMATIONS:

A. RESOLUTION NO. 99-47 - RESOLUTION SUPPORTING THE PARKS, RECREATION AND GREENWAYS BOND REFERENDUM

Councilman Cloninger read the resolution which says that the Asheville Parks, Recreation and Greenways Bond Measure would provide $18 million to expand and improve recreation opportunities through the preservation and acquisition of land for open spaces, natural areas, and greenways, the provision of new facilities, playfields and playgrounds; and renovation of existing parks and recreation facilities so as to enhance their utility and safety. The City Council of Asheville finds that neighborhood and community parks, natural areas and greenways, sports facilities and playing fields are a vital and necessary part of our community and help to preserve and improve the quality of life in the City of Asheville. The parks, recreation facilities and greenways confer significant health, environmental, and economic benefits to the community. The community parks and recreation facilities are in great need of funds to repair aging facilities and to meet the ever-growing demand for additional parks lands, greenways and facilities, and that this measure would help to address this need. The neighborhoods throughout the city will benefit from park expansion and improvement projects identified with extensive citizen input through the Parks and Recreation and Greenways Master Plans, developed and administered by the City's Department of Parks & Recreation. A broad-based coalition of citizens and community organizations has been formed to seek the approval of the voters for the Asheville Parks, Recreation and Greenways Bond Referendum. The City Council of the City of Asheville enthusiastically supports the Asheville Parks, Recreation and Greenways Bond Measure on the May 11 Special Election Ballot.

Mr. Russ Martin encouraged the City Council to encourage the voters of the City of Asheville to become informed about the measure and to vote in favor of it on May 11, 1999.

Resolution No. 99-47 was adopted by acclamation.

RESOLUTION BOOK NO. 25 - PAGE 176

B. PROCLAMATION PROCLAIMING THE WEEK OF MARCH 29-APRIL 4,1999, AS "COMMUNITY DEVELOPMENT WEEK" IN THE CITY OF ASHEVILLE

Councilwoman Field read the proclamation proclaiming the week of March 29-April 4, 1999, as "Community Development Week " in the City of Asheville. She presented the proclamation to Community Development Director Charlotte Caplan, who briefed City Council on some activities taking place during the week.

C. PROCLAMATION PROCLAIMING THE WEEK OF MARCH 29-APRIL 2,1999, AS "ASHEVILLE, MARCH TO WORK WEEK"

Vice-Mayor Hay read the proclamation proclaiming the week of March 29-April 2, 1999, as "Asheville, March to Work Week" in the City of Asheville. He presented the proclamation to Mr. Calvin Underwood Jr. who briefed City Council on some activities taking place during the week.

D. GREAT ASHEVILLE-BUNCOMBE CLEAN-UP CAMPAIGN

Mayor Sitnick announced that on March 25, 1999, the Great Asheville-Buncombe Clean-Up Campaign will be kicked off on Tunnel Road. She encouraged everyone to participate in the various anti-litter events around the City.

E. ASHEVILLE FILM BOARD

Mayor Sitnick said that the Asheville Film Board had an Oscar party to honor people on the Film Board and encourage those living here who are active in the industry to celebrate Asheville's new efforts toward this economic development aspect of our strategic plan. On behalf of the Board, Mayor Sitnick presented Councilman Cloninger, liaison to the Film Board, an Oscar.

II. CONSENT:

Mayor Sitnick stated that Item I. has been pulled from the Consent Agenda.

A. ORDINANCE NO. 2555 - BUDGET AMENDMENT TO APPROPRIATE FUNDS FOR THE 1999 BELE CHERE FESTIVAL

Summary: The Parks and Recreation Advisory Board, Bele Chere Board, and Parks and Recreation Department staff are presenting the 1999 Bele Chere Budget for City Council approval.

This is a budget ordinance amendment appropriating revenue and expenditures for the 1999 Bele Chere Festival. This budget has been approved by the Parks and Recreation Advisory Board, Bele Chere Board, and Parks and Recreation staff. This request represents a balanced budget with appropriate revenue offsetting expenditures.

The Parks and Recreation Advisory Board, Bele Chere Board, and Parks and Recreation staff recommend City Council adopt the budget amendment to appropriate funds for 1999 Bele Chere Festival.

ORDINANCE BOOK NO. 17 - PAGE 284

B. RESOLUTION NO. 99-48 - RESOLUTION AUTHORIZING THE CITY MANAGER TO APPLY FOR AND ENTER INTO AN AGREEMENT WITH THE COMMUNITY FOUNDATION OF WESTERN NORTH CAROLINA FOR A GRANT TO DEVELOP AND IMPLEMENT OUTDOOR ADVENTURE ACTIVITIES FOR THE SUMMER TEEN PROGRAM

Summary: The consideration of a resolution authorizing the City Manager to apply for and enter into an agreement with the Community Foundation of Western North Carolina for a grant to develop and implement outdoor adventure activities in the Summertime Kids 1999 Program.

Funds are available through the Community Foundation of Western North Carolina in the Summertime Kids 1999 program to provide fun and safe summer activities for youth. The Summer Teen Program is designed to provide recreation activities for teens ages 13-16 for eight weeks during the summer. The program is located at six locations throughout the city in community centers. The Teen Program will offer a wide variety of recreation activities and hands-on job training. Grant funds will be used to implement the outdoor enrichment activities including a challenge ropes course, rock climbing, rollerblading, and mountain biking. The amount of the grant request is $1,950. The Parks and Recreation Department's in-kind match of $26,708 will be in labor, administration, transportation, supplies, and training for the overall Summer Teen Program. The funds are budgeted in the Recreation Division.

The Parks and Recreation Department recommends City Council authorize the City Manager to apply for and enter into an agreement with the Community Foundation of Western North Carolina for a grant to develop and implement outdoor adventure activities in the Summertime Kids 1999 Program.

RESOLUTION BOOK NO. 25 - PAGE 177

C. RESOLUTION NO. 99-49 - RESOLUTION AUTHORIZING THE CITY MANAGER TO ACCEPT A GRANT RESISTANCE EDUCATION AND TRAINING GRANT FROM THE BUREAU OF ALCOHOL, TOBACCO AND FIREARMS

Summary: The consideration of a resolution authorizing the City Manager to accept grant funds under the Department of the Treasury, Bureau of Alcohol, Tobacco, and Firearms, Gang Resistance Education and Training Program.

The City of Asheville has been awarded a grant under the Fiscal Year 1999 Gang Resistance Education and Training (G.R.E.A.T.) Grant Program in the amount of $44,100.00. A local match of funds is not required. The purpose of the grant program is to fund the following three phases of G.R.E.A.T. education in the community:

Phase I: School-Based Education
Phase II: Summer Education/Recreation
Phase III: Parent Involvement Program

The specific implementation plan of the three phases has not yet been determined.

City staff recommends that the City Council authorize the City Manager to accept the Grant Resistance Education and Training Grant from the Bureau of Alcohol, Tobacco and Firearms.

RESOLUTION BOOK NO. 25 - PAGE 178

D. ORDINANCE NO. 2556 - BUDGET AMENDMENT TO ACCEPT THE GRANT RESISTANCE EDUCATION AND TRAINING GRANT

Summary: See Item "F" above.

ORDINANCE BOOK NO. 17 - PAGE 289

E. RESOLUTION NO. 99-50 - RESOLUTION ESTABLISHING FAIR REUSE VALUES FOR 135 CHERRY STREET AND PARCEL 59X ON ASHELAND AVENUE

Summary: The consideration of a resolution establishing fair reuse values for 135 Cherry Street and Disposal Parcel 59X in order to market the properties.

Disposal Parcel 59X is located on the west side of Asheland Avenue about 400 feet north of Phifer Street and comprises 27,835 square feet. Terrain includes an elevated berm along the street, some level to gently sloping land behind the berm, and some moderately sloping land at the south end of the lot. The property is crossed by easements which occupy approximately 18.8% of the property thus severely restricting the utility of the land. The zoning is Office Business. The site is best suited for parking and/or possible small commercial building. Francis Naeger, MAI, appraised the site at $139,000 and Joseph Moore, Certified General Appraiser, reviewed the appraisal and recommended the appraised value.

Disposal Parcel 6D is located at 135 Cherry Street fronting the Montford Avenue exit ramp from I-240. The lot comprising 6974 square feet is elevated above street grade and level to gently sloping. Improvements consist of a two story, frame, residential structure of 1,984 square feet being used as offices and seven paved and striped parking spaces. The zoning is Office. Richard Jacobs, MAI, appraised the property at $105,000 and Benjamin Beasley, MAI, reviewed the appraisal and recommended the appraised value.

Community Development staff recommends adoption of the resolution.

RESOLUTION BOOK NO. 25 - PAGE 179

F. RESOLUTION NO. 99-51- RESOLUTION AUTHORIZING THE CITY MANAGER TO AMEND THE TRAFFIC ENGINEERING CONTRACT WITH KUBILINS TRAFFIC CONSULTANTS INC.

Summary: The consideration of increasing the contract price for work to be performed for City of Asheville area by Kubilins Traffic Consultants, Inc. , consultant, to include reviews of Traffic Impact Analysis (TIA's), speed studies, stop sign warrants, etc. as requested by the City Engineer.

The City entered into a contract with Kubilins Traffic Consultants, Inc., to perform various traffic engineering analysis during the time the City was without a Traffic Engineer. The original contract was in the amount of $20,000. Their services have proven to be extremely beneficial to the City of Asheville, in that they have been able to review TIA's very quickly, perform stop sign warrant analysis, and other traffic engineering tasks.

The City has hired a Traffic Engineer, Michael Moule, that will begin work on March 15, 1999. Staff would like to retain Kubilins Traffic Consultants to assist Mr. Moule in traffic engineering functions during his first six months of employment.

The funds for this amendment are in the Traffic Engineering Division's operating budget for professional services.

Staff recommends that the City Council accept this amendment to increase the contract with Kubilins Traffic Consultants, Inc. in the amount of $20,000 and authorize the City Manager to execute all necessary documents for this contract.

RESOLUTION BOOK NO. 25 - PAGE 180

G. ORDINANCE NO. 2557- BUDGET AMENDMENT TO REALLOCATE UNUSED HENDERSON COUNTY HOME FUNDS TO TRANSYLVANIA COUNTY HOUSING CORPORATION

Summary: The consideration of a budget amendment, in the amount of $36,529, to reallocate unused HOME funds from Henderson County to Transylvania County Housing Development Corporation.

On September 22, 1998 the City received a letter from David E. Nicholson, Henderson County Manager. It stated that Henderson County had no projects on which to use the Fiscal Year 1994 HOME funds and chose to return the funds to the Asheville Regional Housing Consortium for use on other regional projects. On December 9, 1998, the Asheville Regional Housing Consortium Board voted to reallocate the unused funds from Henderson County to Transylvania County Housing Development Corp. Transylvania County Housing Development Corp. has proposed to use these funds for new construction activities in a subdivision it is developing.

City staff recommends City Council adopt a budget ordinance amendment, in the amount of $36,529, to reallocate unused HOME funds from Henderson County to Transylvania County Housing Development Corporation.

ORDINANCE BOOK NO. 17 - PAGE 291

H. MOTION ENDORSING THE PARKS & RECREATION DEPARTMENT'S CONCEPT OF THE AT-RISK YOUTH INITIATIVE

I. RESOLUTION AUTHORIZING THE SALE OF A VACANT LOT ON PARK AVENUE

This item was pulled from Council's agenda.

J. RESOLUTION NO. 99-52- RESOLUTION ENCOURAGING OUR STATE LEGISLATORS TO SUPPORT HOUSE BILL 222, HOUSE BILL 352 AND SENATE BILL 287 WHICH STRENGTHENS THE LITTERING LAW

Summary: The consideration of a resolution endorsing and urging passage of House Bill 222, strengthening the penalties for littering violations..

On March 3, 1999, a bill was introduced in the North Carolina General Assembly to strengthen the littering laws of North Carolina by increasing the amounts of the minimum and maximum fines for violations, and by requiring community service as part of the penalty for violation. As City Council is aware, the City has identified littering as a problem of community-wide concern, and has undertaken its own efforts to improve enforcement of its anti-littering ordinances. Additionally, "The Great Asheville-Buncombe Cleanup" campaign begins on March 25, 1999, and the introduction of House Bill 222 is a useful coincidence with the announcement of this campaign. Currently, the penalty for littering of up to 15 pounds, which would encompass most of the violations that occur within the City, is a fine of from $100 to $500, and community service, in the form of picking up litter, may be required. The fines escalate as the amount (measured in pounds) of litter increases, and the type and amount of community service and other remedial actions becomes more onerous on the violator. The proposed changes to the law would have the effect of increasing the minimum and maximum possible fines for each level of violation, and would require the court to impose community service as part of the penalty for the lowest class of violation. Currently, community service is discretionary with the court.

City Attorney Oast explained two additional bills (House Bill 352 and Senate Bill 287) which also improve enforcement of littering. He asked that these two additional bills be included in Council's resolution endorsement.

RESOLUTION BOOK NO. 25 - PAGE 181

Mayor Sitnick said that members of Council have been previously furnished with a copy of the resolutions and ordinances and the Consent Agenda and they would not be read.

Councilwoman Field moved for the adoption of the Consent Agenda, with the addition of the two littering bills described by City Attorney Oast in Resolution No. 99-52. This motion was seconded by Councilman Tomes and carried unanimously.

III. PUBLIC HEARINGS:

A. PUBLIC HEARING RELATIVE TO REZONING PROPERTY LOCATED ON LIVINGSTON STREET, SOUTH FRENCH BROAD AVENUE AND CHOCTAW STREET FROM OFFICE BUSINESS DISTRICT TO OFFICE II DISTRICT

ORDINANCE NO. 2558 - ORDINANCE REZONING PROPERTY LOCATED ON LIVINGSTON STREET, SOUTH FRENCH BROAD AVENUE AND CHOCTAW STREET FROM OFFICE BUSINESS DISTRICT TO OFFICE II DISTRICT

Mayor Sitnick opened the public hearing at 5:34 p.m.

Deputy City Clerk Corns presented the notice to the public setting the time and date of the public hearing.

Due to a conflict of interest, Vice-Mayor Hay moved to excuse Councilman Tomes from voting. This motion was seconded by Councilman Cloninger and carried unanimously.

Mr. Gerald Green, Senior Planner, said that this is the consideration of an ordinance rezoning property located on Livingston Street, South French Broad Avenue and Choctaw Street from Office Business District to Office II District.

The Asheville Planning and Zoning Commission, at their February 3, 1999, meeting, reviewed and recommended denial of the rezoning of property located on Livingston Street and South French Broad Avenue from Office District to Office II District. Eight parcels are included in the area being considered for rezoning. Current land uses on the parcels include medical offices, a credit union, a clinic, a community center, and some vacant land. The current Office zoning of the property permits structures with a maximum footprint of 4,000 sq. ft. and up to 8,000 sq. ft. total floor area. The proposed zoning would increase the permitted structure size to a footprint of 8,000 sq. ft. and a maximum gross floor area of 16,000 sq. ft. Three of the existing structures (out of seven) in the area are currently non-conforming due to size and a proposed structure exceeds the size currently permitted. The proposed rezoning would make those buildings conforming in terms of the footprint, except for the recreation center (over 20,000 square feet) which will still slightly exceed the maximum footprint permitted for the proposed Office II zoning. The streets which access the property are adequate to serve the scale of development permitted under the Office II zoning. The scale of existing structures in the area is varied, with the larger institutional uses on Livingston Street transitioning to the residential scale uses of South French Broad Avenue. The vacant property has been purchased by the Opportunity Corporation which wishes to build an office in that area, which original plans call for a building larger than permitted under the current Office zoning.

Comments from the public regarding this request identified a concern that the size of development permitted in the Office II District would be out of scale with the residential uses in the South French Avenue area, even though this proposal will decrease the allowable structure size.

The Planning and Development staff recommend approval of the rezoning. At their meeting on February 3, 1999, the Asheville Planning and Zoning Commission voted 5 to 1 to recommend denial of the rezoning.

The following persons spoke in opposition to the rezoning (not against the Opportunity Corporation and not against child care) for several reasons, some being, but not limited to: residents do not want to increase the allowable dimensions of office structures in this area; the Opportunity Corporation can building something in the legal requirements of the existing Office zoning or there are other sites in the City that can accommodate them; conflict of established homes in the area (around 1,000 square feet) and the proposal of allowing 16,000 square feet (with an 8,000 square foot footprint); topography of the area may cause buffering concerns between conflicting uses; additional traffic from larger buildings; area is ideal for affordable housing and Office II zoning is too intrusive for the residential area; possibility of using a rezoning proposal to essentially obscure an illegal spot zoning (Opportunity Corporation building); possible decrease in the value of homes by the appearance of a large structure; Gaston Street is a very narrow street and will not accommodate additional traffic; and the proposed entrance on Gaston Street is in a very sharp curve which will be a safety hazard to children:

Mr. Mel Thomason, property owner on Ora Street
Mr. William Coxe, resident of 24 Gaston Street
Ms. Ann Hunting Williams, resident of 48 Gaston Street
Mr. Edward Smith, representative of the Southside Community Organization
Ms. Sandra Davis, resident of 16 Gaston Street
Ms. Mildred Nance Carson, resident of Gaston Street

Upon inquiry of Mayor Sitnick, City Attorney Oast said that only a court can determine if something is spot zoning or not, however, they do look at certain factors, like if a tract of land under single ownership has been singled out for treatment different from the treatment afforded to its neighbors. The size is one factor in that, but so are the number of parcels involved.

City Attorney Oast advised Council to disregard any specific representation about what use the property may be put to because if it is rezoned to Office II, it can be used for any admissible purpose in that designation.

Ms. Vicki Heidinger, representative of the Opportunity Corporation, reviewed with Council the history of the Reid Center Annex Building. In 1997 they made a proposal to City staff to renovate the building in order to re-open it for a Head Start Child Development Center. In the spring of 1997, they submitted a request to their funders to serve 100 children at this site. Their request was approved for 96 children, however, their current plans are to serve 90 children.

When they began their design in early 1998, they discovered an error in Unified Development Ordinance language for permitted uses for child care (they were told that they could only be permitted for 50 children). At that time they did not understand that there would be a limit or a cap set on the number of children that can be served in the Office zoning designation. They believe that the impact on the community of 50 children under the current zoning versus 100 children under the proposed rezoning is limited. They believe the impact of this zoning change for this child care facility will not adversely impact the neighborhood adjacent to the Reid Center, however, the number of children in the building is absolutely critical to the Opportunity Corporation and to the viability of the project. Had they known they would be limited to 50 in the building, they would not have pursued the project. She said that their proposed building (9,000 total square feet as designed at this point), will be a very low impact in the residential-flavor neighborhood area. They will be willing to work more with the neighborhood with concerns around safety or adequacy of entrance. She said that in order to bring the building back into scale of the Office designation (8,000 square feet) would mean a significant loss of things, most notably a community resource room, and it would also create a problem for their long term viability in the area.

Mr. Calvin Underwood, Director of the Buncombe County Department of Social Services, said that this will be an asset to the low income families in the area that need quality child day care.

Upon inquiry of Mayor Sitnick about the lack of the Opportunity Corporation's notice of the Planning & Zoning Commission meeting, City Manager Westbrook said that the City uses the Buncombe County's database for notifying property owners in the area.

Ms. Willie Mae Brown, member of the Board of Directors for the Opportunity Corporation, stressed that this facility will benefit the children.

Mr. Daniel Breen suggested a one story building be built with the top being 4,000 square feet and the basement being 5,000 square feet.

Ms. D. Blake, former resident of Erskine Street, spoke about her positive experience with the child day care in the area.

Upon inquiry of Mayor Sitnick about a possible variance, Ms. Heidinger said that they did consider applying to the Board of Adjustment for a variance for the child care center, however, they were told that it was not a good idea for the City to give a variance on their own building (the Opportunity Corporation leases the building from the City of Asheville).

Mayor Sitnick closed the public hearing at 6:37 p.m.

Mayor Sitnick said that members of Council have previously received a copy of the ordinance and it would not be read.

Councilman Sellers moved for the adoption of Ordinance No. 2558. This motion was seconded by Councilman Cloninger.

Vice-Mayor Hay felt that had the Office II District been available when the Unified Development Ordinance was adopted the area probably would have been designated the Office II designation. He also felt that there wasn't any room for expansion of the existing buildings.

Mayor Sitnick said that she is basically opposed to intruding deep into neighborhoods, however, (1) we are not expanding the Office District and there is no chance that it will be expanded; and (2) the area is already developed out and won't have any more opportunity for large construction. She noted also that the Opportunity Corporation will only be adding 500 square feet to the footprint.

Councilwoman Field noted that three out of the six existing buildings in the area are out of compliance.

The motion made by Councilman Sellers and seconded by Councilman Cloninger carried unanimously.

ORDINANCE BOOK NO. 17 - PAGE 293

B. PUBLIC HEARING RELATIVE TO ZONING SECTION 12 OF BILTMORE PARK TO RS-8 RESIDENTIAL SINGLE-FAMILY HIGH DENSITY DISTRICT

ORDINANCE NO. 2559 - ORDINANCE ZONING SECTION 12 OF BILTMORE PARK TO RS-8 RESIDENTIAL SINGLE-FAMILY HIGH DENSITY DISTRICT

Mayor Sitnick opened the public hearing at 6:47 p.m.

Deputy City Clerk Corns presented the notice to the public setting the time and date of the public hearing.

Mr. Bruce Black, Urban Planner, said that this is the consideration of an ordinance to zone Section 12 of Biltmore Park RS-8 Residential High Density District.

The owner and applicant, Biltmore Farms Inc., has requested the zoning of Section 12 of Biltmore Park Subdivision to RS-8 Residential Single-Family High Density District. This section was annexed into the City of Asheville effective December 23, 1998.

The Planning staff reviewed the rezoning request and recommended approval to the Planning and Zoning Commission. At their March 3, 1999, meeting, the Planning & Zoning Commission voted five to zero to recommend approval of the initial zoning of Section 12 of Biltmore Park Subdivision as RS-8 Residential Single-Family High Density District.

Mayor Sitnick closed the public hearing at 6:58 p.m.

Mayor Sitnick said that members of Council have previously received a copy of the ordinance and it would not be read.

Councilwoman Field moved for the adoption of Ordinance No. 2559. This motion was seconded by Councilman Tomes and carried unanimously.

ORDINANCE BOOK NO. 17 - PAGE 295

C. PUBLIC HEARING RELATIVE TO REZONING 49 ACRES OFF GERBER ROAD FROM INDUSTRIAL DISTRICT TO COMMERCIAL INDUSTRIAL DISTRICT

ORDINANCE NO. 2560 - ORDINANCE REZONING APPROXIMATELY 21.57 ACRES OFF GERBER ROAD FROM INDUSTRIAL DISTRICT TO COMMERCIAL INDUSTRIAL DISTRICT

Mayor Sitnick opened the public hearing at 6:59 p.m.

Deputy City Clerk Corns presented the notice to the public setting the time and date of the public hearing.

Mr. Bruce Black, Urban Planner, said that this is the consideration of a request to rezone a portion of the Gerber industrial property on Gerber Road from Industrial District to Commercial Industrial District.

The owners and applicants, Gerber Products Company and Asheville Hendersonville Investors LLC., represented by Van Winkle Law Firm, have requested the rezoning of a portion of the Gerber property (approximately 49 acres) on Gerber Road (PIN No. 9655-09-26-4955) from Industrial District to Commercial Industrial District.

This property, located north of Gerber Road and east of Hendersonville Road, is currently occupied by an industrial structure of about 600,000 square feet. The land is flat and developed, with direct rail access. All of the land is usable for industrial purposes.

The front portion of the existing industrial structure was constructed purely for the purposes of Gerber Products Company, and is not generally usable by other industrial firms (per the Chamber of Commerce). The assumption is that any industrial or other user of the property would likely have to raize at least the southerly half of the existing structure to make use of the property. The northerly one half of the structure is more generally usable for industrial purposes. There is a water treatment facility designed for use by Gerber Products Company in treatment of process water which is located south of Gerber Road, and is currently zoned Commercial Industrial, and is not a part of the rezoning request.

The property is bounded on the east side by over 1200 feet of rail frontage. There is a rail spur onto the property. On the south side the property is traversed or bounded by Gerber Road, which has a signalized intersection with Hendersonville Road. On the west side, a small portion of the property fronts on Hendersonville Road and has an office building located on it. This did not serve as a main access for the plant traffic. The remainder of the property on the west side and all of the property on the north side is adjacent to a Highway Business District.

Gerber Road is a two lane road 22 feet in width, shown in City records to be a City maintained street. The Gerber Products plant was accessed by this road during its operation, and served general public traffic as well as plant employee traffic and semi-trailer truck traffic serving the plant.

The application for Commercial Industrial zoning would allow the property to be developed or used for either industrial or commercial uses. This could include uses similar to the Gerber plant or large scale retail commercial uses. According to the City Engineering Department, a large scale retail use on the property could increase the traffic on Gerber Road, compared to the Gerber plant when it was in operation.

At their meeting of February 23, 1999, City Council approved the selection of Lockwood Greene Consulting to perform the Strategic Plan for Economic Development for the City of Asheville. One of the tasks contained in the Scope of Work for this project includes the following:

> *Perform a location and site analysis of the City of Asheville and future growth areas for the City including an examination of select locations/sites, environmental/engineering review and financial calculations for each location/site.*

The time frame provided to complete the Strategic Plan by Lockwood Greene Consulting is four months. In discussions with Mr. Dave Kolzow subsequent to the Planning and Zoning

Commission meeting, he agreed to do the site assessment of the Gerber property and formulate a recommendation to the City regarding potential future use of the property within 30 days.

Staff feels that it is in the best interest of the City to receive input from the Strategic Plan prior to action which could result in loss of this site from the industrial zoned property inventory. The two dissenting votes by the Planning Commission members included similar concerns.

The Planning staff remains concerned about removing this property from the inventory of available industrial land in the City of Asheville, and recommends that consideration of this zoning request be delayed until the completion of that portion of the Strategic Plan for Economic Development which will focus on the Gerber Property.

The Planning and Zoning Commission, at its meeting of March 3, 1999, recommended approval by a vote of three to two. The two dissenting votes shared staff's concern regarding loss of this property from the inventory of available industrial land and the likelihood it would be developed as a commercial development.

After the Planning & Zoning Commission meeting, the attorney for the applicant met with City staff on March 22, 1999, and after discussions, the applicant indicated that they would be receptive to reducing the acreage of the rezoning request such that only the southern portion adjacent to Gerber Road, comprising approximately 22 acres, would be requested to be rezoned to Commercial Industrial.

This is based on the applicant's intention to continue the use of the northern or back part of the property, the part containing the relatively new buildings, for industrial uses consistent with the current zoning classification.

By requesting the Community Industrial zoning, it is also the applicant's intent to gain flexibility on the remaining section of the parcel which currently contains the older more specialized buildings.

The applicant has been unable to sell the Gerber Plant primarily because of the specialized construction on the southern part of the property. Due to the building construction, users would more likely either have to demolish this portion or be a "wet" type industrial user (e.g., food processor or textile manufacturer) which are not prevalent users in today's market.

The applicant also desires to maintain access to the northern portion of the property regardless of the eventual use of the southern portion of the property north of Gerber Road. To do this, the applicant must maintain an Industrial or Commercial Industrial zoning on the southern portion of the property.

Staff has continuously expressed a concern about the transference of industrial property to categories which could allow the industrial use of the property to be lost. Therefore, the applicant seems amenable to modifying the request to ask for rezoning to Commercial Industrial on only the southern portion of the property, with the northern portion of the property remaining as it currently is zoned, Industrial District. Such an action by Council is provided for in the Unified Development Ordinance under Section 7-7-5 (3) d., Pg. CD7:123.

This request would preserve about half of the property as Industrial, allow access through the Commercial Industrial section of the property to the Industrial section of the property, and create a more flexible situation for the applicant on the southern portion of the property, while satisfying the applicant's stated intent to continue to use the northern portion of the property for industrial uses.

In the event that the applicant revises the rezoning request such that only the southern portion (approximately 22 acres of the 49 acre site) is requested to be rezoned to Commercial Industrial, staff supports this request. This is based upon the necessity to demolish the southern portion of the building to facilitate new development.

Mr. Craig Justus, attorney representing the developer and applicant, said that their original request was for the rezoning of the entire 49 acre tract. He passed out an aerial photograph of the modified rezoning request. Since the Planning & Zoning Commission meeting, he has met with staff to talk about staff's concerns. After that meeting, they have decided to modify the rezoning request such that only the southern portion (approximately 21.57 acres) be requested to be rezoned Commercial Industrial and that the northern portion (approximately 25 acres) remain zoned Industrial. The original reason they asked for the entire 49 acres to be Commercial Industrial was because they were concerned about the question of whether they could drive through a Commercial Industrial zone to get back to the property zoned Industrial. Initial discussions with staff was that they could not do that, however, after the Interim Planning & Development Director's interpretation is that they can actually drive through the Commercial Industrial District to industrially zoned property.

Councilwoman Field said that the City has been accused many times about running Gerber out, by over-regulating, but was delighted to hear that we will be doing something to add to the tax base in an area that is certainly appropriate for this kind of development.

Mayor Sitnick closed the public hearing at 7:15 p.m.

Mayor Sitnick said that members of Council have previously received a copy of the ordinance and it would not be read.

Councilwoman Field moved for the adoption of Ordinance No. 2560 to rezone approximately 21.57 acres of property adjacent to Gerber Road from Industrial to Commercial Industrial. This motion was seconded by Councilman Sellers and carried unanimously.

ORDINANCE BOOK NO. 17 - PAGE 397

IV. UNFINISHED BUSINESS:

V. NEW BUSINESS:

A. CONSIDERATION OF WAIVING THE ASHEVILLE STANDARD SPECIFICATIONS AND DETAILS MANUAL SIDEWALK REQUIREMENT FOR SWEETEN CREEK MINI-STORAGE AT 2600 SWEETEN CREEK ROAD

Ms. Cathy Ball, Director of Engineering, said that this is the consideration of waiving the Unified Development Ordinance (UDO) and the Asheville Standard Specifications and Details Manual (Standards Manual) requirement for a sidewalk along Sweeten Creek Road for Sweeten Creek Mini-Storage.

Section 7-8-16 (f) (10) of the Unified Development Ordinance requires that new construction on property zoned Regional Business District place sidewalks as specified in the Asheville Standard Specifications and Details Manual (Standards Manual) along street rights-of-way. M.W.I. Properties, LLC, the developer for Sweeten Creek Mini-Storage, proposes to build a self-storage facility at 2600 Sweeten Creek Road. Sweeten Creek Road is a state maintained road.

The Standards Manual requires a five foot sidewalk along the rights-of-way for all newly developed non-residential projects. The Standards Manual requires any waiver be granted by the City Council with a recommendation presented by staff.

Staff does not recommend that City Council waive the requirement that a sidewalk be placed on Sweeten Creek Road due to the fact that Sweeten Creek Road is a major thoroughfare and according to our Standards Manual sidewalks should be placed on both sides of the road. The widening of this section of Sweeten Creek Road is currently scheduled for 2008. If the sidewalk exists at the time the N.C. Dept. of Transportation widens the road, the State pays 100% of the costs to construct a new sidewalk. Currently the City does not have a procedure whereby the developer can pay for the costs of the sidewalk in lieu of constructing it.

City staff requests that City Council not waive the requirement that a sidewalk be placed along Sweeten Creek Road as required by the UDO Section 7-8-16 (f) (10) for the Sweeten Creek Mini-Storage Facility.

Upon inquiry of Councilwoman Field about when the Pedestrian Thoroughfare Plan (which contains the provision whereby the developer can pay for the costs of the sidewalk in lieu of constructing it) will be adopted, Ms. Ball said that the Plan will be before City Council by the end of May, 1999. Ms. Ball stated that the applicant would not be able to obtain their Certificate of Occupancy until this issue is resolved.

When Councilman Sellers asked about the cost for installing the sidewalk, Ms. Ball said that since this is a very large linear footage (430 feet) so there is a substantial cost (about $6-7/foot) in putting in a five-foot concrete sidewalk.

Mr. Mike Robinson, President of M.W.I. Properties, said that in October of 1998 he filed an appeal with the Board of Adjustment and the Board was supposed to meet December 21. On the morning of December 21 he was told that he was not to appear and has yet to get his $100 filing fee returned. Since that time he has been working on getting to this point. His appeal to the Board was that there are no sidewalks (approximately 6-8 miles) from Biltmore to the Airport on Sweeten Creek Road at this time. There has been new development established within the last year down from his property and they have not had to put in new sidewalks. He felt it was not fair for the developers to install this sidewalk. He said they do plan to do more than what the landscape ordinance requires them to do. He wondered if the properties that are already built will be grand-fathered in and will the City have to build the sidewalks in the future. He also questioned who will maintain the sidewalks. He felt that since there is such a great demand for sidewalks on major thoroughfares, why isn't there a bond referendum to see if the public actually supports it, instead of just the UDO.

Mr. Dennis Weaver, representing the Ballantree Homeowners Association which is directly across this development, said that they have met with the developers and they have been very responsive to their requests in terms of lighting, signage, security concerns and a buffer zone. They are opposed to the enforcement of the requirement for a sidewalk along Sweeten Creek Road for Sweeten Creek Mini-Storage. He said this sidewalk would create a safety hazard to our children because it would be the only strip of sidewalk on a very busy road. There is no development there to cater to foot traffic. The sidewalk would go nowhere and serve no purpose.

Upon inquiry of Councilwoman Field, Ms. Ball said that in the Transportation Improvement Plan, sidewalks will be required on one side of Sweeten Creek Road.

Ms. Ball said that the three projects on Sweeten Creek Road that Mr. Robinson said did not put sidewalks in was that two of them were both approved prior to adoption of the UDO and the other project had a bond posted.

Councilwoman Field said that ultimately there will be a complete sidewalk, however, right now it makes sense for there to be a buffer.

Ms. Ball suggested that the City issue the developer a temporary Certificate of Occupancy until the Pedestrian Thoroughfare Plan is before City Council for adoption. If, in the Pedestrian Thoroughfare Plan, the provision whereby the developer can pay for the costs of the sidewalk in lieu of constructing it, is not specifically spelled out, Engineering Department staff will work with the Public Works staff to make sure make that provision is part of the Plan.

City Manager Westbrook said that there will be standards in the Pedestrian Thoroughfare Plan.

Vice-Mayor Hay said that Council is trying to find a way to avoid building a sidewalk now and still acknowledge that there will be sidewalks built all along Sweeten Creek Road.

Upon inquiry of Councilman Cloninger, City Attorney Oast said that Council can refer this back to staff to see if there are alternatives available.

Vice-Mayor Hay suggested Council authorize staff to issue a temporary Certificate of Occupancy, so the developer can proceed with his project, until staff reports back with the available alternatives.

Upon inquiry of Councilman Sellers, Mr. Robinson said that they are under construction now and the project will probably not be completed for another three to four months.

City Attorney Oast said that any Certificate of Occupancy or any approvals could be subject to compliance with whatever Council ultimately decides.

Ms. Ball said that the Pedestrian Thoroughfare Plan reads that "it is recommended that an impact fee for financing pedestrian projects be established."

City Attorney Oast said that the City may not have statutory authority to require fees in lieu of and he would like to have the opportunity to research this issue. He did think that the City can work out an arrangement whereby the developer can proceed with construction and the Certificate of Occupancy can be issued possibly subject to later compliance with whatever ordinance Council does adopt and perhaps a bond taken to secure performance.

It was the consensus of Council to defer this matter back to staff to find out what alternatives are available and then report back to Council as quickly as possible.

Councilwoman Field asked Mr. Michael Moule, the City's Traffic Engineer, to report back to Council with some information regarding street widths and the capacity of those streets. Mr. Moule said that he would give Council that information, however, it is really dependent on if there is a traffic signal, parking on the street, or other features in the area. He felt that most streets need to be reviewed on a case by case basis.

VI. OTHER BUSINESS:

A. APPROVAL OF THE MINUTES OF THE REGULAR MEETING HELD ON MARCH 9, 1999, AND THE WORKSESSION HELD ON MARCH 16, 1999

396

Councilman Tomes moved for the adoption of the minutes of the regular meeting held on March 9, 1999, and the worksession held on March 16, 1999. This motion was seconded by Councilman Sellers and carried unanimously.

B. CLAIMS

The following claims were received by the City of Asheville during the week of February 26 - March 18, 1999: Terry Owen (Water), George Loftis (Water), George Morosani (Water) and Richard Gorglione (Water).

These claims have been referred to Asheville Claims Corporation for investigation.

VII. INFORMAL DISCUSSION AND PUBLIC COMMENT:

Anti-Litter Campaign

Councilman Cloninger thanked Mayor Sitnick for her leadership on the anti-litter campaign.

Closed Session

At 7:49 p.m., Councilwoman Field moved to go into closed session to consult with an attorney employed by the City in order to preserve the attorney-client privilege between the City and its attorney. The parties to the lawsuit about which the Council expects to receive advice are: CC&J Enterprise, the City of Asheville, and the Jackson Park/Woolsey Neighborhood Association - G.S. 143-318.11 (a) (3). This motion was seconded by Councilman Sellers and carried unanimously.

At 8:07 p.m., Councilman Sellers moved to come out of closed session. This motion was seconded by Councilman Cobb and carried unanimously.

VIII. ADJOURNMENT:

Mayor Sitnick adjourned the meeting at 8:07 p.m.

Magdalen Burleson
CITY CLERK

Leni Sitnick
MAYOR

Tuesday - March 30, 1999
East Asheville Community Center
906 Tunnel Road

7:00 p.m. - Community Meeting

Present: Mayor Leni Sitnick, Presiding; Vice-Mayor Edward C. Hay Jr.; Councilman M. Charles Cloninger; Councilman Earl Cobb; Councilwoman Barbara Field; Councilman Thomas G. Sellers; and Councilman O.T. Tomes; City Attorney Robert W. Oast Jr.; City Manager James L. Westbrook Jr.; and Deputy City Clerk Phyllis Corns

Absent: None

The following topics were raised by residents and addressed by City Council and City staff: I-26 connector; speeding problems on Crockett Road and Whitson Road; trash problems in the Crockett Road area and on the bank near the Asheville Mall between the Mall and Lowe's; who is responsible for maintaining the culverts on US 70 to South Tunnel Road; the public needs to be educated about recycling in that items are put out from recycling and then are scattered by the wind; there is a deep ravine on Cisco Road near the City limit where old appliances had been dumped; support of the Parks, Recreation and Greenways bond referendum; speeding on the the exit ramp from I-240 onto Tunnel Road (heading east toward the Dept. of Motor Vehicles); what can be done to improve the appearance of the grounds of the East Asheville Community Center; there needs to be an amendment to the sign ordinance to permit community oriented directional signs in neighborhoods; what can be done to enforce the junked car ordinance, especially on Cisco Road; businesses and fast food establishments need to be encouraged to participate in the litter campaign; has the City looked at what the additional costs are for each new park, especially in terms of more Police Department patrols due to the crime parks often become a haven for; what does ADA stand for; and danger of posting signs on poles.

Councilman Cobb spoke on the importance of efforts to collect litter/trash in the Asheville area and the need to target businesses.

Mayor Sitnick advised she has asked the City Attorney to draft a cigarette butt ordinance.

Mayor Sitnick adjourned the meeting at 8:17 p.m.

Magdalen Burleson
CITY CLERK

Leni Sitnick
MAYOR

Tuesday - April 6, 1999 - 3:00 p.m.

Worksession

Present: Mayor Leni Sitnick, Presiding; Vice-Mayor Edward C. Hay Jr.; Councilman M. Charles Cloninger; Councilman Earl Cobb; Councilwoman Barbara Field; Councilman Thomas G. Sellers; and Councilman O.T. Tomes; City Attorney Robert W. Oast Jr.; City Manager James L. Westbrook Jr.; and City Clerk Magdalen Burleson

Absent: None

CONSENT:

Resolution of Intent to Permanently Close a portion of Pond Avenue off Lee Street

Summary: The consideration of a resolution of intent to permanently close a portion of Pond Avenue off Lee Street and setting a public hearing on May 11, 1999.

A petition has been received from Lucie Mae Ratliff requesting that Pond Avenue from Lee Street to the intersection with the Southern Railway Company right-of-way be permanently closed to public use.

The petition received includes the affidavit of Lucie Mae Ratliff, owner of parcels 9654.05-19-4691 and 4882. Ms. Ratliff owns all of the property with frontage on the unopened street between Lee Street and the Southern Railway right-of-way that has been petitioned to be closed.

This portion of Pond Avenue is a paper street and has never been used as a street. The City has no plans to utilize this street. All utility companies will be contacted, the resolution of intent to close a portion of Pond Avenue off Lee Street will be advertised in a local paper, and the location will be posted with the resolution of intent to close.

The Public Works Department staff recommends the resolution of intent to permanently close Pond Avenue from Lee Street in a easterly direction to the intersection with the Southern Railway right-of-way be adopted.

Resolution and Budget Amendment relative to Lustar Economic Development Grant

Summary: The consideration of entering into an agreement and appropriating funds as an economic development incentive for Lustar Dyeing and Finishing, Inc.

Lustar Dyeing and Finishing, Inc. (Lustar) is located on Caribou Road in the corporate limits of the City of Asheville. In 1997 representatives of Lustar contacted the City of Asheville requesting consideration of economic development incentives as a part of a proposal to expand their operations at the current facility. City staff reviewed the request and determined that based upon their projected investment of $3.6 million the City contribution would be in an amount not to exceed $76,950. The City's projected contribution was based upon the property tax revenue over a five (5) year period. Additionally, the development was to create approximately 20 new jobs paying an average wage of $12.50 per hour. Resolution 97-248 is related to this project and was adopted by Council on December 16, 1997.

Lustar has now completed the expansion of their facility. Staff has prepared a revised agreement for consideration by City Council. I would also note that prior to the disbursement of any funds to Lustar, they must provide the City with a Letter of Credit in the full amount of the City's contribution which will allow the City to recoup any funds paid out during the five (5) year period should Lustar not uphold the terms of the agreement.

Staff is in the process of finalizing and verifying amounts related to the agreement. Additionally, staff has prepared a budget ordinance amendment in the amount of $76,950 appropriating funds in accordance with prior City Council action.

Staff recommends that the revised agreement and budget ordinance amendment be approved by City Council allowing the disbursement of funds in the amount of $76,950 to Lustar Dyeing and Finishing, Inc.

Summer Food Service Program for Children

Summary: The City of Asheville wishes to apply for funding through the North Carolina Department of Health and Human Resources, Division of Maternal and Child Health, Child and Adult Care Food Program to provide food service in the Summer Day Camp Program.

The Summer Day Camp Program will provide supervised licensed child care, recreation, enrichment activities, and food service for children in kindergarten through 5th grade, June 7 through August 6, 1999, Monday through Friday, 7:30 a.m. 6 p.m. $75 per week for city residents, $85 per week for non-city residents. Sites will be located at Claxton, Hall Fletcher, Jones, Dickson, and Vance Elementary Schools; and Reid Community Center. Breakfast, lunch and snacks will be provided daily at no extra cost. The number of meals and amount of reimbursement will vary based on the total meals actually served each month.

The Parks and Recreation Department recommends the City of Asheville apply for the Summer Food Service Program for Children through the North Carolina Department of Health and Human Resources.

MSD Easement in Roger D. Farmer Memorial Park

Summary: The staff is recommending that the City grant an easement for an upgrade to an existing sewer line which will be upgraded in Roger D. Farmer Memorial Park.

Staff has been working with Martin-McGill, a consultant for the Metropolitan Sewerage District, in coordinating improvements to be made on an existing sanitary sewer line and its permanent easement. The Parks and Recreation staff concurs with the final easement agreement draft, addendum and other provisions which will return the site to its current condition. The existing sewer line improvement and easement will not interfere with the usage of the park.

Staff recommends that the City grant an easement for an upgrade to an existing sewer line to the Metropolitan Sewerage District which will be upgraded in Roger D. Farmer Memorial Park. The language of the easement agreement is subject to the approval of the City Attorney's office.

Mayor Sitnick asked that the record show that City Council has received this information and instructs the City Manager to place these items on the next formal City Council agenda.

STATE GRANT APPLICATION FOR WATER SYSTEM

Mr. Tom Frederick, Director of Water Resources, said that the Regional Water Authority of Asheville, Buncombe & Henderson has authorized by resolution the application for a $3

Million grant from the State of North Carolina under the Critical Needs/Infrastructure Bond Program approved by the voters of North Carolina last November.

The Water Resources Director appointed a task team within the Water Resources Department in October 1998 to develop a comprehensive list of chronic problems within the water system, including locations of repeated low pressure or repeated repairs. When the $1 Billion Critical Needs/Infrastructure Bond Referendum was approved statewide by the voters last November, the scope of this task team was amended to include developing a priority list of projects for a State grant or loan application.

To date, the task team has identified over 115 projects to resolve chronic problems, and prepared cost estimates for 73 of these projects totaling $10.35 million. Further, with the assistance of McGill Associates, 21 of these projects, prioritized based on the State's criteria for the grant/loan program, totaling $3.3 Million, have been included in a grant application submitted March 31, 1999.

Based on the State rules for the program, Water Resources staff have submitted documentation they believe will qualify us for a grant from the State. The maximum grant in any fiscal year available to a single water system is $3 million, which is the size of our grant request. The State will make a determination on grant awards by June, 1999. This program is anticipated to be a five year program.

The Regional Water Authority has already adopted a resolution and is the applicant; the information to City Council in this staff report is for information only.

Mr. Frederick answered various questions from Council, some being, but not limited to: when will approved projects be completed, any match required, who makes up the difference is a project is over-budget, does this list of projects address the projects identified in a study conducted in the early 1990's, what criteria was used in prioritizing the list of projects and is this a one-time application.

Mayor Sitnick said that she has discussed with the City Manager a way that the City can be more informative to the public on issues related to the Water Resources Department and the Regional Water Authority.

ZEALANDIA BRIDGE CONTRACT

Ms. Suzanne Molloy, Assistant Director of Public Works, said that this is the consideration of the selection of a contractor to stabilize the Zealandia Bridge located on Beaumont Gap.

Due to significant design changes, the City, through the Public Works Department, re-bid the Zealandia Bridge Stabilization project. Two bids proposals were received. The bidders were qualified and listed below:

Company	MB Part	Drug Free	Bond	Bid
Carolina Mountain Construction Co. Inc.	100%	Yes	Yes	$57,865 Alternate #1 $53,685
Taylor and Murphy	0	Yes	Yes	$73,000 Alternate #1 $78,000

Please note that Alternate #1 includes "tuck pointing" as opposed to netting the bridge as outlined in the base bid. A budget amendment of $50,000 was approved by City Council for this project on January 12, 1999. The additional $3,685 necessary to execute the contract will be covered under the Public Works Departments operational budget.

Staff from the Public Works Department recommends City Council adopt the resolution authorizing the City Manager to enter into contract with Carolina Mountain Construction Co., Inc., in the amount of $53,685, to stabilize the Zealandia Bridge.

Upon inquiry of Vice-Mayor Hay, Ms. Molloy said that the road will be re-opened at the end of April or early portion of May, 1999.

Mayor Sitnick asked that the record show that City Council has received this information and instructs the City Manager to place this item on the next formal City Council agenda.

OTHER MATTERS

It was the consensus of City Council to hold a workshop on Friday, June 11, 1999, from 8:30 a.m. - 3:30 p.m. in the William F. Wolcott Jr. Building to discuss the information received from the economic development survey sent out and to set up priorities on what the City's priorities should be on economic development. The results from this workshop will be sent to the City Business and Development Commission and ultimately back to City Council for approval. This workshop will be in lieu of City Council's mid-year retreat.

City Council instructed the City Manager to contact a representative from the Waste Reduction And Technology Transfer ("WRATT") Program (which assists businesses with innovative cost saving strategies to improve environmental and energy management) to see if they would be willing to assist the City in providing recommendations with regard to energy and waste reduction assessments.

It was the consensus of City Council to partner with Quality Forward in it's efforts to encourage businesses, organizations, churches, etc., adopting spots throughout the community.

City Attorney Oast updated Council on the posting of private parking lots in downtown. He also said that he is currently working on a cigarette butt receptacle ordinance and revisions to the noise ordinance.

Mayor Sitnick encouraged City Council's participation in the April 22, 1999, Honk Against Litter event.

CLOSED SESSION

At 4:00 p.m., Councilman Cloninger moved to go into closed session to consult with an attorney employed by the City in order to preserve the attorney-client privilege between the City and its attorney. The parties to the lawsuit about which the Council expects to receive advice are: CC&J Enterprise, the City of Asheville, and the Jackson Park/Woolsey Neighborhood Association - G.S. 143-318.11 (a) (3). This motion was seconded by Councilman Sellers and carried unanimously.

At 4:15 p.m., Councilman Sellers moved to come out of closed session. This motion was seconded by Councilman Cobb and carried unanimously.

WEST ASHEVILLE BRANCH LIBRARY

Discussion surrounded the West Asheville Branch Library's use of the West Asheville Community Center. The City is planning to move its West Asheville Resource Center & Substation into the space which the Library had previously occupied, which is City-owned. The City wants to share the community room space with the Library and has offered to make additional space available to them in the Community Center.

City Manager Westbrook was instructed to set up a meeting with Councilman Cobb, Councilman Sellers, Councilwoman Field, the Police Chief, the Parks & Recreation Director, and two or three representatives of the Library to discuss how the City of Asheville can work hand-in-hand with the Library regarding the use of the West Asheville Community Center.

It was also the consensus of Council to have the City Manager provide an informational report to City Council regarding this issue on the April 20, 1999, worksession agenda.

CHAMBER OF COMMERCE'S BOARD/LEADERSHIP RETREAT

It was the consensus of City Council that any Councilmember attending the May 10-11, 1999, Asheville Area Chamber of Commerce's Board/Leadership Retreat which will be held near Cashiers, N.C., at the High Hampton Inn and Country Club, will drive.

ADJOURNMENT:

Mayor Sitnick adjourned the meeting at 5:07 p.m.

Magdalen Burleson
CITY CLERK

Leni Sitnick
MAYOR

Tuesday - April 13, 1999 - 5:00 p.m.

Regular Meeting

Present: Mayor Leni Sitnick, Presiding; Vice-Mayor Edward C. Hay Jr.; Councilman M. Charles Cloninger; Councilman Earl Cobb; Councilwoman Barbara Field; Councilman Thomas G. Sellers; and Councilman O.T. Tomes; City Attorney Robert W. Oast Jr.; City Manager James L. Westbrook Jr.; and City Clerk Magdalen Burleson

Absent: None

INVOCATION

Vice-Mayor Hay gave the invocation.

PROCLAMATIONS:

A. PROCLAMATION PROCLAIMING APRIL 1999 AS "CHILD ABUSE PREVENTION MONTH"

Vice-Mayor Hay read the proclamation proclaiming April 1999, as "Child Abuse Prevention Month" in the City of Asheville. She presented the proclamation to Ms. Janet Anderson who briefed City Council on some activities taking place during the month.

B. PROCLAMATION PROCLAIMING APRIL 17-30, 1999, AS "LITTER SWEEP DAYS"

Mayor Sitnick read the proclamation proclaiming April 17-30, 1999, as "Litter Sweep Days" in the City of Asheville.

C. RESOLUTION NO. 99-53 - RESOLUTION RENAMING THE PARK MAINTENANCE FACILITY AS THE RICHARD B. MEEHAN PARK MAINTENANCE FACILITY

Parks & Recreation Director Irby Brinson said that this is the consideration of a resolution renaming the Park Maintenance Facility in honor of the former Superintendent of Parks and Public Facilities Richard B. Meehan.

The staff of the Parks and Recreation Department made a recommendation to the Advisory Board that the Park Maintenance Facility be renamed to honor Richard B. Meehan. Dick worked for the Parks and Recreation Department for 31 years in the position of Superintendent of Parks and Public Facilities. During this tenure, Dick was instrumental in the development of the park facilities as they currently exist today. His dedication to the parks and recreation profession is a direct indication of the quality of the current park system. Dick has always worked diligently to find solutions to difficult problems and then served these solutions as models for future park development. The staff feels that no better recognition could be paid to Dick Meehan than to name the Park Maintenance facility in his honor.

The Parks and Recreation Advisory Board and staff recommend that City Council approve the resolution renaming the Park Maintenance Facility as the Richard B. Meehan Park Maintenance Facility.

Mayor Sitnick said that members of Council have been previously furnished with a copy of the resolution and it would not be read.

Resolution No. 99-53 was adopted by acclamation.

RESOLUTION BOOK NO. 25 - PAGE 182

CONSENT:

A. RESOLUTION NO. 99-54 - RESOLUTION OF INTENT TO SET A PUBLIC HEARING ON MAY 11, 1999, TO CLOSE AN UNOPENED PORTION OF POND AVENUE OFF LEE STREET

Summary: The consideration of a resolution of intent to permanently close a portion of Pond Avenue off Lee Street and setting a public hearing on May 11, 1999.

A petition has been received from Lucie Mae Ratliff requesting that Pond Avenue from Lee Street to the intersection with the Southern Railway Company right-of-way be permanently closed to public use.

The petition received includes the affidavit of Lucie Mae Ratliff, owner of parcels 9654.05-19-4691 and 4882. Ms. Ratliff owns all of the property with frontage on the unopened street between Lee Street and the Southern Railway right-of-way that has been petitioned to be closed.

This portion of Pond Avenue is a paper street and has never been used as a street. The City has no plans to utilize this street. All utility companies will be contacted, the resolution of intent to close a portion of Pond Avenue off Lee Street will be advertised in a local paper, and the location will be posted with the resolution of intent to close.

The Public Works Department staff recommends the resolution of intent to permanently close Pond Avenue from Lee Street in a easterly direction to the intersection with the Southern Railway right-of-way be adopted.

RESOLUTION BOOK NO. 25 - PAGE 183

B. RESOLUTION NO. 99-55 - RESOLUTION AUTHORIZING THE CITY MANAGER TO ENTER INTO A CONTRACT WITH CAROLINA MOUNTAIN CONSTRUCTION CO. TO STABILIZE THE ZEALANDIA BRIDGE

Summary: This is the consideration of the selection of a contractor to stabilize the Zealandia Bridge located on Beaumont Gap.

Due to significant design changes, the City, through the Public Works Department, re-bid the Zealandia Bridge Stabilization project. Two bids proposals were received. The bidders were qualified and listed below:

Company	MB Part	Drug Free	Bond	Bid
Carolina Mountain Construction Co. Inc.	100%	Yes	Yes	$57,865 Alternate #1 $53,685
Taylor and Murphy	0	Yes	Yes	$73,000 Alternate #1 $78,000

Please note that Alternate #1 includes "tuck pointing" as opposed to netting the bridge as outlined in the base bid. A budget amendment of $50,000 was approved by City Council for this project on January 12, 1999. The additional $3,685 necessary to execute the contract will be covered under the Public Works Departments operational budget.

Staff from the Public Works Department recommends City Council adopt the resolution authorizing the City Manager to enter into contract with Carolina Mountain Construction Co., Inc., in the amount of $53,685, to stabilize the Zealandia Bridge.

RESOLUTION BOOK NO. 25 - PAGE 184

C. RESOLUTION NO. 99-56 - RESOLUTION AUTHORIZING THE MAYOR TO ENTER INTO AN AGREEMENT WITH LUSTAR DYEING AND FINISHING INC. TO PARTICIPATE IN CAPITAL IMPROVEMENTS

Summary: The consideration of entering into an agreement and appropriating funds as an economic development incentive for Lustar Dyeing and Finishing, Inc.

Lustar Dyeing and Finishing, Inc. (Lustar) is located on Caribou Road in the corporate limits of the City of Asheville. In 1997 representatives of Lustar contacted the City of Asheville requesting consideration of economic development incentives as a part of a proposal to expand their operations at the current facility. City staff reviewed the request and determined that based upon their projected investment of $3.6 million the City contribution would be in an amount not to exceed $76,950. The City's projected contribution was based upon the property tax revenue over a five (5) year period. Additionally, the development was to create approximately 20 new jobs paying an average wage of $12.50 per hour. Resolution 97-248 is related to this project and was adopted by Council on December 16, 1997.

Lustar has now completed the expansion of their facility. Staff has prepared a revised agreement for consideration by City Council. I would also note that prior to the disbursement of any funds to Lustar, they must provide the City with a Letter of Credit in the full amount of the City's contribution which will allow the City to recoup any funds paid out during the five (5) year period should Lustar not uphold the terms of the agreement.

Staff is in the process of finalizing and verifying amounts related to the agreement. Additionally, staff has prepared a budget ordinance amendment in the amount of $76,950 appropriating funds in accordance with prior City Council action.

Staff recommends that the revised agreement and budget ordinance amendment be approved by City Council allowing the disbursement of funds in the amount of $76,950 to Lustar Dyeing and Finishing, Inc.

RESOLUTION BOOK NO. 25 - PAGE 185

D. ORDINANCE NO. 2561 - BUDGET AMENDMENT FOR LUSTAR ECONOMIC DEVELOPMENT GRANT

Summary: See Consent Agenda Item "C" above.

ORDINANCE BOOK NO. 17 - PAGE 299

406

E. RESOLUTION NO. 99-57 - RESOLUTION AUTHORIZING THE CITY MANAGER TO APPLY FOR AND ENTER INTO AN AGREEMENT WITH THE N.C. DEPT. OF HEALTH AND HUMAN RESOURCES TO FUND THE FOOD SERVICE FOR THE SUMMER DAY CAMP PROGRAM

Summary: The City of Asheville wishes to apply for funding through the North Carolina Department of Health and Human Resources, Division of Maternal and Child Health, Child and Adult Care Food Program to provide food service in the Summer Day Camp Program.

The Summer Day Camp Program will provide supervised licensed child care, recreation, enrichment activities, and food service for children in kindergarten through 5th grade, June 7 through August 6, 1999, Monday through Friday, 7:30 a.m. 6 p.m. $75 per week for city residents, $85 per week for non-city residents. Sites will be located at Claxton, Hall Fletcher, Jones, Dickson, and Vance Elementary Schools; and Reid Community Center. Breakfast, lunch and snacks will be provided daily at no extra cost. The number of meals and amount of reimbursement will vary based on the total meals actually served each month.

The Parks and Recreation Department recommends the City of Asheville apply for the Summer Food Service Program for Children through the North Carolina Department of Health and Human Resources.

RESOLUTION BOOK NO. 25 - PAGE 187

F. RESOLUTION NO. 99-58 - RESOLUTION AUTHORIZING THE MAYOR TO EXECUTE AN EASEMENT IN FAVOR OF THE METROPOLITAN SEWERAGE DISTRICT ACROSS PROPERTY OWNED BY THE CITY OF ASHEVILLE AND KNOWN AS THE ROGER D. FARMER MEMORIAL PARK

Summary: The staff is recommending that the City grant an easement for an upgrade to an existing sewer line which will be upgraded in Roger D. Farmer Memorial Park.

Staff has been working with Martin-McGill, a consultant for the Metropolitan Sewerage District, in coordinating improvements to be made on an existing sanitary sewer line and its permanent easement. The Parks and Recreation staff concurs with the final easement agreement draft, addendum and other provisions which will return the site to its current condition. The existing sewer line improvement and easement will not interfere with the usage of the park.

Staff recommends that the City grant an easement for an upgrade to an existing sewer line to the Metropolitan Sewerage District which will be upgraded in Roger D. Farmer Memorial Park. The language of the easement agreement is subject to the approval of the City Attorney's office.

RESOLUTION BOOK NO. 25 - PAGE 188

G. MOTION SETTING A PUBLIC HEARING ON APRIL 27, 1999, TO REZONE ALL OF EIGHT LOTS LOCATED ON ASHELAND AVENUE AND SOUTH GROVE STREET FROM OFFICE BUSINESS DISTRICT TO OFFICE II DISTRICT, EXCEPT FOR A PORTION OF ONE LOT BEING REZONED FROM REGIONAL BUSINESS DISTRICT TO OFFICE II DISTRICT AND A ONE FOOT STRIP ALONG FOUR LOTS ON SOUTH GROVE STREET BEING REZONED FROM OFFICE BUSINESS DISTRICT TO RS-8 RESIDENTIAL SINGLE FAMILY HIGH DENSITY DISTRICT

H. MOTION SETTING A PUBLIC HEARING ON APRIL 27, 1999, TO REZONE A PORTION OF ONE LOT LOCATED ON ASHELAND AVENUE FROM OFFICE BUSINESS DISTRICT TO REGIONAL BUSINESS DISTRICT, EXCEPT FOR A ONE FOOT STRIP ALONG THE LOT BOUNDARY ON SOUTH GROVE STREET BEING REZONED FROM OFFICE BUSINESS DISTRICT TO RS-8 RESIDENTIAL SINGLE FAMILY HIGH DENSITY DISTRICT

I. MOTION SETTING A PUBLIC HEARING ON APRIL 27, 19997, TO AMEND CHAPTER 7 OF THE CODE OF ORDINANCES (UNIFIED DEVELOPMENT ORDINANCE) TO CHANGE THE METHOD FOR DETERMINING WHEN SIGNIFICANT CHANGES HAVE BEEN MADE TO PRELIMINARY PLATS SO THAT FURTHER REVIEW BY THE TECHNICAL REVIEW COMMITTEE AND/OR THE PLANNING AND ZONING COMMISSION IS REQUIRED

J. MOTION SETTING A PUBLIC HEARING ON APRIL 27, 1999, TO AMEND CHAPTER 7 OF THE CODE OF ORDINANCES (UNIFIED DEVELOPMENT ORDINANCE) TO PROVIDE REGULATIONS FOR SIGNS FOR SECOND TIER DEVELOPMENT

K. MOTION TO PRE-APPROVE A LOAN COMMITMENT FOR $349,894 IN 1999/2000 HOME FUNDS TO MOUNTAIN HOUSING OPPORTUNITIES' WIND RIDGE PROJECT

Summary: The consideration of a motion to pre-approve a loan commitment for $349,894 in 1999/2000 HOME funds to Mountain Housing Opportunities (MHO) for its Wind Ridge Project, prior to approving the entire HOME and CDBG Consolidated Plan in May.

The Asheville Regional Housing Consortium has recommended a $349,894 HOME loan to MHO as part of the City's Consolidated Plan for the 1999/2000 CDBG and HOME programs. The Consolidated Plan is currently in its public comment phase, and is due to be discussed by Council on May 4 and 11 prior to submission to HUD on May 14. However, MHO needs a written commitment of funding before April 23, in order to satisfy state application requirements for the Low Income Housing Tax Credit program.

The Wind Ridge Project will develop 40 high quality rental apartments for low-income families on 8 acres off Compton Drive (currently part of the Eliada Home property). Project financing depends on its receiving $1,682,869 in Low Income Housing Tax Credits, in addition to an allocation of HOME funds, a bank loan and other public and private support. The project has received an extremely high rating in the first round of Tax Credit reviews, but MHO must provide evidence of the other financial support before April 23 in order to proceed to the final round.

Failure to provide evidence of the HOME commitment will cause MHO to forfeit its chance of competing for 1999 Low Income Housing Tax Credits.

City staff recommends pre-approval of a loan commitment of $349,894 in 1999/2000 HOME funds for MHO's Wind Ridge Project.

Mayor Sitnick said that members of Council have been previously furnished with a copy of the resolutions and ordinances and the Consent Agenda and they would not be read.

Councilman Sellers moved for the adoption of the Consent Agenda. This motion was seconded by Councilman Tomes and carried unanimously.

CLOSED SESSION

At 5:13 p.m., Councilwoman Field moved to go into closed session to consult with an attorney employed by the City in order to preserve the attorney-client privilege between the City and its attorney. The parties to the lawsuit about which the Council expects to receive advice are: Trinity Baptist Church Inc., City of Asheville and Carrier Heights Neighborhood Association - statutory authority is G.S. 143-318.11 (a) (3). This motion was seconded by Councilman Sellers and carried unanimously.

At 5:25, p.m., Councilman Sellers moved to come out of closed session. This motion was seconded by Councilwoman Field and carried unanimously.

ADJOURNMENT OF MEETING

At 5:25 p.m., Councilman Sellers moved to adjourn the meeting and reconvene at the Asheville Civic Center Banquet Room to conduct the public hearing on the conditional use permit for Trinity Baptist Church. This motion was seconded by Councilwoman Field and carried unanimously.

At 5:50 p.m. the City Council meeting reconvened at the Banquet Room of the Asheville Civic Center.

PROCLAMATION:

A. UNITED WAY CAMPAIGN

Mayor Sitnick recognized Mr. David Bailey, Chief Executive Officer of United Way of Asheville and Buncombe County, who outlined the support given to the United Way by employees of the City of Asheville. He congratulated the City's United Way Campaign as making the "Top Ten" Employee Campaigns for 1998.

The City of Asheville made significant contributions to United Way's 1998 campaign. City employees were the largest employee group to volunteer for Day of Caring (in fact, one City department, Fire, had more off-duty volunteers than any other single Asheville employer).

On behalf of City Council, Mayor Sitnick thanked City Campaign Co-Chairs Mr. Keith Whittington, Richard Bass and Eric Valez (who coordinated the Day of Caring) for their hard work on the United Campaign.

PUBLIC HEARINGS:

A. PUBLIC HEARING TO CONSIDER A CONDITIONAL USE PERMIT FOR TRINITY BAPTIST CHURCH LOCATED AT 216 SHELBURNE ROAD

Mayor Sitnick said that next on the agenda is the application a conditional use permit for Trinity Baptist Church ("Trinity") located at 216 Shelburne Road. This is a public hearing for Council to consider whether the requested permit should be issued. There being no preliminary matters to be considered, she opened the public hearing at 5:55 p.m.

City Clerk Burleson presented the notice to the public setting the time and date of the public hearing. She then administered the oath to anyone who anticipated speaking on this matter.

Mayor Sitnick reviewed the procedures for this hearing by stating that City Council will first hear from staff who will describe the proposal and provide some background information. Then the applicant may make a presentation and then comments from the public will be taken. She said that there will be an opportunity for questions and rebuttal comments, as necessary. Following the hearing, Council will then debate the proposal and will take action on the request. Hearing no questions about the procedure, she asked for staff's presentation.

Mr. Carl Ownbey, Urban Planner II, said that this project is for the expansion of the existing church facility. The project will include a 2400 seat sanctuary, youth classrooms, and a recreational facility. The project has been submitted and reviewed under Level Three - subsection 7-5-9(A) of the Unified Development Ordinance ("UDO") by the Technical Review Committee ("TRC"). They approved this project with several conditions which the developer has addressed and resubmitted revised site plans. This property is within the City limits of Asheville.

City Council must take formal action as set forth in subsection 7-5-5 (E) 2 and shall state if the proposed conditional use meets or does not meet each of the following standards as set forth in subsection 7-16-2 (C):

Conditional Use Standards:

1. That the proposed use or development of the land will not materially endanger the public health or safety;
2. That the proposed use is reasonably necessary for the health and general welfare, such as by enhancing the successful operation of the surrounding area in its basic community functions or by providing an essential service to the community or region;
3. That the proposed use or development of the land will not substantially injure the value of adjoining or abutting property;
4. That the proposed use or development of the land will be in harmony with the scale, bulk, coverage, density and character of the area or neighborhood in which it is located;
5. That the proposed use or development of the land will generally conform with the Comprehensive Plan and other official plans adopted by the City;
6. That the proposed use is appropriately located with respect to transportation facilities, water supply, fire and police protection, waste disposal, and similar facilities; and
7. That the proposed use will not cause undue traffic congestion or create a traffic hazard.

The Planning staff and the TRC state that this project meets all the technical standards for development in the RM-6 zoning district. (City Exhibit A)

On February 15, 1999, the TRC reviewed and approved this project with the following conditions:

1. Under the RM-6, day cares are not permitted and any reference to this use must be removed from the site plan (check the notes on Z-1);
2. Indicate the "vehicular use area" calculations on the landscaping plan as required by the parking lot landscaping requirements;
3. Indicate the screened dumpster location (approved under Level II site plan);
4. With the widening of Sand Hill Road, the revised site plan indicated a proposed retaining wall. Provide a detail of this retaining wall and secure an encroachment agreement from the N.C. Dept. of Transportation;
5. Provide a detailed plan of the new driveway access onto Sand Hill Road - alignment, stacking ability, and emergency access. Driveway permit is also required;

6. Indicate that parking lot lighting will be compatible with residential neighborhoods by maintaining projected lighting beams on-site by the use of low bollard lights for visibility and security. Also, each parking level have separate controls so only the lights needed can be turned on and timers should not be used;
7. Documentation on the stormwater runoff, including quantity and velocity, in the two additional stormwater lines shown on the site plan is required. Submit of this documentation to Engineering Department and a note to the Planning & Development Department that this documentation has been submitted; and
8. Additional land disturbing activities have taken place; therefore, these grading fees must be paid (provide copy of receipt).

(City Exhibit B)

Mr. Ownbey said that the above conditions had to be satisfied before the project was scheduled before City Council. The plans were revised by Trinity and submitted again for review by Planning staff, Engineering staff and Public Works staff. The plans meet all the requirements.

Mr. Ownbey said that if Council approves the conditional use permit, staff recommends the following conditions be placed on that approval:

1. Parking lot lights must have shields;
2. Parking lot lights must be low bollard lights and must have a maximum height of 12 feet;
3. Regarding parking lot lights, each level on separate circuit that can be switched off (no timers);
4. Additional landscaping along the southern property line and the parking lots (alternative landscaping);
5. Payment of any imposed fines ($900 currently outstanding) needs to be paid;
6. Correction of storm drainage and erosion control problems resulting from on-site inspections; and
7. Any other conditions that City Council feels appropriate to impose on this project.

(City Exhibit C)

By use of a color coded site plan, Mr. Ownbey explained in detail the approximately 20 acre site at the intersection of Shelburne Road and Sand Hill Road. He explained what is currently on site. He explained what the Level II project consisted of which was approved in April of 1998. He then explained what the Level III project consists of which consists of a 2400 seat sanctuary which will also include a Kindergarten-12 grade school, youth classrooms, some offices behind the Teen Center, approximately 160 additional parking spaces as a third level, and the addition of a softball field on the back of the site. With that, the Traffic Impact Analysis ("TIA") for a Level III made recommendations that Sand Hill Road needed to be widened to three lanes to accommodate left turn movement into the site; the turning lane will begin at the intersection at Shelburne Road and Salola and Sand Hill and continue almost to the end of the Church's property on Sand Hill Road. Also the sidewalk will be moved back and coordinated with the widening of Sand Hill Road. Also, part of the TIA and staff's recommendation was that a sidewalk be placed on the Trinity's side of Shelburne Road (there currently exists a sidewalk on the other side of Shelburne Road). (City Exhibit D)

Upon inquiry of Councilwoman Field, Mr. Ownbey said the 2400 seat sanctuary and K-12 School is 107,000 square feet, and the Youth Classrooms and Office is approximately 9800 square feet.

When Vice-Mayor Hay inquired about the parking spaces, Mr. Ownbey said that the Level III parking will consist of an additional 160 parking spaces. The entire site will consist of 600 spaces, which would also accommodate the ballpark parking.

Upon inquiry of Vice-Mayor Hay, Mr. Ownbey said that there are 1500 seats in the existing family life center which is currently housed in the Teen Center.

Mr. Ownbey said that there are no improvements planned for Sand Hill Road under the Level II or what is current, however, the Level III requires (under the TIA) a widening of Sand Hill Road to accommodate the additional traffic. The improvements to Sand Hill Road, which is a State-maintained street, will be at the developer's expense.

Upon inquiry of Councilman Cobb, Mr. Ownbey said that under our present ordinance there has to be one parking space for every four fixed seats. The 600 parking spaces does comply with our ordinance.

When Councilwoman Field asked how far away Shelburne Road is from Brevard Road, Mr. Ownbey said it was probably less than one mile.

By use of a chart, Mr. Ownbey described the project review process for Level I, Level II and Level III reviews. Following the chart down, he explained that more than 100,000 square feet or more than 50 housing units is a Level III review which is staff review, TRC review and recommendation and City Council approval. (City Exhibit E)

Mr. Ownbey said that during the review process, staff did review the definition of church in the UDO. It reads " Church means a place where religious worship is conducted. The term church shall not include day care, educational, recreational, and other facilities which are incidental to the place of worship." Currently there is a committee working on revising the definition of church and also the standards for worship. This committee is composed of neighborhood representatives and some clergymen. Their last meeting was in November of 1998. They have agreed on a definition of church and have submitted that to the Planning & Zoning Commission. The Commission has reviewed it but are not making any recommendations until standards for worship have been developed by the committee and presented to the Commission.

Mr. Ownbey said that during the TRC process for the Level III project, the City did receive 14 letters in opposition to the project and a letter from the Carrier Heights Neighborhood Association (City Exhibit C). In that letter, the Association requested (1) that the shields be placed on the existing parking lot lights; (2) that we indicate in some way that there has been some grading in the buffer area and what the City plans to do to rectify that situation (the City has issued the Church with a notice of violation and will work with them to add some additional landscaping), and that a conditional of approval include payment of the $900 fine assessed.

Upon inquiry of Councilwoman Field, Mr. Ownbey said that at the time of this project review, the City of Asheville did not have a traffic engineer on staff and the City contracted out that review. Both the developer's and the City's traffic consultants are located out of town.

Upon inquiry of Vice-Mayor Hay, Mr. Ownbey said that the combination of all the square footage for the whole Level III project is 173,263 and that is why the project is being reviewed under the Level III review process.

When Councilwoman Field asked what is the average size of a home in the area, Mr. Ownbey responded that by an aerial photo, there are a lot of small homes between 800-1200 square feet and there are also some larger single family homes between 1200-1500 square feet.

Mr. Scott Conklin, Project Architect for Trinity Baptist Church with Cort Architectural Group, said that they have been before the TRC four times and have gotten a 1500 auditorium/sanctuary approved with its required parking and now they are coming back before Council for a 2400 sanctuary and school.

Mr. John Cort, Principle in Charge of Cort Architectural Group, said that the site is 1/2 mile from Brevard Road. He said that he has given Council a copy of the last TIA and also not included in the last TIA is the reconfiguration of Brevard Road, which will make a much safer intersection as Shelburne goes into Brevard Road. The technical aspect is over with in that they had done a very thoroughfare job. With regard to Finding No. 5, he said that looking back in time, the 2002 Plan of this area was historically recognized as an institutional use in this area. Regarding Finding No. 6, exhibits show that this project is on an existing minor thoroughfare, that there is adequate water and adequate sewer, all from the 2010 Plan. With regard to Finding No. 7, Wilbur Smith (for the owner) and Kubilins Traffic Consultants (for the City) are both in concurrence that the three-lane highway for N.C. Dept. of Transportation and sidewalks around the facility will create a safe traffic situation. They have eliminated an entrance and gained a much more safe entrance. Regarding Finding No. 1, he said that was the purpose of the TRC review noting that there are 16 public health and safety officers who have reviewed this and said that it is adequate. Regarding Finding No. 2, all Council has to decide is whether a church is an essential service to the region or the community. With regard to Finding No. 3, there are six adjoining or abutting property owners: (1) the Church owns approximately two acres of adjoining property; (2) on the Dr. Waller property where grading was done too close to his property line, is where the MSD main sewer line is coming and there is no use of the Dr. Waller property; (3) there is a residence that they are keeping in tact to preserve the adjoining property owners; and (4) there are six adjoining property owners and a bank which areas are heavily landscaped. With regard to Finding No. 4, he said Trinity is trying to build a church and a school. In the 1980's they tore down Newton School because it was not an appropriate scale. This is an appropriate scale in that it will be a 600 student school. A 600 student public elementary school would take 20 acres minimum and up to 100,000 square feet. If it were a high school for 600 students it would be about 140,000 square foot. If it were a typical Buncombe County school, you would park 600 cars and would have 200,000 square feet of area. This is not an appropriate high school but, but we know it is an appropriate church site in that the scale is appropriate.

Rev. Jerry Young, Associate Pastor of Trinity, reminded Council that the size and the scale is appropriate. Three City Council's before the present City Council said it was appropriate in 1993, when the site was approved, in 1994 when it was re-affirmed and in 1995 when it was re-affirmed again - the same plan in front of Council now. He said that Dr. Ralph Sexton Sr., the founding Pastor of Trinity, had a vision when he moved to congregation to Shelburne Road nearly 30 years ago. His vision was to see a site in which they could minister to the people of Asheville. The reason for the softball field is that they have a ministry to young people, Cub Scouts, Boy Scouts, and bussed kids from a lot of the projects. The reason they want to expand their educational facility is because they have a Sunday School every Sunday with over 700 in attendance. He stressed that Trinity ministers to people and their concern is that they be able to continue the ministries that are continuing to grow. The ministries have not grown because of a person or because of a problem, but simply because God has been pleased to bless the work and ministry of Trinity. He encouraged Council to vote in favor of the conditional use permit.

Upon inquiry of Councilman Cobb, Rev. Young said that there are now 30 students in their Bible College and they envision the College growing to maybe 100 students

Vice-Mayor Hay asked what the building will look like. Rev. Young said that to the highest point on the roof in the front is 50 feet (one story) . On the back side, it will be four stories.

Mr. Frank Goldsmith, attorney representing the Carrier Heights Neighborhood Association, said that as you see from the history of this process, this is just the latest step in an effort by Trinity to impose its will on this neighborhood, regardless of what the law says and regardless of whether the proposed development would be in keeping with the characteristics of that neighborhood. This process began at the end of the chart (City Exhibit E), i.e., it began with a proposed rezoning application submitted over a year ago. That process was postponed at the request of the Church for close to six months so that, according to the City Council meetings, the Church could work with the neighbors and try to develop a conditional use type of permission to use their property for its purposes. Apparently the Church was satisfied that the conditional use they are now seeking would not work because they came back then, after the lengthy hearing on August 25, 1998, and again applied for a rezoning of the property which was denied. At that meeting and thereafter, there was talk about amending the ordinances so that conditional use zoning would be permitted. It was the thinking of everyone then that under the current ordinance, conditional use zoning would not work for this particular zoning. Those ordinances have not yet been amended and yet we're here with a conditional use application by the Church. Much energy has been spent by the City and the groups of people trying to come up with a definition of Church and that process is still on-going. However, it seems to have been overlooked in this presentation, both on the part of the City staff and on the part of Trinity. There is a Level II process that is on-going and that is still pending. And now there is a lawsuit pending, not only against the City but also against the Carrier Heights Neighborhood Association. He finds it troubling that the timing of this lawsuit comes immediately before Council is meeting to decide on their conditional use permit. It seems to him the motive can be one of two things - either to suggest that this process now is clearly not going to work so they are resorting to the courts, or, it's a bullying tactic to try to coerce Council into approving a conditional use permit that should not be granted because of the treat of litigation that is now pending. Trinity is seeking not only relief against the City but against the Carrier Heights Neighborhood Association. Trinity is asking the people who own these homes in the area pay the Church's legal fees and that they be restrained from enforcing the ordinance. The neighborhood is only exercising their right to appeal a decision in the process providing for by law. That is the tactic we are seeing from this ministry.

Mayor Sitnick said that this public hearing is only about whether or not to issue a conditional use permit for the Level III project.

Mr. Goldsmith explained that the City of Asheville's zoning ordinance is different from some. Some leave conditional use permits up to a Board of Adjustment, however, the City's scheme has permitted uses within each district, uses by right within each district (which are uses that must meet certain standards that are specifically set forth in the ordinance) and then the conditional use permit that can be granted in very unusual circumstances. He explained that in the conditional use zoning, the permitted uses are very few. With respect to most of the districts, you have a conditional use that is listed that may be permitted. Generally, in all of them, they say Level III has to be compatible with other permitted uses in that district. His point is that in all of the residential classifications, including the RM-6 in which this mega-church is proposed to be located, the sole conditional use permitted is Level III (residential). It is there to ensure that the only kind of Level III project is a residential project. He felt is Council is bound by how the UDO reads. No one has said that this proposed project is a residential plan under Level III. It does not fit the definition of residential, which means houses and places to live. It does not mean a ballfield, sanctuary, college, television ministries, or a school. If they reach that magnitude in size, then under the terms in the UDO, they must be residential to be permitted as a conditional use. He felt that Council need not even reach the issue of the seven criteria that must be met. He felt that this whole proposed use is completely out of order because it is not a Level III permit application. In August, there was discussion about the need for compatibility. The whole UDO talks about a comprehensive plan for the City development and compatibility within neighborhoods and within districts. To permit the expansion of this institution, the imposition of this enormous campus of institutions that are far removed from a simple church sanctuary as defined in the ordinance, and to impose that on this neighborhood is far from creating a walkable neighborhood. He felt that Council can't skip the definition of what a church is in the process of getting to this public hearing tonight. A church is defined in a certain way under the UDO and that can't be ignored. He urged Council to look carefully at that language and to deny this application.

Councilman Tomes asked if certain conditions (light the brightness of the lights) placed on the Church by the neighborhood have been met. Mr. Goldsmith replied that they had not been met. However, the TRC has established to its satisfaction that certain technical standards have been met and part of their conditions they suggested be imposed had to do with lighting, but that does not satisfy the neighbors' objections.

Councilman Tomes said that in listening to the presentations he hears an effort being put forth on the part of Trinity to be a good neighbor.

Upon inquiry of Councilwoman Field, City Attorney Oast said that this is a Level III review because of the size of the project. Mr. Goldsmith is correct in that conditional uses under the RM-6 do say Level III (residential) and it's also true that the conditional uses in another part of the Code indicate that Level III site plan review projects are permitted in all zoning districts as conditional uses. City staff has made a determination that this is appropriate for consideration as a conditional use project in this neighborhood.

Mayor Sitnick asked the City Attorney to distinguish the difference between adjoin and abut. City Attorney Oast said that he was not sure that there really is a difference in how it affects this property. Adjoining and abutting both suggest that there is some point at which the property lines touch each other. He said that there is case law to the effect that if properties that are in the area, but not necessarily are abutting or adjoining, can show some special damage with respect to how their property values might be affected that they do have some interest in the proceeding.

Mayor Sitnick said that as an example, you don't have to abut a ballfield in order to be impacted by it.

City Attorney Oast said that in this situation, as far as the property values go, what the courts have held is that it has to touch the property line of the property that the conditional use permit is being proposed for. That is the definition of adjoining or abutting in this sense. That doesn't mean that the property owners in the area can't establish some other effect that the conditional use may have on their property.

The following individuals spoke against City Council issuing the conditional use permit for several reasons, some being, but not limited to: the average home in the neighborhood is less than 2,000 square feet and that 50 similar homes could be placed in the footprint of the proposed 107,000 square foot facility (not taking into account the existing 600 seat auditorium and yet to be constructed 1500 seat auditorium); the 2010 Plan indicates this area as low density residential; the campus oriented Trinity plan is incompatible with both the City's 2010 Plan and the UDO's definition of compatibility; the surrounding neighborhood homes will become unbalanced if a large multi-use non-residential facility is allowed to locate within the residential area; the neighborhood's uniqueness is already destroyed by earlier plans which permitted the grading and destruction of approximately 10 acres of vegetated buffer zone area; an institutional facility of the scale and density proposed will also destroy the character of the neighborhood by a massive parking facilities, institutional lighting fixtures and buildings so large in scale and bulk as to thwart the residential homes surrounding it; the proposed baseball field will generate undue noise pollution and will not benefit the children and families of the neighborhood in any way unless they are members of Trinity; the entire scope of the project will overburden an infrastructure of roads that are ill equipped to handle the amount of traffic that this facility will generate; rezoning of the property from RM-6 to Institutional has already been denied and nothing has been changed from the original site plan for the same facilities, other than attempts to have this project approved under different classifications which the UDO does not specifically list; if the project is allowed to be completed it will only serve as an ugly reminder of commercial over-development in an established residential neighborhood; there is already a traffic hazard on Shelburne Road in that the sidewalk is right next to the already busy Shelburne Road; greenspace will be eliminated; nothing commercial is allowed in a RM-6 zone; destruction of trees and land were done without a site plan; lights already burn all night long without no regard for neighbors; where is the legal zoning justification to allow one church out of 200 in Asheville to become a mega-church on a 2-lane road; no other church has objection to the UDO definition of church - they simply do the right and legal thing - they find an appropriate location and move; if we let one church do this, then Council has to let the other 199 churches have their way also; the neighborhood doesn't object to Trinity, just mega-business churches in RM-6 zoning on a 2-lane road; the 2400 seat sanctuary (convention center) will destroy the neighbors quality of life which will be detrimental to their health and welfare; this "convention center" does not belong in the City in a residential neighborhood; the project, if built, will be an emotional health problem for all of its neighbors; the UDO was supposed to protect neighborhoods from just destruction as this; the third lane on Sand Hill Road is next to nothing in terms of the traffic hazard which already exists on Shelburne Road; Trinity advertises extensively for members outside of the neighborhood and the majority of Trinity's members do not belong anywhere in the City of Asheville, particularly in West Asheville; no place to walk on either side of Shelburne Road; a traffic count should be performed; is water pressure adequate on the old water lines to accommodate this project; the City should work in collaboration with Trinity in making a historic park for West Asheville adjacent to the present buildings; with all the trees gone, the new building site could be a community pavilion; the only effort the Church made to work out the rezoning issue with the neighbors was a construction person asking one of them to "call off" the valid protest petition; because of Trinity expansion in the last four years, the homes on Shelburne Road have decreased in value; a Realtor has stated that because of the increased traffic, a home on Shelburne Road would be valued at 5% less; when the Pastor of Trinity publicly states that they are not going to live under the UDO, it is a sad day for his profession and others who obey the law; Trinity does not obey the current noise ordinance; commercial buses are parking in front of Trinity and left for hours with black smoke billowing from the buses polluting the neighborhood; Trinity has violated the sign ordinance in that they have placed a mobile sign on their residential street; 200 churches in Asheville abide by the law except for Trinity which they have clearly said they are not going to abide by the City Council's regulations and the UDO; Biltmore Baptist Church lost some of their property due to highway expansion, however, they found suitable property to continue their ministry; Trinity should not have been allowed to get to the point they are at now; Council has all the power they need to regulate churches like every other resident and business in Asheville; no problem with Church growing, but not to the detriment of the neighborhood; infrastructure is not adequate; and 600 parking spaces will not be adequate for the over 5,000 total seats of the project:

Mr. Tom Lewis, Chairperson of the Carrier Heights Neighborhood Association
Ms. Judy Davis
Ms. Leah Karpen, resident on Shelburne Road
Ms. Jessie Copeland
Ms. Ann Anderson
Ms. June Lamb, resident of 16 Carrier Street (testified she submitted her statement earlier to City Council)
Mr. J.D. Jennings, resident of 251 Shelburne Road
Ms. Jean Jennings, resident of 251 Shelburne Road

Mr. Robert C. McCarthy, resident of 243 Shelburne Road (submitted comments as Audience Exhibit B)
Ms. Barber Melton, Vice-President of Haw Creek Community Association
Mr. Norman Anderson, resident of 147 Shelburne Road

Dr. Dwayne Davis, resident on Zephyr Drive read a letter dated April 13, 1999, from Mike Miller, Realtor) (Audience Exhibit A) which reads in part that in his "professional opinion is that the proposed major expansion of the church will have a negative impact on local property values and on the overall quality of life in the Shelbourne Road area." City Attorney Oast said that it is generally preferably to have sworn testimony and he pointed out to Council that although the letter was read, there is a potential hearsay objection about that.

At 7:30 p.m., Mayor Sitnick announced a short break.

Rev. Jimmy Dykes, Pastor of North Asheville Baptist Church and Chairman of the Community Council for Biblical Values, said that this all relates to the problems with the definition of church in the UDO. In August of 1998 after the denial to rezone the property to Institutional, he was encouraged to hear Council say that the church definition in the UDO was "bad law" and that it should be amended. Since that time, the definition issue has still not be resolved. It was his contention that Trinity should not be penalized while the City fixes bad law and Trinity should be allowed to continue their ministries and expand as much as the property and the infrastructure will allow them to.

Ms. Carol Collins, speaking on behalf of the Community Council for Biblical Values, said that Trinity has a heart for children's programs, disadvantaged children, teenagers, families and the common man. She relayed to Council some success stories resulting from Trinity's ministries. Much of the criticism that churches in the area receive are from people who just don't understand what good neighbors churches are. The Charter School was allowed on Brevard Road with no impact studies, thus setting a precedent. The health issue raised about the tractor trailers, has long ago been resolved in that they have rented a warehouse at $36,000 a year to continue to conduct that ministry. Plans for Trinity been under approval since 1993 and were approved and reaffirmed in 1994 and 1995, which exempts Trinity from the UDO because they are already vested. Families who attend Trinity and live on Shelburne Road have no problems regarding the project. Trinity is improving the neighborhood by putting a sidewalk on their side of the street. Trinity lowered the height of the original building to specifically accommodate the neighbors view of Mt. Pisgah. Trinity has been a good neighbor and she urged Council to approve the conditional use permit.

Ms. Brenda Crisp spoke in support of Trinity's conditional use permit in that they minister to the needs of our children.

Rev. Ralph Sexton Jr. said that on behalf of Trinity Baptist Church they would not in any way want to inflict any discomfort on the neighborhood. They want to and have tried to be a good neighborhood for 30 years. He said that with regard to the green spaces, no one was more outspoken about not cutting trees than he was at various meetings. He said that he believes in preserving trees and the heritage that we have in that area. They have plans to put in a park all along Hominy Creek, a bird walk and a meditation walk that would be a green-link all the way across to the new green areas on the other side of the French Broad River. He admitted that they have created problems in the past with regard to their growth and sometimes mistakes are made along the journey. They are now spending $3,000 a month to rent a warehouse so the large trucks will not be a problem for the neighborhood. He also said that they have made arrangements for no more compressors running all the time. He felt like Planning & Zoning Commission let down City Council by allowing this issue to get this far. He said most mega-churches are defined as 5-10,000 seats and that is not what they are proposing. He said that a lot of what is shown on the site plan is just for the future and that's part of good planning. He didn't want the impression of being a bully to anyone because that is not what they are after.

Ms. Melanie McCoy and Mr. Wesley McCoy both spoke in support of the conditional use permit so that children can learn about God. They wished there would be more Christian schools.

Mr. Lawrence Henson, member of Trinity Baptist Church, spoke in support of Trinity Baptist Church and it's ministry to the children.

Mr. John Cort responded to Mr. Goldsmith's comments. He said that they are not imposing the will of the church, but complying with the very thorough process. He said that Council is not charged with determining the appropriateness of this development, in that the only place that appropriateness appears is in the TIA and that deals with an appropriate location with respect to traffic. The TIA has been re-done four times and everyone has conceded that the safety of Shelburne Road has been improved by putting sidewalks back, triple lanes on Sand Hill Road and a better distribution of traffic. He said that no amendments are necessary to the UDO. He noted that they comply with it as it is. He said there is nothing wrong with the church definition and it is fine for their proposal. The lawsuit is not addressed in our plans or in the ordinance. He said that anything you do of value is a long process and it takes a long time because the conditional use process is a process of care. The use they are asking for is a use by right and it is the right of the property owner to put a school or a church there. He said that with regard to the limitation to residential, that is not the way to interpret the ordinance. With regard to the comments about bussing into the site, if the site is appropriate for a school, it is the practice of the public school system to bus across town in order to achieve balances and that has been invoked by courts. He said that the whole issue is a matter of scale and urged City Council to vote in support of approving the conditional use permit.

Mr. Ownbey said that the school is a use by right and can go on this property if it meets certain development standards. The Bible College that currently exists on the property is not a permitted use, is not a use by right and cannot expand, but can exist as a grandfathered use.

There being no request from the applicant for rebuttal, Mayor Sitnick closed the public hearing at 8:25 p.m.

Upon inquiry of Vice-Mayor Hay about the voting procedure, City Attorney Oast said that there is not process specified by statute, however, in the past, Council has made a motion to approve or deny the conditional use permit. In the course of voting on that, Council should state his or her basis for the decision and then direct the City Attorney to draft an Order which he will bring back to Council for them to vote on again, which contains findings and conclusions. The other way to vote on this issue would be for Council to vote on each finding individually and if any one of those findings does not pass by a majority vote, then the conditional use permit would fail. He said that Council can vote either way.

City Attorney Oast also made the procedural point that prior to the start of this hearing, he met with both attorneys and advised them that they would have the right to cross-examine anyone or ask questions of anyone who speaks. Since they have not taken advantage of that opportunity, he assumes that is their choice.

It was the consensus of City Council to vote to either approve or deny the conditional use permit and direct the City Attorney to draft an Order which will be brought back to Council for them to vote on again.

Mr. Frank Goldsmith raised a point of order being that in addition to the seven criteria in Sec. 7-16-2, he felt it was appropriate for Council to vote on whether this permit application meets the Level III residential standards. He felt that Council has to interpret that question first and that would be a valid reason, independent of the seven criteria, for turning down the application.

City Attorney Oast said that the City has to take the position that staff's interpretation of that issue and the interpretation that allowed this to go forward to the conditional use permit hearing process, is a matter that should be appealed to the Board of Adjustment, if there is an appeal. Those are interpretation issues that he did not think City Council could resolve.

Councilwoman Field asked if the City agreed with the traffic study performed by Wilbur Smith Associates for the petitioners. Director of Engineering Cathy Ball said that at the time the City received this study, they did not have a Traffic Engineer on staff so they sent it to their consultant in Charlotte for their review. There were four different revisions of it. By the time it was finally drafted, the information in the report was accepted by our consultant. There were approximately three additional requirements that our consultant imposed upon that was not part of the recommendation. Those were widening Sand Hill Road to three lanes, adding sidewalks along Sand Hill Road and improving an intersection on Shelburne Road.

Upon inquiry of Councilwoman Field about the level of service, Ms. Ball said that there are two levels of service described in the TIA, one for the road itself and the capacity of the road; and the other is for intersections. The conclusion of the report is that both roads can carry 10,000 vehicle trips per day and anything less than that it will still be a Level A, which is the best. So even with the increased amount of traffic, it still doesn't meet 10,000 vehicles per day.

Councilwoman Field asked when the 2400 seat sanctuary is completed, which may be 5-10 years in the future, was general increase in traffic in the community considered? Ms. Ball said that future increase was considered.

Councilwoman Field said that because we only have hearsay in a letter from Mr. Miller regarding the increase or reduction of abutting or adjacent property values, has the staff done any work on that to verify property value changes? Mr. Ownbey said that staff has not done any research in that area.

Councilwoman Field felt she could not make a decision if the information is not available. City Attorney Oast said that in these situations, because Trinity is applying for the permit, it is their burden to come forward with evidence to satisfy Council on that point.

Rev. Sexton said that with regard to a house and property located immediately adjacent to the Church property, they found that property was for sale through a Realtor and it was purchased for over $250,000. He said that was very much up in value because it was adjacent to the Church.

Councilwoman Field said that it's just that this size could have an impact on the value of property in the whole neighborhood and everybody knows that property in Asheville is appreciating because every time we turn around, the cost of an average house goes up. We've just done a valuation, and it doesn't seem to me that it would be too difficult to look at what the tax value was in 1994 and then look at the tax value in 1998 an aggregate.

Rev. Sexton said that he thought the biggest player you are going to have in the property values of West Asheville has nothing to do with Trinity Baptist Church. It's going to have to do with the deterioration of West Asheville in general and that we are seeing the commercial zone dissolve, we're seeing the service area, our road area go down, our sidewalk areas are down and it is now becoming a mixed ethnic community where it was an all white community in the past. And that's had more to do with the property values than anything else.

Vice-Mayor Hay felt that the present day valuations may not answer the question.

Councilwoman Field wondered why, if there is no way to substantially answer this question, are we considering it at all.

City Attorney Oast said that if the evidence is not here, it is up to Council to determine whether the evidence you have gotten is sufficient to support your findings on this and the Courts have held that generalized concerns may be considered. But, it depends on the weight that Council wants to put on them.

Mayor Sitnick felt that if Council is to make a determination on land value that they should have a real estate appraiser or someone who is considered an expert in that field give us the information we need.

Councilwoman Field said that she wouldn't feel comfortable in accepting comments from a real estate appraiser that was for one side or the other. She would want an independent real estate appraiser. As an architect, she would hope that any new construction that was done by a reputable architect would increase the value of the property. Certainly the landscaping and other things that are shown on this plan would make for higher property values in her opinion. She felt she could not make a decision on that particular issue because staff has not given her any information.

Councilman Cloninger felt that it's not necessary that Council necessarily receive evidence on all of the seven issues. The people here tonight presented Council with the evidence that they wanted us to consider in making a determination. He felt Council should make their decisions based on that and move forward. He didn't think it's essential that Council have evidence on every single point.

Mayor Sitnick said that she actually heard evidence from one gentleman who talked about property values being diminished. We heard it on both sides and apropos of Councilwoman Field's comments, you have to take the evidence presented by each side as being a bit biased. That's why she felt it would have been nice to have somebody who was an expert in property values, maybe specifically in West Asheville, present us with some information.

Councilman Cloninger agreed that it would have been nice, but he felt that Council can give whatever weight they want to on the testimony that was given.

Mayor Sitnick stated that Council has to state if the proposed conditional use meets or does not meet each of the seven standards.

Councilwoman Field noted that Finding No. 3 reads "the proposed use or development of land will not be substantially injure the value of adjoining or abutting property." The Church has addressed the adjoining or abutting property. The finding, however, doesn't say anything about the neighborhood.

Mr. Cort stated that in his presentation, he stated that the six property owners that are adjacent to the recreational use are the ones most affected and a recreational use is a permitted use without the process.

Mayor Sitnick asked if the conditions mentioned earlier by Mr. Ownbey (like shields on the lighting, shorter lights, lights on a timer, increased landscaping, payment of fines for violations and erosion and storm drain improvements) are staff imposed conditions should the conditional use permit be granted. Mr. Ownbey said that those are staff and the TRC's recommendations for conditional use approval and they must be met and be a part of the conditional use approval.

Mr. Ownbey responded to Mayor Sitnick's questions concerning the existing and proposed sidewalks on Sand Hill Road and Shelburne Road.

Upon inquiry of Councilwoman Field if there is room on the property to get a three or five foot tree lawn between the sidewalk and the street, Mr. Ownbey said that there will have to be some moving of some existing trees that were planted when the parking lot area was developed but there is room to move it back. He noted that there is a requirement for a five foot buffer strip between Shelburne Road and the sidewalk and also between Sand Hill Road and the sidewalk.

Councilman Sellers said that this is a difficult decision for him. He used to live at 195 Carrier Street for eleven years, but he can also appreciate the work the Church has done and continues to do. He feels like it is a win or lose situation and it should not be that way. He moved to approve the conditional use permit for Trinity Baptist Church located at 216 Shelburne Road, with the following conditions: (1) Parking lot lights must have shields; (2) Parking lot lights must be low bollard lights and must have a maximum height of 12 feet; (3) Regarding parking lot lights, each level on separate circuit that can be switched off (no timers); (4) Additional landscaping along the southern property line and the parking lots (alternative landscaping); (5) Payment of any imposed fines ($900 currently outstanding) needs to be paid; (6) and Correction of storm drainage and erosion control problems resulting from on-site inspections.

The motion made by Councilman Sellers was seconded by Councilman Tomes. Councilman Tomes said that this has been one of the most difficult decisions he has had to deal with since he has been on City Council. He said in the times in which we live, there is a challenge as community leaders to help bring a sense of wholeness of the social fabric of our society. Government is cutting back and there are increasing demands placed upon faith communities to deal with the total person. It's out of this kind of conviction that many of the ills in our society must be dealt with in a holistic manner. If we are going to experience the kind of vitality with the change in demographics of our society, we have to make the hard decisions. And the hard decisions must deal with the total person. It's out of that kind of conviction that he will support the motion.

Councilman Cobb agreed that this is a difficult situation, especially in light of the fact that he is a strong supporter of neighborhoods. He said Council needs to make a decision based on what they feel is the right thing to do. He said we are not here to define ministry - that is not our job. We are here to take care of the zoning restrictions and try with those to protect the neighborhood with buffers, greenspaces, safety, lighting, etc. Technically all these items have been done. His biggest problem out of the seven findings is No. 4 and that we must assure that these are complied with before we approve the permit. He said that if this is RM-6 zoning area and Trinity decided to move for whatever reason, they could sell their land to a developer and they could build six units per acre on the entire 20-23 acres that it would cover the same space that all the buildings of the Church will cover. There would be no difference in square footage. He has been here since 1954 and Trinity has been in West Asheville since 1973 and he has never heard any complaints about this Church. However, is he concerned about the neighborhood concerns. Both have been good neighbors. However, since Trinity has meet all the requirements that the City has said they need to meet, he doesn't see how the City can do otherwise but approve the conditional use permit, with the TRC's conditions.

Vice-Mayor Hay said that he would vote against the motion. He said that they are directed to not approve the conditional use permit unless each one of the seven findings are addressed in a positive way. He cannot find that No. 4, the proposed use or development of the land will be in harmony with the scale, bulk, coverage, density, and character of the area or neighborhood in which it is located. For that reason, he cannot vote to approve the conditional use permit. He said a 107,000 square foot building is, in his opinion, too big for the neighborhood.

Councilman Cloninger said that he will vote against the motion. He very much respect the good work of Trinity Baptist Church and respect all that they hope to accomplish with this project, however, he felt that this project is too big for a residential neighborhood. If this were a proposal for a commercial area, I would whole-heartedly support it. But given the project is basically surrounded by residential homes, he does not think that the motion should pass. He did not feel that Finding Nos. 1, 4 or 7 have been met.

Councilwoman Field said that she would vote in favor of the motion. She was concerned about Finding No. 3, but since she could not find any reason why the proposed use would substantially injure the value of adjoining or abutting property, she would have to say that that finding has been met. She said that the traffic study shows that there will not be undue traffic congestion caused given the additional requirements that we put on this conditional use. But most of all, she believes in mixed use and in the whole process of zoning, which is to provide buffering between inconsistent uses so that we can have a community that isn't little isolated pockets and ghettos that is all residential, or all commercial, or all institutional. We should all be able to live together. For her, it's a matter of the principles of design, zoning and planning that make for good communities. She felt we have done a lot of damage over the last 30 years putting ourselves in isolated little neighborhoods that are made with lots of dead-end streets.

Mayor Sitnick said that she has great respect for the Church, what they are doing and what they intend to do. She has great respect for the neighbors and what they have had to deal with regarding this issue. She agreed that this is a very tough decision. She will vote against the motion. She said the RM-6 zoning to Institutional was denied primarily because the Institutional zoning would have allowed all of the things that are being sought in the conditional use permit. In addition to that, she believes that Finding No. 3 has not been adequately addressed. Since she is not a Realtor, she cannot say whether ballfields and large structures are going to increase value, injure value or diminish value of adjoining or abutting properties. My personal opinion is that she would not want to buy a house across from a ballfield simply because of the noise, the lights, etc. In addition to that, Finding No. 4 is a concern of hers. It may be true that that property zoned RM-6 could accommodate so many houses that it would equal the 173,000 square feet proposed by the Church, but that would be in more character with the neighborhood. That would be single- or multi-family homes that had good design and a neighborhood kind of feel to it, rather than an institutional feel. Therefore, Finding No. 4 is not met in anyway. She also feels that Finding No. 5 is also not met because the 2010 Plan, which is a guide to City Council, calls for low density residential in that neighborhood and certainly this is not low density residential. She appreciated staff's conditions and support them fully. She would also like to say that it would be her hope that since this looks like this is going to pass, that (1) daytime, as well as nighttime noise, is ameliorated as best as possible; (2) whatever lights exist either for the ballfield or for the parking areas (which she feels strongly should provide security) be taken into account, not necessarily adjoining and abutting houses, but all of the houses within their view; (3) that whatever buffers that are put in are put in are as heavy as possible; (4) that the park and/or ballfield that was described could possibly be used by the community, maybe the ballfields could be used by the community. The City is always looking for ballfields, and I certainly wouldn't want to take them away from Church members but maybe something could be worked out. Because of Findings No. 3, 4 and 5, she was not comfortable in voting in favor of the motion. Our Constitution requires that we not discriminate for or against churches or religion in any way, no matter how we might personally support what the churches do for our community. She had to wrestle with the fact that any other use of this size, remembering that we cannot take use into consideration, Level III conditional use permits contain to size only, any other structure or development of 173,000 she could not vote for.

The motion made by Councilman Sellers and seconded by Councilman Tomes passed on a 4-3 vote, with Mayor Sitnick, Vice-Mayor Hay and Councilman Cloninger voting "no".

City Attorney Oast said that he would draft an Order that includes the conditions that Council suggested. He said that because this motion passed by a 4-3 vote, there is a statutory requirement that it come back before City Council for a second vote.

Because Vice-Mayor Hay will be out of the country on April 27, 1999, (the next formal meeting date), it was the consensus of City Council to schedule the required second vote on the approval of the conditional use permit for Trinity Baptist Church on May 11, 1999.

Rev. Sexton said that the second reading date of May 11, 1999, is not a problem at all for the Church.

UNFINISHED BUSINESS:

NEW BUSINESS:

OTHER BUSINESS:

A. APPROVAL OF THE MINUTES OF THE REGULAR MEETING HELD ON MARCH 23, 1999; THE COMMUNITY MEETING HELD ON MARCH 30, 199; AND THE WORKSESSION HELD ON APRIL 6, 1999

Councilman Cloninger moved for the adoption of the minutes of the regular meeting held on March 23, 1999; the community meeting held on March 30, 1999; and the worksession held on April 6, 1999. This motion was seconded by Councilman Sellers and carried unanimously.

B. CLAIMS

The following claims were received by the City of Asheville during the week of March 19-April 8, 1999: Terry Morris (Sanitation), Bill Cogburn (Water), NC Dept. of Transportation (Water), Bell South (Water), Kerri Autry (Fire) and Janice Plemmons (Fleet Management).

These claims have been referred to Asheville Claims Corporation for investigation.

INFORMAL DISCUSSION AND PUBLIC COMMENT:

Mr. Claude Smith, C-4 Crowfields Condominiums, requested information from the City with regard to a fire at Crowfields, noting that he is not represented by the homeowners association. City Manager Westbrook said that he would talk with Mr. Smith to find out what documents were requested and furnish those to him, if appropriate.

ADJOURNMENT:

Mayor Sitnick adjourned the meeting at 9:19 p.m.

Magdalen Burleson
CITY CLERK

Leni Sitnick
MAYOR

Tuesday - April 20, 1999 - 3:00 p.m.

Worksession

Present: Mayor Leni Sitnick, Presiding; Councilman H. Earl Cobb; Councilwoman Barbara Field; Councilman Thomas G. Sellers; and Councilman O.T. Tomes; City Attorney Robert W. Oast Jr.; City Manager James L. Westbrook Jr.; and City Clerk Magdalen Burleson

Absent: Vice-Mayor Edward C. Hay Jr. and Councilman M. Charles Cloninger

CONSENT:

Donation of Montford Hills Property

Summary: The Parks and Recreation Advisory Board and staff are recommending that the City proceed with accepting the donation of property located in Montford Hills Community from the Neighborhood Housing Services.

The Parks and Recreation Advisory Board, at its February meeting, unanimously approved accepting the donation of property from the Neighborhood Housing Services. Several months ago, Neighborhood Housing Services approached the City of Asheville in regard to accepting eight parcels of property located near Westover Drive and Tacoma Lane in the Montford section. Staff has reviewed the potential use of this property and has determined that it could serve as a possible greenway connection in the future or as protection of open space land. Staff will continue working with the Legal Division in regard to the acceptance of this property contingent on securing a proper boundary survey, conducting a Phase I environmental assessment, and review of any deed restrictions. If, after this review, it still seems in the City's best interest to continue toward acceptance of this property, staff will proceed with securing the title.

The Parks and Recreation Advisory Board and staff are seeking City Council approval to continue the investigation of acceptance of donated property and to authorize the City Manager to enter into any agreements necessary for this transaction.

Resolution Rejecting Bids on Two Vacant Lots on Sara Street

Summary: The consideration of a resolution rejecting bids on two vacant lots on Sara Street and removing said lots from the surplus properties list.

On March 9, 1999, the City Council directed the City Clerk to advertise for upset bids on two vacant lots on Sara Street. The offer to purchase was from MGS, LLC, in the amount of $10,700. The advertisement ran in the Asheville Citizen-Times on March 12, 1999, as provided in N. C. Gen. Stat. sec. 160A-269. Upset bids were received and the property was re-advertised.

Subsequent to the advertisement for upset bids, the Parks and Recreation Department staff identified a need to retain the property as a part of Riverside Cemetery for greenway access. The Parks and Recreation Department staff have requested that all bids be rejected and the properties be removed from the surplus properties list.

Community Development staff recommends adoption of the resolution

425

Budget Amendment for Reed Creek/Broadway Greenway

Summary: The consideration of a budget amendment, in the amount of $130,000, to appropriate grant funds from the State of North Carolina, Department of Environment and Natural Resources in the National Recreational Trails Fund Program to construct a greenway trailhead and ramp segment on the Reed Creek/Broadway Greenway.

The Broadway Greenway represents the next section in the City of Asheville's urban trail corridor linking the UNC-Asheville to the downtown business district. Phase I of the corridor was completed in 1997 with the first section of the Weaver Blvd. Greenway. The next section of Weaver Blvd. will be complete in 1998/1999. The City has been working for some time to develop the Reed Creek/Broadway Greenway along Reed Creek on the west side of Broadway. Eventually the corridor will link downtown neighborhoods to the Weaver Blvd./Glenn's Creek Greenway.

The focus of this grant will be the segment of greenway between Chestnut and Magnolia Streets. The greenway begins at Chestnut Street where a large, five points intersection is located. The grade change from Chestnut to Reed Creek is very steep. A ramp will be needed to provide wheelchair and bicycle accessibility to the greenway. Since it is a large, busy area, the entrance will need a strong visual statement which will accentuate where the greenway begins. The entrance is proposed to include signage, map, and benches.

The Parks and Recreation Department recommends the City of Asheville accept the grant funds on behalf of the Parks and Recreation Department into the Parks capital improvement budget for construction of the trailhead of the Reed Creek/Broadway Greenway.

Budget Amendment re: Speedway Lease Funds

Summary: The consideration of a budget amendment to appropriate $75,000 that was received from HMS, LLC, into a capital project in the Parks and Recreation Department for the lease of the Asheville Speedway for the 1999 season.

In January of 1999, the City of Asheville entered into an agreement with HMS, LLC to allow racing at the Asheville Motor Speedway for one more season. This agreement called for a lease payment of $75,000 to be incorporated into a capital fund in Parks and Recreation that would go to the development of a master plan for the Speedway property. The purpose of this amendment is to appropriate these funds into the budget ordinance.

The Parks and Recreation Department staff recommends City Council approval of the budget ordinance amendment for $75,000.

Authority for Clerk to Advertise an Offer to Purchase Disposal Parcel 59X near the corner of Asheland Avenue and Phifer Street

Summary: The consideration of a resolution directing the City Clerk to advertise an offer to purchase for upset bids regarding Disposal Parcel 59X near the corner of Asheland Avenue and Phifer Street.

The bid of Rex Ballard in the amount of $139,000 for the purchase of Disposal Parcel 59X in the East Riverside Redevelopment Project is not less than the established minimum price of $139,000.

Disposal Parcel 59X is an Office zoned lot near the corner of Asheland Avenue and Phifer Street comprising 0.639 acres. The bid from Rex Ballard for Disposal Parcel 59X includes the proposal to incorporate the lot into the adjacent property currently owned by Rex Ballard. The development proposal consists of landscaping and parking consistent with the Unified Development Ordinance.

Approval of the resolution will initiate the sale of the property through the upset bid process as provided in N. C. Gen. Stat. sec. 160A-269.

Community Development staff recommends adoption of the resolution.

Mayor Sitnick asked that the record show that City Council has received this information and instructs the City Manager to place these items on the next formal City Council agenda.

WEST ASHEVILLE RESOURCE CENTER UPDATE

Ms. Debbie Ivester, Superintendent of Administration in the Parks & Recreation Department, said that this is the consideration of City Council's approval to proceed with the development of the upstairs portion of the City-owned building located at 970 Haywood Road for a Community Resource Center.

For several weeks, the Parks and Recreation Department, the Police Department, and several members from City Council have been working towards finding an alternate location for the Community Resource Center which is currently located at 415 Haywood Road. The current lease for this space at 415 Haywood Road will expire at the end of May, 1999. An extensive search has occurred along Haywood Road to find suitable property for the transfer of this site with the most viable location being in the old library portion of the City-owned building at 970 Haywood Road. The West Asheville Library currently has been using the space for programs sponsored by the library system as well as using the area for public meeting space for various groups. The staff's proposal before City Council is to utilize one-half of the upstairs space for the Community Resource Center with the other portion being available for library and public use. In addition, programs currently planned by the library will be incorporated into the schedule of activities at the West Asheville Community Center located in the basement of this building or at other alternate sites. The Parks and Recreation Department and the Police Department feel that this joint use of the facility is a good compromise for the community to serve the needs of not only the library patrons but also the overall citizens of the West Asheville community.

The Parks and Recreation Department and the Police Department are presenting this information to update Council on the plans to move the resource center.

Councilwoman Field, who was not opposed to this plan, advised City Council that this would be a policy change and perhaps setting a precedent because in the past the community has provided the space for the resource centers and the City provided the police officers.

Councilman Sellers spoke in support of this plan and felt that each community that requested a resource center would need to be looked at on a case-by-case basis.

Upon inquiry of Mayor Sitnick, City Manager Westbrook described the difference between a Police Resource Center vs. a Police Sub-Station.

Mayor Sitnick supported a flexible policy that allows Council to apply the best possible solution neighborhood by neighborhood and would look to staff for guidance in the future.

Councilwoman Field noted that the City needed to be aware that there are some building code violations in the resource center.

Mr. Ed Sheary, Library Director for Buncombe County, appreciated the City for their cooperation in this matter in what they believe will be an interim solution for the Library losing its program room. He said that the Library and the County are proceeding under the assumption that this will be a continuing discussion with City staff and City Council regarding the provision of a dedicated program room for the Library in the near future.

City Manager Westbrook said that no further direction would be required by City Council and that City staff will proceed with their plans to move the resource center.

PROPOSED CHANGES TO THE RECRUITMENT AND SELECTION PROCESS

Councilman Tomes asked for City Council's support of amending the recruitment and selection process in the Civil Service Law so that we will not continue to hinder the work force in our community.

Mr. Kevin Wilson, Assistant Human Resources Director, reported to City Council of the status to date and the recommended future action regarding changes in the Civil Service Law relating to recruitment and selection.

City Council directed staff at its January 1999 Council Retreat to form a Task Force to examine elements of Civil Service Law to ensure that it continued to meet the needs of the City of Asheville. The Recruitment & Selection Task Force has met on the following dates: February 12, March 10, and March 24. The first meeting was attended by four of the five members of our legislative delegation. In addition, participation on this task force includes members of City departmental management, City Council (Rev. O.T. Tomes), Civil Service Board, the Firefighter's Association (president), line-level city staff, local NAACP (president), and Police Benevolent Association (president).

Different interests were expressed from the onset of the meetings. The main points that continued to surface were (1) lack of minority employee representation in various departments/ divisions across City government, and (2) review of the Civil Service Law specific to Recruitment and Selection process. There was much attention placed on the language in the law relating to the "Rule of Three", specifically the past history and perception of citizens that elements of the law could create a disparate impact on certain protected groups. The task force was not able to reach consensus on its recommendation with respect to this part of the law. The employee and Civil Service Board representatives support retention of the Board's role in the recruitment and selection process; the department managers wish to have more autonomy in recruitment and selection, and the representatives of the minority community desire such modifications as will help increase minority representation in the workforce.

There was general agreement with respect to deleting the provisions that are squarely inconsistent with State law: Section 8 requiring disclosure of eligibility lists, and Section 21 regarding political activity.

Staff recommends that the City Council seek amendment to the Civil Service Law to remove those provisions regarding Civil Service Board oversight of the recruitment and selection process. This oversight function will essentially be transferred to the City's staff by way of an administrative policy containing modern operational recruitment procedures to insure a systematic, consistent recruitment program, promote equal opportunity, identify and attract the most qualified applicants for all vacancies, and streamline and shorten the hiring process.

This will require a fairly substantial revision of the Civil Service Law. Other changes are included to conform the law with current practice.

It is important to note that the Civil Service Board's role in hearing and reviewing employee disciplinary matters is being retained.

Assuming that these changes become law, staff is prepared to move ahead with appropriate modifications to the City's Personnel Policy and Affirmative Action Plan to insure that professional recruitment and selection processes are immediately implemented.

The proposed changes are as follows:

- Section 1. Amended to reflect that the Civil Service Board is part of the government of the City, rather than a separate municipal corporation. To whatever extent it was legally necessary that the Civil Service Board be constituted as a separate corporation, there is no identifiable reason for that arrangement to continue. This has the effect of bringing the Civil Service Board under the umbrella of the City for legal processes. In this respect, the Board is an independent board, like the Board of Adjustment, with statutory duties only exercisable by it, but part of the City.

  The Section 1 amendment also provides that the Civil Service Board's operational costs be part of the City's budget.

  The Section 1 amendment also deletes the reference to a Director of Civil Service, whose functions are now performed by the Human Resources Director.

- Section 2. This Section has been rewritten to delete the reference to the Director of Civil Service, but to retain the method for selection of the Civil Service Board's membership, essentially continuing the current board in operation, with no interruption in their terms. The City Council appoints the Chair, as it previously appointed the Director of Civil Service. This amendment also addresses such things as eligibility for successive terms, and specifies that members of Council may not also be Civil Service Board members.

- Section 3. Amended to delete outdated referenced to "Clerk of Police Court."

- Section 4. Amended to refer to Section 5 for specification of the Civil Service Board's powers. The reference to employee discipline in this Section was repetitive of language in Section 5.

- Section 5. Amended to delete provisions for Civil Service Board involvement in the recruitment and selection process. These deletions are the primary means of implementing staff's recommendations, pursuant to Council's direction.

  The proposed amendment also clarifies that the Civil Service Board may make regulations for temporary, part-time and probationary employees. The sections dealing with the Civil Service Board's ability to review disciplinary matters have been retained.

- Sections 6, 7, 8, 9, 10, 11 and 12 are recommended for deletion. These sections relate to the recruitment and selection process, which is being transferred to the City's staff. Section 8 contains the provision requiring disclosure of eligibility lists, which is inconsistent with State law.

- Section 13. Amended to delete power to investigate citizen complaints against employees; this function has for a long time been performed by the department directors or City Manager. The Civil Service Board's function as an agency to which such complaints may be referred for investigation is retained. Any reports generated by an investigation are subject to the general laws regarding disclosure of records.

- Section 14. Changes are technical amendments to conform the law to the Civil Service Board's practice.

- Sections 15, 16, 17 and 18 are deleted because those provisions relate to recruitment and selection. Section 15 requires City Council to establish a pay plan, which is required by statute, G.S. 160A-162.

- Sections 19 and 21, prohibiting political activity by employees, are deleted because they conflict directly with G.S. 160-169 which allows it (within limitations).

- Section 20, prohibiting the requirement of a signed resignation letter as a condition of employment, is retained. The part dealing with political activity is deleted.

- Section 22 provides that it is the Civil Service Board's duty to administer the Act. The provision making a violation of the Act a criminal offense is deleted. Most of the deleted provisions related to fraud or cheating on the recruitment and selection process.

- Section 23, which gives citizens the right to maintain civil actions against the City for money paid in violation of the Civil Service Law, is deleted.

- Section 24 is rewritten to continue the classified service designation of affected employees.

- Section 25, which authorized the City to hire outside of the Civil Service process in the event of an emergency, is deleted.

- Sections 26, 27 and 28, dealing with the constitutionality and effective date of the Act, and repealing conflicting provisions, are retained with minor revisions.

Upon inquiry of Councilman Cobb, City Attorney Oast said that a public hearing is not required. It was his understanding, however, that the submittal deadline for the bill to be considered in this session was the following day and language needed to be inserted in that blank bill. If City Council decides to hold a public hearing, the bill would be subject to any amendments resulting from said public hearing. Also, if after the public hearing City Council decides not to proceed with this request, the bill can always be withdrawn from consideration.

Mr. Wilson outlined the employee statistics, noting that out of the 878 full-time employees, only 114 were minorities.

Mr. Wilson said that the Firefighters Association has come up strongly to say that they don't want any changes to the Civil Service Law whatsoever.

Mayor Sitnick reminded Council that one of their goals is to enhance cultural diversity and City government needs to reflect that desire of the Council in the city at large.

City Attorney Oast said that one change to the information City Council has before them is that in Section 14, the language which is lined through which reads "or is denied any promotion or raise in pay which he or she would be entitled to," should not be lined through. That language will remain in the law.

It was the consensus of City Council to (1) instruct the City Attorney to submit the proposed Civil Service Law changes (with the amendment referred to by City Attorney Oast in Section 14) for inclusion in the draft bill; and (2) schedule a public hearing on this matter for April 27, 1999.

REPORT ON SEXUALLY ORIENTED BUSINESS REGULATIONS

City Attorney Oast reviewed some court cases relating to sexually oriented businesses noting that it is very difficult when the courts are making hair-splitting distinctions. He said that the City is doing as much as they can under the zoning ordinance and we also have licensing requirements for entertainers and operators.

He said that the City has exercised it moratorium authority and our current temporary moratorium runs out on May 11. He asked Council to extend the temporary moratorium on new sexually oriented businesses until the end of June so that whatever regulations Council does seek can work their way through the Planning & Zoning Commission. He recommended that (1) we keep our current separation disbursal requirements, and (2) Council adopt something similar to what the City of Raleigh has, which is a combination of separation ordinance and the conditional use permit mechanism to give the City a greater degree of control over these establishments, not necessarily where they can locate, but the kinds of conditions they will have to satisfy if they do locate in certain places. Through the conditional use permit process, Council can impose conditions on that use that mitigate its potential adverse affects on the surrounding area.

He also recommended the following (which do not have to be reviewed by the Planning & Zoning Commission): (1) adoption regulations requiring that booths be open and visible to management; (2) adopt separation requirements between entertainers and patrons; (3) adopt clothing requirements for servers and people who administer massage and massage therapy; and (4) requirement that only one sexually oriented business be located per site.

Although State law allows cities the following authority, he explained why he is not recommending Council take action on : (1) regulation of ABC establishments even to the point of prohibiting alcohol sales at these establishments; and (2) the imposition of clothing restrictions for entertainers.

Upon inquiry of Councilman Sellers, Mr. Oast said that there are two adult businesses (as defined by our ordinance) located in the City of Asheville.

Upon inquiry of Mayor Sitnick, City Attorney Oast said that escort services are not considered sexually oriented businesses as defined in our ordinance.

Mayor Sitnick stated that the two escort services advertised in the Mountain Xpress are located in Buncombe County.

Councilman Sellers stated that he does not have a problem with sexually oriented businesses in the City of Asheville or any other business in the City, provided they go through the proper permitting process.

Mayor Sitnick asked that the record show that City Council has received this information and instructs the City Manager to place this item on the next formal City Council agenda.

ORDINANCE REGULATING PRIVATE PARKING LOT SIGNS

City Attorney Oast said that this is the consideration of an ordinance requiring that private parking lots in the downtown area be designated as private.

Council and staff have received complaints about enforcement of parking restrictions on private parking lots, primarily related to the towing of vehicles from those lots. Research indicates that local regulation of "motor private carriers with respect to the transportation of property" is pre-empted by federal law. This preemption has been held to apply to non-consensual towing of vehicles from private lots. The effect of the federal law is that cities may not adopt regulations affecting the manner in which privately initiated towing is carried out. To the extent that the federal government does not prohibit local regulation of towing, it appears that, in order for the City to do so, specific authorization would have to be found in State law.

Some North Carolina counties are subject to a law that requires posting of lots as a pre-condition for towing from those lots. Buncombe is not one of those counties. However, there appears to be general authority by which the City can require that private lots be so designated, and to provide that failure to comply subjects the offender (the owner or operator of the lot) to a civil fine. This does not mean that unauthorized vehicles parking in private lots may not be towed or that vehicles must be towed from lots that have signs. However, it may reduce the level of inadvertent unauthorized parking, and thus reduce the number of non-consensual tows.

This application of this ordinance is limited to the Central Business District ("CBD") zone east of the French Broad River; we have had very few complaints from other areas of town. At Council's meeting in March, some concern was expressed over the "all or nothing" approach that the original proposed ordinance appeared to take. Accordingly, revisions have been made to require the designation of all private parking lots in the CBD, and the hours during which towing is or may be enforced.

At a meeting of the Downtown Commission last week, it was suggested that uniform signs might aid in further reducing unauthorized use of private lots. Language has been included to permit the City to produce and provide such uniform signs, and to require their use, if available.

The ordinance will become effective sixty days after adoption.

Upon inquiry of Mayor Sitnick, City Attorney Oast suggested the sign be displayed in a conspicuous location near each entrance to the lot, no higher than six feet from the ground.

City Attorney Oast also said that one of the suggestions that came out of the Downtown Commission meeting was that if the City is able to produce signs that are of uniform sign and insignia, the City should do that and when those signs are available that we require their use. Incorporated in the ordinance is the City's ability to do that but not the requirement.

Upon inquiry of Councilman Cobb, City Attorney Oast explained the state law that requires each private parking lot to be posted as a pre-condition of towing. He said that the law gives the person performing the towing a lien on the vehicle that they tow. As he understand it, now, if someone tows from a private parking lot in Buncombe County then the tower cannot enforce the collection of his fee from the person whose vehicle is being towed. He can enforce the collection of his fee from the owner of the parking lot who contracted with the tower to perform the towing.

Upon inquiry of Mayor Sitnick, City Attorney Oast said that there is an unfair and deceptive trade practices law and any complaints should be referred to the Attorney General's Office which has a separate division which deals specifically with towing complaints.

Mayor Sitnick also had complaints about people who rent parking spaces in private lots. They said that when they leave work at 6:00 p.m. and come back later in the evening for an event downtown, someone else is parked in their spot. City Attorney Oast said that that would be between the space owner and the lot owner and that there may be some contractual language that governs that.

Mayor Sitnick asked that the record show that City Council has received this information and instructs the City Manager to place this item on the May 11 formal City Council agenda.

OTHER BUSINESS:

Educational Access Channel Commission

It was the consensus of City Council to wait for a recommendation from the Boards and Commissions Committee.

Cancellation of July 6, 1999, City Council Worksession

It was the consensus of City Council to cancel the Tuesday, July 6, 1999, City Council meeting (worksession) due to the Fourth of July holiday.

State Building Code

At the request of Councilwoman Field and upon concurrence of City Council, City Attorney Oast was directed to request the legislature, before the bill submittal deadline tomorrow, for a state-wide or at least a local bill to have a moratorium on the enforcement of the State Building Code that requires buildings that do not have a second exit be brought into compliance by the end of 1999 until the state adopts the new International Building Code with North Carolina amendments to that new Code. The new Code should have some options for a second exit.

Miscellaneous

Mayor Sitnick said that (1) the yellow ribbon on the flag pole in front of the Fire Department is to remember the three prisoners taken in Kosovo; (2) the City Manager is working with the Director of Parks & Recreation on the WRATT Program (which recommends energy and waste reduction assessments); (3) she is working with the City Attorney on possibly formulating a policy or message acknowledging that people will drink so how can we get them not to drive; (4) the City Manager is sending a letter to the N.C. Dept. of Transportation requesting them to clean and repair the medians and islands in the City; and (5) Thursday, April 22. 1999, is "Honk Against Litter" and requested volunteers to staff the intersections.

RESOLUTION NO. 99-59 - RESOLUTION AUTHORIZING THE MAYOR TO EXECUTE AN ESTOPPEL CERTIFICATE FOR DAVIDSON HOTEL PARTNERS LIMITED PARTNERSHIP

City Attorney Oast said that this is the consideration of authorizing the execution of an estoppel letter.

He said that the City owns certain real property near the Airport on which is situated a Holiday Inn. Davidson Hotel Partners ("DHP") leases the property from the City and operates the motel. DHP proposes to assign the lease, which does not require the City's consent, and in connection with the assignment, has requested that the City execute an estoppel letter indicating that DHP is not in default on the lease. Although the City's approval is not required for the assignment, DHP has submitted information showing that the proposed assignee is Weber River, LLC, which is headquartered in Delaware, and has obtained a Certificate of Authority to operate in North Carolina. DHP has a substantial ownership interest in Weber River.

A similar estoppel letter was issued in 1994 and in 1997. At this time, he has not been able to determine if DHP in current on its lease payments because of the short time available, however he has no reason to think they are not current. This resolution authorizes the Mayor to sign the estoppel letter upon verification that DHP is current, which should occur tomorrow.

Staff recommends adoption of the resolution.

Councilman Tomes moved to waive the rules and take formal action at this meeting. This motion was seconded by Councilwoman Field and carried unanimously.

Mayor Sitnick said that members of Council have been previously furnished with a copy of the resolution and it would not be read.

Councilwoman Field moved to adopt Resolution No. 99-59. This motion was seconded by Councilman Tomes and carried unanimously.

RESOLUTION BOOK NO. 25 - PAGE 189

ADJOURNMENT:

Mayor Sitnick adjourned the meeting at 4:50 p.m.

Magdalen Burleson
CITY CLERK

Leni Sitnick
MAYOR

Tuesday - April 27, 1999 - 5:00 p.m.

Regular Meeting

Present: Mayor Leni Sitnick, Presiding; Councilman M. Charles Cloninger; Councilman Earl Cobb; Councilwoman Barbara Field; Councilman Thomas G. Sellers; and Councilman O.T. Tomes; City Attorney Robert W. Oast Jr.; City Manager James L. Westbrook Jr.; and City Clerk Magdalen Burleson

Absent: Vice-Mayor Edward C. Hay Jr.

INVOCATION

Councilman Sellers gave the invocation.

I. PROCLAMATIONS:

A. PRESENTATION BY ASHEVILLE SISTER CITIES

Ms. Mary Lasher, President of Asheville Sister Cities Inc., presented City Council with the new Asheville Sister Cities thank-you note cards. On behalf of City Council, Mayor Sitnick thanked Ms. Lasher for the cards.

B. PROCLAMATION PROCLAIMING MAY 6, 1999, AS "PARKS AND RECREATION VOLUNTEER RECOGNITION DAY"

Councilman Cloninger read the proclamation proclaiming May 6, 1999, as "Parks and Recreation Volunteer Recognition Day" in the City of Asheville. He presented the proclamation to Ms. Joyce Harrison, recipient of the Bill Fulp Community Service Award, and Director of Parks & Recreation Irby Brinson.

C. PROCLAMATION PROCLAIMING MAY 8, 1999, AS "HIT THE PAVEMENT, NOT YOUR PETS" DAY

Councilman Cobb read the proclamation proclaiming May 8, 1999, as "Hit the Pavement, Not Your Pets" Day in the City of Asheville. He presented the proclamation to Mr. Mark Paulhus, Executive Director of Buncombe County Friends for Animals, and Ms. Marilyn Walker, Chair for the Anti-Cruelty Walk, who urged City Council to participate in the Walk.

II. CONSENT:

At the request of Mr. Mel Thomason, Item E. on the Consent Agenda was removed for further discussion.

A. RESOLUTION NO. 99-60 - RESOLUTION AUTHORIZING CITY STAFF TO CONTINUE THE INVESTIGATION OF ACCEPTANCE OF DONATED PROPERTY LOCATED IN MONTFORD HILLS COMMUNITY FROM THE NEIGHBORHOOD HOUSING SERVICES AND AUTHORIZING THE CITY MANAGER TO ENTER INTO ANY NECESSARY AGREEMENTS

Summary: The Parks and Recreation Advisory Board and staff are recommending that the City proceed with accepting the donation of property located in Montford Hills Community from the Neighborhood Housing Services.

The Parks and Recreation Advisory Board, at its February meeting, unanimously approved accepting the donation of property from the Neighborhood Housing Services. Several months ago, Neighborhood Housing Services approached the City of Asheville in regard to accepting eight parcels of property located near Westover Drive and Tacoma Lane in the Montford section. Staff has reviewed the potential use of this property and has determined that it could serve as a possible greenway connection in the future or as protection of open space land. Staff will continue working with the Legal Division in regard to the acceptance of this property contingent on securing a proper boundary survey, conducting a Phase I environmental assessment, and review of any deed restrictions. If, after this review, it still seems in the City's best interest to continue toward acceptance of this property, staff will proceed with securing the title.

The Parks and Recreation Advisory Board and staff are seeking City Council approval to continue the investigation of acceptance of donated property and to authorize the City Manager to enter into any agreements necessary for this transaction.

RESOLUTION BOOK NO. 25 - PAGE 190

B. RESOLUTION NO. 99-61 - RESOLUTION REJECTING ON BIDS ON TWO VACANT LOS ON SARA STREET AND REMOVING SAID LOTS FROM THE SURPLUS PROPERTY LIST

Summary: The consideration of a resolution rejecting bids on two vacant lots on Sara Street and removing said lots from the surplus properties list.

On March 9, 1999, the City Council directed the City Clerk to advertise for upset bids on two vacant lots on Sara Street. The offer to purchase was from MGS, LLC, in the amount of $10,700. The advertisement ran in the Asheville Citizen-Times on March 12, 1999, as provided in N. C. Gen. Stat. sec. 160A-269. Upset bids were received and the property was re-advertised.

Subsequent to the advertisement for upset bids, the Parks and Recreation Department staff identified a need to retain the property as a part of Riverside Cemetery for greenway access. The Parks and Recreation Department staff have requested that all bids be rejected and the properties be removed from the surplus properties list.

Community Development staff recommends adoption of the resolution

RESOLUTION BOOK NO. 25 - PAGE 191

C. RESOLUTION NO. 99-62 - RESOLUTION AUTHORIZING THE MAYOR TO CONVEY LAND ON PARK AVENUE TO DAVID J. HEETDERKS

Summary: The consideration of a resolution authorizing the Mayor to convey a vacant lot on Park Avenue to David J. Heetderks in the amount of $10,800.

On February 9, 1999, the City Council directed the City Clerk to advertise for upset bids on certain property located on Park Avenue (PIN 9638.08-97-8805) in the West End Community. The advertisement ran in the Asheville Citizen-Times in

February 12, 1999, as provided in N. C. Gen. Stat. sec. 160A-269. An upset bid was received by MGS, LLC, in the amount of $9,185 and the sale again was advertised on February 26, 1999. An upset bid was received from David J. Heetderks in the amount of $9,700 and an additional advertisement ran in the Asheville Citizen-Times on March 12, 1999. An upset bid was received by MGS, LLC, in the amount of $10,235 and the sale again was advertised on March 26, 1999. An upset bid was received from David J. Heetderks in the amount of $10,800 and the sale was again advertised on April 9, 1999. There being no upset bid received from the offer to purchase from David J. Heetderks in the amount of $10,800, the sale to David J. Heetderks should be approved.

Community Development staff recommends adoption of the resolution.

RESOLUTION BOOK NO. 25 - PAGE 192

D. ORDINANCE NO. 2562 - BUDGET AMENDMENT TO APPROPRIATE GRANT FUNDS FOR THE CONSTRUCTION OF A GREENWAY TRAILHEAD AND RAMP SEGMENT ON THE REED CREEK/BROADWAY GREENWAY

Summary: The consideration of a budget amendment, in the amount of $130,000, to appropriate grant funds from the State of North Carolina, Department of Environment and Natural Resources in the National Recreational Trails Fund Program to construct a greenway trailhead and ramp segment on the Reed Creek/Broadway Greenway.

The Broadway Greenway represents the next section in the City of Asheville's urban trail corridor linking the UNC-Asheville to the downtown business district. Phase I of the corridor was completed in 1997 with the first section of the Weaver Blvd. Greenway. The next section of Weaver Blvd. will be complete in 1998/1999. The City has been working for some time to develop the Reed Creek/Broadway Greenway along Reed Creek on the west side of Broadway. Eventually the corridor will link downtown neighborhoods to the Weaver Blvd./Glenn's Creek Greenway.

The focus of this grant will be the segment of greenway between Chestnut and Magnolia Streets. The greenway begins at Chestnut Street where a large, five points intersection is located. The grade change from Chestnut to Reed Creek is very steep. A ramp will be needed to provide wheelchair and bicycle accessibility to the greenway. Since it is a large, busy area, the entrance will need a strong visual statement which will accentuate where the greenway begins. The entrance is proposed to include signage, map, and benches.

The Parks and Recreation Department recommends the City of Asheville accept the grant funds on behalf of the Parks and Recreation Department into the Parks capital improvement budget for construction of the trailhead of the Reed Creek/Broadway Greenway.

ORDINANCE BOOK NO. 17 - PAGE 301

E. RESOLUTION AUTHORIZING THE CITY CLERK TO ADVERTISE AN OFFER TO PURCHASE DISPOSAL PARCEL 59X LOCATED NEAR THE CORNER OF ASHELAND AVENUE AND PHIFER STREET

This item was pulled from the Consent Agenda for discussion.

F. **ORDINANCE NO. 2563 - BUDGET AMENDMENT TO APPROPRIATE $75,000 THAT WAS RECEIVED FROM HMS, LLC, INTO A CAPITAL PROJECT IN THE PARKS & RECREATION DEPARTMENT FOR THE LEASE OF THE ASHEVILLE SPEEDWAY FOR THE 1999 SEASON**

Summary: The consideration of a budget amendment to appropriate $75,000 that was received from HMS, LLC, into a capital project in the Parks and Recreation Department for the lease of the Asheville Speedway for the 1999 season.

In January of 1999, the City of Asheville entered into an agreement with HMS, LLC to allow racing at the Asheville Motor Speedway for one more season. This agreement called for a lease payment of $75,000 to be incorporated into a capital fund in Parks and Recreation that would go to the development of a master plan for the Speedway property. The purpose of this amendment is to appropriate these funds into the budget ordinance.

The Parks and Recreation Department staff recommends City Council approval of the budget ordinance amendment for $75,000.

RESOLUTION BOOK NO. 25 - PAGE 193

H. **MOTION SETTING A PUBLIC HEARING ON MAY 11, 1999, TO CONSIDER THE REZONING OF THREE LOTS LOCATED ON MONTFORD AVENUE FROM RM-8 RESIDENTIAL MULTI-FAMILY MEDIUM DENSITY DISTRICT TO OFFICE DISTRICT**

I. **MOTION SETTING A PUBLIC HEARING ON MAY 11, 1999, TO CONSIDER THE SUBMISSION OF THE CONSOLIDATED PLAN TO THE U.S. DEPT. OF HOUSING AND URBAN DEVELOPMENT FOR COMMUNITY DEVELOPMENT BLOCK GRANT ENTITLEMENT AND HOME INVESTMENT PARTNERSHIP PROGRAM FUNDS FOR 1999-2000**

Mayor Sitnick said that members of Council have been previously furnished with a copy of the resolutions and ordinances and the Consent Agenda and they would not be read.

Councilman Sellers moved for the adoption of the Consent Agenda. This motion was seconded by Councilwoman Field and carried unanimously.

ITEM REMOVED FROM THE CONSENT AGENDA FOR DISCUSSION

RESOLUTION AUTHORIZING THE CITY CLERK TO ADVERTISE AN OFFER TO PURCHASE DISPOSAL PARCEL 59X LOCATED NEAR THE CORNER OF ASHELAND AVENUE AND PHIFER STREET

Summary: The consideration of a resolution directing the City Clerk to advertise an offer to purchase for upset bids regarding Disposal Parcel 59X near the corner of Asheland Avenue and Phifer Street.

The bid of Rex Ballard in the amount of $139,000 for the purchase of Disposal Parcel 59X in the East Riverside Redevelopment Project is not less than the established minimum price of $139,000.

Disposal Parcel 59X is an Office zoned lot near the corner of Asheland Avenue and Phifer Street comprising 0.639 acres. The bid from Rex Ballard for Disposal Parcel 59X includes the proposal to incorporate the lot into the adjacent property currently owned by Rex Ballard. The development proposal consists of landscaping and parking consistent with the Unified Development Ordinance, which will require a buffer adjoining the residential property.

Approval of the resolution will initiate the sale of the property through the upset bid process as provided in N. C. Gen. Stat. sec. 160A-269.

Community Development staff recommends adoption of the resolution.

Mr. Mel Thomason urged the City Council to reject the bid submitted and retain the property for a greenway corridor. He noted that the property is zoned business which would permit a structure of 30,000 square feet to be built in an area of single-family homes.

City Manager Westbrook said that it was his understanding that the property has utilities under it and you really can't construct anything on it. He also noted that this is redevelopment property and that money will go back into the redevelopment fund.

Upon inquiry of Councilwoman Field about retaining an easement for a greenway, Mr. Ed Vess, Field Services Coordinator, said that the right-of-way in that area is 100 feet.

Councilman Tomes spoke in support of keeping the area as it is, especially since our Parks & Recreation Master Plan consultant said we should conserve all our land.

Upon inquiry of Councilman Cobb, Parks & Recreation Director Irby Brinson said that the actual greenway connection would be in the 100 foot right-of-way. If the area is not sold, it would be just maintained as an open space area.

Councilman Tomes moved to continue this matter until May 11, 1999, in order to give City Council an opportunity to visit the property in question. This motion was seconded by Councilman Cobb and carried unanimously.

III. PUBLIC HEARINGS:

A. PUBLIC HEARING RELATIVE TO REZONING ALL OF EIGHT LOTS LOCATED ON ASHELAND AVENUE AND SOUTH GROVE STREET FROM OFFICE BUSINESS DISTRICT TO OFFICE II DISTRICT, EXCEPT FOR A PORTION OF ONE LOT BEING REZONED FROM REGIONAL BUSINESS DISTRICT TO OFFICE II DISTRICT AND A ONE FOOT STRIP ALONG FOUR LOTS ON SOUTH GROVE STREET BEING REZONED FROM OFFICE BUSINESS DISTRICT TO RS-8 RESIDENTIAL SINGLE FAMILY HIGH DENSITY DISTRICT

See discussion under Item B.

B. PUBLIC HEARING RELATIVE TO REZONING A PORTION OF ONE LOT LOCATED ON ASHELAND AVENUE FROM OFFICE BUSINESS DISTRICT TO REGIONAL BUSINESS DISTRICT, EXCEPT FOR A ONE FOOT STRIP ALONG THE LOT BOUNDARY ON SOUTH GROVE STREET BEING REZONED FROM OFFICE BUSINESS DISTRICT TO RS-8 RESIDENTIAL SINGLE FAMILY HIGH DENSITY DISTRICT

Mayor Sitnick said that on April 26, 1999, City Clerk Burleson received a letter from Attorney Scott Carter on behalf of his client, Oak Valley Partners, property owner in this area. Said letter requested City Council postpone this public hearing at least one session to allow them the necessary time to research the matter thoroughly in order to make a more concise and erudite presentation to City Council. They believe that the proposed rezoning is neither legal nor desirable and they need a little time to make the quality case to Council.

After discussion about the need for a policy regarding a deadline within which to request a continuance of a matter previously scheduled on the City Council agenda, City Council directed the City Attorney to draft such a policy and bring it back for City Council review at a worksession. With this policy, the City can notify the affected people in a timely manner to avoid the inconvenience of coming to a City Council meeting and then having the matter continued without being given the opportunity to be heard.

Councilman Cloninger moved to continue the two public hearings to rezone properties on Asheland Avenue until May 11, 1999. This motion was seconded by Councilman Sellers and carried unanimously.

C. PUBLIC HEARING RELATIVE TO AMENDING CHAPTER 7 OF THE CODE OF ORDINANCES (UNIFIED DEVELOPMENT ORDINANCE) TO CHANGE THE METHOD FOR DETERMINING WHEN SIGNIFICANT CHANGES HAVE BEEN MADE TO PRELIMINARY PLATS SO THAT FURTHER REVIEW BY THE TECHNICAL REVIEW COMMITTEE AND/OR THE PLANNING AND ZONING COMMISSION IS REQUIRED

ORDINANCE NO. 2564 - ORDINANCE TO AMEND CHAPTER 7 OF THE CODE OF ORDINANCES (UNIFIED DEVELOPMENT ORDINANCE) TO CHANGE THE METHOD FOR DETERMINING WHEN SIGNIFICANT CHANGES HAVE BEEN MADE TO PRELIMINARY PLATS SO THAT FURTHER REVIEW BY THE TECHNICAL REVIEW COMMITTEE AND/OR THE PLANNING AND ZONING COMMISSION IS REQUIRED

Mayor Sitnick opened the public hearing at 5:45 p.m.

City Clerk Burleson presented the notice to the public setting the time and date of the public hearing.

Mr. Gerald Green, Senior Planner, said that this is the consideration of a wording amendment pertaining to "substantial changes" for final subdivision plats.

At their meeting on April 7, 1999, the Planning & Zoning Commission voted 7-0 in support of an ordinance amendment pertaining to "substantial changes to final subdivision plats". Section 7-5-8 (a) (4) d. includes requirements for final plats as a part of subdivision plat approvals. The specific exert which staff proposes to revise currently reads as follows:

> *Substantial changes from the preliminary plat shall require an additional review by the Technical Review Committee and the Planning & Zoning Commission to ensure compliance with the existing regulations. Substantial improvements shall include, but not be limited to, redesign of streets, increasing the number of lots, altering the size and/or design of more than 20 percent of the lots, and/or reducing the number of lots by more than 20 percent.*

It is the recommendation of staff that the items listed as "substantial changes" be deleted. The basis for this recommendation is that professional staff can review the plan and determine the significance of the revisions by looking at such items as the impact on adjacent properties, impact on traffic volumes, or significance of the revisions from the original plan. It should be incumbent on City staff to make this determination and if the changes are significant to ensure the necessary level(s) of review. The plans are being prepared and reviewed by professionals and this portion of the Unified Development Ordinance ("UDO") appears to be overly restrictive in detailing the process of review by Technical Review Committee and Planning & Zoning Commission. Therefore, staff would propose to revise this section to read as follows:

> *Substantial changes from the preliminary plat as determined by the Planning and Development Director shall require an additional review by the Technical Review Committee and/or the Planning & Zoning Commission to ensure compliance with the existing regulations. ~~Substantial improvements shall include, but not be limited to, redesign of streets, increasing the number of lots, altering the size and/or design of more than 20 percent of the lots, and/or reducing the number of lots by more than 20 percent.~~*

Staff recommends that City Council review the proposed wording amendment of the UDO to remove specificity of "significant changes" and to allow staff latitude to make this determination without all cases requiring review by the Technical Review Committee and/or the Planning & Zoning Commission.

When Mayor Sitnick expressed concern about changes being made and no notification being given to the public, Mr. Green said that even though there will not be notification to the neighborhood, staff will take into consideration the comments made by the public when the plat was brought before the Technical Review Committee and the Planning & Zoning Commission. Mr. Green said that Planning staff will do their best to take into account the comments made by the public and keeping them informed of what is going on, even when there are changes not determined to be substantial.

Mayor Sitnick suggested there be an amendment to this ordinance for some kind of public notice to anyone who participated at the Technical Review Committee review. Mr. Green said that notification could be given, but they would not have an opportunity for input. City Manager Westbrook also pointed out that the Technical Review Committee deals with the technical issues and in most cases, there is not a lot of debate about the facts.

Mayor Sitnick closed the public hearing at 5:55 p.m.

Mayor Sitnick said that members of Council have previously received a copy of the ordinance and it would not be read.

Councilman Cloninger moved for the adoption of Ordinance No. 2564. This motion was seconded by Councilman Cobb and carried unanimously.

D. PUBLIC HEARING RELATIVE AMENDING CHAPTER 7 OF THE CODE OF ORDINANCES (UNIFIED DEVELOPMENT ORDINANCE) TO PROVIDE REGULATIONS FOR SIGNS FOR SECOND TIER DEVELOPMENT

ORDINANCE NO. 2565 - ORDINANCE TO AMEND CHAPTER 7 OF THE CODE OF ORDINANCES TO PROVIDE REGULATIONS FOR SIGNS FOR SECOND TIER DEVELOPMENT

Mayor Sitnick opened the public hearing at 5:56 p.m.

City Clerk Burleson presented the notice to the public setting the time and date of the public hearing.

Mr. Gerald Green, Senior Planner, said that the Planning and Zoning Commission, at their April 7, 1999, meeting, reviewed and recommended approval of an amendment to the Unified Development Ordinance ("UDO") which would define second tier development, identify permitted signage for such development, and establish standards for the signage. Second tier development, briefly described as that development which occurs behind the lots fronting major thoroughfares, is viewed as a critical link in the effort to reduce the strip development along Asheville's thoroughfares. The signage needs for these developments are anticipated to be different than most other developments in the City, as the second tier developments typically will not have street frontage. The proposed ordinance would permit one off-premise development identification sign per second tier development, as well as on-site tenant identification signs. The off-premise sign may be a maximum of 90 square and may be located up to 1000 feet from the second tier development. The size, height, and location of all signs would be established by the proposed ordinance. If a development qualifies as a second tier development and takes advantage of the signage package for second tier developments, it may not apply for the standard signage permitted under the sign ordinance. This restriction is designed to prevent sign clutter within the second tier development.

The Planning and Zoning Commission voted 6 to 1 to recommend approval of the wording amendment. The Planning and Development staff recommends approval of the amendment.

Mr. Green said that he received one comment to amend Section 7-13-5 (c) (2) (b) to read "the off-premises development identification sign must be located (1) within 1000 feet of the closest point of the second tier development it identifies; or (2) at the closest point of the second tier development it identifies, whichever is the least." Their concern was that the location along a major thoroughfare may be more than 1,000 from the second tier development. He felt this amendment would be reasonable and recommended it be incorporated into the proposed ordinance.

City Attorney Oast suggested a different amendment to the ordinance to address the comment. Since Mr. Green was not aware of any proposed or potential locations where the second tier development would be more than 1000 feet away from the traveled thoroughfare, City Attorney Oast suggested incorporating that amendment as something for which the Board of Adjustment may grant a variance.

Councilman Cobb hoped that in the future the City of Asheville would post logo signs that direct people in the City. Mr. Green said that Planning staff is working on an ordinance amendment for signage in the right-of-way and they will try to incorporate this request into that amendment.

City Attorney Oast suggested Council amend Section 7-13-5 (c) (5) be amended to read "Variances from the standards set forth herein shall be limited to the following: (a) a 10% increase in the dimensional standards (size, height, and setback); and (b) to allow placement of a sign at a distance greater than 1000 feet from the closest point of the second tier development, if the closest point of the second tier development is more than 1000 feet away from the thoroughfare."

Mayor Sitnick closed the public hearing at 6:09 p.m.

Mayor Sitnick said that members of Council have previously received a copy of the ordinance and it would not be read.

Councilwoman Field moved for the adoption of Ordinance No. 2565 with the amendment suggested by City Attorney Oast to Section 7-13-5 (c) (5). This motion was seconded by Councilman Tomes and carried unanimously.

ORDINANCE BOOK NO. 17 - PAGE 307

E. PUBLIC HEARING TO AMEND THE CIVIL SERVICE RELATING TO THE RECRUITMENT AND SELECTION PROCESS

Mayor Sitnick opened the public hearing at 6:12 p.m.

City Clerk Burleson presented the notice to the public setting the time and date of the public hearing.

Councilman Tomes asked for City Council's support of amending the recruitment and selection process in the Civil Service Law so that we will not continue to hinder the work force in our community.

Mr. Kevin Wilson, Assistant Human Resources Director, reported to City Council of the status to date and the recommended future action regarding changes in the Civil Service Law relating to recruitment and selection. He said that 46 years after the Civil Service Law was enacted, out of 100 counties in North Carolina, all of them have moved away from this kind of process. Out of 512 cities in North Carolina, Asheville is the only one with this kind of process. There are staggering statistics which show that there is an apparent disparate impact.

City Council directed staff at its January 1999 Council Retreat to form a Task Force to examine elements of Civil Service Law to ensure that it continued to meet the needs of the City of Asheville. The Recruitment & Selection Task Force included members of City departmental management, City Council (Rev. O.T. Tomes), Civil Service Board, the Firefighter's Association (president), line-level city staff, local NAACP (president), and Police Benevolent Association (president).

Different interests were expressed from the onset of the meetings. The main points that continued to surface were (1) lack of minority employee representation in various departments/ divisions across City government, and (2) review of the Civil Service Law specific to Recruitment and Selection process. There was much attention placed on the language in the law relating to the "Rule of Three", specifically the past history and perception of citizens that elements of the law could create a disparate impact on certain protected groups. The task force was not able to reach consensus on its recommendation with respect to this part of the law. The employee and Civil Service Board representatives support retention of the Board's role in the recruitment and selection process; the department managers wish to have more autonomy in recruitment and selection, and the representatives of the minority community desire such modifications as will help increase minority representation in the workforce.

There was general agreement with respect to deleting the provisions that are squarely inconsistent with State law: Section 8 requiring disclosure of eligibility lists, and Section 21 regarding political activity.

Staff recommends that the City Council seek amendment to the Civil Service Law to remove those provisions regarding Civil Service Board oversight of the recruitment and selection process. This oversight function will essentially be transferred to the City's staff by way of an administrative policy containing modern operational recruitment procedures to insure a systematic, consistent recruitment program, promote equal opportunity, identify and attract the most qualified applicants for all vacancies, and streamline and shorten the hiring process.

This will require a fairly substantial revision of the Civil Service Law. Other changes are included to conform the law with current practice.

It is important to note that the Civil Service Board's role in hearing and reviewing employee disciplinary matters is being retained.

Assuming that these changes become law, staff is prepared to move ahead with appropriate modifications to the City's Personnel Policy and Affirmative Action Plan to insure that professional recruitment and selection processes are immediately implemented.

The proposed changes are as follows:

- Section 1. Amended to reflect that the Civil Service Board is part of the government of the City, rather than a separate municipal corporation. To whatever extent it was legally necessary that the Civil Service Board be constituted as a separate corporation, there is no identifiable reason for that arrangement to continue. This has the effect of bringing the Civil Service Board under the umbrella of the City for legal processes. In this respect, the Board is an independent board, like the Board of Adjustment, with statutory duties only exercisable by it, but part of the City.

  The Section 1 amendment also provides that the Civil Service Board's operational costs be part of the City's budget.

  The Section 1 amendment also deletes the reference to a Director of Civil Service, whose functions are now performed by the Human Resources Director.

- Section 2. This Section has been rewritten to delete the reference to the Director of Civil Service, but to retain the method for selection of the Civil Service Board's membership, essentially continuing the current board in operation, with no interruption in their terms. The City Council appoints the Chair, as it previously appointed the Director of Civil Service. This amendment also addresses such things as eligibility for successive terms, and specifies that members of Council may not also be Civil Service Board members.

- Section 3. Amended to delete outdated referenced to "Clerk of Police Court."

444

- Section 4. Amended to refer to Section 5 for specification of the Civil Service Board's powers. The reference to employee discipline in this Section was repetitive of language in Section 5.

- Section 5. Amended to delete provisions for Civil Service Board involvement in the recruitment and selection process. These deletions are the primary means of implementing staff's recommendations, pursuant to Council's direction.

  The proposed amendment also clarifies that the Civil Service Board may make regulations for temporary, part-time and probationary employees. The sections dealing with the Civil Service Board's ability to review disciplinary matters have been retained.

- Sections 6, 7, 8, 9, 10, 11 and 12 are recommended for deletion. These sections relate to the recruitment and selection process, which is being transferred to the City's staff. Section 8 contains the provision requiring disclosure of eligibility lists, which is inconsistent with State law.

- Section 13. Amended to delete power to investigate citizen complaints against employees; this function has for a long time been performed by the department directors or City Manager. The Civil Service Board's function as an agency to which such complaints may be referred for investigation is retained. Any reports generated by an investigation are subject to the general laws regarding disclosure of records.

- Section 14. This is the section requiring the Civil Service Board's hearings on employee appeals from disciplinary actions. This provision is retained in its current form as to substance. Some technical changes are recommended to conform the law to the Civil Service Board's practice.

- Sections 15, 16, 17 and 18 are deleted because those provisions relate to recruitment and selection. Section 15 requires City Council to establish a pay plan, which is required by statute, G.S. 160A-162.

- Sections 19 and 21, prohibiting political activity by employees, are deleted because they conflict directly with G.S. 160-169 which allows it (within limitations).

- Section 20, prohibiting the requirement of a signed resignation letter as a condition of employment, is retained. The part dealing with political activity is deleted.

- Section 22 provides that it is the Civil Service Board's duty to administer the Act. The provision making a violation of the Act a criminal offense is deleted. Most of the deleted provisions related to fraud or cheating on the recruitment and selection process.

- Section 23, which gives citizens the right to maintain civil actions against the City for money paid in violation of the Civil Service Law, is deleted.

- Section 24 is rewritten to continue the classified service designation of affected employees.

- Section 25, which authorized the City to hire outside of the Civil Service process in the event of an emergency, is deleted.

- Sections 26, 27 and 28, dealing with the constitutionality and effective date of the Act, and repealing conflicting provisions, are retained with minor revisions.

Mayor Sitnick said that one of our goals in our first retreat was to encourage and support the cultural diversity that exists in our community.

City Attorney Oast said that in Section 2 the terms for the Civil Service Board members was inadvertently left out. Therefore, he asked that that a sentence in Section 2 of the Civil Service Law that City Council has before them be amended to read "All members of the Board shall serve two year terms and shall be eligible for successive terms, by whatever means selected, and may serve beyond the end of their respective terms until their successor takes office."

City Attorney Oast also clarified in Section 24 where it speaks to the employees who are members of the classified service. It is the intention of that provision to include everyone who is currently a member of the classified service and anyone who is subsequently hired by the City of Asheville.

Mr. Mike Knisely, President of the Asheville Firefighters Association ("AFA"), said that Council was told that the AFA was not interested in any changes in our Civil Service Law regarding the Rule of 3. He said that Council was misinformed. The AFA came up with constructive changes to the law which would accommodate the request, goals and desires of the new millennium of inclusion and diversity. In fact, some changes they propose do change that Civil Service Law, but not to the sweeping changes espoused by staff. They believe the Civil Service Law has served the employees well. He didn't disagree that the Civil Service Law should have been amended over the years. He also said the Civil Service Law is always given the blame for bad hiring and bad promotion decisions, illegal hiring and promotion decisions and lengthy hiring processes. He said that it is not the law that does the hiring or the testing, it's human beings. The Civil Service Board was established in 1953 as oversight on a process that prior to that had been cronyism. It was an oversight board of non-compensated, independent citizens, not employees of the City, who sat down and reviewed the process. The Board that we have today is one of the most diverse boards that we have in the City. It is composed of five individuals - two females, two African Americans and one white male. The Civil Service Board as it exists today does not concur with the changes being espoused by staff to Council for consideration today. The AFA agree that the law needs changing and they have advocated for change. The days of the strict reading of the Rule of 3 are long gone. In 1995 he advanced the idea of targeted recruiting - looking at individuals, talking to churches, civic groups, national guard groups and people coming out of the military. He restricted his argument quite often to the Fire Department and police issues but for the most part it was looking for individuals that are qualified that would be a benefit to our City and to our system. The AFA doesn't agree with the process now. It's throwing the baby out with the bath water philosophy. It's too wide spread of a change in the Law. The recruiting and hiring process ties directly into the grievance process. Seeking diversity should be a number one goal of the City and putting together a staff, either line level, management, etc., should be the primary goal of the City. His personal and professional position is that we're here to serve the citizens of the City of Asheville and we should reflect the make-up and diversity of the City, without question. They do agree with the goals expressed by Councilman Tomes, Mr. Richardson and Mr. Wilson without reservation. We know that cities outside North Carolina meet and have met those goals within the framework of civil service laws, opposed to the argument by Mr. Wilson that we are the only city with a Civil Service Law. They don't agree with gutting this Law as a means to those goals. However, they do say that if it is indeed the feeling of the Council that the protections and the oversight of our Civil Service Law need to be changed in such a large sweeping matter to accommodate the goals of diversity, and those sentiments are echoed and advanced to our legislative contingent in Raleigh, the firefighters will be there in support as they have always been. We wish it were different. We've placed before you today a position paper with a general commentary and a point by point analysis with specific reference to how it would affect the minority community in the positions. We express and say again, we share the concern for diversity, but we don't want the rule taken away. We want the rule modified. We would like to see those two positions put together and come up with a third position. We would like to see language advanced to the legislature that indeed becomes a Civil Service Law for the new millennium. He was proud of the progressive Civil Service Law that Asheville has. He thinks that there is room for improvement, but until the time comes that they can put together language that will be satisfactory, not only to members of the community, to Council, to the current employees, and future and potential employees of the City of Asheville, we have to look and see just exactly how this is going to work and how this is going to put together a position that is going to be fair to all concerned and meet the goals, directions and desires of everyone.

Councilman Tomes asked if the Civil Service Law has served the City well since 1953, then why is the Fire Department 98% white male. Mr. Knisely responded that the Civil Service Board and City management in the past has side-stepped the spirit and fundamental attitude that is personified in the law. He stressed, however, that we have never been precluded in the past from targeted recruiting or from advancing qualified candidates from the minority community. He said a lot of times we don't get qualified applicants and we could use more. He felt that if we were to enforce the law with the righteous attitude from the Civil Service Board, coupled with a righteous attitude on the part of staff, he felt the numbers would be different.

Councilman Tomes stated that the City of Asheville needs to be intentional about being fair.

Mr. Knisely said that the Rule of 3 is necessary, not to say that modifications shouldn't be considered with an emphasis on minority hiring, retention and promotion.

Councilman Cobb questioned what the benefit is for the Civil Service Board to be involved in the recruitment and selection process. Mr. Knisely felt that the Board is an independent oversight organization which has a different attitude than staff has in terms of judging and analyzing people.

Mr. John Hayes, President of the NAACP, spoke in support of the proposed changes in the Civil Service Law relating to recruitment and selection.

Mr. Samuel Camp supported the proposed change to the Civil Service Law noting the under-representation of minorities in City departments.

Mr. Glenn Holbert, Secretary Treasure of the Asheville Firefighters Association, read the following excerpts from a letter from Attorney Travis Payne sent to Mr. Knisely: "If there is a real concern for under-representation of minorities in the work force of the City of Asheville, rescinding the Rule of 3 is exactly the wrong thing to do." If the Rule of 3 actually operates to exclude qualified and competent minorities from hiring and promotions, that would be because of the selection process itself, consisting of testing and other procedures used to score the applicants for jobs is actually biased against minorities." He said that changing the Civil Service Law is not the problem. He said that if minorities are recruited and tested properly they will be employees of the City. Changing this will only hurt them because if they are lucky enough to make it through this process, Council will have destroyed part of the things that will protect them as City employees.

City Manager Westbrook said that Council has given instruction to change the work force to reflect the community and staff has accepted that accountability. However, Council has not passed along the responsibility for that because that rests with the Civil Service Board and that is why we are asking for the Law change. When you manage something it's essential that you have both accountability and responsibility. Again, this is a staff driven effort based on Council's original direction and all department directors support this Law change.

Mayor Sitnick closed the public hearing at 7:01 p.m.

Councilman Cobb felt that we have adequate laws in place to protect our citizens in reference to fair hiring practices. He felt was have qualified staff to carry out this mission and the responsibility that goes along with it. He felt the recruitment and selection process is no longer needed. He supports the Civil Service Board's role in reviewing disciplinary matters and that will not change.

Councilwoman Field said that the last time a change to the Civil Service Law was discussed by City Council there was a room full of employees (and many, many phone calls from employees) who were opposed to Council making any changes to the Law. However, this change has not brought about that kind of response from our employees, and she feels that there may have been some changes in our employee community that indicate to her that they are not opposed to Council making these changes.

Mayor Sitnick said that she is a long time supporter of labor, the rights of workers and the protection of workers. Despite the fact that the Civil Service Board seems to be a government unto itself and does a worthy job, she believes that the composition of this City, as mandated by this City Council to reflect the look of the community, should rest with City Council. Everyone on City Council is interested in having the best qualified candidates perform the best service for the citizens of Asheville. Our mandate to staff is that we want some real equal opportunity employment in this City of Asheville. If this administration should change in the future, she will lead the charge to remedy the situation. We have had a law in place for many years that does not seem to be producing the results that everyone says they want to see. If we have something that is not working, let's get it out and try something else and keep trying until we find out what does work. She supported this change with great respect to the firefighters and their efforts and input.

At the request of Mayor Sitnick, Human Resources Director Jeff Richardson said that he would amend Section 1 of the draft Administrative Policy regarding recruitment and selection which he presented to City Council, to include language consistent with the nondiscrimination policy that City Council adopted.

Councilman Tomes moved to seek amendment to the Civil Service Law as outlined above, with the amendment to Section 2 as recommended by the City Attorney. This motion was seconded by Councilwoman Field and carried unanimously.

IV. UNFINISHED BUSINESS:

V. NEW BUSINESS:

A. ORDINANCE NO. 2566 - ORDINANCE EXTENDING A TEMPORARY MORATORIUM ON SEXUALLY ORIENTED BUSINESSES IN THE CITY OF ASHEVILLE

City Attorney Oast said that this is the consideration of an ordinance extending the temporary moratorium on sexually-oriented businesses through June 30, 1999.

In August of 1998, pursuant to then recently-enacted legislation, Council adopted a temporary moratorium for the location of new sexually-oriented businesses, or the expansion of existing ones, within the City's zoning jurisdiction. This moratorium is effective until May 11,

1999. The purposes of the moratorium are to allow for the investigation of measures that the new law allows for the control of sexually-oriented businesses, and formulation of appropriate recommendations.

As reported to Council last week, the primary recommendation is that sexually-oriented businesses be allowed as conditional uses. Currently, they are allowed as uses by right, subject to special requirements. Until recently, the constitutional validity of the conditional use permit as a mechanism for regulating sexually-oriented businesses in North Carolina was unsettled. A recent Fourth Circuit Court of Appeals opinion upheld such a scheme in Raleigh's ordinance against a constitutional challenge.

Because this would be a change to the Unified Development Ordinance (UDO), consideration and recommendation of the Planning & Zoning Commission is required, which could take into the month of June. The moratorium ordinance contemplates that it may be extended by Council. Staff is seeking an extension through the month of June to allow for the proposed UDO amendment to be processed in the usual way.

Adoption of the proposed ordinance is recommended.

Mayor Sitnick said that members of Council have been previously furnished with a copy of the ordinance and it would not be read.

Councilman Sellers moved for the adoption of Ordinance No. 2566. This motion was seconded by Councilman Cobb and carried unanimously.

ORDINANCE BOOK NO. 17 - PAGE 310

VI. OTHER BUSINESS:

A. APPROVAL OF THE MINUTES OF THE REGULAR MEETING HELD ON APRIL 13, 1999, AND THE WORKSESSION HELD ON APRIL 20 1999

Councilman Tomes moved for the adoption of the minutes of the regular meeting held on April 13, 1999, and the worksession held on April 20, 1999. This motion was seconded by Councilwoman Field and carried unanimously.

B. CLAIMS

The following claims were received by the City of Asheville during the week of April 9-15, 1999: Betty M. Duck (Water), Glenn M. Carniol (Civic Center), Steve Brooks (Streets) and Beaverdam Condo Association (Sanitation).

The following claims were received during the week of April 16-22, 1999: Suzy Laibson (Streets), Urban Trail (Parks & Recreation) and Geraldine Danch (Civic Center).

These claims have been referred to Asheville Claims Corporation for investigation.

C. LAWSUITS

On April 12, 1999, the City of Asheville was served with the following lawsuit: Trinity Baptist Church Inc. v. City of Asheville and Carrier Heights Neighborhood Association. The complaint alleges that Section 7-2-5 of the Unified Development Ordinance which prohibits the

Plaintiff from completion of its construction and the development of its property, be declared invalid, void and/or unconstitutional. This matter will be handled in-house.

On April 12, 1999, the City of Asheville was served with the following lawsuit: Michael T. Dixon and wife, Rose M. Dixon v. the City of Asheville. The complaint alleges denial of building and zoning permits for quadraplex at Morningside Park pursuant to approved site plan prior to property rezoning from R-3 to R1-A. This matter will be handled in-house.

On January 25 , 1999, the City of Asheville was served with the following lawsuit: Yiannis Diamadopoulos, Owner of Washboard Launderette of Black Mountain v. Water Commission and City of Asheville. The complaint is a small claims action for damages to customers' property and loss of business sustained when dirty, rusty water entered the premises on August 12, 1998. This matter will be handled in-house.

VII. INFORMAL DISCUSSION AND PUBLIC COMMENT:

Use of Cannabis - Referendum Petition

Mr. Dave Mitler, representative of Community of Compassion, presented City Council with a blank referendum petition which they submitted to the Board of Election which requests that "an ordinance to direct City Manager and Police that laws criminalizing the possession, cultivation, and use of cannabis be given lowest priority status of enforcement" be placed on the ballot of a special or general election for fair consideration by the citizens of Asheville, North Carolina.

Mr. Steve Rasmussen said that they are still willing to work with City Council but failing to hear from Council, they will proceed forward with the referendum petition.

Mr. Mickey MaHaffey felt that there is unrest on the streets of downtown and he has committed his time and efforts to keep peace in the streets downtown. He said there is a growing number of people who are attempting to focus on that and try to defuse some of the energy downtown.

Mayor Sitnick and Councilwoman Field updated Mr. MaHaffey on the efforts that are taking place in downtown and also on the public restroom issue in downtown.

Mayor Sitnick also commended Mr. MaHaffey on the award he received by the Asheville Police Department which recognized his qualities and productiveness in our community.

Sign at Pack Place

Councilwoman Field stated that she has nothing to do with the sign being placed in front of the Pack Place Education, Arts and Science Center. However, Pack Place has hired her office to help install the sign since they know where all the mechanical, electrical and plumbing is under that plaza.

Escort Services

Mayor Sitnick announced that an anonymous fax was received about escort services which were advertised in the Mountain Xpress. The fax accused the Mayor and Council not caring about our children. She said that both establishments are in Buncombe County and are not located within the City of Asheville.

Mayor Sitnick said that often times there are good ideas lost because City Council cannot contact the people sending anonymous information. She said that if the public wants to communicate with Council to please let them know who you are so they can communicate back.

Citizens/Police Advisory Committee

Councilman Sellers said that the Citizens/Police Advisory Committee will be requesting to be placed on an upcoming worksession to update City Council on their efforts being made in the downtown area.

Closed Session

At 7:38 p.m., Councilman Cloninger moved to go into closed session to consider the qualifications, competence, performance, character, fitness, conditions of appointment or conditions of initial employment of an individual public officer or employee or prospective public officer or employee - G.S. 143-318.11 (a) (6). This motion was seconded by Councilman Sellers and carried unanimously.

At 8:00 p.m., Councilman Sellers moved to come out of closed session. This motion was seconded by Councilwoman Field and carried unanimously.

VIII. ADJOURNMENT:

Mayor Sitnick adjourned the meeting at 8:00 p.m.

Magdalen Burleson
CITY CLERK

Leni Sitnick
MAYOR

Tuesday - May 4, 1999 - 3:00 p.m.

Worksession

Present: Mayor Leni Sitnick, Councilman Earl Cobb; Councilman M. Charles Cloninger; Councilwoman Barbara Field; Councilman Thomas G. Sellers; and Councilman O.T. Tomes; City Attorney Robert W. Oast Jr.; City Manager James L. Westbrook Jr.; and City Clerk Magdalen Burleson

Absent: Vice-Mayor Edward C. Hay Jr.

CONSENT:

Provisions for Possession & Consumption of Malt Beverages and/or Unfortified Wine at the 1999 Bele Chere Festival

Summary: The consideration of approving the resolution to allow alcohol during the Bele Chere Festival which is based on the recommendations of the Bele Chere Alcohol Task Force.

The Bele Chere Strategic Plan which was presented to City Council at the annual retreat in 1997 established a Bele Chere Alcohol Task Force to address the alcohol issues surrounding the Bele Chere Festival. This Task Force continues to meet and address issues related to alcohol possession and consumption.

In May, 1996, Asheville City Council approved an ordinance prohibiting consumption and/or possession of open containers of malt beverages and unfortified wine on public streets and other property owned or occupied by the City of Asheville. In order to allow for the control of the sale and consumption of alcohol at Bele Chere, it is necessary for City Council to approve the resolution. Over the past several months, the Bele Chere Alcohol Task Force has been meeting to address concerns from downtown merchants, festival participants and Bele Chere Board members concerning alcohol at Bele Chere. The Task Force is made up of representatives from downtown merchants, City Council, Parks and Recreation staff, Legal Division, Asheville Police Department, the Alcohol Law Enforcement Board and Bele Chere Board. The resolution contains recommended actions by the task force, Bele Chere Board and various City Departments. This Task Force feels that the cooperative arrangement between all parties has been successful in trying to address the major issues relating to alcohol possession and consumption based upon past history of the festival.

The Parks and Recreation Advisory Board, Bele Chere Board, Bele Chere Alcohol Task Force, and the Parks and Recreation staff recommend approval of the resolution to allow alcohol during the Bele Chere Festival.

Annual Audit Contract

Summary: The consideration of a resolution authorizing the Mayor to execute a contract with Crisp Hughes Evans LLP, Certified Public Accountants, for auditing services for Fiscal Year 1998-99.

N.C. Gen. Stat. sec. 159-34 requires that local governments of North Carolina have their accounts audited each fiscal year and submit a copy of the audit to the Local Government Commission.

In 1998 the City solicited proposals from 36 accounting firms to perform the City's annual audit for the Fiscal Years 1997-98, 1998-99 and 1999-2000. City Council selected Crisp Hughes Evans LLP to conduct the Fiscal Year 1997-98 audit with the option to be re-engaged annually for two more years. They completed the Fiscal Year 1997-98 audit and have now submitted an engagement letter for the Fiscal Year 1998-99 audit. The fee has been estimated at $53,600, which is $3,700 higher than the amount quoted in their proposal. The increase is due to the new HUD audit program ($2,700) and implementing changes to the Comprehensive Annual Financial Report suggested by the Local Government Commission in their review of last year's report ($1,000). Sufficient funds are appropriated in the budget of the Accounting Division of the Finance Department.

City staff recommends City Council adopt the resolution.

Budget Amendment re: Grant for Harvest House and Senior Opportunity Center

Summary: The consideration of a budget amendment, in the amount of $26,490, received from the N.C. General Assembly for improvements and equipment at Harvest House and Senior Opportunity Center.

The 1998 Senior Center Appropriation has been approved by the North Carolina General Assembly.

The Senior Center Appropriation is designed to provide funds to senior centers throughout North Carolina for a variety of services including capital improvement, supplies, equipment, and staff. The funds will be used at Harvest House to renovate the woodwork shop and purchase new weaving equipment and the Senior Opportunity Center will complete Phase Two of the kitchen renovation and remodel the craft room.

The Parks and Recreation Department recommends the City of Asheville to accept the 1998 Senior Center Appropriation on behalf of the Parks and Recreation Department for improvements at Harvest House and Senior Opportunity Center.

Endorsement of Broadway Corridor Plan Advisory Committee Members

Summary: The Planning and Development staff is requesting City Council endorsement of the proposed membership of the advisory committee for the Broadway Corridor planning process.

The Planning and Development department staff is undertaking the preparation of a corridor plan for the Broadway corridor between the I-240 Interchange and the US 19/23 Interchange. As with past corridor planning efforts, we are proposing the creation of an advisory committee to provide input into the process and to serve as liaisons between the staff and business owners, property owners, adjacent neighborhoods, and interested organizations and groups. The proposed advisory committee would be composed of owners of properties and businesses located along Broadway, representatives of the abutting neighborhoods, a representative of UNC-Asheville, and a representative of an organization involved in the beautification of the corridor. It is proposed that a member of the Planning and Zoning Commission, the Asheville-Buncombe Historic Resources Commission, and the City Council serve as liaisons between the committee and their respective board. Mr. Will Williams will be the liaison from the Planning and Zoning Commission and the Asheville-Buncombe Historic Resources Commission will designate their liaison. The committee would meet approximately 6 times during the planning process to provide input and direction to the staff team responsible for the preparation of the plan.

The Planning and Development Department staff is requesting City Council endorsement of the proposed membership of the Advisory Committee for the Broadway Corridor planning process and designation of a City Council liaison.

Lease of Additional Equipment for Telephone System

Summary: The consideration of a resolution authorizing the execution of documents to include additional equipment under the existing Master Municipal Rental Agreement for the City's telephone system.

Last year, City Council approved the execution of a Master Municipal Rental Agreement, dated February 25, 1998, between the City of Asheville and NEC America, Inc. (The lease was subsequently assigned by NEC to Sutro & Co., which in turn assigned its right to receive rental payments to Fifth Third Bank, NA) The lease provided a fully-integrated telephone system that met the City's then-current needs and provided expansion capabilities to incorporate future expansion. The lease was for a term of 84 months at a cost of $6,457.50 per month. During the past year it has been necessary to add additional equipment to the system to meet the City's evolving telephone requirements (6 additional digital display phones, 17 headsets, analog card for voice response system, etc.) The proposed resolution authorizes the City Manager, Finance Director and City Clerk to execute all necessary documents to include the above mentioned equipment as Delivery Order Number Two to the Master Municipal Rental Agreement. The terms of the added leased equipment is $378.68 per month for a period of 36 months beginning in May 1999.

Staff recommends the City Council adopt the resolution.

Councilman Cloninger said that he has a conflict of interest in this matter and asked that it not be placed on the Consent Agenda for the next formal meeting.

Mayor Sitnick asked that the record show that City Council has received this information and instructs the City Manager to place these items on the next formal City Council agenda.

VISION BENCHMARK REPORT

Ms. Pat Smith, Chair of the Asheville-Buncombe County VISION Board of Directors, and Ms. Pam Wall, Executive Director of Asheville-Buncombe VISION, Inc., presented City Council with the VISION benchmark report.

Ms. Wall responded to various questions and comments from Council with regard to the report, some being, but are not limited to: minority achievement, women and minorities on government appointed boards, and the City Council Code of Ethics.

MINIMUM HOUSING CODE AMENDMENTS AND FEES

Director of Building Safety Terry Summey said that this is the consideration of setting a public hearing to amend the Minimum Housing Code and associated fees.

During the past six months, staff and some industry and nonprofit agency representatives have been meeting and discussing changes needed for the enforcement of the Minimum Housing Code. In addition, during the last four months the changes have been discussed at the Council's Housing & Community Development Committee.

The changes being recommended include the following:

- Technical changes to the Code (supported by the representatives);
- Changes to the schedule for inspecting rental properties (no consensus agreement reached);
- Increase staffing support for administering the code;

- Additional and/or changes to the administrative and permits fees (to pay for the additional staff being requested);
- Implement on July 1, 1999, no water turn-ons until rental units have met the Housing Code; and
- Increase promotion of the Code and any approved changes

The following summarizes the issues recommended by staff at a special called Housing and Community Development Committee meeting on April 27, 1999:

Possible schedule additions:

Rental units (includes single family, duplexes, triplexes and larger complexes owned by the same property owner or company at different locations) then the following ratio will apply-

Units < 15 years old........15% of the units every 5 years
Units ≥ 15 years old........50% of the units every 5 years

To use the above schedule the property owner or agent must present a list of all properties owned and a schedule for completion of inspections to the City; the City will determine the units to be inspected.

The following schedule will apply where the owner can produce current documentation of a regular annual inspection and maintenance schedule of each unit using a form approved by the City, adequate to maintain the units up to the standards of this code:

Units < 15 years old.......10% of the units every 5 years
Units ≥ 15 years old.......20% of the units every 5 years

(Note: the current schedules is based upon a percentage of units in each building; the proposed schedule samples a percentage of all units owned by a property owner; the units to be inspected will be determined by the City)

2. Implement new administrative fees in addition to the current permit fees for units receiving Housing Certificates after the 5 year deadline. Proposed new fees:

Units receiving certificates after the required 5 year schedule in the Housing Code: Certificate fee of $100 per unit inspected; after 5 ½ years an additional $20 per month housing certificate fee will be required.
Example: unit inspected 12 months after the 5 yr. schedule = $220 fee ($100 plus 6 months X $20) plus any related permit repair fees.

Units inspected during the 5 year schedule will have the current $20 Housing Certificate Fee waived if the unit passes the initial inspection.

Permit Fees will be reduced from $45 to $25 per trade (building, electrical, mechanical, and plumbing) at each building where housing code corrections are made.

Impact: (if the over 5,000 units still needing inspections are completed after the deadline, over $500,000 ($100 X 5,000 units) would be available in new revenue to support current and any additional proposed staffing. With the above schedule fewer units would be required to be inspected.

3. No water turn-ons will be approved after July 1, 1999 unless the rental unit has all Housing Inspection work completed and the Housing fees paid.

4. Currently proposed new staff has been reduced to 3 positions:
    1) Research Assistant (for hearings, title searches, mapping, assistant to Building Safety and Legal Office; to be part of the Legal Office's budget and work under the supervision of an Assistant City Attorney)
    2) Housing Code Enforcement Inspector (increase City Inspectors from current 3 to 4 positions. Initial inspectors to be continued to be done by the 3rd Party Inspectors; City Inspectors to do re-inspections and initial inspections on those units requiring search warrants.
    3) Secretary (provide support to Inspectors, and assist Customers and Landlords with understanding Housing Code inspection requirements; position is to work in the Finance Department's Customer Service Division)
        (A part-time secretary from a temp agency has been hired by Building Safety to work 4 hours a days in the Customer Service Division to help with Housing Code issues through the end of June)

The additional new costs of $ 132,000.00 includes funds for temporary secretarial assistance and outside legal assistance.

5. Continue promotion of Housing Code, changes and fees; promotion to include the following:
    1) Insert in water bills (draft being finalized)
    2) Multiple CityWorks articles
    3) Letter mailed to all known landlords
    4) Presentation to Board of Realtors; also use their newsletter
    5) Presentation to Carolina Real Estate Investors Association (CREIA)
    6) Promotion by Building Safety's faxing system
    7) All units needing an inspection will be posted after 7/1/99
    8) Promote on Government Channel

A separate committee (with industry and nonprofit agency representatives) will have two list of proposals that will be shared with Council as soon as they are available.

City staff recommends City Council schedule a public hearing for May 25, 1999, in order to hear citizens input on the proposed amendments to the Minimum Housing Code and fees.

Mr. Summey responded to various questions and comments from Council.

Councilwoman Field, Chair of the Housing & Community Development Committee, spoke in support of the proposed changes noting that their concern is to balance a need to protect our housing stock and be fair and reasonable to everyone.

At the request of City Manager Westbrook, it was the consensus of City Council to include the proposed fees in the upcoming budget draft, noting that the budget can be amended prior to final adoption.

Mayor Sitnick asked that the record show that City Council has received this information and instructs the City Manager to place this item on the next formal City Council agenda.

DISCUSSION OF A POLICY REGARDING CONTINUANCE OF ZONING PUBLIC HEARINGS PREVIOUSLY SCHEDULED ON THE CITY COUNCIL AGENDA

City Attorney Oast said that Council is frequently faced with last minute requests to continue public hearings. He felt that it was important for Council to be consistent, however, Council needs to retain discretion in these matters. He suggested (1) submit two business days in advance of hearing the continuance request in writing (by 5:00 p.m. the Thursday preceding the public hearing date); (2) state reason; notify interested parties (where applicable); (3) second or subsequent continuances are discouraged (in some cases, City Code may require Council to proceed with hearing); (4) Continuance requests submitted less than 48 hours in advance: (a) must provide compelling reason (incapacity to proceed, death in family, etc.) and show notification of neighbors (where applicable); and (b) if there is any objection, Council may hear comment on question of continuance; (5) not applicable to staff/city requests; and (6) Council reserves for itself right to continue matters in its discretion. He said that it would be appropriate for Council to take comment on the continuance issue. He also said that this information could be included in the application package.

Councilwoman Field suggested the continuance request be noted on the agenda that is distributed on Fridays.

Councilman Cloninger suggested a form letter be sent to the party requesting the public hearing continuance outlining what steps need to be taken to notify interested parties of the continuance request. He also suggested that Council try the policy outlined by the City Attorney.

City Manager Westbrook said that since continuances are at the discretion of City Council, they might want to consider each request on a case by case basis based on the merits heard at the scheduled Council meeting.

Mayor Sitnick said that perhaps the request for continuance be submitted three business days in advance and requiring that all interested parties (which list would be available in the Planning & Development Department) be notified in writing. Her biggest concern is the time, expense and inconvenience of having people come to the Council meeting, just to find out that it has been continued.

It was the consensus of Council that it be clearly stated that continuances are discouraged, however, if a continuance is sought, the following steps outlined by the City Attorney should apply.

City Attorney Oast said that he would assimilate a short policy for Council to consider, along with some implementation strategies.

Trinity Baptist Church

The second reading of the conditional use permit for Trinity Baptist Church located at 216 Shelburne Road scheduled for Tuesday, May 11, 1999, will be held in the Council Chamber, located on the Second Floor of the City Hall Building, Asheville, North Carolina. It was noted that the public hearing on this issue was held and closed on April 13, 1999.

Closed Session

At 4:28 p.m., Councilman Cloninger moved to go into closed session to establish or to instruct the City's staff or negotiating agents concerning the position to be taken by or on behalf of the City in negotiating the price and other material terms of a contract or proposed contract for the acquisition of real property by purchase, option, exchange or lease - authorized by G.S. 143-318.11 (a) (5). This motion was seconded by Councilman Sellers and carried unanimously.

At 4:50 p.m., Councilwoman Field moved to come out of closed session. This motion was seconded by Councilman Sellers and carried unanimously.

ADJOURNMENT:

Mayor Sitnick adjourned the meeting at 4:50 p.m.

Magdalen Burleson
CITY CLERK

Leni Sitnick
MAYOR

Tuesday - May 11,1999 - 5:00 p.m.

Regular Meeting

Present: Mayor Leni Sitnick, Presiding; Vice-Mayor Edward C. Hay Jr.; Councilman Earl Cobb; Councilwoman Barbara Field; Councilman Thomas G. Sellers; and Councilman O.T. Tomes; City Attorney Robert W. Oast Jr.; City Manager James L. Westbrook Jr.; and City Clerk Magdalen Burleson

Absent: Councilman M. Charles Cloninger (participated by speaker phone)

INVOCATION

Councilman Tomes gave the invocation.

CHANGES TO THE AGENDA

Vice-Mayor Hay asked to add a brief report from the Boards and Commissions Committee under Other Business.

Mayor Sitnick asked to add under Other Business a reaffirmation of Resolution No. 98-176 adopted on November 24, 1998, which supports North Carolina adopting permitting procedures for air quality in the southeast.

I. PROCLAMATIONS:

A. PROCLAMATION PROCLAIMING THE WEEK OF MAY 17-22, 1999, AS "NATIONAL PUBLIC WORKS WEEK"

Councilman Cobb read the proclamation proclaiming May 17-22, 1999, as "National Public Works Week" in the City of Asheville. He presented the proclamation to Ms. Beth Howland, Public Works Department, Mr. Ernie Hewett, Engineering Department, Mr. Ben Gay, Parks & Recreation Department, Mr. Woody Ledford, Water Resources Department, and Mr. Sam Ballew, Metropolitan Sewerage District.

B. PROCLAMATION PROCLAIMING THE WEEK OF MAY 16-22, 1999, AS "PUBLIC TRANSIT APPRECIATION WEEK"

Councilman Sellers read the proclamation proclaiming May 16-22, 1999, as "Public Transit Appreciation Week" in the City of Asheville. He presented the proclamation to Mr. Tom Tomlin, Chair of the Asheville Transit Authority, who briefed City Council on some activities taking place during the week.

C. PROCLAMATION PROCLAIMING MAY 21, 1999, AS "STRIVE-NOT-TO-DRIVE DAY"

Vice-Mayor Hay read the proclamation proclaiming Friday, May 21, 1999, as "Strive-Not-to-Drive-Day" in the City of Asheville. He presented the proclamation to Mr. Gerry Hardesty, who briefed City Council on some activities taking place during the day.

II. CONSENT:

A. RESOLUTION NO. 99-64 - RESOLUTION PROVIDING FOR THE POSSESSION AND CONSUMPTION OF MALT BEVERAGES AND/OR UNFORTIFIED WINE AT THE 1999 BELE CHERE FESTIVAL

Summary: The consideration of approving the resolution to allow alcohol during the Bele Chere Festival which is based on the recommendations of the Bele Chere Alcohol Task Force.

The Bele Chere Strategic Plan which was presented to City Council at the annual retreat in 1997 established a Bele Chere Alcohol Task Force to address the alcohol issues surrounding the Bele Chere Festival. This Task Force continues to meet and address issues related to alcohol possession and consumption.

In May, 1996, Asheville City Council approved an ordinance prohibiting consumption and/or possession of open containers of malt beverages and unfortified wine on public streets and other property owned or occupied by the City of Asheville. In order to allow for the control of the sale and consumption of alcohol at Bele Chere, it is necessary for City Council to approve the resolution. Over the past several months, the Bele Chere Alcohol Task Force has been meeting to address concerns from downtown merchants, festival participants and Bele Chere Board members concerning alcohol at Bele Chere. The Task Force is made up of representatives from downtown merchants, City Council, Parks and Recreation staff, Legal Division, Asheville Police Department, the Alcohol Law Enforcement Board and Bele Chere Board. The resolution contains recommended actions by the task force, Bele Chere Board and various City Departments. This Task Force feels that the cooperative arrangement between all parties has been successful in trying to address the major issues relating to alcohol possession and consumption based upon past history of the festival.

The Parks and Recreation Advisory Board, Bele Chere Board, Bele Chere Alcohol Task Force, and the Parks and Recreation staff recommend approval of the resolution to allow alcohol during the Bele Chere Festival.

RESOLUTION BOOK NO. 25 - PAGE 194

B. MOTION SETTING A PUBLIC HEARING ON MAY 25, 1999, RELATIVE TO MINIMUM HOUSING CODE AMENDMENTS AND FEES

C. RESOLUTION NO. 99-65 - RESOLUTION AUTHORIZING THE MAYOR TO EXECUTE A CONTRACT WITH CRISP HUGHES EVANS LLP, CERTIFIED PUBLIC ACCOUNTANTS, FOR AUDITING SERVICES FOR FISCAL YEAR 1998-99

Summary: The consideration of a resolution authorizing the Mayor to execute a contract with Crisp Hughes Evans LLP, Certified Public Accountants, for auditing services for Fiscal Year 1998-99.

N.C. Gen. Stat. sec. 159-34 requires that local governments of North Carolina have their accounts audited each fiscal year and submit a copy of the audit to the Local Government Commission.

In 1998 the City solicited proposals from 36 accounting firms to perform the City's annual audit for the Fiscal Years 1997-98, 1998-99 and 1999-2000. City Council selected Crisp Hughes Evans LLP to conduct the Fiscal Year 1997-98 audit with the option to be re-engaged annually for two more years. They completed the Fiscal Year 1997-98 audit and have now submitted an engagement letter for the Fiscal Year 1998-99 audit. The fee has been estimated at $53,600, which is $3,700 higher than the amount quoted in their proposal. The increase is due to the new HUD audit program ($2,700) and implementing changes to the Comprehensive Annual Financial Report suggested by the Local Government Commission in their review of last year's report

($1,000). Sufficient funds are appropriated in the budget of the Accounting Division of the Finance Department.

City staff recommends City Council adopt the resolution.

RESOLUTION BOOK NO. 25 - PAGE 198

D. ORDINANCE NO. 2567 - BUDGET AMENDMENT RELATIVE TO A GRANT FOR THE HARVEST HOUSE AND SENIOR OPPORTUNITY CENTER

Summary: The consideration of a budget amendment, in the amount of $26,490, received from the N.C. General Assembly for improvements and equipment at Harvest House and Senior Opportunity Center.

The 1998 Senior Center Appropriation has been approved by the North Carolina General Assembly.

The Senior Center Appropriation is designed to provide funds to senior centers throughout North Carolina for a variety of services including capital improvement, supplies, equipment, and staff. The funds will be used at Harvest House to renovate the woodwork shop and purchase new weaving equipment and the Senior Opportunity Center will complete Phase Two of the kitchen renovation and remodel the craft room.

The Parks and Recreation Department recommends the City of Asheville to accept the 1998 Senior Center Appropriation on behalf of the Parks and Recreation Department for improvements at Harvest House and Senior Opportunity Center.

ORDINANCE BOOK NO. 17 - PAGE 311

E. MOTION TO ENDORSE BROADWAY CORRIDOR PLAN ADVISORY COMMITTEE MEMBERS

Summary: The Planning and Development staff is requesting City Council endorsement of the proposed membership of the advisory committee for the Broadway Corridor planning process.

The Planning and Development Department staff is undertaking the preparation of a corridor plan for the Broadway corridor between the I-240 Interchange and the US 19/23 Interchange. As with past corridor planning efforts, we are proposing the creation of an advisory committee to provide input into the process and to serve as liaisons between the staff and business owners, property owners, adjacent neighborhoods, and interested organizations and groups. The proposed advisory committee would be composed of owners of properties and businesses located along Broadway, representatives of the abutting neighborhoods, a representative of UNC-Asheville, and a representative of an organization involved in the beautification of the corridor. It is proposed that a member of the Planning and Zoning Commission, the Asheville-Buncombe Historic Resources Commission, and the City Council serve as liaisons between the committee and their respective board. Mr. Will Williams will be the liaison from the Planning and Zoning Commission and the Asheville-Buncombe Historic Resources Commission will designate their liaison. The committee would meet approximately 6 times during the planning process to provide input and direction to the staff team responsible for the preparation of the plan.

The Planning and Development Department staff is requesting City Council endorsement of the proposed membership of the Advisory Committee for the Broadway Corridor planning process and designation of a liaison as the City Council liaison.

F. **RESOLUTION NO. 99-66 - RESOLUTION FIXING DATE OF PUBLIC HEARING ON MAY 25, 1999, ON THE QUESTION OF ANNEXATION OF PROPERTY LOCATED AT BILTMORE PARK PURSUANT TO N.C. GEN. STAT. SEC. 160A-31 (BILTMORE PARK, ANNEXATION 13)**

RESOLUTION BOOK NO. 25 - PAGE 199

G. **MOTION SETTING A PUBLIC HEARING ON MARY 25, 1999, TO CONSIDER ADOPTION OF A SMALL AREA PLAN KNOWN AS THE HAYWOOD ROAD CORRIDOR PLAN AS AN ADDENDUM TO THE COMPREHENSIVE PLAN FOR THE CITY OF ASHEVILLE**

H. **MOTION SETTING A PUBLIC HEARING ON MARY 25, 1999, TO CONSIDER THE REZONING OF A ONE FOOT STRIP OF PROPERTIES ABUTTING THE NORTH END OF SOUTH GROVE STREET FROM CENTRAL BUSINESS DISTRICT AND REGIONAL BUSINESS DISTRICT TO RS-8 RESIDENTIAL SINGLE-FAMILY HIGH DENSITY DISTRICT**

Mayor Sitnick said that members of Council have been previously furnished with a copy of the resolutions and ordinances and the Consent Agenda and they would not be read.

Councilman Sellers moved for the adoption of the Consent Agenda. This motion was seconded by Councilman Cobb and carried unanimously.

III. PUBLIC HEARINGS:

A. **PUBLIC HEARING RELATIVE TO REZONING ALL OF EIGHT LOTS LOCATED ON ASHELAND AVENUE AND SOUTH GROVE STREET FROM OFFICE BUSINESS DISTRICT TO OFFICE II DISTRICT, EXCEPT FOR A PORTION OF ONE LOT BEING REZONED FROM REGIONAL BUSINESS DISTRICT TO OFFICE II DISTRICT AND A ONE FOOT STRIP ALONG FIVE LOTS ON SOUTH GROVE STREET BEING REZONED FROM OFFICE BUSINESS DISTRICT TO RS-8 RESIDENTIAL SINGLE FAMILY HIGH DENSITY DISTRICT**

ORDINANCE NO. 2568 - ORDINANCE TO REZONE A ONE FOOT STRIP ALONG FIVE LOTS LOCATED ON SOUTH GROVE STREET BEING REZONED FROM OFFICE BUSINESS DISTRICT TO RS-8 RESIDENTIAL SINGLE FAMILY HIGH DENSITY DISTRICT

ORDINANCE NO. 2569 - ORDINANCE TO REZONE A PORTION OF ONE LOT LOCATED ASHELAND AVENUE FROM REGIONAL BUSINESS DISTRICT TO OFFICE BUSINESS DISTRICT

Mayor Sitnick opened the public hearing at 5:17 p.m.

City Clerk Burleson presented the notice to the public setting the time and date of the public hearing.

Mr. Mike Matteson, Urban Planner, said that this is the consideration of an ordinance to rezone eight properties on Asheland Avenue and South Grove Street from Office Business District to Office II District, except for a portion of one lot being rezoned from Regional Business District to Office II District and a one-foot strip along five lots on South Grove Street being rezoned from Office Business District to RS-8 Residential Single Family High Density District.

The Planning and Development Department staff initiated this rezoning request in an effort to apply a zoning district which is more compatible with the size and character of the area while assuring that the existing buildings continue to be conforming in size.

The rezoning of a portion of one property would remove the "split zoning" which currently exists as a result of property reconfiguration.

The rezoning of a one foot strip along Grove Street from Office Business to RS-8 is designed to prevent additional commercial access from using this relatively narrow residential street and channel that traffic onto Asheland Avenue which has the capacity to handle that traffic. He understands that the traffic issue in the area deals primarily with cut-through traffic and not necessarily traffic related to the properties being discussed today. City Traffic Engineer Michael Moule has developed some potential strategies for dealing with some of the traffic issues in the area and he plans on meeting with representatives of the neighborhood to review those. He presented Council with some information Mr. Moule prepared regarding the traffic volume and speed data for the area near the intersection of S. Grove Street and Morgan Avenue.

Mr. Matteson said that there is at least one office use existing on Grove Street which does have access onto Grove Street currently. If the one-foot strip of RS-8 is adopted, that existing access point would be considered a grandfathered non-conforming situation and would be allowed to continue indefinitely. The intensity of that use, however, could not be expanded.

Mr. Matteson said that the 2010 Plan considers this area to fall within the urban center; however, the 2010 Plan does recommend that residential uses occur across the street, on the other side of Grove Street.

Planning & Development staff is recommending approval of the rezoning request. At their April 7, 1999, meeting, the Planning and Zoning Commission voted 5-2 to recommend approval of the rezoning.

Mr. Matteson said that on May 6, 1999, a protest petition was submitted by Attorney Craig Justus on behalf of the Asheville Women's Medical Center.

City Attorney Oast said that because the protest petition was not filed two working days prior to the date of the established public hearing date which was April 27, 1999, in his opinion the protest petition was not timely, thus making the protest petition invalid.

Mr. Craig Justus stated that according to the section in the Unified Development Ordinance ("UDO") dealing with the validity of protest petitions, he feels that it is the responsibility of City Council to interpret what that section means, not the City Attorney. He said it is basically a policy decision to decide when the cut-off date is for people to register their protest in the official form of the protest petition. He pointed out to City Council that they had always stood on trying to protect the interests of people who either oppose or support an issue. Whenever Council has erred on due process principles, Council has always erred on giving people time. He said that the ordinance language reads that a protest petition must be filed two days before the date established for the public hearing on the proposed amendment. His contention was that the date established is the date when the public hearing is conducted - which is today, when the public hearing was opened.

City Attorney Oast said that whether a protest petition is valid or not, is a matter of law, and not up to the discretion of City Council. He also pointed out that even though the provision is in our ordinance, it is a provision that is in the State law as well.

Vice-Mayor Hay felt that the date established for the public hearing was the date City Council established when they made a motion to set the public hearing in the first place.

Upon inquiry of Mr. Justus, Mr. Matteson indicated that the protest petition filed did meet the area requirements of the ordinance.

At the request of Vice-Mayor Hay, Mr. Matteson said that the property owners do object to their property being rezoned from Office Business to Office II District, and the one-foot strip being rezoned RS-8.

Upon inquiry of Vice-Mayor Hay, Mr. Matteson said that the zoning of the subject properties prior to adoption of the UDO was commercial service, which was a pretty wide open commercial district with a lot of variety of some even large scale commercial uses. He also pointed out that much of this neighborhood was zoned commercial service prior to the adoption of the UDO. Mr. Matteson said that when the land was being mapped in conjunction with the UDO, he suspected that staff identified the existing land uses in the area, what classifications those would fit under, size of those uses, etc., and then decided Office Business would be the best classification.

Upon inquiry of Councilwoman Field, Mr. Matteson said the area was zoned commercial service since perhaps the late 1970's.

At the request of Vice-Mayor Hay, Mr. Matteson explained why staff is requesting that the property be rezoned to Office II District. After Council established the Office II District (after adoption of the UDO) staff was given direction to identify areas that the Office II District should be applied to. This area was one of about four areas staff identified to meet the Office II criteria.

Councilwoman Field questioned why this rezoning is being pursued since the property owners and the neighborhoods do not want the change. Mr. Matteson responded that Planning staff was given direction to identify areas that meet the Office II criteria and this is one of those areas.

Councilman Tomes said that Dr. Gray (member of Oak Valley Partners, LLC) could not give any assurances that in the future the property he owns in the area will remain residential. He said the possibility always exists that Dr. Gray may petition to rezone his residential property to a business designation, thus further encroaching into the neighborhood.

When Councilman Cobb asked what would happen if we left the property zoned as it currently is, Mr. Matteson said that the potential impact would be that the lot could be considered as one through lot that has access both on Asheland Avenue and Grove Street. He said that potentially it could be developed in a way that increases the amount of commercial traffic on the narrow section of Grove Street, which has a pavement width of approximately 15 feet.

Upon inquiry of Councilwoman Field, Senior Planner Gerald Green reviewed with Council the one-foot strip of RS-8 zoning classification recommendation.

Mr. Michael Moule, Traffic Engineer, said that on the average weekday, about 750 cars travel on Dailey Drive at the intersection of Dailey Drive and S. Grove Street. He said there is some amount of cut-through traffic, however, without a manual count, he could not say how much of that traffic is generated by the current access off of Grove Street from the office area. He said the neighborhood itself (depending on how many houses you consider in the area) would generate approximately 100-200 trips per day. He said that he will work with the neighborhood to develop some traffic management solutions. He did contact them to work on some solutions, however, they wanted to wait until after Council made their decision on this rezoning request. He did say there are things that they can do to either discourage or actually prevent the cut-through traffic through physical devices.

Upon inquiry of Councilwoman Field, Mr. Moule said that even though South French Broad is the same width as the southern part of S. Grove Street, this is not an issue of capacity but of what is comfortable and acceptable on a residential street.

Mr. Craig Justus, attorney representing the Asheville Women's Medical Center, said that every single property owners that is subject to this rezoning is against the downzoning from Office Business to Office II District and of the one-foot strip of residential, in particular. He said that even though the protest petition is not in effect, the result is the same - the property owners are against the rezoning. He questioned why this piece of property is being treated differently than the property around it. His clients bought their property with the commercial service designation and did not oppose the downzoning during the UDO process to Office Business District because that met with their expectations for now and in the future. He said that the downzoning from Office Business to Office II does affect their expectations of use of this property. He said that while the existing buildings are still within the Office II limitations, this rezoning will not allow them to plan for the future. The stressed that the 2010 Plan states the area is part of the urban center and the Office Business District fits for this property. He said that Office Business is a transition zone. He opposed the Office II designation for the reason that it is singling them out again for downzoning.

Mr. Justus said that it was his understanding that the one-foot strip rezoning to residential, was generated out of the neighbors concern for cut-through traffic. He said this one-foot strip does not deal with the cut-through traffic issue. He felt that his clients are being blamed for a traffic situation that they did not generate and it's their contention that a transitional zone (which is Office Business) will not create the impact that the neighbors are concerned about. He said that they would like to talk with Mr. Moule and the neighborhood to come up with a solution - but the solution is not zoning a one-foot strip to residential. He said that as an alternative to prohibiting their access, they would be willing to offer as a solution for the City to put up a traffic sign that limits them to going just down Dailey Drive to S. French Broad Avenue. He said that just because the lots are zoned all as one piece that they can cut-off access on S. Grove Street and have all their traffic going off and onto Asheland Avenue. However, they cannot do that because of the topography, the way the building is now designed, and the extreme cost it would be to try to send traffic directly onto Asheland Avenue from the back lots. He passed out eight photographs of the area.

Mr. Ben Jones, Asheville architect, said that the Oak Valley Partners' properties were purchased prior to any knowledge of the UDO and while they were zoned commercial service, commercial prices were paid for these lots based on the owner's vision of future health care needs and the potential use in the Asheland/Grove Street access. By use of an existing site plan, he showed Council how Office II zoning would have a definite impact on any future building on the property. After finding out what the building potential was in the Office II designation, the property owner said that it was impossible to work with. He said that under the current Office Business District the owner maintains the flexibility to add to the building one room, should the room be necessary; however, under the Office II District an entirely separate building would have to be built. Retaining walls, due to the topography, would cost in excess of $75,000, just by not having access onto S. Grove Street.

Upon inquiry of Councilman Seller, Dr. Craigan Gray, Asheville Women's Medical Center, said that they were approached by residents of that property to purchase that property through a broker that they engaged. He said they paid commercial rates for the property in 1992.

Mr. Bob Grasso, Land Planner for Dr. Gray, said that after studying this project, the Office Business District is the best use for the property and works best with the residential neighborhood. He said the topography and the parking is what is driving the lay-out of what can happen on that site. By use of maps, he explained that if the property remains Office Business allowing an addition to the existing building, it actually improved the relationship to the neighborhood.

Upon inquiry of Councilwoman Field about how many entrances Asheville Women's Medical Center would have onto S. Grove Street, Mr. Grasso said that what they propose, and this is just a scheme that they have worked through that allows the greatest amount of square footage to be built on this property under Office Business, and by adding an addition to the building, which is not allowed under Office II but under Office Business, we could have more square footage on the building, they propose that it would be one way out of the lower parking lot up to the upper parking lot so that when the patients arrive, they cannot go down to the lower S. Grove Street. He said the lower parking lot could be marked and would be for approximately 43 staff (including doctors) which they would enter and exit onto S. Grove Street. He said that the approximate 150 patients they see a day would not be using S. Grove Street but Asheland Avenue.

Upon inquiry of Councilman Sellers, audience members from the neighborhood said that they have not seen the two options of future expansion on the property under the present Office Business and under the proposed Office II District.

City Attorney Oast reminded City Council that their decisions cannot be based on the conceptual designs presented.

The following persons spoke in support of rezoning the property from Office Business to Office II District with the one-foot strip being rezoned RS-8, for various reasons, some being, but are not limited to: the one-foot strip of residential will help maintain the integrity, dignitary and the legacy the neighborhood; if Dr. Anderson can make his parking and building access onto Asheland Avenue then why can't the Asheville Women's Medical Center do the same; there should be no more encroachment into this neighborhood; the neighborhood is opposed to any additional traffic in the area; concern for children in the area with the additional traffic; possibility that the neighborhood would prefer the 8-foot retaining wall rather than the introduction of additional traffic into the neighborhood; and the need to protect the affordable housing in the community:

Mr. Joe Craig, resident of 155 S. Grove Street
Ms. Brenda Craig, resident of 155 S. Grove Street
Ms. Mary Warren, resident of 136 S. Grove Street
Mr. Mel Thomason, property owner on Blanton Street
Mr. Clyde Waters, resident of 26 Morgan Street
Mr. Gary Sanford, resident of 139 S. Grove Street

The following persons spoke in support of retaining the current Office Business zoning with no one-foot strip being rezoned residential, for various reasons, some being, but are not limited to: the area is convenient to their patients; doctors are close to hospitals which enables them to get to the hospital very quickly when needed; patients expect accessibility, availability and growth to meet medical needs and this proposal will restrain the future growth of the Medical Center and to restrict the potential future medical services to women is unthinkable; S. Grove Street is used only for limited, unintrusive parking of employee vehicles; prospect of adverse zoning initiated by the City is worrisome; medical clinics are good neighbors; the area is well-kept with no after-hour noise; minimal traffic and not intrusive; no consideration of downzoning the industrial site located next to 99 S. Grove Street; the downzoning will restrain potential growth of the Medical Center; and businesses should be able to purchase, plan and develop within the City limits and relying faithfully on the integrity of leadership to ensure that it will be possible within the context of stable zoning:

Ms. Doris Warren, Personnel Manager of Asheville Women's Medical Center
Ms. Judith Gray, Owner and Manager of Foxfire Properties, which owns and manages the homes at 99, 101 and 124 S. Grove Street
Ms. Sheila Jones, Front Office Manager at Asheville Women's Medical Center
Dr. Craigan Gray, member of Oak Valley Partners, LLC

Upon inquiry of Councilman Tomes, Mr. Thomason said that of the neighborhood residents present at this meeting (being confronted with the suggestion that the neighbors might object to an 8-foot high wall which would be necessitated by the one-foot residential strip), they would prefer the one foot restriction and the 8-foot wall to any solution that had the possibility of introducing additional traffic in that area.

Mayor Sitnick closed the public hearing at 7:05 p.m.

Mayor Sitnick said that members of Council have previously received a copy of the ordinance and it would not be read.

Upon inquiry of Councilwoman Field, Mr. Green said that a portion of the property on S. Grove Street does have a parking area now which is used primarily by staff.

Mayor Sitnick said that the biggest problem for the neighborhood is the increase of traffic which might occur. She also has sensitivity for the property owners who would like to expand their office complex in the future. She suggested allowing the Office Business District to remain with the one-foot strip being rezoned RS-8.

Councilwoman Field said that this is a traffic problem and not a zoning problem. She said this is congruent with the Central Business District and this is the area that mixed use should happen. She felt these are very gentle uses against a residential neighborhood. She had a real concern that Council is using the wrong methods to deal with a problem that needs to be solved.

Councilman Sellers moved to keep the properties zoned Office Business with no one-foot strip being rezoned RS-8. This motion was seconded by Councilwoman Field.

Councilman Tomes said that he could not support the motion because City Council had referred this issue back to staff to find a solution. Staff has now presented Council with that solution.

Vice-Mayor Hay said that regardless of what Council does with this rezoning, something needs to be done about the traffic management problems on S. Grove Street and they can be dealt with in the appropriate way. He believed that had the new Office II District been in place when the UDO was adopted, this area would have been zoned that because in every way this area fits the Office II District.

Councilman Cobb expressed concern in rezoning the properties from Office Business to Office II District and the traffic problem will be addressed by our Traffic Engineer.

Councilman Cloninger said that he would not be able to support the motion.

Mayor Sitnick said that if Council doesn't rezone the property to Office II to act as a transition zone, then the one-foot strip is the least we can do to offer a buffer and protection to the neighborhood.

Mr. Justus said that right now there is limited use of the property for employee and doctor parking. He said that they would be willing to meet with the neighborhood and restrict their property so that they could only use this back portion the way it is currently being used, in terms of only allowing the employees and the doctors to park back there and not have a patient through-way. He also said that they would be willing for the City to install a sign that limits their access and egress only on Dailey Drive. Again, they would be willing to restrict their property to be used the way it is currently being used as long as they can keep their Office Business zoning.

City Attorney Oast said that Mr. Justus is proposing to deed restrict the properties that front on S. Grove Street, which is a way of accomplishing outside the zoning context, a way of resolving one of the dilemmas Council has.

When Councilman Sellers asked if a neighborhood representative was present, Mr. Craig said that he could not represent the neighborhood on this issue, however, after prior negotiations on this issue, the one-foot residential strip was what was arrived at.

The motion made by Councilman Sellers and seconded by Councilwoman Field failed on a 2-5 vote, with Mayor Sitnick, Vice-Mayor Hay, and Councilmen Cloninger, Cobb and Sellers voting "no".

Vice-Mayor Hay moved to rezone the properties to Office II District without the one-foot residential strip. This motion was seconded by Councilman Cloninger and failed on a 2-5 vote, with Mayor Sitnick, Councilwoman Field, and Councilmen Cobb, Sellers and Tomes voting "no".

Mayor Sitnick moved to keep the Office Business zoning with a one-foot strip along five lots located on S. Grove Street being rezoned RS-8. This motion was seconded by Councilman Cobb and carried on a 4-3 vote, with Councilwoman Field and Councilmen Cloninger and Sellers voting "no".

City Attorney Oast said that because the vote on the first motion which passed was 4-3, there is a statutory requirement that it comes back to City Council for a second vote on May 25, 1999.

ORDINANCE BOOK NO. 17 - PAGE 313

For clarification, Vice-Mayor Hay moved to rezone a portion of PIN No. 9648-26-28-5698 abutting on Asheland Avenue from Regional Business District to Office Business District. This motion was seconded by Councilman Sellers and carried on a 6-1 vote, with Councilwoman Field voting "no".

ORDINANCE BOOK NO. 17 - PAGE 315

City Attorney responded to a question from Councilwoman Field about deed restrictions.

At 7:41 p.m., Mayor Sitnick announced a short break.

B. PUBLIC HEARING RELATIVE TO REZONING A PORTION OF ONE LOT LOCATED ON ASHELAND AVENUE FROM OFFICE BUSINESS DISTRICT TO REGIONAL BUSINESS DISTRICT, EXCEPT FOR A ONE FOOT STRIP ALONG THE LOT BOUNDARY ON SOUTH GROVE STREET BEING REZONED FROM OFFICE BUSINESS DISTRICT TO RS-8 RESIDENTIAL SINGLE FAMILY HIGH DENSITY DISTRICT

ORDINANCE NO. 2570 - ORDINANCE TO REZONE A PORTION OF ONE LOT LOCATED ON ASHELAND AVENUE FROM OFFICE BUSINESS DISTRICT TO REGIONAL BUSINESS DISTRICT, EXCEPT FOR A ONE FOOT STRIP ALONG THE LOT BOUNDARY ON SOUTH GROVE STREET BEING REZONED FROM OFFICE BUSINESS DISTRICT TO RS-8 RESIDENTIAL SINGLE FAMILY HIGH DENSITY DISTRICT

Mayor Sitnick opened the public hearing at 8:08 p.m.

City Clerk Burleson presented the notice to the public setting the time and date of the public hearing.

Mr. Mike Matteson, Urban Planner, said that this is the consideration of an ordinance to rezone a portion of one lot located on Asheland Avenue from Office Business District to Regional Business District, except for a one-foot strip along the lot boundary on South Grove Street being rezoned from Office Business District to RS-8 Residential Single Family High Density District.

The Planning and Development Department staff initiated this rezoning request in an effort to remove the “split zoning” which currently exists as a result of property reconfiguration.

The rezoning of a one foot strip along Grove Street from Office Business to RS-8 is designed to prevent additional commercial access from this relatively narrow residential street.

Planning & Development staff is recommending approval of the rezoning request. At their April 7, 1999, meeting, the Planning and Zoning Commission voted unanimously to recommend approval of the rezoning.

Mr. Mel Thomason spoke in favor of the rezoning request.

Mayor Sitnick closed the public hearing at 8:12 p.m.

Mayor Sitnick said that members of Council have previously received a copy of the ordinance and it would not be read.

Councilman Tomes moved for the adoption of Ordinance No. 2570. This motion was seconded by Councilman Cobb and carried on a 5-2 vote, with Councilwoman Field and Councilman Sellers voting "no".

Councilwoman Field stated that she didn't think that placing a one-foot residential strip on a Regional Business piece of problem is the way to solve a traffic problem.

ORDINANCE BOOK NO. 17 - PAGE 317

C. PUBLIC HEARING RELATIVE TO REZONING THREE LOTS ON MONTFORD AVENUE FROM RM-8 RESIDENTIAL MULTI-FAMILY MEDIUM DENSITY DISTRICT TO OFFICE DISTRICT

ORDINANCE NO. 2571 - ORDINANCE TO REZONE THREE LOTS ON MONTFORD AVENUE FROM RM-8 RESIDENTIAL MULTI-FAMILY MEDIUM DENSITY DISTRICT TO OFFICE DISTRICT

Mayor Sitnick opened the public hearing at 8:14 p.m.

City Clerk Burleson presented the notice to the public setting the time and date of the public hearing.

Mr. Mike Matteson, Urban Planner, said that this is the consideration of an ordinance to rezone 3 properties located on Montford Avenue rezoned from RM-8 Residential Multi-Family Medium Density District to Office District.

The three properties are located at 372, 382, and 406 Montford Avenue and total approximately 2.7 acres. The lots were rezoned from Office Institutional to RM-8 with the adoption of the Unified Development Ordinance in May of 1997. Prior to the zoning change, two of the three properties were permitted for office uses. These uses are considered "grandfathered" non-conforming uses and may continue indefinitely but cannot be expanded. The third property is used as a group home. Each of these lots abuts Montford Avenue in the front and Watauga Place (a very narrow residential street) in the rear.

City staff is recommending denial of the rezoning request for the following reasons:

1) an expansion of the office uses which exist in this area may be detrimental to the surrounding residential neighborhood;
2) the existing office uses are "grandfathered" non-conforming uses and may continue indefinitely;
3) the properties abut Watauga Place which has an average pavement width of just 14 feet; and
4) the rezoning would potentially be considered illegal spot zoning.

At their April 7, 1999, meeting, the Planning and Zoning Commission voted 4-3 to recommend denial of the rezoning request.

Mr. Matteson said that on May 6,1999, a valid protest petition was filed, thus invoking the 3/4's vote requirement.

Upon inquiry of Councilwoman Field about the potential illegal spot zoning, City Attorney Oast said that only a judge can determine whether something is an illegal spot zoning or not. Some aspects that might indicate a spot zoning would be if it is a relatively small piece of property, under single ownership and the potential that it might be viewed as being singled out for special treatment.

Ms. Cissy Majebe, speaking on behalf of all three petitioners, passed out a folder containing pictures of the properties, a map and a petition of support containing 130 signatures for the rezoning. She said that when she purchased her property it was zoned Office Institutional, and when the Unified Development Ordinance ("UDO") was adopted they rezoned it to RM-8 Residential Multi-Family Medium Density District. With the use of pictures, she pointed out that her property is surrounded by office and institutional uses. With regard to access onto

Watauga Place, she said that two of the three properties have access onto Montford Avenue and one property has access onto Watauga Place. She said that they will compromise by putting a restrictive covenant on the group home property and on 382 Montford Avenue stating that they will not access onto Watauga Place. She urged City Council to rezone her property back to its original use of Office District.

Ms. Sharon Fahrer, property owner of 333 Montford Avenue, said that Montford is becoming a residential traditional neighborhood and urged City Council would not rezone the property to Office because anything allowed in the Office District would be allowed to be built on the property.

Mr. Allen Roderick, resident of 265 Pearson Drive, said that Ms. Majebe asked if he would join in their rezoning petition, however, he did not want to because he wanted to keep their property zoned RM-8 so at some point in time they could build some multi-family housing on their property. He said that he and Ms. Majebe had worked out an agreement saying that he would withdraw his protest petition, if lot 5607 withdrew from the rezoning petition and deed restrictions were put on the other two properties not to access onto Watauga Place. The problem he has with rezoning lot 5607 is that it's only access is onto Watauga Place and it has no access onto Montford Avenue because of the steep incline. He is concerned about future traffic on Watauga Place. At the community club meeting in Montford last night, he found out that the property owner of lot 5607 did not want to withdraw from the rezoning petition. He said that he has not had much time to talk with his neighbors about this rezoning request but realizes they don't really know what is going on. He passed the Mayor a letter dated May 11, 1999, from Mr. Wayne Yordy, 276 Montford Avenue, which the Mayor read. In summary the letter states that Mr. Yordy did sign the petition in support of the rezoning, however, he "now has received additional information that she is going to expand the building and if rezoned to Office, once she sold the property it could be changed into several undesirable business for the area."

Ms. Susan Roderick said that if this property is rezoned to Office, it might start a change to the residential character of the neighborhood.

Mr. Jay Fine, petitioner and owner of 372 Montford Avenue, spoke in support of the rezoning noting that even though his office use is grandfathered in, he has no desire to expand his practice.

A Montford resident said that the clinic has been well maintained and looks like a residence. She felt that low impact businesses should be allowed for the health of the neighborhood.

Ms. Allison Burnette, former Montford property owner, spoke in support of the rezoning noting that Ms. Majebe will keep the flavor of the neighborhood.

Mayor Sitnick reminded the audience that City Council cannot base their decision on what is currently on the property, but has to consider all the potential uses in the Office Business District.

Ms. Jacquelyn Donnelly spoke in support of the rezoning in that low impact offices in the area serve an important role for the neighborhood.

Ms. Jacquelyn Grant, attorney representing Ms. Majebe, urged City Council to rezone the property back to office as it was prior to adoption of the UDO.

Mayor Sitnick closed the public hearing at 9:01 p.m.

Mayor Sitnick said that members of Council have previously received a copy of the ordinance and it would not be read.

Upon inquiry of Councilman Cobb, Ms. Majebe said that the group home, which is a petitioner in the rezoning request, signed the petition in order to help Ms. Majebe get her property rezoned.

Councilwoman Field moved for the adoption of Ordinance No. 2571. This motion was seconded by Councilman Sellers and carried on a 6-1 vote, with Councilman Cloninger voting "no".

ORDINANCE BOOK NO. 17 - PAGE 319

FAILURE OF THE PARKS, RECREATION AND GREENWAYS BOND REFERENDUM

Mayor Sitnick announced the results of the Parks, Recreation and Greenways Bond Referendum. Information from the Buncombe County Board of Elections showed that 2,643 voted in favor of the bond referendum and 3,020 voted against it, thus making the bond referendum fail. She said that the City will not be able to upgrade our parks, repair our community centers for our children and teenagers or acquire any of the limited and quickly being developed open spaces and green spaces in the City. She said we probably won't have another chance to capture any of that for future park use, even though Asheville state-wide is considered to have some of the lowest numbers of acreage set aside for parks, for recreation, for greenspace - all things that help create Asheville's uniqueness. That opportunity is not gone from a City that has not raised taxes in ten years.

D. PUBLIC HEARING RELATIVE TO CLOSING AN UNOPENED PORTION OF POND AVENUE OFF LEE STREET

RESOLUTION NO. 99-67 - RESOLUTION TO CLOSE AN UNOPENED PORTION OF POND AVENUE OFF LEE STREET

Mayor Sitnick opened the public hearing at 9:06 p.m.

City Clerk Burleson presented the notice to the public setting the time and date of the public hearing.

Ms. Suzanne Molloy, Assistant Director of Public Works, said that this is the consideration of a resolution to permanently close a portion of Pond Avenue off Lee Street.

A petition has been received from Lucie Mae Ratliff requesting that Pond Avenue from Lee Street to the intersection with the Southern Railway Company right-of-way be permanently closed to public use.

The petition received includes the affidavit of Lucie Mae Ratliff, owner of parcels 9654.05-19-4691 and 4882. Ms. Ratliff owns all of the property with frontage on the unopened street between Lee Street and the Southern Railway right-of-way that has been petitioned to be closed.

This portion of Pond Avenue is a paper street and has never been used as a street. The City has no plans to utilize this street. All utility companies will be contacted, the resolution of intent to close a portion of Pond Avenue off Lee Street was advertised in a local paper, and the location was posted with the resolution of intent to close.

The Public Works Department staff recommends the resolution to permanently close Pond Avenue from Lee Street in a easterly direction to the intersection with the Southern Railway right-of-way be adopted.

Mayor Sitnick closed the public hearing at 9:09 p.m.

Mayor Sitnick said that members of Council have previously received a copy of the resolution and it would not be read.

Councilman Cobb moved for the adoption of Resolution No. 99-67. This motion was seconded by Councilman Tomes and carried unanimously.

RESOLUTION BOOK NO. 25 - PAGE 201

E. PUBLIC HEARING RELATIVE TO THE SUBMISSION OF THE CONSOLIDATED PLAN TO THE U.S. DEPT. OF HOUSING AND URBAN DEVELOPMENT FOR COMMUNITY DEVELOPMENT BLOCK GRANT ENTITLEMENT AND HOME INVESTMENT PARTNERSHIP PROGRAM FUNDS FOR 1999-2000

RESOLUTION NO. 99-68 - RESOLUTION TO SUBMIT THE CONSOLIDATED PLAN TO THE U.S. DEPT. OF HOUSING AND URBAN DEVELOPMENT FOR COMMUNITY DEVELOPMENT BLOCK GRANT ENTITLEMENT AND HOME INVESTMENT PARTNERSHIP PROGRAM FUNDS FOR 1999-2000

Mayor Sitnick opened the public hearing at 9:11 p.m.

City Clerk Burleson presented the notice to the public setting the time and date of the public hearing.

Ms. Charlotte Caplan, Community Development Director, said that this is the consideration of a resolution authorizing the Mayor to submit a Consolidated Action Plan to the U.S. Dept. of Housing & Urban Development (HUD) for CDBG and HOME programs for FY 1999-2000.

The City will be applying to HUD for $1,547,000 in CDBG and $1,140,000 in HOME funds for the coming year. Anticipated program income and re-programming of prior years funds will increase available revenue for CDBG activities by $514,000, for a total of $3,201,000 in programmable funds.

The Consolidated Plan serves as the City's annual planning document for the CDBG and HOME grant programs as well as the application for funding. Council action will authorize submittal of the Consolidated Plan to HUD and implementation of the activities listed in the plan. The Consolidated Plan must be submitted to HUD on or before May 14, 1999.

In preparing the plan, the City's Housing and Community Development Committee reviewed 23 CDBG grant applications from 15 agencies and has recommended funding for 20 of these projects in addition to five City-operated projects (not including program administration). The Asheville Regional Housing Consortium reviewed 15 applications from agencies and local governments for HOME funds and has recommended HOME funding for 10 affordable housing projects.

A summary of the proposed Consolidated Plan was published in the Asheville Citizen-Times on April 2, 1999 requesting public comment by May 3, 1999. Three community public hearings have been conducted by staff, in Asheville and Hendersonville. One written comment on the Plan has been received to date.

Community Development staff recommends adoption of the Plan and Resolution.

Ms. Caplan then briefly reviewed the funding for the projects.

Mayor Sitnick closed the public hearing at 9:17 p.m.

Mayor Sitnick said that members of Council have previously received a copy of the resolution and it would not be read.

Councilwoman Field moved for the adoption of Resolution No. 99-68. This motion was seconded by Vice-Mayor Hay and carried unanimously.

RESOLUTION BOOK NO. 25 - PAGE 202

IV. UNFINISHED BUSINESS:

A. SECOND READING OF CONDITIONAL USE PERMIT FOR TRINITY BAPTIST CHURCH LOCATED AT 216 SHELBURNE ROAD IN WEST ASHEVILLE

ORDINANCE NO. 2572 - ORDINANCE GRANTING A CONDITIONAL USE PERMIT TO TRINITY BAPTIST CHURCH LOCATED AT 216 SHELBURNE ROAD IN WEST ASHEVILLE

City Attorney Oast said that following a public hearing at its meeting on April 13, 1999, the City Council voted to grant a conditional use permit ("CUP") to permit Trinity Baptist Church ("TBC") to expand its existing facilities at 216 Shelburne Road in West Asheville. The vote was made subject to a second vote on the findings to be contained in the ordinance granting the CUP. Since the vote was less than a two-thirds majority, a second vote is statutorily required.

The ordinance adopts findings and conclusions, and directs the issuance of a CUP. The findings, conclusions and conditions are proposals only and City Council should feel free to make other findings, and to impose additional or alternative conditions.

Council should consider the findings, and conditions set forth in the proposed ordinance, making changes as necessary. Provided no one who voted to issue the CUP last month now wishes to change their vote, the process of adoption can occur in two ways:

1. Single motion: To adopt findings and conclusions as contained in the proposed ordinance and issue the CUP.

2. Bifurcated process:

    a. to adopt findings and conclusions as contained in the proposed order (individual findings or conditions may be voted on separately); and

    b. to issue the CUP.

Unless there is some substantial disagreement about the findings or conditions, the "single motion" method is recommended.

Conditional use permits may be issued by resolution or ordinance. He suggested using the ordinance format, since the action will have the same legal effect as a zoning ordinance.

Included in the Order is a conclusion to address Carrier Heights Neighborhood Association's assertion that Level III churches are not permitted in the RM-6 zoning classification.

Mayor Sitnick announced that the public hearing on this issue was closed and City Council will not take additional comments.

City Attorney Oast said that City Council needs to come to some consensus on the findings and the conditions that they want to put on the property. Once that is done and the Order is how City Council wishes it to read, then Council can vote on the order. He said that would constitute the second vote which is necessary.

City Attorney Oast presented City Council with a revised Order which contains some revisions. He discussed what he felt were the substantive changes: (1) he defined what a minor thoroughfare in Finding No. 5; (2) in Finding No. 11 he tried to elaborate and clarify some of the testimony about the proposed height of the sanctuary; and (3) he added a new Condition No. 9, which reads "The exterior roof height of the proposed new sanctuary shall not exceed 50 feet, measured at grade on the front or Shelburne Road elevation. The applicable building height limitation, measured as prescribed by the UDO, shall be observed throughout the structure. The sanctuary building may have one roof-mounted steeple, not exceeding 35 feet in height." He said that the findings basically cover the properties of the area that surround the subject property, e.g., size of the homes, and the institutional and residential uses that surround the property. He said the Conclusions track what the ordinance specifies, however, because of the procedural point that Mr. Goldsmith raised at the hearing, the first Conclusion addresses that point. He said that the second part of the Conclusions are the conditional use standards as they are outlined in the ordinance.

Councilwoman Field suggested a revised additional Condition No. 9 to what City Attorney Oast read: "That the design of the proposed structure shall be subject to review by a design review team, consisting of City staff and design professionals from the community. The design review team shall work with the architect for the church to ensure that the design of the structure is compatible with the surrounding neighborhood. The design review team shall present the design of the proposed structure and its recommendations to the City Council for approval. The design team shall review the plans, particularly the elevation, paying close attention to the following design elements: height, bulk, scale, massing, articulation, materials, color, location of entrance, relation of the structure to the site, and compatibility with the site and the surrounding neighborhood. The design review team shall ensure that the building elevation fronting on Shelburne Road is designed in a manner which is sensitive to the residential character of the surrounding neighborhood. Review of the landscaping plan shall be included in this review process to ensure that landscaping is appropriately designed and located to soften the impact of the building and parking on surrounding residential uses."

City Attorney Oast said that it was important for City Council to retain final approval authority on this so any consideration by this design review team would have to come back to City Council in the form of a recommendation which Council would then adopt as conditions. He said Councilwoman Field's condition is establishing a set of design guidelines to ensure that the project is compatible with the surrounding neighborhood as much as possible because the design is not complete yet. He did talk with Senior Planner Gerald Green and they feel that this can be brought back to City Council within a short timeframe.

Upon inquiry of Vice-Mayor Hay, City Attorney Oast said the design guidelines would come from the design team. Essentially what Councilwoman Field's suggestion is, is to hold one condition of this conditional use permit open for further consideration by City Council.

Councilwoman Field said that in trying to write a condition it became more and more complicated as she tried to come up with some design guides. She said her guides are fairly standard and she felt these would give a little more control for the neighborhood on this particular project.

Upon inquiry of Vice-Mayor Hay, City Attorney Oast said that to a large extent, as with all conditional use permits, the conditions are self-policing and the City will respond to and investigate complaints.

Councilwoman Field asked if there was a consensus to add a condition for some kind of design review which would include the City staff and design professionals, rather than ad hoc members of the community. The intent of her condition was that whoever designed the church would have to comply with this condition and there would be no guidelines written, but merely it would be reviewed at the time it was presented and if the review team didn't recommend that it be accepted, it would go back to the drawing-board. However, after hearing the discussion, she felt it might be better to have some design guidelines ahead of time and for City Council to approve those guidelines.

When City Attorney Oast asked if any member of Council would change their vote if Councilwoman Field's new Condition No. 9 replaced the additional Condition No. 9 he read earlier, all of Council indicated the replacement would not change their vote.

City Attorney Oast said that it was his understanding that City Council will not be reviewing the final design, but they will approve certain conditions that the final design must meet, and whether it meets it or not will be a staff determination.

Councilwoman Field moved to grant the conditional use permit to Trinity Baptist Church with the additional condition for some type of design guidelines as she read earlier. This motion was seconded by Councilman Sellers.

Mayor Sitnick asked if this order passes with all the conditions, will there be any other opportunities to impose additional conditions. City Attorney Oast said no, not unless the church comes back to City Council for modification of the conditional use permit. When she asked about modifications to the site plan, he said it might be possible to impose conditions at the site plan review level.

Mayor Sitnick was concerned with Condition No. 2 in that the neighbors deserve as much as a screen as possible. City Attorney Oast said that what is intended, if not clear, is that at the end of two years, whatever is planted will be sufficient to screen the parking lot. Mayor Sitnick asked that the condition be clarified so that the plants form a solid hedge that is evergreen. Her concern is that it says it has to form a screen that is five feet high, but she thinks that can be interpreted as street trees and not necessarily a screen. City Attorney Oast suggested the condition be amended to read " Shrubs and trees shall be installed ... which will grow to a height of at least five feet within two years, and be sufficient then and at maturity to provide an opaque evergreen screen sufficient to screen the parking lots from the view of the surrounding residential properties."

From the audience, Senior Planner Gerald Green responded to Councilwoman Field's question if about if there was some definition within the landscape ordinance that can be referred to.

After discussion, City Manager Westbrook suggested that Council state what their intent is and let the professionals work it out because they may even come up with some better alternatives given a little time. Councilwoman Field said that she would be amenable to that because the intent is to screen the parking lot. City Attorney Oast said that Councilwoman's change to condition no. 9 encompasses landscaping, that that gives some latitude to the design review team to make appropriate suggestions.

Councilman Sellers called the question.

Mayor Sitnick said that she has seen a lot of professionals completely deforest property. She said that she wants to screen the parking lots from the view of the surrounding residential properties. She said that if somebody can find a better way to do that, than using conifers, in whatever natural configuration, that is fine. However, if it's not screened year-round then it's not providing the condition of No. 2.

Councilman Cobb said that this is a difficult decision for him. He said businesses, churches and neighborhoods all have rights in the community. As a public official, they have to look at the rights for all the people. He is a strong supporter of neighborhoods, businesses and churches. We are in a no-win situation. The Planning staff and the Technical Review Committee ("TRC") have stated that this project meets all the technical standards for development in the RM-6 zoning designation. The TRC has placed certain conditions on the project, and the church has met or has agreed to meet all of the conditions. He said that one argument on this issue was the traffic, however, the traffic studies show that the roads are designed to carry 10,000 cars a day and even with the 2400 seat auditorium, traffic still would not reach the 10,000 capacity. Regarding property values being reduced, he had a survey done in the area and the results show that from the 1994 valuation, property values in West Asheville have gone up, not declined.

Councilman Tomes stated that a proposed layout of this facility was shared some time ago and they ready to proceed with their long range plan. He felt it was unfair to have prior stages approved and now tell them they can't proceed with their long range plans. He said that this has been a difficult decision for him, however, he is looking at the stewardship and accountability of a faith community that has met all of the criteria that has been established by staff.

Councilwoman Field said that the Grove Park Inn expansion in a residential neighborhood was the only project she could think of that might be comparable in this community where there was an institutional use expanding greatly to do a conferencing kind of facility. She said she didn't find any substantiation for the property value reason for excluding voting for this permit.

Councilman Cloninger stated that he is opposed to granting the conditional use permit in that he didn't think the use proposed is appropriate in this case.

Mayor Sitnick said that looking at the several conditional use standards, which by law Council is supposed to base their granting the permit for this conditional use of this property, knowing that if even one of them fails, City Council must not grant the permit. Conditional Use Standard (d) in the Order which reads "the use of the Subject Property by TBC, if developed as proposed and built in accordance with the approved site plan, and subject to the conditions set forth herein, will be in harmony with the scale, bulk, coverage, density and character of the area or neighborhood in which it is located" clearly reflects that the permit should not be granted.

Mayor Sitnick said that members of Council have been previously furnished with a copy of the ordinance and it would not be read.

The motion made by Councilwoman Field and seconded by Councilman Sellers carried on a 4-3 vote, with Mayor Sitnick, Vice-Mayor Hay and Councilman Cloninger voting "no".

ORDINANCE BOOK NO. 17- PAGE 321

B. RESOLUTION NO. 99-69 - RESOLUTION AUTHORIZING THE CITY CLERK TO ADVERTISE AN OFFER TO PURCHASE DISPOSAL PARCEL 59X LOCATED NEAR THE CORNER OF ASHELAND AVENUE AND PHIFER STREET

Mr. Ed Vess, Field Services Coordinator, said that this is the consideration of a resolution directing the City Clerk to advertise an offer to purchase for upset bids regarding Disposal Parcel 59X near the corner of Asheland Avenue and Phifer Street. At the April 27, 1999, City Council meeting, this matter was continued until this date in order to give City Council time to visit the property in question.

The bid of Rex Ballard in the amount of $139,000 for the purchase of Disposal Parcel 59X in the East Riverside Redevelopment Project is not less than the established minimum price of $139,000.

Disposal Parcel 59X is an Office zoned lot near the corner of Asheland Avenue and Phifer Street comprising 0.639 acres. The bid from Rex Ballard for Disposal Parcel 59X includes the proposal to incorporate the lot into the adjacent property currently owned by Rex Ballard. The development proposal consists of landscaping and parking consistent with the Unified Development Ordinance. The proceeds from the sale of this property would be available for the City to purchase another parcel of land that is currently available that is about eight acres in size and would allow us to develop approximately 20-25 units of affordable housing.

Approval of the resolution will initiate the sale of the property through the upset bid process as provided in N. C. Gen. Stat. sec. 160A-269.

Community Development staff recommends adoption of the resolution.

Mr. Mel Thomason urged City Council to retain this parcel of land for open space and also to decrease the potential impact of additional development on Blanton Street.

Mayor Sitnick said that members of Council have been previously furnished with a copy of the resolution and it would not be read.

Councilwoman Field moved for the adoption of Resolution No. 99-69. This motion was seconded by Councilman Sellers and carried on a 6-1 vote, with Councilman Tomes voting "no".

RESOLUTION BOOK NO. 25 - PAGE 203

V. NEW BUSINESS:

A. RESOLUTION NO. 99-70 - RESOLUTION AUTHORIZING THE EXECUTION OF DOCUMENTS TO INCLUDE ADDITIONAL EQUIPMENT UNDER THE EXISTING MASTER MUNICIPAL RENTAL AGREEMENT FOR THE CITY'S TELEPHONE SYSTEM

t the request of Councilman Cloninger, Councilman Sellers moved to excuse Councilman Cloninger from voting due to a conflict of interest. This motion was seconded by Vice-Mayor Hay and carried unanimously.

Finance Director Bill Schaefer said that this is the consideration of a resolution authorizing the execution of documents to include additional equipment under the existing Master Municipal Rental Agreement for the City's telephone system.

Last year, City Council approved the execution of a Master Municipal Rental Agreement, dated February 25, 1998, between the City of Asheville and NEC America, Inc. (The lease was subsequently assigned by NEC to Sutro & Co., which in turn assigned its right to receive rental payments to Fifth Third Bank, NA) The lease provided a fully-integrated telephone system that met the City's then-current needs and provided expansion capabilities to incorporate future expansion. The lease was for a term of 84 months at a cost of $6,457.50 per month. During the past year it has been necessary to add additional equipment to the system to meet the City's evolving telephone requirements (6 additional digital display phones, 17 headsets, analog card for voice response system, etc.) The proposed resolution authorizes the City Manager, Finance Director and City Clerk to execute all necessary documents to include the above mentioned equipment as Delivery Order Number Two to the Master Municipal Rental Agreement. The terms of the added leased equipment is $378.68 per month for a period of 36 months beginning in May 1999.

Staff recommends the City Council adopt the resolution.

Mayor Sitnick said that members of Council have been previously furnished with a copy of the resolution and it would not be read.

Councilwoman Field moved for the adoption of Resolution No. 99-70. This motion was seconded by Vice-Mayor Hay and carried unanimously.

RESOLUTION BOOK NO. 25 - PAGE 204

B. ORDINANCE REQUIRING THE POSTING OF PRIVATE PARKING LOTS IN DOWNTOWN ASHEVILLE

City Attorney Oast said that this is the consideration of an ordinance requiring that private parking lots in the downtown area be designated as private.

Council and staff have received complaints about enforcement of parking restrictions on private parking lots, primarily related to the towing of vehicles from those lots. Research indicates that local regulation of "motor private carriers with respect to the transportation of property" is pre-empted by federal law. This preemption has been held to apply to non-consensual towing of vehicles from private lots. The effect of the federal law is that cities may not adopt regulations affecting the manner in which privately initiated towing is carried out. To the extent that the federal government does not prohibit local regulation of towing, it appears that, in order for the City to do so, specific authorization would have to be found in State law.

Some North Carolina counties are subject to a law that requires posting of lots as a pre-condition for towing from those lots. Buncombe is not one of those counties. However, there appears to be general authority by which the City can require that private lots be so designated, and to provide that failure to comply subjects the offender (the owner or operator of the lot) to a civil fine. This does not mean that unauthorized vehicles parking in private lots may not be towed or that vehicles must be towed from lots that have signs. However, it may reduce the level of inadvertent unauthorized parking, and thus reduce the number of non-consensual tows.

This application of this ordinance is limited to the Central Business District ("CBD") zone east of the French Broad River; we have had very few complaints from other areas of town. At your meeting in March, some concern was expressed over the "all or nothing" approach that the original proposed ordinance appeared to take. Accordingly, revisions have been made to require the designation of all private parking lots in the CBD, and the hours during which towing is or may be enforced.

At a meeting of the Downtown Commission, it was suggested that uniform signs might aid in further reducing unauthorized use of private lots. Language has been included to permit the City to produce and provide such uniform signs, and to require their use, if available. The ordinance does not require the use of those signs unless the City makes them available. The ordinance just requires the lots be signed and if the signs are available we can require that our signs be used.

The ordinance will become effective sixty days after adoption.

To the extent that this ordinance may help reduce the number of situations where non-consensual tows can occur, its adoption is recommended.

Councilman Cloninger felt that property owners use their signs to not only to warn about towing, but also to advise the public that this is their parking lot. Therefore he suggested that rather than require the property owner to use the City's sign designed by the City, require the property owners to incorporate the City's specified language into their sign. He suggested deleting the language "The City may undertake to produce and provide uniform signs with appropriate designations. If such uniform signs are available, the City may require the use of such signs in implementing this section."

City Attorney Oast said that this suggestion came out of a meeting with the Asheville Downtown Commission and that the City doesn't have to require that their signs be used. He said they can still obtain the signs and make them available to property owners if they want one.

Vice-Mayor Hay was concerned that this ordinance will require every private parking lot owner in the Central Business District to put up a sign stating that it is a private parking lot, even if they don't tow and they don't want to tow. He suggested that if the private parking lot owner is going to use towing to enforce their private rights, then they need to put a sign up, or something to that effect, but not to require all private parking lot owners to put up a sign.

City Attorney Oast said the difficulty we have before us is that the only thing we can do is to require the posting of signs. We can't require the posting of signs as a condition to towing.

Vice-Mayor Hay suggested the ordinance be revised to only read: "If the lot is one from which unauthorized vehicles may be removed without the consent of the vehicle owner, the sign shall specify the days and hours during which such non-consensual removal is enforced."

Mayor Sitnick suggested the ordinance read "If the lot is one from which unauthorized vehicles may be removed without the consent of the vehicle owner, then those lots that are privately owned, privately leased, or privately operated parking lots located east of the French Broad River and located on property zoned to a CBD ... shall display a sign ..." So, in other words, we are really stating only the lots from which unauthorized vehicles may be removed without consent.

Vice-Mayor Hay also suggested the City Attorney look at the words "may be removed" because unauthorized vehicles may be removed without consent in any lot anywhere.

Mayor Sitnick's only desire is to make sure people can see and understand the signs so that if they park in that lot, they will get towed.

It was the consensus of City Council to have the City Attorney review the suggestions made at this meeting and bring a revised ordinance back to Council at their next formal meeting.

VI. OTHER BUSINESS:

A. APPROVAL OF THE MINUTES OF THE REGULAR MEETING HELD ON APRIL 27, 1999, AND THE WORKSESSION HELD ON MAY 4, 1999

Councilman Tomes moved for the adoption of the minutes of the regular meeting held on April 27, 1999, and the worksession held on May 4, 1999. This motion was seconded by Councilman Sellers and carried unanimously.

B. MOTION REAFFIRMING CITY COUNCIL'S SUPPORT OF NORTH CAROLINA ADOPTING PERMITTING PROCEDURES FOR AIR QUALITY IN THE SOUTHEAST

Mayor Sitnick moved to reaffirmed Resolution No. 98-176 adopted on November 24, 1998, which supports North Carolina adopting permitting procedures for air quality in the southeast. This motion was seconded by Councilman Cobb and carried unanimously.

C. REPORT FROM BOARDS/COMMISSIONS COMMITTEE

It was the consensus of City Council to interview candidates for the Educational Access Channel Commission at 4:00 p.m. on Tuesday, May 25, 1999, in Room 209 of the City Hall Building. Vice-Mayor Hay suggested that City Council then vote on those appointments at that formal meeting held later that evening.

D. LAWSUITS

The following lawsuit was received by the City of Asheville on May 5, 1999: Wade Lee Messer v. City of Asheville and Cooper Construction Company Inc. The complaint alleges bodily injury and expenses incurred as a result of a 6" water line improvement project for the West Asheville annexation. This matter will be handled by an outside attorney.

The following lawsuit was received by the City of Asheville on January 25, 1999: Jim A. Robbins v. City of Asheville. The complaint seeks a declaratory judgment that the citation issued against the Plaintiff for an on-premise sign is illegal and invalid. This matter will be handled in-house.

VII. INFORMAL DISCUSSION AND PUBLIC COMMENT:

VIII. ADJOURNMENT:

Mayor Sitnick adjourned the meeting at 10:35 p.m.

Magdalen Burleson
CITY CLERK

Leni Sitnick
MAYOR

Worksession

Present: Mayor Leni Sitnick, Presiding; Vice-Mayor Edward C. Hay Jr.; Councilman M. Charles Cloninger; Councilman Earl Cobb; Councilwoman Barbara Field; Councilman Thomas G. Sellers; and Councilman O.T. Tomes; City Attorney Robert W. Oast Jr.; City Manager James L. Westbrook Jr.; and City Clerk Magdalen Burleson

Absent: None

CONSENT:

Budget Amendment re: Improvements to Joint City/Library Facilities

Summary: The consideration of a budget amendment, in the amount of $6,497, to appropriate funds received from the Asheville-Buncombe Library System back into the capital account for improvements to joint City/Library facilities.

The Parks and Recreation Department has made improvements at the North Asheville Community Center/Library. The Asheville-Buncombe Library has agreed to pay for 1/3 of the cost for these improvements. In addition, the Parks and Recreation staff will be making modifications to the Murphy-Oakley Community Center/Library to include a wheelchair ramp and handrail. The library has agreed to pay for 1/3 of these improvements as well. A budget amendment totaling $6,497 is requested to appropriate these funds into the proper account so that staff can proceed with this work.

The Parks and Recreation Department is requesting City Council's approval for the appropriation of $6,497 received from the Asheville-Buncombe Library System into the capital account for improvements to joint City/Library facilities.

Budget Amendment regarding City Hall Fire Bell Automation Project

Summary: The consideration of a budget amendment, in the amount of $15,000, for the Fire Bell Project.

The Friends of the Fire Bell/Chimes Committee has instituted a project to automate the Fire Bell atop the Asheville City Building. Once electrified the bell will strike the hour and the half-hour. Total cost of the project is estimated to be $15,000 with funding to be provided entirely from private donations/grants. This budget amendment will establish a Grant Project Budget totaling $15,000 to allow for the undertaking of the project.

City staff recommends that the budget for the Fire Bell Project in the amount of $15,000 be approved.

Budget Amendment relative to Improvements to Magnolia Park

Summary: The consideration of a budget amendment, in the amount of $15,000, for improvements to Magnolia Park.

The Asheville-Buncombe Historic Resources Commission has received a grant from the Janirve Foundation in the amount of $15,000 which is planned for improvements to Magnolia Park. These improvements consist of (1) constructing and installing 250 feet of classic-styled handmade metal fencing around the front periphery of the park; and (2) constructing a concrete

2

stair and corner entrance to the park at the southeast corner of the park on Magnolia Street. This budget amendment establishes a project budget in the amount of $15,000 for the improvements.

City staff recommends that the budget amendment for the Magnolia Park Project in the amount of $15,000 be approved.

Waiving right-of-way Permit Fees for Adopt-A-Spot Program sponsored by Quality Forward

Summary: The consideration of waiving the right-of-way Permit Fee for "Adopt-A-Spot" Program sponsored by Quality Forward.

Quality Forward is in the process of working with other agencies to beautify Asheville by planting landscaping in various locations in the City on City right-of-way. Quality Forward has completed two projects and has plans to complete two additional locations at the intersections of Market and Walnut Streets and O.Henry and Haywood Streets during this year. According to our policy, the approximate cost of the permit for each of the locations would be $150. Based on the total number of projects projected, the estimated revenue reduction would be $600. Quality Forward has requested that the fee for these permits be waived. Due to the wording of the ordinance this fee can only be waived by City Council.

and disturbing activity within the right-of-way requires a right-of-way cut permit from the Engineering Department per City Ordinance Section 16-36. The fee for this permit is based upon the amount of area disturbed in the right-of-way.

t is important for Quality Forward to obtain a permit so that the Engineering Department staff can inspect the site to insure that no harm will be done to the infrastructure. Additionally, it is important to obtain records about work that has been performed in the right-of-way in the event problems occur in the future.

Staff recommends waiving the fee but still requiring that Quality Forward obtain a right-of-way permit so that the sites may be inspected by City staff.

Staff recommends that the City Council waive the right-of-way Permit Fee for "Adopt-A-Spot" Program sponsored by Quality Forward, to include the two projects that have been completed, the two projects planned and any future projects that are included in this program.

Possession & Consumption of Malt Beverages and/or Unfortified Wine at Asheville Downtown Association's 1999 Events

Summary: The consideration of a resolution making provisions for the possession and consumption of malt beverages and/or unfortified wine at the Asheville Downtown Association's 1999 events co-sponsored by the City of Asheville.

The Parks and Recreation Department recommends that the possession of open containers of malt beverages and/or unfortified wine and the consumption of malt beverages and/or unfortified wine be allowed for the 1999 events of the Asheville Downtown Association at the locations and times specified in the resolution.

For many years, the Asheville Downtown Association has co-sponsored with the City of Asheville events to bring both the public and visitors to the Downtown area. These events include: Moonlight Over Downtown, Honda Hoot Public Rally, and four Downtown After Five activities. The Asheville Downtown Association has requested permission to allow possession and consumption of beer and wine during these events as they have been allowed in the past.

The Asheville Parks and Recreation Department recommends City Council approve the resolution.

Mayor Sitnick asked that the record show that City Council has received this information and instructs the City Manager to place these items on the next formal City Council agenda.

ASHEVILLE SCHOOL BOARD

Ms. Susan Fisher, Chair of the Asheville School Board, reviewed with City Council the following goals and objectives from their Strategic Plan for Excellent Schools for 1998-99: (1) increase student achievement in Asheville City Schools; (2) provide orderly, safe, clean, drug-free schools; (3) recruit, develop, and retain a highly skilled workforce; and (4) enforce strong partnerships through effective communication. She reviewed with Council achievements made at the schools along with the various programs the schools are undertaking.

Councilwoman Field suggested and Mayor Sitnick agreed that City Council should recognize good kids in the community and the teachers who help them along.

Ms. Fisher answered various questions and comments from Council, some being, but are not limited to: magnet schools, computers for students, internet use in the schools, and the cultural academy.

Councilman Tomes applauded the energy of the school toward working with African American males to graduate, however, of the 120 African American males that started high school in 1995, only maybe 30 will graduate this year. He felt passionate that any student can achieve their goals if they have the kind of support system around them.

Mayor Sitnick thanked the School Board members for their service. She personally asked the School Board to not tear down Claxton School. She said that in September she will be scheduling a youth roundtable so City Council can hear from the children in our community what their concerns are, what is working and what is not working, etc. She encouraged the more time than two days set aside for parent/teacher conferences. She also suggested that the School Board obtain a copy of the video of the Citizen-Times meeting held on school violence. They will be hosting four follow-up meetings that she urged the members to attend. She strongly encouraged the Board to look for ways to reduce the class size.

PEDESTRIAN THOROUGHFARE PLAN

Ms. Suzanne Molloy, Assistant Director of Public Works, said that this is the consideration of adoption of the *Pedestrian Thoroughfare Plan.*

Over the past several months, the Public Works Department in conjunction with the Metropolitan Planning Organization has hosted a series of public comment sessions, spoken to various civic organizations, and presented the draft *Pedestrian Thoroughfare Plan* to a varying audience. The primary goal of the comment period was to solicit input on financing strategies and final "action step" recommendations to City Council. The secondary goal was to assure that all critical pedestrian needs were identified.

General public comment (written and verbal) on the plan was overwhelmingly positive. The majority of respondents recognized the importance of good pedestrian planning and facilities for the community. As with most plans, controversial public comment was received about suggested funding strategies.

After careful review and compilation of public comment by staff (including Public Works, Planning and Development, Parks and Recreation, and Engineering Departments), final recommendations for implementation and "action steps" were developed by consensus. Based on comments, many financing strategies are no longer being recommended.

The final plan identifies approximately $38.5 million of pedestrian facilities and improvements needed in the City of Asheville. As with any comprehensive plan, a long-term approach to implementation must be realized. Following is a synopsis of the recommended action steps:

- Revise the *Asheville Standard Specifications and Details Manual* and the *Unified Development Ordinance* to expand the requirements for sidewalk installation to include: all new subdivisions (with more than 2 homes), all new multi-family dwellings, all new commercial developments, and all non-residential improvements where the costs of improvements exceeds 50% of the existing structure value;
- Amend the *Fees and Charges Manual* to include a 'fee in lieu of construction' option for developers;
- Revise the *Asheville Standard Specifications and Details Manual* to incorporate updated criteria for the design of pedestrian facilities;
- Promote the usage of the special assessment process and encourage the development of local districts for pedestrian and streetscape improvements; and
- Aggressively pursue funding from the NCDOT, and other federal, state, and private sources.

Making Asheville a more pedestrian friendly environment will require the support of local citizens, businesses, and public and private organizations. While some negative criticism has been received about the recommended action steps, staff believes that the chosen action steps will provide the most equitable tools for the City to fully realize this plan and develop a holistic transportation system.

Councilman Cloninger said that he would like to see the 'fee in lieu of construction' option for developers put on a fast track.

Upon inquiry of Vice-Mayor Hay, Ms. Molloy said that criteria will be developed for projects regarding the "fee in lieu of construction", stressing that that "fee" will be the exception to the requirement. Staff will develop the criteria which will in turn be reviewed by the Planning & Zoning Commission. The Planning & Zoning Commission will then make their recommendation to City Council, which will have final approval. After City Council approves the criteria, City staff will be the ones who make the determination of whether to approve the request or not. The petitioner will continue to have the opportunity to requesting City Council to waive the requirement, however. All fees collected will go into a designated fund for pedestrian facilities.

Mayor Sitnick encouraged Ms. Molloy to look into the Better America Bonds.

Mayor Sitnick asked that the record show that City Council has received this information and instructs the City Manager to place this item on the next formal City Council agenda.

RESOLUTION NO. 99-71 - RESOLUTION SETTING A PUBLIC HEARING TO CONSIDER THE PURCHASE OF REAL PROPERTY KNOWN AS ROYAL PINES POOL AND PARK PROPERTIES

Mr. Irby Brinson, Director of Parks & Recreation, said that the Trust for Public Land, a national non-profit land conservation organization which works with communities to acquire parks for people, is working with Jake Rusher, owner of approximately 5.5 acres of property located on Sweeten Creek Road and Peach Tree Street known as the Royal Pines Pool and Park Properties, to make Royal Pines a public park for the children of south Asheville.

Mr. Rusher said he has received numerous offers to sell Royal Pines for commercial development but he has always wanted the property to become a public park. With the help of The Trust for Public Land, Mr. Rusher will donate Royal Pines to two charitable remainder trusts. The Trust for Public Land intends to purchase the land from the charitable remainder trusts and then sell the property to the City over three to five years. The proceeds of the sale of the land to The Trust for Public Land will be kept in charitable remainder trusts and will provide income to Mr. Rusher (who is 79 years old) for the rest of his life.

Upon Mr. Rusher's death, he intends to leave a portion of his estate to the City of Asheville to help the City pay for and manage the new park. Mr. Rusher stated his intention to make The Trust for Public Land the beneficiary of the charitable remainder trusts. Upon his death, The Trust for Public Land will receive the money left in the trusts. The Trust for Public Land has stated that it will share its gift from Mr. Rusher with the City of Asheville to ensure that the City receives a total gift in an amount equal to the purchase price of the property.

Mr. Brinson said that the Parks and Recreation Department is interested in the purchase of properties known as the Royal Pines Pool and Park Properties. This property is valuable as protection of open space land and has been identified in the Parks and Recreation Master Plan as an area needing future park development. The purchase of the property is expressly contingent on The Trust for Public Land entering into a contract for the purchase of the property from a trustee.

An appraisal has been completed by the City of Asheville and the purchase price is estimated to be between $920,000 and $970,000. The Parks and Recreation staff is recommending that the purchase of the property be made by installment payments under an installment contract authorized by N. C. Gen. Stat. sec. 160A-20. A public hearing must be held and is scheduled for May 25 in order to discuss the terms and conditions of the installment contract and to receive input from the public regarding this decision.

After the public hearing on this matter, the Parks and Recreation Department is requesting City Council's approval to authorize the Mayor to execute an installment contract and a memorandum of installment contract for the purchase of real property located on Sweeten Creek Road and Peach Tree Street, known as the Royal Pines Pool and Park properties, to be used for Parks and Recreation programs, contingent upon The Trust for Public Land entering into a contract for the purchase of the properties from a trustee.

Mr. Russ Martin, Vice-President of Merrill Lynch, discussed with Council Mr. Rusher's generous proposal and urged City Council to take advantage of this generous offer to the citizens of Asheville and to The Trust for Public Land.

With the aid of a flow-chart, Assistant City Attorney Patsy Meldrum explained the financial aspects of this transaction. She said that The Trust for Public Land normally charges 10% of the purchase price for their service fee, however, because of their on-going relationship with the City, they would only charge the City $50,000.

6

Mayor Sitnick said that members of Council have been previously furnished with a copy of the resolution and it would not be read.

Councilman Cloninger moved to adopt Resolution No. 99-71 setting a public hearing to consider the purchase of Royal Pines Pool and Park properties on May 25, 1999. This motion was seconded by Vice-Mayor Hay and carried unanimously.

Upon inquiry of Vice-Mayor Hay, Mr. Brinson said that the first thing his department will do if the property is purchased will be to assess and evaluate the property.

When Councilwoman Field noted that the Parks and Recreation Master Plan noted a need for a park facility in the south, Mr. Brinson said that this area was identified as begin a good location early in the process.

Mayor Sitnick thanked Mr. Rusher for his generosity to the citizens of Asheville for his foresight in creating a permanent place for children to play and a beautiful green park to be enjoyed forever.

RESOLUTION BOOK NO. 25 - PAGE 205

STATUS OF BILTMORE VILLAGE TRANSPORTATION STUDY

Ms. Cathy Ball, Engineering Director, said that representatives from Day/Wilburn Associates, Inc. will be making a presentation on the recommendations from the Transportation Study for Biltmore Village.

As an addendum to the Comprehensive Parking Study for the Downtown, Biltmore Village, and West Asheville areas, the traffic engineering firm of Day/Wilburn Associates, Inc. was asked to study the Biltmore Village area and make specific recommendations for transportation improvements. These improvements were to include vehicular, pedestrian, bicyclist and rail transportation improvements.

A meeting is scheduled for May 27 in Biltmore Village to allow for public comment.

Mr. Rick Day, Consultant, reviewed with Council the project goal which is to provide a phased transportation plan for Biltmore Village that (1) meets the mobility needs of the Biltmore Village; (2) services both short and long trip lengths; (3) incorporates a variety of travel modes (automobile, pedestrian, rail and transit); and (4) enhances the historic nature of the area.

Project objectives are to (1) support recommendations in the Biltmore Village Development Plan; (2) enhance way-finding and signage; (3) encourage increased pedestrian movement; (4) address seasonal parking needs; (5) improve safety at high accident locations; (6) accommodate north/south traffic movement; (7) separate through traffic from local traffic internal to the Biltmore Village; and (8) incorporate planned passenger rail facility.

The Biltmore Village Development Plan Goals include (1) economic development goals - (a) phased program for immediate public improvements; and (b) development program geared toward pedestrians/historic plan; (2) land use planning goals - (a) re-establish and strengthen image of original historic character; (b) recognize and restore the historic examples of Olmstead's plan; (c) develop a transportation plan; and (d) mitigate the negative impact of vehicular traffic on the historic plan and the pedestrian; and (3) historic preservation goals - (a) protect and maintain existing historic resources; and (b) reclaim lost elements of the Hunt/Olmstead plan.

The Biltmore Village Development Plan Recommendations include (1) redirect traffic flow on Village side streets to facilitate access to shops; (2) examine the need for three vs. four lanes on Biltmore Avenue and All Souls Crescent; (3) synchronize traffic signals to facilitate commuter traffic; (4) redirect through traffic around the Village on Lula Street by-pass and extension to Swannanoa River Road; (5) discourage through traffic along pedestrian oriented streets; (6) recapture original right-of-way along Brook Street; and (7) repair and upgrade local streets.

By use of maps, Mr. Day reviewed with Council the recommended improvements.

Recommended short-term improvements (1999-2004) include: (1) provide sidewalk improvements and ADA compatibility; (2) provide pedestrian crossings at several locations along Lodge Street/Brook Street; (3) consider the use of zebra striping to clearly indicate crosswalks; (4) provide way-finding signs to tourist destinations; (5) perform signal warrant study for Biltmore Avenue at Thompson Street intersection; (6) provide shuttle/trolley connection to downtown Asheville; (7) implement parking improvements recommended in Comprehensive Parking Study (consider surface parking lot along Brook Street in place of surface lot along All Souls Crescent); and (8) modify signal operations to favor Biltmore Avenue/McDowell Street concurrent movements.

Recommended mid-term improvements (2005-2010) include: (1) provide pedestrian connections across railroad tracks to north; (2) install raised pedestrian crossings of Lodge Street/Brook Street; (3) provide directional signage from I-40 to Asheville and Biltmore Village; (4) create a "gateway" entrance to Village area on Biltmore Avenue to All Souls Crescent and Lodge Street; (5) reduce number of travel lanes on Biltmore Avenue to two lanes with a pedestrian refuse area at intersections; (6) provide parking structure north of Brook Street at All Souls Crescent as recommended in the Comprehensive Parking Study; (7) provide access to parking structure from Sweeten Creek Road; (8) install I-40 at Sweeten Creek interchange; (9) improve Sweeten Creek Road from I-40 to Biltmore Village; (10) install connection from Sweeten Creek Road to Swannanoa River Road; and (11) provide connection of Sweeten Creek Road to Brook Street for local access only.

Recommended long-term improvements (2010-2020) include: (1) replace concrete sidewalks with brick or paver sidewalks; (2) provide passenger rail terminal with parking in the structure planned for the east side of the Village; (3) facilitate pedestrian connections to passenger rail terminal and commercial areas to the north; (4) provide a parking structure on the west side of the Village as recommended in the Comprehensive Parking Study; and (5) provide express transit service between Biltmore Village and downtown Asheville during peak travel periods.

Mr. Ray said that he would look into the question raised by Councilwoman Field about whether the new signalization for the new bridge on McDowell Street will make it more difficult to drive on McDowell Street.

It was the consensus of City Council to direct staff to proceed with gathering input from the public.

AMENDMENT TO SIDEWALK VENDOR REGULATIONS

Ms. Terry Clevenger, City Development Manager, said that this is the consideration of approving revised changes to the ordinance regulating pushcarts and outdoor dining areas and adding regulations for outdoor merchandise.

8

The City of Asheville has an ordinance permitting outdoor dining, pushcarts, and outdoor entertainment in the Central Business District and Biltmore Village. A Sidewalk Usage Team was established to recommend updates to this ordinance and private uses of public sidewalk space in the Central Business District. Since Biltmore Village has different guidelines for its historic district, staff will meet with HRC and the businesses as part of the public process to ensure the recommended changes to this ordinance comply with Biltmore Village's guidelines.

The Sidewalk Usage Team includes representatives from Planning and Development, Police, Public Works, the Downtown Commission's Streetscape Committee and the Asheville Downtown Association. Input from permit holders, downtown businesses, residents and users was gathered through surveys (direct mail and interception), a public input session and comments from the public documented during the past year. The Sidewalk Usage Team has been meeting during the past several months to make recommendations to update the ordinance and propose fees that closer reflect administrative costs.

The Team recommendations pertaining to sidewalk usage include:

- requirement that merchants/vendors apply for and obtain an encroachment agreement authorizing the structure or merchandise on the sidewalk or public space;
- requirement for permits for pushcarts, sidewalk entertainment, and outdoor merchandise areas;
- all signage for such uses must comply with the Sign Ordinance (Article XIII of Chapter 7); and
- implementation of fees associated with permits for use of such right-of-way and other public spaces.

As downtown continues to thrive, pedestrian traffic and the demand on public space has increased. Given these dynamics, the City should clearly define pedestrian passageway and establish boundaries of private use of public space. In addition to the changes in the ordinance, the team also studied the use of A-frame (sandwich board) signs, which are currently prohibited by the current sign ordinance, and is recommending they continue not to be permitted by the sign ordinance.

Following presentation of these recommendations to City Council, staff proposes to conduct a public input session to solicit input on the recommendations. This item is proposed to then be presented to City Council on June 22, 1999, for adoption, with an effective date of July 1, 1999.

The Sidewalk Usage Team and Planning and Development staff responsible for implementing the program recommends a public process to gather input from the stakeholders regarding the proposed changes to the ordinance. Any comments or proposed changes can then be brought back to City Council for consideration of approval on June 22, 1999.

Discussion surrounded the fees associated with permits for use of such right-of-way and other public spaces and also the responsibility of the merchants who have outdoor dining areas.

Mayor Sitnick asked that the record show that City Council has received this information and instructs the City Manager to place this item on the June 22, 1999, City Council agenda.

CABLE RATE REVIEW

Ms. Patsy Meldrum, Assistant City Attorney, said that this is the consideration of a resolution issuing a written decision in response to the filing of an FCC Form 1240 by Brenmor

Cable Partners, L.P. (d/b/a InterMedia) for monthly rates for the basic service tier on its cable system for the time period of June 1, 1999, to May 31, 2000.

Pursuant to federal law and the regulations of the Federal Communications Commission ("FCC"), the City of Asheville ("City") is certified to regulate basic service rates and charges of Brenmor Cable Partners, L.P. ("InterMedia") in the franchised area of InterMedia within the corporate limits of the City. By letter dated February 26, 1999, received by the City on March 1, 1999, InterMedia filed FCC Forms 1205 and 1240, both dated February 25, 1999, for the purpose of justifying its monthly rates and hourly service charges for cable services on the basic service tier on its cable system for the time period of June 1, 1999, to May 31, 2000.

The new maximum permitted rate calculated for the monthly rate on the basic service tier by InterMedia on the FCC Form 1240 is $10.3579. InterMedia proposes to continue charging the current monthly rate of $11.91 for the time period of June 1, 1999, to May 31, 2000, which amount exceeds the maximum permitted rate, by relying upon the filing of an FCC Form 1235 ("abbreviated cost of service" filing) submitted to the City on May 16, 1997. The FCC Form 1235 determined that an increase in the basic service tier rate of $1.96 per month would be permitted as of the time of filing, based upon an upgrade or rebuild of the cable system. The maximum permitted rate of $10.3579 and the increase in the rate of $1.96 per month based upon the filing of the FCC Form 1235 would combine to be a monthly rate of $12.32, which is in excess of the current basic service tier rate charged in the amount of $11.91 per month.

The filing of the FCC Form 1235 by InterMedia with the City on May 16, 1997, predated the completion of the upgrade or rebuild of the cable system and was filed for "pre-approval" purposes. FCC requirements for the FCC Form 1235 are that, if the pre-approval option is exercised, the cable system operator must file the FCC Form 1235 again following the end of the month in which the upgraded cable services become available and are providing benefits to all customers of regulated services in the filing entity, using actual costs where applicable. The upgrade or rebuild of the cable system was completed some time during the summer of 1998, but InterMedia has not yet filed with the City another FCC Form 1235 after the completion of the upgrade or rebuild of the cable system.

After the filing of the FCC Form 1235 by InterMedia on May 16, 1997, the City Council adopted Resolution No. 97-213, which directed InterMedia to keep an accurate account of all amounts received by reason of the rate increase requested pursuant to its FCC Form 1235 filing, in order that the City may, at its option, subsequently issue a written decision regarding the rate request and determining whether or not refunds should be provided to subscribers after completion of the upgrade or rebuild of the cable system. This resolution would order InterMedia to file another FCC Form 1235 in order for the City to complete its review of the monthly rate attributed to the rebuild of the system.

City staff recommends City Council adopt the resolution which would order InterMedia to file another FCC Form 1235 in order for the City to complete its review of the monthly rate attributed to the rebuild of the system.

Ms. Sabrina Jackson, Customer Service Representative of InterMedia, said that even though the rebuild was completed in August of 1998 with the channels being activated, they continued to incur the expenses of the rebuild up until last month.

Mayor Sitnick asked that the record show that City Council has received this information and instructs the City Manager to place this item on the next formal City Council agenda.

CONVERSION OF WALNUT STREET TO ONE-WAY TRAFFIC

Councilwoman Field voiced strong opposition to the conversion of Walnut Street to one-way traffic, especially without any input from the Downtown Commission, downtown merchants, or the Merchants Action Coalition. She said that two particular problems include (1) trucks not being able to make the turn into a driveway for dumpster pickups, and (2) people coming out of the Walnut Street side of the Civic Center Parking Garage have a difficult time in reaching the front of the Civic Center. She also expressed concern over one-way signs being placed in the middle of the sidewalks. She felt that Walnut Street has had two-way traffic on it for 50 years and was concerned that there was no process followed prior to making this change.

City Engineer Cathy Ball said that the City has been looking at this for some time and felt that from a public safety standpoint, changing Walnut Street to one way was the appropriate action to take.

Traffic Engineer Mike Moule said that they had planned to go through a full public input process, however, because a sidewalk barrier was installed, they had an immediate concern for site visibility at that intersection. He said that he would proceed with the public input process on whether to make the change permanent or not.

REPORTS ON BOARDS/COMMISSIONS

Vice-Mayor Hay, Chair of the Board & Commission Committee, said that the Committee met and recommends the following:

Reappointment of Sally Rhoades, Susan Dodson and Michael Hyatt to the Carriage Permit Advisory Board, subject to their meeting the attendance requirements and their interest in being reappointed.

Reappointment of John Ingersoll and Jimmy Hungerford to the Citizens/Police Advisory Committee, subject to their meeting the attendance requirements and their interest in being reappointed. Lonnie Blair and Janice Van Dine have both served two full successive terms and are not eligible for reappointment. Their positions will be filled through the interview process.

Reappointment of Robert Swan and Richard Bowman to the Civic Center Commission, subject to their meeting the attendance requirements and their interest in being reappointed. Tom Muncy has served two full successive terms and is not eligible for reappointment. His position will be filled through the interview process.

Reappointment of Nancy Kauffman to the Civil Service Board, subject to her meeting the attendance requirements and her interest in being reappointed.

Reappointment of Tommy Sellers to the Crime-Stoppers Board of Directors, subject to his meeting the attendance requirements and his interest in being reappointed. Steve Curtis and Grant Osborne have both served two full successive terms and are not eligible for reappointment. Their positions will be filled through the interview process.

It was the consensus of City Council instruct the City Clerk to prepare the proper paperwork to appoint Carol King as Chair to the Asheville Downtown Commission until her successor has been appointed.

Reappointment of John Hayes to the Buncombe County Drug Commission, subject to his meeting the attendance requirements and his interest in being reappointed.

With regard to the two vacancies on the Film Board, Councilman Cloninger (member on the Film Board) was instructed to check with the Film Board at their next meeting to see if they want to reduce their membership to 13 or for City Council to interview for the two vacancies.

Reappointment of Jody Kuhne and Fred Eggerton to the Historic Resources Commission, subject to their meeting the attendance requirements and their interest in being reappointed.

With regard to the Housing Authority, these are the Mayor's appointment and she noted that there are three positions to be filed, with one reappointment possible.

Reappointment of Charles Bullman to the Recreation Board, subject to his meeting the attendance requirements and his interest in being reappointed. William Estes and Lewis Isaac have both served two full successive terms and are not eligible for reappointment. Their positions will be filled through the interview process.

Reappointment of Margaret Tinkler, Ann Babcock and Jerry Bailey, subject to their meeting the attendance requirements and their interest in being reappointed. Peter Loewer has served two full successive terms and is not eligible for reappointment. His position will be filled through the interview process.

With regard to the vacancy on the Regional Water Authority of Asheville, Buncombe and Henderson, it was the consensus of City Council to appoint a City Council member to this Authority, noting that both the Buncombe County Commissioners and the Henderson County Commissioners each have a Commission member appointed to the Authority. Since Councilmen Cobb and Sellers were both interested in serving on this Authority, they would talk with the City Manager (who is Secretary to the Authority) and others to find out the detailed responsibilities of the Authority. Mayor Sitnick said that she supported a City Council member being appointed to the Authority, however, now is also a good time for an appointment of someone who has scientific knowledge about water quality, etc., and thought that Dr. Rick Maas, even though he is a County resident, would be a good appointment.

Councilman Cloninger agreed to serve as the City Council liaison to the Broadway Corridor Plan Advisory Committee.

GROVE ARCADE PARKING

Mr. Aaron Zaresky expressed concern over the newspaper article that said the Grove Arcade Parking was an unfunded request in the 1999-2000 budget. He asked City Council to reaffirm that there is a commitment to build a parking deck adjacent to the Grove Arcade.

City Manager Westbrook said that City Council has an obligation with the Grove Arcade and has not yet considered how to fund the parking. This issue will be discussed as part of the budget worksession. Staff will report back to City Council with a final recommendation on the funding recommendations before September 30, 1999.

ADJOURNMENT:

Mayor Sitnick adjourned the meeting at 6:40 p.m.

Magdalen Burleson
CITY CLERK

Leni Sitnick
MAYOR

12

Tuesday - May 25, 1999 - 5:00 p.m.

Regular Meeting

Present: Mayor Leni Sitnick, Presiding; Vice-Mayor Edward C. Hay Jr.; Councilman M. Charles Cloninger; Councilman Earl Cobb; Councilwoman Barbara Field; and Councilman Thomas G. Sellers; City Attorney Robert W. Oast Jr.; City Manager James L. Westbrook Jr.; and City Clerk Magdalen Burleson

Absent: Councilman O.T. Tomes

INVOCATION

Mayor Sitnick gave the invocation.

I. PROCLAMATIONS:

A. RECOGNITION OF WINNING PLAYERS AND COACHES FROM THE INVITATIONAL INTERNATIONAL BASKETBALL TOURNAMENT IN ASHEVILLE'S SISTER CITY SAUMUR, FRANCE

Mayor Sitnick recognized Dr. Robert Merrill, the players and coaches who won three trophies - the Division Trophy, the Coach's Trophy and the Third Place Trophy while attending the first Invitational International Basketball Tournament in Asheville's Sister City Saumur, France.

B. RESOLUTION NO. 99-72 - RESOLUTION OF APPRECIATION TO RETIRING EMPLOYEE FLOYD WORLEY

City Manager Westbrook read a resolution of appreciation to Floyd Worley who has been employed by the City of Asheville for 30 years. Mr. Worley has requested retirement from his position as Meter Technician in the Water Resources Department.

Resolution No. 99-72 was adopted by acclamation.

RESOLUTION BOOK NO. 25 - PAGE 206

C. PROCLAMATION PROCLAIMING "ASHEVILLE AN INTERNATIONAL PEACE ZONE AT THE YEAR 2000"

Mayor Sitnick read the proclamation proclaiming "Asheville an International Peace Zone at the Year 2000." She presented the proclamation to Ms. Lexie Ross, Ms. Linda McClain and Mrs. James McClure Clarke, who briefed City Council on the significance of the proclamation.

D. PROCLAMATION PROCLAIMING MAY 22-28, 1999, AS "NATIONAL SAFE BOATING WEEK"

Vice-Mayor Hay read the proclamation proclaiming the week of May 22-28, 1999, as "National Safe Boating Week" in the City of Asheville. He presented the proclamation to Mr. Kim Latta, who briefed City Council on the some activities taking place during the week.

E. PROCLAMATION PROCLAIMING MAY 27, 1999, AS "OLDER AMERICANS DAY"

Councilman Cobb read the proclamation proclaiming Thursday, May 27, 1999, as "Older Americans Day" in the City of Asheville. He presented the proclamation to Mr. Dick Patzfahl, Executive Director of the Buncombe County Council on Aging, who briefed City Council on the some activities taking place during the day.

F. PROCLAMATION PROCLAIMING JUNE 6-12, 1999, AS "NATIONAL HOMEOWNERSHIP WEEK"

Councilwoman Field read the proclamation proclaiming the week of June 6-12, 1999, as "National Homeownership Week" in the City of Asheville. She presented the proclamation to Ms. Geraldine Melendez, President of the West End/Clingman Avenue Neighborhood Association, who briefed City Council on the some activities taking place during the week.

II. CONSENT:

A. MOTION SETTING A PUBLIC HEARING ON JUNE 8, 1999, RELATIVE TO THE 1999-2000 ANNUAL OPERATING BUDGET

B. RESOLUTION NO. 99-73 - RESOLUTION AUTHORIZING THE SALE OF DISPOSAL PARCEL 59X LOCATED NEAR THE CORNER OF ASHELAND AVENUE AND PHIFER STREET TO R. BALLARD INVESTMENTS IN THE AMOUNT OF $139,000

Summary: The consideration of a resolution authorizing the Mayor to execute necessary documents for the conveyance of Disposal Parcel 59X located near the corner of Asheland Avenue and Phifer Street to Rex Ballard in the amount of $149,000.

On May 11, 1999, the City Council directed the City Clerk to advertise for upset bids on Disposal Parcel 59X. The advertisement ran in the Asheville Citizen-Times on May 14, 1999, as provided in N. C. Gen. Stat. sec. 160A-269. No response was received. Therefore, the offer to purchase from Rex Ballard in the amount of $139,000.00 was not upset and the sale to Rex Ballard should be approved.

Community Development staff recommends adoption of the resolution.

RESOLUTION BOOK NO. 25 - PAGE 207

C. ORDINANCE NO. 2573 - BUDGET AMENDMENT TO APPROPRIATE FUNDS RECEIVED FROM THE ASHEVILLE-BUNCOMBE LIBRARY SYSTEM FOR IMPROVEMENTS TO JOINT CITY/LIBRARY FACILITIES

Summary: The consideration of a budget amendment, in the amount of $6,497, to appropriate funds received from the Asheville-Buncombe Library System back into the capital account for improvements to joint City/Library facilities.

The Parks and Recreation Department has made improvements at the North Asheville Community Center/Library. The Asheville-Buncombe Library has agreed to pay for 1/3 of the cost for these improvements. In addition, the Parks and Recreation staff will be making modifications to the Murphy-Oakley Community Center/Library to include a wheelchair ramp and handrail. The library has agreed to pay for 1/3 of these improvements as well. A budget amendment totaling $6,497 is requested to appropriate these funds into the proper account so that staff can proceed with this work.

The Parks and Recreation Department is requesting City Council's approval for the appropriation of $6,497 received from the Asheville-Buncombe Library System into the capital account for improvements to joint City/Library facilities.

ORDINANCE BOOK NO. 17 - PAGE 328

D. ORDINANCE NO. 2574 - BUDGET AMENDMENT FOR THE FIRE BELL PROJECT ATOP THE CITY HALL BUILDING

Summary: The consideration of a budget amendment, in the amount of $15,000, for the Fire Bell Project.

The Friends of the Fire Bell/Chimes Committee has instituted a project to automate the Fire Bell atop the Asheville City Building. Once electrified the bell will strike the hour and the half-hour. Total cost of the project is estimated to be $15,000 with funding to be provided entirely from private donations/grants. This budget amendment will establish a Grant Project Budget totaling $15,000 to allow for the undertaking of the project.

City staff recommends that the budget for the Fire Bell Project in the amount of $15,000 be approved.

ORDINANCE BOOK NO. 17 - PAGE 330

E. ORDINANCE NO. 2575 - BUDGET AMENDMENT FOR IMPROVEMENTS FOR MAGNOLIA PARK

Summary: The consideration of a budget amendment, in the amount of $15,000, for improvements to Magnolia Park.

The Asheville-Buncombe Historic Resources Commission has received a grant from the Janirve Foundation in the amount of $15,000 which is planned for improvements to Magnolia Park. These improvements consist of (1) constructing and installing 250 feet of classic-styled handmade metal fencing around the front periphery of the park; and (2) constructing a concrete stair and corner entrance to the park at the southeast corner of the park on Magnolia Street. This budget amendment establishes a project budget in the amount of $15,000 for the improvements.

City staff recommends that the budget amendment for the Magnolia Park Project in the amount of $15,000 be approved.

ORDINANCE BOOK NO. 17 - PAGE 332

F. RESOLUTION NO. 99-74 - RESOLUTION WAIVING RIGHT-OF-WAY CUT FEES FOR ADOPT-A-SPOT PROGRAM FOR QUALITY FORWARD

Summary: The consideration of waiving the right-of-way Permit Fee for "Adopt-A-Spot" Program sponsored by Quality Forward.

Quality Forward is in the process of working with other agencies to beautify Asheville by planting landscaping in various locations in the City on City right-of-way. Quality Forward has

15

completed two projects and has plans to complete two additional locations at the intersections of Market and Walnut Streets and O.Henry and Haywood Streets during this year. According to our policy, the approximate cost of the permit for each of the locations would be $150. Based on the total number of projects projected, the estimated revenue reduction would be $600. Quality Forward has requested that the fee for these permits be waived. Due to the wording of the ordinance this fee can only be waived by City Council.

and disturbing activity within the right-of-way requires a right-of-way cut permit from the Engineering Department per City Ordinance Section 16-36. The fee for this permit is based upon the amount of area disturbed in the right-of-way.

t is important for Quality Forward to obtain a permit so that the Engineering Department staff can inspect the site to insure that no harm will be done to the infrastructure. Additionally, it is important to obtain records about work that has been performed in the right-of-way in the event problems occur in the future.

Staff recommends waiving the fee but still requiring that Quality Forward obtain a right-of-way permit so that the sites may be inspected by City staff.

Staff recommends that the City Council waive the right-of-way Permit Fee for "Adopt-A-Spot" Program sponsored by Quality Forward, to include the two projects that have been completed, the two projects planned and any future projects that are included in this program.

RESOLUTION BOOK NO. 25 - PAGE 208

G. RESOLUTION NO. 99-75 - RESOLUTION MAKING PROVISIONS FOR THE POSSESSION AND CONSUMPTION OF MALT BEVERAGES AND/OR UNFORTIFIED WIN AT THE ASHEVILLE DOWNTOWN ASSOCIATION'S 1999 EVENTS CO-SPONSORED BY THE CITY OF ASHEVILLE

Summary: The consideration of a resolution making provisions for the possession and consumption of malt beverages and/or unfortified wine at the Asheville Downtown Association's 1999 events co-sponsored by the City of Asheville.

The Parks and Recreation Department recommends that the possession of open containers of malt beverages and/or unfortified wine and the consumption of malt beverages and/or unfortified wine be allowed for the 1999 events of the Asheville Downtown Association at the locations and times specified in the resolution.

For many years, the Asheville Downtown Association has co-sponsored with the City of Asheville events to bring both the public and visitors to the Downtown area. These events include: Moonlight Over Downtown, Honda Hoot Public Rally, and four Downtown After Five activities. The Asheville Downtown Association has requested permission to allow possession and consumption of beer and wine during these events as they have been allowed in the past.

The Asheville Parks and Recreation Department recommends City Council approve the resolution.

RESOLUTION BOOK NO. 25 - PAGE 209

H. RESOLUTION NO. 99-76 - RESOLUTION RELATIVE TO THE PARKS, RECREATION AND GREENWAYS BOND REFERENDUM

Summary: The consideration of a resolution certifying and declaring the results of the special bond referendum on the Bond Order Authorizing the Issuance of $18,000,000 General Obligation Parks, Recreation and Greenway Bonds held for the City of Asheville on May 11, 1999.

At the request of the City Council of the City of Asheville, the Buncombe County Board of Elections conducted a Special Bond Election on May 11, 1999, regarding the Bond Order Authorizing the Issuance of $18,000,000 General Obligation Parks, Recreation and Greenway Bonds. The Board of Elections' report of results indicating there were 41,411 registered voters; 5,681 of whom turned out to vote; 2,656 cast "yes" votes and 3,022 voted "no". The proposed resolution certifies and declares the results of the referendum and directs the City Clerk to publish the certified results in accordance with the law.

Staff recommends the City Council adopt the resolution.

RESOLUTION BOOK NO. 25 - PAGE 211

I. RESOLUTION NO. 99-77 - RESOLUTION APPOINTING CAROL KING AS CHAIR OF THE ASHEVILLE DOWNTOWN COMMISSION

Summary: Scott Jarvis has resigned as a member and Chair of the Asheville Downtown Commission. This resolution will appoint Ms. Carol King as Chair until her term expires, or until her successor has been duly appointed and qualified.

RESOLUTION BOOK NO. 25 - PAGE 212

Mayor Sitnick said that members of Council have been previously furnished with a copy of the resolutions and ordinances and the Consent Agenda and they would not be read.

Councilman Cloninger moved for the adoption of the Consent Agenda. This motion was seconded by Councilwoman Field and carried unanimously.

III. PUBLIC HEARINGS:

A. PUBLIC HEARING RELATIVE TO THE MINIMUM HOUSING CODE AMENDMENTS AND ASSOCIATED FEES

ORDINANCE NO. 2576 - ORDINANCE AMENDING THE MINIMUM HOUSING CODE OF THE CITY OF ASHEVILLE

RESOLUTION NO. 99-78 - RESOLUTION AMENDING THE FEES AND CHARGES MANUAL

Mayor Sitnick opened the public hearing at 5:42 p.m.

City Clerk Burleson presented the notice to the public setting the time and date of the public hearing.

Mr. Terry Summey, Director of Building Safety, said that during the past six months, staff and some industry and nonprofit agency representatives have been meeting and discussing changes needed for the enforcement of the Minimum Housing Code. In addition, during the last four months the changes have been discussed at the Council's Housing & Community Development Committee.

The changes being recommended include the following:

- Technical changes to the Code (supported by the representatives);
- Changes to the schedule for inspecting rental properties (no consensus agreement reached);
- Increase staffing support for administering the code;
- Additional and/or changes to the administrative and permits fees (to pay for the additional staff being requested);
- Implement on July 1, 1999, no water turn-ons until rental units have met the Housing Code; and
- Increase promotion of the Code and any approved changes

He reviewed the following summary of Code changes: (1) New definition: Deflection; (2) Replaced definition: Dilapidated; (3) Clarification on: Bathroom Exhaust Fans; (4) New section: Dryer Vents (effective 7/1/04); (5) New section: Range Hoods; (6) Reduced: Number of receptacles for small kitchens; (7) Changed: Increased layers of roofing to 3; (8) Clarified: That attics are to be adequately ventilated; (9) New section: Security bars on windows (means of egress from bedrooms; (10) Revised: Landings to comply with N.C. State Building Code; (11) Editorial changes: On protective railings for stairs and porches; (12) New section: Security bars on windows; (13) Corrected spelling: Includes no "delamination" or splitting of wood doors; (14) Clarified: When screens are required on windows; (15) New exception: Added exemption to ceiling heights for units built prior to 1936; (16) Clarified: What size window is required for means of egress from occupancies below grade; (17) Corrected: That Vol. 1 Section 19 should be changed to Vol. 1 or Vol. 1 Chapter 4 as N.C. State Building Code specifies; (18) Added two alternate schedules: (a) The revised schedules recommend sampling a percentage of all units owned by a property owner; the units to be inspected will be determined by the City; this benefits the landlord who invests mainly in single family rental units; (b) If the owner can produce current documentation of a regular annual inspection and maintenance schedule of each unit, using a form approved by the City and adequate to maintain the units up to the standards of the Housing Code: the units inspected would be reduced from (i) 15% to 10% - for units less than 15 years old; and (ii) 50% to 20% - for units 15 or more years old; (19) Added: Correction order; findings of fact and order; and (20) Addition: After January 1, 2000, an owner who has not obtained a housing certificate within the 5 year rental schedule shall be assessed a penalty of $20 for each month that a housing certificate has not been obtained.

He reviewed the following proposed Fees & Charges Manual changes: (1) units inspected during the five year schedule will have the current $20 Housing Certificate fee waived if the unit passes the initial inspection; (2) units inspected after the five year schedule will have a Certificate fee of $100; and (3) permit fees will be reduced from $45 to $25 per trade (building, electrical, mechanical, and plumbing) at each building where housing code corrections are made.

Current staffing to enforce the Housing Code includes: 3 housing inspectors, 1 housing code coordinator, 1 secretary, 1 part-time secretary (in City Hall Customer Services Division), and 15 third party companies (21 inspectors). The proposed additional staffing will include: 1 housing inspector, one secretary and one research assistant.

Key enforcement tools include (1) no water turn-ons will be approved after July 1, 1999, unless the rental unit has all housing inspection work completed and the housing fees paid; and (2) GIS mapping of the City's residential units (identification of all rental properties).

Key benefits of the changes include: (1) clean up of the text to the Code; (2) adopts an inspection schedule that benefits landlords with multiple units at different locations; (3) reduces the number of units to be inspected if property owners utilize and document an approved annual inspection program on all units which indicates training of their property managers; (4) adopts

18

reduced fees for permits and properties that are maintained up to Code; and (5) adopts a new civil penalty for rental units receiving certificates after five years (effective January 1, 2000).

Both ordinance and amendment to the fees and charges manual would be effective July 1, 1999.

Mr. Summey answered various questions and comments from Council, some being, but are not limited to: how were out of town landlords notified, what types of notice was used in the past five years to let landlords know about the inspection schedule; what tools does the City use to identify the worst units; what are the consequences of the $100 per unit fee was waived for 90 days and how much revenue would be lost; and are there additional inspectors that can be certified to help get the inspections completed by July 1, 1999.

The following individuals spoke in support of the enforcement of the Minimum Housing Code amendments and the new administrative fee schedule:

Mr. David Nash
Mr. Bruce Armstrong
Mr. Jim Barrett, representing the Affordable Housing Coalition (supports Code amendments, however, supports 100% inspections to single family rental units, not sampling a percentage of units to be inspected)
Mr. Joseph Smith
Ms. Geraldine Melendez
Mr. Al Mojonnier (supports Affordable Housing Coalition position)
Mr. Richard Nantelle
Ms. Amy Ray
Ms. Beth Maczka, Executive Director of the Affordable Housing Coalition (supports Affordable Housing Coalition position)
Mr. John Hayes
Ms. Barbara Wallace

The following individuals spoke in support of the enforcement of the Minimum Housing Code amendments generally, however, most requested the $100 per unit fee be waived for 90 days if the inspection was performed prior to July 1, 1999:

Mr. Jody Kuhne
Mr. J. T. Black (felt Code violates Article IV of the Constitution)
Ms. Bonnie Bailey, representing Greater Asheville Area Apartment Association (feels that City should develop a plan to reward property owners who inspect their units on a regular basis so that the property owner doesn't have to pay for passing inspections).
Mr. Phillip Price
Mr. Tom Leslie
Ms. Judy Carter
Ms. Molly Sandridge
Ms. Betty Crawford
Mr. Ron Filka
Mr. Mike Summey (opposed to the way the Code is administered)

There was discussion relative to the change of no water turn-ons being approved after July 1, 1999, unless the rental unit has obtained all housing inspection work completed and the housing fees paid.

Mr. Dan Pearson, third party inspector, said that due to the procrastination of the landlords, they have put the inspectors in a time bind. He said they will do as many of the inspections as possible, however, they will not be able to complete all the inspections prior to the July 1, 1999, deadline.

Mr. Ron Filka suggested that due to the shortage of manpower, instead of the all the units being inspected by July 1, 1999, that the City use a system similar to the driver's license system in that portions of the community be inspected by July 1, 1999, and then another portion of the community be inspected a little later, and so forth. That way, the current manpower would be available to concentrate their efforts in certain parts of the community at one time.

Mayor Sitnick closed the public hearing at 7:45 p.m.

Councilwoman Field, Chair of the Housing & Community Development Committee, stated that she strongly supports affordable and safe housing and she wants to get all of the units in the City inspected and bring as many units up to Code as possible. She also realizes the need to have the fees support the cost of increased staff. However, she doesn't think that we've solved the enforcement problem and would like the chance to talk with staff a little more or remand it back to the Housing & Community Development Committee to see if they can come up with a solution.

Vice-Mayor Hay felt that the City has worked to raise the awareness level of the July 1, 1999, deadline for at least 2-3 years. He doesn't hear that the landlords saying that they can't get their units inspected by July 1, only that they can't get the work done by July 1 and they don't want to be penalized for that. He would support the $100 per unit fee be waived for 90 days if the inspection was performed prior to July 1, 1999. Our goal is not to penalize anyone or to generate money, but to identify the units and have them inspected.

Councilman Cobb supported keeping the July 1, 1999, deadline and looking at a 90 day grace period for the landlords to get their work done.

Mr. Summey said that he didn't think the delay would affect that revenue estimate this first year but definitely next budget year they will need to look at the fees.

City Manager Westbrook said that Council's guidance to staff is to use fees so that the property taxes don't go to support activities which should be supported by fees. He said we will be watching this all through the year to make sure that the fees are covering the service and if they are not, we will report it back to Council.

At the request of Councilwoman Field, Mr. Summey explained the recommendation of the Housing & Community Development Committee regarding the sampling a percentage of all units owned by a property owner, stressing that the units to be inspected will be determined by the City and that this will benefit the landlord who invests mainly in single family rental units. If the owner can produce current documentation of a regular annual inspection and maintenance schedule of each unit (using a form approved by the City and adequate to maintain the units up to the standards of the Housing Code), the units inspected would be reduced from 15% to 10% for units less than 15 years old and 50% to 20% for units 15 or more years old

Mayor Sitnick supported 100% of single family rental units be inspected, and not a sampling of a percentage of units.

Mayor Sitnick said that members of Council have previously received a copy of the ordinance and the resolution and they would not be read.

Vice-Mayor Hay moved for the adoption of Ordinance No. 2576. This motion was seconded by Councilwoman Field and carried unanimously.

ORDINANCE BOOK NO. 17 - PAGE 334

Vice-Mayor Hay moved for the adoption of Resolution No. 99-78, with the following amendment: "For each rental unit receiving housing certificates after the required 5 year inspection schedule in the Housing Code, a certificate fee of $100 per unit inspected will be charged; however, for those units for which an inspection was conducted prior to July 1, 1999, but the certificate is not issued until prior to October 1, 1999, the $100 per unit fee will be waived. After 5-1/2 years, an additional fee of $20 per month per unit will be required." This motion was seconded by Councilman Cloninger and carried unanimously.

RESOLUTION BOOK NO. 25 - PAGE 213

B. PUBLIC HEARING TO CONSIDER REZONING A ONE FOOT STRIP OF PROPERTIES ABUTTING THE NORTH END OF SOUTH GROVE STREET FROM CENTRAL BUSINESS DISTRICT AND REGIONAL BUSINESS DISTRICT TO RS-8 RESIDENTIAL SINGLE-FAMILY HIGH DENSITY DISTRICT

City Attorney Oast said that when it became apparent that Councilman Tomes would not be at this meeting, a concern arose as to this public hearing to consider the rezoning of a one-foot strip of properties abutting the north end of South Grove Street from Central Business District and Regional Business District to RS-8 Residential Single Family High Density District. A valid protest petition has been submitted, thus invoking the 3/4's vote of Council, which would require a unanimous vote (6-0) of City Council to adopt this ordinance.

He also said that under Unfinished Business, there is a vote on the second reading of an ordinance to rezone a one-foot strip along five lots on South Grove Street from Office Business District to RS-8 Residential Single Family High Density District.

City Attorney Oast said that in recognition of some of the concerns that City Council raised at the public hearing held on May 11, 1999, staff is willing to undertake a reconsideration of some of the recommendations for dealing with some of the issues that City Council identified and were identified at the public hearing. He said the process by which City Council got to the point of considering this rezoning was one that was driven by concerns expressed by the neighborhood and the solutions that were possible to work, but perhaps not the best solution. In talking with the Planning staff and his office staff, he felt they could develop some solutions that will work possibly better in these kinds of situations and may enable Council to avoid setting a precedent where these kind of one-foot zoning strips become the norm.

Upon inquiry of Vice-Mayor Hay, City Attorney Oast said that in tabling the matter, it preserves Council's option to proceed with the rezoning as proposed or to consider whatever alternatives staff might come up with.

Mr. Craig Justus, attorney representing the Asheville Women's Medical Center, said that he didn't see any point to table this issue because the one-foot concept strip is wrong and they think that Council will hopefully recognize that it is a bad concept from a planning standpoint and it's not fair to the property owners. He felt City Council could deal with the issue of the one-foot strip tonight and if Council rejects it, it still could come back again before City Council at some later point in time. To leave it open indefinitely leaves them somewhat in a lurch. However, if there is enough concern that City Council has not seen that the one-foot strip is not a good technique, then he would be willing to table the matters.

Councilman Cloninger also that a message should be sent to the Planning & Zoning Commission that the one-foot zoning strip is not a good tool to use.

Councilman Cloninger moved to table this public hearing the rezoning of a one-foot strip of properties abutting the north end of South Grove Street from Central Business District and Regional Business District to RS-8 Residential Single Family High Density District. This motion was seconded by Councilman Cobb and carried unanimously.

At 8:26 p.m., Mayor Sitnick announced a short break.

C. PUBLIC HEARING RELATIVE TO ADOPTION OF A SMALL AREA PLAN KNOWN AS THE HAYWOOD ROAD CORRIDOR PLAN AS AN ADDENDUM TO THE COMPREHENSIVE PLAN FOR THE CITY OF ASHEVILLE (ASHEVILLE CITY 2010 PLAN)

RESOLUTION NO. 99-79 - RESOLUTION ADOPTING A SMALL AREA PLAN KNOWN AS THE HAYWOOD ROAD CORRIDOR PLAN AS AN ADDENDUM TO THE COMPREHENSIVE PLAN FOR THE CITY OF ASHEVILLE (ASHEVILLE CITY 2010 PLAN)

Mayor Sitnick opened the public hearing at 8:47 p.m.

City Clerk Burleson presented the notice to the public setting the time and date of the public hearing.

Mr. Carl Ownbey, Urban Planner, said that this is the consideration of adoption of the Haywood Road Corridor Plan, a small area plan developed by the Planning and Development Department for Haywood Road from Patton Avenue to the French Broad River.

In July of 1998, the Asheville City Council directed the Planning and Development Department to develop a small area plan for the Haywood Road Corridor. Staff has completed a draft plan for the corridor which is largely based upon input and participation from various stakeholders of the community. This input and participation included several advisory committee meetings, a couple of community meetings, and meetings with various groups and individuals from the business community and neighborhood associations.

The Haywood Road Corridor Plan addresses five issues which were identified by the community and advisory committee as being the most important issues. These five issues are:

- land use;
- vehicle and pedestrian circulation;
- landscape and streetscape;
- building facade; and
- economic and community development.

For each of these issues, the plan establishes goals and recommendations. The goals are broad statements of purpose and describe the desired end result of the plan. The recommendations outline ways in which the goals can be accomplished. The plan emphasizes cooperation among the stakeholders as a key to implementation of the plan.

22

Upon adoption by the City Council, the Haywood Road Corridor Plan will become part of the Asheville City Plan: 2010 and will serve as a guide for future development and improvements along the corridor.

Copies of the draft plan were distributed to the Engineering Department, Public Works Department, and Community Development Division for review and comment prior to the adoption of the plan by the Planning and Zoning Commission. Copies of the (revised) draft plan were provided to City Council to allow for review of the plan prior to the public hearing.

At their May 5, 1999, meeting, the Planning and Zoning Commission voted unanimously to recommend approval of this small area plan. The Planning and Development Department also recommends approval of this small area plan.

Mr. Richard Nantelle spoke in support of this Plan which will help re-create and revive Haywood Road.

Mayor Sitnick closed the public hearing at 8:56 p.m.

Mayor Sitnick said that members of Council have previously received a copy of the resolution and it would not be read.

Councilman Cobb and Councilwoman Field both spoke in favor of the Plan.

Councilman Cobb moved for the adoption of Resolution No. 99-79. This motion was seconded by Councilman Sellers and carried unanimously.

RESOLUTION BOOK NO. 25 - PAGE 214

D. PUBLIC HEARING RELATIVE TO THE PEDESTRIAN THOROUGHFARE PLAN

RESOLUTION NO. 99-80 - RESOLUTION ADOPTING THE PEDESTRIAN THOROUGHFARE PLAN

Mayor Sitnick opened the public hearing at 8:58 p.m.

City Clerk Burleson presented the notice to the public setting the time and date of the public hearing.

Ms. Suzanne Molloy, Assistant Director of Public Works, said that this is the consideration of adoption of the *Pedestrian Thoroughfare Plan.*

Over the past several months, the Public Works Department in conjunction with the Metropolitan Planning Organization has hosted a series of public comment sessions, spoken to various civic organizations, and presented the draft *Pedestrian Thoroughfare Plan* to a varying audience. The primary goal of the comment period was to solicit input on financing strategies and final "action step" recommendations to City Council. The secondary goal was to assure that all critical pedestrian needs were identified.

General public comment (written and verbal) on the plan was overwhelmingly positive. The majority of respondents recognized the importance of good pedestrian planning and facilities for the community. As with most plans, controversial public comment was received about suggested funding strategies.

After careful review and compilation of public comment by staff (including Public Works, Planning and Development, Parks and Recreation, and Engineering Departments), final recommendations for implementation and "action steps" were developed by consensus. Based on comments, many financing strategies are no longer being recommended.

The final plan identifies approximately $38.5 million of pedestrian facilities and improvements needed in the City of Asheville. As with any comprehensive plan, a long-term approach to implementation must be realized. Following is a synopsis of the recommended action steps:

- Establish a full-time position to implement this Plan;
- Revise the *Asheville Standard Specifications and Details Manual* and the *Unified Development Ordinance ("UDO")* to expand the requirements for sidewalk installation to include: all new subdivisions (with more than 2 homes), all new multi-family dwellings, all new commercial developments, and all non-residential improvements where the costs of improvements exceeds 50% of the existing structure value;
- Amend the *Fees and Charges Manual* to include a 'fee in lieu of construction' option for developers;
- Adopt the Cityscape Plan;
- Revise the *Asheville Standard Specifications and Details Manual* to incorporate updated criteria for the design of pedestrian facilities;
- Promote the usage of the special assessment process and encourage the development of local districts for pedestrian and streetscape improvements;
- Aggressively pursue funding from the NCDOT, and other federal, state, and private sources;
- Direct staff to evaluate long-term transportation planning issues in the review of Level 1, 2 and 3 projects;
- Promote the enforcement of existing standards, ordinances, and other related programs that enhance and protect the pedestrian environment;
- Consider development of a bond referendum for pedestrian facilities to include needs outlined in the Master Greenway and Pedestrian Thoroughfare Plan;
- Develop a comprehensive Capital Improvement Program that reflects the adopted funding strategies;
- Negotiate with utility companies to relocate sidewalk obstacles located within the right-of-way;
- Endorse and support the Pedestrian and Bicycle Thoroughfare Master Plan;
- Encourage and improve public transportation and develop inter- and intra-modal connections;
- Encourage multi-use development which includes residential and business facilities;
- Support neighborhood traffic calming initiatives; and
- Strengthen and support the Bicycle Task Force/Pedestrian Task Force.

Making Asheville a more pedestrian friendly environment will require the support of local citizens, businesses, and public and private organizations. While some negative criticism has been received about the recommended action steps, staff believes that the chosen action steps will provide the most equitable tools for the City to fully realize this plan and develop a holistic transportation system.

Staff recommends that City Council adopt the *Pedestrian Thoroughfare Plan* and direct staff to begin implementation of the plan.

Ms. Molloy reviewed some additions and deletions made to the Plan as a result of comments arising from the public meetings. One deletion made, in particular which concern was raised by the Homebuilders Association, was to remove the requirement that developers would be responsible for the replacement of existing dilapidated sidewalks. She said that overall public comment has been fairly supportive of the Plan and the controversy has been mainly around the methods for funding the plan. The Homebuilders Association did state to her that they wish they could comment on the Plan after revisions were made and she did invite them to attend this public hearing to address any additional concerns.

Upon inquiry of Councilman Cloninger, Ms. Molloy explained that what was originally proposed was that if someone was coming in to develop or re-develop a site, that if there was an existing dilapidated sidewalk there, the developer had to replace it. Since there was negative comment about that, staff removed it from the Plan and now the Plan reads that if the existing sidewalk is damaged during construction or if they have to change it significantly, they would be responsible for it then. They would not have to pay the "fee in lieu of construction" and they would be exempt from any sidewalk requirement. The general feeling was that the City already has the sidewalk and the City should maintain and take care of it.

Vice-Mayor Hay asked if Council adopts the Plan, are they committing themselves to each of the action steps. City Attorney Oast said that City Council is only bound to consider the action steps, but not bound to take them, particularly to the extent that they involve ordinance changes or budgetary matters. Adoption of the Plan only establishes direction of the Council.

Ms. Elizabeth Teague, Planner with the Land-of-Sky Regional Council, felt that this Plan is a very good plan and urged City Council to adopt it and aggressively search for grant funding.

Mr. Gerry Hardesty, member of the Pedestrian Task Force, also spoke in support of adoption of the Plan, noting that sidewalks are an important part of the Plan, but it includes much more than just sidewalks. He also urged City Council to implement the Plan in a timely fashion.

Mayor Sitnick closed the public hearing at 9:23 p.m.

Councilman Cloninger felt that if we are going to require people to build new sidewalks, it seems like it is reasonable to ask them to rehab existing ones. He noted that we don't have too many resources available to improve infrastructure. He felt that since it's fair for the City to require developers who are developing an area that does not have sidewalks at all to pay a fee or to put in new sidewalks, it seems to him that it would be fair to ask a developer who is developing where there is already an existing sidewalk to pay to have it upgraded or pay a fee. He felt that in the vast majority of cases, the additional expense to the developer would be minimal compared to the overall cost of the project.

Upon inquiry of Mayor Sitnick, Public Works Director Mark Combs said that the Public Works Department has a policy that deals with vaults in sidewalks. City Attorney Oast briefly explained the policy and the issues involved about who is responsible for the sidewalk surface and who is responsible for the air space under the sidewalk.

When Mayor Sitnick asked Ms. Molloy what type of comments she received about a bond referendum on streets and sidewalks, Ms. Molloy said that the Homebuilders Association felt the bond referendum was an appropriate financing tool.

Mayor Sitnick said that members of Council have previously received a copy of the resolution and it would not be read.

Councilwoman Field moved to adopt the Pedestrian Thoroughfare Plan and direct staff to bring the issue relative to developers repairing existing dilapidated sidewalks or a "fee in lieu of" issue back to City Council for further discussion when the UDO issues are discussed. This motion was seconded by Councilman Cobb.

Councilman Cloninger made a substitute motion to adopt the Pedestrian Thoroughfare Plan with the addition of language reflecting that in certain situations developers would be required to rehabilitate existing dilapidated sidewalks. This motion was seconded by Councilman Sellers and carried on a 4-2 vote, with Councilwoman Field and Councilman Cobb voting "no".

Councilman Field felt that sidewalk issue should be dealt with in the UDO, not in the Pedestrian Thoroughfare Plan.

RESOLUTION BOOK NO. 25 - PAGE 215

E. PUBLIC HEARING RELATIVE TO THE PURCHASE OF PROPERTY LOCATED ON SWEETEN CREEK ROAD AND PEACHTREE STREET AND KNOWN AS THE "ROYAL PINES POOL AND PARK PROPERTIES"

RESOLUTION NO. 99-81 - RESOLUTION AUTHORIZING THE MAYOR TO EXECUTE AN INSTALLMENT CONTRACT PURSUANT TO N.C. GEN. STAT. SEC. 160A-20 FOR THE PURCHASE OF PROPERTY LOCATED ON SWEETEN CREEK ROAD AND PEACHTREE STREET AND KNOWN AS THE "ROYAL PINES POOL AND PARK PROPERTIES"

Mayor Sitnick opened the public hearing at 9:27 p.m.

City Clerk Burleson presented the notice to the public setting the time and date of the public hearing.

Mr. Irby Brinson, Director of Parks & Recreation, said that this is the consideration of a resolution to purchase approximately 5.5 acres of property located on Sweeten Creek Road and Peach Tree Street known as the Royal Pines Pool and Park Properties, to be used for Parks and Recreation programs.

The Parks and Recreation Department is interested in the purchase of properties known as the Royal Pines Pool and Park Properties. This property is valuable as protection of open space land and has been identified in the Parks and Recreation Master Plan as an area needing future park development. The purchase of the property is expressly contingent on The Trust for Public Land entering into a contract for the purchase of the property from a trustee.

An appraisal has been completed by the City of Asheville and the purchase price is estimated to be between $920,000 and $970,000. The Parks and Recreation staff is recommending that the purchase of the property be made by installment payments under an installment contract authorized by N. C. Gen. Stat. sec. 160A-20. This public hearing is being held in order to discuss the terms and conditions of the installment contract and to receive input from the public regarding this decision.

The Parks and Recreation Department is requesting City Council's approval to authorize the Mayor to execute an installment contract and a memorandum of installment contract for the purchase of real property located on Sweeten Creek Road and Peach Tree Street, known as the

Royal Pines Pool and Park properties, to be used for Parks and Recreation programs, contingent upon The Trust for Public Land entering into a contract for the purchase of the properties from a trustee.

Ms. Patsy Meldrum, Assistant City Attorney, reviewed the following key elements of the installment purchase contract:

- The Trust for Public Land purchases the property from trustees of two charitable remainder unitrusts.

- The purchase price of the properties is estimated to be between $920,000.00 and $970,000.00. When the transactional costs and fees of The Trust for Public Land and the City of Asheville are added to the estimated purchase price, the total of the purchase price and transactional costs and fees (excluding interest on financing) are estimated not to exceed $1,000,000.00.

- The City of Asheville desires to purchase the properties by installment contract pursuant to N. C. Gen. Stat. sec. 160A-20. The Trust for Public Land has agreed to provide financing for the purchase of the properties by installment contract pursuant to N. C. Gen. Stat. sec. 160A-20.

- The term of the installment contract will not exceed four years and eleven months.

- The interest rate for the installment payment on the installment contract will not exceed 7.5 % per year (simple interest)

- If the purchase price is $930,000.00, installment payments for a term of three years and eleven months would be as follows:

September 1, 1999	First installment payment	$216,947.00
September 1, 2000	Second installment payment	$216,947.00
September 1, 2001	Third installment payment	$216,946.00
September 1, 2002	Fourth installment payment	$216,946.00
May 1, 2003	Fifth and final installment payment	$216,946.00
Total of payments of principal and interest		$1,084,732.00
Payment to The Trust for Public Land to cover project costs, fees and expenses (Payment to be made with first installment payment on September 1, 1999)		$50,000.00

If the purchase price is $930,000.00, installment payments for a term of four years and eleven months would be approximately $190,000 per year, again, depending upon the actual purchase price.

- Expected closing date for the purchase of the properties is during the first week in June of 1999.

- Title to the properties will remain in The Trust for Public Land until all installment payments are made, but the City of Asheville will be responsible for possession, maintenance and operation of the properties after the closing date.

- Proceeds from the sale of the properties by the trustees to The Trust for Public Land will be invested as assets of the trusts. At the expiration of the terms of the trusts, the remainder of the trusts will be shared by The Trust for Public Land and the City of Asheville, with any share that comes to the City of Asheville being available to the City of Asheville to reimburse its costs for the purchase of the properties from The Trust for Public Land.

Ms. Chrisanne Mitchell, Senior Project Manager with The Trust for Public Land, described how the remainder of the trust will be shared.

Councilman Cloninger said that this is a great opportunity for the City. He expressed Council's appreciation to Mr. Rusher and The Trust of Public Land.

Mayor Sitnick closed the public hearing at 9:36 p.m.

Mayor Sitnick said that members of Council have been previously furnished with a copy of the resolution and it would not be read.

Councilman Cloninger moved for the adoption of Resolution No. 99-81. This motion was seconded by Councilman Sellers and carried unanimously.

RESOLUTION BOOK NO. 25 - PAGE 216

F. PUBLIC HEARING RELATIVE TO ANNEXING A CONTIGUOUS AREA KNOWN AS SECTION 13 OF BILTMORE PARK

ORDINANCE NO. 2577 - ORDINANCE TO EXTEND THE CORPORATE LIMITS OF THE CITY OF ASHEVILLE, N.C., BY ANNEXING A CONTIGUOUS AREA KNOWN AS SECTION 13 OF BILTMORE PARK

Mayor Sitnick opened the public hearing at 9:37 p.m.

City Clerk Burleson presented the notice to the public setting the time and date of the public hearing.

Mr. Bruce Black, Urban Planner, said that this is the consideration of an ordinance to annexation property located southeast of Columbine Road (Section 13 of Biltmore Park).

Biltmore Farms, Inc. has submitted an annexation petition for a 4.821 acre area identified as Biltmore Park, Section 13. This is the thirteenth annexation petitioned by Biltmore Farms, Inc. for property located west of Overlook Road. This area is contiguous to the existing corporate limits, specifically to Biltmore Park, Section 9. This annexation will be effective on November 25, 1999.

Staff recommends that City Council adopt the ordinance annexing property located southeast of Columbine Road (Section 13 of Biltmore Park).

Mayor Sitnick closed the public hearing at 9:38 p.m.

Mayor Sitnick said that members of Council have previously received a copy of the ordinance and it would not be read.

Councilman Sellers moved for the adoption of Ordinance No. 2577. This motion was seconded by Councilwoman Field and carried unanimously.

ORDINANCE BOOK NO. 17 - PAGE 342

IV. UNFINISHED BUSINESS:

A. ORDINANCE NO. 2568 - SECOND READING TO REZONE A ONE FOOT STRIP ALONG FIVE LOTS ON SOUTH GROVE STREET FROM OFFICE BUSINESS DISTRICT TO RS-8 RESIDENTIAL SINGLE FAMILY HIGH DENSITY DISTRICT

See discussion above on Item B. under Public Hearings.

Councilman Cloninger moved to table the second reading of Ordinance No. 2568, an ordinance to rezone a one-foot strip along five lots on South Grove Street from Office Business District to RS-8 Residential Single Family High Density District. This motion was seconded by Councilman Sellers and carried unanimously.

B. ORDINANCE REQUIRING THE POSTING OF PRIVATE PARKING LOTS IN DOWNTOWN ASHEVILLE

City Attorney Oast asked that this item be continued until the June 8, 1999, City Council meeting in order to give him time to meet with Vice-Mayor Hay and Councilman Cloninger to address their concerns.

Councilman Cloninger moved to continue this matter until June 8, 1999. This motion was seconded by Vice-Mayor Hay and carried unanimously.

V. NEW BUSINESS:

A. RESOLUTION NO. 99-82 - RESOLUTION ISSUING A WRITTEN DECISION IN RESPONSE TO THE FILING OF AN FCC FORM BY BRENMOR CABLE PARTNERS, L.P. (d/b/a InterMedia) FOR MONTHLY RATES FOR THE BASIC SERVICE TIER ON ITS CABLE FOR THE TIME PERIOD OF JUNE 1, 1999, TO MAY 31, 2000

Ms. Patsy Meldrum, Assistant City Attorney, said that this is the consideration of a resolution issuing a written decision in response to the filing of an FCC Form 1240 by Brenmor Cable Partners, L.P. (d/b/a InterMedia) for monthly rates for the basic service tier on its cable system for the time period of June 1, 1999, to May 31, 2000.

Pursuant to federal law and the regulations of the Federal Communications Commission ("FCC"), the City of Asheville ("City") is certified to regulate basic service rates and charges of Brenmor Cable Partners, L.P. ("InterMedia") in the franchised area of InterMedia within the corporate limits of the City. By letter dated February 26, 1999, received by the City on March 1, 1999, InterMedia filed FCC Forms 1205 and 1240, both dated February 25, 1999, for the purpose of justifying its monthly rates and hourly service charges for cable services on the basic service tier on its cable system for the time period of June 1, 1999, to May 31, 2000.

The new maximum permitted rate calculated for the monthly rate on the basic service tier by InterMedia on the FCC Form 1240 is $10.3579. InterMedia proposes to continue charging the current monthly rate of $11.91 for the time period of June 1, 1999, to May 31, 2000, which amount exceeds the maximum permitted rate, by relying upon the filing of an FCC Form 1235 ("abbreviated cost of service" filing) submitted to the City on May 16, 1997. The FCC Form 1235 determined that an increase in the basic service tier rate of $1.96 per month would be permitted as of the time of filing, based upon an upgrade or rebuild of the cable system. The maximum permitted rate of $10.3579 and the increase in the rate of $1.96 per month based upon the filing of the FCC Form 1235 would combine to be a monthly rate of $12.32, which is in excess of the current basic service tier rate charged in the amount of $11.91 per month.

The filing of the FCC Form 1235 by InterMedia with the City on May 16, 1997, predated the completion of the upgrade or rebuild of the cable system and was filed for "pre-approval" purposes. FCC requirements for the FCC Form 1235 are that, if the pre-approval option is exercised, the cable system operator must file the FCC Form 1235 again following the end of the month in which the upgraded cable services become available and are providing benefits to all customers of regulated services in the filing entity, using actual costs where applicable. The upgrade or rebuild of the cable system was completed some time during the summer of 1998, but InterMedia has not yet filed with the City another FCC Form 1235 after the completion of the upgrade or rebuild of the cable system.

After the filing of the FCC Form 1235 by InterMedia on May 16, 1997, the City Council adopted Resolution No. 97-213, which directed InterMedia to keep an accurate account of all amounts received by reason of the rate increase requested pursuant to its FCC Form 1235 filing, in order that the City may, at its option, subsequently issue a written decision regarding the rate request and determining whether or not refunds should be provided to subscribers after completion of the upgrade or rebuild of the cable system. This resolution would order InterMedia to file another FCC Form 1235 in order for the City to complete its review of the monthly rate attributed to the rebuild of the system.

City staff recommends City Council adopt the resolution which would order InterMedia to file another FCC Form 1235 in order for the City to complete its review of the monthly rate attributed to the rebuild of the system.

Ms. Meldrum passed out a revised resolution and explained the revisions to Council.

Mayor Sitnick said that members of Council have been previously furnished with a copy of the resolution and it would not be read.

Councilwoman Field moved for the adoption of Resolution No. 99-82. This motion was seconded by Councilman Cloninger and carried unanimously.

RESOLUTION BOOK NO. 25 - PAGE 218

B. CONSIDERATION OF WAIVING THE ASHEVILLE STANDARD SPECIFICATIONS AND DETAILS MANUAL SIDEWALK REQUIREMENT FOR E-Z STORAGE FACILITY EXPANSION ON HIGHLAND BOULEVARD

When Mayor Sitnick asked if she would have a conflict of interest since Mr. John Powell is her attorney, City Attorney Oast felt that the Mayor did not have a conflict of interest.

Ms. Cathy Ball, City Engineer, said that HP Properties, the developer for the E-Z Storage Facility expansion located on Highland Boulevard, has requested City Council waive the Unified Development Ordinance (UDO) and the Asheville Standard Specifications and Details Manual (Standards Manual) requirement for a sidewalk along Highland Boulevard.

Section 7-8-16 (f) (10) of the UDO requires that new construction on property place sidewalks as specified in the Standards Manual along street rights-of-way. The E-Z Storage Facility expansion proposes to build a self-storage facility on Highland Boulevard. This roadway is located in an industrially developed area bounded on the north end by I-40 and on the west end by Smokey Park Highway. The property has approximately 540 linear feet of road frontage.

The Standards Manual requires a five foot sidewalk along the rights-of-way for all newly developed projects. The Standards Manual stipulates that for any requirements for sidewalks to be waived the City Council must take action to grant the waiver.

Staff is in the process of requesting a modification to the UDO to allow developers to pay a fee in lieu of constructing a sidewalk. The recommended revisions will go to the Planning and Zoning Commission on July 7, 1999, and subsequently to City Council for action. The developer of the E-Z Storage Facility expansion has requested the waiver prior to the revision of the UDO. The developer does not wish to pay the fee in lieu of constructing the sidewalk.

Staff does not recommend that City Council waive the requirement that a sidewalk be placed along Highland Boulevard for the E-Z Storage Facility expansion. If the project has not received a Certificate of Compliance prior to the change to the UDO allowing a fee in lieu of constructing a sidewalk, staff recommends that the developer be allowed to pay the fee.

Staff requests that City Council not waive the requirement that a sidewalk be placed along Highland Boulevard as required by the UDO Section 7-8-16 (f) (10) for the E-Z Storage Facility expansion.

Ms. Ball said that in the past City Council has had two waivers come before them. The storage facility off of Sardis Road was a situation where there was no street there, just an open right-of-way, and staff recommended, and City Council approved, waiving the sidewalk requirement. The second request was for the Sweeten Creek Mini-Storage and that request was continued until the "fee in lieu of construction" criteria was developed and brought back to City Council for review through a UDO amendment.

Mr. John Powell, attorney, said that he felt it would be equitable for City Council to waive this requirement because the land is not appropriate to have a sidewalk on it. It is a dead-end street with no pedestrian-generating activities. He felt that they are paying taxes and those taxes should pay for those type of facilities. He urged City Council to waive the sidewalk requirement.

Upon inquiry of Councilman Sellers, Ms. Ball said that staff is in the process of working on what the fee in lieu of would be - one is to set a standard rate and make everyone pay the same dollar figure per linear feet, and the other option is to get an estimate on how much it would cost to build the sidewalk and either have them pay the full amount or a percentage of that. That is one of the things they are looking at to recommend to Council with the modification to the UDO.

Mayor Sitnick wondered the common sense of a sidewalk being required in an area where there is no opportunity for pedestrian traffic anywhere. Ms. Ball agreed but said that staff is looking at several different factors in the ordinance amendment Staff wants to make sure that fees in lieu of construction is not the rule, but the exception.

City Manager Westbrook said that this is a way to help growth pay for itself. The impact on the City on sidewalks is not just replacing old sidewalks, but is building additional sidewalks that is caused in general by the growth in and around the City that pedestrians are now using. And, in all cases we can't go back in put those sidewalks in, but as development happens, if they can put the sidewalks in as part of that development, then it will help growth pay for itself.

Councilwoman Field said that when the fee in lieu of construction is before City Council, she requested staff come back to City Council with a recommendation about what we do about areas like this where it absolutely makes no sense to put a sidewalk in and if it's fair to require a fee in lieu of in that situation.

Councilman Cloninger moved to continue this request until City Council considers a modification to the UDO to allow developers to pay a fee in lieu of constructing a sidewalk. This motion was seconded by Councilman Sellers and carried unanimously.

C. RESOLUTION NO. 99-83 - RESOLUTION APPOINTING THE FOLLOWING PEOPLE TO THE EDUCATIONAL ACCESS CHANNEL COMMISSION: MR. TIM AMOS AND MS. CAROLYN MOORE AS REPRESENTATIVES OF THE ASHEVILLE CITY SCHOOLS; DR. ALAN HANTZ AND MR. GREG DILLINGHAM AS REPRESENTATIVES OF UNC-ASHEVILLE; DR. BOBBIE SHORT AND MS. GERRY KOVACH AS REPRESENTATIVES OF THE BUNCOMBE COUNTY SCHOOLS; DR. OLIN WOOD AND MS. SHIRLEY McLAUGHLIN AS REPRESENTATIVES OF A-B TECHNICAL COLLEGE; AND THREE AT-LARGE REPRESENTATIVES

Vice-Mayor Hay said that this resolution will appoint the following people to the Educational Access Channel Commission: Mr. Tim Amos (4 year term) and Ms. Carolyn Moore (2 year term) as representatives of the Asheville City Schools; Dr. Alan Hantz (4 year term) and Mr. Greg Dillingham (2 year term) as representatives of UNC-Asheville; Dr. Bobbie Short (4 year term) and Ms. Gerry Kovach (2 year term) as representatives of the Buncombe County Schools; and Ms. Shirley McLaughlin (4 year term) and Dr. Olin Wood (2 year term) as representatives of Asheville-Buncombe Technical College.

On May 25, 1999, City Council interviewed Mr. Robert Brummond, Ms. Marion E. Mathews, Ms. Ashly Maag, Mr. Wally Bowen and Michelle Price.

After Vice-Mayor Hay asked if anyone in the audience would like to comment on this matter and hearing none, each Council member voted for three candidates: Marion Mathews and Ashly Maag each received 5 votes and Robert Brummond and Michelle Price each received three votes. After a second vote was taken, Robert Brummond received 2 votes and Michelle Price received 4 votes.

Vice-Mayor Hay moved to appoint Marion Mathews and Ashly Maag to each serve a four year term and Michelle Price to serve a two year term as members on the Educational Access Channel Commission in addition to the representatives outlined above. This motion was seconded by Councilman Cloninger and carried on a 5-1 vote, with Mayor Sitnick voting "no".

RESOLUTION BOOK NO. 25 - PAGE 220

VI. OTHER BUSINESS:

A. APPROVAL OF THE MINUTES OF THE REGULAR MEETING HELD ON MAY 11, 1999, AND THE WORKSESSION HELD ON MAY 18, 1999

32

Councilman Cloninger moved for the adoption of the minutes of the regular meeting held on May 11, 1999, and the worksession held on May 18, 1999. This motion was seconded by Councilman Sellers and carried unanimously.

B. CLAIMS

The following claims were received by the City of Asheville during the week of April 23 - May 13, 1999: Lynn Burns (Water) and City Engineering.

These claims have been referred to Asheville Claims Corporation for investigation.

VII. INFORMAL DISCUSSION AND PUBLIC COMMENT:

Mr. Mickey MaHaffey urged City Council to investigate the whimsical enforcement of certain laws and the overzealous enforcement of the begging laws by the Asheville Police Department.

Mayor Sitnick asked Mr. MaHaffey to meet with the City Attorney about these allegations.

VIII. ADJOURNMENT:

Mayor Sitnick adjourned the meeting at 10:25 p.m.

Magdalen Burleson
CITY CLERK

Leni Sitnick
MAYOR

Tuesday - June 1, 1999 - 3:00 p.m.

Worksession

Present: Mayor Leni Sitnick, Presiding; Vice-Mayor Edward C. Hay Jr.; Councilman M. Charles Cloninger; Councilman Earl Cobb; Councilwoman Barbara Field; Councilman Thomas G. Sellers; and Councilman O.T. Tomes; City Attorney Robert W. Oast Jr.; City Manager James L. Westbrook Jr.; and City Clerk Magdalen Burleson

Absent: None

CONSENT:

East Oakview Sanitary Sewer Improvements

Summary: The consideration of a resolution awarding the contract for the Brevard Road Annexation Area East Oakview Road Sanitary Sewer Improvements to the lowest responsible bidder, Hobson Construction Company Inc. in the amount of $67,075.

This project is part of the proposed Brevard Road Annexation Area Sanitary Sewer Improvements. The project consists of installing approximately 1200 linear feet of eight inch sanitary sewer line to serve existing residences on East Oak View Road.

On Friday, May 7, 1999, at 5:00 p.m., the Engineering Department received three bids for the project as follows:

Hobson Construction Co., Arden, N.C.	$67,075
Tennoca Construction Co., Candler, N.C.	$85,119
Steppe Construction Co., Mills Spring, N.C.	$95,472

The lowest responsible bidder for this project was Hobson Construction Company Inc. with a bid of $67,075.

Hobson Construction Company has performed several projects of this nature for the City of Asheville in the past without any major problems.

The construction time for this project is 30 calendar days listed in the contract documents. The contract documents stipulate liquidated damages in the amount of $250 per calendar day if the contractor shall neglect, fail or refuse to complete the work within the time herein specified.

Staff recommends that City Council adopt the resolution awarding the bid for Brevard Road Annexation Area East Oakview Road Sanitary Sewer Improvements to Hobson Construction Company Inc., the responsible low bidder, and authorize the City Manager to execute all necessary agreements and contracts.

Grant for Phase II of Master Street Tree Plan

Summary: The consideration of a resolution to apply for grant funds available with the N.C. Dept. of Environment and Natural Resources to develop the second phase of the Master Street Tree Plan.

Funds are available through the State of N.C. Dept. of Environment and Natural Resources, Division of Forest Resources in the Urban and Community Forestry Grants Program, to improve urban forest resources.

The Parks and Recreation Department is responsible for developing a Master Street Tree Plan (MSTP) for street trees on City right-of-ways located within the city limits of Asheville. The existing inventory is almost fifteen years old and no longer accurately reflects the trees of the City. Phase II of the process will specifically identify the location, size, condition, and site conditions of trees located in the south district of Asheville. The MSTP will help serve as a critical link in developing a long term management plan for Asheville's urban trees, provide information for future tree planting and forestry planning, and provide educational and volunteer opportunities for community organizations.

The Parks and Recreation Department is requesting $10,000 in grant funds which requires a 100% match. The in-kind match is located in the Parks Division budget and will include supplies, transportation, volunteer hours, and project management.

The Parks and Recreation Department recommends City Council authorize the City Manager to apply for and enter into this agreement if the City receives the grant award.

Budget Amendment re: Purchase of Equipment for Stephens-Lee Alumni Room

Summary: The consideration of a budget amendment, in the amount of $5,000, to purchase equipment to be used in the Alumni Room at Stephens-Lee Center.

The Stephens-Lee Alumni Association has raised $5,000 through donations to be used specifically in the construction of the Alumni Room at Stephens-Lee Center. This Alumni Room will serve as a meeting room for the association and a display area for the archives from the old Stephens-Lee High School. Through numerous donations the Stephens-Lee Alumni has collected funds for this purpose. The $5,000 will be added to the current project fund and equipment will be purchased through the City of Asheville purchasing procedures. The equipment to be purchased consists of office furniture including desk, chairs, credenza, computer stand, conference table and chairs, display cabinets and computer hardware and software consistent with equipment approved by the City's Division of Information Services.

The Parks and Recreation staff recommends Council approval of the budget amendment to appropriate $5,000 to the Stephens-Lee Renovation Project to be used to purchase equipment for the Alumni Room.

Mayor Sitnick asked that the record show that City Council has received this information and instructs the City Manager to place these items on the next formal City Council agenda.

AMENDMENT TO FEES & CHARGES MANUAL AND AMENDMENT TO PARKING METER ORDINANCE FOR HONDA HOOT PARKING FEES

Mr. Bill Schaefer, Finance Director, said that this is the consideration of: (1) a resolution amending the Fees and Charges Manual for Parking Garages and Parking Meters; (2) an ordinance amending the Code of Ordinances regarding parking meter fees for limited events for motor vehicles; and (3) a resolution setting the specific limited event fees for Honda Hoot 1999.

The Honda Rider's Club of America has sponsored the Honda Hoot Rally in Asheville, North Carolina, for the past five years, and desires to bring the rally to Asheville again in 1999. In prior years, the rally organizers have worked with City Finance Department staff to utilize the Civic Center parking garage and on-street metered spaces for rally registrants. Honda pays the

City for an agreed upon number of spaces and offers those spaces free of charge to rally registrants as part of their registration package. Because the rally has grown so much in the past few years, Honda and City Finance Department staff desire a more manageable method of parking motorcycles while offering the same convenience to rally registrants as in years past.

Currently, the City's Fees and Charges Manual has no provisions for non-standard parking fees in the garages or on-street and the Code of Ordinances does not allow parking at meters during hours of enforcement without depositing a coin. As a result , in order to provide a non-standard fee during Honda Hoot, it is necessary to amend the Fees and Charges Manual and the Code of Ordinances. These amendments will enable the future use of "Limited Event" fees not only for Honda Hoot; but also, any other limited events involving motor vehicle parking in garages and at meters. A resolution of City Council will be required to set the specific cost of the fee for each "Limited Event".

The following are the specific "limited event" fee arrangements proposed by Honda Riders of America, previously endorsed by the Fees and Charges Committee of City Council for Honda Hoot 1999 and included in the proposed resolution:

- Honda will produce and provide a sticker, suitable for affixing to motorcycle headlamp, indicating payment of a parking fee.
- For each advance registration (estimated to be 3,000), the fee will be $0.50.
- Honda will produce and provide additional stickers to be sold by City of Asheville staff to on site registrants (estimated to be 1,000) for a fee of $3.00 each, all of which will be revenue to the City.
- Motorcycles bearing headlamp stickers will be allowed to park in a designated area of the Civic Center parking garage, and at metered spaces throughout the downtown area for the duration of the rally.

City staff recommends City Council adopt the enabling resolutions and ordinance.

Upon inquiry of Councilman Sellers, Mr. Schaefer said that this will not infringe on the skateboard park on the top of the Civic Center deck.

When Vice-Mayor Hay asked about what incentives the Chamber of Commerce (for example) were providing to the Honda Hoot, City Manager Westbrook said that he had not heard anything from the groups who urged City Council to do what they could to retain the rally coming to Asheville.

Councilman Cloninger suggested comparing what the total parking revenue would be with and then without the Honda Hoot to see if the amount charged is appropriate.

Mayor Sitnick was very concerned about setting a precedent of allowing more than one motorcycle to park in one space. Mr. Schaefer responded that the motorcycles will be ticketed if they are parked outside the designated parking lines and felt that it is a more efficient use of parking to allow the maybe 3-4 motorcycles per space.

Mr. Schaefer responded to a concern from Mayor Sitnick relative to the licensing of vendors and to the extent of the City's ability, they will attempt to enforce not only the individuals selling parts, but the major companies as well. He did note that the Honda Hoot is working cooperatively with the City in identifying the vendors that they are aware of.

Mayor Sitnick felt that the price per sticker ($0.50 for the five day event if pre-registered and $3.00 for others) was too low, in that how can the City justify raising the parking meter fees from $0.25 per hour to $0.75 per hour for our community and then charge this low price to visitors. She stressed that this proposal would be that pre-registered participants could park on the street all day for a dime a day.

Councilman Cloninger agreed with Mayor Sitnick and suggested that $5.00 be charged for pre-registration and $10.00 for others be charged.

When discussion concerning the parking sticker amount started, Mr. Schaefer explained that the Honda Hoot has already started their mailings with the $0.50/$3.00 proposal figure, which is the amount traditionally paid in other cities.

When Council was distressed in finding out that the Honda Hoot has already printed their material without waiting for approval by City Council, Mr. Schaefer explained that this item was originally scheduled for City Council consideration in January of 1999, however, it was pulled from the agenda pending ordinance revisions and drafting of resolutions.

All of Council agreed that the Honda Hoot makes a tremendous impact on the community.

After figuring about how much revenue the City would be losing during that five day period if all the 700 parking metered spaces in downtown were full, Councilman Cobb suggested $3.00 for pre-registration and $5.00 for others.

Vice-Mayor Hay stressed that even though the mailings have gone out for the Rally, the City will be billing Honda Hoot and it will be up to them to determine who will make up the difference between the $0.50 and the figure City Council approves.

Mayor Sitnick said that she would be willing to support $3.00 for pre-registration and $5.00 for others and that next year, there will be a policy in place about these type events.

It was the consensus of the City Council to instruct Mr. Schaefer to meet with Honda Hoot representatives before the next formal meeting to inform them on the Council's discussion of charging $3.00 for pre-registration and $5.00 for others.

Mayor Sitnick asked that the record show that City Council has received this information and instructs the City Manager to place these items on the next formal City Council agenda.

PRITCHARD PARK DOWNTOWN TRAFFIC EVALUATION

Mr. Alan Glines, Assistant Landscape Architect, said that this is the consideration of a resolution authorizing the City Manager to enter into an amendment to a contract with Genesis Group for a Downtown Traffic Evaluation as a result of the Conceptual Plan for Pritchard Park.

Since the February 1999 review to City Council and the subsequent meeting with the Council appointed committee, staff has revised and developed the proposed Scope of Work for the Downtown Traffic Evaluation and developed a Phasing Proposal for Pritchard Park. In association with the Engineering Department and the Parks and Recreation Department, Genesis has developed a Scope of Work for the Downtown Traffic Evaluation.

The Downtown Traffic Evaluation Proposal will include conducting traffic counts for the central corridor from College Street at Charlotte Street, westbound to Patton Avenue at South French Broad Avenue. In addition to traffic counts the study will review turning movements, traffic flow capacity and fire response timing as it evaluates the proposal of returning the downtown east-west traffic to a two-way system. The study will include a report that will outline design recommendations to implement changes at specified intersections, opportunities for on-street parking and loading zones and opinion of costs. The cost for the proposal is $37,149.

The proposal is subject to the review and approval by the Transportation Advisory Committee (TAC) which would amend the MPO Transportation Planning Work Program Budget for Fiscal Year 1999-2000. The City's share will be 20% and if approved by the TAC, the TAC will reimburse the City 80% of the cost of the Downtown Traffic Evaluation. The City currently has budgeted their 20% share and when they are reimbursed by the TAC for the 80%, an appropriate budget amendment will be presented to Council.

City staff recommends that Council give the City Manager authorization to enter into an amendment to a contract with Genesis Group for the Downtown Traffic Evaluation.

Upon inquiry of Councilman Cobb, City Manager Westbrook said that if the TAC did not approve the project, the City would either not do the project or come back to City Council for an additional appropriation. Councilwoman Field said that in her experience with the TAC, they have some money set aside for these type of projects and felt, more than likely, they would approve the project.

At the request of Councilman Cloninger, Mr. Glines said that he would provide City Council with a detailed breakdown of the cost of the proposal.

When Mayor Sitnick asked if the Engineering Department could perform this work, City Engineer Cathy Ball said that she felt that they would not be able to meet the necessary timelines.

Mayor Sitnick asked that the record show that City Council has received this information and instructs the City Manager to place this item on the next formal City Council agenda.

REPORT ON COMPREHENSIVE SUSTAINABLE ECONOMIC DEVELOPMENT STRATEGIC PLAN IMPLEMENTATION PROCESS

Mr. Mac Williams, Economic Development Director, said that City Council is being asked to 1) approve appointment of a specialized task force to oversee implementation of the Economic Development Strategic Plan, and 2) authorize staff to develop a list of candidates for the task force and to present that list to City Council for approval.

Dr. David Kolzow, Consultant with Lockwood Greene Consulting, and an associate have met with numerous individuals throughout the community, as well as with a number of boards and commissions. The next step in the strategic plan is the worksession to be held on June 11, 1999. The purpose of the worksession is to review the results of the leadership survey, the citizen survey and the Lockwood Greene Consulting assessment of the local strengths and weaknesses. From this discussion, we will develop a list of issues that need to be resolved and the groups will set priorities. This group of issues then needs to be evaluated by a citizens' group who would recommend how to achieve the results noted in the issues, where the funding if needed will come from, and who would be responsible in the final priorities.

Dr. Kolzow suggests there is a need for a specialized economic development strategy group of no more than ten (i.e. principal owners/executives within the business community) to work with him and staff over a period of months. The results of their work would be brought to City Council for review and approval.

38

Staff and Dr. Kolzow recommend that City Council authorize staff to develop a list of candidates to work with Dr. Kolzow on the last step of the Economic Development Strategic Plan and to present that list back to City Council for approval.

Councilman Tomes felt that there should be an effort to include someone outside the principal owners/executives within the business community that would bring sensitivity to the table.

Mr. Williams responded to various questions/comments from Council about the make-up of the task force.

Mayor Sitnick wondered if City Council would be interested in interviewing the list of candidates who will work with Dr. Kolzow.

Mayor Sitnick said that during the retreat, it was the consensus of Council to address the strategic plan as the "comprehensive sustainable strategic plan" and asked that those words be included in all official documents.

Mr. Williams invited City Council members to submit names of individuals they felt would be good candidates for the task force.

Mayor Sitnick asked that the record show that City Council has received this information and instructs the City Manager to place this item on the next formal City Council agenda.

SEXUALLY ORIENTED BUSINESS REGULATIONS

City Attorney Oast said that this is the consideration of an ordinance establishing additional restrictions on adult establishments.

Senate Bill 452 (1997), ratified in 1998 and now codified at G.S. 160A-181.1, and elsewhere, permits municipalities to exercise a greater degree of control over sexually-oriented businesses within their jurisdictions. These regulations fall into two categories: zoning and general police power regulations.

Under the Unified Development Ordinance ("UDO") as originally adopted, adult establishments were uses by right, subject to special requirements. When it became apparent that Senate Bill 452 might become law, City Council took steps to preserve the status quo of the City with respect to adult establishments. In April of 1998, adult establishments were moved from uses by right subject to special requirements, to uses for which Conditional Use Permits were required. When Senate Bill 452 became law in August of 1998, Council adopted a temporary moratorium prohibiting new adult establishments or the expansion of existing ones, as the law allowed, to consider additional regulations.

Zoning: Asheville already has an effective dispersal ordinance in the UDO. This ordinance contains certain locational and separation requirements for adult establishments. These ordinances have been upheld on many occasions. In 1995, the City performed the study that the courts have held is necessary to provide a foundation for a dispersal ordinance, and the ordinance was adopted and incorporated into the UDO in 1997.

While dispersal ordinances have been upheld by the U. S. Supreme Court, there was less certainty about whether conditional use permits could be used to regulate adult establishments; the courts were divided. Earlier this year, in the case of Steakhouse v. Raleigh, the 4th Circuit Court of Appeals upheld a regulatory scheme in Raleigh that involved a dispersal

39

ordinance implemented through a conditional use permit process. This is the same regulatory scheme currently reflected in the UDO. It is recommended that this regulatory scheme be made permanent with respect to adult establishments.

General Police Power: These are regulations that affect the operational characteristics of adult establishments. They are not zoning regulations and, as long as they are reasonable, can be made to apply to existing establishments.

The City already had some regulations on the operation of adult establishments, such as minimum age for patrons and performers, licensing, touching or fondling, etc. The new law provides clear enabling authority for these existing regulations, and permits other regulations as well.

The proposed ordinance establishes additional regulations for the following:

- Open booths for establishments that have booths.
- Requirement that genital areas of performers remain covered.
- Requirement that buttocks, privates and genitals of non-performers be covered.
- Requirement that clarifies that adult entertainers may not touch patrons (existing ordinance prohibiting touching of specified anatomic areas).
- Prohibition on peripheral activities on the same premises. This is intended to prohibit such activities as car washes, unless enclosed within the same building as the adult establishment.

The law permits regulation of other aspects of the business such as hours of operation, additional clothing restrictions, and possibly even alcohol sales. These regulations must be consistent with constitutional limitations, which essentially means that there must be an identified "secondary impact" that the regulation is intended to address, beyond morality-based objections.

The proposed regulations do not go as far as the law appears to allow. However, the constitutionally-required justification for such regulations does not clearly exist. To the extent that the current situation deteriorates, the law specifically permits additional regulations to apply to existing businesses (an "anti-grandfather" provision). It may be possible, therefore, to impose stricter regulations as the need arises.

Adoption of the proposed ordinance is recommended.

City Attorney Oast explained that due to an error in the codification of the City Code, if Council wishes to consider the possibility of allowing sexually oriented businesses by conditional use permit, which will require an amendment to the Unified Development Ordinance, it will be necessary to extend the moratorium on sexually oriented businesses for a short period of time. It was the consensus of Council to have the City Attorney draft the temporary moratorium ordinance.

Mayor Sitnick asked that the record show that City Council has received this information and instructs the City Manager to place this item on the next formal City Council agenda.

NEXT COMMUNITY MEETING (JUNE 29)

It was the consensus of City Council to hold the next community meeting on Tuesday, June 29, 1999, at the North Asheville Community Center located at 27 Larchmont Road, beginning at 6:00 p.m. for staff to be present and answer any questions and the community meeting beginning at 7:00 p.m.

BOARDS & COMMISSIONS

It was the consensus of City Council to have the City Clerk prepare the proper paperwork to reappoint Sally Rhoades, Susan Dodson and Michael Hyatt to the Carriage Permit Advisory Board.

It was the consensus of City Council to have the City Clerk prepare the proper paperwork regarding the Citizens/Police Advisory Committee (1) to reappoint John Ingersoll (north) and Jimmy Hungerford (west); (2) to reappoint Lonnie Blair (east) due to Mr. Blair's request that the rules be waived and that he be appointed to serve another term and because there was no other applicant from the east interested in being appointed; (3) to appoint Betty Budd (south).

It was the consensus of City Council to have the City Clerk prepare the proper paperwork regarding the Civic Center Commission to (1) reappoint Robert Swan and Richard Bowman and (2) arrange interviews for Denise Goodson, Clay Dover, Peter Crosa and John Leander.

It was the consensus of City Council to have the City Clerk prepare the proper paperwork to appoint Gene Bell to the Civil Service Board. Vice-Mayor Hay said that Dr. Nancy Kauffman was eligible for reappointment, however, Dr. Kauffman has confirmed that she will be leaving the Asheville area in one year and City Council felt it would be in their best interest to fill the position with someone who would be eligible to serve the full two year term.

It was the consensus of City Council to have the City Clerk prepare the proper paperwork regarding the Crime-Stoppers Board of Directors to (1) reappoint Tommy Sellers; and (2) appoint Josefine Matty and Leslie Hennessee.

Because under the new structure from the Buncombe County Drug Commission to the Mountain Center for Substance Abuse Prevention ("MCSAP"), the appointments are made by the MCSAP Board of Directors rather than by any local government, therefore, there is no need for the City to consider any appointment to this Board.

It was the consensus of City Council to have the City Clerk arrange interviews with Anne Watkins, Cindy Pomeroy, Yvette Logan and Celeste Fletcher for vacancies on the Film Board.

It was the consensus of City Council to have the City Clerk prepare the proper paperwork to reappoint Jody Kuhne and Fred Eggerton to the Historic Resources Commission.

Mayor Sitnick instructed the City Clerk to arrange for interviews with T. Bentley Leonard, Mary Robertson, Minnie Jones, Helen P. Branson, LaShawn Horton and Adam Fetterman for vacancies on the Housing Authority Board of Directors.

It was the consensus of City Council to have the City Clerk prepare the proper paperwork regarding the Recreation Board (1) to reappoint Charles Bullman; and (2) to arrange interviews with Susan Sparboe and Derek Weekley. Vice-Mayor Hay said that Ann Babcock (who is on the Tree/Greenway Commission) is interested in serving on the Recreation Board.

41

It was the consensus of City Council to have the City Clerk prepare the proper paperwork regarding the Tree/Greenway Commission (1) to reappoint Margaret Tinkler, Ann Babcock (subject to her not being appointed to the Recreation Board) and Jerry Bailey; and (2) to arrange interviews with Ginger Mahler, Leonard Pardue and Sofia Mannos.

It was the consensus of City Council to have the City Clerk prepare the proper paperwork to appoint Councilman Tommy Sellers to the Regional Water Authority of Asheville, Buncombe and Henderson. Mayor Sitnick noted for the record that she has received a letter from Ms. Hazel Fobes asking that City Council "weigh carefully the Council's interest in keeping informed about Authority business against the desirability of the Authority having members with expertise in water or related scientific and engineering matters."

ADJOURNMENT:

Mayor Sitnick adjourned the meeting at 5:30 p.m.

Magdalen Burleson
CITY CLERK

Leni Sitnick
MAYOR

Tuesday - June 8, 1999 - 5:00 p.m.

Regular Meeting

Present: Mayor Leni Sitnick, Presiding; Vice-Mayor Edward C. Hay Jr.; Councilman M. Charles Cloninger; Councilman Earl Cobb; Councilwoman Barbara Field; Councilman Thomas G. Sellers; and Councilman O.T. Tomes; City Attorney Robert W. Oast Jr.; City Manager James L. Westbrook Jr.; and City Clerk Magdalen Burleson

Absent: None

INVOCATION

Councilman Cobb gave the invocation.

I. PROCLAMATIONS:

II. CONSENT:

A. MOTION SETTING A PUBLIC HEARING ON JUNE 22, 1999, TO CONSIDER THE INITIAL ZONING OF CITY-OWNED PROPERTY LOCATED OFF OF FERRY ROAD (BENT CREEK AREA) TO RS-2 RESIDENTIAL SINGLE FAMILY LOW DENSITY DISTRICT

B. MOTION SETTING A PUBLIC HEARING ON JUNE 22, 1999, TO CONSIDER A MODIFICATION FROM THE SUBDIVISION STANDARDS FOR PROPERTY LOCATED OFF OF SAND HILL SCHOOL ROAD

C. MOTION SETTING A PUBLIC HEARING ON JUNE 22, 1999, TO CONSIDER AN AMENDMENT TO THE UNIFIED DEVELOPMENT ORDINANCE TO ELIMINATE ACCESSORY STRUCTURES AS A PERMITTED USE IN ALL RESIDENTIAL DISTRICTS

D. RESOLUTION NO. 99-84 - RESOLUTION AUTHORIZING THE CITY MANAGER TO ENTER INTO A CONTRACT WITH HOBSON CONSTRUCTION CO. FOR THE BREVARD ROAD ANNEXATION AREA EAST OAKVIEW ROAD SANITARY SEWER IMPROVEMENTS

Summary: The consideration of a resolution awarding the contract for the Brevard Road Annexation Area East Oakview Road Sanitary Sewer Improvements to the lowest responsible bidder, Hobson Construction Company Inc. in the amount of $67,075.

This project is part of the proposed Brevard Road Annexation Area Sanitary Sewer Improvements. The project consists of installing approximately 1200 linear feet of eight inch sanitary sewer line to serve existing residences on East Oak View Road.

On Friday, May 7, 1999, at 5:00 p.m., the Engineering Department received three bids for the project as follows:

Hobson Construction Co., Arden, N.C.	$67,075
Tennoca Construction Co., Candler, N.C.	$85,119
Steppe Construction Co., Mills Spring, N.C.	$95,472

The lowest responsible bidder for this project was Hobson Construction Company Inc. with a bid of $67,075.

Hobson Construction Company has performed several projects of this nature for the City of Asheville in the past without any major problems.

The construction time for this project is 30 calendar days listed in the contract documents. The contract documents stipulate liquidated damages in the amount of $250 per calendar day if the contractor shall neglect, fail or refuse to complete the work within the time herein specified.

Staff recommends that City Council adopt the resolution awarding the bid for Brevard Road Annexation Area East Oakview Road Sanitary Sewer Improvements to Hobson Construction Company Inc., the responsible low bidder, and authorize the City Manager to execute all necessary agreements and contracts.

RESOLUTION BOOK NO. 25 - PAGE 221

E. MOTION APPROVING THE COMPREHENSIVE SUSTAINABLE ECONOMIC DEVELOPMENT STRATEGIC PLAN IMPLEMENTATION PROCESS

Summary: The consideration of (1) approving appointment of a specialized task force to oversee implementation of the Comprehensive Sustainable Economic Development Strategic Plan, and (2) authorize staff to develop a list of candidates for the task force and to present that list to City Council for approval.

Dr. David Kolzow, Consultant with Lockwood Greene Consulting, and an associate have met with numerous individuals throughout the community, as well as with a number of boards and commissions. The next step in the strategic plan is the worksession to be held on June 11, 1999. The purpose of the worksession is to review the results of the leadership survey, the citizen survey and the Lockwood Greene Consulting assessment of the local strengths and weaknesses. From this discussion, we will develop a list of issues that need to be resolved and the groups will set priorities. This group of issues then needs to be evaluated by a citizens' group who would recommend how to achieve the results noted in the issues, where the funding if needed will come from, and who would be responsible in the final priorities.

Dr. Kolzow suggests there is a need for a specialized economic development strategy group of no more than ten (i.e. principal owners/executives within the business community) to work with him and staff over a period of months. The results of their work would be brought to City Council for review and approval.

Staff and Dr. Kolzow recommend that City Council authorize staff to develop a list of candidates to work with Dr. Kolzow on the last step of the Comprehensive Sustainable Economic Development Strategic Plan and to present that list back to City Council for approval.

F. RESOLUTION NO. 99-85 - RESOLUTION AUTHORIZING THE CITY MANAGER TO APPLY FOR AND ENTER INTO AN AGREEMENT WITH THE N.C. DEPT. OF ENVIRONMENT AND NATURAL RESOURCES FOR A GRANT TO DEVELOP PHASE II OF THE MASTER STREET TREE PLAN

Summary: The consideration of a resolution to apply for grant funds available with the N.C. Dept. of Environment and Natural Resources to develop the second phase of the Master Street Tree Plan.

Funds are available through the State of N.C. Dept. of Environment and Natural Resources, Division of Forest Resources in the Urban and Community Forestry Grants Program, to improve urban forest resources.

The Parks and Recreation Department is responsible for developing a Master Street Tree Plan (MSTP) for street trees on City right-of-ways located within the city limits of Asheville. The existing inventory is almost fifteen years old and no longer accurately reflects the trees of the City. Phase II of the process will specifically identify the location, size, condition, and site conditions of trees located in the south district of Asheville. The MSTP will help serve as a critical link in developing a long term management plan for Asheville's urban trees, provide information for future tree planting and forestry planning, and provide educational and volunteer opportunities for community organizations.

The Parks and Recreation Department is requesting $10,000 in grant funds which requires a 100% match. The in-kind match is located in the Parks Division budget and will include supplies, transportation, volunteer hours, and project management.

The Parks and Recreation Department recommends City Council authorize the City Manager to apply for and enter into this agreement if the City receives the grant award.

RESOLUTION BOOK NO. 25 - PAGE 223

G. ORDINANCE NO. 2578 - BUDGET AMENDMENT TO PURCHASE EQUIPMENT TO BE USED IN THE ALUMNI ROOM AT STEPHENS-LEE CENTER

Summary: The consideration of a budget amendment, in the amount of $5,000, to purchase equipment to be used in the Alumni Room at Stephens-Lee Center.

The Stephens-Lee Alumni Association has raised $5,000 through donations to be used specifically in the construction of the Alumni Room at Stephens-Lee Center. This Alumni Room will serve as a meeting room for the association and a display area for the archives from the old Stephens-Lee High School. Through numerous donations the Stephens-Lee Alumni has collected funds for this purpose. The $5,000 will be added to the current project fund and equipment will be purchased through the City of Asheville purchasing procedures. The equipment to be purchased consists of office furniture including desk, chairs, credenza, computer stand, conference table and chairs, display cabinets and computer hardware and software consistent with equipment approved by the City's Division of Information Services.

The Parks and Recreation staff recommends Council approval of the budget amendment to appropriate $5,000 to the Stephens-Lee Renovation Project to be used to purchase equipment for the Alumni Room.

ORDINANCE BOOK NO. 17 - PAGE 344

Mayor Sitnick said that members of Council have been previously furnished with a copy of the resolutions and ordinances and the Consent Agenda and they would not be read.

Councilman Sellers moved for the adoption of the Consent Agenda. This motion was seconded by Councilman Tomes and carried unanimously.

III. PUBLIC HEARINGS:

A. PUBLIC HEARING RELATIVE TO THE 1999-2000 ANNUAL OPERATING BUDGET

Mayor Sitnick opened the public hearing at 5:12 p.m.

City Clerk Burleson presented the notice to the public setting the time and date of the public hearing.

Budget Director Ben Durant said that this is the public hearing that City Council holds each year to receive public input on budget issues before the Annual Operating Budget is adopted.

The Fiscal Year 1999/2000 Annual Operating Budget was presented to City Council on May 13, 1999. In accordance with the North Carolina Local Government Budget and Fiscal Control Act, a summary of the Budget along with a notice of this Public Hearing was published on May 28 and June 4, 1999. The adoption of the Budget ordinance is scheduled on June 22, 1999, at the City Council meeting.

The Fiscal Year 1999/2000 Annual Operating Budget was balanced with an ad valorem tax rate of $.52 per $100 of assessed value; however, several important priorities, including funding for new parking decks, are not included in this budget. It is recommended that Council consider strategies presented during Council worksessions to increase revenues to fund additional priorities.

A copy of the budget is available for public inspection in the City Clerk's Office. In accordance with the North Carolina Local Government Budget and Fiscal Control Act, the budget may be changed by City Council in any way before adoption. It may also be changed by budget amendment after adoption with the only exception being the ad valorem tax rate, which cannot be changed once adopted.

Mr. Brian Peterson, Vice-President of the Coalition of Asheville Neighborhoods, hoped that City Council would increase the traffic calming budget. To that end, he suggested (1) not hiring a City Center Director; (2) investigate duplication of services in the economic development office and the Chamber of Commerce; and (3) not hire a Public Information Officer. He was pleased with the raise of starting salaries for Police Officers and not raising property taxes. He suggested City Council consider a modest bond proposal for streets and sidewalks.

Mr. Peter Levnick, friend of the West Asheville Library, was concerned about the loss of the library meeting room. He urged City Council consider appropriating money to join the funds that have been offered by Buncombe County and the Library Trust Fund to help them build a new meeting room on the site of the library. He also hoped that City Council would consider deeding the property that the new facility would be built on to the library. He said that it was his understanding that Buncombe County has offered $100,000, the Trust Fund has offered $50,000 and he hoped the City would consider $50,000 as well, in addition to deeding the property to the library.

City Manager Westbrook said that a meeting was held within the last six weeks on this issue. The City did not agree at that time to do any funding but they would at least consider deeding the land over at the appropriate time. He also said a point was also brought up about rezoning. He said that the City could not make any commitments, but that it would have to be treated like any other land use issue and brought to Council at the appropriate time.

When Councilman Cobb asked that the Library issue be on the next worksession agenda, Councilwoman Field said that at that meeting, she felt the City was very clear that this was something that City Council would not consider in this year's budget because it was too far along and this would be a major impact on the budget. She agreed that Council needs to discuss this issue, but the City needed to see how much money they would need to put into the existing building to deal with Building Code and ADA issues. She noted that it is much more complicated that just deeding the land over. She suggested City Council deal with this in the next budget. City Manager Westbrook said that staff will gather the information requested and schedule it on a worksession agenda.

Mr. Tony Gilbert, Deputy Chief of the Asheville Area Rescue Squad, asked City Council to reconsider funding the Rescue Squad. He passed out to Council a list of things that the Rescue Squad does for the City of Asheville. He said they are all volunteers and do not get paid for their services, for their training or for their equipment. The funding will help maintain the vehicles they have and to pay for gas for the vehicles to get to the calls to help the citizens of Asheville. He said that they provide services at Bele Chere, the Martin Luther King March and Prayer Breakfast, Walk America and Hay Day at the Nature Center. If the City takes over just the services they provide at Bele Chere, it will cost approximately $10,000. Also, the City will have to replace a Herst Tool at a cost of $14,500 which is on loan from the Rescue Squad.

Ms. Carol King, Chair of the Asheville Downtown Commission, asked City Council support the funding of the line items in the proposed budget to pay for the technical assistance for the Asheville Center City Plan and for the new position of the new Center City Director to be involved in the planning initiative and to assist with implementation strategies. The Plan is proposed to be a joint venture of the public and private sector and several local community leaders have committed to be a member of this public/private initiative.

Ms. June Lamb, resident on Carrier Street, recommended (1) no money for annexation be considered, (2) no money for a Center City Director; (3) no money for a Public Information Officer; and (4) no budget for marketing of the City. She felt the City should not hire out of state consultants, unless none exist in Asheville or Buncombe County. She suggested the Mayor appoint a Study Commission with representatives from all parts of the Asheville area and report back to Council in terms of a better method of preparing and reviewing the budget. She felt that many people are feeling that we do have taxation with representation and that a new mission statement for the City needs to be developed.

Mr. Don Yelton said that regarding the water rate increase, 2-1/2 percent of what the water bills collect go to the County and is used to pay on the Airport Authority Bond. The Airport Authority has a $12 million surplus as they did not build the garage. At the County Commissioners meeting, he suggested that the County possibly take that 2-1/2 percent and let the Airport pay their own bond indebtedness out of their $12 million Airport surplus (around $500,000). This would reduce the water bills by 2-1/2 percent. The County Commissioners said that if the City would do the same thing, the County would consider it.

Mayor Sitnick closed the public hearing at 5:45 p.m.

Mr. Durant said that the following are some additional issues regarding the budget that need further deliberation: (1) parking fees; (2) outside agency recommendations; (3) funding for renovation of the Institute of Government; (4) funding for the West Asheville Library; and (5) funding of the Council Chamber video equipment.

Using slides, Finance Director Bill Schaefer explained the past performance of the parking decks, debt service for existing decks, and past rate adjustments. He then reviewed the proposed parking fees and charges:

Fees & Charges Manual:

- On Street Parking	$0.75/hour
- Parking in Decks	$0.50/hour
- Monthly	$50.00/month
- Vanderbilt Apt Residents	$20.00/month
- Surface Parking Lots	$30.00/month
- "Bag" Meter	$10.00/day

Changes in the Code of Ordinances:

- Overtime Parking	$10.00
- Subsequent within 24 Hours	$20.00

Mr. Schaefer then answered various questions from Council, some being, but are not limited to: how much revenue would be realized if we raised on-street parking to $0.50 instead of $0.75; when estimating parking revenues, was growth estimated; how much revenue was received last year from on-street parking; how will the increase of revenue be used; what is the Local Government Commission's position on breaking even for an enterprise fund; how much money specifically goes into maintenance of the parking decks; has anyone looked into raising the $0.50/hour in the parking decks and how much money does that generate; and what is the condition of our existing decks.

Vice-Mayor Hay noted that City Council is not talking about the Grove Arcade Parking Deck at all and that Council is talking about increasing the fees so that the existing parking decks come closer to breaking even.

Councilman Cloninger agreed with Vice-Mayor Hay and noted that this is not only an effort to get the revenues closer to what the debt service is, but also we are trying to get employees who work downtown and who feed the meters all day to park in the parking decks.

Mr. Schaefer said that when the parking study was brought to Council, some of the downtown merchants came to City Council with a proposal of increasing the parking meters, at least in the Central Business District (which make up better than 50% of our parking meters) to $1.00 an hour.

Vice-Mayor Hay said that it is his understanding that the increase in the on-street parking comes out of the parking study, but it also has the support of the Merchants Action Coalition, the Downtown Commission, and the Asheville Downtown Association in order to get the employees off the street and into the parking garages.

Councilwoman Field said that since there is a waiting list for the Wall Street and Rankin Street decks, where do all the employees park? Mr. Schaefer said that there is several hundred spaces in the Civic Center deck.

Councilwoman Field said that she can understand why people don't want to park in the Civic Center deck because every time there is a special event, they cannot park in there. Mr. Schaefer said that when that occurs, which happens probably less than five times a year, they have provided them other parking or compensation.

Councilman Cloninger said that when you look at the impact of parking decks downtown, you can't simply look at what the revenues of them are versus what the debt service on them is. The decks have had a tremendous role in economic development for downtown and that of course has resulted in tax revenues that have come to the City in other ways in the form of appreciated property values, in sales taxes, etc. They have been major tools in the revitalization of downtown.

City Manager Westbrook said that either tonight or at a subsequent worksession, prior to June 22, 1999, staff will need guidance from Council about the additional issues outlined earlier by Mr. Durant.

Mayor Sitnick said that the City is not building a deck for the Grove Arcade Public Market. She explained just as we've named decks according to the area of downtown that they exist in, the deck was named the Grove Arcade deck. She said that it was interesting to note that the City has not raised the parking meter fees in nine years given the fact that downtown Asheville has been revitalized. She said that when we compare ourselves to other cities, we are not out of line in raising our rates to $0.75/hour.

Councilwoman Field said that when the monthly rates in the decks where increased about four years ago, she thought the direction to staff was that we have more regular rate increases so that we wouldn't have to be in the same position that we are in right now - hurting the smaller businesses that just barely afford to work downtown and park in the decks. Mr. Schaefer responded that this was put off for two years in order to wait for the results of the parking study to see what their recommendations would be and then go out to the public.

Upon inquiry of Councilman Cloninger about the possibility of having some policy that for those employers who buy major blocks of spaces for their employees, whether we can give them some sort of group rate, Mr. Schaefer said that the City is precluded from doing that on the Wall Street and Rankin Street decks, as long as they are funded by tax exempt monies. The only place we have that discretion is the Civic Center deck.

Councilman Tomes felt it might be more appropriate to increase the rates on a year by year basis rather than waiting for years and then increasing them.

Mayor Sitnick said that she has received comments about the need of additional parking on Biltmore Avenue, the Grove Arcade area, and surface lots. Her concern is leaving the kind of legacy that was left to this Council whit it inherited the water system, the sewer system, and streets and sidewalks. The money wasn't put aside each year for maintenance, up-keep, expansion or replacement. Her concern is being timid now in spite of the fact that it will be somewhat of a hardship on some folks and not having enough for future needs.

Councilman Cobb was concerned about the adverse impact of the economy of downtown to raise the rates from $0.25 to $0.75. He felt we should increase the rates in stages, like $0.50 this year and then in $0.10 increments.

City Attorney Oast said that the law specifically provides that ordinance procedures are not applicable to budget so the procedures for giving staff direction on budgetary matters are much more lax. He said Council can take those kinds of votes at the next worksession if those votes are the kinds of things that give staff direction on certain items.

Councilman Cloninger updated City Council briefly on the results of the Outside Agency Committee meeting. He said that after looking at the additional information requested, the Committee's recommendations are basically the same in that they unanimously agreed to support it's original funding recommendations that were presented to City Council at the May 18, 1999, budget worksession.

Upon inquiry of Councilwoman Field, Fire Chief John Rukavina stated that the Rescue Squad has done a very good job in the past. He said that the Asheville Fire Department has developed a contingency plan and they believe that they can deliver the same level of service without any additional costs to the City. With regard to the Herst tool the Rescue Squad has graciously loaned to Fire Station 8, over the years the Fire Department has developed a rescue capability and they now have three Herst tools.

When Councilman Sellers asked if the City was required to fund the Rescue Squad as part of the Water Agreement, City Manager Westbrook said it was his recollection that it did not require the City to fund that each year in the budget. He recalled that it basically said that it was an annual budget decision.

Mr. Durant reviewed with City Council the two phases of the Council Chamber video equipment renovation project. Approximately $50,000 for Phase I will provide improved audio quality in the Council Chamber as well as the transmission and support equipment necessary to establish a connection between the City's system and the InterMedia system. When the transmission is complete, staff can begin airing live telecasts of Council meetings. The $50,000 in Phase I will not be sufficient, however, to allow for the purchase and installation of the camera, recording and support equipment necessary for City staff to record Council meetings or begin developing in-house production capabilities. Approximately $58,000 for Phase II will allow the City to complete the video equipment installation project and bring the full system on-line. The necessary cameras, recording and playback equipment will be provided during Phase II to provide staff with in-house recording and programming capabilities.

City Manager Westbrook said that other meetings will be able to use the Council Chamber, however, Council must consider the wear and tear on the equipment, the extra cost of producing additional meetings, the expense of staff who have the knowledge of the equipment or the expense of hiring InterMedia on a case by case basis.

City Manager Westbrook and Mr. Durant responded to various questions and comments from City Council, some being, but are not limited to: what did the garage signage line item in the Capital Improvement Project consist of'; the need to add to the streets and sidewalks improvements list; when will the Grove Arcade be in operation; what additional information will be provided for the $50,000 for the annexation study; and how far along is the City in hiring a Public Information Officer and what are the legal ramifications if the City decides not to fund that position.

Councilman Cloninger felt that the City should still come in with a budget that only takes $100,000 from Fund Balance.

Mr. Durant said that he needs direction from City Council on the request for the renovations of the Institute of Government. The request is that the City pledge an amount equal to its one year membership to the Institute of Government which could be paid over a three year period. That amounts to $6,709 per year for three years, or $20,127 in total.

At 7:16 p.m., Mayor Sitnick announced a short break.

Vice-Mayor Hay questioned the timing of the Center City Director and the Center City Plan. He said that he would like to discuss this further at the worksession of whether it had to be done this year or next year and how that all fits together, and whether they both needed to be done at the same time. He also wanted to discuss further the hiring of the Public Information Officer.

Mayor Sitnick wanted to find more money for traffic calming. She was concerned that if the N.C. Dept. of Transportation doesn't agree to the non-betterment costs, whether or not we need to find money elsewhere to pay for those enormous amounts. She wanted to discuss (1) hiring more people in Code enforcement, (2) hiring a full-time grants officer for the City, (3) and the Chamber of Commerce outside agency funding (not cutting it out entirely, but to phase it back a little bit).

Councilman Cobb said that what he's hearing from the community is that if there is extra money, we should put it into streets and sidewalks and take care of the basic services first.

Councilwoman Field moved to continue the Council's consideration of the budget at the June 15, 1999, worksession. This motion was seconded by Councilman Sellers and carried unanimously.

At the direction of City Council, City Manager Westbrook said that he would prepare a short report on each of the addition items reviewed by City Council today and have it available for City Council at their June 15 worksession.

IV. UNFINISHED BUSINESS:

A. ORDINANCE REQUIRING THE POSTING OF PRIVATE PARKING LOTS IN DOWNTOWN ASHEVILLE

City Attorney Oast said that this is the consideration of an ordinance requiring that private parking lots in the downtown area be designated as private. This proposal has been before Council on several previous occasions.

Council and staff have received complaints about enforcement of parking restrictions on private parking lots, primarily related to the towing of vehicles from those lots. Research indicates that local regulation of "motor private carriers with respect to the transportation of property" is pre-empted by federal law. This preemption has been held to apply to non-consensual towing of vehicles from private lots. The effect of the federal law is that cities may not adopt regulations affecting the manner in which privately initiated towing is carried out. To the extent that the federal government does not prohibit local regulation of towing, it appears that, in order for the City to do so, specific authorization would have to be found in State law.

Some North Carolina counties are subject to a law that requires posting of lots as a pre-condition for towing from those lots. Buncombe is not one of those counties. However, there appears to be general authority by which the City can require that private lots be so designated, and to provide that failure to comply subjects the offender (the owner or operator of the lot) to a civil fine. This does not mean that unauthorized vehicles parking in private lots may not be towed or that vehicles must be towed from lots that have signs. However, it may reduce the level of inadvertent unauthorized parking, and thus reduce the number of non-consensual tows.

This application of this ordinance is limited to the Central Business District zone east of the French Broad River; we have had very few complaints from other areas of town. At your meeting in March, some concern was expressed over the "all or nothing" approach that the original proposed ordinance appeared to take. Accordingly, revisions have been made to require the designation of all private parking lots in the CBD, and the hours during which towing is or may be enforced.

At a meeting of the Downtown Commission, it was suggested that uniform signs might aid in further reducing unauthorized use of private lots. Language has been included to permit the City to produce and provide such uniform signs.

At Council's meeting on May 11, 1999, concern was expressed about requiring the posting of private lots when the owners do not routinely tow unauthorized vehicles and do not wish to post signs. Concern was also expressed about specifying the size and content of such signs. In response to those concerns, the ordinance has been revised to require only that private parking lots be posted. The limitation to six square feet is consistent with the sign ordinance. If a private lot is not so posted, and the owner or operator wishes to remove a vehicle, the ordinance provides that the procedures specified in Article II of Chapter 10 of the City Code (Abandoned and Junked Motor Vehicles) must be followed. The amount of the civil penalty for non-compliance is reduced from $50.00 to $10.00 and is not subject to criminal penalties or injunctive remedies.

The ordinance will become effective sixty days after adoption.

To the extent that this ordinance may help reduce the number of situations where non-consensual tows can occur, its adoption is recommended.

Considerable discussion surrounded this issue.

At the suggestion of Councilwoman Field, City Attorney Oast said that he would investigate the possibility of drafting special legislation that will allow the City to do what they want to do with regard to requiring the posting of towing signs in private parking lots.

With regard to complaints of towing rates, etc., City Manager Oast said that those complaints should be sent onto the Attorney General's Office.

Mayor Sitnick wanted to make sure that Sonny's Towing is not on the rotation list of towing companies that the City uses.

City Attorney Oast said that he has heard that the Attorney General's Office had filed a complaint against an organization somewhere else in the State that was towing in situations very similar to what we have in Asheville. He will follow-up with them and report back to Council.

City Attorney Oast also said that the would write a letter for the Mayor's signature to the Asheville Merchants Coalition, the Asheville Downtown Association, and property owners in downtown, that the City would appreciate their posting their lots in a consistent manner.

V. NEW BUSINESS:

A. RESOLUTION NO. 99-86 - RESOLUTION AMENDING THE FEES AND CHARGES MANUAL FOR PARKING GARAGES AND PARKING METERS

B. ORDINANCE NO. 2579 - ORDINANCE AMENDMENT REGARDING PARKING METER FEES FOR LIMITED EVENTS FOR MOTOR VEHICLES

C. RESOLUTION NO. 99-87 - RESOLUTION SETTING THE SPECIFIC LIMITED EVENT FEES FOR HONDA HOOT 1999

Finance Director Bill Schaefer said that this is the consideration of: (1) a resolution amending the Fees and Charges Manual for Parking Garages and Parking Meters; (2) an ordinance amending the Code of Ordinances regarding parking meter fees for limited events for motor vehicles; and (3) a resolution setting the specific limited event fees for Honda Hoot 1999.

The Honda Rider's Club of America has sponsored the Honda Hoot Rally in Asheville, North Carolina, for the past five years, and desires to bring the rally to Asheville again in 1999. In prior years, the rally organizers have worked with City Finance Department staff to utilize the Civic Center parking garage and on-street metered spaces for rally registrants. Honda pays the City for an agreed upon number of spaces and offers those spaces free of charge to rally registrants as part of their registration package. Because the rally has grown so much in the past few years, Honda and City Finance Department staff desire a more manageable method of parking motorcycles while offering the same convenience to rally registrants as in years past.

The following are the specific "limited event" fee arrangements proposed by Honda Riders of America, previously endorsed by the Fees and Charges Committee of City Council for Honda Hoot 1999 and included in the proposed resolution:

- Honda will produce and provide a sticker, suitable for affixing to motorcycle headlamp, indicating payment of a parking fee.
- For each advance registration (estimated to be 3,000), the fee will be $0.50.
- Honda will produce and provide additional stickers to be sold by City of Asheville staff to on site registrants (estimated to be 1,000) for a fee of $3.00 each, all of which will be revenue to the City.
- Motorcycles bearing headlamp stickers will be allowed to park in a designated area of the Civic Center parking garage, and at metered spaces throughout the downtown area for the duration of the rally.

City staff recommends City Council adopt the enabling resolutions and ordinance.

Mr. Schaefer said that the proposal under consideration from the Honda Hoot is that the City arrange the special limited event fee for them for this year for the period of June 22-26, 1999, of 50 cents remitted to the City for advance sales and $3.00 for on-site sales. Last week City Council instructed him to talk to Honda Hoot in an attempt to increase the mutually agreed parking payments to $3.00 for advance and $5.00 on site. He was unable to obtain Honda Hoot's consent to that and dialog continued throughout the week on various alternatives.

He reviewed the following:

	Actual 1998	Individuals Feed Meters Plus Deck	'Bag' Meters Plus Deck	Honda Riders' Proposal	
				4,750 Participants	6,000 Participants
On-Street Meters	$1,300	$1,150	$2,300		
Deck Rental	$1,800	$3,375	$3,375		
Advance Sales @ $.050				$1,875	$2,000
On-Site Sales @ $3.00				$3,000	$6,000
Total Revenues	$3,100	$4,525	$5,675	$4,875	$8,000

Since the time this chart was prepared, Honda Hoot has already arranged to have some of the streets in the vicinity of the Civic Center barricaded and closed to traffic, so they already have those streets available for parking. Therefore, the estimated figures for on-street meters is grossly highly of what the maximum revenue from that area could be generated. Again, if everyone fed their own meters, with no advanced sales, and with renting the deck for full special event prices for the entire event time, the maximum revenue would be $4,525. Their proposal actually brings in more money than we would get from charging the full fees. He, therefore, recommended City Council adopt the resolution setting the specific limited event fees for Honda Hoot 1999 at $0.50 for advance sales and $3.00 for on-site sales.

Upon inquiry of Councilman Cloninger, Mr. Schaefer said that Items A & B do not specifically talk about the amount that will be charged for the Honda Hoot parking. Currently, the City's Fees and Charges Manual has no provisions for non-standard parking fees in the garages or on-street and the Code of Ordinances does not allow parking at meters during hours of enforcement without depositing a coin. As a result , in order to provide a non-standard fee during Honda Hoot, it is necessary to amend the Fees and Charges Manual and the Code of Ordinances. These amendments will enable the future use of "limited event" fees not only for Honda Hoot; but also, any other limited events involving motor vehicle parking in garages and at meters. A resolution of City Council will be required to set the specific cost of the fee for each "limited event".

Councilman Tomes said that last week he had said that since the mailing had already gone out to the participants, the City should let the Rally proceed this year with the proposal by Honda Hoot. After seeing the chart presented by Mr. Schaefer, he is more inclined to proceed with the Rally proceeding with their $0.50/$3.00 proposal.

Mayor Sitnick said that members of Council have been previously furnished with a copy of the resolution and it would not be read.

Councilwoman Field moved for the adoption of Resolution No. 99-86. This motion was seconded by Councilman Tomes and carried unanimously.

RESOLUTION BOOK NO. 25 - PAGE 224

Mayor Sitnick said that members of Council have previously received a copy of the ordinance and it would not be read.

Councilman Cloninger moved for the adoption of Ordinance No. 2579. This motion was seconded by Councilman Sellers and carried unanimously.

ORDINANCE BOOK NO. 17 - PAGE 346

Mr. Charles Keller, with the American Honda Motor Company representing the Honda Hoot, "thanked those of you who I was able to get in touch with and try to clear up what our proposal was for trying to remunerate the City for the parking spaces that were utilized. We enjoy coming here a lot but we also enjoy having some parking places there. The outline that Mr. Schaefer put out was very accurate and I went ahead and put together some documents to reinforce those also. The point that I would wind up making is that in early September following last year's Honda Hoot, we made contact with the City because we were concerned that perhaps we hadn't done our diligence in keeping communication going freely between us. At that time, met with the Mayor and City Manager and wound up pointing out some areas that we felt needed to be worked on and an agreement was arrived at. On the 29th of September a document was sent to the City which outlined our proposal and that is the proposal that said $.050 per pre-registrant and $3.00 for on-site registrant. Honda would absorb the cost of printing decals - these would be ones that couldn't be peeled off the motorcycle without damaging them, so they couldn't be transferred. On the second page of that document, we actually go through our figures which show our rationale in offering this up and we had all intents of meeting or exceeding what the maximum occupancy would have been if all of the places were filled in the Civic Center as well as three floors on the Civic Center parking lot. If you take a look at the numbers, we propose to bring $500 more, at least, into the City coffers. So what I'm saying here is we were trying to due diligence and hopefully it's not misunderstood that we were trying to get something for nothing from the City."

Mayor Sitnick said that she had "a problem with the Honda Hoot proposal recognizing that you have done due diligence, recognizing that the numbers compute as has been presented by staff and by our proposal. Earlier this evening we had a lengthy discussion about parking meter rates and deck rates and what we're going to be charging the employers, the employees, and the taxpayers in this City to park and I just think that $0.10 a day creates too much of a gap between what we are going to be asking our local citizens to pay, or tourists to pay, our downtown store owners and merchants and employees. And when we are asking them to put $0.75 an hour into a parking meter and $0.50 an hour into a deck space, I can't feel comfortable with charging $0.10 a day to someone coming in with the Honda Hoot. Now I welcome the Honda Hoot and I think the City makes great effort to accommodate all of the folks who participate in it. We look forward to it, but I don't know how I would ever explain to a local taxpayer why they are being asked to pay $0.75 an hour and a visitor to the City being asked to pay $0.10 a day. I would like to propose something that I think is accommodating to the Honda Hoot and yet a little more fair for our local citizenry, our local taxpayers. And I believe last week we talked about the possibility of asking if you would agree to" $3.00 for advance registration and $5.00 on-site registration for the entire period, not a daily fee.

Councilman Cloninger said that Councilman Cobb proposed the $3.00/$5.00 fees and he agreed with the Mayor's comments. He felt it would send a terrible message to agree to this and have people park for $0.10 a day at a time that we are otherwise going up on our rates. He said that "$3.00 for a five day period - if any of us could go to any city in the country and be told that we could stay for five days and only spend $3.00 to park there for the entire time, we'd jump on it. I think Earl had a good idea last week and I think it's still a good idea."

Mayor Sitnick said that "just for those of you who weren't here at the worksession, we talked about $3.00 for pre-registrants and $5.00 to the latecomers. We also talked about $5.00 to the pre-registrants and $10.00 to the latecomers. I don't want to make the Honda Hoot folks uncomfortable, like I said we want you to feel comfortable here. But, again, I don't think this is an unreasonable request on our part. I feel badly that you have already sent our literature stating that it would be $0.50 for the five day period, but I believe that it was clear from the beginning that this required Council's approval and we had not approved it yet."

Mr. Keller said "a couple of items that I would like to bring up and reiterate. In September when we were here for our preliminary meeting with the City and we met with you, at that time you told me that I needed to deal with the City Manager - that he would be making the decision on what the rates would be. Within a week of that meeting, the letter was sent to him and the proposal of which I have included a copy for you in which the City Manager says to work this agreement out with Bill Schaefer who's the Finance Director - as we have done for the past five years that we have been coming to this area, So we had no idea that this goes before Council. We asked, no fewer than five times, if we had to bring this to Council - we were told 'no' this was an internal affair and that it did not have to go before Council."

Councilman Cloninger asked "who on behalf of the City told you each of those five times?"

Mr. Keller said "we have two letters from the City Manager. I have twice that we've talked with Bill Schaefer and once that we've talked with Deborah Crowder."

Mayor Sitnick said "in none of those letters are there any numbers."

Councilman Cloninger said "you said five different times you were told by the City that it didn't require Council approval. Who did you talk to?"

Mr. Keller said "as I said, Bill Schaefer, talked with Deborah Crowder and as the letter points out, we were told that the point person would be Bill Schaefer as he has been for the past five years. So we had no idea there had been a change."

Mayor Sitnick said "let me stop you right there, Charlie. I took the liberty of getting the verbatim minutes from that meeting and I'd like to quote Councilman Cloninger whose wisdom early on in this is reflected in what we're trying to do tonight. 'Councilman Cloninger said that it sounds like, rather than considering at this point what we would be willing to do for Honda, if anything, we need to develop an overall policy that is fair, consistent, also has enough flexibility to take into consideration what the economic impact of a particular convention might bring. He said he would like to explore the idea of what some of the other communities are doing and also what City staff may be able to think of that might help the City develop a policy that looks at some of the larger conventions that come to the area.' Now, one of the main jobs city councils are mandated to do is to develop policy. There's only one way to do that. We have to vote on it and anything that gets four or more votes becomes policy. So, it was clear during that meeting that we were really interested in looking at developing a policy and that's what we did. We went further and then put it before staff. But staff doesn't make policy - City Council does."

Mr. Keller said "as I said, we went ahead and made this proposal early last year. One of the things that comes up, I think, that brings this to a head, is that you're having to deal with a very tough task right now and that's to raise the rates for the local residents. I did the math on raising those rates and you know, next year I have no trouble in paying those rates. The problem that I have this year is that prior to our sending our publication out saying what parking would be, we felt we had an agreement with the City. Just as you had some disdain for the towing company, Sonny's, I kinda feel I'm getting a Sonny's tow job here tonight."

Councilman Cloninger asked Mr. Schaefer "if at any point did you tell anyone with the Honda Hoot that this would not require City Council approval?"

Mr. Schaefer said "no sir. It's been obvious from the entire time that it requires Council action. What I told Mr. Keller was that he, nor Honda Rider's Club representatives, need to be here for the presentation to Council, but, as shall we say some sort of a documentation of that, it should go all the way back to we first attempted to put this on your agenda as a resolution only, back in I believe was February or March. It was pulled in that it needed to go to the Fees and Charges. Right out of the Fees and Charges we had it back on your agenda at the beginning of May and it was pulled because we needed the ordinance change and such. So it was never any understanding on my part that there would be anything other than your approval. And I think if you go back to your draft agendas, you'll see those sitting on there - all the way back then. But I must say Council, that when the instructions were provided that Mr. Keller was to deal with me and we worked out an agreement, a tentative agreement, based on their proposal that has the potential to pay the City more than if they walked in the door and paid full existing rates, I have a problem with understanding where you're coming from on this one. I very much understand the temporal situation of the increasing rates for the residents in the long-term. I fail to understand the direction that I have received."

Councilman Cobb said last week when he made the proposal, he was not aware that they were only talking about 93-95 parking meters, not the 750 meters in the entire City, and 225 spaces in the parking deck. The formula they have worked out will generate more money than we would get at full prices.

Mr. Schaefer said that "the numbers I had there last year of the meter rates ($1,300 that I said were extremely generous) - that's the entire City's meters and the difference between the average for the three week period and the Honda Hoot period. So I have a difficult time understanding how we can go back and charge these people more than the full-paying published rate."

Councilman Cloninger said that he respected that position and he "thinks that's one of the considerations that we should think about when deciding what to do. But I respectfully disagree that as long as you just slightly get us over what our normal projections are, we ought to jump on that. Because I think there are other considerations. I think you have to consider this in the overall context of what we are doing with parking in general, what we're doing with rates. We can't consider this in a vacuum, Bill and with all due respect, I think that's what you are asking us to do. We need to consider it in a broader context. And I personally am sorry if you represented to the Honda Hoot people that you had reached an agreement with them. I don't recall us asking you to go and reach an agreement with them. What I recall asking you to do is to come back with a proposal to us. I do want to emphasis that if it was represented to Honda Hoot in anyway that we had an agreement, I'll vote for it - because we ought to stand by our word."

Mr. Schaefer said "no sir, we had no agreement - we had a proposal. And we had a proposal that I, as the staff representative, found to be a good proposal based on past history. So if that be the case, that was my mistake absolutely. However, this has also gone to Fees and Charges and Fees and Charges had the opportunity to review it and provided no additional guidance to staff."

Upon inquiry of Mayor Sitnick, Mr. Schaefer said that we have 735 meters in the entire City.

Vice-Mayor Hay said that he disagreed. "I think we're missing a big point here and that is the Honda Hoot brings in $7 million to this community and we need to take - we're not operating in a vacuum, and that is maybe the primary reason why we give them special consideration in this case. They came back to us last year and I know that the Honda Hoot can be difficult to deal with, because I've tried to talk to them myself. But, the truth of the matter is that this is the biggest convention that we have in town and it's unique because it brings the motor vehicles to town. Ten thousand Amway conventioneers wouldn't have the same problem that the Honda Hoot does. But for us to be willing to accommodate an event like the Honda Hoot in order to get those people into town to spend money and to make this a healthier economy, I think is something that this City Council ought to be willing to do. And you know there's more to it than just bringing in the money. The Civic Center gets revenue from being filled up with people buying Coca-Colas and all that kind of thing, and spending money at the Civic Center. We have the parking revenues and we've demonstrated here that this is not an issue of costing the City money in parking revenues. We have all the taxes that come back to us whether it be sales taxes, or the other benefits that we get from people coming to town and spending money. Hotels are healthier and restaurants are healthier from all the folks that benefit from the Honda Hoot being here. Also it shows off the City to 10,000 people who come here and have a good time. I think that we're missing the point if we don't take that as being one of the primary reasons why we ought to give this serious consideration. Now whether the deal is a good one or not for the City at this point, it looks like it doesn't cost us money. What I would say to our $0.75 folks is, we think this is good for the City, we think this keeps your taxes low, this is one thing we're doing trying to make this a better place for you to live and it's not really going to cost you anything in terms of parking. We're trying to accommodate these people because we want them here and we want them to come back."

Councilwoman Field agreed with Vice-Mayor Hay's comments.

Mayor Sitnick said that "nobody said that we don't want to accommodate the Honda Hoot. I think that's been clear from the beginning, but I think that $0.10 a day to park a vehicle in a parking space is not commensurate with the 1990's. You can't step on a scale to weigh yourself for $0.10 anymore. I would like to ask you - you say that $7 million is brought into the economy. I haven't seen those numbers."

Vice-Mayor Hay said that the Honda Hoot is a $7 million event, according to the Convention & Visitors Bureau - in terms of dollars that are spent.

Mayor Sitnick questioned "in Asheville? Not travelling around anywhere?"

Vice-Mayor Hay said "some of it's spent like in Chimney Rock Park."

Mayor Sitnick said "out on the parkway? Let me tell you some of the feedback I've gotten from folks since this came up. And again, we're not saying we don't want to accommodate the Honda Hoot, but not everybody feels that it benefits them. I've had calls from folks who asked about the fact that all these motorcycles are coming into town, they've asked about the noise, they've asked about streets being barricaded and the inconvenience to folks who live here, they've asked about air pollution which is a big issue in our newspaper lately. I have downtown merchants who have called me - many of them who say that the folks who attend the Honda Hoot never come into their store, the spaces are all taken up by the Honda Hoot folks and they lose business during the Honda Hoot. So all I'm saying is, as representatives of all the people, we have to consider those concerns that have been raised by citizens in this community as well. In addition to that, we appreciate the Honda Hoot wanting to come here and advertising Asheville with beautiful ads and enjoying this region and all of that. My brother has a Honda. I ride the Honda with him. I rode in the Toys for Tots on his Honda. I have nothing against Hondas or the Honda Hoot or the Ride for Kids. It's all wonderful. It's fun, it's exciting. That's not the point. But we have to represent all of the people and we can't set precedence. I mean tomorrow, every convention that comes in here is going to want the same deal. And so, in considering all of those issues, I hope Charlie that you can understand my position in this. It's not that we don't appreciate you. It's just that we have to look at the big picture and decide whether or not this is fair across the board, fair to others and whether or not we want to extend this same policy to other conventions that come in."

Councilman Sellers asked what has the Honda Hoot brought in the last four years. Mr. Schaefer said that he didn't have that information.

Councilman Sellers said that he agreed with Vice-Mayor Hay's comments. He said he's "heard it mentioned a couple of times comparing $0.10 to $0.75. We haven't gotten the $0.75 yet. It hadn't been voted in. We need to be looking at $0.10 to $0.25."

Ms. Angie Briggs, with the Convention & Visitors Bureau at the Chamber of Commerce, pointed out that you can park four motorcycles per parking space. Also, the motorcycles are not downtown the entire time they are here - it's just during the time they have events downtown or they are registering at the Civic Center or shopping or spending money downtown.

Mr. Don Yelton suggested that Council consider, if this is a $7 million event for this area, that you develop a policy that has a package on the number of spaces based upon the revenue that the event brings in. This then helps explain why you're reducing the rate to the citizen.

Upon inquiry of Ms. Hazel Fobes, Vice-Mayor Hay explained that there will not be specific spaces reserved for the Honda Hoot.

Mr. Keller said that "the City Manager asked specifically that we not bag meters because that would preclude you from going down there to park."

Councilman Cloninger said that even though the literature has been sent out, the Honda Hoot "should have known that it had to come to City Council ultimately, but the other thing they can do is as a result of what they did, they can still give us the money that would be the equivalent of the $3.00 for five days or the $5.00 - regardless of what they charge the people who attend the Honda Hoot."

Mayor Sitnick said that "how wrong is to charge $3.00 for an entire week of parking? In addition to that, we can talk about $7 million into the economy. I wish Ben Durant was still here. When you consider that there is six cents sales tax, help me out here Jim. Four cents goes back to the State. Of the two cents that's left - one penny goes into a pool. Of the other penny that's left, half a cent goes to the County and the other half is distributed according to point of purchase - and that's all that comes back to the City government. Now, I love the fact that $7 million goes into the economy for our merchants, for our restaurateurs, for our hotel and motel owners - that's wonderful. I want them to make all the money in the world they can. But when we're talking about what goes into the economy, as it pertains to the City, and the City is already giving the Honda Hoot much money in in-kind services, then we have to consider the fact that of those sale tax monies, not a whole lot comes back to the City government."

Mayor Sitnick said that members of Council have been previously furnished with a copy of the resolution and it would not be read.

Councilwoman Field moved for the adoption of Resolution No. 99-87, in that the limited event fee for parking during the entire time of Honda Hoot 1999 (from June 22-26, 1999) is $0.50 for purchase of a limited event fee sticker prior to June 22, 1999, and $3.00 for purchase of a limited event fee sticker during the Honda Hoot 1999 from June 22-26, 1999. This motion was seconded by Councilman Sellers and carried on a 5-2 vote, with Mayor Sitnick and Councilman Cloninger voting "no".

RESOLUTION BOOK NO. 25 - PAGE 229

D. RESOLUTION NO. 99-88 - RESOLUTION AUTHORIZING THE CITY MANAGER TO ENTER INTO AN AMENDMENT TO A CONTRACT WITH GENESIS GROUP FOR A DOWNTOWN TRAFFIC EVALUATION AS A RESULT OF THE CONCEPTUAL PLAN FOR PRITCHARD PARK

Mr. Alan Glines, Assistant Landscape Architect, said that this is the consideration of a resolution authorizing the City Manager to enter into an amendment to a contract with Genesis Group for a Downtown Traffic Evaluation as a result of the Conceptual Plan for Pritchard Park.

Since the February 1999 review to City Council and the subsequent meeting with the Council appointed committee, staff has revised and developed the proposed Scope of Work for the Downtown Traffic Evaluation and developed a Phasing Proposal for Pritchard Park. In association with the Engineering Department and the Parks and Recreation Department, Genesis has developed a Scope of Work for the Downtown Traffic Evaluation.

The Downtown Traffic Evaluation Proposal will include conducting traffic counts for the central corridor from College Street at Charlotte Street, westbound to Patton Avenue at South French Broad Avenue. In addition to traffic counts the study will review turning movements, traffic flow capacity and fire response timing as it evaluates the proposal of returning the downtown east-west traffic to a two-way system. The study will include a report that will outline design recommendations to implement changes at specified intersections, opportunities for on-street parking and loading zones and opinion of costs. The cost for the proposal is $37,149.

The proposal is subject to the review and approval by the Transportation Advisory Committee (TAC) which would amend the MPO Transportation Planning Work Program Budget for Fiscal Year 1999-2000. The City's share will be 20% and if approved by the TAC, the TAC will reimburse the City 80% of the cost of the Downtown Traffic Evaluation. The City currently has budgeted their 20% share and when they are reimbursed by the TAC for the 80%, an appropriate budget amendment will be presented to Council.

City staff recommends that Council give the City Manager authorization to enter into an amendment to a contract with Genesis Group for the Downtown Traffic Evaluation.

Mayor Sitnick said that members of Council have been previously furnished with a copy of the resolution and it would not be read.

Councilwoman Field moved for the adoption of Resolution No. 99-88. This motion was seconded by Councilman Tomes and carried unanimously.

RESOLUTION BOOK NO. 25 - PAGE 230

E. RESOLUTION NO. 99-89 - RESOLUTION APPOINTING A MEMBER TO THE REGIONAL WATER AUTHORITY OF ASHEVILLE, BUNCOMBE AND HENDERSON

Vice-Mayor Hay said that it was the consensus of City Council at the 6-1-99 worksession that City Council wanted to fill the vacancy left by Kevin Green on the Regional Water Authority of Asheville, Buncombe and Henderson County, with a City Council member. Councilman Sellers expressed an interest in serving on the Authority.

Ms. Hazel Fobes, Chair of the Citizens for Safe Drinking Water and Air (CSDWA), urged City Council to review the list of candidates (some who are fully qualified) who have submitted applications for the vacancy on the Water Authority. She stressed City Council is not obligated to have a member of Council on the Water Authority. She felt that before City Council makes a final decision, they need to interview the qualified candidates. She said she is not speaking against Councilman Sellers, however, she simply wants Council to know the other candidates out there. She said the aging water distribution system should be a major concern to City Council. Therefore, the Water Authority will need the advice of its member who should have expertise in water quality, water systems, in gravity flow, in mapping, in conservation, in water rates, in budgets and in bond issues. Their knowledge would help the Water Authority and the Director of Water Resources come to better conclusions.

Ms. Abby Gage, Environmental Chair of the Buncombe County League of Women Voters and employee of the Western North Carolina Alliance, suggested Councilman Sellers be appointed to the Water Authority in an advisory capacity. She agreed with Ms. Fobes in that the appointment should be someone who is selected for the skills and knowledge of water quality.

Upon inquiry of Ms. June Lamb, Councilman Sellers said that his term on City Council expires on December 7, 1999. Ms. Lamb felt that people with expertise should be appointed to the various boards.

Mayor Sitnick submitted a letter dated June 8, 1999, from Michael N. Lewis (Coalition of Asheville Neighborhoods), in which he does not feel "that a member of City Council (nor the Commissioners) should also be a member of the Water Authority. The ugly spectre of conflict of interest keeps raising its head in our community, and due to the technical aspects of the Water Authority's tasks, it makes sense to appoint people with technical expertise." She also submitted the fax memorandum dated June 8, 1999, from Vera Holland Guise (American Grassroots Unlimited) in that Ms. Guide urged City Council to "fill this and all board and commission positions with individuals selected expressly for their specific knowledge and skills pertinent to the position, and their records of demonstrated civic service."

Vice-Mayor Hay said that it is the usual trend to have a member of City Council on the Water Authority and this is the first time since Mr. Worley came off of City Council where there was an appropriate opening to appoint a member of Council.

Councilwoman Field noted that both Buncombe County and Henderson County have board representation on the Water Authority. She felt that the boards are policy setting bodies and staff are the professionals who have the expertise that City Council depends on. It is good to have a balanced representation on our boards. She spoke highly of Councilman Sellers and felt he would do a good job in representing City Council.

Councilman Cobb and Cloninger both agreed that the City Council needed to have representation on the Water Authority.

Mayor Sitnick said that when this vacancy came to the attention of City Council, they did review the list of candidates as thoroughly and as sensitively as they examine all applications for all boards and commissions. She felt that at this time City Council had equally two important considerations for the Water Authority vacancy: (1) someone who could represent the science and academic aspect of what is going on with water issues today (like Dr. Rick Maas); and (2) for the community to understand that the Water Authority is the body of government separate from City Council that sets the policy regarding the water system. We do not have a representative from City Council on the Water Authority. City Council can't set the policy, however, Council gets 95% of the complaint calls about the water system, water rates and water leaks. Having a member of City Council on the board will be of great benefit to City Council as those policies within the Authority are developed.

Vice-Mayor Hay moved to appoint Councilman Tommy Sellers to serve the unexpired term of Mr. Green, term to expire September 30, 2001, or until his successor has been appointed. This motion was seconded by Councilman Cloninger and carried unanimously.

RESOLUTION BOOK NO. 25 - PAGE 231

F. ORDINANCE NO. 2580 - ORDINANCE REGULATING SEXUALLY ORIENTED BUSINESSES

G. ORDINANCE NO. 2581 - ORDINANCE EXTENDING TEMPORARY MORATORIUM ON SEXUALLY ORIENTED BUSINESSES

City Attorney Oast said that this is the consideration of ordinances establishing additional restrictions on adult establishments, and extending the temporary moratorium by two weeks.

Senate Bill 452 (1997), ratified in 1998 and now codified at G.S. 160A-181.1, and elsewhere, permits municipalities to exercise a greater degree of control over sexually-oriented businesses within their jurisdictions. These regulations fall into two categories: zoning and general police power regulations.

Under the Unified Development Ordinance ("UDO") as originally adopted, adult establishments were uses by right, subject to special requirements. When it became apparent that Senate Bill 452 might become law, City Council took steps to preserve the status quo of the City with respect to adult establishments. In April of 1998, adult establishments were moved from uses by right subject to special requirements, to uses for which Conditional Use Permits were required. When Senate Bill 452 became law in August of 1998, Council adopted a temporary moratorium prohibiting new adult establishments or the expansion of existing ones, as the law allowed, to consider additional regulations.

Zoning: Asheville already has an effective dispersal ordinance in the UDO. This ordinance contains certain locational and separation requirements for adult establishments. These ordinances have been upheld on many occasions. In 1995, the City performed the study that the courts have held is necessary to provide a foundation for a dispersal ordinance, and the ordinance was adopted and incorporated into the UDO in 1997.

While dispersal ordinances have been upheld by the U. S. Supreme Court, there was less certainty about whether conditional use permits could be used to regulate adult establishments; the courts were divided. Earlier this year, in the case of Steakhouse v. Raleigh, the 4th Circuit Court of Appeals upheld a regulatory scheme in Raleigh that involved a dispersal ordinance implemented through a conditional use permit process. This is the same regulatory scheme currently reflected in the UDO. It is recommended that this regulatory scheme be made permanent with respect to adult establishments.

General Police Power: These are regulations that affect the operational characteristics of adult establishments. They are not zoning regulations and, as long as they are reasonable, can be made to apply to existing establishments.

The City already had some regulations on the operation of adult establishments, such as minimum age for patrons and performers, licensing, touching or fondling, etc. The new law provides clear enabling authority for these existing regulations, and permits other regulations as well.

The proposed ordinance establishes additional regulations for the following:

- Open booths for establishments that have booths.
- Requirement that genital areas of performers remain covered.
- Requirement that buttocks, privates and genitals of non-performers be covered.
- Requirement that clarifies that adult entertainers may not touch patrons (existing ordinance prohibiting touching of specified anatomic areas).
- Prohibition on peripheral activities on the same premises. This is intended to prohibit such activities as car washes, unless enclosed within the same building as the adult establishment.

The law permits regulation of other aspects of the business such as hours of operation, additional clothing restrictions, and possibly even alcohol sales. These regulations must be consistent with constitutional limitations, which essentially means that there must be an identified "secondary impact" that the regulation is intended to address, beyond morality-based objections.

The proposed regulations do not go as far as the law appears to allow. However, the constitutionally-required justification for such regulations does not clearly exist. To the extent that the current situation deteriorates, the law specifically permits additional regulations to apply to existing businesses (an "anti-grandfather" provision). It may be possible, therefore, to impose stricter regulations as the need arises.

Extension of Moratorium: As explained at last week's work session, due to a misunderstanding about the duration of City Council's action last year requiring Conditional Use Permits for adult establishments, it is recommended that the moratorium be extended by an additional two weeks. The City's ability to regulate by Conditional Use Permit was clarified in a recent Fourth Circuit Court of Appeals opinion involving the City of Raleigh's adult business ordinance, and part of the recommendation is that the City of Asheville implement a similar process. Because that part of the recommended change is a zoning ordinance, consideration of the proposed amendment by the Planning and Zoning Commission is necessary. This cannot occur until June 24, 1999, and the Council could not consider it until July 13. As proposed, the extension of moratoria would be until July 14. It is currently set to expire on June 30, 1999.

Adoption of the proposed regulatory ordinance is recommended. Adoption of the proposed ordinance extending the moratorium is also recommended.

Councilman Cobb favored more regulation of additional clothing restrictions. City Attorney Oast noted that the regulations must be consistent with constitutional limitations, and that we would have to be able to demonstrate that there are sufficient secondary adverse effects from the existence of the establishments to require those kinds of additional restrictions.

When Mayor Sitnick asked how is it that we can require that buttocks of non-performers be covered within an adult establishment, but we can't require someone walking around the streets to cover their buttocks, City Attorney Oast said that this is a regulation of an adult establishment and not a regulation of conduct that is controlled by criminal statutes. He said that we can regulate adult establishments in ways that we can't regulate other types of conduct because of the kind of establishment that it is.

Ms. Gail Harding urged City Council to give thought to the kind of influence that is being made by adult establishments and encouraged Council to regulate and restrict to the limit of the law adult businesses in our area.

Ms. Sylvia Hitchcock, representing a major Christian women's organization in the Asheville area, spoke out against the City of Asheville allowing sexually oriented businesses to exist. They appealed to City Council to hold to family values and keep Asheville from becoming a City noted for such establishments. They encouraged City Council to continue the moratorium and to restrict as much as possible those businesses that already exist in the Asheville area.

Ms. Mary Ray felt that adult establishments are not conducive with happy, productive families. She felt that if City Council shut down all adult establishments, the crime rate would be reduced dramatically.

Mayor Sitnick said that members of Council have been previously furnished with a copy of the ordinance and it would not be read.

Councilman Sellers moved for the adoption of Ordinance No. 2580. This motion was seconded by Councilman Cobb and carried unanimously.

ORDINANCE BOOK NO. 17 - PAGE 348

Mayor Sitnick said that members of Council have been previously furnished with a copy of the ordinance and it would not be read.

Councilman Sellers moved for the adoption of Ordinance No. 2581. This motion was seconded by Councilman Tomes and carried unanimously.

62

Mayor Sitnick asked what can City Council can do to address the situation of a man who is walking around Asheville in a thong and whether or not we can appeal to the District Attorney to help us in regard to whatever laws apply to what he is doing. City Attorney Oast said that he has already requested the District Attorney's advice on this because the indecent exposure statute is a criminal statute and it would be up to the District Attorney's Office to prosecute that if charges were brought. The District Attorney agrees with his opinion that because of an opinion that the Supreme Court issued last year, there is little that can be done in the way of enforcing the indecent exposure statute, with respect to the exposure of a person's buttocks. The Supreme Court has construed the law to say that buttocks are not private parts for the purpose of indecent exposure statutes. That is something that will have to be addressed by the legislature. There are some regulations that he may be able to suggest to City Council regarding conduct on City-owned property, such as City parks and in City buildings. He is investigating that and will report back to City Council as soon as possible.

Mayor Sitnick felt that City Council needed to appeal to our legislators.

Councilman Cobb wanted to see an ordinance adopted outlawing topless or bottomless men or women on our City streets.

VI. OTHER BUSINESS:

A. APPROVAL OF THE MINUTES OF THE REGULAR MEETING HELD ON MAY 25, 1999, AND THE WORKSESSION HELD ON JUNE 1, 1999

Councilman Cloninger moved for the adoption of the minutes of the regular meeting held on May 25, 1999, and the worksession held on June 1, 1999. This motion was seconded by Councilman Sellers and carried unanimously.

B. CLAIMS

The following claims were received by the City of Asheville during the weeks of May 4-27, 1999: Frank White (Sanitation), Theodore Crump (Sanitation), Mary Daniels (Streets), Jackie Scott (Water), Seth Allcorn (Water), Jeanne Sheller (Sanitation) and Chris Parsons (Parks & Recreation).

The following claims were received by the City during the week of May 28-June 3, 1999: BellSouth (Water), BellSouth (Water), BellSouth (Water), Debbie Yanik (Water), Barbara King (Parks & Recreation), Ron Dula (Water), Sean Divine (Water), Keith Jackson (Water) and Lona Taylor (Water).

These claims have been referred to Asheville Claims Corporation for investigation.

VII. INFORMAL DISCUSSION AND PUBLIC COMMENT:

VIII. ADJOURNMENT:

Mayor Sitnick adjourned the meeting at 9:32 p.m.

Magdalen Burleson
CITY CLERK

Leni Sitnick
MAYOR

Tuesday - June 15, 1999 - 3:00 p.m.

Worksession

Present: Mayor Leni Sitnick, Presiding; Vice-Mayor Edward C. Hay Jr.; Councilman M. Charles Cloninger; Councilman Earl Cobb; Councilwoman Barbara Field; Councilman Thomas G. Sellers; and Councilman O.T. Tomes; City Attorney Robert W. Oast Jr.; City Manager James L. Westbrook Jr.; and Deputy City Clerk Phyllis Corns

Absent: None

CONSENT:

Budget Amendment re: Fair Housing Assistance Program

Summary: The consideration of a budget amendment, in the amount of $25,000, to appropriate new federal funds received for the Fair Housing Assistance Program for FY 1998/99.

The City has been carrying out its fair housing program under contract with the Asheville-Buncombe Community Relations Council and Fair Housing Commission since January 1988, using HUD Fair Housing Assistance Program (FHAP) funds. The City's Community Development Division serves as Lead Entity and monitors the program. On November 24, 1998, City Council approved a 1998/99 budget of $18,400, equal to the HUD FHAP grant for the twelfth year of this program.

The City has now received a revised grant agreement from HUD, increasing the FHAP grant amount by $25,000, for a total grant of $43,400. A budget ordinance is needed to appropriate the new funds.

Community Development staff recommends City Council adopt the budget amendment.

Budget Amendment re: Summer Teen Program Grant Funds

Summary: The consideration of a budget amendment, in the amount of $1,950, to appropriate grant funds from the Community Foundation of Western North Carolina to fund outdoor adventure activities in the Summer Teen Program.

The Summer Teen Program is designed to provide recreation activities for teens ages 13-16 for eight weeks during the summer. The program is located at six locations throughout the City in community centers. The Teen Program will offer a wide variety of recreation activities and hands-on job training. Grant funds will be used to implement the outdoor enrichment activities including a challenge ropes course, rock climbing, rollerblading, and mountain biking. The Parks and Recreation Department's in-kind match of $26,708 will be in labor, administration, transportation, supplies, and training for the overall Summer Teen Program. The funds are budgeted in the Recreation Division.

The Parks and Recreation Department recommends the City of Asheville to accept the grant funds on behalf of the Parks and Recreation Department into the Recreation Division operating budget for outdoor enrichment activities in the Summer Teen Program.

Intent to Close Unnamed Alleyway off Henrietta Street

Summary: The consideration of a resolution of intent to permanently close an unnamed alley off Henrietta Street.

A petition has been received from Merrimon Avenue Baptist Church requesting that an unnamed alley off Henrietta Street be permanently closed to public use. The petition received includes the affidavit of Bill Bigham, President of Merrimon Avenue Baptist Church, owner of PIN No. 9649.10-35-9416. Merrimon Avenue Baptist Church owns all of the adjoining land on both sides of this unnamed alleyway.

This unnamed ally is a paper street and has never been opened and used as a street. The City has no plans to utilize this street. All utility companies will be contacted. The resolution of intent to close the unnamed alley off Henrietta Street will be advertised in a local paper and the location will be posted with the resolution of intent to close.

The Public Works Department staff recommends the resolution of intent to permanently close the an unnamed alley off of Henrietta Street be adopted and that the public hearing be held on July 27, 1999.

Citizen Participation Plan for Community Development Programs

Summary: The consideration of a resolution approving the Citizen Participation Plan for the City's community development programs.

The N.C. Dept. of Housing & Urban Development's (HUD) regulations require the City to develop and follow a Citizen Participation Plan, detailing how it will involve residents, particularly those in low-income groups and organizations representing them, in the planning and implementation of its housing and community development programs, including the allocation of Community Development Block Grant and HOME funds.

The existing Citizen Participation Plan dates from 1995, with minor revisions in 1997. It does not satisfy quite all of HUD's requirements and no longer describes all the steps that are being taken to involve and consult residents. The revised plan provides a fuller description, and, in particular, sets out a new framework for developing the Five-Year Strategic Plan which the City must revise and update in 2000.

The plan proposes that a Steering Committee be set up to oversee and guide the Strategic Planning process, with membership open to anyone who is prepared to participate consistently and constructively as well as invited representatives of key agencies and community groups. Subcommittees will act as focus groups to examine in detail the four main areas of the Plan: Housing, Homelessness, Public Housing, and Non-Housing Community Development. The process will draw and build upon other relevant planning processes such as the Asheville-Buncombe VISION.

Staff recommends that Council approve the revised Citizen Participation Plan.

Mayor Sitnick asked that the record show that City Council has received this information and instructs the City Manager to place these items on the next formal City Council agenda.

YOUTH CRISIS PREVENTION

Dr. Gene Rainey, Chairman of the Juvenile Crime Prevention Council, presented City Council with a list of teenage statistics and urged City Council to participate in a Youth Center designed to serve young people and their families. He reviewed how the Youth Center will offer opportunities for prevention, education, training and reward. Their proposal is to build a $2.5 Million Youth Center which will hopefully be located on the A-B Technical Community College campus or the UNC-Asheville campus and will serve 13-29 year olds. The operating budget for this Center will be $475,000 and the annual administrative cost of serving students will be $10 per student. The Center will be self-supporting. He then outlined the goals, one of which will be to establish 20 youth centers in the next 12 years. Dr. Rainey then asked the City to commit $25,000 seed money (which can be spread over two years) to the Next Generation Inc. and they will raise the balance on the $2.5 Million Center. They would like to have a representative of the City's Parks & Recreation Department on their Board, along with suggestions from City Council of possible trustees. Dr. Rainey also asked for a resolution of support in order to go to granting institutions.

Dr. Rainey responded to various questions and comments from Council on the Youth Center, some being, but are not limited to, locations in schools districts, transportation for latch-key children, what are other cities around the country doing, how will the centers be self-supporting, are there any model Youth Centers, who will counsel the youth, who will be supervising the child care facility, and how much of program will be volunteers.

Mayor Sitnick thanked Dr. Rainey for his hard work. She felt there was nothing better to invest in with a better return than investing in our youth. She said that City Council will give serious consideration to the $25,000 request.

Councilman Cloninger felt that in next year's budget, this is the kind of thing that would be appropriate to come out of the contingency fund.

Mayor Sitnick asked that the record show that City Council has received this information and instructs the City Manager to place a resolution of support on the next formal City Council agenda.

REQUEST OF OFFICE SPACE FOR ASHEVILLE-BUNCOMBE VISION

Assistant City Manager Doug Spell presented City Council with a letter from Pat Smith, Asheville-Buncombe VISION Board Chair, which requests that the space for VISION in the City Development Office be renewed for another year. The letter states that they have looked for other possibilities, but find that the organization can't afford space that is comparable size and exposure. The donated office space sends a strong message to the community that the City supports the VISION and its efforts to set measurable standards for community improvement.

Ms. Pam Wall, Executive Director of Asheville-Buncombe VISION, responded to various questions from Council.

Vice-Mayor Hay felt that this is a good location for VISION in terms of accessibility and having a high profile. He said this is a critical time with VISION and now is the time when the City wouldn't want to say they didn't support the VISION in a comprehensive way.

Mayor Sitnick supported the VISION process and their work. She said that there are some ways that can be explored for the VISION process to become self-supporting, like the possibility of volunteers helping run a souvenir booth (when more space is available) and sharing some of those revenues.

It was the consensus of City Council to allow the VISION Office to remain in the City Development Office until June 30, 2000.

REPORTS ON BOARDS/COMMISSIONS

Councilman Cloninger said that due to meeting conflicts he has been unable to attend the meetings of the WNC Regional Air Pollution Control Board as the City Council liaison to that Board. Therefore, Mayor Sitnick appointed Councilman Cobb to be the liaison to the WNC

66

Regional Air Pollution Control Board and instructed the City Clerk to notify the Board of the liaison change.

BUDGET DISCUSSION

City Council discussed and gave direction to the City Manager and Budget Director on the following outstanding budget issues: parking fees, cable television connection, outside agency recommendations (in particular the Chamber of Commerce's $100,000 request), Institute of Government, Center City Director/Plan, annexation plan, Public Information Officer, water rate increase, garage signage and Pedestrian Coordinator.

CLOSED SESSION

At 6:44 p.m., Councilman Cloninger moved to go into closed session to consult with an attorney employed by the City in order to preserve the attorney-client privilege between the City and its attorney. The parties to the lawsuit about which the Council expects to receive advice are: Trinity Baptist Church Inc., City of Asheville, Carrier Heights Neighborhood Association, CC&J Enterprises Inc., and Jackson Park/Woolsey Neighborhood Association - statutory authority is G.S. 143-318.11 (a) (3). This motion was seconded by Councilman Cobb and carried unanimously.

At 7:25 p.m., Councilman Sellers moved to come out of closed session. This motion was seconded by Councilman Cloninger and carried unanimously.

ADJOURNMENT:

Mayor Sitnick adjourned the meeting at 7:25 p.m.

Magdalen Burleson
CITY CLERK

Leni Sitnick
MAYOR

Tuesday - June 22,1999 - 5:00 p.m.

Regular Meeting

Present: Mayor Leni Sitnick, Presiding; Vice-Mayor Edward C. Hay Jr.; Councilman M. Charles Cloninger; Councilman Earl Cobb; Councilwoman Barbara Field; Councilman Thomas G. Sellers; and Councilman O.T. Tomes; City Attorney Robert W. Oast Jr.; City Manager James L. Westbrook Jr.; and City Clerk Magdalen Burleson

Absent: None

INVOCATION

Vice-Mayor Hay gave the invocation.

At the request of Mayor Sitnick, Vice-Mayor Hay moved to add the consideration of an ordinance establishing public transit as a public enterprise to the agenda. This motion was seconded by Councilman Cobb and carried unanimously.

I. PROCLAMATIONS:

A. WELCOME TO THE SPECIAL OLYMPICS ATHLETICS

Councilman Cloninger read a proclamation proclaiming June 21-25, 1999, as "1999 Special Olympics Host Town Week" in the City of Asheville. He presented the proclamation to Mr. Bill Cook, who outlined some activities that would be taking place during the week. Mr. Cook then introduced the South African Special Olympics delegation.

B. PRESENTATION OF CERTIFICATE OF ACHIEVEMENT FOR EXCELLENCE IN FINANCIAL REPORTING AWARD

Mayor Sitnick presented Finance Director Bill Schaefer with the Certificate of Achievement for Excellence in Financial Reporting Award. The Certificate of Achievement is the highest form of recognition in the area of governmental accounting and financial reporting, and its attainment represents a significant accomplishment by a government and its management. The City of Asheville is proud to have received this award for the 19th year.

She also presented Joseph D. Elkins, Account Senior, with the Award of Financial Reporting Achievement. Mr. Elkins was designated the individual primarily responsible for preparing the award-winning comprehensive annual financial report.

Ms. Pat Leckey, Ms. Wynelle Hornsby, and Ms. Barbara Smith were also recognized for their work in achieving the awards.

C. PROCLAMATION PROCLAIMING SATURDAY, JUNE 26, 1999, AS "RIDE FOR KIDS DAY"

Vice-Mayor Hay read the proclamation proclaiming Saturday, June 26, 1999, as "Ride for Kids Day" in the City of Asheville. He presented the proclamation to Allen Hughes who briefed City Council on some activities taking place during the day.

D. RESOLUTION NO. 99-90 - RESOLUTION SUPPORTING OUR NEXT GENERATION INC. YOUTH CENTER IN BUNCOMBE COUNTY

Mayor Sitnick read the resolution supporting Our Next Generation Inc. Youth Center in Buncombe County. She said that our young people need a drug free, alcohol free, and smoke free place to assemble for entertainment on the weekends. "Latch Key Students" need a safe place to reside after school between 3:00 p.m. - 6:00 p.m. daily. A Youth Center will provide citizens the opportunity to counsel and mentor young people who need assistance with school assignments and personal problems. She stated that Our Next Generation Inc. believes that youth centers can provide opportunities for young people with entrepreneurial skills to operate entertainment rooms, game rooms, cafes, and other business activities of their choosing under the guidance of mentors. Our Next Generation Inc. is dedicated to opening youth centers that will offer recreational and entertainment opportunities for young people who tend to be neglected in our society such as the developmentally disabled and minorities.

Resolution No. 99-90 was adopted by acclamation.

RESOLUTION BOOK NO. 25 - PAGE 232

II. CONSENT:

A. RESOLUTION NO. 99-91 - RESOLUTION ADOPTING THE CITIZEN PARTICIPATION PLAN FOR COMMUNITY DEVELOPMENT PROGRAMS

Summary: The consideration of a resolution approving the Citizen Participation Plan for the City's community development programs.

The N.C. Dept. of Housing & Urban Development's (HUD) regulations require the City to develop and follow a Citizen Participation Plan, detailing how it will involve residents, particularly those in low-income groups and organizations representing them, in the planning and implementation of its housing and community development programs, including the allocation of Community Development Block Grant and HOME funds.

The existing Citizen Participation Plan dates from 1995, with minor revisions in 1997. It does not satisfy quite all of HUD's requirements and no longer describes all the steps that are being taken to involve and consult residents. The revised plan provides a fuller description, and, in particular, sets out a new framework for developing the Five-Year Strategic Plan which the City must revise and update in 2000.

The plan proposes that a Steering Committee be set up to oversee and guide the Strategic Planning process, with membership open to anyone who is prepared to participate consistently and constructively as well as invited representatives of key agencies and community groups. Subcommittees will act as focus groups to examine in detail the four main areas of the Plan: Housing, Homelessness, Public Housing, and Non-Housing Community Development. The process will draw and build upon other relevant planning processes such as the Asheville-Buncombe VISION.

Staff recommends that Council approve the revised Citizen Participation Plan.

RESOLUTION BOOK NO. 25 - PAGE 233

B. ORDINANCE NO. 2582 - BUDGET AMENDMENT TO APPROPRIATE NEW FEDERAL FUNDS RECEIVED FOR THE FAIR HOUSING ASSISTANCE PROGRAM

Summary: The consideration of a budget amendment, in the amount of $25,000, to appropriate new federal funds received for the Fair Housing Assistance Program for FY 1998/99.

The City has been carrying out its fair housing program under contract with the Asheville-Buncombe Community Relations Council and Fair Housing Commission since January 1988, using HUD Fair Housing Assistance Program (FHAP) funds. The City's Community Development Division serves as Lead Entity and monitors the program. On November 24, 1998, City Council approved a 1998/99 budget of $18,400, equal to the HUD FHAP grant for the twelfth year of this program.

The City has now received a revised grant agreement from HUD, increasing the FHAP grant amount by $25,000, for a total grant of $43,400. A budget ordinance is needed to appropriate the new funds.

Community Development staff recommends City Council adopt the budget amendment.

ORDINANCE BOOK NO. 17 - PAGE 351

C. ORDINANCE NO. 2583 - BUDGET AMENDMENT TO APPROPRIATE GRANT FUNDS FROM THE COMMUNITY FOUNDATION OF WESTERN NORTH CAROLINA TO FUND OUTDOOR ADVENTURE ACTIVITIES IN THE SUMMER TEEN PROGRAM

Summary: The consideration of a budget amendment, in the amount of $1,950, to appropriate grant funds from the Community Foundation of Western North Carolina to fund outdoor adventure activities in the Summer Teen Program.

The Summer Teen Program is designed to provide recreation activities for teens ages 13-16 for eight weeks during the summer. The program is located at six locations throughout the City in community centers. The Teen Program will offer a wide variety of recreation activities and hands-on job training. Grant funds will be used to implement the outdoor enrichment activities including a challenge ropes course, rock climbing, rollerblading, and mountain biking. The Parks and Recreation Department's in-kind match of $26,708 will be in labor, administration, transportation, supplies, and training for the overall Summer Teen Program. The funds are budgeted in the Recreation Division.

The Parks and Recreation Department recommends the City of Asheville to accept the grant funds on behalf of the Parks and Recreation Department into the Recreation Division operating budget for outdoor enrichment activities in the Summer Teen Program.

ORDINANCE BOOK NO. 17 - PAGE 353

D. RESOLUTION NO. 99-92 - RESOLUTION SETTING A PUBLIC HEARING ON JULY 27, 1999, TO CLOSE AN UNNAMED ALLEYWAY OFF HENRIETTA STREET

RESOLUTION BOOK NO. 25 - PAGE 234

E. MOTION SETTING A PUBLIC HEARING ON JULY 13, 1999, TO CONSIDER AN AMENDMENT TO THE UNIFIED DEVELOPMENT ORDINANCE TO REQUIRE A CONDITIONAL USE PERMIT FOR ADULT ESTABLISHMENTS

Mayor Sitnick said that members of Council have been previously furnished with a copy of the resolutions and ordinances and the Consent Agenda and they would not be read.

Councilman Sellers moved for the adoption of the Consent Agenda. This motion was seconded by Councilman Tomes and carried unanimously.

III. PUBLIC HEARINGS:

A. PUBLIC HEARING RELATIVE TO CONSIDERING THE INITIAL ZONING OF CITY-OWNED PROPERTY LOCATED OFF FERRY ROAD (BENT CREEK AREA) TO RS-2 RESIDENTIAL SINGLE FAMILY LOW DENSITY DISTRICT

Mayor Sitnick opened the public hearing at 5:30 p.m.

City Clerk Burleson presented the notice to the public setting the time and date of the public hearing.

Mr. Carl Ownbey, Urban Planner, said that this is the consideration of an ordinance to initially zone recently annexed City-owned property in the Bent Creek area to RS-2 Residential Single Family Low Density District.

The City of Asheville annexed 139 acres of vacant, city-owned property earlier this year (PIN Nos. 9635.01-07-6456 and 9636.03-10-3854). Requirements dictate that all property within the City limits of Asheville be zoned. Since this property lies along the French Broad River in a rural residential setting, the most appropriate zoning classification would be RS-2 Residential Single Family Low Density District.

The Planning staff reviewed the rezoning request and recommended approval. At their June 2, 1999, meeting, the Planning & Zoning Commission voted unanimously to recommend approval of the initial zoning of 139 acres of vacant land located off Ferry Road to RS-2 Residential Single Family Low Density District.

Councilman Cloninger said that the City has a good faith obligation to transfer ownership of this property to Henderson County with a zoning classification that will allow them to do what the Water Agreement restricts them to do. He felt it would not be appropriate to transfer property to Henderson County telling them they can only use this for a wastewater treatment facility, but at the same time transfer it with a zoning designation that forbids that.

Upon inquiry of Vice-Mayor Hay, City Attorney Oast explained that as with any rezoning, considerations of a proposed use should have no bearing on the appropriate zoning; the zoning issue should be considered on the basis of appropriate planning and land use concerns. The Council is not, nor could it be, contractually bound to zone the property to one classification or another. Similarly, the zoning adopted now cannot be binding on future Councils.

Councilwoman Field questioned why the property was not zoned River District which would allow a MSD treatment facility and seems like a more gentle classification than an industrial classification. Mr. Ownbey responded that staff looked at the surrounding neighborhood and zoned it the best classification they felt matched the surrounding land uses.

Mayor Sitnick asked what procedures would have to be followed if City Council did not zone the property to RS-2. City Attorney Oast said that if the recommendation is to zone it something other than residential classification, he would suggest that City Council continue the matter for readvertisement of a public hearing to a different classification. He felt that the advertising could include language that the proposed transfer to Henderson County would limit the use to a wastewater treatment facility only.

Upon inquiry of Councilman Sellers, Mr. Ownbey said that zoning classifications that would allow a wastewater treatment facility include the River District, the Commercial Industrial District or the Industrial District.

Vice-Mayor Hay was concerned that that if the property were zoned to RS-2 with the idea that City Council would rezone it if Henderson County asked them to, the property owners in the area would rely on RS-2 as being the zoning in that part of the county. He would hate to build that reliance on an RS-2 that we didn't mean to keep in effect.

City Attorney Oast said that pursuant to the Water Agreement, City Council authorizing the conveyance of this property to Henderson County. The Water Agreement provides that Henderson County shall convey the property to MSD for construction of a wastewater treatment facility, or to another water authority of which Henderson County and the City are a part. If Henderson County fails to do either within 10 years, the property is to be reconveyed to Asheville.

Councilman Cloninger emphasized that although he supports giving the property a zoning classification that will be consistent with the Water Agreement, the deed that transfers the property to Henderson County will limit Henderson County to make only one use on that property and if they don't make that use within 10 years, the property reverts back to Asheville.

Upon inquiry of Councilwoman Field, City Attorney Oast said that the City Attorney's Office is preparing a deed for the property that will impose restrictions on the use of the property consistent with the Water Agreement. He said that they are aiming to have the deed ready to convey the property on July 1, 1999.

City Attorney Oast said that since the zoning process has been initiated, he thought it was possible to transfer the property with the deed restrictions and proceed with the zoning.

Councilman Cloninger moved to continue this matter until the next formal meeting, July 13, 1999, and if legally permissible, to include in the advertisement language that the proposed transaction will restrict the land use for a wastewater treatment facility only. This motion was seconded by Councilman Tomes and carried unanimously.

B. PUBLIC HEARING RELATIVE TO CONSIDERING A MODIFICATION FROM THE SUBDIVISION STANDARDS FOR PROPERTY LOCATED OFF OF SAND HILL SCHOOL ROAD

Mayor Sitnick opened the public hearing at 5:55 p.m.

City Clerk Burleson presented the notice to the public setting the time and date of the public hearing.

Mr. Carl Ownbey, Urban Planner, said that this is the consideration of a request for modification from the subdivision standards to permit the subdivision of a 2 acre tract of land not abutting a public street to be subdivided into 2 lots for property located off of Sand Hill School Road.

The area was annexed in 1994 and the lot configuration has not changed since that time. The property owner (David Buckner) resides on the 2 acre parcel and, until just recently, his son lived in a manufactured home on the lot. The son has moved and now the owner wishes to sell half of the lot to allow for another buildable tax lot. The owner installed a private water service line along the existing unopened road to serve this property. The private road has a 30 foot right-of-way.

The Technical Review Committee (TRC) reviewed the request for a subdivision modification at their May 17, 1999, meeting. After presentation by staff, the TRC voted not to recommend the request for modification of the subdivision requirements for this lot. However, after the staff presentation and public comment at their June 2, 1999, meeting, the Planning and Zoning Commission voted 4-3 to recommend approval of the subdivision modification based on the information received that a physical hardship did exist based upon a concern that a neighboring home had expanded into the 30 foot right-of-way and construction of a street to publicly access the lots would be difficult.

Upon inquiry of Mayor Sitnick, Mr. Ownbey said that the TRC was not aware at the time they made their recommendation that a neighboring home had expanded into the 30 foot right-of-way and construction of a street to publicly access the lots would be difficult.

Mr. David Buckner urged City Council to allow this modification.

Mayor Sitnick closed the public hearing at 6:06 p.m.

Councilman Tomes moved to waive the subdivision standards for property located off of Sand Hill School Board. This motion was seconded by Councilwoman Field and carried unanimously.

C. PUBLIC HEARING RELATIVE TO CONSIDERING AN AMENDMENT TO THE UNIFIED DEVELOPMENT ORDINANCE TO ELIMINATE ACCESSORY STRUCTURES AS A PERMITTED USE IN ALL RESIDENTIAL DISTRICTS

ORDINANCE NO. 2584 - ORDINANCE AMENDING THE UNIFIED DEVELOPMENT ORDINANCE TO ELIMINATE ACCESSORY STRUCTURES AS A PERMITTED USE IN ALL RESIDENTIAL DISTRICTS

Mayor Sitnick opened the public hearing at 6:06 p.m.

City Clerk Burleson presented the notice to the public setting the time and date of the public hearing.

Mr. Carl Ownbey, Urban Planner, said that this is the consideration of an amendment to the Unified Development Ordinance to eliminate accessory structures as a permitted use in all residential districts.

On August 11, 1998, Ordinance No. 2506 was adopted which changed accessory structures from being permitted uses in all residential districts to being a use by right, subject to special requirements. This ordinance change failed to remove accessory structures from the list of permitted uses in all residential districts. The Planning and Development staff discovered this error during staff reviews of the Unified Development Ordinance.

The Planning and Development staff recommended the proposed wording amendment to the Planning and Zoning Commission at their June 2, 1999, meeting. After staff presentation, the Commission voted unanimously to recommend to City Council the adoption of this wording amendment.

Mayor Sitnick closed the public hearing at 6:10 p.m.

Mayor Sitnick said that members of Council have previously received a copy of the ordinance and it would not be read.

Councilman Tomes moved for the adoption of Ordinance No. 2584. This motion was seconded by Councilman Cobb and carried unanimously.

ORDINANCE BOOK NO. 17 - PAGE 355

IV. UNFINISHED BUSINESS:

V. NEW BUSINESS:

A. ORDINANCE NO. 2585 - ORDINANCE AMENDING THE REGULATIONS FOR PUSHCARTS AND OUTDOOR DINING AREAS AND ADOPTING REGULATIONS FOR OUTDOOR MERCHANDISE AREAS

RESOLUTION NO. 99-93 - RESOLUTION AMENDING THE FEES ASSOCIATED WITH PERMITS FOR USE OF SUCH RIGHT-OF-WAY AND OTHER PUBLIC SPACES

Ms. Terry Clevenger, Downtown Development Manager, said that this is the consideration of approving revised changes to the ordinance regulating pushcarts and outdoor dining areas and adding regulations for outdoor merchandise.

At the May 18, 199, worksession, the Sidewalk Usage Team recommended changes to the ordinance permitting outdoor dining, pushcarts, and outdoor entertainment in the Central Business District and Biltmore Village. At City Council's direction, the team gathered community input regarding the recommendations. She then summarizing the community's comments and the changes the team recommended to address concerns.

As downtown continues to thrive, pedestrian traffic and the demand on public space has increased. Given these dynamics, the City should clearly define pedestrian passageways and establish boundaries of private use of public space. In addition to the changes in the ordinance, the team also studied the use of A-frame (sandwich board) signs, currently prohibited by the current sign ordinance, and recommends the City continue not to permit this type of sign.

Upon adoption, with an effective date of July 1, 1999, staff will communicate and begin enforcing the following changes:

Encroachment agreements vs. permits:

- Requirement that merchants/vendors apply for and obtain an encroachment agreement authorizing structures, large dining areas or merchandise on the sidewalk or public space.
- Requirement for permits for pushcarts, sidewalk entertainment, and small dining or merchandise areas.
- Recommend issuing one encroachment agreement for one fee to a facility wanting to take responsibility for managing the vendors occupying the sidewalks adjacent to their building. (Grove Arcade and the Asheville Art Museum are interested in pursuing this).

Fees:

- Implementation of fees associated with permits for use of such right-of-way and other public spaces.
- Based on community input, we are recommending new fees

Biltmore Village:

- A certificate of appropriateness must be required for pushcarts, merchandise and outdoor dining requests in the Biltmore Village Historic District.

Pushcarts

- Recommended measurements to be no greater than 4'6"H x 4' W x 6'L , having an overall footprint no larger than 24 square feet, excluding any trailer hitch.
- Recommended approved locations for pushcarts: 1) Pritchard Park; 2) Pack Square; 3) next to Asheville Community Theater; 4) College Street sidewalk, near BB&T garage; 5) in front of City Hall; 6) Triangle Park at Eagle and Market Streets; 7) City County Plaza; 8) Vance Monument; 9) Circular area in front of Pack Place; 10) sidewalk in front of Thomas Wolfe House; 11) corner of Battery Park and Wall Street; 12) in front of the Courthouse.

Outdoor dining:

- Change the recommended definition of small dining area from 2 tables or less to less than 30 square feet.
- Change the definition of a large dining area from more than 2 tables to greater than 30 square feet.

Outdoor merchandise:

- Recommend allowing merchandise to be permitted on the sidewalk. Currently merchandise is not permitted.
- Defined a small merchandise area as a space less than 30 square feet and a large merchandise area as a space greater than 30 square feet.

Staff received public comment regarding a category being created for "art/display." The Team will pursue this if given direction by City Council.

Outdoor entertainment:

- No changes at this time. A task force is being created to review.

Space requirements:

- Require a 6 foot pedestrian passageway for pushcarts, outdoor dining and merchandise areas.

Design procedures:

- Recommend a design procedure for pushcarts and outdoor dining areas.

Enforcement procedures:

- Recommend that police enforce issues requiring immediate response (safety issues) and Zoning Administration enforce all other issues.

Misc. items:

- All signage for such uses must comply with the Sign Ordinance (Article XIII of Chapter 7).
- Structures and merchandise can not be place on the roadways.

A-frame

- Although not addressed by this ordinance, the team was asked to make a recommendation about A-frame/sidewalk/sandwich board signs. They are not allowed by the sign ordinance. The team recommends no changes be made.
- Begin communicating and enforcing July 1.

Ms. Clevenger then explained the resolution which would amend the Fees and Charges Manual regarding fees associated with permits for use of such right-of-way and other public spaces. She said the current fees for pushcarts, outdoor dining and outdoor entertainment are all $25. There is not a current fee for outdoor merchandise because it is not permitted at this time.

The proposed fees are based on a conservative estimate of staff time necessary to administer the program. After receiving community input, we are proposing changing the fees as outlined below:

	Application	Renewal
Pushcarts	$ 125	$125
Outdoor Dining/Merchandise Permit, <30 sq. ft	$ 175	$ 25
Outdoor Dining/Merchandise Encroachment		
31-50 sq. ft.	$ 250	$ 50
51-100 sq. ft.	$ 350	$ 75
101-200 sq. ft.	$ 500	$100
201-500 sq. ft.	$1,000	$200
501 + sq. ft.	$2,000	$400

Most of the staff time is involved in the initial application process. This explains why the fee for the application is higher than the renewal fee.

We received community comments asking for fees for merchandise to be more consistent with outdoor dining. In response, they defined a small merchandise area, requiring only a permit be issued, and a large merchandise area requiring a encroachment agreement. An encroachment agreement takes more time to process, therefore the fees are higher.

Comments were also received from non-profit facilities asking if they could apply for one encroachment and pay one fee to manage the vendor space adjacent to their building. They would be responsible for the vendors complying with the ordinance. The proposed fees are based on size because staff feels the larger the area, the more staff will need to spend during the application process ensuring adequate space and safety measures for pedestrian access.

Upon inquiry of Councilwoman Field, Ms. Clevenger said that the people who have permits will still have to pay for the first time application fee because of the many new changes and because they have not been reviewed in the past 4-5 years.

Councilman Tomes felt that if the City is trying to continue to support entrepreneurs in business, the City needs to be flexible and perhaps raise the fees incrementally.

Ms. Suzanne Molloy, Assistant Director of Public Works, said that in the past the City has never charged for an encroachment agreement and the current fees have been $25 for probably 10 years. She stressed that the proposed fees are based on a conservative estimate of staff time necessary to administer the program.

When Mayor Sitnick suggested subtracting $25 for current application owners from the initial fee application, Councilman Cloninger felt that could be a possibility, however, he didn't think the original owners are the same for any of the businesses on Pack Square.

Councilwoman Field recommended that City Council review this matter in six months or a year.

Councilwoman Field wondered if it might be possible to have some scholarship for people who may have a good idea but cannot afford the initial application fee.

City Attorney Oast said that it is important to remember that these are not rental fees, but fees based on the average amount of time that staff spends processing the applications. The fees are intended to reimburse the City for expenses that they incur in processing the applications.

Ms. Martha Fawbush, speaking as a representative of several blind food service operators, read the following statement: "In recent days a problem has arisen that, if it is not dealt with, will cause severe difficulties for two groups of hard-working people - mobile vendors, those who try to make a living by selling fast food items such as hot dogs from pushcarts, and two small business food-service operators who happen to be blind. One of these food service businesses is located in the County Courthouse, the other in City Hall. Poor people have it tough making a decent living any time, let alone a living which will lift them above the poverty line. I know a pushcart vendor is not going to break the bank with his earnings. Neither is a blind food-service operator. Therefore, I see a great disservice done to both when one is in direct competition with the other. The present City recommendation that pushcart operators can set up shop in front of the Courthouse or the City Hall does exactly that. If a pushcart operator sets up his business in front of either of these public buildings, every dollar he makes he has taken from the hands of a blind man. The food-service operator in the County Courthouse says that he loses approximately $100 every day the pushcart operators are in business on his doorstep. I heard that one person has suggested that this is just good competition. But I find it hard to believe that anyone knowing these circumstances could have dismissed the blind food-service operator's losses so easily. I cannot condone a situation proposed by the City which makes it right that one poor man should be able to take business away from another poor man who happens to be blind. Also, consider this: if pushcart vendors wanted to move their operations away from City Hall and the County Courthouse, all they would have to do is close up shop and move. But the blind food-service operator has no mobility. If he is losing half to two-thirds of his daily bread to pushcart vendors on his doorstep, he is unable to move to a more lucrative place. Why should the City of Asheville make a recommendation which pits one worthy group of hard-working people against another group, large or small, which is no less worthy? Why can there not be a recommendation which encourages pushcart vendors to set up their businesses away from the County Courthouse and the City Hall? Such a recommendation would not do any harm to the pushcart vendors who would seem to have a number of other locations where they can operate - locations in which their presence would not threaten the economic survival of a blind food-service operator. I do not wish to appear unfeeling to the situation which pushcart vendors face. I know what it means to have to earn a living by the sweat of my brow. I know they work hard, I know that theirs is an uphill climb. I wish them all the success that their hard work can earn for them. But I do not feel that it must come at the expense of the working blind in our community. Let us ask the City Development Office to do some careful re-thinking on their recommendation on site locations for pushcart vendors. As a legally blind person married to another legally blind person who is a food service operator, and as a working professional woman who has until very recently found it next to impossible to acquire a teaching position because of my lack of vision, I think you all for this opportunity to speak on this matter."

Mr. Jim Hit, on behalf of the blind vendors in the Asheville area, explained that the blind food service vendors have to go through a lot of training and hoped City Council will not let the blind vendors lose their jobs to a sited person who is capable of going down the road to another location.

Mr. Donald Ball, blind vendor in the County Courthouse, urged City Council to not allow pushcarts in front of the City Hall, the County Courthouse or City/County Plaza.

Upon inquiry of Mayor Sitnick, Ms. Cloninger stated that the pushcart locations were based on space and safety, not what they would be near. She said the Team did not feel it was appropriate for the City to make decisions on regulating competition.

Mr. Vic Alonzo, Business Enterprise Counselor for the Services for the Blind, urged City Council not to allow the pushcart locations in front of the City Hall, the County Courthouse or City/County Plaza.

Mr. Anderson Davis, pushcart vendor who operates in front of the County Courthouse, was concerned about the fees and some of the requirements of pushcart vendors.

City Council expressed their sympathy with the plight of the blind food service vendors, however, City Council cannot make their decisions based on competition in the marketplace.

Mayor Sitnick said that members of Council have previously received a copy of the ordinance and it would not be read.

Councilman Cloninger moved (1) for the adoption of Ordinance No. 2585; (2) to give City staff direction to investigate an "art/display" category being created; and (3) that the ordinance being reviewed in one year to see if it is working for the vendors and the City. This motion was seconded by Councilman Sellers and carried unanimously.

ORDINANCE BOOK NO. 17 - PAGE 359

Mayor Sitnick said that members of Council have been previously furnished with a copy of the resolution and it would not be read.

Councilman Cobb moved for the adoption of Resolution No. 99-93. This motion was seconded by Councilman Cloninger and carried unanimously.

RESOLUTION BOOK NO. 25 - PAGE 235

At 7:14 p.m., Mayor Sitnick announced a break.

C. ORDINANCE NO. 2586 - ORDINANCE ADOPTING THE 1999-2000 ANNUAL OPERATING BUDGET

ORDINANCE NO. 2587 - ORDINANCE ESTABLISHING PUBLIC TRANSIT AS A PUBLIC ENTERPRISE WITHIN THE CITY OF ASHEVILLE

Mayor Sitnick said that the public hearing on this matter was held on June 8, 1999.

Budget Director Ben Durant explained that the Fiscal Year 1999/2000 proposed budget as presented to City Council during the budget work sessions included a recommended appropriation from fund balance of $101,244. During the worksessions, Council agreed to appropriate additional funding in the amount of $250,000 for the first year of an installment purchase for the Royal Pines property. The Royal Pines purchase was supported by an additional appropriation from fund balance which brought the total appropriated fund balance for FY 1999/2000 to $351,244.

At the budget worksession on June 15, 1999, City Council made the following additions and reductions to the proposed Fiscal Year 1999/2000 budget:

Reductions:

Center City Plan and City Center Director	$105,656
Public Information Officer	41,617
Parking Signage	45,000
Comprehensive Plan Update	50,000
Total Deletions:	$242,273

Additions:

Institute of Government	$ 6,800
Cable Equipment	50,000
Pedestrian Coordinator	18,000
Total Additions:	$ 74,800
Net Reductions:	$167,473

Based on net reductions of $167,473 recommended by Council, appropriated fund balance was reduced from $351,244 to $183,771. Further reductions to appropriated fund balance were made due to Parking Fund changes.

Parking Fund Changes

General Fund Transfer

Further reductions were made to appropriated fund balance based on changes to parking fund revenues. Staff initially projected that if Council adopted the full rate increases for parking as proposed by staff, a **$239,180** transfer from the General Fund to the Parking Fund would be required to balanced the Parking Fund operating budget. This amount was thus included as part of the initial proposed budget. Updated revenue estimates, however, showed adoption of full rate increases would produce more revenue than originally anticipated, and thus, the required General Fund transfer to the Parking Fund could be reduced to $113,980.

City Council actually approved smaller rate increases than the full rate increases recommended by staff. Based on the Council approved rate increases, the required General Fund transfer to the Parking Fund rose from $113,980 to $170,980, which is the amount currently budgeted for Fiscal Year 1999-2000.

Effect on Appropriated Fund Balance

As noted above, the initial proposed General Fund Transfer to the Parking Fund was $239,180. Based on updated revenue estimates and Council approved rate increases, the current General Fund transfer to parking is $170,980, which represents a $68,200 reduction from the original transfer amount. This $68,200 reduction in General Fund expenditures allowed for a comparable reduction in appropriated fund balance. The current appropriated fund balance included in the Fiscal Year 1999-2000 Annual Budget Ordinance is $115, 571:

Appropriated Fund Balance (after additions & reductions)	$183,771
Less Reduction in General Fund Transfer to Parking Fund	- 68,200
Current Appropriated Fund Balance	**$115,571**

Councilwoman Field wanted to make sure that the opportunity is there fairly quickly to hire a Center City staff person after the new Planning & Development Director starts. She stressed how important is was for the City to make a commitment to fund this position. She said that downtown is the seat of a lot of activity and a coordinator is essential to help solve the problems of downtown because it is an incredibly important economic generator.

Councilman Cobb was disappointed with the amount of money for streets and sidewalks and stated that our infrastructure has serious needs. He hoped that if additional funds are found that they be spent on streets and sidewalks.

Councilman Tomes felt that if the City is going to have sustainable economic vitality, they will need to deal with some infrastructure deficiencies. He felt that if the City does some long range planning, we may be able to achieve those goals.

Vice-Mayor Hay said that this year the City is making some good new efforts in economic development to take the City forward and we need to make sure that we are doing everything we can to foster that vitality.

Mayor Sitnick was concerned that within the water budget, the non-betterment costs to the City are going to add such a burden to the City ratepayer. She felt it was great that the City has not had to raise taxes in ten years and that we've cut our expenses by such a significant amount. She was grateful to staff for the work they have done to improve the dip into the Fund Balance, however, she felt that what's left in our Fund Balance is woefully inadequate. She said we have not annexed in five-six years, not raised taxes in ten years, and we have mini-governments that are setting policies and rates for many of the services that our citizens benefit from, e.g., Water Authority, MSD, Transit Authority, Housing Authority. While she praises the fact that the City has not raised taxes, we have raised other rates, fees and charges. She thinks that this Council, at some point in the near future, is going to have to take a substantive look at what our expenses are going to be leading us into the next two to three decades. She said we should look to increasing the tax base, continuing to be as efficient as we can be, looking at other sources of revenue, look harder for federal and state funding, look at future bonds, look at more public/private partnerships, look to the private community and increase our efforts to apply for and win grants from foundations and private funds. At some point we will have to look at things like taxes, as hard as that's going to be. We will have to do it in such a way that the Asheville taxpayer is treated as fairly as we possibly can and spread the cost out, e.g., appealing to our state delegates to increase the sales tax to fairly spread out that burden across the board. She said that Council has worked hard on making sure we have a good budget and we were able to continue our services at an appropriate level, but we will need to look a little deeper and a little harder as our costs go up and the needs of this wonderful, yet 200-year old, community continue to mount.

Mayor Sitnick said that members of Council have previously received a copy of the ordinance adopting the 1999-2000 Annual Operating Budget and it would not be read.

Councilman Cloninger moved for the adoption of Ordinance No. 2586. This motion was seconded by Councilman Tomes and carried unanimously.

ORDINANCE BOOK NO. 17 - PAGE 381

City Attorney Oast said that at the City Council retreat in August, 1998, staff was given direction to explore the possibility of taking transit back in-house. Urban Planner Bruce Black then presented City Council with information showing that there was no significant downside to bringing that function back in-house. City Council then directed staff to proceed in that direction during the budget process.

City Attorney Oast explained that it is necessary to repeal Ordinance No. 586, adopted on November 16, 1967, creating the Asheville Transit Authority. However, in recognizing the value of having the experience and advice of the Authority who has operated the transit operation, the ordinance does reconstitute the Asheville Transit Authority as the Asheville Transit Commission. He said that because the City of Asheville owned all the property used by the Asheville Transit Authority, there is no necessity for a lot of complicated legal transactions transferring the property to the City. The General Statutes provide that if a transit authority is abolished or ceases to exist, that the contracts are automatically assignable to the city. He has directed in the ordinance that the Asheville Transit Authority undertake those steps in deliberate speed.

On behalf of City Council, Mayor Sitnick thanked the Asheville Transit Authority for all their help with this transaction.

Mayor Sitnick said that members of Council have previously received a copy of the ordinance and it would not be read.

Vice-Mayor Hay moved for the adoption of Ordinance No. 2587. This motion was seconded by Councilman Sellers and carried unanimously.

Vice-Mayor Hay said that one benefit will be that it will give the City more latitude and freedom to be creative. He was pleased to report that Mr. Black is already building on a partnership to bring bus service out to the Asheville Regional Airport.

Mayor Sitnick said that she and the City Manager have talked briefly with the mayors of the other municipalities in Buncombe County and they are interested, at some point in the future, in creating a bus service between the cities.

ORDINANCE BOOK NO. 17 - PAGE 391

C. RESOLUTION APPOINTING MEMBERS TO THE SUSTAINABLE ECONOMIC DEVELOPMENT TASK FORCE

Vice-Mayor Hay said Economic Development Director Mac Williams presented City Council with a list of candidates for consideration as the Economic Development Task Force. However, some of the candidates on the list have not responded and confirmed their willingness to serve, if asked. Therefore, the Boards & Commissions Committee has requested, and it was the consensus of City Council, that City Council postpone consideration of appointing members to this Task Force until their next formal meeting on July 13, 1999.

D. RESOLUTION NO. 99-94 - RESOLUTION REAPPOINTING MEMBERS TO THE CARRIAGE PERMIT ADVISORY BOARD

81

Vice-Mayor Hay said that the terms of Sally Rhoades, Susan Dodson and Michael Hyatt expire on June 25, 1999. This resolution will reappoint Ms. Rhoades, Ms. Dodson and Mr. Hyatt to each serve a three year term respectively, terms to expire June 25, 2002, or until their successors have been appointed.

Mayor Sitnick said that members of Council have been previously furnished with a copy of the resolution and it would not be read.

Councilman Cloninger moved for the adoption of Resolution No. 99-94. This motion was seconded by Councilman Sellers and carried unanimously.

RESOLUTION BOOK NO. 25 - PAGE 237

E. RESOLUTION NO. 99-95- RESOLUTION APPOINTING MEMBERS TO THE CITIZENS/POLICE ADVISORY COMMITTEE

Vice-Mayor Hay said that the terms of John Ingersoll, Jimmy Hungerford, Lonnie Blair and Janice Van Dine, as members on the Citizens/Police Advisory Committee, expire on June 30, 1999. This resolution will (1) reappoint Mr. Ingersoll (North representative), Mr. Hungerford (West representative), and Mr. Blair (East representative); and appoint Ms. Betty Budd (South representative) to each serve a three year term respectively. All terms will expire on June 30, 2002, or until their successors have been appointed.

Mayor Sitnick said that members of Council have been previously furnished with a copy of the resolution and it would not be read.

Councilman Cloninger moved for the adoption of Resolution No. 99-95. This motion was seconded by Councilman Tomes and carried unanimously.

RESOLUTION BOOK NO. 25 - PAGE 238

F. RESOLUTION NO. 99-96- RESOLUTION APPOINTING MEMBERS TO THE CIVIC CENTER COMMISSION

Vice-Mayor Hay said that the terms of Robert Swan, Richard Bowman and Tom Muncy, as members on the Civic Center Commission, expire on June 30, 1999.

On June 1, 1999, it was the consensus of City Council to reappoint Mr. Swan and Mr. Bowman to each serve an additional three year term. Their terms will expire on June 30, 2002, or until their successors have been appointed.

On June 8, City Council interviewed Denise Goodson. Peter Crosa was interested in the position, however, due to a business trip, he was not able to come in for an interview. John Leander was unable to be contacted by phone or letter for an interview.

Councilman Cobb moved to (1) appoint Denise Goodson to serve a three year term, term to expire June 30, 2002, or until her successor has been appointed, and (2) reappoint Mr. Swan and Mr. Bowman to each serve an additional three year term, terms to expire on June 30, 2002, or until their successors have been appointed. This motion was seconded by Councilman Cloninger and carried unanimously.

RESOLUTION BOOK NO. 25 - PAGE 239

G. RESOLUTION NO. 99-97 - RESOLUTION APPOINTING A MEMBER TO THE CIVIL SERVICE BOARD

Vice-Mayor Hay said that the term of Nancy Kauffman, as a member of the Civil Service Board, expired on May 21, 1999. This resolution will appoint Mr. Gene Bell to serve a two year term, term to expire May 21, 2002, or until his successor has been appointed.

Vice-Mayor Hay also said that City Council will need to appoint a Chair to the Civil Service Board. It was the consensus of City Council to make that appointment at their next formal meeting on July 13, 1999.

Mayor Sitnick said that members of Council have been previously furnished with a copy of the resolution and it would not be read.

Mayor Sitnick moved for the adoption of Resolution No. 99-97. This motion was seconded by Councilman Sellers and carried unanimously.

RESOLUTION BOOK NO. 25 - PAGE 240

H. RESOLUTION NO. 99-98 - RESOLUTION APPOINTING MEMBERS TO THE ASHEVILLE-BUNCOMBE CRIME STOPPERS BOARD

Vice-Mayor Hay said that the terms of Councilman Tommy Sellers, Mr. Steve Curtis and Mr. Grant Osborne, as members on the Crime Stoppers Board of Directors, expire on June 30, 1999. This resolution will (1) reappoint Councilman Sellers for an additional three year term, and (2) appoint Josefine Matty and Leslie Hennessee to each serve a three year term. All terms will expire on June 30, 2002, or until their successor has been appointed.

Mayor Sitnick said that members of Council have been previously furnished with a copy of the resolution and it would not be read.

Councilman Cloninger moved for the adoption of Resolution No. 99-98. This motion was seconded by Councilman Cobb and carried unanimously.

RESOLUTION BOOK NO. 25 - PAGE 241

I. RESOLUTION NO. 99-99 - RESOLUTION APPOINTING MEMBERS TO THE ASHEVILLE FILM BOARD

Vice-Mayor Hay said that Ashley Siegel and Curtis Gaston have resigned as members on the Asheville Film Board.

On June 8, 1999, City Council interviewed Yvette Logan and Cindy Pomeroy. Anne Watkins is interested, however, was out of town on the date scheduled for interviews. Celeste Fletcher could not be reached by telephone and did not respond to interview letter written.

Councilman Cloninger moved to appoint Anne Watkins and Cindy Pomeroy to the Film Board to each serve an unexpired term, said terms to be determined at the next meeting of the Film Board. This motion was seconded by Councilman Tomes and carried unanimously.

RESOLUTION BOOK NO. 25 - PAGE 242

J. RESOLUTION NO. 99-100 - RESOLUTION REAPPOINTING MEMBERS TO THE ASHEVILLE-BUNCOMBE HISTORIC RESOURCES COMMISSION

Vice-Mayor Hay said that the terms of Mr. Jody Kuhne and Mr. Fred Eggerton, as members on the Asheville-Buncombe Historic Resources Commission, expire on July 1, 1999. This resolution will reappoint Mr. Kuhne and Mr. Eggerton to each serve an additional three year term, respectively. Their terms will expire July 1, 2002, or until their successors have been appointed.

Mayor Sitnick said that members of Council have been previously furnished with a copy of the resolution and it would not be read.

Councilman Tomes moved for the adoption of Resolution No. 99-100. This motion was seconded by Councilman Cobb and carried unanimously.

RESOLUTION BOOK NO. 25 - PAGE 243

K. RESOLUTION NO. 99-101 - RESOLUTION ENDORSING APPOINTMENTS OF MEMBERS TO THE HOUSING AUTHORITY

Mayor Sitnick said that the terms of Mabel Hoskins and Cleatus Tate, as members on the Housing Authority Board of Directors, expired on June 11, 1999. Peggy Cook has resigned as a member, effective September 1, 1999, thus leaving an unexpired term until June 11, 2000.

On June 17, 1999, Mayor Sitnick interviewed T. Bentley Leonard, Mary Robertson, Minnie Jones, Helen Branson, and Adam Fetterman.

Vice-Mayor Hay moved to endorse the following appointments by Mayor Sitnick: (1) reappointing Cleatus Tate to serve an additional five year term, term to expire June 11, 2004; (2) appointing Minnie Jones to serve a five year term, term to expire June 11, 2004; and (3) appointing Helen P. Branson to serve the unexpired term of Ms. Cook, term to begin on September 1, 1999, and expire on June 11, 2000. All appointments will be until their successors have been appointed. This motion was seconded by Councilwoman Field and carried unanimously.

RESOLUTION BOOK NO. 25 - PAGE 244

L. RESOLUTION NO. 99-102 - RESOLUTION APPOINTING MEMBERS TO THE RECREATION BOARD

Vice-Mayor Hay said that the terms of William Estes, Lewis Isaac and Charles Bullman, as members on the Recreation Board, expire on June 30, 1999.

On June 1, 1999, it was the consensus of City Council to reappoint Mr. Bullman to serve an additional three year term, term to expire June 30, 2002.

On June 8, 1999, City Council interviewed Susan Sparboe. Derek Weekly could not be reached by telephone and did not respond to interview letter written. Additional candidates not scheduled for interviews include Ann Babcock, Susan Roderick and Barbara Weinkle.

Councilwoman Field nominated Ann Babcock and Barbara Weinkle.

Councilman Cloninger nominated Susan Roderick and Susan Sparboe.

After Vice-Mayor Hay asked if anyone in the audience would like to comment on this matter and hearing none, each Council member voted. Ann Babcock received 4 votes, Barbara Weinkle received 3 votes, Susan Roderick received 6 votes and Susan Sparboe received one vote. Therefore, the resolution will (1) reappoint Charles Bullman to serve an additional three year term, term to expire June 30, 2002; and (2) appoint Ann Babcock and Susan Roderick to each serve a three year term, terms to expire June 30, 2002, or until their successors have been appointed.

RESOLUTION BOOK NO. 25 - PAGE 245

M. RESOLUTION NO. 99-103 - RESOLUTION APPOINTING MEMBERS TO THE TREE/GREENWAY COMMISSION

Vice-Mayor Hay said that the terms of Peter Loewer, Margaret Tinkler, Ann Babcock and Jerry Bailey, as members on the Tree/Greenway Commission, expire on July 1, 1999.

On June 1, 1999, it was the consensus of City Council to reappoint Ms. Tinkler, Ms. Babcock (contingent upon her consideration of appointment to the Recreation Board), and Mr. Bailey to each serve an additional three year term, terms to expire July 1, 2002.

On June 8, 1999, City Council interviewed Sofia Mannos and Ginger Mahler. Leonard Pardue could not be reached by telephone and did not respond to interview letter written.

Ms. Babcock has been appointed to the Recreation Board, thus requiring City Council to fill her term.

Councilman Tomes moved to appoint Sofia Mannos and Ginger Mahler to each serve a three year term, terms to expire June 30, 2002, or until their successors have been appointed. This motion was seconded by Mayor Sitnick and carried unanimously.

Councilman Tomes moved to reappoint Margaret Tinkler and Jerry Bailey to each serve an additional three year term, terms to expire on June 30, 2002, or until their successors have been appointed. This motion was seconded by Councilman Sellers and carried unanimously.

RESOLUTION BOOK NO. 25 - PAGE 246

VI. OTHER BUSINESS:

A. APPROVAL OF THE MINUTES OF THE REGULAR MEETING HELD ON JUNE 8, 1999

Councilman Tomes moved for the adoption of the minutes of the regular meeting held on June 8, 1999. This motion was seconded by Councilman Sellers and carried unanimously.

B. CLAIMS

The following claims were received by the City of Asheville during the week of: June 4-10, 1999: April Brown (Water) and Mack Moore (Parks & Recreation).

These claims have been referred to Asheville Claims Corporation for investigation.

VII. INFORMAL DISCUSSION AND PUBLIC COMMENT:

Waste Reduction and Technology Transfer Program (WRATT)

City Manager Westbrook updated City Council on their request concerning an environmental excellence initiative for internal operations within the City of Asheville. City staff has received a proposal and a scope of work which could begin as early as September, 1999. His only concerns include the amount of staff time that may be involved and any costs to implement recommendations, which are not in the budget.

Sidewalk Waiver Request

A representative of residents on Beaucatcher Road affected by the development of the Road House Grill that will be built on Kenilworth Road and Beaucatcher Road, urged City Council to preserve the buffer of white pine trees on Beaucatcher Road. The developer is required to install a sidewalk, however, because of the required buffer, they are concerned that the roots of the trees will be damaged. The residents do want a sidewalk on their road, however, they also want a solid buffer. She asked City Council waive the sidewalk requirement if they can't guarantee them that the buffer will be protected.

With the use of a map/plan, City Engineer Cathy Ball explained that the cost to the contractor to build the sidewalk on the other side of the street on Beaucatcher Road, which the City could not require him to do, would be very expensive because of drainage problems and he would have to go over three-four driveways. She said that this road is on the Pedestrian Thoroughfare Plan and up further on Beaucatcher Road there is a sidewalk on the side of the road that has the trees. She has talked with the City's Arborist and asked him to look at the site to see if he felt that putting in this sidewalk would jeopardize those trees. He felt that the trees would be fine if it was put in according to this plan. However, he did suggested putting up some type of fence or something to keep them physically off of the 8-9 foot area in the plan.

Ms. Ball recommended City Council not waive the sidewalk requirement. She is prepared to meet with the contractor, along with representatives of the Tree/Greenway Commission, in order to preserve the trees and suggest materials to be used for the sidewalk.

It was the consensus of City Council for Ms. Ball to meet with the contractor and representatives of the neighborhood to see if the sidewalk could be installed with preservation of the trees.

VIII. ADJOURNMENT:

Mayor Sitnick adjourned the meeting at 8:50 p.m.

Magdalen Burleson
CITY CLERK

Leni Sitnick
MAYOR

Tuesday - June 29, 1999
North Asheville Community Center
47 Larchmont Road

7:00 p.m. - Community Meeting

Present: Vice-Mayor Edward C. Hay Jr., Presiding; Councilman M. Charles Cloninger; Councilman Earl Cobb; Councilwoman Barbara Field; Councilman Thomas G. Sellers; and Councilman O.T. Tomes; City Attorney Robert W. Oast Jr.; City Manager James L. Westbrook Jr.; and City Clerk Magdalen Burleson

Absent: Mayor Leni Sitnick

The following topics were raised by residents and addressed by City Council and City staff: appeal from Kenilworth neighborhood for assistance in finding a way to delay the MSD Project (to upgrade a sewer line in their neighborhood from 12" to 24") in order for the neighborhood to find alternatives to help save the lake, trees and property values in the area; growth of the City is being borne at the expense of the current residents; Merrimon Avenue traffic and possible plans for the future; noise from car stereos; litter; need for speed humps on Lakeshore Drive to curb speeding; speeding on Kimberly Avenue; problems with lighting at Weaver Park; need for a park in North Asheville; need to proceed with the Richmond Hill Project; would Council support bringing up the Parks, Recreation and Greenways Bond issue again in November, 1999; concerns regarding the Asheville Mall expansion - traffic, noise, buffer, lighting, etc.; need for equitable enforcement of noise ordinance for residents and businesses; need for cruising law, especially in Flint Street and Starnes Avenue area; need for sidewalk on section between Larchmont Road and Fenner Avenue; need for dilapidated house at 26 Fenner Avenue to be torn down; and consideration of closing White Pine Drive to Tunnel Road and finding another route for White Pine Drive to exit onto Kenilworth Drive.

Vice-Mayor Hay adjourned the meeting at 9:04 p.m.

Magdalen Burleson
CITY CLERK

Leni Sitnick
MAYOR

Tuesday - July 13, 1999 - 5:00 p.m.

Regular Meeting

Present: Mayor Leni Sitnick, Presiding; Vice-Mayor Edward C. Hay Jr.; Councilman M. Charles Cloninger; Councilman Earl Cobb; Councilwoman Barbara Field; Councilman Thomas G. Sellers; and Councilman O.T. Tomes; City Attorney Robert W. Oast Jr.; City Manager James L. Westbrook Jr.; and City Clerk Magdalen Burleson

Absent: None

INVOCATION

On behalf of City Council, Vice-Mayor Hay expressed sympathy on the passing of Mr. Jim Crum, who was the Print Shop Manager for the City of Asheville and City of Asheville employee for over 20 years.

Councilman Sellers gave the invocation.

I. PROCLAMATIONS:

A. PROCLAMATION PROCLAIMING JULY 1999 AS "NATIONAL RECREATION AND PARKS MONTH"

Mayor Sitnick read the proclamation proclaiming July, 1999, as "National Recreation and Parks Month" in the City of Asheville. She presented the proclamation to Mr. Frank Fishburne, Chairman of the Recreation Board, who briefed City Council on some activities taking place during the month.

II. CONSENT:

A. RESOLUTION NO. 99-104 - RESOLUTION FIXING DATE OF PUBLIC HEARING ON JULY 27, 1999, ON THE QUESTION OF ANNEXATION OF PROPERTY LOCATED OFF OF LONG SHOALS ROAD AND KNOWN AS BILTMORE PARK COMMON AREAS (BILTMORE PARK ANNEXATION SECTION 14), SCHENCK PARKWAY AND 100 TECHNOLOGY DRIVE

RESOLUTION BOOK NO. 25 - PAGE 247

B. RESOLUTION NO. 99-105 - RESOLUTION APPOINTING A MEMBER TO THE EDUCATIONAL ACCESS CHANNEL COMMISSION

Summary: Ordinance No. 2554 adopted on March 9, 1999, established an Educational Access Channel Commission. On May 25, 1999, members to the Commission were appointed.

On June 21, 1999, Dr. Bob Bowers, Superintendent of Buncombe County Schools, requested that Ms. Carolyn Crew, Director of Media Services, be appointed as one of the Buncombe County School appointments instead of Dr. Bobbie Short. Ms. Crew will be filling the unexpired term of Dr. Short, term to expire June 1, 2003, or until her successor is appointed.

RESOLUTION BOOK NO. 25 - PAGE 252

C. MOTION SETTING A PUBLIC HEARING ON JULY 27, 1999, TO CONSIDER A CONDITIONAL USE PERMIT FOR THE ASHEVILLE MALL EXPANSION

88

D. MOTION SETTING A PUBLIC HEARING ON JULY 27, 1999, TO CONSIDER A CONDITIONAL USE PERMIT FOR DREAMLAND PHASE II

E. MOTION SETTING A PUBLIC HEARING ON JULY 27, 1999, TO ADD THE MANUFACTURED HOME OVERLAY DISTRICT TO 15 LOTS LOCATED ON MOCKINGBIRD CIRCLE CURRENTLY ZONED RM-6 RESIDENTIAL MULTI-FAMILY LOW DENSITY DISTRICT

F. RESOLUTION NO. 99-106 - RESOLUTION AUTHORIZING APPLICATION AND ADMINISTRATION OF TRANSIT OPERATING GRANTS

Summary: The consideration of a resolution authorizing the City of Asheville to apply for and administer grants for transit operations

A substantial part of the current operating budget for the City's transit operations has traditionally come in the form of grants from the Federal Transit Authority, for which applications and administration contracts are required every year. The City abolished the Asheville Transit Authority effective July 1, 1999, and established transit operations as a line department of the City.

The adoption of the budget, since it assumes the continuation of this grant funding, is sufficient legal authority for the City to apply for and receive the grants. The resolution is a formality that specifically authorizes the City to take actions that the law and the budget ordinances already authorize generally. It also ratifies any actions taken from July 1 until now.

Adoption of the resolution is recommended.

RESOLUTION BOOK NO. 25 - PAGE 253

G. MOTION SETTING A PUBLIC HEARING ON AUGUST 10, 1999, TO REZONE A PORTION OF VIRGINIA AVENUE AND HAYWOOD ROAD FROM RM-8 RESIDENTIAL MULTI-FAMILY MEDIUM DENSITY DISTRICT TO COMMERCIAL BUSINESS II DISTRICT

H. MOTION SETTING A PUBLIC HEARING ON AUGUST 10, 1999, TO REZONE SEVEN LOTS ON SAND HILL SCHOOL ROAD FROM RM-6 RESIDENTIAL MULTI-FAMILY LOW DENSITY DISTRICT TO RM-16 RESIDENTIAL MULTI-FAMILY HIGH DENSITY DISTRICT

I. MOTION SETTING A PUBLIC HEARING ON AUGUST 10, 1999, TO AMEND THE UNIFIED DEVELOPMENT ORDINANCE TO REVISE THE STANDARDS OF WIRELESS TELECOMMUNICATION FACILITIES

J. MOTION SETTING A PUBLIC HEARING ON AUGUST 10, 1999, TO AMEND THE UNIFIED DEVELOPMENT ORDINANCE REGARDING THE ENFORCEMENT REMEDIES

Mayor Sitnick said that members of Council have been previously furnished with a copy of the resolutions and ordinances and the Consent Agenda and they would not be read.

Councilman Tomes moved for the adoption of the Consent Agenda. This motion was seconded by Councilwoman Field and carried unanimously.

III. PUBLIC HEARINGS:

A. PUBLIC HEARING RELATIVE TO CONSIDERING THE INITIAL ZONING OF CITY-OWNED PROPERTY LOCATED OFF FERRY ROAD (BENT CREEK AREA) TO INDUSTRIAL DISTRICT

ORDINANCE NO. 2588 - ORDINANCE TO ZONE CITY-OWNED PROPERTY LOCATED OFF FERRY ROAD (BENT CREEK AREA) TO INDUSTRIAL DISTRICT

Mayor Sitnick said that the public hearing which was opened on June 22, 1999, was to consider zoning of City-owned property located off of Ferry Road (Bent Creek area) to RS-2 Residential Single Family Low Density District. However, City Council continued this matter until this date and legally advertised zoning the property to Industrial District.

Mr. Carl Ownbey, Urban Planner, said that the City of Asheville annexed 139 acres of vacant, city-owned property earlier this year (PIN Nos. 9635.01-07-6456 and 9636.03-10-3854). Requirements dictate that all property within the City limits of Asheville be zoned. Since this property lies along the French Broad River in a rural residential setting, Planning staff felt the most appropriate zoning classification would be RS-2 Residential Single Family Low Density District.

The Planning staff reviewed the rezoning request to RS-2 and recommended approval. At their June 2, 1999, meeting, the Planning & Zoning Commission voted unanimously to recommend approval of the initial zoning of 139 acres of vacant land located off Ferry Road to RS-2 Residential Single Family Low Density District.

Councilman Cloninger said that the City has a good faith obligation to transfer ownership of this property to Henderson County with a zoning classification that will allow them to do what the Water Agreement restricts them to do and that is to build a wastewater treatment facility only. The Water Agreement provides that Henderson County shall convey the property to MSD for construction of a wastewater treatment facility, or to another water authority of which Henderson County and the City are a part. If Henderson County fails to do either within 10 years, the property is to be reconveyed to Asheville. He felt it would not be appropriate to transfer property to Henderson County telling them they can only use this for a wastewater treatment facility, but at the same time transfer it with a zoning designation that forbids that. He felt the City should zone the property in such a way that will allow them to put a wastewater treatment plant on the property if they decide to do that. He said we can put specific deed restrictions in the deed itself when we transfer the property to Henderson County that will prevent them from doing anything other than building a wastewater treatment plant on it.

Upon inquiry of Vice-Mayor Hay, City Attorney Oast said that he has prepared the deed to reflect the terms of the Water Agreement. The Agreement does not contain restrictive covenants in the classically understood sense. Rather, it provides that the property will revert to the City if it is not used (for a wastewater treatment plant) as provided for in the Agreement within 10 years. He said that restrictive covenants merely limit the potential use of property, and would depend on the City taking some affirmative step to enforce them. Even if the covenants were violated, ownership would remain with Henderson County. Under the reversion arrangement, however, failure of the condition automatically causes the property to come back to the City. So the reversion is actually a stronger mechanism.

Councilman Cloninger said that to be on the safe side, the restrictive covenants should be included in the deed.

When Mayor Sitnick asked if Henderson County could trade or sell that property if they don't build a treatment plant on it, City Attorney Oast said that with the reverter clause in the deed, the possibility of Henderson County finding a willing buyer would be slim. The way the deed will be drafted, if they attempted to do anything with it other than develop it for a wastewater treatment plant, he felt the City of Asheville would have a basis to claim that the reverter clause be triggered.

Mayor Sitnick asked what would happen if Henderson County does decide to build a treatment plant on the site but MSD finds that they cannot use the property for a treatment plant. Could MSD do something with that property that would not bind Henderson County to the original agreement? City Attorney Oast said that any restrictions in the deed will be binding on any subsequent owner of the property. The deed does not currently contain the restrictions that Councilman Cloninger mentioned, however, it does contain the reversion language. He said that he would revise the deed to add restrictions, suggested by Council Cloninger, that affirmatively limit the use of the property and send it to Henderson County.

Mayor Sitnick noted that the ten year period starts at the time of the transfer of the property, not at the time of the agreement.

It was the consensus of City Council to have the City Attorney include an additional restriction in the deed that Henderson County can only use the property for one use in the next ten years and that is the wastewater treatment facility. City Council does not want Henderson County to be able to put up even a short-term industrial use.

City Attorney Oast said that the restrictions will apply to the entire property.

Upon inquiry of Mayor Sitnick, Mr. Ownbey addressed the concern from the Blue Ridge Parkway that a small portion of this property proposed to be zoned industrial is located in the Blue Ridge Parkway Viewshed Area.

Mayor Sitnick said that, while she was on City Council at the time it was agreed to transfer this property to Henderson County, she wished that there was more prominent discussion about the transfer and that she had been more fully informed about what was happening.

Mr. Frank Rosa, owner of property on Brevard Road, felt that this gateway to Asheville should be a park or office complex, but certainly not have a wastewater treatment facility built on the land.

Mayor Sitnick asked if there was anyway that City Council could place conditions, such as regulating height, creating buffers that would require the planting of trees that grow to such heights that don't allow the plant to be seen from I-26, Brevard Road and the Blue Ridge Parkway, etc., in addition to the deed restrictions, on the property prior to the transfer in hopes to encourage Henderson County to keep the plant as visually low impact as possible. City Attorney Oast said that any wastewater treatment facility that is built on that property will require a conditional use permit and site specific questions can be addressed in that process.

City Attorney Oast said that it is his understanding that it's entirely up in the air as to whether a wastewater treatment plant will be built there at all. He felt it may be difficult, and it may be a problem with the agreement, if we try to attach those kinds of conditions because he felt we may be overstepping what we said we would do in the agreement.

Councilwoman Field noted that even if City Council did place some kind of conditions on the property now, those can be changed by whatever Council is sitting at the time the building process begins.

Councilman Cloninger suggested that, even though it would not be binding, as part of the transfer of the deed to Henderson County, a letter be sent to Henderson County summarizing our concerns that aesthetics be taken into account in any use they attempt to make of the property. He also suggested the letter be filed in some appropriate place with the City that if, and when, Henderson County has to come to the City for the conditional use permit for the plant, the staff will have that letter in the file and it will be consulted as part of that conditional use hearing process. At least that way we will be on record to see that there were these concerns at the time the transfer was made.

City Attorney Oast said that if Henderson County does pursue building the plant, it's possible that only a small portion of the property will be used for the plant and the rest could be zoned to a less intensive classification, but that is something unknown as this time.

Councilman Cobb felt personally that a mistake was made to transfer the property. He wondered if the City could go to Henderson County and ask if we could trade or buy back the property.

Mayor Sitnick was concerned that when the current MSD plant runs out of capacity they might decide to build a large plant to accommodate our region. Councilwoman Field, and member of the MSD Board, said that she recently learned that the MSD plant, as it is now, is only being used at less than 50% of its capacity and she believed they have capacity, based on the rate of growth that this county is in, for another 50-75 years in the present plant. She said she doesn't think there are any intentions of MSD of building a wastewater treatment plant on that piece of property.

Upon inquiry of Mayor Sitnick, City Attorney Oast said that the Water Agreement provides that Henderson County shall convey the property to MSD for construction of a wastewater treatment facility, or to another water authority of which Henderson County and the City are a part.

Mayor Sitnick closed the public hearing at 5:44 p.m.

Mayor Sitnick said that members of Council have previously received a copy of the ordinance and it would not be read.

Councilman Cloninger moved for the adoption of Ordinance No. 2588 to zone the property Industrial, with the express provision that the deed transferring title to Henderson County contain the restrictive covenant language as discussed today. This motion was seconded by Councilwoman Field and carried unanimously.

ORDINANCE BOOK NO. 17 - PAGE 394

B. PUBLIC HEARING RELATIVE TO CONSIDERING AN AMENDMENT TO THE UNIFIED DEVELOPMENT ORDINANCE TO REQUIRE A CONDITIONAL USE PERMIT FOR ADULT ESTABLISHMENTS

ORDINANCE NO. 2589 - ORDINANCE AMENDMENT TO THE UNIFIED DEVELOPMENT ORDINANCE TO REQUIRE A CONDITIONAL USE PERMIT FOR ADULT ESTABLISHMENTS

Mayor Sitnick opened the public hearing at 5:45 p.m.

City Clerk Burleson presented the notice to the public setting the time and date of the public hearing.

City Attorney Oast said that this is the consideration of an ordinance amending the Unified Development Ordinance which would identify adult establishments as conditional uses and establish standards for the adult uses.

The Asheville Planning and Zoning Commission, at their June 24, 1999, meeting, reviewed and recommended approval of an amendment to the Unified Development Ordinance which would identify adult establishments as a conditional use in the Highway Business, Regional Business, and Commercial Industrial districts. Adult uses are not permitted in any of the other zoning districts. The proposed ordinance amendment also sets standards for adult establishments. Among the development standards for adult establishments are:

- No lot containing an adult establishment shall be located within a 1,000 foot radius of any other lot containing an adult establishment;
- No lot containing an adult establishment shall be located within a 1,000 foot radius of any residential zoning district;
- No lot containing an adult establishment shall be located within a 1,000 foot radius of any church, school, library, child care center, or public recreation center, or public park or playground; and
- Standards for signage.

As a conditional use, all requests for adult establishments would be decided by City Council following a public hearing on the request. The proposed ordinance amendment makes permanent an earlier temporary ordinance making adult establishments a conditional use.

The public notice advertising the hearing on this ordinance amendment was legally advertised in the Asheville Citizen-Times July 2, 1999 and July 9, 1999.

The Asheville Planning and Zoning Commission voted unanimously to recommend approval of the wording amendment. The Planning and Development staff recommends approval of the amendment.

Mayor Sitnick closed the public hearing at 5:50 p.m.

Mayor Sitnick said that members of Council have previously received a copy of the ordinance and it would not be read.

Councilman Sellers moved for the adoption of Ordinance No. 2589. This motion was seconded by Councilman Cobb and carried unanimously.

ORDINANCE BOOK NO. 17 - PAGE 396

IV. UNFINISHED BUSINESS:

V. NEW BUSINESS:

A. RESOLUTION NO. 99-107 - RESOLUTION APPOINTING MEMBERS TO THE SUSTAINABLE ECONOMIC DEVELOPMENT TASK FORCE

Vice-Mayor Hay said on June 8, 1999, City Council authorized staff to develop a list of candidates to work with Dr. David Kolzow, Consultant with Lockwood Greene Consulting, on the Comprehensive Sustainable Economic Development Strategic Plan.

Economic Development Director Mac Williams prepared a list of candidates who have been contacted and who have confirmed their willingness to serve, if asked. Mr. Williams explained the task of the group. He said that the term of the Task Force will begin with appointment of the members by City Council and would end when the Sustainable Economic Development Strategic Plan, that they will draft, is adopted by City Council. He felt the draft Plan should be ready for City Council review in October or November of this year.

The City Council Boards and Commissions Committee met to review the list and the following are their recommendations: Jack Cecil, Bill Habermeyer, Benson Slosman, Bruce Tompkins, Carol King, Sonny Enloe, Dale Groce, Chuck Tessier, James Geter, Pat Whalen, Bob Turner, Charles Pine, Doug Wilson, Ted Prosser, Harry Pilos, Joyce Harrison, Pam Turner, Jim Mullen, Ed Anderson, Russ Martin, Bob Burgin, Ray Bailey and B.J. Harris.

City Council expressed their appreciation to this talented group of people who have agreed to work on behalf of the City on this very important task.

Councilwoman Field asked if she would have a conflict of interest since one of the candidates is a client of hers. City Attorney Oast said he did not feel she would have a conflict.

Vice-Mayor Hay moved to adopt Resolution No. 99-107 to appoint the 23 candidates recommended by the Boards and Commissions Committee to serve as members on the Sustainable Economic Development Task Force. This motion was seconded by Mayor Sitnick and carried unanimously.

Mr. Williams then explained why he felt Mr. Jack Cecil would make an excellent Chair of the Task Force.

City Council expressed how pleased they would be to appoint Mr. Cecil as Chair due to his effective leadership and his excellent expertise.

Vice-Mayor Hay moved to appoint Jack Cecil as Chair of the Sustainable Economic Development Task Force. This motion was seconded by Mayor Sitnick and carried unanimously.

RESOLUTION BOOK NO. 25 - PAGE 254

B. RESOLUTION NO. 99-108- RESOLUTION APPOINT A CHAIR TO THE CIVIL SERVICE BOARD

Vice-Mayor Hay said that Gary Moffitt has resigned as a member and Chair of the Civil Service Board. The members currently on the Board include: William Fulp, Gene Bell, George Bancroft, Jesse Warren and Al Thomas.

Vice-Mayor Hay said that the Boards & Commissions Committee recommends appointing Gene Bell as Chair of the Civil Service Board.

Councilman Cloninger moved for the adoption of Resolution No. 99-108, appoint Gene Bell as Chair to the Civil Service Board. This motion was seconded by Councilman Tomes and carried unanimously.

VI. OTHER BUSINESS:

A. APPROVAL OF THE MINUTES OF THE WORKSESSION HELD ON JUNE 15, 1999, THE REGULAR MEETING HELD ON JUNE 22, 1999, AND THE COMMUNITY MEETING HELD ON JUNE 29, 1999

Councilman Tomes moved for the adoption of the minutes of the worksession held on June 15, 199, the regular meeting held on June 22, 1999, and the community meeting held on June 29, 1999. This motion was seconded by Councilman Sellers and carried unanimously.

B. REPORT ON FATHERHOOD CONFERENCE

Councilman Tomes gave City Council a brief report on his trip to Washington, D.C., when he attended a conference on fatherhood.

C. PACK PLACE SIGN

As a result of numerous complaints being received about the design of the sign located in front of Pack Place, it was the consensus of City Council to review the ordinance that allowed the sign to be placed there at an upcoming worksession.

Vice-Mayor Hay noted that the sign was paid for by a grant, designed by an Atlanta, Georgia, architect sign designer and was selected by a committee, not the Pack Place Board.

D. CLAIMS

The following claims were received by the City of Asheville during the period of June 11-24, 1999: Jerry Payne Construction Co. (Water), Helen Sanders (Water), Bob Beard (Water), David Waldroup (Parks & Recreation) and Mark Brown (Streets).

The following claims were received by the City during the period of June 25 - July 1, 1999: Ben Woolf (Fire), Dee Tobe (Parks & Recreation), Herbert Miller (Water) and Beryl Thompson (Streets).

The following claims were received by the City during the period of July 2-8, 1999: Claudia Garren (Fire) and BellSouth (Water).

These claims have been referred to Asheville Claims Corporation for investigation.

E. LAWSUITS

The following Complaint was received by the City on June 18, 1999: Leanna F. Young, Janet Rebecca Crisp, Paul Evington, Scott Alan Gaddy, and Rock S. Edwards v. William R. Annarino, Leroy Lunsford and the City of Asheville. The nature of the complaint alleges wrongful discharge, deprivation of civil and constitutional rights, breach of contract, negligent supervision, libel and slander, and RICO violations. This matter will be handled by an outside attorney.

The following Complaint was received by the City on June 21, 1999: Carrier Heights Neighborhood Association v. City of Asheville. The nature of the proceeding is a petition seeking reversal of decision to issue a conditional use permit for a Level III church, and an injunction restraining issuance of permits. This matter will be handled in-house.

VII. INFORMAL DISCUSSION AND PUBLIC COMMENT:

Closed Session

At 6:30 p.m., Councilman Cloninger moved to go into closed session to consider the qualifications, competence, performance, character, fitness, conditions of appointment, or conditions of initial employment of an individual public officer or employee or prospective public officer or employee - statutory authority is G.S. 143-318.11 (a) (6). This motion was seconded by Councilman Sellers and carried unanimously.

At 6:45 p.m., Vice-Mayor Hay moved to go out of closed session. This motion was seconded by Councilman Sellers and carried unanimously.

VIII. ADJOURNMENT:

Mayor Sitnick adjourned the meeting at 6:45 p.m.

Magdalen Burleson
CITY CLERK

Leni Sitnick
MAYOR

Tuesday - July 20, 1999 - 3:00 p.m.

Worksession

Present:	Mayor Leni Sitnick, Presiding; Councilman M. Charles Cloninger; Councilman Earl Cobb; Councilwoman Barbara Field; Councilman Thomas G. Sellers; and Councilman O.T. Tomes; City Attorney Robert W. Oast Jr.; City Manager James L. Westbrook Jr.; and City Clerk Magdalen Burleson
Absent:	Vice-Mayor Edward C. Hay Jr.

CONSENT:

Budget Amendment re: Water Major Capital Improvements Fund

Summary: The consideration of a budget amendment, in the amount of $416,598, to amend Capital Project Ordinance 82-25 (35 Fund - Water Major Capital Improvements Fund) to fund the remainder of the 1998/1999 Water Distribution System Improvements.

By Resolution 82-25 dated October 5, 1982, the Regional Water Authority authorized and budgeted for various capital projects to be funded by Investment Earnings, Contributions From Other Funds, and Appropriated Fund Balance.

Funds in the amount of $597,920 were approved in the FY 1998/1999 FY Water Operating Budget (30 Fund) to be transferred to the Water Major Capital Improvements Fund (35 Fund) to fund capital improvement projects. On October 20, 1998, the Authority approved the transfer of $180,962 from the Operating Budget (30 Fund) to the 35 Fund for the following projects: Relocation of Pesticide Mixing Stations ($33,000), Lee Street/Prospect Street Water Main Replacement ($33,000), Monroe Street Water Main Replacement ($25,000), and the first payment of the NCDOT US 70/74 Tunnel Road/Haw Creek Water Line Relocation Project ($89,962).

The remainder of the FY 1998/1999 Water Distribution System Improvements needs to be funded at this time. These projects total $416,598 and include the following:

- An additional $42,000 for Monroe and Maxwell Streets that was under-budgeted.
- $50,000 for Water System Improvements to Reconcile Existing Conflicts with MSD.
- $289,958 for Matching Funds for State $3 Million Grant
- $35,000 for Telemetry Upgrades to South Buncombe and East Asheville Pump Stations

Staff recommends approval of a budget ordinance amending Capital Project Ordinance 82-25 (35 Fund) to reflect the addition of a portion of the Contribution From Other Funds - Fiscal Year 1998/99 in the amount of $416,598.

Budget Amendment re: State Grant for Haw Creek Park

Summary: The consideration of a budget amendment, in the amount of $69,000, from the N.C. Department of Environment and Natural Resources, for the construction of the next phase of Haw Creek Park.

The City recently applied for and received approval for a grant from the N.C. Department of Environment and Natural Resources. The grant is in the amount of $69,000 and is designated for the development of the Haw Creek Park.

The development of Haw Creek Park represents the City of Asheville and the Haw Creek Community Association's long term goal to build a park in the Haw Creek neighborhood. The park is a collaborative effort between the City of Asheville and the Haw Creek Community Association, who has committed to raise $40,000 to assist with construction of the park. Haw Creek Park will be a passive park located on approximately 6.2 acres at Beverly and Avon Roads, and will serve as a major destination along the proposed Haw Creek Greenway. Park features include a trail, picnic shelter, and paved parking. The grant funds will be used to add a toddler playground, a second picnic shelter, rest rooms, interpretive signage, and landscaping.

The Parks and Recreation Department recommends the City of Asheville accept the grant funds on behalf of the Parks and Recreation Department for construction of the next phase of Haw Creek Park.

Budget Amendment re: Community Association Grant for Haw Creek Park

Summary: The consideration of a budget amendment, in the amount of $25,000, to appropriate funds donated from the Haw Creek Community Association for the construction of the next phase of Haw Creek Park.

The development of Haw Creek Park represents the City of Asheville and the Haw Creek Community Association's long term goal to build a park in the Haw Creek neighborhood. The park is a collaborative effort between the City of Asheville and the Haw Creek Community Association, who has committed to raise $40,000 to assist with construction of the park. At this time, the Association is giving a portion of the funds to the City of Asheville in the amount of $25,000. Haw Creek Park will be a passive park located on approximately 6.2 acres at Beverly and Avon Roads, and will serve as a major destination along the proposed Haw Creek Greenway. Park features include a trail, picnic shelter, and paved parking. The donation will be used to assist in the addition of a toddler playground, a second picnic shelter, rest rooms, interpretive signage, and landscaping.

The Parks and Recreation Department recommends the City of Asheville accept the donation on behalf of the Parks and Recreation Department for construction of the next phase of Haw Creek Park.

French Broad River Park Phase IV Planning & Design

Summary: The consideration of a resolution authorizing the City Manager to enter into a contract with WK Dickson for the planning and design stage of the development of the French Broad River Park - Phase IV.

This 32 acre tract of land is located along the French Broad River adjacent to Amboy Road. City Council directed staff to develop this donated property for recreational purposes. Consequently, a site plan is the necessary first stage of development. A request for qualifications was sent for this initial stage which entails inventory and analysis, program development, conceptual master plan, public meetings, cost estimates and a final master plan which will include drawings and written documents. The City received responses from eight firms interested in the proposed scope of work.

These products will be comprehensive enough to lead into the second stage, construction drawings and specifications. The review team was comprised of members from the Parks and Recreation Advisory Board, Riverlink, interested citizens and staff. The interview team selected the top firm, WK Dickson, for this stage of the project through the request for qualification procedure. The aforementioned scope of services will be provided by the consultant for $61,500 (master plan $36,500, engineering $10,000, architecture $15,000). The funding for this project will be the $75,000 from this years lease of the Asheville Motor Speedway.

The Parks and Recreation Department recommends that City Council authorize the City Manager to enter into a contract with WK Dickson for the planning and design stage of the development of the French Broad River Park - Phase IV.

Intent to Convey Twin Springs Subdivision to Habitat for Humanity

Summary: The consideration of a resolution authorizing the Mayor to dispose of 12.353 acres of City-owned real property, identified as Twin Springs Subdivision, by private sale to Asheville Area Habitat for Humanity Inc.

On August 19, 1997, the City of Asheville and the Asheville Area Habitat for Humanity, Inc. entered into a Memorandum of Understanding to develop a 12.353-acre tract of unimproved land on Broadview Drive within the City limits. The City agreed to construct infrastructure improvements, including water, sanitary sewer, storm drainage, streets and sidewalks, curb and gutter, electric, telephone, cable, street lighting, and minor landscaping. Upon completion of the infrastructure improvements, the City committed to transfer title of the property to Habitat at no cost. Habitat will construct 34 affordable housing units to be occupied by income-eligible families, and will transfer title of the individual real property to the qualified family when construction is completed. Habitat will provide construction and permanent mortgage financing for all homes within the subdivision.

The infrastructure has now been completed and the property subdivided into 34 lots. The property is ready for conveyance to Habitat.

Community Development staff recommends adoption of the resolution to dispose of the property.

Update on Parking Study Recommendations

Summary: City staff will update City Council on the current status of the Parking Study Implementation Team.

The City's Comprehensive Parking Study was adopted by the City Council in December 1998. The study made approximately 60 recommendations for potential changes that would improve parking issues within the City. In addition, a few other recommendations were made by other groups including the Asheville Downtown Association and the Implementation Team itself. A total of 65 recommendations have been incorporated into a single Status Report Spreadsheet. This spreadsheet is used to track the Implementation Team's progress on evaluating and implementing the recommendations. The Implementation Team will provide updates like this one to the City Council twice each year; once in July and once in December.

Most of the items that were scheduled to be near completion by July 1999 are operational issues to be worked on by the Finance Department. Several items have been evaluated and implemented. These include: raising on-street parking rates downtown, adding lighting to the Civic Center Garage, free parking overnight in garages for downtown residents, and increasing number of monthly parkers in the Wall Street and Civic Center garages. Several other parking operations issues have been evaluated but not implemented at this time due to budget constraints. The spreadsheet outlines the work being done by employees from several departments to implement many of the remaining recommendations.

Staff is presenting this request to update City Council regarding the status of the Parking Study Implementation.

2000 Big South Conference Basketball Tournament

Summary: Tom Hunnicutt, Athletic Director at UNCA, has requested a monetary contribution in support of the 2000 Big South Conference Basketball Tournament. Last year the City donated $10,000 toward the conference. This year's tournament is expected to be even bigger and will once again receive national television coverage. Supporting the Big South Conference Basketball Tournament is an excellent method for the City to showcase Asheville to visitors, as well as to support our local member university of the Southern Conference.

Staff recommends that Council approve a transfer from the General Fund Contingency to provide financial support to the 2000 Big South Conference Basketball Tournament.

Mayor Sitnick asked that the record show that City Council has received this information and instructs the City Manager to place the appropriate items on the next formal City Council agenda.

HILLCREST PEDESTRIAN BRIDGE UPDATE

Mr. Marshall Logan, member on the Housing Authority Board of Directors, briefed City Council on a historical synopsis of the Hillcrest Focus Group, which was formed after the NC Dept. of Transportation, which owns the Hillcrest Pedestrian Bridge, stated that the agency would follow City Council's wishes on whether to open or keep the bridge closed. After several meetings, the Group's list of priorities was (1) develop on-going activities for youth in the community; (2) increase police protection and safety education; (3) establish a focus group of citizens and housing development residents to work together in a cooperative fashion to do problem-solving concerning social, economic, and cultural diversity; (4) improve bus service and address alternative solutions to crossing the highway; and (5) establish clean-up campaigns and other community buy-in projects. The Group is addressing the problems through education and community projects, some of which are (1) bus service; (2) drug prevention carnival; (3) Asheville Residents Government Unified Strategy (ARGUS TEAM); and (4) proposals for summer activities.

Councilman Tomes appreciated the work of the Focus Group and related an experience about how collaborative efforts can make a difference.

Executive Director of the Housing Authority David Jones responded to an inquiry from Councilwoman Field about what the Housing Authority is doing regarding playgrounds and programs for the youth.

Mayor Sitnick suggested Mr. Logan meet with Parks & Recreation Director Irby Brinson and discuss the City's Summer Youth Program and how the City can help support the work of the Focus Group with regard to their first priority of developing on-going activities for youth in the community. She also suggested that perhaps other groups, such as the West Asheville Business Association, the Chamber of Commerce, etc., might be interested in attending a meeting such as this as well.

With regard to the Hillcrest Pedestrian Bridge, Mr. Logan said that the Focus Group felt that even though the opening and/or closing of the Bridge is a concern, they have other priorities that are much greater.

Transportation Planner Ron Fuller said that there is an opportunity for the City to apply for a grant from the State for enhance projects, such as security, lighting, trimming, etc. He did note that there are many projects in the City that this enhancement dollars could be used for, however, a committee in Raleigh will be prioritizing the programs. Mayor Sitnick encouraged Mr. Fuller to apply for these funds.

UPDATE OF WEST ASHEVILLE RESOURCE CENTER AND LIBRARY ANNEX

Mr. Irby Brinson, Director of Parks & Recreation, said that the Parks and Recreation Department and the Police Department are continuing the development of the West Asheville Resource Center located in the upstairs portion of the City-owned building at 970 Haywood Road.

For several months, the Parks and Recreation Department, the Police Department, and several members from City Council have been working towards finding an alternate location for the Community Resource Center which is currently located at 45 Haywood Road. The current lease for this space at 45 Haywood Road has expired. As reported at the April 20 worksession, and approved at the April 27 formal City Council meeting, City staff has been working towards the renovation of a portion of the City-owned complex located at 970 Haywood Road, which will house the West Asheville Resource Center. All permits for this renovation have been secured and work on upfitting the facility began July 12. The total estimate for this renovation is $15,000 which will allow for the facility to meet all necessary building and ADA code requirements. He explained the current building renovation layout. The configuration represents a total of 1,265 sq. ft. with approximately 590 sq. ft. used by the Police Department leaving approximately 675 sq. ft. for open space to be used jointly by the occupants.

He showed Council a plat of property adjacent to the current West Asheville Complex and the new library. The area represents approximately 5,400 sq. ft. and is valued at $5 per sq. ft. based upon information provided by Ed Vess of Community Development Division. The original discussion concerning the City's participation in the proposed expansion of West Asheville Library included donating this property to the County in order to build this addition.

Mr. Brinson noted that the property is currently zoned Institutional District and would require a side setback of 10 feet.

The Parks and Recreation Department and the Police Department are updating City Council on the progress of the development of the upstairs portion of the City-owned building located at 970 Haywood Road for a Community Resource Center.

EAGLE/MARKET STREET UPDATE

Ms. Charlotte Caplan, Community Development Director, said that the City of Asheville and the Eagle/Market Streets Development Corporation ("EMSDC") developed a Strategy for the Block in May and June of 1999 to identify practical steps that are being or can be taken within the next two years to revitalize the area known as the Block, or South Pack Square, or the Eagle/Market Street area. She explained that the Strategy for the Block: sets out recent, current, future initiatives; is not a full-scale plan; does not require formal approval; is achievable within resources available; is dynamic; and is not the whole situation.

Goals in the strategy include: (1) to include the Block in the economic revitalization of downtown Asheville; (2) remove negative influences: drug-dealing, drug use, public drinking, gambling, prostitution, littering; (3) rehabilitate derelict buildings; (4) develop economically and socially beneficial activities: retail businesses, restaurants (not bars); offices; apartments;

service organizations; cultural activities; festivals; recreation programs; and (5) maintain to the greatest possible extent the historically African-American character of the Block.

Issues the Block has to contend with: include (1) location, (2) physical deterioration; (3) perceptions: "unsafe" unsuitable for investment"; (4) opposition to improvement initiatives; (5) lack of effective partnerships; and (6) lack of organizational capacity.

Ms. Caplan then listed the following stakeholders: Eagle/Market Streets Development Corporation; Mt. Zion Missionary Baptist Church; Mt. Zion Community Development Corporation; YMI Cultural Center, New Hope Community Health Center; Merchants Action Coalition; other businesses and property owners; Downtown Ministers Association, and the City of Asheville.

She then outlined the objectives and action steps of each of the following action areas: (1) building partnerships and capacity; (2) restoring the physical fabric; (3) bringing the people back; and (4) providing services.

She said that measurable objectives include: (1) construction permits - number and value per year; (2) buildings in standard condition without code violations - number; (3) building occupancy - percentage of building space in use; (4) housing units created - number; (5) businesses established - number; (6) jobs created - number; (7) police incident reports - number per month; and (8) long term increase in tax values - value.

Ms. Elizabeth Russell, Director of the EMSDC, invited City Council members to the Learning Lunches in the Park on the Block that include topics such as (1) Get Involved, For Your Community; (2) Get A Job/Help Someone Find a Job; (3) Get Organized, Financially; (4) Get Crime-Proof, Personally; and (5) Get Reasonable Doubts.

On behalf of the City Council, Mayor Sitnick thanked all the people who participated in this strategy and that this is a wonderful opportunity for the African-American community to create a significant contribution to the economic development in this community.

REVISIONS TO THE RIGHT-OF-WAY CUT PERMIT ORDINANCE

Ms. Cathy Ball, City Engineer, said that this is the consideration of an ordinance to revise the public right-of-way cut ordinance.

The purpose of revising the right-of-way cuts ordinance is threefold (1) the Public Works Department was responsible for administering this program, however, in 1995 this program was moved to the Engineering Department; (2) to clarify the responsibilities and requirements of the permitee in obtaining a permit when they plan to cut into a City or State right-of-way in the City; and (3) to establish an appeal process for permitee's to appeal fees and fines.

These revisions have been reviewed by the Utility Coordination Committee. They initially had some concerns. The draft ordinance presented to you addresses all of their concerns.

The fee schedule was approved by City Council during the budget process.

City staff requests City Council adopt the revisions to the right-of-way cut permit ordinance.

Ms. Ball responded to questions from Mayor Sitnick about how curb cuts and right-of-way cuts are being addressed with regard to stormwater run-off.

Mayor Sitnick and Councilwoman Field said that they would be happy to share some information they have relative to pervious parking lots.

Mayor Sitnick asked that the record show that City Council has received this information and instructs the City Manager to place this item on the next formal City Council agenda.

POLICY REGARDING THE CONTINUANCE OF ZONING PUBLIC HEARINGS PREVIOUSLY SCHEDULED ON THE CITY COUNCIL AGENDA

City Attorney Oast said that City Council has instructed him to prepare some guidelines on continuation of land use public hearings. He reviewed those draft guidelines as follows, stressing that City Council should reserve for itself the right to exercise its discretion with respect to the continuance of any matter:

Application/Scope:

Any land use matter for which a public hearing before City Council is required by statute or ordinance. This would cover zonings, rezonings, and conditional uses, and possibly certain text amendments requested by citizens.

Applies to requests for continuance by the applicant.

Form of Request/Motion

I. In order to receive favorable consideration:

- Requests should be submitted to the City Clerk and Planning staff in writing at least two full business days in advance of the day scheduled for the public hearing. In most cases, this would require submission by 5:00 p.m. on Thursday. (This is the same as for protest petitions.)
- Must attempt to notify all persons on Planning's notification mailing list, and document efforts. Planning staff can follow up with spot check. At the very least, must notify adjacents and any designated neighborhood organization spokesperson.
- A reason for the request should be provided, but need not be compelling (more time needed, unavailability of information, etc.)
- No previous continuances before other boards (Planning & Zoning, Technical Review Committee, etc.)

Favorable consideration will take the form of a recommendation by staff, based on compliance with the procedures outlined above.

Continuance requests complying with the procedure outlined above may be granted without hearing, except as to the date to which the matter will be continued.

II. Continuance requests not complying with the procedures outlined above will be considered by the Council without a recommendation by staff. Factors to be considered include, but are not limited to:

- Compelling nature of reason (death in family, incapacity to proceed, etc.)
- Actual notification of persons on notification list
- Objections from other parties (or consent, for instance if a compromise is possible)

Council may hear from the applicant as to continuance requests not qualifying for favorable consideration, and if there are objections, will hear public comment on the question of the continuance.

General Guidelines

- Second or subsequent requests for continuance are not favored.
- Requests for continuance by other than applicant will be considered by Council without recommendation.
- Continuance requests or motions will be taken up at the beginning of Council meetings along with additions or amendments to agenda.
- These guidelines are not applicable to matters initiated by City staff, City Council or a board or commission.
- Council reserves for itself the right to exercise its discretion with respect to the continuance of any matter.

Other Points

- Recommendations as to guidelines for continuance of land use matters at other boards and commissions (Historic Resources Commission, Technical Review Committee, Planning & Zoning Commission, Board of Adjustment)
- Delegating some continuance authority to Planning staff (Director). This may require a change in the ordinance and rules.
- Do not adopt as policy or rule; tends to limit discretion.
- The Unified Development Ordinance may require action on some items within a prescribed time. This limitation mainly affects boards other than Council, but could be a consideration.

Councilman Cloninger felt that the purpose of the guidelines is worthwhile, however, even if the request is made, the party making the request and the neighborhood will not know for sure whether the hearing was continued and would still have to come to the City Council meeting. He wondered if we are adding more red tape to the process without actually accomplishing the purpose of having people unnecessarily come to the hearing.

Councilman Tomes agreed with Councilman Cloninger but felt that it was a good idea to consider the continuance requests at the beginning of the meeting.

After discussion about the infrequency of the number of continuance requests received and whether to delegate the authority to City staff to make those continuances, it was the consensus of City Council to consider any continuance requests after the proclamations and only if a continuance request has been made.

Mayor Sitnick suggested City Council possibly reconsider adopting the guidelines after further review.

APPROVAL OF MAYOR'S ROUNDTABLE ON DOWNTOWN

Ms. Terry Clevenger, Marketing Coordinator, said that this is the consideration of approval of the Mayor's Roundtable being held on Thursday, September 23, 1999, at 7:00 p.m. in the Public Works Building.

Mayor Leni Sitnick has requested that the next Mayor's Roundtable be held to discuss downtown issues. On June 10th, Police Chief Will Annarino, Lt. John Kirkpatrick, Robin Westbrook and I met with representatives of several downtown organizations to discuss how best to organize the roundtable to achieve optimal results. Invited to this meeting were representatives of the Downtown Commission, the Downtown Association, the Merchant Action Coalition, the Homeless Coalition, Eagle/Market Street Redevelopment Corporation, and Quality Forward.

These groups unanimously requested a roundtable that was focused on managing the success of downtown and envisioning the future of downtown. They wanted to ask certain key questions of the participants, such as, "What kind of community are we building?," "What do you love about downtown," "What are your concerns about downtown." This will be done in small groups with answers to these questions being used in the future Center City Plan.

It was requested that the roundtable take place in September, following the summer season. It is staff's recommendation that the next Mayor's Roundtable be held Thursday, September 23, 1999 at 7:00 p.m. in the Public Works Building.

City Manager Westbrook advised City Council that their next available community meeting date is August 31, 1999, and according to the schedule should be held in the Central area. He suggested that if the meeting is held on that date that it be held in the Public Works Building at 7:00 p.m. He also said that the Mayor is considering a roundtable on youth in October.

After considering the three upcoming meetings and due to a conflict of Mayor Sitnick on September 23, the City Manager was instructed to bring back some dates in October (preferably a Thursday in October, but not October 14) in which the roundtable on downtown issues could be held .

REPORTS ON BOARDS AND COMMISSIONS

Councilwoman Field briefed City Council on the Kenilworth sewer line project.

ADJOURNMENT:

Mayor Sitnick adjourned the meeting at 5:15 p.m.

Magdalen Burleson
CITY CLERK

Leni Sitnick
MAYOR

Tuesday - July 27, 1999 - 5:00 p.m.

Regular Meeting

Present: Mayor Leni Sitnick, Presiding; Vice-Mayor Edward C. Hay Jr.; Councilman M. Charles Cloninger; Councilman Earl Cobb; Councilwoman Barbara Field; and Councilman Thomas G. Sellers; City Attorney Robert W. Oast Jr.; City Manager James L. Westbrook Jr.; and City Clerk Magdalen Burleson

Absent: Councilman O.T. Tomes

INVOCATION

Councilman Cobb gave the invocation.

I. PROCLAMATIONS:

A. CERTIFICATE OF APPRECIATION TO DR. PATSY B. REED, CHANCELLOR OF UNC-ASHEVILLE

Mayor Sitnick read and presented Dr. Patsy B. Reed, Chancellor of UNC-Asheville, with a certificate of appreciation. Dr. Reed will be retiring at the end of July. City Council expressed their deep appreciation to Dr. Reed for her distinguished service, and their best wishes for continued success in all her future endeavors.

B. RECOGNITION OF HUD'S BEST PRACTICE AWARD FOR THE AFFORDABLE HOUSING COALITION'S "INTERLACE PROGRAM" FOR ABUSED WOMEN AND CHILDREN

Mayor Sitnick recognized Mr. Gene Bell, representing the Affordable Housing Coalition, and congratulated him for receipt of HUD's Best Practice Award for their "Interlace Program" for abused women and children.

II. CONSENT:

A. RESOLUTION NO. 99-109 - RESOLUTION AUTHORIZING THE MAYOR TO DISPOSE OF REAL PROPERTY KNOWN AS TWIN SPRINGS SUBDIVISION BY PRIVATE SALE TO HABITAT FOR HUMANITY

Summary: The consideration of a resolution authorizing the Mayor to dispose of 12.353 acres of City-owned real property, identified as Twin Springs Subdivision, by private sale to Asheville Area Habitat for Humanity Inc.

On August 19, 1997, the City of Asheville and the Asheville Area Habitat for Humanity, Inc. entered into a Memorandum of Understanding to develop a 12.353-acre tract of unimproved land on Broadview Drive within the City limits. The City agreed to construct infrastructure improvements, including water, sanitary sewer, storm drainage, streets and sidewalks, curb and gutter, electric, telephone, cable, street lighting, and minor landscaping. Upon completion of the infrastructure improvements, the City committed to transfer title of the property to Habitat at no cost. Habitat will construct 34 affordable housing units to be occupied by income-eligible families, and will transfer title of the individual real property to the qualified family when construction is completed. Habitat will provide construction and permanent mortgage financing for all homes within the subdivision.

The infrastructure has now been completed and the property subdivided into 34 lots. The property is ready for conveyance to Habitat.

Community Development staff recommends adoption of the resolution to dispose of the property.

RESOLUTION BOOK NO. 25 - PAGE 257

B. RESOLUTION NO. 99-110 - RESOLUTION AUTHORIZING THE CITY MANAGER TO ENTER INTO A CONTRACT WITH W.K. DICKSON FOR THE PLANNING AND DESIGN STAGE OF THE DEVELOPMENT OF THE FRENCH BROAD RIVER PARK - PHASE IV

Summary: The consideration of a resolution authorizing the City Manager to enter into a contract with WK Dickson for the planning and design stage of the development of the French Broad River Park - Phase IV.

This 32 acre tract of land is located along the French Broad River adjacent to Amboy Road. City Council directed staff to develop this donated property for recreational purposes. Consequently, a site plan is the necessary first stage of development. A request for qualifications was sent for this initial stage which entails inventory and analysis, program development, conceptual master plan, public meetings, cost estimates and a final master plan which will include drawings and written documents. The City received responses from eight firms interested in the proposed scope of work.

These products will be comprehensive enough to lead into the second stage, construction drawings and specifications. The review team was comprised of members from the Parks and Recreation Advisory Board, Riverlink, interested citizens and staff. The interview team selected the top firm, WK Dickson, for this stage of the project through the request for qualification procedure. The aforementioned scope of services will be provided by the consultant for $61,500 (master plan $36,500, engineering $10,000, architecture $15,000). The funding for this project will be the $75,000 from this years lease of the Asheville Motor Speedway.

The Parks and Recreation Department recommends that City Council authorize the City Manager to enter into a contract with WK Dickson for the planning and design stage of the development of the French Broad River Park - Phase IV.

RESOLUTION BOOK NO. 25 - PAGE 258

C. ORDINANCE NO. 2590 - BUDGET AMENDMENT TO FUND THE REMAINDER OF THE 1998/99 WATER DISTRIBUTION SYSTEM IMPROVEMENTS

Summary: The consideration of a budget amendment, in the amount of $416,958, to amend Capital Project Ordinance 82-25 (35 Fund - Water Major Capital Improvements Fund) to fund the remainder of the 1998/1999 Water Distribution System Improvements.

By Resolution 82-25 dated October 5, 1982, the Regional Water Authority authorized and budgeted for various capital projects to be funded by Investment Earnings, Contributions From Other Funds, and Appropriated Fund Balance.

Funds in the amount of $597,920 were approved in the FY 1998/1999 FY Water Operating Budget (30 Fund) to be transferred to the Water Major Capital Improvements Fund (35 Fund) to fund capital improvement projects. On October 20, 1998, the Authority approved the transfer of $180,962 from the Operating Budget (30 Fund) to the 35 Fund for the following projects: Relocation of Pesticide Mixing Stations ($33,000), Lee Street/Prospect Street Water Main Replacement ($33,000), Monroe Street Water Main Replacement ($25,000), and the first payment of the NCDOT US 70/74 Tunnel Road/Haw Creek Water Line Relocation Project ($89,962).

The remainder of the FY 1998/1999 Water Distribution System Improvements needs to be funded at this time. These projects total $416,958 and include the following:

- An additional $42,000 for Monroe and Maxwell Streets that was under-budgeted.
- $50,000 for Water System Improvements to Reconcile Existing Conflicts with MSD.
- $289,958 for Matching Funds for State $3 Million Grant
- $35,000 for Telemetry Upgrades to South Buncombe and East Asheville Pump Stations

Staff recommends approval of a budget ordinance amending Capital Project Ordinance 82-25 (35 Fund) to reflect the addition of a portion of the Contribution From Other Funds - Fiscal Year 1998/99 in the amount of $416,958.

ORDINANCE BOOK NO. 17 - PAGE 400

D. ORDINANCE NO. 2591 - BUDGET AMENDMENT TO APPROPRIATE GRANT FUNDS FROM THE NORTH CAROLINA PARKS AND RECREATION TRUST FUND FOR HAW CREEK PARK

Summary: The consideration of a budget amendment, in the amount of $69,000, from the N.C. Department of Environment and Natural Resources, for the construction of the next phase of Haw Creek Park.

The City recently applied for and received approval for a grant from the N.C. Department of Environment and Natural Resources. The grant is in the amount of $69,000 and is designated for the development of the Haw Creek Park.

The development of Haw Creek Park represents the City of Asheville and the Haw Creek Community Association's long term goal to build a park in the Haw Creek neighborhood. The park is a collaborative effort between the City of Asheville and the Haw Creek Community Association, who has committed to raise $40,000 to assist with construction of the park. Haw Creek Park will be a passive park located on approximately 6.2 acres at Beverly and Avon Roads, and will serve as a major destination along the proposed Haw Creek Greenway. Park features include a trail, picnic shelter, and paved parking. The grant funds will be used to add a toddler playground, a second picnic shelter, rest rooms, interpretive signage, and landscaping.

The Parks and Recreation Department recommends the City of Asheville accept the grant funds on behalf of the Parks and Recreation Department for construction of the next phase of Haw Creek Park.

ORDINANCE BOOK NO. 17 - PAGE 402

E. ORDINANCE NO. 2592 - BUDGET AMENDMENT TO APPROPRIATE FUNDS FROM THE HAW CREEK COMMUNITY ASSOCIATION FOR HAW CREEK PARK

Summary: The consideration of a budget amendment, in the amount of $25,000, to appropriate funds donated from the Haw Creek Community Association for the construction of the next phase of Haw Creek Park.

The development of Haw Creek Park represents the City of Asheville and the Haw Creek Community Association's long term goal to build a park in the Haw Creek neighborhood. The park is a collaborative effort between the City of Asheville and the Haw Creek Community Association, who has committed to raise $40,000 to assist with construction of the park. At this time, the Association is giving a portion of the funds to the City of Asheville in the amount of $25,000. Haw Creek Park will be a passive park located on approximately 6.2 acres at Beverly and Avon Roads, and will serve as a major destination along the proposed Haw Creek Greenway. Park features include a trail, picnic shelter, and paved parking. The donation will be used to assist in the addition of a toddler playground, a second picnic shelter, rest rooms, interpretive signage, and landscaping.

The Parks and Recreation Department recommends the City of Asheville accept the donation on behalf of the Parks and Recreation Department for construction of the next phase of Haw Creek Park.

ORDINANCE BOOK NO. 17 - PAGE 404

F. MOTION APPROVING A TRANSFER OF $10,000 FROM THE GENERAL FUND CONTINGENCY TO PROVIDE FINANCIAL SUPPORT TO THE 2000 BIG SOUTH CONFERENCE BASKETBALL TOURNAMENT

Summary: Tom Hunnicutt, Athletic Director at UNCA, has requested a monetary contribution in support of the 2000 Big South Conference Basketball Tournament. Last year the City donated $10,000 toward the conference. This year's tournament is expected to be even bigger and will once again receive national television coverage. Supporting the Big South Conference Basketball Tournament is an excellent method for the City to showcase Asheville to visitors, as well as to support our local member university of the Southern Conference.

Staff recommends that Council approve a transfer from the General Fund Contingency to provide financial support to the 2000 Big South Conference Basketball Tournament.

City Manager Westbrook responded to questions from Ms. June Lamb relative to the transfer.

G. MOTION SETTING A PUBLIC HEARING ON AUGUST 10, 1999, TO AMEND THE UNIFIED DEVELOPMENT ORDINANCE TO ESTABLISH THE DEFINITIONS OF COMMUNITY FACILITIES AND COMMUNITY IDENTIFICATIONS SIGNS, TO DETERMINE THE LOCATIONS OF COMMUNITY IDENTIFICATION SIGNS AND TO AMEND REGULATIONS REGARDING SIGNS IN THE RIGHT-OF-WAY

H. RESOLUTION NO. 99-111- RESOLUTION FIXING DATE OF PUBLIC HEARING ON AUGUST 10, 1999, TO ANNEX PROPERTY LOCATED OFF OF LONG SHOALS ROAD, ON SCHENCK PARKWAY, AND KNOWN AS THE VOLVO BUILDING PROPERTY

RESOLUTION BOOK NO. 25 - PAGE 259

I. ORDINANCE NO. 2593 - ORDINANCE REVISIONS TO THE RIGHT-OF-WAY CUT PERMITS

Summary: The purpose of revising the right-of-way cuts ordinance is threefold (1) the Public Works Department was responsible for administering this program, however, in 1995 this program was moved to the Engineering Department; (2) to clarify the responsibilities and requirements of the permitee in obtaining a permit when they plan to cut into a City or State right-of-way in the City; and (3) to establish an appeal process for permitee's to appeal fees and fines.

These revisions have been reviewed by the Utility Coordination Committee. They initially had some concerns. The draft ordinance presented to you addresses all of their concerns.

The fee schedule was approved by City Council during the budget process.

City staff requests City Council adopt the revisions to the right-of-way cut permit ordinance.

ORDINANCE BOOK NO. 17 - PAGE 406

Mayor Sitnick said that members of Council have been previously furnished with a copy of the resolutions and ordinances and the Consent Agenda and they would not be read.

Councilman Sellers moved for the adoption of the Consent Agenda. This motion was seconded by Councilman Cobb and carried unanimously.

III. PUBLIC HEARINGS:

A. PUBLIC HEARING RELATIVE TO THE VOLUNTARY ANNEXATION OF PROPERTY LOCATED OFF OF LONG SHOALS ROAD AND KNOWN AS BILTMORE PARK COMMON AREAS (BILTMORE PARK ANNEXATION SECTION 14), SCHENCK PARKWAY AND 100 TECHNOLOGY DRIVE

At the request of City staff, Councilwoman Field moved to reschedule the public hearing on the voluntary annexation of property located off of Long Shoals Road and known as Biltmore Park Common Areas (Biltmore Park Annexation Section 14), Schenck Parkway and 100 Technology Drive to August 10, 1999. This motion was seconded by Councilman Sellers and carried unanimously.

B. PUBLIC HEARING TO CONSIDER A CONDITIONAL USE PERMIT FOR THE ASHEVILLE MALL EXPANSION

Mayor Sitnick opened the public hearing at 5:22 p.m.

City Clerk Burleson administered the oath to anyone who anticipated speaking on this matter.

Mr. Dan Baechtold, Urban Planner, said that this is the consideration of a Conditional Use Permit as outlined in the Unified Development Ordinance (UDO) for the Asheville Mall Expansion located at 3 South Tunnel Road (City Exhibit 1).

On June 7, 1999, the Planning & Development Department received a site plan for the expansion of the Asheville Mall. The owner of the Asheville Mall, CBL and Associates of Chattanooga, Tennessee, submitted development plans for Level III site plan review. The project is an expansion of the existing mall and consists of a building addition of 154,500 square feet including retail space, a food court, and a second story addition on Belk Department Store; construction of a parking deck of 456,640 square feet; and demolition of the Mall Twin Cinemas. The proposal also includes an additional entrance lane into the Mall from the existing southernmost Mall entrance. The parking decks and the demolition of the Cinemas result in a net increase of 573 parking spaces. (City Exhibits 2, 3, 4, 5 & 6) The Technical Review Committee ("TRC") reviewed the plans on June 21, 1999, and took action to approve with conditions. The public hearing was legally advertised on July 16, 1999, and July 23, 1999.

Mr. Baechtold then gave a brief overview of the Mall's proposal. He said the plans received by City Council are revised plans submitted on July 12, 1999, after the TRC review (City Exhibit 7). He pointed out the areas where the site plan was modified to address the TRC's conditions. City Council has the authority to place additional conditions on any approval that might be granted.

The Planning and Development Staff and the Technical Review Committee find that that the project will meet all the technical standards for development in the Regional Business zoning district if all of the following conditions are addressed:

1. Submit sanitary sewer extension plans for review.

   Mr. Baechtold said that the applicant is working with MSD and that will be handled through the normal permitting process.

2. Coordinate relocation of water line and other water utilities with the Water Resources Department.

   Mr. Baechtold said that this will be handled through the normal permitting process.

3. Clarify open space calculation and verify that specified open space meets open space requirements in the UDO.

   Mr. Baechtold said that this has been done to the City's satisfaction.

4. Plantings in the required Type "D" buffer between the area of the Mall Twin Cinemas and the residential area of White Pine Drive do not provide an adequate visual buffer. Existing trees along the west property line behind the cinemas are not to be removed. Supplement the buffer with other vegetation or construct additional barrier such as a masonry wall or fence. The design will be reviewed by Planning and Development staff and presented to City Council.

   Mr. Baechtold said that the Plan indicates that the existing line of trees behind the cinemas is to remain undisturbed. On the plans, the applicant proposes a 6-foot wooden fence. A question has arose about the distance that this fence would be from the trunks of the existing trees. Whatever type of barrier that is placed there, City staff would like to see a tree survey and a tree protection plan showing the location of the fence in relationship to the tree trunks to demonstrate that the trees will remain undisturbed. If necessary, the edge of the parking should be shifted to achieve the survival of the trees. The cinemas create somewhat of a buffer now because it is a solid concrete structure and that will be lost when the cinemas are demolished. The residents in the neighborhood have concerns about having a visual barrier and some kind of noise barrier. The developer has verbally agreed to raise the height of the wooden fence in this location to 8-feet. From an ordinance standpoint, the buffer that they have proposed meets or exceeds the requirements of the UDO. The UDO does not address materials of a buffer fence. The only provision in the UDO regarding fences is that they should be made of wood, brick or stone. From a performance standpoint, obviously the thicker and higher the barrier, the more noise levels would be reduced. On the visual aspect, a solid wood fence would, of course, perform as well as some other type of material. The other consideration in the type of barrier is what kind of noise and what the level of noise is that needs to be blocked.

The area further south also includes a fence which is a UDO requirement. The developer does not have the full 30-foot buffer width in this location south of the cinemas, so they have proposed a wooden fence of 6-feet which would allow them to reduce the buffer width.

The other screening issue is the wall at the end of the parking deck. There has been some concern raised about what the height of that wall should be and concern about whether or not there may be a privacy issue from the end of that parking deck to the neighborhood. The distance is approximately 260 feet from the closest point of the parking deck to the closest point on the property line. The development plan indicate that it's to be an opaque screen sufficient to block headlights. The developer has verbally indicated that the plan is to have a 4-foot wall at the end of that parking deck.

5. Address the issue of new and existing lighting in the area of the expansion. Provide detail showing the number, height, and design of all existing and new outdoor light fixtures within the area of the expansion. Design new light fixtures to minimize impact on the adjacent neighborhood. The design will be reviewed by Planning and Development Staff and presented to City Council.

Mr. Baechtold said that there are three light poles in the area of the expansion that are 75 to 100 feet tall and there are other light poles along the back side of the Mall that are adjacent to the Kenilworth Forest neighborhood. In the area of the expansion, two of the large light poles will be removed by necessity of the construction and the third, the developer is proposing to remove and to upgrade the lighting standards for the entire area of the parking lot. The developer indicated that the industry standard is a 3-foot candle lighting level to cover the entire area. The poles now provide a lot of light around it, but as you get further away from the light, the coverage level drops off. Their plan is to install a larger number of lower poles of 31 to 40-feet in height in order to spread out the overall lighting level in the parking lot.

That raises the issue of direct glare vs. the ambient light and glow. Staff's recommendation on this, if the project is approved, is that City Council add a condition that the developer prepare and submit a photometric plan that addresses all of the lighting along the entire back side of the Mall and that the plan should demonstrate the elimination of glare and light spill-over into Kenilworth Forest and that the developer will retro-fit existing lighting or otherwise propose alternatives that will achieve that performance. As a part of that, any further lighting upgrades should be a part of an approved photometric plan, at least in the area along the back side of the Mall.

6. Submit stormwater/erosion control plans that meet UDO requirements. Please reference UDO Appendix 7A and Asheville Standards Specifications and Details Manual Section 10, Appendix J.

Mr. Baechtold said that this will be handled through the normal permitting process.

7. Verify compliance with requirements for slope stability. UDO section 7-12-2 (f) (4) and 7-12-2(e)(2).

Mr. Baechtold said that this will be handled through the normal permitting process.

8. Staff does not recommend adding an additional entrance lane into the mall. The maximum width of an access road is 36 feet. (UDO 7-11-1(f)).

Mr. Baechtold said that the developer and the City Engineering have worked together on this condition and reached a compromise. (City Exhibit 8)

9. Staff would like to work with the developer to reduce the 45 foot radii of the access drive to the minimum needed to allow for truck turning.

Mr. Baechtold said that the developer and the City Engineering staff has worked together on this condition and reached a compromise. (City Exhibit 8)

10. Staff recommends that City Council require a five-foot sidewalk with five-foot setback along South Tunnel Road along the entire frontage of the mall property.

Mr. Baechtold said that the sidewalk is included on the revised site plan.

11. Staff is still in the process of reviewing the Traffic Impact Analysis. The City Traffic Engineer will meet with the Traffic Engineering Consultant to discuss additional traffic issues.

Mr. Baechtold said that the City's Engineering staff indicated that they wanted to review the Traffic Impact Analysis (TIA) further. The developer performed a TIA, as required by the UDO, which considered the impact of the expansion and other projected traffic on the transportation system. The TIA concluded that "with modifications in the timing plans for the coordinated signal system through the corridor, the increase in traffic will not have a detrimental impact on the traffic operations on South Tunnel Road." (City Exhibit 8)

There are remaining concerns from the Kenilworth Forest neighborhood about ingress and egress to the neighborhood on White Pine Drive and congestion caused by the entrance at Brackettown Road. City staff has looked into the status of Brackettown Road and it is a private road.

12. Submit plans for relocation of fire service, life safety plan, and phasing schedule to City of Asheville Fire Department.

Mr. Baechtold said that this condition has been addressed.

13. Revise site plan to reflect actual conditions at the intersection of White Pine Drive and Brackettown Road.

Mr. Baechtold said that this condition has been addressed.

Mr. Baechtold then summarized the recommendations that staff has on these issues: (1) In the buffer area, some type of barrier should be constructed, no less than 8-feet in height, with a material to be determined. Whatever type of barrier is placed, staff would like to see a tree survey and tree protection plan showing the location of the barrier in relationship to the tree trunks, to demonstrate that the trees will remain undisturbed. And, if necessary, the edge of the parking should be shifted to achieve survival of the trees; (2) With regard to lighting, staff recommends a condition that the developer prepare and submit a photometric plan that addresses all of the lighting along the entire back side of the Mall. The plan should demonstrate the elimination of direct glare and reduction of light spill-over into Kenilworth Forest. The developer should retro-fit existing lighting or otherwise propose alternatives that will achieve that performance. Also, any future lighting must be a part of an approved photometric plan; (3) A sidewalk be required along the entire frontage of the Mall property (it is showing on the revised plan); (4) With regard to construction hours, they be restricted to the hours of 7 a.m. to 7 p.m. Monday through Friday and 9 a.m. to 6 p.m. on Saturday and Sunday; and (5) Regarding transit, the Transit Services Director has expressed a desire to go into the Mall parking lot in the front to pick up and drop off patrons and we would like to have a condition that the Mall will cooperate in finding a suitable location for that transit stop within the Mall.

Mr. Baechtold then reviewed the staff's responses to the seven findings that City Council must make in order to grant the conditional use permit (City Exhibit 9):

1. That the proposed use or development of the land will not materially endanger the public health or safety.

   The proposed development is an expansion of an existing retail facility. The impacts of the expansion will not materially endanger the public health or safety. The project received technical approval from the Water Resources Department, the Fire Department, MSD, Engineering, and other City Departments.

2. That the proposed use is reasonably necessary for the public health or general welfare, such as by enhancing the successful operation of the surrounding area in its basic community functions or by providing an essential service to the community or the region.

   The Asheville Mall serves as a regional shopping center. The presence of the Mall enhances the successful operation of the surrounding area as a commercial corridor. A healthy and vibrant mall is preferable to the alternative.

3. That the proposed use or development of the land will not substantially injure the value of adjoining or abutting property.

   Adequate buffering and screening are necessary so that negative impacts of the Mall on adjoining property will not be increased above pre-expansion conditions. The site plan shows a buffer meeting the technical requirements for landscaping and buffering in the UDO.

4. That the proposed use or development of the land will be in harmony with the scale, bulk, coverage, density, and character of the area or neighborhood in which it is located.

   The existing mall is located on property zoned Regional Business. The neighboring uses along Tunnel Road include a number of large-scale retail developments. Adequate buffering and screening are necessary to separate this use from neighboring single-family residential development. The site plan shows a buffer meeting the technical requirements for landscaping and buffering in the UDO.

5. That the proposed use or development of the land will generally conform with the comprehensive plan and other official plans adopted by the city.

The Asheville City Plan 2010 indicates commercial development for the Tunnel Road corridor. The proposed expansion of the Asheville Mall is consistent with the intent and the standards of the Regional Business zoning district.

6. That the proposed use is appropriately located with respect to transportation facilities, water supply, fire and police protection, waste disposal, and similar facilities.

The proposed development is located in an existing developed area. The project received technical approval from the Water Resources Department, the Fire Department, and MSD. The Mall is located on a five-lane major thoroughfare as identified on the Asheville Thoroughfare Map.

7. That the proposed use will not cause undue traffic congestion or create a traffic hazard.

The developer prepared a Traffic Impact Analysis (TIA) for the proposed mall expansion as required by the UDO. The TIA considered the impact of this expansion and other projected traffic on the transportation system. The TIA concluded that "with modifications in the timing plans for the coordinated signal system through the corridor, the increase in traffic will not have a detrimental impact on the traffic operations on S. Tunnel Road." The City Engineer and Traffic Engineer reviewed the findings of the TIA for accuracy, and concur with the findings.

Upon inquiry of Councilman Cobb about whether the TRC reviewed the noise concerns, Mr. Baechtold said that there is nothing in the UDO that specifically addresses noise. There are requirements for buffers between incompatible uses ranging from 15-30 feet. This development project is required the maximum buffer of 30 feet. That buffer is intended to address visual impacts, and to some degree noise, although noise is not specifically mentioned in the UDO. There have been no field studies with regard to noise and what the level of noise might be or what the level of noise protection might need to be.

When Councilman Cobb asked about the lighting standards, Mr. Baechtold said that based on information from the applicant, directly underneath the large light poles, they are at 5-foot candles, but when you move to the outer edges of the parking lot away from those poles, it's down in the range of .2. Their plan is in this area is to upgrade the lighting standard for the entire parking area to 3-foot candles.

With regard to a question raised by Councilman Cobb if staff had a recommendation about the 4-foot wall on top of the parking deck, Mr. Baechtold said that staff did not reach a conclusive recommendation about that. Personally, he was unable to determine, based on a 260-foot distance between there and the property line, what kind of site line there would be from the parking deck over to the neighborhood.

Councilman Cobb asked questions relative to Brackettown Road. City Attorney Oast responded that they have investigated the public records and as near as they can determine, if it ever was a public road, it was abandoned a long time ago and it's been a private road (at least not a public road) for a long time. He said that just because it enters a public road does not give the City any more jurisdiction that the City would have over a driveway.

Upon inquiry of Councilwoman Field, Mr. Baechtold said that the developer's drawings do show a configuration of the wooden fence and by use of an overhead transparency he reviewed the profile of that configuration. (City Exhibit 10) Councilwoman Field said that the configuration of the fence would have an effect on whether or not it would absorb sound or if sound would bounce off of it.

When Councilwoman Field asked about the three materials for fences (wood, brick or stone), Mr. Baechtold responded that that section in the UDO applies to allowing a reduction in buffer width. For instance, in this location where the fence is required, they are required to have a 30-foot buffer and they allowed to reduce that by as much as half by proposing a fence. In the other location they are not required a fence at all by the UDO, because they have the full 30-foot buffer width.

Councilwoman Field felt that all three materials mentioned in the UDO for a fence are susceptible to graffiti and it is very difficult to get graffiti off those materials. She has seen some fairly nice looking fences that are made of materials that you can easily get graffiti off of. In this particular case since one fence is not required, they could probably make that fence out of anything they wanted to make it out of. The other issue is not to damage the tree roots. She understands that there are some types of posts that are made specifically so that they do the least amount of damage to tree roots - but they are also not made of wood, they are made out of some configuration of metal or steel.

Upon inquiry of Councilman Cloninger, Mr. Baechtold said that staff's recommendation of the 8-foot height fence was based primarily on the visual effect. With regard to noise, some type of more solid material would do a better job of blocking noise than would a wooden fence.

Councilman Cloninger then asked if the parking lot is shifted over by 10-feet to minimize the impacts to the trees and their roots, would the loss of about nine parking spaces still keep the developer in the requirements of the UDO as to the number of parking spaces they need. Mr. Baechtold said that they are within the range for required parking and he believed that have a couple hundred spaces on both ends, minimum and maximum.

Councilman Cloninger questioned if we have a requirement that both new lights and existing lights along the back of the Mall maintain the same level of glare and ambient light or reduce it, how do we make that determination on how much the lights have to be reduced. Mr. Baechtold said that requiring the developers to submit a photometric plan that addresses all the lights along the back side of the Mall will allow someone who is an expert in that area to make those determinations.

Upon inquiry of Vice-Mayor Hay, Mr. Baechtold said that there will be about 30 parking spaces in the section that will replace the cinemas.

Mr. Baechtold briefly explained that a lighting engineer would develop a photometric plan that can actually show the light pattern, how it spreads, and what the foot candles would be in different locations.

Upon inquiry of Mayor Sitnick about whether a 4-foot parking deck wall was standard, Mr. Baechtold said that in most cases the standard would be to prevent someone from falling over.

Mayor Sitnick asked if the number of existing parking spaces and those that will be built with the expansion are consistent with the requirements in the UDO. Mr. Baechtold said that because this is such a large development, the spaces are based on a multiplication of the number of required spaces times the square footage. He said that what is proposed is somewhere in the middle of that range of several hundred spaces between the minimum and maximum.

With regard to a question from Mayor Sitnick about the real applicability of the materials for the 8-foot wall to diminish the noise, Mr. Baechtold said that after a preliminary investigation, he found that if a masonry wall is erected, it may require a continuous footing. He said there may be other options that my involve some intermittent footing, but would also support something stronger than a wooden fence.

Mayor Sitnick said that regarding the impact of the expansion and the Tunnel Road lanes, she assumed that when staff looked at that, they were considering the holistic aspect of the additional growth with the Lowe's and other spillage of traffic from the other developments in the area. City Traffic Engineer Michael Moule responded that staff did consider traffic from both the old Lowe's redevelopment and the new Lowe's development along with traffic from other developments.

Mayor Sitnick wondered if there was any opportunity to look into potential of shields on some existing lights, especially the 100 foot light near the cinemas.

Vice-Mayor Hay asked if the City could require, as a condition, that the Mall allow direct passenger delivery to the Mall. City Attorney Oast said that he hadn't specifically investigated that, but at this time, he didn't see a reason why the City could not place that as a condition on the permit, to the extent that it would affect pedestrian safety. Mayor Sitnick said that there has been some preliminary discussion with the developers and they are very agreeable to working something out to allow a transit pick-up and drop-off point at the curb.

Mr. Moule reviewed his memorandum to Planning Director Scott Shuford (City Exhibit 8). He said that two of the conditions listed by the TRC are related to the configuration of the proposed reconstruction of the southernmost Mall Entrance (near the Belk department store). Condition No. 8 refers to an additional entrance lane into the Mall at this location. Condition No. 9 refers to the size of the turning radii at this entrance. Both of these concerns were based on the resulting width of the intersection, especially the length of the crosswalk that is created by the extra lane and wide radii. Maintaining a shorter crosswalk length is important, especially since there are existing public transit stops nearby and staff has recommended that sidewalks be required in front of the Mall with this development. In addition, City staff anticipates working with the NC DOT in the near future to have pedestrian signals added at this intersection. He has worked with the consultants for the Mall and agreed on a compromise that accommodates delivery trucks but maintains as short as possible pedestrian crossing distance. The compromise, which should be shown on the developer's current plans, includes two entrance lanes and a 40 foot radius on one corner along with a 25 foot radius on the other corner.

Mr. Moule said that Condition No. 11 from the TRC stated that the Traffic Engineer would further review the Traffic Impact Analysis and meet with the traffic engineering consultant to discuss additional issues. He has spoken with the consultant several times and reviewed the document in detail. Below are the comments that he has on the Traffic Impact Analysis.

- The methodology for calculating background and site generated traffic and the resulting data are reasonable. Clearly, the consultant used conservative estimating methods in order to overestimate the amount of traffic. He identified several areas in the analysis where steps were taken that overestimated the traffic. The Asheville Mall expansion will add less traffic to the system than either the new Lowe's (Dreamland Phase I) or the old Lowe's redevelopment (Dreamland Phase II).

- In order to accommodate the additional traffic generated by these developments at acceptable levels of service, the consultant suggests that the signal cycle length be reduced. The general results of a shorter cycle length will be less overall delay for drivers, less delay for side streets and signalized driveways, less delay at non-peak times, slightly decreased overall capacity, and slightly increased delay for primary movements. His opinion is that a reduced cycle length will provide an acceptable level of service as these developments are added. This change will provide better access to side streets and driveways, which is now the primary purpose of surface highways like South Tunnel Road.

- After reviewing the Analysis, my one concern is with queue lengths, particularly for the intersection of Tunnel Road and South Tunnel Road and for left turns off of South Tunnel Road. The analysis addresses some of the short turn bays and short distances between signals. He will continue to work with their Traffic Consultant to address his concerns.

He said that after reviewing the TIA, he concurs with the consultant in that there will be more traffic, but the whole system in general, for Tunnel Road and South Tunnel Road, should operate at acceptable levels of service if appropriate signal timing change are made.

He recommended that Council remove the conditions concerning changes to the entrance at Belk as staff and the developer have agreed on a configuration. Staff will check any subsequent submittals to ensure that the change was made. He did concur with the consultant that traffic will increase significantly in the vicinity; but signal timing improvements can be implemented that should provide acceptable levels of service throughout the corridor.

Councilman Cloninger asked about how long it would take and how we make sure the signalization changes in the TIA are accomplished, given Tunnel Road is a state road. Mr. Moule said that if these developments are approved by City Council, City staff will make a request to the NC DOT to proceed with making signal timing change including the reduction of the cycle length. A copy of the TIA has been submitted to the NC DOT for them to forward to their Raleigh office.

From a personal standpoint, Councilman Cobb felt that there needed to be an additional turning lane at the southernmost Mall entrance. Mr. Moule explained that based on the levels of service that have been calculated for the build-out year, given all the traffic and given the signal timing changes, an additional lane is not recommended.

Upon inquiry of Vice-Mayor Hay if the TIA addressed traffic on White Pine Drive, Mr. Moule said that the development will increase traffic on White Pine Drive, since there will be a larger volume of cars going into the Mall. The TIA does show that the levels of delay for getting in and out of White Pine Drive will actually be reduced, even at the build-out year, because of the reduced cycle lengths. Again, one of the major benefits of reduced cycle lengths is that side streets and driveways are better served than they are with a longer cycle length. Even with all the traffic added, the TIA is showing better levels of service for the peak hours in the afternoon than the existing levels of service, through the left and right turn outs of White Pine Drive, and left and rights turns into White Pine Drive. He estimated, for example, in the afternoon peak hour, the number of vehicles making a left out of White Pine Drive increased from an estimated existing number of vehicles of 320 to 354 vehicles. Similarly, on the Saturday peak, addressing both left turns and right turns out of White Pine Drive, the TIA shows 54 new trips generated by this new development from the existing 260 trips. This is approximately a 20% increase for Saturday and a less percentage increase for the afternoon. He felt this was, in part, because there is likely more neighborhood traffic for the afternoon peak hour than the Saturday peak hour.

When Vice-Mayor wondered why people come up Tunnel Road from the west, rather than going on I-240. Mr. Moule felt that was more in the afternoon peak hours and he felt typically it has to do with where people are coming from, like downtown. Unlike on Saturdays, they are coming from their homes to the regional Mall. He said there really is no way to make that determination unless an actual survey was conducted.

Vice-Mayor Hay wondered if there was anyway to re-direct some of the Tunnel Road traffic coming from the west. Mr. Moule said that there may be some possible way, through signage, to encourage people to use only one exit to the Asheville Mall.

Mayor Sitnick felt that a new exit off of I-240 should have been built at the back end of all of those developments on Tunnel Road which could have avoided so much backup, peak or not peak, at the one intersection that has been re-configured and enlarged and saved of the adjoining neighborhoods along Tunnel Road.

Councilwoman Field asked how the number of trips to the Mall were generated. Mr. Moule said that you take the existing square footage, calculate the amount of trips generated by that (and there are manuals that allow us to do that based on studies from years past) and then you take the number of trips generated by the new size of the Mall, and subtract the two.

Councilwoman Field then asked if an increase in population was used to calculate trips. Mr. Moule said typically no, that it was based upon the development itself. The TIA shows that in the count data that was performed in June, on a Saturday, it shows that the peak levels of traffic to this Mall are lower than what would be calculated using a typical manual. Currently the Mall does generates as much traffic as the manual would estimate.

Thinking about White Pine Drive being the only means in and out of the Kenilworth Forest neighborhood, Councilman Cloninger asked if there was anything else the City can do for the area residents to make that intersection less congested, since the City cannot close Brackettown Road. Mr. Moule said unfortunately there is not a lot that can be done. Some residents have proposed possibly connecting a new road to Kenilworth Road so they can get out that way and then just having White Pine Drive only the entrance for the Mall. He said there are definitely problems associated with that from a land acquisition and topography standpoint. He said the only other thing might be reconfiguring the entrance to allow a new road for the residents and limit White Pine Drive to the Mall, or vice-versa. Or, something that would only allow certain movement, like only left turns or only right turns. However, limiting those movements will, to some degree, negatively impact the other intersection in the corridor.

Councilman Sellers asked if any consideration has been given to making Brackettown Road a one-way road. Mr. Moule said that has not been studied at this point but that it could be analyzed to see what would happen with all the traffic that couldn't go out that way or couldn't come in that way and how that traffic affects the rest of the corridor.

Mr. Ken Putnam, Division Traffic Engineer for the NC DOT, said that they are very interested in working with the City of Asheville in doing whatever they can to improve the signal timing. If this permit is approved, they will forward the TIA to their Raleigh staff for them to review and as soon as they do that, and possibly make some fine tuning, they would begin the process of implementing those changes. It is his understanding that the expansion of the Mall will be complete by the fall of 2000 and that will certainly give them enough time to make some changes, observe it through the 1999 Christmas season, and make further adjustments in 2000. He didn't anticipate a large amount of money to do this - just a matter of manpower. The equipment that is out there now can accommodate this kind of change. He felt this is a great basis to start from. He said that one of the things they have been trying to do over the last several years in the City of Asheville is that anytime a new signal is installed within the City limits of Asheville, they will put pedestrian signals with it. They are in the process of working with the City in trying to identify some of the major intersections that already have signals that need this treatment. To add that equipment at an existing location is about $6-8,000 and there are probably 200 signals. They have already identified certain locations and are working closely with the City staff so that they don't pick one signal that the City doesn't feel is a priority, but obviously anywhere on Tunnel Road is a priority. They already have plans to try to add it at the

Sears driveway and the only reason why they don't have a crosswalk in there yet is simply the crosswalk that needs to go across to the theaters doesn't have a sidewalk to join into. So rather than putting a crosswalk in that leads to nowhere, they are holding off on that.

Councilman Cloninger asked Mr. Putnam if he had any suggestions about White Pine Drive. Mr. Putnam felt that unless you take Brackettown Road completely away, there is really nothing that can be done to keep people from using it. He said that one of the driving habits most people have is to make the easiest turn possible and usually that's a right turn. Since White Pine Drive is the first right turn you can make coming from the west on Tunnel Road going to the Mall, people will be more likely to turn in there. He said they are trying to work with the Police Department in improving the signing in that entire area. He said they are also trying to see how they can improve the signal timing that is in place right now.

Councilwoman Field suggested signage that directed people to a specific lane to get into the Mall might have a great affect on cutting down the traffic into White Pine Drive.

Upon inquiry of Councilman Cobb, Mr. Putnam agreed with City staff in that we can fine tune the entire traffic signal timing system to bring everything down to as minimal delay as possible. He also agreed with City staff in that he did not feel that an additional lane at the southernmost end of the Mall should be a recommendation at this time.

Mr. Alan Glines, the City's Assistant Landscape Architect, used an overhead (City Exhibit 10) to explain that the proposed location of the fence will interfere with the existing tree buffer and any construction of a fence or wall would likely damage tree roots. He said that if the parking lot is shifted over to the east by ten feet (away from the neighborhood), the impact to the trees and their roots would be minimized. This shifting of ten feet would result in a loss of about nine proposed parking spaces. (City Exhibit 11) He felt that the existing vegetation is valuable to minimize the night time lighting impacts from the parking area year-round. He suggested that before construction begins, a fall feeding of the buffer trees in the root zone area should be given which would strengthen the trees and reduce the stress from the proposed construction. He also felt that some type of fence that did not have a continuous concrete foot might minimize the disturbance of the tree roots.

Mayor Sitnick gave some background on the number of parking spaces by stating that of the proposed parking spaces, there are 171 more than the minimum required and 129 less than the maximum required. Of the total spaces for the entire project, existing and proposed, there are 1,731 more than the minimum required and 534 less than the maximum required.

Mr. Tom Carter, Senior Project Manager with CBL & Associates Properties, said that their General Manager has a meeting with the City's Interim Transit Service Director tomorrow to work out allowing the buses to come on site at the Mall. With regard to lighting, Mr. Carter explained that the standard lighting standards for CBL is an average foot candle level of 3.0 feet. The present 100-foot light pole in the cinema parking area provides a lot of light around it, but as you get further away from the light, the coverage level drops off to .2-feet. Therefore, CBL will remove the 100-foot light pole and replace it with a larger number of lower poles 40-feet in height. He said that the lights can be shielded to prevent intrusion into the neighborhood. He stressed they are concerned about the safety and since that particular parking field area is the least used in the Mall, it should be well lighted. He said they would be happy to do a photometric study and that they do them on all projects.

Mr. Carter said that with regard to parking spaces, they have a requirement under their department store documents at a higher level than what the City requires to meet. He said they are at a 4.5 per 1,000. He said that their parking is much more greater than what the City requires, but is within the range the Mayor mentioned earlier.

Mr. Carter said that have already agreed to put a sidewalk in along the front of the Mall and the safety reasons that Council mentioned in having the sidewalk installed are the same issues they feel about the lights in the back and having the proper foot candles installed.

Mr. Carter said that with regard to the fences, they are now proposing a 6-foot wood fence which would be attached to the existing chain link fence that is presently there. That will meet the buffer requirements of the City. The 8-foot fence they are proposing will run along the back of the cinemas and connect with the 6-7 foot fence that is now there up there and will attach to the parking deck fence. They feel that the 8-foot fence would adequately provide for screening, noise, etc.

Mr. Terry Dalton, Architect, said that they are proposing an 8-foot wood fence with no continuous footings. He said they are willing to work with the City's landscape architects, especially on whether the fence will touch the ground or not.

Mr. Carter said they are also proposing to install a 4-foot wall on the end of the parking deck to block the lights of any vehicles. He said there will be light standards on the parking deck for proper lighting and safety.

Mr. Carter said that with regard to noise, two dumpsters will be relocated in the expansion area on both sides of the proposed foot court.

Councilwoman Field asked how does losing the nine parking spaces to save the tree roots impact CBL's commitment to the expansion. Mr. Michael Lebovitz, Senior Vice President of CBL & Associates Properties, said that they if they lose those nine spaces, they would probably have to add them to the parking structure which would be a significant cost of approximately $60,000.

Mr. Dalton said the noise is going to be more controlled by the landscape buffer that is there now and the fence is in addition to that.

Mayor Sitnick voiced concern about the possibility of a car that parks right up to the edge of the steep embankment, might accidentally accelerate and go down the embankment.

Mr. Carter said that all the other issues from the June 23, 1999, letter from the TRC have been or will be complied with when we issue our civil plans, other than the four or five issues discussed.

Mr. Phil Noblett, resident at 297 White Pine Drive and Vice-President of the Kenilworth Forest Community Club, said that the Kenilworth Forest Community Club do not oppose the Mall expansion while many of us feel it is indeed out of scale, that it is large enough now. We also recognize that CBL Associates has some rights to improve their property and it is not their desire to make that property any less than a liable one. At the same time, we as homeowners also have our properties to protect and we are very concerned about impact. There have been incremental impacts to Kenilworth Forest over the years, such as a previous Mall development taking part of our streets and some of our houses, White Pine Drive which was originally only a service road has become a very de facto entrance, traffic has expanded, and we've had lighting intrusion. With regard to the demolition of the Cinemas, he said that particular concerns include security, headlights, privacy, and noise. (Neighborhood Exhibit 1) He passed out photographs supporting their request for City Council to impose the following conditions in connection with this conditional use permit:

1. Require CBL, in conjunction with the City traffic engineer and the NC DOT District Traffic Engineer, to develop a plan to improve traffic flow to and from the

Mall access drive that is opposite Asheville Savings and immediately west of the current Lowe's. There is too little storage on South Tunnel Road traffic to enter the Mall from either East or West, so that the proposed CBL expansion and the expansion of other nearby retail establishments, already in progress, will create major congestion and, as a result, divert traffic to White Pine Drive and Brackettown Road.

2. Close Brackettown Road. This driveway intersects White Pine Drive in rear of the International House of Pancakes. This driveway was not part of the original site plan for the Asheville Mall, but has become a de facto entrance that creates congestion and safety hazards, and impedes the ability of residents to enter and exit the Kenilworth Forest community. A traffic engineering firm has estimated that Mall traffic on White Pine Drive will increase significantly with the expansion now proposed by CBL. The suggestion to make it one-way is very appealing to the neighborhood.

3. Request that CBL reduce by at least 20% light intrusions into the neighborhood, and require that, in no circumstance, will lighting exceed current levels. To document existing light levels, photometric surveys should be conducted at selected points in the neighborhood. These points of measurement would be approved by City staff. Council should stipulate in its conditions that any future lighting changes at the Mall must not result in increased light intrusion at any one or more of the measuring stations.

4. Require CBL to install a noise wall which would run from the embankment that is approximately 100 feet south of the Mall Twin Cinemas to the embankment that adjoins the existing parking deck, a distance of approximately 600 feet. This wall should be approximately 15 feet tall, be designated to achieve a 75% reduction in noise, and meet applicable professional architectural and engineering standards. This would cost approximately $75-100,000 but this is a $15 Million project. In addition, Council should require that the installation of the noise wall be done so as to minimize the destruction of existing mature trees, and that destroyed trees will be replaced by saplings of the same species and planted either in front or in rear of the noise wall.

5. Require CBL to provide a wall of not less than 12 feet in height to the parking deck that is to adjoin the J.C. Penney Company and will overlook the neighborhood. This will prevent headlights from parking deck traffic from shining into the neighborhood and will promote neighborhood privacy and security.

6. Restrict all demolition and construction work to the hours of 7 a.m. to 7 p.m. Monday through Friday. In addition, City Council should require that this work be undertaken to minimize dust and other intrusions on the neighborhood. Further, CBL should be required to store all construction vehicles, equipment and supplies not close than 100 feet from the property lines of neighborhood property owners.

7. City staff should be directed to document existing conditions of vegetative buffers and to monitor regularly on-going demolition and construction work to assure the protection of neighborhood property and CBL compliance with existing ordinances and with the conditions that are established by Council.

He said that given the size and scale of this project, what the neighborhood is asking for is entirely reasonable. They realize there will be some additional expense to the Mall owners. However, they believe that if the traffic flow on South Tunnel Road is improved, businesses along that corridor will be served better, traffic migrating so readily to White Pine Drive will be prevented, and citizens of this community will be happier because they can get to and from those areas very quickly. He did not see this as adversarial, but room for common ground that will protect our neighborhood, our investment and yet allow the Mall's expansion to move forward.

When Vice-Mayor Hay asked if the neighborhood was faced with an either/or choice of the 600-foot sound wall or the trees, what would they prefer, Mr. Noblett said the wall would be their first choice, but he sincerely believed that the wall could be constructed and save the trees as well, if properly done.

Mr. Harold Payne, resident in the Kenilworth Forest community, said that when the Mall was originally built, the Council required a 100-foot buffer between the Mall and the neighborhood, however, after the Mall sued the City, the buffer was reduced to 50-feet. This is the only area that the 50-foot buffer on the Mall property exists and the only reason it exists is because of the cinemas. The buffer continually erodes and Brackettown Road's width increases every time the Mall goes through an expansion. He understands the developer wanting to develop his property right to their property line, however, it scarifies the neighborhood. He felt that the wall can be built and the trees can be saved. He felt that City Council has some control over the traffic on Brackettown Road. He said that he was the person who originally suggested Brackettown Road have a "T" intersection, however, he now realizes he should have suggested a "90 degree angle" intersection. He urged City Council to give the neighborhood good buffering and relief from the traffic congestion.

Ms. Janis Willard, 292 White Pine Drive, believed that Brackettown Road should be closed and that the NC DOT should work out the traffic pattern on Tunnel Road. She felt the 3-story parking deck proposed to be erected will be in full view of rear windows of the neighboring homes. There will be constant vehicle movement, automobile pollution and the deterioration of the air quality. Also, lighting is a problem for the neighborhood, especially in the winter with no foliage on the trees. She asked for the relocation of the dumpsters which are close to the adjoining residential properties. Since disturbance of the peace in our neighborhood has never been addressed to any satisfaction, maybe a daily fine would be appropriate. She requested that the City require a 12-foot high noise wall, that cannot be climbed, which will serve multiple purposes: (1) reduce the noise; (2) reduce and/or restrain the criminally-prone mind and cover some degree of security; (3) stop the trash; and (4) stop the possibility of any vehicle out of control crashing into neighborhood yards. Since plans are in place for demolishing the cinemas and additional parking spaces are to take that space, this will make it the area more dangerous than before. She stress that even a wood fence would be destructible and would wear out.

Ms. Claire Payne, 291 White Pine Drive, said that since the TIA was paid for by the Mall, she felt it was strange that the City has accepted their numbers. She felt an independent study should be conducted. With regard to sustainability, she felt we are in a critical growth period in the City and if we don't get a handle on it we're not going to have a place where people want to live. She urged Council to consider all the concerns of the neighborhood, but don't just base it on the Kenilworth Forest neighborhood, base it on all the neighborhoods in the area. We don't want to lose our quality of life.

Mr. Jack Willard, 292 White Pine Drive, said that the wooden wall would require maintenance and would question how effective it is regarding sound. He requested that a masonry wall be constructed with this main concerns being the intrusion of sound.

Mr. James Geter, 274 White Pine Drive, said that not only is the invasion of privacy an issue with the existing parking garage wall, but noise is an issue as well as the car headlights. He felt that a wall is needed to reduce the noise and give the neighborhood privacy and security. He agreed that Brackettown Road should be closed. He said that even though they want to partner with business and business growth, they must protect their investment.

Mr. Todd Dowell, 225 White Pine Drive, requested that the edge of the parking lot be shifted away from the neighborhood ten feet and a wall (not a wooden fence) be constructed.

Mr. Baechtold responded to a question from Mayor Sitnick about how the buffer is measured.

Vice-Mayor Hay asked if the sidewalk in front of the Mall will connect with the sidewalk in the Dreamland Phase II Project. Mr. Baechtold said that there is existing sidewalk in front of the Dreamland Phase II site and as part of that development, there will be a staff recommendation to extend the sidewalk off-site to the south. He believed that because the requirement is for them to provide sidewalk along the entire frontage of the property lines, and those two property lines do meet, that the sidewalk would also meet. Mr. Baechtold said that on the Lowe's site, having the sidewalk extend from property line to property line is a basic requirement. With regard to the Mall, it is a recommended condition of the approval of the conditional use permit.

Ms. June Lamb, 16 Carrier Street and representative of the Carrier Heights Neighborhood Association, stressed that the UDO and completion of the 2010 Plan was expressly to protect the character and quality of life. She reminded Council that all conditional uses shall, at a minimum, meet the conditions set forth in the UDO. She felt City Council has not been addressing the seven findings required in order to approve the conditional use permit. She explained why she felt Finding Nos. 1, 2, 3, 4, 5 and 7 have not been met by the presentations given thus far. She suggested there be some consideration for a continuance or another forum in which these seven findings could be debated.

Mayor Sitnick closed the public hearing at 8:11 p.m.

Councilwoman Field asked if the parking deck high enough to allow trucks and sport utility vehicles under the deck. Mr. Carter replied that there is enough space because they have service under the deck.

Upon inquiry of Councilwoman Field, Mr. Carter said that the length of the 8-foot fence the Mall is proposing to build is 360 feet.

When Councilwoman Field inquired about perhaps adding some type of wheel stops to the edge of the parking spaces to alleviate the concerns of cars jumping the curb, Mr. Carter said that typically the curb will be the wheel stop but they would consider raising the height of that curb.

When Councilman Cobb asked if there has been any cost comparison done with a sound barrier (panels) vs. fence, Mr. Lebovitz said that the sound barrier wall is approximately four times more expensive.

Upon inquiry of Vice-Mayor Hay about the continuous sidewalk along Tunnel Road, Mr. Dalton said that the requirement is that they run the sidewalk along the front of their property line.

Upon inquiry of Vice-Mayor Hay, City Manager Westbrook said that City Council should approve or disapprove the conditional use permit and give staff the standards Council wants and leave the technical details to be worked out by City staff and the developer.

Planning & Development Director Scott Shuford said that staff will bring back to Council the photometric study that has been discussed, and give Council an opportunity to look at those numbers, as well as the buffering issue. One of the reasons staff was not specific with regard to the buffering measurements is because they needed the public hearing to help them define what type of noise was a problem for the neighborhood and they have gotten that information. Staff will be back with more information on those issues should Council approve the conditional use permit.

City Attorney Oast said that the way City Council typically has been handling the proposed conditional use permits is that Council votes once to approve the permit. Staff then develops an Order that includes the standards and conditions based on Council's comments and staff's input and then the Order is brought back to Council for a second vote. He said that City Council does not have to proceed in that way, however, that is the way that it has been done in the past.

Mr. Lebovitz said that developers have different standards. CBL's standard of an average of a 3-foot candle is something that they have gone throughout their system of properties and they fell it is the safest level. Like City Council is concerned about bus service, they are concerned about lighting. They accept preparing a photometric plan, but the photometric plan is more to make sure they don't have light washing into the neighborhood and that is what we would request as a condition, but not that Council say they can't put more than one foot candle here, or two foot candles here, etc.

Mr. Shuford said that he hoped the information the City gets from the photometric study will address the ambient lighting and that lighting going into the neighborhood, but not necessarily the lighting on the Mall property.

Upon inquiry of Councilman Cobb, Mr. Shuford said that it is his intent to have a before and after look at the lighting in the area. That is the only way you can get a clear understanding of whether you are achieving a reduction or not.

Mayor Sitnick hoped that we consider the safety issue in the parking lot and the safety of customers and employees, as well as the intrusion into the neighborhood.

Councilwoman Field said that this is a real good example of why we don't want cul-de-sacs in residential developments. She said that with regard to the TIA, the City made it a requirement in the UDO to make it the responsibility of the developer to pay for it. The only other option would be for the City to pay for it and we felt it was not appropriate for City taxpayers to pay the bill. We felt that if someone was developing property, they should prepare the TIA. The traffic engineer who prepares the study could well be suspect since they are being paid by the developer. However, on the other hand, engineers are professionals and they use guidelines, standards and regulations that are universal. In addition, we have a City Traffic Engineer to review their work to determine if there were any flaws in the study done. Therefore, she has a problem challenging a professional engineer's traffic study that has been approved by our own traffic engineer. She also has a problem with building an interstate wall on a piece of property that is basically separating a shopping center from a residential area. She felt there are all kinds of sound systems, barriers, reflectors, and absorbers that can solve the problem and she recommended that Council leave that to the professionals to come up with the answer.

Councilman Cloninger said that in order to make as many decisions as we can tonight, and to give as much guidance as we can to staff, the owners of the Mall and to the members of the public, and at the same time reserve our ability to make perhaps some additional decisions once we have more information, it seems to him that there is a consensus that the project should be approved - it's just a question of what conditions we want to imposed in connection with the approval. He also felt that there was consensus in that the recommendations for conditions by staff are good ones and should be included in whatever Council decides. In the same vein, the staff recommendations as to proposed findings on the seven points that Council has to consider in a conditional use permit look reasonable to him and should be included. However, there are some additional conditions that Council needs to look. He feels they boil down into four categories: (1) wall behind the existing cinemas; (2) lighting issue; (3) height of the parking deck wall; and (4) feasibility of whether Brackettown Road can be made one-way. He said he didn't think Council has enough information to impose conditions on any of those four. As to the wall, he felt Council knows they want a wall, but he didn't think they know yet exactly how high they want it or what it should be made of . He's certainly prepared to require a mason wall, but felt that is a very serious issue for the neighborhood. He felt they deserve to have the protection, but in terms of what it should be made out of and how that can be accomplished, Council needs some additional information from staff on that. By the same token, the issue of the set-back. It may well be that Council will want to do that, but whether we require a set-back will depend on what kind of wall we require. We need some additional information on that. On lighting, we know we want to reduce the glare and the ambient light as much as possible as it affects the neighborhood, but we're not exactly sure how we accomplish that and we don't know whether we want to reduce the existing light that is out there as it affects the neighborhood. He didn't know whether that's feasible or whether we want to just simply require that there be no additional light intruding into the neighborhood. We certainly want to restrict the glare. As to the parking deck wall, we don't know how high that needs to be to take away the car headlight and also keep people from peeping over it. On Brackettown Road, we know yet what our ability may be on that. He felt we should look at that issue. He's got some concerns about the feasibility of it from an enforcement standby in that if we tell someone they have to have a one-way road on their private property, how do we enforce that. He wondered if we can at least give an informal indication tonight, if this is satisfactory to Council, that we are going to approve the application with the staff findings as proposed and the conditions imposed by staff, but that we reserve the right to make decisions on these four issues until we have additional information. That shows the public the direction we are headed in. He didn't think the Mall would have to have final decisions on those four issues to go ahead and proceed with additional planning and breaking ground on the main portion.

Mr. Lebovitz said that they feel like they have gone through the process that the City's codes require and they feel like the four items mentioned have major impacts to their department stores. Certainly Brackettown Road is something that is a major impact to the shopping center and lighting is a major impact from department store standards. Those are the Mall's major tenants. The issue of the area behind the cinemas is a major cost item and it is very involved in the design. If Council comes back and requires them to eliminate those parking spaces, they have to find another place to add those parking spaces. It's not just the cost of the wall or the fence or whatever is decided, but it's the cost of adding parking spaces in the structure.

Councilman Cloninger questioned the Mall expansion being cancelled if Council does something that takes away nine parking spaces from that area. He felt that if the developer wants to add the nine parking spaces into the parking deck, that's their decision. However, Mall representatives have said before that that is surplus parking and hardly nobody parks in that area. It seems to him that none of the decisions that Council makes on these four issues would make or break the project.

Mr. Lebovitz respectfully requested that a decision be made. They feel like they have worked with staff and worked to answer questions. He realized they may not seem as important to Council, but most of those items are pretty important to them.

Councilman Cloninger respected the Mall's position, but City Council is not talking about a long delay in making those decision and in the meantime we can give a general approve in concept.

Mayor Sitnick appreciated the work CBL Associates is willing to do with the buses. She said the photometric study is one we can't define specifically, but the condition for light shields is very important in making sure that you provide safety in the lots and as little intrusion as is possible into the neighborhood. Clearly, there has been the defining of where sidewalk will begin and end and that needs to be part of the condition. The move of the dumpsters has been addressed. We know that there is a great need for tree protection and the acceptance of the staff recommendation that the trees be fed before work begins is a condition that is necessary. We certainly know the recommendations of the TRC that have been presented are ones that we want to include. As far as the type of material used in the wall, she would like to leave that up to experts who known about absorption and reflection, etc. With regard to traffic, we need to remember that this is expansion to an already existing project that years before intruded, impacted and changed a neighborhood. She hoped that we don't look to blame the expansion for the initial difficulties that were had by the neighborhood. What we want to do now is make the expansion the least impact that we can. She felt that the privacy issue is one that is going to be very complicated and that we still needed to discuss the height of the parking deck wall. With regard to litter, she didn't think the wall would necessarily protect the neighborhood from litter, although probably the technical people can figure out a way to mitigate the litter problem. Moving the wall out 10 feet is another decision we need to consider. The issue of a continuous poured footing vs. poles we should leave up to the technical people and staff. Another issue is the construction hours of 7 a.m. to 7 p.m.

Mr. Lebovitz said that the demolition of the theater will be done within the hours of 7 a.m. and 7 p.m.. However, he said that there are certain parts of the parking deck and expansion which is very removed (260 feet from the property line) which have to take place after hours for public safety. They will shut down the area while the major part of the construction of the deck takes place, but there still will be some things done after hours that can't be done during normal business hours. He said they can commit to the 7 a.m. to 7 p.m. on the demolition of the theater and be very sensitive at other times because that is right abutting the neighborhood.

Mr. Lebovitz clarified that the height of the parking deck wall is 260 feet from the 50-foot buffer to the neighborhood which is down the hill. He said they have offered an 8-foot high wall or a fence. He said it was highly unlikely, and a site line study can bear this out, that there is not going to be a privacy issue with that.

With regard to the parking deck wall height being sufficient, Mr. Noblett said that if you are elevated, you will see a greater distance than you are at ground level, especially since there is nothing in the way to obstruct the vision.

Councilman Cobb felt that the lighting in the parking lot needs to be at safety level, but we still have to protect the neighborhood. With regard to the fence, he was convinced a noise barrier needs to be constructed - as to how high or how long it is, he would leave that up to the experts. Regarding Brackettown Road, he hoped that it could at least be considered a one-way in only. He also had a concern about the height of the proposed 4-foot parking deck wall. He agreed with Councilman Cloninger on the four categories that still need to be addressed.

Councilman Cloninger said that any conditions that staff imposes, still have to come back to City Council for approval. The other concern about leaving issues to staff is that the residents have redress to City Council, whereas, if they go through this discussion with Council and then Council refers it back to staff, it could leave them feeling dissatisfied in that ultimately City Council didn't make decisions they were elected to do.

Vice-Mayor Hay pointed out that Council can approve the conditional use permit now and with some unresolved issues being spelled out with direction to staff to come back to us.

Using the photometric study as an example only, City Manager Westbrook said staff would like Council to possibly say they would like the new lighting that goes up not to bleed into the neighborhood and that the overall lighting for the entire parking lot not be any greater than it is now. Council would then have set that standard and issued the permit. Then, as we go along, staff would cause the developer to do the photometric study so we could validate that condition.

Councilman Cloninger wondered if it would be feasible that the Mall have the light that they need and want but at the same time reduce the amount of light that is going into the neighborhood. Mr. Shuford responded that Council might indicate that they want to have the glare completely eliminated from the poles, which require some shielding or some other alternative for them to deal with, and that the ambient lighting into the neighborhood, that is not associated with direct glare, be either maintained at it's present level or reduced if possible, based upon the photometric study.

Mr. Shuford said that with regard to the buffer, Council might have a standard that indicates, based upon the type of noise that the residents indicated was a problem, that there be some reasonable reduction of that noise and a study or some information obtained to show how much that would be reduced in order for Council to make a decision. He felt that Council needs to direct staff to look for some reasonable balance between noise reduction and practicality.

Upon inquiry of Mayor Sitnick about whether Council needs to look at the seven conditions separately, City Attorney Oast said that what Council has done in the past is voted the conditional permit up or down and then directed him to draft an Order that comes back to Council with findings. Council can then adjust the Order on the second vote, if they want to. He suggested that be the procedure that Council follow at this time. And in doing so, specify the conditions that Council wants specifically addressed. The four mentioned are Brackettown Road; site lighting; height, length, location, material of the noise wall; and height of the wall on the parking deck - as well as some conditions regarding the sidewalk along the front of the Mall property and establishment of a location for a transit passenger pick-up and discharge.

Councilman Cloninger moved that Council approve the conditional use permit with the conditions recommended by staff and as also discussed at this hearing and that further, Council direct staff to come back with additional recommendations to Council on the following four issues: Brackettown Road; site lighting; height, length, location, material of the noise wall; and height of the wall on the parking deck (as well as some conditions regarding the sidewalk along the front of the Mall property and establishment of a location for a transit passenger pick-up and discharge). This conditional use permit approval being subject to final approval by City Council of the findings and the final conditions. This motion was seconded by Councilman Cobb.

Upon inquiry of Vice-Mayor Hay, City Manager Westbrook said that he understood that Council has a concern about Brackettown Road and wants staff to look at the one-way condition, or any other conditions, that might alleviate that situation. Staff's findings will then be reported to Council so they can make their recommendation.

128

Councilwoman Field said that she felt it would be very confusing to have Brackettown Road one-way and this is a much more complex issue that has a lot of other impacts. City Manager Westbrook said that the Traffic Engineer will be looking at all the other impacts.

Vice-Mayor Hay said that he wanted to be specific on some of the conditions. One condition is to make sure that they are required to have a transit stop. With regard to the sidewalk, he wanted the sidewalk be built in coordination with the sidewalk construction at Dreamland Phase II, so the result is a continuous sidewalk. Regarding the sound wall, he was convinced that City Council needs to draw a line on the intrusion into the neighborhood and a serious sound wall be constructed. This is a unique situation in that we have two extremes on the zoning - a major retail development in our City next to a single-family residential area. He did not, however, want to forget that this is a major investment in our community - new jobs, represents vitality of our community, things happening within the City limits, etc.

At the request of Mayor Sitnick, Mr. Shuford said that staff will look at the alternative materials for the sound wall and then let that, in combination of the height of the wall, as well as the existing vegetation determine what the correct solution to the problem should be.

Councilwoman Field said that the trees should be saved and with regard to putting in a concrete wall, perhaps there's a solution that solves the sound problem that isn't a concrete wall. She felt that whether the wall has a solid footing or not, just the construction equipment to construct the wall will probably kill the trees. She felt the bottom line is that it's the foliage and the trees and the mixture of everything together that solves the sound problem - not just one thing.

Councilman Cobb said that CBL Associates have been very cooperative and he feels they want to be a good neighbor but they watch their expenses just like everybody does. He also thinks that the neighborhood has been very sensitive to that and he doesn't think they have been overly demanding in their requests.

Mayor Sitnick said that of the seven conditions, she was concerned about Finding No. 3 and No. 7. She believed that No. 3 has been taken care of since Council has given staff direction and staff will report back to them. No. 7, however, still poses a problem for her. She did not think that this Mall expansion affects the Tunnel Road traffic, as much as a traffic hazard is concerned, because Tunnel Road is already a traffic hazard. However, she did believe that the congestion and hazard that could occur will occur on White Pine Drive, as it is impacted by Brackettown Road.

Mr. Shuford asked for clarification regarding some additional studies Council has requested. With regard to the photometric study, the developer has indicated an agreement to do the study and that will be at the developer's cost. With regard to some additional traffic analysis with regard to Brackettown Road, City staff feels that depending on the scale they get into, the analysis could be quite expensive, as well as time-consuming for them. It may end up being something that is resolved through other means as we look at the different things, such as the legalities of it and staff can report that back to Council. With regard to the construction hours, the developer indicated that they were willing to live within these hours of construction during the demolition of the cinemas, but that the construction that is far removed from the neighborhood might require different hours. He suggested that one way Council could clarify that might be to indicate that these hours of construction would apply only during the time of demolition and that other hours could be observed once the erection of the noise wall occurred.

Councilwoman Field said that another thing about construction is that it changes during different times of the year. She didn't see how Council could possibly limit those hours from 7 a.m. to 7 p.m.

Mayor Sitnick clarified that construction hours would apply only during the time of demolition of the cinemas and that other hours be observed once the erection of the noise wall has occurred.

Councilman Cloninger suggested staff review the construction hours issue again because once the construction is closed in, it seems that they could work any hours they want.

City Engineer Cathy Ball asked for clarification the issue of whether or not City Council is requiring the developer help City staff with the analysis that will have to be done for the recommendation on Brackettown Road. City staff estimates that will cost approximately $3-5,000. It was the consensus of Council that that analysis should have been an original part of the TIA.

Upon inquiry of Mayor Sitnick, Mr. Lebovitz said that they would use some kind of heavy equipment to tear down the cinema walls but they will do everything they can to minimize the disruption to the neighborhood.

The motion made by Councilman Cloninger and seconded by Councilman Cobb carried unanimously.

Mayor Sitnick said that the draft Order will be brought back to City Council for consideration in 30 days and that the 30-day timeframe was dependent upon the timeliness of the submittals from the developer.

At 9:25 p.m., Mayor Sitnick announced a short break.

B. PUBLIC HEARING TO CONSIDER A CONDITIONAL USE PERMIT FOR DREAMLAND PHASE II

Ord. No 2614

Mayor Sitnick opened the public hearing at 9:42 p.m.

City Clerk Burleson administered the oath to anyone who anticipated speaking on this matter.

Mr. Dan Baechtold, Urban Planner, said that this is the consideration of a Conditional Use Permit as outlined in the Unified Development Ordinance (UDO) for the Dreamland Phase II retail development located at 83 South Tunnel Road (City Exhibit 1)

On June 7, 1999, the Planning & Development Department received a site plan for a proposed retail development at the location of the current Lowe's at 83 South Tunnel Road. The owner is Commonwealth Dreamland Partners of Knoxville, Tennessee, and the designer is Design Associates. The project is a redevelopment and expansion of the existing Lowe's site on South Tunnel Road. The total proposed retail space for the project is 126,744 square feet. This represents an addition of approximately 54,000 square feet of retail space. Two existing driveways to the site will remain and one will be eliminated. The Technical Review Committee (TRC) reviewed the plans on June 21, 1999, and took action to approve with conditions. The public hearing was legally advertised on July 16, 1999, and July 23, 1999.

Mr. Baechtold then gave a brief overview of the plan. (City Exhibit 2 - existing site) (City Exhibit 3 - proposed site). The site plan shows redevelopment of the existing Lowe's building and expansion of additional retail space. There will be three major tenants, three smaller tenants and a two-story retail out-building proposed. Other changes to the site include elimination of the right-in driveway to the north, a realignment of the main entrance drive, the southernmost drive will still be right-in and right-out, but it will be modified slightly to accommodate some lane widening by the N.C. Dept. of Transportation (NC DOT). He said the total parking provided is 493 spaces.

The Planning and Development staff and the Technical Review Committee find that that the project will meet all the technical standards for development in the Regional Business zoning district if all of the following conditions are addressed:

1. Provide handicap access to bus stop from shopping area to meet NC Accessibility Code requirements which take effect July 1, 1999. Also, requested developer to work with Interim Transit Services Director and City Traffic Engineer to see if the bus stop needed to be relocated.

   Mr. Baechtold said that after meetings between the Transit Services Department and the NC DOT on the best location for that bus stop, he understood the result of those meeting is that the bus stop will remain where it is. (City Exhibit 3) Staff would still like to see some kind of stripped connection between that public bus stop and the entrance to the building.

2. Install ADA ramps at all drive entrances.

   Mr. Baechtold asked that the developer include a standard detail on the plan and indicate that those will be installed.

3. Secure a wastewater allocation for the project from MSD.

   Mr. Baechtold said that this will be handled through the normal permitting process.

4. Submit sewer extension plans to MSD for review and approval.

   Mr. Baechtold said that this will be handled through the normal permitting process.

5. Submit utility plan addressing water service and fire service to the proposed buildings.

   Mr. Baechtold said that this will be handled through the normal permitting process.

6. Obtain additional water meters for proposed new buildings to meet the requirement of one (1) meter per building.

   Mr. Baechtold said that this will be handled through the normal permitting process.

7. Make an application to Water Resources for a Letter of Commitment regarding water availability.

   Mr. Baechtold said that this will be handled through the normal permitting process.

8. Provide a Type "B" Buffer along the portion of the West property line that abuts property zoned RM-16. (UDO sec. 7-11-2)

   Mr. Baechtold (City Exhibit 3) said that this is a matter of a technical revision by the addition of a few more trees to meet our requirements. He said the RM-16 zoned property is currently undeveloped.

9. Stormwater/erosion control facilities must meet UDO requirements. Please refer to the UDO Appendix 7A and Asheville Standards Specifications and Details Manual Section 10, Appendix J.

   Mr. Baechtold said that this will be handled through the normal permitting process.

10. Verify compliance with requirements for slope stability. UDO secs. 7-12-2 (f) (4) and 7-12-2 (e) (2).

    Mr. Baechtold said that this will be handled through the normal permitting process.

11. Work with Ken Putnam of the NC DOT to on the design of the right-in/right-out drive entrance to prohibit motorists from making left turns. If indicated by NCDOT, developer will install a raised concrete median on South Tunnel Road in the area of the drive entrance.

    Mr. Baechtold said that the developer has met with NC DOT, and it's the preference of NC DOT that there not be a concrete median in the center of Tunnel Road. The NC DOT has reviewed the design of the right-in/right-out driveway so that it meets NC DOT specifications.

12. Staff recommends additional right-turn lane storage length for the main exit.

    Mr. Baechtold said that the developer has met with City Traffic Engineer and he understands that the applicant has agreed to revise the drawings to show that additional space.

13. Staff will look at the feasibility of recommending to City Council that they consider requiring this development to construct a road connecting this development with the new Lowe's site on South Tunnel Road.

    Mr. Baechtold said that staff has looked into the feasibility of this condition, however, because of a somewhat significant grade change and the relocation of the stream, City staff feels that the cost for constructing a road would probably outweigh the benefits of having that internal connection.

14. Sidewalk is needed on the adjacent Lowe's development. Staff will investigate the possibility of requiring sidewalk construction on the new Lowe's site as part of the Dreamland Phase II development for a possible recommendation to City Council.

    Staff recommends that sidewalk be constructed along the remainder of the length of South Tunnel Road down to the corner of Swannanoa River Road and then also along Swannanoa River Road in the location of the new Lowe's development. Staff has determined that there is sufficient right-of-way on both roads. Staff feels the sidewalk is necessary for public safety. He said there is existing sidewalk along the frontage of some property on Tunnel Road and but staff would like to make sure that that sidewalk connects to whatever sidewalk the Mall is constructing.

15. Resolve issue regarding building code requirement that buildings be sixty (60) feet from the property lines.

    Mr. Baechtold said that it is his understanding that this issue has been resolved.

Mr. Baechtold then summarized the remaining issues on this development, from staff's perspective: (1) provide access to the bus stop; some kind of connection between the bus stop and the entrance to the buildings; and, to move the bus stop, if necessary; (2) make the needed technical revisions to the drawings with respect to the ADA ramps, adding additional trees in the required buffer area, and the right-turn lane storage for the main exit; and (3) to install the sidewalk along South Tunnel Road in front of the adjacent new Lowe's development and along Swannanoa River Road in front of the new Lowe's development.

Mr. Baechtold then reviewed the staff's responses to the seven findings that City Council must make in order to grant the conditional use permit (City Exhibit 4):

1. That the proposed use or development of the land will not materially endanger the public health or safety.

   The proposed development is an reconstruction and expansion of an existing retail facility. The impacts of the development will not materially endanger the public health or safety. The project received technical approval from the Water Resources Department, the Fire Department, MSD, Engineering, and other City Departments.

2. That the proposed use is reasonably necessary for the health and general welfare, such as by enhancing the successful operation of the surrounding area in its basic community functions or by providing an essential service to the community or region.

   The Tunnel Road corridor is a regional retail center. The current use of the site is large-scale retail. The existing Lowe's store will be vacating the site. The redevelopment of the site as a large-scale retail center will continue the current community function.

3. That the proposed use or development of the land will not substantially injure the value of the adjoining or abutting property.

   The adjoining property consists of a new Lowe's retail center to the south, the Asheville Mall to the north, and undeveloped property zoned RM-16 to the west. A buffer will be provided between this use and the undeveloped RM-16 property.

4. That the proposed use or development of the land will be in harmony with the scale, bulk, coverage, density and character of the area or neighborhood in which it is located.

   The proposed development is located on property zoned Regional Business. The neighboring uses along Tunnel Road include a number of large-scale retail developments.

5. That the proposed use or development of the land will generally conform with the Comprehensive Plan and other official plans adopted by the City.

   The Asheville City Plan 2010 indicates commercial development for the Tunnel Road corridor. The proposed development of Dreamland Phase II is consistent with the intent and the standards of the Regional Business zoning district.

6. That the proposed use is appropriately located with respect to transportation facilities, water supply, fire and police protection, waste disposal, and similar facilities.

   The proposed development is located in an existing developed area. The project received technical approval from the Water Resources Department, the Fire Department, and MSD. The development is located on a five-lane major thoroughfare as identified on the Asheville Thoroughfare Map. Sidewalk facilities are needed along the entire length of South Tunnel Road and Swannanoa River Road to ensure pedestrian safety.

7. That the proposed use will not cause undue traffic congestion or create a traffic hazard.

The developer prepared a Traffic Impact Analysis (TIA) for the proposed development as required by the UDO. The TIA considered the impact of this expansion and other projected traffic on the transportation system. The TIA concluded that no major improvements are needed to accommodate the traffic from this development. The City Engineer and Traffic Engineer reviewed the findings of the TIA for accuracy, and concur with the findings.

Upon inquiry of Vice-Mayor Hay about the connecting sidewalk, City Attorney Oast said that after investigation of that issue, it was his opinion that there was significant identify of ownership between this parcel and the adjacent parcel where the new Lowe's building is being constructed and to the extent that the owner is able to do the work, the City can require it, particularly if it is related to a legitimate safety concern that is created by the development that is going in there and because it appears on the Pedestrian Thoroughfare Plan.

When Councilwoman Field asked why the new Lowe's development is not required to install a sidewalk, City Attorney Oast said that new development was approved prior to adoption of the UDO.

Mr. Clay Mooney, representing Design Associates, reviewed some of the conditions outlined by Mr. Baechtold and responded accordingly: (1) Regarding the handicapped ramps - there are existing handicapped ramps at the entrance to the shopping center and if any of them are damaged, they will be replaced and kept in service; (2) With regard to the bus stop, it was determined after conversations with NC DOT and the City Traffic Engineer, that the location was a proper area for that bus stop. Barring any damage to that bus stop, they foresee no change in that present location; (3) They did talk with Mr. Putnam regarding the right-in/right-out entrance and they will certainly coordinate that revision, which is in response to the widening of Tunnel Road; (4) Regarding the exiting storage lane leaving the property - that has been discussed with Mr. Putnam and the City Traffic Engineer and they will be modifying that to effectively double the storage capacity of that right turn lane exiting the property; (5) The issue regarding the sidewalks is one that concerns them. While they are not against it, there are some specific site issues that make that rather difficult. Specifically, with the new Lowe's, the developer extended a triple 10x10 box culvert to facilitate the road widening by NC DOT. Some of their concern is with the widening of that lane within the NC DOT's existing right-of-way. They are concerned about the amount of room that will be left within that existing right-of-way and as it relates to the culvert and how close that sidewalk may be to the edge of that box culvert from the top of curb down to the stream elevation (roughly in the neighborhood of 12 feet). Further down as their site falls, and again not knowing what the final configuration of the shoulder would be following the widening, how much room or shoulder they will have left to construct a sidewalk to the City standards. He can almost assure Council that there will not be 10 feet of right-of-way remaining. Further to complicate that, their required 10-foot landscape strip extends from the existing right-of-way line to their curb line. So, one or the other would have to give in those areas. In the relocation of Haw Creek, if Council remembers, this entire Haw Creek was re-routed to facilitate this construction, so they had an enormous amount of flood issues that had to be resolved. They actually had to do a revision of the Federal Emergency Management Act (FEMA) maps. They worked on this issue for over a year trying to resolve these issues, so they have a lot of tricky things regarding flood modeling and they are concerned with how any further construction in and around this area may affect those calculations. They have worked very hard with the State and Federal governments to get this resolved. They feel like they need to have more study with the

NC DOT regarding what will be remaining after they construct the travel lane; and (6) With regard to the 60-foot clear area between the two buildings, he explained that a document is being prepared that will be attached to the deeds, and that addresses this issue.

Mr. Mooney also explained that he under the impression that the sidewalk was only going to be on the South Tunnel Road side. They have an addition problem in that the convenience store at the corner is not part of this project and they don't feel they can go in front of the convenience store and go around it onto Swannanoa River Road. Also, on Swannanoa River Road, there is no existing curb section - the road drains on the east side down into Swannanoa River and then on the west side it drains across a shoulder into a ditch. If they have to put in a sidewalk there, it would have to be flush or an entire storm drainage system would have to be installed which they feel is totally inappropriate.

Councilwoman Field said that since there is no option other than an full fledged sidewalk, she wondered if it was possible if the developer could put in some stepping stones or some other kind of pedestrian way that wouldn't affect the flood plain issues on the sidewalk on Tunnel Road.

Councilman Cloninger asked if staff had any alternative suggestions about the sidewalks. Assistant Public Works Director Suzanne Molloy said that she spoke to the NC DOT and on Tunnel Road there should probably not be any problems. The right-of-way that exists there is limited. She talked to the person who is over the construction project now with the widening and they said that right now, they are actually extending the shoulder of the roadway. The standard will have to be varied, but the City Engineer can do that within her purview of reviewing the application of saying that it does not have to be a 5-foot planted median. Regarding the Swannanoa River Road sidewalk, that is identified on the Greenway Plan, which is on the Pedestrian Thoroughfare Plan, and it may be that Council decides a different way to handle that. The bottom line is that the City doesn't have a plan for that whole corridor now and those comments were put on because we know that those linkages are intended to be there. Therefore, the Tunnel Road sidewalk should be able to be addressed with a condition that they be required there, working with the Engineering Department on design. On the Swannanoa River Road sidewalk, it is a little bit different because there is no plan for where the long-term greenway would be. These comments were put forth by staff because it was one property owner and staff knew the need was there and if it could be a conditional use, they wanted to recommend it to Council.

Mayor Sitnick questioned how could the City require a sidewalk on Swannanoa River Road if the sidewalk ends before the convenience store property. City Attorney Oast responded that the City could not require the sidewalk to go across the convenience store property.

City Engineer Cathy Ball said that her recommendation is that the City not require the sidewalk on Swannanoa River Road unless we require them to also put in curb and gutter along that Road. The State has said that they don't want sidewalk in unless there is curb and gutter there because it does create a serious drainage problem. She suggested that if the City requires the developer to put in the sidewalk along Tunnel Road to the extent on their property, that we see if they can give an additional right-of-way that will allow us to have a 5-foot strip, if possible. She said that if we have to narrow the 5-foot strip over the culvert section we could then try to widen it back out, if that's possible.

Mr. Tim Scoggins, developer of the project, said that the section of the sidewalk that connects the Dreamland Phase II and going down to the convenience store is not an issue with them as long as it does not involve changing any of the myriads of permits that are involved. There are Federal, State and local permits on this piece of property. If it involves changing the grading plans along Tunnel Road, you are messing with the flood plain and that would be a violation of their Federal permits that we have in place. That parking lot is actually a flood storage area for Swannanoa River Road. If we start filling in that right-of-way any more than we have already currently given the State for adding that lane, we will be flooding people down stream. We know it is very desirable to have it and we will participate in any way that we can, but it is not physically possible, without getting into flooding or serious environmental concerns. They are the proud owners of the first wet detention pond in Western North Carolina and that model took them about 1-1/2 years to build. The ditch lines on Tunnel Road and on Swannanoa River Road are a very integral part of that. He said that sidewalks are important and they will participate and be happy to install it from one piece of property to the other, as long as they don't have to change the grading plans. However, if Council is talking about changing grading plans and going into additional right-of-ways, he doesn't think it's physically possible.

Ms. Ball said that she is familiar about what is allowed in the floodplain area and floodway and what the applicant said is correct. However, if you are taking out the exact same area you are putting back in (like what would be done for a sidewalk) there is no issue that is a problem there. You don't even have to go to FEMA - the City review and approve that itself. That should not be an issue as long as the culvert does not have to be extended.

Councilman Cloninger suggested that the City require a sidewalk on Tunnel Road, conditioned upon it being consistent with Federal laws and permits already obtained to date.

Mr. Scoggins said that as long as the existing grading plan that is in place when the State finishes, they will be glad to build the sidewalk within the constraints of how the State leaves that property. Ms. Ball responded that that would be agreeable with her.

City Manager said that Council could advise staff that they wanted a 5-foot sidewalk. He said that staff does the ability to vary that where it would meet those conditions.

Mayor Sitnick closed the public hearing at 10:30 p.m.

Vice-Mayor Hay said that with regard to the sidewalk on Swannanoa River Road, he didn't think that would be feasible in a lot of ways..

Councilman Cloninger moved to approve the conditional use permit for Dreamland Phase II retail development located at 83 South Tunnel Road subject to the conditions recommended by the TRC, except that with respect to sidewalks, that condition be amended to reflect that sidewalks be required along the portion of Tunnel Road between the Dreamland property line and the Dreamland Convenience Store property line subject to it being able to being done without requiring another flood permit and conditioned upon where the sidewalk goes across the culvert, that the applicant be required to put in handrails that meet the Code. This motion was seconded by Vice-Mayor Hay and carried unanimously.

City Attorney Oast said that he felt that he had enough specificity with respect to this conditional use permit to go ahead and draft the order for the Mayor's signature. City Council instructed the City Attorney to draft the order for the Mayor's signature.

Ordinance BK17- page 468

C. PUBLIC HEARING TO ADD THE MANUFACTURED HOME OVERLAY DISTRICT TO 15 LOTS LOCATED ON MOCKINGBIRD CIRCLE CURRENTLY ZONED RM-6 RESIDENTIAL MULTI-FAMILY LOW DENSITY DISTRICT

ORDINANCE NO. 2594 - ORDINANCE TO ADD THE MANUFACTURED HOME OVERLAY DISTRICT TO 15 LOTS LOCATED ON MOCKINGBIRD CIRCLE CURRENTLY ZONED RM-6 RESIDENTIAL MULTI-FAMILY LOW DENSITY DISTRICT

Mayor Sitnick opened the public hearing at 10:30 p.m.

Mr. Carl Ownbey, Urban Planner, said that this is the consideration of an ordinance to apply the Manufactured Home Overlay District to 15 lots located on Mockingbird Lane currently zoned RM-6 Residential Multi-Family Low Density District.

The Applicants/Owners are James and Sharon Brown, Jack Jenkins, Mark Burton, Paul and Debra Meadows, Theodore LaPier, David and Sue Scarborough, and Nancy Tryon.

The request to apply the Manufactured Home Overlay District to 15 lots on Mockingbird Circle was submitted by owners of 10 of the lots (PIN # 9639.07-59-7193, 8089, 8307, 9333; 9639.07-68-0985, 2842; and 9639.07-69-0021, 0331, 1218, 1285). Since this request outlined a non-contiguous zoning pattern, staff made efforts to contact the other 5 property owners (receiving written opposition from only one property owner), the remaining 5 lots (9639.07-59-7108 and 9056; 9639.07-68-3899; and 9639.07-69-2241 and 3008) were included by the Planning staff as part of the request. This public hearing was legally advertised on July 16, 1999, and July 23, 1999.

The 2010 Plan indicates this area to be low density residential. The current land use indicates a mixture of residential homes, manufactured homes, and some vacant lots. The adjacent neighborhood along Robin Lane was approved for the application of the Manufactured Home Overlay District in 1998.

At the Planning & Zoning Commission public hearing, opposition was expressed by several property owners including some petitioners that were unclear as to what they had signed.

The Planning staff reviewed the request and recommended approval. At their July 7, 1999, the Planning & Zoning Commission meeting, after hearing comments from the area residents and having one property owner request that their property be withdrawn from the request, the Commissioners voted 6 to 1 to recommend approval of the Manufactured Home Overlay District for the 15 lots.

Upon inquiry of Councilwoman Field, Mr. Ownbey read some of the additional restrictions that the overlay requires.

Upon inquiry of Councilman Cobb, Mr. Ownbey said only one single manufactured home can be placed on an individual lot in the Manufactured Home Overlay District.

Mr. Ownbey said that Planning staff is requesting City Council consider the Overlay District on all 15 lots so as not to interrupt the zoning pattern.

Councilman Cloninger noted that the Overlay District does not restrict, but actually gives them an additional use, of their property.

Mayor Sitnick closed the public hearing at 10:40 p.m.

Mayor Sitnick said that members of Council have previously received a copy of the ordinance and it would not be read.

Councilman Cloninger moved for the adoption of Ordinance No. 2594. This motion was seconded by Councilwoman Field and carried unanimously.

ORDINANCE BOOK NO. 17 - PAGE 409

D. PUBLIC HEARING RELATIVE TO CLOSING AN UNNAMED ALLEYWAY OFF HENRIETTA STREET

RESOLUTION NO. 99-112 - RESOLUTION PERMANENTLY CLOSING AN UNNAMED ALLEYWAY OFF HENRIETTA STREET

Mayor Sitnick opened the public hearing at 10:40 p.m.

Ms. Suzanne Molloy, Assistant Director of Public Works, said that this is the consideration of a resolution to permanently close an unnamed alley off Henrietta Street.

A petition has been received from Merrimon Avenue Baptist Church requesting that an unnamed alley off Henrietta Street be permanently closed to public use. The petition received includes the affidavit of Bill Bigham, President of Merrimon Avenue Baptist Church, owner of PIN No. 9649.10-35-9416. Merrimon Avenue Baptist Church owns all of the adjoining land on both sides of this unnamed alleyway.

This unnamed ally is a paper street and has never been opened and used as a street. The City has no plans to utilize this street. All utility companies have been contacted. The resolution of intent to close the unnamed alley off Henrietta Street was advertised in a local paper and the location was posted with the resolution of intent to close.

The Public Works Department staff recommends the resolution to permanently close the an unnamed alley off of Henrietta Street be adopted.

Mayor Sitnick closed the public hearing at 10:41 p.m.

Mayor Sitnick said that members of Council have previously received a copy of the resolution and it would not be read.

Vice-Mayor Hay moved for the adoption of Resolution No. 99-112. This motion was seconded by Councilman Sellers and carried unanimously.

RESOLUTION BOOK NO. 25 - PAGE 262

IV. UNFINISHED BUSINESS:

V. NEW BUSINESS:

VI. OTHER BUSINESS:

A. APPROVAL OF THE MINUTES OF THE FORMAL MEETING HELD ON JULY 13, 1999, AND THE WORKSESSION HELD ON JULY 20, 1999

Councilman Sellers moved for the adoption of the minutes of the formal meeting held on July 13, 1999, and the worksession held on July 20, 1999. This motion was seconded by Councilwoman Field and carried unanimously.

B. RESCHEDULING OF PUBLIC HEARING

Councilman Cloninger moved to reschedule the public hearing originally set for August 10, 1999, relative to amending the Unified Development Ordinance regarding standards for the wireless telecommunication facilities to August 24, 1999. This motion was seconded by Councilman Cobb and carried unanimously.

C. BELE CHERE 1999

Mayor Sitnick thanked the staff and volunteers who worked hard to pull off a smooth Bele Chere 1999 Festival.

VII. INFORMAL DISCUSSION AND PUBLIC COMMENT:

VIII. ADJOURNMENT:

Mayor Sitnick adjourned the meeting at 10:45 p.m.

Magdalen Burleson
CITY CLERK

Leni Sitnick
MAYOR

Tuesday - August 3, 1999 - 3:00 p.m.

Worksession

Present: Mayor Leni Sitnick, Presiding; Vice-Mayor Edward C. Hay Jr. (arrived at 3:25 p.m.); Councilman M. Charles Cloninger; Councilman Earl Cobb; Councilwoman Barbara Field; Councilman Thomas G. Sellers; and Councilman O.T. Tomes; City Attorney Robert W. Oast Jr.; City Manager James L. Westbrook Jr.; and City Clerk Magdalen Burleson

Absent: None

CONSENT:

Engineering Services Contract for Critical Needs Grant Project for Water Distribution

Summary: The consideration of (1) approving a contract with McGill Associates to implement engineering services for a recently awarded $3 million State Grant for water distribution improvements and (2) authorizing the Director of Water Resources to establish a Memorandum of Understanding with the City of Asheville Engineering Director for engineering services.

On Thursday, July 15, 1999, five proposals were received from consulting engineering firms for engineering services for Contracts 1-3 of 4 contracts defined under the $3 million State grant. On Monday, July 19, 1999, a selection committee approved by the Water Authority's Policies & Priorities Committee and consisting of Mr. Gary Semlak, Mr. Mike Brookshire, and Mr. Tom Frederick met after reviewing the proposals. The selection committee ranked the proposals based on the following criteria set out in the RFP: firm's demonstrated qualifications, ability to meet the design schedule, project approach, financial standing of firm, and the firm's minority business plan. Based on these criteria, the committee selected McGill Associates as the most qualified for this work and determined that McGill Associates satisfactorily demonstrated the ability to perform all three projects.

Following the evaluation based on RFP criteria, the committee also reviewed McGill Associates' separately submitted fee schedule and determined the proposed fee to be within the project budget for these services. Through further negotiations with McGill, the final recommended contract amount was reduced to $204,600.

Other firms submitting proposals include W. K. Dickson, William G. Lapsley & Associates, Mattern & Craig, and Vaughn & Melton.

The Director of Water Resources has also received and recommends a written proposal from the City of Asheville Engineering Department to provide engineering services for Contract 4 of this grant not to exceed $76,560, which is also well within the project budget.

On July 20, 1999, the Regional Water Authority unanimously approved both staff recommendations. The grant requires engineering design and permitting to be completed by November 1, 1999; therefore, City Council's earliest consideration of this recommendation would be appreciated.

Staff recommends the City Council approve the execution of an engineering contract to McGill Associates for $204,600 and authorize the Director of Water Resources to establish a Memorandum of Understanding with the City of Asheville Engineering Director for engineering services not to exceed $76,560.

Budget Amendment to Fund the Critical Needs Grant Project

Summary: The consideration of a budget amendment, in the amount of $3,000,000, amending Capital Project Ordinance 82-25 (35 Fund - Water Major Capital Improvements Fund) to fund the $3 million State Grant Projects.

By Resolution 82-25 dated October 5, 1982, the Regional Water Authority authorized and budgeted for various capital projects to be funded by Investment Earnings, Contributions From Other Funds, and Appropriated Fund Balance.

Capital Project Ordinance 82-25 needs to be amended to include appropriations for the following projects which will be funded with a $3,000,000 Grant and a local match of $289,960:

- $646,820 for Critical Needs Contract #1 - North Asheville to include Madison Avenue, Country Club Road/Grovemont Road/Lynnwood, Woodward Avenue, Richie Street, Orchard Street, Robindale Road, Lee Street/Prospect Street
- $897,700 for Critical Needs Contract #2 - Town Mountain/Beaverdam Areas to include Lynn Cove Road, Lawterdale Road, Cogswood Road, Cherokee Road, Sunset Drive
- $684,760 for Critical Needs Contract #3 - East and South Buncombe to include Chunns Cove Road, Buckeye Cove Road, Beacon Village, Wilson Avenue/Grovemont, Upper Moffit Branch, Deaver Street, Crescent Hill Road
- $1,060,680 for Critical Needs Contract #4 - Northwest Buncombe to include Smith Graveyard Road/Eliada Home, Adams Hill Road/Wolf Park Circle

Staff recommends approval of a budget ordinance amending Capital Project Ordinance 82-25 (35 Fund) to provide funding in the amount of $3,289,960 for Critical Needs Contracts 1, 2, 3, and 4 to be funded with a $3,000,000 Grant and matching funds of $289,960.

Agreement with N.C. Dept. of Transportation for Bicycle Racks

Summary: The consideration of (1) a resolution authorizing the Mayor to enter into an agreement with the N. C. Dept. of Transportation (NC DOT) to provide for the installation of bicycle parking racks in various locations in the City of Asheville and (2) a budget amendment, in the amount of $60,000, for said project.

The 1997-2003 Bicycle Transportation Improvement Program provides for the installation of bicycle racks at various locations throughout the City of Asheville. Public Works staff, in conjunction with the Bicycle Task Force, has developed plans for the installation of approximately 114 bicycle racks in key downtown, park, and other public locations in accordance with the NC DOT standards and specifications. City staff has verified appropriateness based upon pedestrian access issues, streetscape impact, etc. The breakdown of locations is as follows:

Parks and Recreation: 42 - to be installed at park locations throughout the city parks. Some may be stockpiled for future projects.

Central Business District: 31 - Some locations still need to be verified with adjoining property owners. However, definitive sites are on Biltmore Avenue, Battery Park, Page Avenue, Haywood Street, Wall Street, Broadway, Patton Avenue, City Hall, South Market Street, Public Works Building, etc. City staff will present a map at the City Council meeting showing the criteria for selecting a site.

Park and Ride Lots: 3 - Staff is coordinating with Transit Services Director on locations.

Parking Garages: 2 - Staff is coordinating with Parking Services on locations.

Asheville High School: 2

Other Areas: 34 - These will be determined as the project unfolds, and/or stockpiled for future installation. Staff has a list of interested parties that want to be considered for placement (Buncombe County locations, etc.)

The NC DOT has left a lot of flexibility in where the bicycle racks will be ultimately installed. Their main criteria is that they must be on public property or right-of-way. We have to go through formal bid procedures for the racks. Once the Municipal Agreement is signed, we have to get approval from the NC DOT to bid. The racks will probably not be in until the Winter of 1999 and hopefully the installation will be contracted out under the grant. If not, it will be a rainy day winter project and we will be reimbursed for labor and equipment costs. This will depend on the bid results.

The Public Works Department (Bike/Pedestrian Coordinator) will oversee administering the agreement which includes rack installation and distribution to Parks and Recreation, Transit Services, Parking Services, and City Schools. As limited bicycle parking facilities exist, the City of Asheville will greatly benefit from this project.

A budget amendment, in the amount of $60,000, is necessary for the project. Upon completion of the project, the NC DOT will reimburse 100% of all costs for equipment and rack installation for an amount not to exceed $60,000.

The Public Works Department staff recommends adoption of (1) a resolution authorizing the Mayor to enter into an agreement with the N. C. Dept. of Transportation (TIP Project C-3415) to provide for the installation of bicycle parking racks in various locations in the City of Asheville; and (2) a budget amendment, in the amount of $60,000, for said project.

Grant Proposal to N.C. Dept. of Transportation for Transportation Enhancement Program

Summary: The consideration of a resolution authorizing the City Manager to apply to the N. C. Dept. of Transportation (NC DOT), through the Transportation Enhancement Program, for a grant for (1) sidewalk improvements surrounding the Grove Arcade, (2) Pritchard Park, and (3) the Urban Trail.

Funds are available through the NC DOT in the Transportation Enhancement Program for the Transportation Equity Act for the 21st Century (TEA21). The Transportation Enhancement Program is designed to provide links to traditional and alternative transportation by improving safety, protecting the environment and public health, and creating the opportunity for communities to improve their quality of life.

The Transportation Enhancement Program is a cost reimbursement grant requiring at least a 20% cash match from the local sponsor. Projects must fit within one or more of the eleven enhancement categories, provide a transportation link, all right-of-way must be in public ownership, demonstrate high visibility, and be ready to implement and complete within one year after the award date.

The NC DOT has approximately $12 million to distribute statewide each year for the next three years. The NC DOT is currently in the first call for proposals, and plans to call for proposals in March 2000 and March 2001. The City of Asheville will have the opportunity to apply each year.

A team of staff from the Engineering, Parks and Recreation, and the Public Works Departments met to review the proposed projects using the criteria directed by the NC DOT. One of the primary criteria, as previously outlined, was the requirement to have allocated matching funds budgeted for each project. As a result, the City of Asheville wishes to apply for funds during the first call of proposals for (1) sidewalk improvements surrounding the Grove Arcade, (2) construction of Pritchard Park, and (3) pedestrian streetscape improvements to complete the Urban Trail.

Grove Arcade Pedestrian/Sidewalk Improvements - The project will enhance and facilitate pedestrian and vehicular traffic to and from the Grove Arcade with wider and improved pedestrian access, landscaping, and resurface streets due to sidewalk improvements.

Total project cost: $310,000
Grant request: $175,000
Local match: $135,000 (43%);

Pritchard Park - The project will construct Pritchard Park including pedestrian facilities and access, streetscape improvements, bicycle route connections, and safety features for pedestrians and bicyclists. Traffic analysis is currently in progress and will be available prior to grant award date.

Total project cost: $1,275,000
Grant request: $800,000
Local match: $475,000 (37%);

Urban Trail - The project consists of pedestrian streetscape improvements along the 1.7 mile trail, including decorative pedestrian crossing, installation of ADA ramps, removal of ADA obstacles, installation of the transportation station and a trail information station, installation of tree grates, improved pedestrian lighting, landscaping, and necessary sidewalk improvements.

Total project cost: $584,834
Grant request: $429,134
Local match: $155,700 (26.6%).

The City has several other projects that are potentially eligible for the Transportation Enhancement Program, such as pedestrian improvements in Biltmore Village, College Street Corridor, and construction of the Broadway Greenway. Due to the current position of the projects, staff recommends they not be considered at this time. Necessary details are being pursued on these projects for the next application cycle.

The Engineering, Parks and Recreation, and the Public Works Departments request the City Council review and concur with the recommendation for projects to be included in City of Asheville proposal for the TEA21 Transportation Enhancement Program. The Departments also recommend the City Manager be authorized to apply for and enter into an agreement in the event the City of Asheville receives the grant award.

Mayor Sitnick asked that the record show that City Council has received this information and instructs the City Manager to place these items on the next formal City Council agenda.

HONDA HOOT 2000 PARKING PROPOSAL

Finance Director Bill Schaefer said that this is the consideration of a proposal by Honda Rider's Club of America regarding parking fees for Honda Hoot 2000 and adoption of an enabling resolution.

The Honda Rider's Club of America has sponsored the Honda Hoot Rally in Asheville, North Carolina, for the past six years, and desires to bring the rally to Asheville again in 2000.

For parking arrangements, Honda Rider's Club has proposed a permit system like that used during this year's Rally. Subsequent dialog between Honda Rider's Club and City staff has resulted in the following verbal proposal from Honda:

- Honda will produce and provide a sticker, suitable for affixing to each motorcycle's headlamp, to indicate payment of the parking fee.
- Motorcycles bearing headlamp stickers will be allowed to park in a designated area of the Civic Center parking garage, in designated areas of closed streets and at metered spaces throughout the downtown area for the duration of the rally.
- Honda would remit to the City $3.00 for each pre-registered motorcycle and would provide additional stickers for sale by Parking Services staff on-site at $5.00 each.
- The City will grant "festival status" for Honda Hoot 2000.
- The City will provide overflow motorcycle parking from the Civic Center parking garage along one lane of Rankin Ave. from Walnut to Hiawassee and provide the same street closures as for this year. Honda is aware that Page Ave. closure may not be feasible due to Grove Arcade activity or street/sidewalk construction.

Assuming the same number of pre-registrations and on-site sales as this year, the proposal for 2000 would generate approximately $11,455 from sticker sales. This year's revenue from sticker sales was $4,194.

In order to proceed with planning for the 2000 Rally, Honda had requested a response to their proposal by August 1, 1999. Prior to receipt of their proposal, Honda had been informed that formulation of a plan to accommodate their parking needs would probably extend beyond August 1. On July 20, 1999, following confirmation that the Grove Arcade did not anticipate opening prior to July 1, 2000, they were informed that their proposal would be scheduled to be presented to Council at the August 3 worksession.

If City Council finds the Honda proposal acceptable, staff requests the adoption of the enabling resolution which sets the limited event fee for Honda Hoot 2000.

Upon inquiry of Councilwoman Field, Mr. Schaefer said that less than 12 monthly parkers in the Civic Center Parking Garage were displaced into the Rankin Avenue Parking Garage.

When Councilwoman Field asked how many parking meters were closed down for the Grove Arcade construction, Mr. Schaefer said that about 50 meters are down, out of approximately 730 total in the downtown area.

Mayor Sitnick asked if there was any way to predict if the fence around the Grove Arcade would be gone before the Honda Hoot in 2000. Mr. Schaefer said that he could not predict if the fence would be gone, but even if the fence is removed, there may be other things that hamper traffic, such as, committed sidewalk and lane changes, and repaving. He said they will watch that area through the process and accommodate it the best they can.

Mayor Sitnick asked that the record show that City Council has received this information and instructs the City Manager to place this item on the next formal City Council agenda.

POTENTIAL EXTRATERRITORIAL JURISDICTION EXTENSION INTO THE REYNOLDS MOUNTAIN AREA

Due to a conflict of interest, Councilman Cobb excused Councilman Cloninger from participating in this matter. This motion was seconded by Councilman Sellers and carried unanimously.

Mr. Mike Matteson, Urban Planner, said that the Planning and Zoning Commission has directed the Planning and Development Department staff to pursue the extension of the City's ETJ in the Reynolds Mountain area - north of the City's corporate limits.

This request by the Commission resulted from the Commission's review of the proposed Reynolds Mountain Subdivision, a 174 lot single family subdivision to be located on Reynolds Mountain. Although the proposed subdivision is to be located almost entirely outside of the City's zoning jurisdiction, it is anticipated to have a significant impact on the City's infrastructure and the Lakeview Park neighborhood, through which one of the two access points to the subdivision is proposed.

The proposed ETJ extension would include a portion of the Reynolds Mountain Subdivision (Phase I) as well as additional properties to the north and east which are similar to Reynolds Mountain Subdivision in their potential for development and in the potential impact which future development may have on the City.

The Town of Woodfin is also exploring ETJ extension to include a portion of the subdivision. The Planning and Development Department staff has met with staff from the Town of Woodfin to develop a line of demarcation separating the proposed Town of Woodfin's ETJ from the potential City of Asheville's ETJ. This line of demarcation has been viewed favorably by the Town of Woodfin's Board of Aldermen. The proposed Subdivision will be developed in two phases. Phase I of the Subdivision would fall within the City and Phase II would fall within the Town of Woodfin.

By extending ETJ in this area, the City would gain the ability to anticipate, plan and manage future growth in this area.

Planning and Development Department staff is seeking direction from the City Council regarding the potential extension of the City's ETJ in the Reynolds Mountain area.

City Attorney Oast pointed out that there are certain limitations on what the City can extend to geographically. He said that this boundary line is not etched in stone and is subject to verification on the ground.

City Manager Westbrook explained to Councilman Cobb how the City's extraterritorial jurisdiction area is applied and why we have it in some areas and not in others.

When Councilman Cobb asked about the process, City Attorney Oast said that the initial step is to identify the area Council would like staff to investigate for a potential ETJ extension and then the Planning & Zoning Commission would make their recommendation, along with a zoning recommendation, to City Council.

Mr. Charlie Cunningham felt that City Council should not consider including this area into their ETJ unless they know what zoning will be placed on the property.

Mayor Sitnick asked that the record show that City Council has received this information and instructs the City Manager to place this item on the next formal City Council agenda.

INTERNET BRIEFING

Mr. Larry Bopp, Information Services Director, said that the City began using its Internet web site during 1996. While there have been many updates and additions to its content since then, some of the more advanced Internet capabilities have not yet been implemented at the City. The City has reviewed the content of its current Internet web site and that of several cities and counties across the state. He then identified the current content and capabilities as well as additional capabilities which will be implemented in the future.

TRANSFER OF CABLE TELEVISION FRANCHISE FROM BRENMOR CABLE PARTNERS, L.P., TO ROBIN MEDIA GROUP INC. (d/b/a CHARTER)

Ms. Patsy Meldrum, Assistant City Attorney, said that Brenmor Cable Partners, L.P. (d/b/a InterMedia) and Robin Media Group Inc. (d/b/a Charter) are seeking approval of the assignment and transfer of the cable system from InterMedia to Charter.

InterMedia owns, operates, and maintains a cable television system ("System") in the City of Asheville (the "City"), pursuant to City of Asheville Ordinance No. 2496 and Ordinance No. 2500, dated June 23, 1998, and July 28, 1998, respectively (the "Franchise") and is the current authorized holder of the Franchise.

InterMedia is proposing to assign and transfer the assets, including the Franchise, of the System to Robin Media Group, Inc. ("RMG"), which will then be owned and controlled by Charter Communications, LLC, ("Charter"), subject to, among other conditions, any required approval of the City with respect thereto.

InterMedia and Charter have requested consent from the City to assign and transfer the System, including the Franchise, to RMG in accordance with the requirements of the Franchise by filing FCC Form 394, and accompanying documents, (the "Application") with the City. The terms of the Franchise require that prior to an assignment or transfer of the Franchise, the City must grant its prior written consent thereto. Federal law and the Franchise require a determination by the City that RMG has the requisite legal, technical and financial capability as described in the Application before the transfer is approved.

Based upon a review of the Application and Franchise, City staff is recommending approval of the assignment and transfer of the System, including the Franchise, from Brenmor Cable Partners, L.P. to Robin Media Group Inc., subject to compliance with certain conditions:

(a) RMG assumes all rights, obligations and liabilities of Franchisee under the Franchise including, without limitation, all obligations, if any, of Franchisee as are currently required to have been performed but have not been performed.

(b) The transfer approval shall not in any way waive, diminish or otherwise affect adversely any right that the City has, may have, or may at any time or in any manner subsequently acquire, with respect to any matter, including, without limitation, the right of the City to require compliance with the terms of the Franchise.

(c) RMG shall furnish a performance bond to the City in the minimum amount of $350,000, as required by the Franchise, no later than the Closing Date and shall maintain the performance bond as required by the Franchise.

(d) RMG shall furnish the City with the certificates of insurance required under the Franchise, no later than the Closing Date, and shall maintain the insurance required under the Franchise.

(e) RMG shall furnish certificates from the North Carolina Secretary of State for RMG and Charter Communications, Inc., showing that they are authorized to transact business in North Carolina and that they are in good standing in North Carolina, no later than the Closing Date.

(f) RMG shall furnish the City of Asheville with satisfactory financial statements for Charter Communications, Inc., the parent corporation.

(g) RMG shall furnish to the City, no later than the Closing Date, a financial guaranty from Charter Communications, Inc. in a form and substance satisfactory to the City of Asheville, securing the performance of RMG under the Franchise.

(h) Assumption by Robin Media Group, Inc. in a separate document of the obligations of Brenmor Cable Partners L.P. in that document known as the "Side Letter" dated June 23, 1998, from Bruce J. Stewart, General Counsel, InterMedia, to City Manager James L. Westbrook, Jr.

(i) Payment of past due franchise fees to the City of Asheville by Charter Communications, Inc. in the amount of $25,421 for areas served by Charter Communications, Inc. within the corporate limits of the City of Asheville and for which no franchise had been previously secured from the City of Asheville and for which no franchise fees have been previously paid to the City of Asheville.

(j) Agreement by Robin Media Group, Inc. that it will use its best efforts to secure a provision in its cable system franchise with Buncombe County that, when areas are annexed into the City of Asheville, franchise fees will no longer be paid to Buncombe County but will be paid to the City of Asheville for those areas.

(k) Agreement by Robin Media Group, Inc. that the quarterly reports furnished to the City of Asheville by Robin Media Group, Inc. for franchise fee payments be in a form and substance satisfactory to the City of Asheville and which show the calculations upon which "Gross Annual Revenues," as defined in the Franchise, are made.

(l) Some type of modification to the "state-of-the-art" provisions in the Franchise satisfactory to the City of Asheville to incorporate other cable systems owned by Charter Communications, Inc. for comparison purposes, to ensure that comparisons can be made practically with systems owned by others in North Carolina and to place responsibility on Robin Media Group, Inc. to furnish data from other comparable systems owned by Charter Communications, Inc.

(m) Brenmor and RMG have agreed to the conditions specified in this transfer resolution and shall confirm their consent by signatures set forth below and shall execute and deliver to the City any and all other documents embodying their agreement to and implementing the above conditions, in form and substance satisfactory to the City Attorney, no later than the Closing Date.

City staff recommends approval of the assignment and transfer of the cable system, subject to the conditions set out in the resolution.

Ms. Meldrum responded to various questions and comments from Council relative to the transfer, some being, but are not limited to, what do we know about Charter with regard to the "state-of-the-art" provisions; can we try to re-negotiate some of the franchise provisions, such as

PEG channels and senior citizen discounts; pleased that there is a better accounting procedure in place now for franchise payments; what kind of changes to the service can City residents expect; and will the management change.

Ms. Diane Gilkeson, General Manager for the local Charter office, said that there is no immediate plan in the future to disrupt channels for City residents and when changes are made, customer notifications will be sent out.

Mayor Sitnick asked that the record show that City Council has received this information and instructs the City Manager to place this item on the next formal City Council agenda.

NEXT COMMUNITY MEETING LOCATION

It was the consensus of City Council to cancel the City Council community meeting scheduled for the central area on Tuesday, August 31, 1999, in the Public Works Building. This meeting will be held in conjunction with the Mayor's Roundtable on the Downtown which is scheduled on Thursday, October 7, 1999, at 7:00 p.m. The location of the Roundtable/ Community Meeting has yet to be determined.

BRACKETTOWN ROAD - ASHEVILLE MALL EXPANSION

City Manager Westbrook said that at the City Council meeting held on July 27, 1999, City Council asked staff to analyze several options pertaining to Brackettown Road including closing the road, or making it one-way in or out of White Pine Drive. At that meeting, staff agreed to analyze the data and report back to City Council in approximately 30 days.

The developers for the project have requested that the recommendation regarding Brackettown Road be made sooner, because this condition may have significant impact on the project. The developer's traffic consultant has provided the analysis to City staff and they will review the analysis and be prepared to make a recommendation to City Council at their formal meeting on August 10, 1999.

It was the consensus of City Council to have staff report back to them at their August 10, 1999, their recommendation regarding Brackettown Road in order to give City staff further guidance on that condition.

City Attorney Oast said that this will be an update of Council only by City staff and that no final vote will be taken on the Order until the formal meeting on August 24, 1999.

City Manager Westbrook said that notice of this report will be sent to property owners in the area and a copy of the report will be made available to them as well.

REPORTS ON BOARDS/COMMISSIONS

Vice-Mayor Hay reported that the following vacancies are being advertised: Planning & Zoning Commission, Tourism Development Authority, Tree/Greenway Commission and Regional Water Authority. Councilwoman Field noted that City Council will be hearing a report from City staff in September about splitting the Tree/Greenway Commission into two separate commissions. It was the consensus of City Council to hold their appointment to the Tree/Greenway Commission until appropriate ordinance revisions are made.

It was the consensus of City Council to allow Councilwoman Field look into the possibility of some type of ethics document for City Council. Councilwoman Field said that in the VISION report, it looks as though City Council is unwilling to address the issue, however, City Council feels that they are already doing it. Therefore, she said that she would be happy to research this issue and come back to City Council for a recommendation.

Councilwoman Field briefed City Council on a recent American Institute of Architects Conference she attend which included a roundtable on livable communities. She shared the information with City Council and felt that that it would be very beneficial to Council to hear the presentation made. She suggested at least one of the speakers be invited to attend a Mayor's Roundtable on sustainability . She also suggested that it was important for our Planning & Zoning Department to define neighborhood boundaries so that we can clearly understand how our neighborhoods work together.

At the request of Councilman Cloninger, it was the consensus of City Council to reschedule the public hearing to amend the Unified Development Ordinance to revise the standards of the wireless telecommunication facilities from August 24, 1999, to September 14, 1999.

Mayor Sitnick said that she has instructed the City Manager to develop a policy that focuses on any organization, including non-profits, that receives money from the City be required to have open meetings and open records. After that policy is developed, she will present it to City Council for consideration.

Mayor Sitnick said that she will be bringing up to City Council the possibility of hiring a public information officer in the next fiscal year. In addition, she will discuss with City Council the potential of hiring a full-time grants officer.

ADJOURNMENT:

Mayor Sitnick adjourned the meeting at 4:37 p.m.

Magdalen Burleson
CITY CLERK

Leni Sitnick
MAYOR

Tuesday - August 10, 1999 - 5:00 p.m.

Regular Meeting

Present: Mayor Leni Sitnick, Presiding; Vice-Mayor Edward C. Hay Jr.; Councilman M. Charles Cloninger; Councilman Earl Cobb; Councilwoman Barbara Field; Councilman Thomas G. Sellers; and Councilman O.T. Tomes; City Attorney Robert W. Oast Jr.; City Manager James L. Westbrook Jr.; and City Clerk Magdalen Burleson

Absent: None

INVOCATION

Mayor Sitnick gave the invocation.

I. PROCLAMATIONS:

A. OFFICIAL WELCOME AND RECOGNITION OF NEW UNC-A CHANCELLOR JIM MULLEN

On behalf of City Council, Mayor Sitnick officially welcomed new UNC-Asheville Chancellor Jim Mullen.

B. BELE CHERE 1999

Mayor Sitnick formally thanked the staff and volunteers who worked to make Bele Chere 1999 a success.

II. CONSENT AGENDA:

Due to a conflict of interest from Councilman Cloninger, Item E. was removed from the consent agenda.

A. RESOLUTION NO. 99-113 - RESOLUTION AUTHORIZING THE MAYOR TO EXECUTE AN AGREEMENT WITH THE N.C. DEPT. OF TRANSPORTATION FOR THE INSTALLATION OF BICYCLE RACKS IN VARIOUS LOCATIONS IN THE CITY OF ASHEVILLE

Summary: The consideration of (1) a resolution authorizing the Mayor to enter into an agreement with the N. C. Dept. of Transportation (NC DOT) to provide for the installation of bicycle parking racks in various locations in the City of Asheville and (2) a budget amendment, in the amount of $60,000, for said project.

The 1997-2003 Bicycle Transportation Improvement Program provides for the installation of bicycle racks at various locations throughout the City of Asheville. Public Works staff, in conjunction with the Bicycle Task Force, has developed plans for the installation of approximately 114 bicycle racks in key downtown, park, and other public locations in accordance with the NC DOT standards and specifications. City staff has verified appropriateness based upon pedestrian access issues, streetscape impact, etc. The breakdown of locations is as follows:

Parks and Recreation: 42 - to be installed at park locations throughout the city parks. Some may be stockpiled for future projects.

Central Business District: 31 - Some locations still need to be verified with adjoining property owners. However, definitive sites are on Biltmore Avenue, Battery Park, Page Avenue, Haywood Street, Wall Street, Broadway, Patton Avenue, City Hall, South Market Street, Public Works Building, etc. City staff will present a map at the City Council meeting showing the criteria for selecting a site.

Park and Ride Lots: 3 - Staff is coordinating with Transit Services Director on locations.

Parking Garages: 2 - Staff is coordinating with Parking Services on locations.

Asheville High School: 2

Other Areas: 34 - These will be determined as the project unfolds, and/or stockpiled for future installation. Staff has a list of interested parties that want to be considered for placement (Buncombe County locations, etc.)

The NC DOT has left a lot of flexibility in where the bicycle racks will be ultimately installed. Their main criteria is that they must be on public property or right-of-way. We have to go through formal bid procedures for the racks. Once the Municipal Agreement is signed, we have to get approval from the NC DOT to bid. The racks will probably not be in until the Winter of 1999 and hopefully the installation will be contracted out under the grant. If not, it will be a rainy day winter project and we will be reimbursed for labor and equipment costs. This will depend on the bid results.

The Public Works Department (Bike/Pedestrian Coordinator) will oversee administering the agreement which includes rack installation and distribution to Parks and Recreation, Transit Services, Parking Services, and City Schools. As limited bicycle parking facilities exist, the City of Asheville will greatly benefit from this project.

A budget amendment, in the amount of $60,000, is necessary for the project. Upon completion of the project, the NC DOT will reimburse 100% of all costs for equipment and rack installation for an amount not to exceed $60,000.

The Public Works Department staff recommends adoption of (1) a resolution authorizing the Mayor to enter into an agreement with the N. C. Dept. of Transportation (TIP Project C-3415) to provide for the installation of bicycle parking racks in various locations in the City of Asheville; and (2) a budget amendment, in the amount of $60,000, for said project.

RESOLUTION BOOK NO. 25 - PAGE 263

B. ORDINANCE NO. 2595 - BUDGET AMENDMENT FOR THE INSTALLATION OF BICYCLE RACKS IN VARIOUS LOCATIONS IN THE CITY OF ASHEVILLE

Summary: See Item "A" above.

At the request of Ms. June Lamb, City Manager Westbrook explained how the budget amendment affects the adopted budget.

ORDINANCE BOOK NO. 17 - PAGE 411

C. **RESOLUTION NO. 99-114 - RESOLUTION FIXING DATE OF PUBLIC HEARING ON AUGUST 24, 1999, TO ANNEX PROPERTY LOCATED ON SWEETEN CREEK ROAD AND PEACH TREE STREET KNOWN AS ROYAL PINES POOL AND PARK PROPERTIES**

RESOLUTION BOOK NO. 25 - PAGE 264

D. **RESOLUTION NO. 99-115 - RESOLUTION FIXING DATE OF PUBLIC HEARING ON AUGUST 24, 1999, TO ANNEX PROPERTY LOCATED OFF OF HENDERSONVILLE ROAD AND KNOWN AS DEERFIELD EPISCOPAL RETIREMENT COMMUNITY INC.**

RESOLUTION BOOK NO. 25 - PAGE 266

E. **RESOLUTION ADOPTING THE RECOMMENDATIONS OF THE REGIONAL WATER AUTHORITY TO AWARD A CONTRACT TO McGILL ASSOCIATES TO IMPLEMENT ENGINEERING SERVICES FOR A RECENTLY AWARDED $3 MILLION STATE GRANT FOR WATER DISTRIBUTION IMPROVEMENTS**

This item was removed from the Consent Agenda due to a conflict of interest from Councilman Cloninger.

F. **ORDINANCE NO. 2596 - BUDGET AMENDMENT TO FUND THE CRITICAL NEEDS GRANT PROJECT**

Summary: The consideration of a budget amendment, in the amount of $3,000,000, amending Capital Project Ordinance 82-25 (35 Fund - Water Major Capital Improvements Fund) to fund the $3 million State Grant Projects.

By Resolution 82-25 dated October 5, 1982, the Regional Water Authority authorized and budgeted for various capital projects to be funded by Investment Earnings, Contributions From Other Funds, and Appropriated Fund Balance.

Capital Project Ordinance 82-25 needs to be amended to include appropriations for the following projects which will be funded with a $3,000,000 Grant and a local match of $289,960:

- $646,820 for Critical Needs Contract #1 - North Asheville to include Madison Avenue, Country Club Road/Grovemont Road/Lynnwood, Woodward Avenue, Richie Street, Orchard Street, Robindale Road, Lee Street/Prospect Street
- $897,700 for Critical Needs Contract #2 - Town Mountain/Beaverdam Areas to include Lynn Cove Road, Lawterdale Road, Cogswood Road, Cherokee Road, Sunset Drive
- $684,760 for Critical Needs Contract #3 - East and South Buncombe to include Chunns Cove Road, Buckeye Cove Road, Beacon Village, Wilson Avenue/Grovemont, Upper Moffit Branch, Deaver Street, Crescent Hill Road
- $1,060,680 for Critical Needs Contract #4 - Northwest Buncombe to include Smith Graveyard Road/Eliada Home, Adams Hill Road/Wolf Park Circle

Staff recommends approval of a budget ordinance amending Capital Project Ordinance 82-25 (35 Fund) to provide funding in the amount of $3,289,960 for Critical Needs Contracts 1, 2, 3, and 4 to be funded with a $3,000,000 Grant and matching funds of $289,960.

At the request of Ms. June Lamb, City Manager Westbrook explained how the budget amendment affects the adopted budget.

ORDINANCE BOOK NO. 17 - PAGE 413

G. RESOLUTION NO. 99-116 - RESOLUTION AUTHORIZING THE CITY MANAGER TO APPLY TO THE N.C. DEPT. OF TRANSPORTATION FOR A TRANSPORTATION ENHANCEMENT PROGRAM GRANT FOR (1) SIDEWALK IMPROVEMENTS SURROUNDING THE GROVE ARCADE, (2) PRITCHARD PARK, AND (3) THE URBAN TRAIL

Summary: The consideration of a resolution authorizing the City Manager to apply to the N. C. Dept. of Transportation (NC DOT), through the Transportation Enhancement Program, for a grant for (1) sidewalk improvements surrounding the Grove Arcade, (2) Pritchard Park, and (3) the Urban Trail.

Funds are available through the NC DOT in the Transportation Enhancement Program for the Transportation Equity Act for the 21st Century (TEA21). The Transportation Enhancement Program is designed to provide links to traditional and alternative transportation by improving safety, protecting the environment and public health, and creating the opportunity for communities to improve their quality of life.

The Transportation Enhancement Program is a cost reimbursement grant requiring at least a 20% cash match from the local sponsor. Projects must fit within one or more of the eleven enhancement categories, provide a transportation link, all right-of-way must be in public ownership, demonstrate high visibility, and be ready to implement and complete within one year after the award date.

The NC DOT has approximately $12 million to distribute statewide each year for the next three years. The NC DOT is currently in the first call for proposals, and plans to call for proposals in March 2000 and March 2001. The City of Asheville will have the opportunity to apply each year.

A team of staff from the Engineering, Parks and Recreation, and the Public Works Departments met to review the proposed projects using the criteria directed by the NC DOT. One of the primary criteria, as previously outlined, was the requirement to have allocated matching funds budgeted for each project. As a result, the City of Asheville wishes to apply for funds during the first call of proposals for (1) sidewalk improvements surrounding the Grove Arcade, (2) construction of Pritchard Park, and (3) pedestrian streetscape improvements to complete the Urban Trail.

Grove Arcade Pedestrian/Sidewalk Improvements - The project will enhance and facilitate pedestrian and vehicular traffic to and from the Grove Arcade with wider and improved pedestrian access, landscaping, and resurface streets due to sidewalk improvements.

Total project cost: $310,000
Grant request: $175,000
Local match: $135,000 (43%);

Pritchard Park - The project will construct Pritchard Park including pedestrian facilities and access, streetscape improvements, bicycle route connections, and safety features for pedestrians and bicyclists. Traffic analysis is currently in progress and will be available prior to grant award date.

Total project cost: $1,275,000
Grant request: $800,000
Local match: $475,000 (37%);

Urban Trail - The project consists of pedestrian streetscape improvements along the 1.7 mile trail, including decorative pedestrian crossing, installation of ADA ramps, removal of ADA obstacles, installation of the transportation station and a trail information station, installation of tree grates, improved pedestrian lighting, landscaping, and necessary sidewalk improvements.

Total project cost: $584,834
Grant request: $429,134
Local match: $155,700 (26.6%).

The City has several other projects that are potentially eligible for the Transportation Enhancement Program, such as pedestrian improvements in Biltmore Village, College Street Corridor, and construction of the Broadway Greenway. Due to the current position of the projects, staff recommends they not be considered at this time. Necessary details are being pursued on these projects for the next application cycle.

The Engineering, Parks and Recreation, and the Public Works Departments request the City Council review and concur with the recommendation for projects to be included in City of Asheville proposal for the TEA21 Transportation Enhancement Program. The Departments also recommend the City Manager be authorized to apply for and enter into an agreement in the event the City of Asheville receives the grant award.

RESOLUTION BOOK NO. 25 - PAGE 268

H. MOTION SCHEDULING THE PUBLIC HEARING SET FOR AUGUST 24, 1999, TO AMEND THE UNIFIED DEVELOPMENT ORDINANCE TO REVISE THE STANDARDS OF WIRELESS TELECOMMUNICATION FACILITIES TO SEPTEMBER 14, 1999

I. RESOLUTION NO. 99-117 - RESOLUTION SETTING A LIMITED EVENT FEE FOR THE HONDA HOOT 2000 PARKING

Summary: The consideration of a proposal by Honda Rider's Club of America regarding parking fees for Honda Hoot 2000 and adoption of an enabling resolution.

The Honda Rider's Club of America has sponsored the Honda Hoot Rally in Asheville, North Carolina, for the past six years, and desires to bring the rally to Asheville again in 2000.

For parking arrangements, Honda Rider's Club has proposed a permit system like that used during this year's Rally. Subsequent dialog between Honda Rider's Club and City staff has resulted in the following verbal proposal from Honda:

- Honda will produce and provide a sticker, suitable for affixing to each motorcycle's headlamp, to indicate payment of the parking fee.
- Motorcycles bearing headlamp stickers will be allowed to park in a designated area of the Civic Center parking garage, in designated areas of closed streets and at metered spaces throughout the downtown area for the duration of the rally.
- Honda would remit to the City $3.00 for each pre-registered motorcycle and would provide additional stickers for sale by Parking Services staff on-site at $5.00 each.
- The City will grant "festival status" for Honda Hoot 2000.
- The City will provide overflow motorcycle parking from the Civic Center parking garage along one lane of Rankin Ave. from Walnut to Hiawassee and provide the same street

closures as for this year. Honda is aware that Page Ave. closure may not be feasible due to Grove Arcade activity or street/sidewalk construction.

Assuming the same number of pre-registrations and on-site sales as this year, the proposal for 2000 would generate approximately $11,455 from sticker sales. This year's revenue from sticker sales was $4,194.

In order to proceed with planning for the 2000 Rally, Honda had requested a response to their proposal by August 1. Prior to receipt of their proposal, Honda had been informed that formulation of a plan to accommodate their parking needs would probably extend beyond August 1. On July 20, following confirmation that the Grove Arcade did not anticipate opening prior to July 1, 2000, they were informed that their proposal would be scheduled to be presented to Council at the August 3 worksession.

Honda Rider's Club of America has indicated that Mr. Walt Miller will attend the August 3, 1999, worksession to discuss and answer any questions Council may have regarding their proposal.

If City Council finds the Honda proposal acceptable, staff requests the adoption of the enabling resolution which sets the limited event fee for Honda Hoot 2000.

RESOLUTION BOOK NO. 25 - PAGE 269

J. RESOLUTION NO. 99-118 - RESOLUTION RELATIVE TO ASSIGNMENT OF CABLE TELEVISION FRANCHISE FROM BRENMOR CABLE PARTNERS, L.P. TO ROBIN MEDIA GROUP INC. (d/b/a CHARTER)

Summary: Brenmor Cable Partners, L.P. (d/b/a InterMedia) and Robin Media Group Inc. (d/b/a Charter) are seeking approval of the assignment and transfer of the cable system from InterMedia to Charter.

InterMedia owns, operates, and maintains a cable television system ("System") in the City of Asheville (the "City"), pursuant to City of Asheville Ordinance No. 2496 and Ordinance No. 2500, dated June 23, 1998 and July 28, 1998, respectively (the "Franchise") and is the current authorized holder of the Franchise.

InterMedia is proposing to assign and transfer the assets, including the Franchise, of the System to Robin Media Group, Inc. ("RMG"), which will then be owned and controlled by Charter Communications, LLC, ("Charter"), subject to, among other conditions, any required approval of the City with respect thereto.

InterMedia and Charter have requested consent from the City to assign and transfer the System, including the Franchise, to RMG in accordance with the requirements of the Franchise by filing FCC Form 394, and accompanying documents, (the "Application") with the City. The terms of the Franchise require that prior to an assignment or transfer of the Franchise, the City must grant its prior written consent thereto. Federal law and the Franchise require a determination by the City that RMG has the requisite legal, technical and financial capability as described in the Application before the transfer is approved.

Based upon a review of the Application and Franchise, City staff is recommending approval of the assignment and transfer of the System, including the Franchise, from Brenmor Cable Partners, L.P. to Robin Media Group Inc., subject to compliance with certain conditions. Those conditions are set forth in the resolution approving the assignment and transfer.

City staff recommends approval of the assignment and transfer of the cable system, subject to the conditions set out in the resolution.

Mr. Joe Haight, General Manager of InterMedia, thanked City Council for working with him over the past years. He said that he will be leaving his position with InterMedia, however, he would not be leaving the Asheville community and hoped that he can contribute to the community in constructive ways. He said that prior to his leaving, he will make every effort to get the PEG channels up and running.

RESOLUTION BOOK NO. 25 - PAGE 270

Mayor Sitnick said that members of Council have been previously furnished with a copy of the resolutions and ordinances and the Consent Agenda and they would not be read.

Councilwoman Field moved for the adoption of the Consent Agenda. This motion was seconded by Councilman Sellers and carried unanimously.

ITEM REMOVED FROM THE CONSENT AGENDA

RESOLUTION NO. 99-119 - RESOLUTION ADOPTING THE RECOMMENDATIONS OF THE REGIONAL WATER AUTHORITY TO AWARD A CONTRACT TO McGILL ASSOCIATES TO IMPLEMENT ENGINEERING SERVICES FOR A RECENTLY AWARDED $3 MILLION STATE GRANT FOR WATER DISTRIBUTION IMPROVEMENTS

Vice-Mayor Hay moved to excuse Councilman Cloninger from participating in this matter due to a conflict of interest. This motion was seconded by Councilwoman Field and carried unanimously.

Summary: The consideration of (1) approving a contract with McGill Associates to implement engineering services for a recently awarded $3 million State Grant for water distribution improvements and (2) authorizing the Director of Water Resources to establish a Memorandum of Understanding with the City of Asheville Engineering Director for engineering services.

On Thursday, July 15, 1999, five proposals were received from consulting engineering firms for engineering services for Contracts 1-3 of 4 contracts defined under the $3 million State grant. On Monday, July 19, 1999, a selection committee approved by the Water Authority's Policies & Priorities Committee and consisting of Mr. Gary Semlak, Mr. Mike Brookshire, and Mr. Tom Frederick met after reviewing the proposals. The selection committee ranked the proposals based on the following criteria set out in the RFP: firm's demonstrated qualifications, ability to meet the design schedule, project approach, financial standing of firm, and the firm's minority business plan. Based on these criteria, the committee selected McGill Associates as the most qualified for this work and determined that McGill Associates satisfactorily demonstrated the ability to perform all three projects.

Following the evaluation based on RFP criteria, the committee also reviewed McGill Associates' separately submitted fee schedule and determined the proposed fee to be within the project budget for these services. Through further negotiations with McGill, the final recommended contract amount was reduced to $204,600.

Other firms submitting proposals include W. K. Dickson, William G. Lapsley & Associates, Mattern & Craig, and Vaughn & Melton.

The Director of Water Resources has also received and recommends a written proposal from the City of Asheville Engineering Department to provide engineering services for Contract 4 of this grant not to exceed $76,560, which is also well within the project budget.

On July 20, 1999, the Regional Water Authority unanimously approved both staff recommendations. The grant requires engineering design and permitting to be completed by November 1, 1999; therefore, City Council's earliest consideration of this recommendation would be appreciated.

Staff recommends the City Council approve the execution of an engineering contract to McGill Associates for $204,600 and authorize the Director of Water Resources to establish a Memorandum of Understanding with the City of Asheville Engineering Director for engineering services not to exceed $76,560.

Mayor Sitnick said that members of Council have been previously furnished with a copy of the resolution and it would not be read.

Councilman Sellers moved for the adoption of Resolution No. 99-119. This motion was seconded by Vice-Mayor Hay and carried unanimously.

RESOLUTION BOOK NO. 25 - PAGE 274

III. PUBLIC HEARINGS:

A. PUBLIC HEARING TO REZONE A PORTION OF A SPLIT-ZONED LOT ON VIRGINIA AVENUE AND HAYWOOD ROAD FROM RM-8 RESIDENTIAL MULTI-FAMILY MEDIUM DENSITY DISTRICT TO COMMUNITY BUSINESS II DISTRICT

ORDINANCE NO. 2597 - ORDINANCE TO REZONE A PORTION OF A SPLIT-ZONED LOT ON VIRGINIA AVENUE AND HAYWOOD ROAD FROM RM-8 RESIDENTIAL MULTI-FAMILY MEDIUM DENSITY DISTRICT TO COMMUNITY BUSINESS II DISTRICT

Mayor Sitnick opened the public hearing at 5:20 p.m.

Mr. Carl Ownbey, Urban Planner, said that this is the consideration of an ordinance to rezone the remainder of a lot located on Haywood Road from RM-8 Residential Multi-Family Medium Density District to Community Business II District. This public hearing was legally advertised on July 30, 1999, and August 6, 1999.

The petitioner, West Asheville Presbyterian Church, has requested to rezone the rear portion of the church lot (PIN No. 9638.13-24-3282) on Haywood Road from RM-8 to Community Business II so the entire Church property will be zoned the same. The Church wishes to revise its parking area to comply with the new handicapped accessibility code. The Church has also submitted a site plan to increase their parking facility on property they own across Virginia Avenue. The 2010 Plan indicates the area along the frontage of Haywood Road to be institutional and/or commercial. Past expansions of the church have carried over into the residentially zoned area.

The Planning staff reviewed the request and recommended approval. At their July 7, 1999, Planning & Zoning Commission meeting, the Commission voted unanimously to recommend the rezoning of the remainder of one lot located on Haywood Road from RM-8 to Community Business II District.

Ms. Norma Price, resident of 26 Zephyr Drive, urged City Council to rezone the property to Commercial Business II District.

Mayor Sitnick closed the public hearing at 5:26 p.m.

Mayor Sitnick said that members of Council have previously received a copy of the ordinance and it would not be read.

Councilman Sellers moved for the adoption of Ordinance No. 2597. This motion was seconded by Councilman Cobb and carried unanimously.

ORDINANCE BOOK NO. 17 - PAGE 415

B. PUBLIC HEARING TO REZONE SEVEN LOTS ON SAND HILL SCHOOL ROAD FROM RM-6 RESIDENTIAL MULTI-FAMILY LOW DENSITY DISTRICT TO RM-16 RESIDENTIAL MULTI-FAMILY HIGH DENSITY DISTRICT

ORDINANCE NO. 2598 - ORDINANCE TO REZONE SEVEN LOTS ON SAND HILL SCHOOL ROAD FROM RM-6 RESIDENTIAL MULTI-FAMILY LOW DENSITY DISTRICT TO RM-16 RESIDENTIAL MULTI-FAMILY HIGH DENSITY DISTRICT

Mayor Sitnick opened the public hearing at 5:27 p.m.

Mr. Carl Ownbey, Urban Planner, said that this is the consideration of an ordinance to rezone seven lots on Sand Hill School Road from RM-6 Residential Multi-Family Low Density District to RM-16 Residential Multi-Family High Density District. This public hearing was legally advertised on July 30, 1999, and August 6, 1999.

The initial request from the petitioners (Grace and Douglas Beale) was to rezone the seven lots (PIN Nos. 9617.12-86-2597, 4361, 4434, 5361, 5451, 6217, and 6563) on Sand Hill School Road from RM-6 to Institutional to allow for the construction of an assisted living facility. Staff reviewed the request and concurred that the permitted uses in the Institutional Zoning District would be too intense for this neighborhood. After further review, staff recommended to the petitioners that RM-16 would meet their needs and still maintain the residential character of the immediate area. The 2010 Plan indicates this area to be low density residential and institutional. The neighborhood to the south and west contains two schools and a church. The property also borders an industrial park to the north. The RM-16 Zoning District would be compatible with the surrounding residential neighborhood to the east. At the Planning & Zoning Commission public hearing, one couple spoke in opposition and presented a petition with 37 signatures opposing the rezoning. After the meeting, the couple was informed of the protest petition procedure.

The Planning staff reviewed the request and recommended approval of the RM-16 zoning. At their July 7, 1999, meeting the Planning & Zoning Commission voted 5 to 2 to recommend approval of the RM-16 zoning for the seven lots on Sand Hill School Road.

Upon inquiry of Councilwoman Field about what the concerns were from the couple who opposed the rezoning, Mr. Ownbey said that they felt the facility would cause an additional traffic problems along Sand Hill School Road, in addition to the ballfield and recreational facilities on the other side of the school.

Upon inquiry of Councilman Cobb, Mr. Ownbey said that Sand Hill School Road is a state road.

City Attorney Oast reminded City Council that if the property is rezoned, it can developed into any use allowed in the RM-16 zoning district.

Ms. Grace Beale, petitioner, spoke in support of rezoning the property in order to build an assisted living facility.

Mayor Sitnick closed the public hearing at 5:38 p.m.

Mayor Sitnick said that members of Council have previously received a copy of the ordinance and it would not be read.

Councilman Tomes moved for the adoption of Ordinance No. 2598. This motion was seconded by Councilwoman Field and carried unanimously.

ORDINANCE BOOK NO. 17 - PAGE 417

C. PUBLIC HEARING TO AMEND THE UNIFIED DEVELOPMENT ORDINANCE TO ESTABLISH THE DEFINITIONS OF COMMUNITY FACILITIES AND COMMUNITY IDENTIFICATION SIGNS, TO DETERMINE THE LOCATIONS OF COMMUNITY IDENTIFICATION SIGNS, TO AMEND THE REGULATIONS REGARDING SIGNS IN THE RIGHT-OF-WAY, AND TO AMEND REGULATIONS REGARDING THE ENFORCEMENT REMEDIES

Mayor Sitnick opened the public hearing at 5:47 p.m.

Mr. Carl Ownbey, Urban Planner, said that this is the consideration of amending the Unified Development Ordinance ("UDO") regarding: (1) Enforcement Remedies and Procedures, (2) Signs Located in the Rights-of-Way, (3) On-Premise Signs / Single Tenant Development - Community Identification Signs, and (4) Definition of Community Facilities and Community Identification Signs. This public hearing was legally advertised on July 30, 1999, and August 6, 1999.

During June and July of 1999, the Planning and Zoning Commission held various worksessions and regular meetings at which they discussed and recommended several wording amendments concerning enforcement of zoning violations of the Unified Development Ordinance, providing enforcement and regulation of signs in the rights-of-way, and definition and location of community identification signs.

The Commissioners approved the recommendations of the Planning staff and the Legal staff on regulations regarding enforcement remedies and procedures concerning zoning violations, the placement of signs in the City and State rights-of-way, and the definition of Community Facilities and Community Identification Signs.

The Commissioners held two hearings concerning the location and size of Community Identification Signs (the Haw Creek community requested additional square footage for identification of community facilities) and approved the maximum square footage of the Community Identification Sign to be equal to that of a subdivision or multi-family sign at 16 square feet based on initial community input. After the Commission's decision, it was determined that this recommendation does not meet the needs of the community in adequately identifying community facilities because the sign size is too small.

Should City Council wish to address this issue, staff suggests that ordinance be referred back to the Planning & Zoning Commission to consider additional sign size for the identification of community facilities.

The Planning and Development staff presented these proposed wording amendments to the Planning and Zoning Commission at various meeting at which they voted unanimously to recommend to City Council the adoption of all these wording amendments. Staff recommends referring the ordinance concerning location and size of community identification signs back to the Planning & Zoning Commission to reconsider their recommendation.

Mr. Ownbey and Ms. Sharon Allen, Development Code Administrator, answered several questions from City Council relative to the ordinance revision regarding enforcement remedies and procedures, some being, but are not limited to, why was this provision not included in the UDO since it was included in the old Zoning Ordinance, what is a remove order, how is the provision being enforced now, and is the City enforcing any penalties.

Because City Council would like the opportunity to study each of the four ordinance revisions thoroughly, Councilwoman Field moved to discuss these amendments at a worksession, to be determined by City staff, at which time City Council will schedule the public hearing again. This motion was seconded by Councilman Sellers and carried unanimously.

Councilman Sellers moved to postpone this public hearing indefinitely. This motion was seconded by Councilwoman Field and carried unanimously.

D. PUBLIC HEARING RELATIVE ANNEXING PROPERTY LOCATED OFF OF LONG SHOALS ROAD AND KNOWN AS BILTMORE PARK COMMON AREAS (BILTMORE PARK ANNEXATION SECTION 14), SCHENCK PARKWAY, 100 TECHNOLOGY DRIVE AND THE VOLVO BUILDING PROPERTY

ORDINANCE NO. 2599 - ORDINANCE EXTENDING THE CORPORATE LIMITS OF THE CITY OF ASHEVILLE BY ANNEXING A CONTIGUOUS AREA LOCATED OFF OF LONG SHOALS ROAD AND KNOWN AS BILTMORE PARK COMMON AREAS (BILTMORE PARK ANNEXATION SECTION 14), SCHENCK PARKWAY, 100 TECHNOLOGY DRIVE AND THE VOLVO BUILDING PROPERTY

Mayor Sitnick opened the public hearing at 5:56 p.m.

Mr. Paul Benson, Urban Planner, said that this is the consideration of an ordinance to annex property located off of Long Shoals Road and known as Biltmore Park Common Areas (Biltmore Park Annexation Section 14), Schenck Parkway, 100 Technology Drive and the Volvo Building property. This public hearing was legally advertised on July 30, 1999.

Biltmore Farms, Inc. has submitted an annexation petition for Biltmore Park, Sections 14 (Biltmore Park Common Areas) and 15, (Schenck Parkway/100 Technology Drive) to expand its office/technology park. They have also submitted an annexation petition for Section 16 (Volvo Building property) which is a portion of the Broadlands Technology Park. Section 14 is approximately 20 acres of undeveloped land, Section 15 (Schenck Parkway) is approximately 8 acres of basically a 100-foot right-of-way that extends about 3,500 feet from Long Shoals Road up to the Technology Park, Section 15 (100 Technology Drive) is approximately 5 acres which is scheduled for construction of a 50,000 square foot high-tech flex building for economic development, and Section 16 is the Volvo Building property (approximately 5 acres). He said the total area is 37.3 acres and it is contiguous to the City limits. The effective date of this annexation is February 8, 2000.

The Volvo Building area, along with Sections 14 and 15, is located adjacent to the other sections of Biltmore Park previously annexed by the city, and is located west of Overlook Road and north of Long Shoals Road. This annexation is pursuant to an agreement between Biltmore Farms, Inc. and the City of Asheville.

Petitions requesting annexation of property located off of Long Shoals Road and known as Biltmore Park Common Areas (Biltmore Park Annexation Section 14), Schenck Parkway and 100 Technology Drive were received on May 20, 1999.

On July 16, 1999, the City received a petition dated July 14, 1999, for property known as the Volvo Building Property, which is located on Schenck Parkway adjacent to 100 Technology Drive. It is advisable to consider the annexation of all of these properties at the same time.

Planning staff recommends City Council adopt the ordinance extending the corporate limits of the City of Asheville by annexing a contiguous area located off of Long Shoals Road and known as Biltmore Park Common Areas (Biltmore Park Annexation Section 14), Schenck Parkway, 100 Technology Drive, and the Volvo Building property.

Mayor Sitnick closed the public hearing at 5:57.m.

Mayor Sitnick said that members of Council have previously received a copy of the ordinance and it would not be read.

Councilwoman Field moved for the adoption of Ordinance No. 419. This motion was seconded by Councilman Sellers and carried unanimously.

ORDINANCE BOOK NO. 17 - PAGE 419

IV. UNFINISHED BUSINESS:

IV. UNFINISHED BUSINESS:

A. DISCUSSION REGARDING BRACKETTOWN ROAD AS IT RELATES TO THE ASHEVILLE MALL EXPANSION

City Attorney Oast said that on July 27, 1999, City Council voted to issue a conditional use permit for the Asheville Mall expansion, subject to staff preparing and coming back to City Council with some recommendations as to conditions. There was a shortage of some information for City Council to give staff appropriate direction regarding Brackettown Road. The purpose of this discussion is for staff to have that exchange of information with City Council about the information they have learned and to receive direction from City Council how they wish to proceed. This is not a final vote on the Brackettown Road matter because the final vote on the Brackettown Road condition, as well as all of the other conditions of the conditional use permit, will be made on August 24, 1999.

City Traffic Engineer Michael Moule said that at the conclusion of the public hearing on July 27, 1999, for the Asheville Mall Expansion, the City Council requested an evaluation of the impact of modifying the Mall's access to White Pine Drive.

The developer's traffic consultant submitted a Technical Memorandum that analyzed the following four possible scenarios: Scenario I, Full movement as it exists; Scenario II, Brackettown Road closed entirely; Scenario III, Brackettown Road inbound only; and Scenario IV, Brackettown Road outbound only. The estimation of the number and distribution of trips diverted to the remaining Mall accesses and the distribution of these trips among these accesses are reasonable based upon the available data. The number of trips diverted to other Mall accesses was overestimated slightly because no data was available for how much traffic from the adjacent restaurant and service station uses White Pine Drive. This means that the actual resulting levels of congestion from reconfiguring Brackettown Road will probably be a little bit less severe than the predictions from the Technical Memorandum.

Closing or altering the travel patterns on Brackettown Road forces vehicles to other accesses thereby putting increased traffic burden on these intersections. The Technical Memorandum includes diagrams that indicate significant increases due to these redistributed trips at the remaining three driveways and at the intersection of Tunnel Road and South Tunnel Road. The increases due to the closing of White Pine Drive are 3 to 5 times larger than the increases associated with the Mall Expansion. In addition, for the two Scenarios that include closing Brackettown Road to outbound traffic (Scenarios II and III), the redistributed exiting traffic includes high volumes of left turns, which are generally difficult to accommodate. The consultant used the traffic volumes shown on the diagrams then optimized the signal timing for the entire corridor for each Scenario.

The report concludes that the intersections within the corridor will operate at acceptable levels of service during the weekday afternoon peak hour for Scenarios II, III, and IV. This means that each intersection will have an overall level of service of A, B, C, or D; equivalent to an average delay per vehicle of less than 40 seconds. Under all three scenarios, several of the intersections will operate at level of service D, which is generally considered acceptable, but indicates higher delays than would occur if Brackettown Road remains unrestricted. During the Saturday peak hour, all three scenarios have at least one intersection that will operate at a level of service of E or F; levels which are generally considered unacceptable. This translates to an average delay per vehicle at these intersections of 40 seconds or more.

The following attempts to explain the problems that occur during the Saturday peak hour. The original proposal optimized the signals in the corridor by reducing the cycle length. He suggested that reduced cycle lengths are better at serving side streets and driveways, but may reduce the overall capacity of the road. The original traffic study predicted that during the Saturday peak, the intersection of Tunnel Road and South Tunnel Road would operate very near capacity, but with acceptable delay. When the large volumes of traffic diverted from Brackettown Road are added to this intersection, the volume of traffic exceeds its theoretical capacity. In order for this intersection to operate within its capacity, the consultant needed to increase the cycle lengths. This in turn means that the other Mall driveways are not served as often, thus reducing the level of service at these intersections. This problem is more severe under Scenarios II and III than Scenario IV. This is due to the major increase in left turn volumes at various locations created by the redistributed exiting traffic.

Other Factors: Closing or restricting Brackettown Road will allow residents of Kenilworth Forest to access their homes more conveniently, especially during the peak hour. However, this change will require that many other motorists, particularly those accessing the Mall from the Tunnel, will need to travel farther and experience increased delay at several intersections. In general, maintaining multiple connections eases traffic congestion in the long term, whether these connections are to a mall, to a neighborhood, or to a city's downtown.

After reviewing the report and the indicated levels of congestion throughout this corridor, staff recommends that full access (both ingress and egress) be maintained. All three options for restricting Mall access to White Pine Drive would increase congestion throughout the entire corridor. Of the alternatives for restricting Brackettown Road, the "outbound only" option causes the lowest level of congestion, but is still worse than maintaining full access. The original analysis showed that if a shorter cycle length is implemented in the corridor, the delays experienced while entering and exiting White Pine Drive will be shorter than the existing delays, even if the Mall expansion takes place.

Councilman Cloninger asked if it would help to change the design to be more perpendicular where the right hand island of Brackettown Road connects to White Pine Drive in order to discourage people from blocking the right turn lane when coming out of Brackettown Road trying to make a left onto Tunnel Road. Mr. Moule said that Brackettown Road was modified to have a 90-degree angle but there is a radius which creates the effect of not having a real sharp corner. He felt that reducing that radius might create a problem for trucks to make that turn. He personally felt that even with that change and the already existing sign that says "do not block intersection" on the stop sign, will not change the drivers' behavior.

Upon inquiry of Mayor Sitnick, Mr. Moule said that they can look into restricting trucks from coming out of Brackettown Road onto White Pine Drive.

Councilman Cloninger also asked if re-routing Brackettown Road where it enters White Pine Drive further away from the stop light on Tunnel Road would help. Mr. Moule recommended against moving Brackettown Road further away from the traffic light on Tunnel Road in that there is already an existing site distance problem coming over the crest of the hill on White Pine Drive.

Councilwoman Field suggested putting up a traffic light with a blinking yellow light on White Pine Road side and a blinking red light on the Brackettown Road side. Mr. Moule said that his observations are that drivers coming out of Brackettown Road are not coming to a complete stop, however, they do look up to the left and yield to traffic coming down White Pine Drive. He felt that, again, is a behavioral problem and putting up flashing beacons wouldn't help that situation because most people are aware they should stop there. He did say that a full analysis could be done to find out the appropriate speed to come over the crest of the hill on White Pine Drive since there is a perceived non-yielding from Brackettown Road.

Mayor Sitnick wondered if technology was available, similar to that on Merrimon Avenue, where red lights flash when the traffic signal ahead, over a hill, is red. Mr. Moule said that the technology is available and some sort of detection system could be put on Brackettown Road and then have some sort of warning beacons on White Pine Drive. He felt they would want to look into the site distance issue before something like that was installed. He said there are other ways to address the site distance issue, one of which is to put a stop sign on White Pine Drive.

Mayor Sitnick felt that the issues on Brackettown Road existed before the expansion was proposed and she really didn't think that addressing Brackettown Road, as it pertains to the expansion, is an accurate or an appropriate way to do it. She didn't think the expansion is going to have that much more of an impact on Brackettown Road. It may have more of an impact on

Tunnel Road, and because of that, she asked that, however Council votes on this in two weeks, perhaps we can find some reasonable time after the expansion is completed that we reassess whatever impact there is on Brackettown Road and White Pine Drive to be able to institute whatever technology we can so that there is convenience and safety for the neighborhood and for the Mall traffic.

Councilwoman Field asked if Council were to vote to have no traffic entering White Pine Drive from Brackettown Road, would the traffic light on Tunnel Road be removed because there were not be enough cars to warrant the light. Mr. Moule said the area would probably not meet the warrants after that, but there still would be traffic coming off the Exxon Station and the International House of Pancakes. He said it is difficult to predict what the N.C. Dept. of Transportation would do.

Councilman Cobb felt that the City needed to leave Brackettown Road as it currently exists, at this point. He is also convinced that the expansion will increase traffic at the intersection of Brackettown Road and White Pine Drive. He suggested moving the intersection back 50 feet, designing the intersection for a perfect "T", and adding a red light. The light could stay green for the Mall traffic until someone from the neighborhood of White Pine Drive triggers it.

Vice-Mayor Hay wondered if we will be making the storage problem worse on White Pine Drive if the new timing sequences along Tunnel Road are activated. Mr. Moule felt the new timing sequences should make the problems better and that the storage problems would be slightly less.

Upon inquiry of Councilman Cobb, Mr. Moule did not think that the N.C. Dept. of Transportation ("NC DOT") has any plans for a red light at the new Sears entrance. He said that already the spacing between the White Pine Drive signal and the South Tunnel Road signal is shorter than traffic engineers often like for these types of large roads. He felt the more appropriate treatment would be to not allow left turns out of that drive.

Mr. Phil Noblitt, 297 White Pine Drive, said that there is an access at the Sears Auto store and nothing in the study indicated any analysis of that entrance. He said that entrance is probably not more than 200 feet from White Pine Drive and he wished that would have been looked at as well. He would like to know how the traffic signals will be looped. He understands they will reallocate the signalization so that South Tunnel Road and Tunnel Road going toward Wal-Mart are separate. He hasn't gotten any clear indicated from either NC DOT or City staff as to whether White Pine Drive will be with the South Tunnel Road loop or whether it will be with the Wal-Mart loop. The only less than tolerable thresholds that he saw when he looked at the report was on Saturday peak hours. He said that convenience is an issue, but there is also very much a safety issue. He said he would be very disinclined to move Brackettown Road up the hill or to cut off White Pine Drive to lower it because that hillside serves as an effective buffer for noise. He noted that there is a 20% projected increase in turning movements coming off of Brackettown Road onto White Pine Drive. He also mentioned there is the social dimension of traffic that has not been addressed. He understands that traffic engineers want to inconvenience the least number of people, but at the same time, is it better to inconvenience some people occasionally or to inconvenience and put at risk the people from the neighborhood on a daily basis. He said that even though the Highway Capacity Manual suggests that Level D service is deemed acceptable, they do not consider it an acceptable level of service. The neighborhood is concerned about the cumulative impacts of the Lowe's superstore, etc. opening on Tunnel Road. He is very appreciative of City Council looking at Brackettown Road as it enters White Pine Drive and suggested the intersection (not only the centerline) be made a perfect "T". He reiterated that the Kenilworth Forest Community Club's motion passed unanimously to close Brackettown Road or making it one-way. He hoped City Council would try to do what they can to ameliorate the traffic into Brackettown Road and put some measure in that would let you analyze, after the fact, what the total impact has been. He hoped that this issue can resurface when it reaches an unacceptable condition.

Mayor Sitnick said that City Council would revisit any road where they saw safety was an issue.

Mr. Mike Lebovitz, Senior Vice President of CBL & Associates Properties, said that his company feels it is very important and critical for this project moving forward to understand the Council's feelings on the Brackettown Road issue, although he realizes that none of the conditions placed upon the Mall are final until the final vote on August 24. He stressed that the Brackettown Road entrance is of critical importance, not to the expansion of this project, but to the day-to-day viability of the Mall and the success of the Mall. The tax revenues that are generated from this Mall and the overall positive impact it has on the Asheville community is in a great way attributable to the ingress and egress of which Brackettown Road is important, irrespective of the expansion of the Mall. They, too, are concerned about the safety of the residents of the Kenilworth subdivision and they are also concerned about the safety of the patrons of the Mall.

Ms. Margaret Kubilins, the developer's traffic consultant, emphasized two issues - mobility and the efficiency of Tunnel Road. She felt the entire length of Tunnel Road will reap benefits from the shorter cycle lengths, as well as the community and the Kenilworth neighborhood. Regarding the issue of closing Brackettown Road, she participated in various community meetings and one issue that keeps being brought up is mobility and the ease of access to get around. She said that closing one more connection will not be going in the proper direction. She recommended that Council keep the connection as it is. They will work with the NC DOT to improving the access on White Pine Drive by modifying the signal timing.

City Manager Westbrook said that the kind of guidance that staff is looking for in this issue is whether or not whether Brackettown Road be closed, one-way, or left as is. The City's traffic engineer has recommended that it have full movement as it currently exists. The second issue is that Council and the community has concerns about traffic not coming to a full stop as they exit Brackettown Road. Perhaps the guidance to staff could be to work with the developer and the neighbors to come up with a solution on the exiting of the Mall problem, either through design, signal timing, visual indications, etc. that would work in that particular intersection. There may be even some combination of the suggestions made that may work very well, be cost effective and work great for the developer as well as for the neighborhood.

Mayor Sitnick wanted to make it clear to everyone involved that this Council is very concerned not only about the convenience and safety of Mall visitors, but of the convenience and safety of the neighborhood. It was her personal hope that this will not be a stagnant situation that Council makes a decision on in two weeks and leaves alone. She would like to see a review, at a reasonable time after the expansion occurs. Direction to staff will be to make this the very safest area as possible using whatever technology we can. She would also like staff to consider the possibility of limiting truck traffic on Brackettown Road. The points Councilman Cloninger mentioned about the way the right hand curve is configured on Brackettown Road going onto White Pine Drive needs to be reviewed. Council's direction is going to be for staff to work with the developers and the NC DOT to do whatever it takes to make that area safe - not only the intersection of Brackettown Road and White Pine Drive, but the whole road from the crest of the hill on White Pine Drive to the traffic light on Tunnel Road.

Upon inquiry of Councilwoman Field, Mr. Moule said that he did not have the information on the accident rate at the intersection of Brackettown Road and White Pine Drive.

City Attorney Oast said that it was his understanding the recommendation of the City's traffic engineer is that the two-way access on Brackettown Road be maintained and that measures be looked at to ensure that intersection remains as safe as possible or improvements be made to it to make it as safe as possible.

Mayor Sitnick added that any dialog that takes place amongst staff and the developers also include the neighborhood representatives so that they can be at the front-end of whatever is worked out and have the opportunity for input before decisions are made.

V. NEW BUSINESS:

A. MOTION GIVING STAFF DIRECTION REGARDING THE POTENTIAL EXTENSION OF THE CITY'S EXTRATERRITORIAL JURISDICTION INTO THE REYNOLDS MOUNTAIN AREA

Due to a conflict of interest, Vice-Mayor Hay moved to excuse Councilman Cloninger from participating in this issue. This motion was seconded by Councilwoman Field and carried unanimously.

Mr. Mike Matteson, Urban Planner, said that the Planning and Development Department staff is seeking direction from the City Council regarding the potential extension of the City's Extraterritorial Jurisdiction (ETJ) in the Reynolds Mountain area.

The Planning and Zoning Commission has directed the Planning and Development Department staff to pursue the extension of the City's ETJ in the Reynolds Mountain area - north of the City's corporate limits.

This request by the Commission resulted from the Commission's review of the proposed Reynolds Mountain Subdivision, a 174 lot single family subdivision to be located on Reynolds Mountain. Although the proposed subdivision is to be located almost entirely outside of the City's zoning jurisdiction, it is anticipated to have a significant impact on the City's infrastructure and the Lakeview Park neighborhood, through which one of the two access points to the subdivision is proposed.

The proposed ETJ extension would include a portion of the Reynolds Mountain Subdivision as well as additional properties to the north and east which are similar to Reynolds Mountain Subdivision in their potential for development and in the potential impact which future development may have on the City.

The Town of Woodfin is also exploring ETJ extension to include a portion of the subdivision. The Planning and Development Department staff has met with staff from the Town of Woodfin to develop a line of demarcation separating the proposed Town of Woodfin's ETJ from the potential City of Asheville's ETJ. This line of demarcation has been viewed favorably by the Town of Woodfin's Board of Aldermen. The proposed Subdivision will be developed in two phases. Phase I of the Subdivision would fall within the City and Phase II would fall within the Town of Woodfin.

By extending ETJ in this area, the City would gain the ability to anticipate, plan and manage future growth in this area.

Councilman Tomes moved to authorize City staff to investigate the extension of the City's ETJ into the Reynolds Mountain area with the general boundaries outlined by City staff. This motion was seconded by Councilwoman and carried unanimously.

VI. OTHER BUSINESS:

A. APPROVAL OF THE MINUTES OF THE REGULAR MEETING HELD ON JULY 27, 1999, AND THE WORKSESSION HELD ON AUGUST 3, 1999

Vice-Mayor Hay moved for the adoption of the minutes of the regular meeting held on July 27, 1999, and the worksession held on August 3, 1999. This motion was seconded by Councilman Cobb and carried unanimously.

B. CLAIMS

The following claims were received by the City of Asheville during the period of July 9-29, 1999: Marie Brackett (Sanitation), Thomas Jackson (Streets), Louise McAdams (Sanitation), Garland Brothers (Fire), BellSouth (Water), Mary Chambers (Police), Lloyd E. Cutshall (Water), Christine Craig (Parks & Recreation), American Home Patient (Water), Jamie L. Bolick (Water), Debra McDonald (Parks & Recreation), JoAnn Burdette (Water), Andrew Gayle (Parks & Recreation), Penny Beaird (Water) and Whatever Rents (Parks & Recreation).

The following claims were received by the City during the period of July 30-August 5, 1999: Eric Niwinski (Streets), Tammy Bradley (Streets), Rosemary Heffron (Sanitation), Carolyn Radford (Water) and Steve Banner (Streets).

These claims have been referred to Asheville Claims Corporation for investigation.

VII. INFORMAL DISCUSSION AND PUBLIC COMMENT:

Comments by Mr. Harold Payne regarding the Asheville Mall expansion and the Time Limit Policy for Speakers

Mr. Harold Payne, 299 White Pine Drive, commented on the traffic issues on White Pine Drive and Brackettown Road. He also felt that the time limit for speakers should be increased to five minutes.

Comments by Ms. June Lamb regarding the Time Limit Policy for Speakers

Ms. June Lamb recommended City staff speak distinctly so that the public can understand what is being said. She also felt the time limit for speakers should be increased to five minutes.

Comments by Mr. Phil Noblitt relative to the Asheville Mall Expansion

Mr. Phil Noblett said that City Council has gone a long way to accommodate the developer's interest, however, he urged City Council to keep in mind there are other issues on the table from the neighborhood.

VIII. ADJOURNMENT:

Mayor Sitnick adjourned the meeting at 7:25 p.m.

Magdalen Burleson
CITY CLERK

Leni Sitnick
MAYOR

Tuesday - August 17, 1999 - 3:00 p.m.

Worksession

Present: Vice-Mayor Edward C. Hay Jr.; Councilman M. Charles Cloninger; Councilman Earl Cobb; Councilwoman Barbara Field; Councilman Thomas G. Sellers; and Councilman O.T. Tomes; City Attorney Robert W. Oast Jr.; City Manager James L. Westbrook Jr.; and City Clerk Magdalen Burleson

Absent: Mayor Leni Sitnick

Councilman Sellers congratulated Fire Chief John Rukavina for being selected to be on a planning team with six other fire chiefs from amongst the United States in the development of a business plan for the U.S. Fire Administration and the National Fire Academy for the first year of the new millennium.

CONSENT AGENDA:

Budget Amendment for Non-Resident Fees

Summary: The consideration of a budget amendment, in the amount of $23,000, to appropriate expenditures for non-resident fees which have been collected for various Parks and Recreation programs.

Several years ago, City Council approved collecting non-resident fees for various Parks and Recreation services. These fees include services for classes, adult and youth sports, and various clubs that use Parks and Recreation facilities. The Parks and Recreation Department wishes to establish expenditure line items and appropriations in order to spend funds which have been collected. The revenue that has been collected is intended to be used for various capital projects of the department. It is the intent of staff to use these funds in conjunction with various public/private endeavors and other activities or improvements that will benefit the community.

The Parks and Recreation Department requests City Council approve the budget amendment to appropriate funding from revenue collected from non-resident fees totaling $23,000.

Budget Amendment Increasing Appropriations to the Water Capital Projects Fund to include a grant from the Clean Water Management Trust Fund for Watershed Protection Improvements in Mills River Valley.

Summary: The consideration of a budget amendment, in the amount of $589,000, to amend Capital Project Ordinance 82-25 (35 Fund) to provide funding for the Mills River Watershed Protection Project.

By Resolution 82-25 dated October 5, 1982, the Regional Water Authority authorized and budgeted for various capital projects to be funded by Investment Earnings, Contributions From Other Funds, and Appropriated Fund Balance.

Capital Project Ordinance 82-25 needs to be amended to provide funding for the Mills River Watershed Protection Project which will protect and improve water quality in the Mills River. This project will include replacing eight stream-side pesticide mixing stations with state-of-the-art agrichemical handling facilities located outside of the floodplain, restoring 41,000 feet of riparian buffer in degraded areas along the Mills River, stabilizing 2.6 acres of streambank using bio-engineering methods, controlling erosion and sedimentation in the Wash Creek watershed, and developing a long-term watershed protection management strategy.

On December 1, 1998, the Regional Water Authority, on behalf of the Mills River Partnership, requested funding from the NC Clean Water Management Trust Fund (NC CWMTF) for the Mills River Watershed Protection Project. Funding of $541,000 was approved by the NC CWMTF on April 12, 1999. The Regional Water Authority will provide matching funds of $100,718 with $33,000 budgeted in 1998/1999, $33,000 budgeted in 1999/2000 and $34,718 budgeted in 2000/2001. The City of Hendersonville will provide $15,000 in matching funds.

Revenues will be increased as follows: $541,000 for NC CWMTF Grant, $33,000 for the Authority's 1999/2000 contribution of matching funds, and $15,000 for Hendersonville's matching funds. The appropriation for the Mills River Watershed Protection Project will increase from $33,000 to $622,000.

Staff recommends approval of the budget amendment amending Capital Project Ordinance 82-25 to provide funding for the Mills River Watershed Protection Project for FY 1999/2000.

Resolution Authorizing a Grant Agreement between the Regional Water Authority and the Clean Water Management Trust Fund for Watershed Protection Measures in Mills River Valley

Summary: The consideration of a resolution authorizing the Chairman of the Regional Water Authority to execute a Grant Agreement with the North Carolina Clean Water Management Trust Fund for the Mills River Watershed Protection Project in the amount of $541,000 to replace pesticide mixing stations and restore riparian buffers on the Mills River and its tributaries.

On December 1, 1999, the Regional Water Authority, on behalf of the Mills River Partnership, requested funding from the NC Clean Water Management Trust Fund (NC CWMTF) for a two-year comprehensive project to preserve and improve water quality in the Mills River watershed. The NC CWMTF approved funding of $730,000 on April 12, 1999, for the following elements of the Mills River Watershed Protection Project:

- Replace eight stream-side pesticide mixing stations with USDA-approved agrichemical handling facilities (AHF's) located outside of the floodplain;
- Preserve approximately 50 acres of existing riparian buffer through a combination of purchased and donated conservation easements;
- Re-vegetate or widen 41,000 feet of riparian buffer in degraded areas along the Mills River and its two forks;
- Stabilize 2.6 acres of streambank using bio-engineering methods;
- Control erosion and sedimentation in the Wash Creek watershed by stabilizing 22 camp sites and installing sedimentation control measures along six miles of road; and
- Develop a long-term watershed protection management strategy.

The grant agreement between the Authority and the NC CWMTF will include all of the projects except the preservation of 50 acres of riparian buffers through purchased or donated easements. The total funding provided for the projects being administered by the Authority is $541,000. The preservation of riparian buffers will require a separate grant agreement between the NC CWMTF and the Carolina Mountain Land Conservancy (CMLC) in the amount of $189,000.

The Regional Water Authority will provide $100,718 in matching funds and $30,972 in in-kind services. The City of Hendersonville will provide a match of $15,000 for the replacement of the mixing stations and the Carolina Mountain Land Conservancy will provide $2,400 in in-kind services for management costs related to the preservation of riparian buffers.

The purpose of this project is to restore water quality in the lower Mills River and Wash Creek while maintaining the outstanding quality of the other streams in the watershed. The grant agreement will be approved as to form by the Authority's counsel before the Grant Agreement is executed.

Staff recommends approval of a resolution authorizing the Regional Water Authority to execute a Grant Agreement in the amount of $541,000 with the North Carolina Clean Water Management Trust Fund

Resolution Authorizing a Contribution Agreement between Regional Water Authority and Natural Resources Conservation Service for design of Agrichemical Handling Facilities for Mixing of Pesticides at Eight Farm Locations in Henderson County

Summary: The consideration of a resolution authorizing the Regional Water Authority to execute a contract with the Natural Resources Conservation Service to complete the final design of Agrichemical Handling Facilities for eight farms in the Mills River valley as required by a grant from the Clean Water Management Trust Fund.

The Regional Water Authority was awarded a grant by the Clean Water Management Trust Fund in March 1999 to make improvements to watershed land management practices to protect the quality of water in the Mills River. A major component of this grant was the award of $329,157 from the Trust Fund, matched by an additional $99,000 from the City's Water Fund and $15,000 from the City of Hendersonville, to relocate the practice of pesticide mixing at up to eight locations from near the streambank to state-of-the-art facilities outside the floodplain.

The grant application and grant award provides for funding disbursements and management and construction practices to be handled as currently provided through the Agricultural Cost-Share program. Further, the state-of-the-art agrichemical handling facilities (AHF) are to conform to the standard design developed by the Natural Resources Conservation Service (NRCS) and Henderson County Soil & Water Conservation District (HSWCD). Through discussions with the HSWCD staff, the Water Resources Department staff have been able to obtain a commitment for engineering to complete the final design of these facilities through registered engineers of the NRCS staff. This has an advantage since NRCS engineers are already very familiar with the AHF standard design, and specific site requirements, and are experienced in working with farmers and agricultural practices. NRCS is an agency of the U S Department of Agriculture.

The contract is called a Contribution Agreement and calls for the complete design, including flood elevation surveying, site plan, grading plan, piping plan, layout, and detailed construction specifications for eight locations, to be completed not later than January 1, 2000 at a fee not to exceed $21,943.00.

Staff recommends the adoption of the resolution authorizing the Regional Water Authority to execute a Contribution Agreement with the Natural Resources Conservation Service.

Lake Craig and Azalea Road Park Survey Contract and Feasibility Study

Summary: The consideration of a resolution authorizing the City Manager to enter into a contract with MA Engineering Consultants, Inc., for a survey and feasibility study of the Lake Craig and Azalea Road Park.

This property was identified as a potential recreation and public works resource though task teams initiated by the Parks and Recreation and Public Works Departments. These teams combined and developed a consolidated, conceptual program of recreational (soccer fields, gymnasium complex, ballfields, greenway trails, etc.) and public works facilities (beneficial fill, eco-park, composting, etc.).

Within the conceptual recreational program, partnerships were solidified with Western North Carolina Soccer Foundation, Western North Carolina Youth Sports Complex Foundation, and RiverLink to maximize recreational needs and funding opportunities.

With these organizational efforts in place, City Council directed staff to proceed with the land acquisition process. Consequently, a request for qualifications was sent for the initial phase which entailed a property survey. Staff from Parks and Recreation, Public Works and Engineering Departments followed city procedures and selected MA Engineering Consultants, Inc. as the top firm. A comprehensive boundary and topographic survey will be the scope of service provided by the consultant for $85,173.00 (boundary survey $34,980.00, topographic survey $40,185.00, wetland delineation $10,008.00) for this 150 acre tract. In addition, staff is currently discussing with this consultant, an exact scope of work and cost estimate for a feasibility study of the entire project, which includes the needs of the Public Works and Parks and Recreation Departments.

The Parks and Recreation Department recommends that authorization be given to the City Manager to enter into a contract with MA Engineering Consultants, Inc. for the boundary and topographical survey for Lake Craig and Azalea Road Park and to enter into a change order agreement for a feasibility study if deemed necessary by staff.

Vice-Mayor Hay asked that the record show that City Council has received this information and instructs the City Manager to place these items on the next formal City Council agenda.

ANNUAL REPORT ON THE MINORITY BUSINESS PROGRAM

Ms. Mamie Scott, Director of the Office of Minority Affairs, reviewed with City Council the annual report on the Minority Business Program. She explained that this report was prepared pursuant to the Minority Business Plan adopted in May of 1998. Not only does it contain an assessment of the City and County goal attainment and the factors involved in that assessment, but gives information on strategies used to implement the Minority Business Plan. They are encouraged in knowing that they have the support of the Mayor, Council and City staff as we work smarter to increase minority participation. By preparing this report, they have learned that it is imperative that we all take responsibility and intentionally get involved with identifying and recruiting ethnic and women owned businesses in our community to be certified with the Minority Affairs Office. They have also been made aware of areas in which minority owned businesses can participate. This report has been reviewed by the Minority Business Commission.

Ms. Scott then answered various questions from City Council, some being, but are not limited to: how the goals were established; are complaints from the certified minority businesses investigated; why aren't more minority businesses bidding on projects; and how many minority businesses are certified.

Upon inquiry of Councilwoman Field, Finance Director Bill Schaefer said that he would provide a breakdown of the $44 Million City expenditures.

Councilman Tomes felt there is still room for tremendous improvement and hopefully as we look into the future, we will see evidence of that improvement. He also felt that there is an ethical and moral obligation for major and significant contractors to educate them to mentor and nurture people.

Ms. Vickie Gaddy, certified minority owned business owner and member of the Minority Business Commission, spoke in support of the work of the Minority Affairs Office staff.

ANNEXATION STUDY

Mr. Doug Spell, Assistant City Manager, said that on January 12, 1999, City Council members attended a "Tour of Urban Areas" in an effort to see development patterns in areas adjacent to our corporate limits. At the City Council Retreat on January 29, 1999, Mr. Richard Flowe with Benchmark, Inc. presented to City Council "Levels of Priority" to be utilized in assessing potential annexation areas. These levels of priority consisted of the following:

1. Clean up small service inequities;
2. Look at economic base diversification;
3. Address residential areas that lie immediately outside the city limits that have full infrastructure services;
4. Look at residential areas that lie immediately outside the city limits that don't have complete urban area infrastructure;
5. Focus on a balance of areas among these areas for future growth opportunities.

With these levels of priority, City Council authorized the consultant to proceed to identify areas for potential annexation and to present recommendations based upon these priorities.

Benchmark Inc. has prepared a list of areas for consideration as a part of the City's first phase of areas for consideration of annexation. The areas addressed as a part of this first phase were primarily identified based upon the priority of cleaning up service inequities based upon properties that currently have various infrastructure services.

Staff is seeking direction from City Council and would recommend that following the presentation on these areas that Council instruct staff to proceed working with the consultant on preparing the "Plan of Services Report" which is required as part of the annexation process. The Plan of Services Report will identify the boundaries of the properties proposed for annexation and will also identify any service costs or improvements necessary as a part of the annexation process. Upon completion of the Plan of Services Report, a Resolution of Intent would be presented to City Council for consideration of adoption. It should be noted that any proposed annexation as a part of this recommendation would not become effective prior to July 1, 2001.

One other task which is a part of the consultant's Scope of Work for the Annexation Study is to come back to the City in the future with an Annexation Plan. The Annexation Plan will identify specific areas and provide a general time frame for future consideration of annexation based upon the Levels of Priority which Council directed the consultant use in developing the Annexation Plan.

By use of a map, Mr. Richard Flowe identified the areas recommended as part of the first phase annexation. He explained that the areas to be considered in the first round of annexations are largely urbanized, are in close proximity to the present City limits, have significant urban infrastructure services, have significant existing non-residential growth, and are located among important strategic growth categories. Annexation of these areas will address service inefficiencies and inequities without significant budgetary impacts.

The following first group areas are recommended for consideration within the first one to two years:

Area A - This compact area would close a services gap along I-240, east of downtown. The area includes the Coleman Office Park and the Asheville Apostolic Church.

Area B - This compact area would extend the City limits eastward, along the north side of US 70, to encompass a portion of the Blue Ridge Parkway. It includes the Veterans Administration Medical Center, some apartment complexes, an assisted living residence, and a few moderate houses.

Area C - This area would extend the City limits westward along Long Shoals Road. It contains the Carolina Power & Light property, some commercial uses, Valley Springs Middle School, a park, and a large apartment complex with 1,100 residents called "The Forest". The boundary of this area is extended along the right-of-way of I-26 to connect the Airport to the primary corporate limits.

Area D - This compact, commercial area would extend the City limits southward along I-26 and Brevard Road. This area primarily consists of the Ridgefield Business Center and Biltmore Square Plaza.

Area E - This very compact area, which would close a service gap along Leicester Highway, includes a well drilling business, a convenience store, and a manufactured home sales lot.

Each area has a different history behind its development resulting in varying densities, growth patters, vacancies, street designs, property valuations, incomes, and other characteristics. These factors all affect the decisions to annex by influencing the benefit versus cost considerations.

The information below illustrates the general data for each of the first group areas:

	Predominate Land Use	Acreage	Population	Tax Value
A	Commercial	140	0	1,839,700
B	Institutional, Residential	200	550	8,202,000
C	Residential, Industrial	1,310	1,150	38,655,400*
D	Commercial	185	0	77,991,800
E	Commercial	10	0	932,300
Totals		1,745 (2.73 sq. mi.)	1,650	$127,621,200*

* The tax value of Area C does not include the Carolina Power & Light tax valuation assigned by the State of North Carolina which was not available at this time.

Upon inquiry of Councilwoman Field, Mr. Flowe said that these combined areas represent approximately 15% or less single family dwellings. He also said that 75% of these areas deal with service inequities.

Mr. Flowe then briefly explained the process that will need to be followed, noting that the first formal action of Council should take place sometime this winter with final adoption of the ordinance near the end of May or first of June, 2000.

Councilwoman Field asked if the Council could add or delete areas from the Plan during the process. Mr. Flowe explained that Council can make reductions or minor modifications to the Plan for Services, however, if after the public hearing a different approach is recommended, he would recommend at least another public hearing be held so that everyone had an opportunity to see the revised plan.

City Manager Westbrook said that several years ago the VA Medical Center asked to be annexed and City staff recommended that annexation as well. However, the City Council seated at that time chose not to annex them. It was his understanding they are still interested in being annexed, noting that the City has a contract with the VA Medical Center to provide fire service.

City Manager Westbrook said that there was an agreement with Carolina Power & Light Company several years ago on past utility franchise taxes, and even though it's not explicitly stated in the agreement, having talked with former Mayor Martin and some Council members seated at that time, annexation was anticipated within the year and that did not take place.

At the request of Councilman Field, Mr. Flowe said that he would find out how many acres of Area C is water.

After a brief discussion, it was the consensus of City Council to add an additional Area F to the first round of annexations. Area F is to include the hotels (and properties that make sense) at the interchange by the Biltmore Square Mall exit. Vice-Mayor Hay felt it would be a competitive disadvantage to the hotel having to pay higher taxes against the one that doesn't.

Upon inquiry of Councilwoman Field, Mr. Flowe explained that if any voluntary annexation petitions are received, they should be looked at on a case by case basis to determine whether they do or do not affect the strategies planned.

City Manager Westbrook said that anyone having questions about this annexation should be referred to Planning & Development Director Scott Shuford or Assistant City Manager Doug Spell.

It was the consensus of City Council to direct the City Manager to proceed with the preparation of a Plan of Services Report for Areas A-E to be considered for future annexation, including the addition of Area F.

UPDATE ON THE PUBLIC ACCESS PROCESS

Councilman Tomes said that the cable franchise agreement adopted by City Council designates three initial access channels to be used for public, educational and/or governmental programming.

Last November Council discussed several possible ways to organize these channels. The governmental and educational channels were established first because they were less involved and could be on-the-air quickly. It is now time to concentrate on the public access channel.

City Council requested that staff prepare a Request for Proposal (RFP) for proposal soliciting non-profit organizations to run the public access channel. Council also decided to appoint a Public Access Channel Commission following the section of this non-profit organization.

Staff has prepared an RFP that has been reviewed by the City Manager's Office, the Legal Division, Buncombe County and members of the community. Changes were made to the document based on suggestions presented from these different sources.

Staff has also prepared an ordinance establishing the Public Access Channel Commission. This Commission will set policy and oversee the management of the public access channel.

Ms. Robin Westbrook , Public and Community Information Officer, reiterated that this is the consideration of authorizing staff to proceed with the issuance of the RFP for managing the public access channel and the establishment of the Public Access Channel Commission.

In June, a letter was sent to all individuals and organizations that had spoken in favor of public access during previous public hearings announcing that the draft document was available for public comment. A total of five draft documents were picked up for review and comments were received by three individuals. These comments have been included in the RFP.

The RFP will be advertised beginning on Sunday, August 29, 1999. The deadline for submitting proposals will be Friday, October 1, 1999.

Staff requests that City Council approve issuance of the Request for Proposal. Staff further requests that City Council approve the ordinance establishing a Public Access Channel Commission in the near future.

Upon inquiry of Councilman Cobb, Ms. Westbrook said that they have received about 6-12 inquiries about what will be involved in the RFP process.

Mr. Jack Fobes said that he was in total opposition to the proposal.

Ms. Patsy Meldrum, Assistant City Attorney, reviewed with City Council the several possible ways in which to organize this channel.

Ms. Westbrook said that the comments she has heard are not about the content of the RFP, but the process.

Vice-Mayor Hay asked that the record show that City Council has received this information and instructs the City Manager to place this item on the next formal City Council agenda.

REPORTS ON BOARDS/COMMISSIONS

Vice-Mayor Hay, Chairman of the City Council Boards/Commissions Committee, said that the Committee recommends reappointment of Lionel Williams and Max Haner to the Planning & Zoning Commission and interview for the vacancy left by Jane Mathews; interview for the vacancy left by Randy Fluharty on the Tourism Development Authority; reappoint Charles Worley to the Regional Water Authority; and wait until the next quarterly appointment process on a vacancy on the Tree/Greenway Commission.

BUNCOMBE COUNTY ZONING

At the request of Councilman Cobb, it was the consensus of City Council to instruct the City Manager to coordinate with the Buncombe County Manager a worksession date for City Council to be updated on the County's proposed land use plan. City Council felt the worksession is important to educate the City residents in that they have a stake in the outcome of the zoning in that they can vote on the issue.

ADJOURNMENT:

Vice-Mayor Hay adjourned the meeting at 4:34 p.m.

Magdalen Burleson
CITY CLERK

Leni Sitnick
MAYOR

Tuesday - August 24, 1999 - 5:00 p.m.

Regular Meeting

Present: Mayor Leni Sitnick, Presiding; Vice-Mayor Edward C. Hay Jr.; Councilman M. Charles Cloninger; Councilman Earl Cobb; Councilwoman Barbara Field; Councilman Thomas G. Sellers; and Councilman O.T. Tomes; City Attorney Robert W. Oast Jr.; City Manager James L. Westbrook Jr.; and City Clerk Magdalen Burleson

Absent: None

INVOCATION

Councilman Cobb gave the invocation.

I. PROCLAMATIONS:

A. PROCLAMATION PROCLAIMING FRIDAY, AUGUST 27 - SUNDAY, AUGUST 29, 1999, AS "GOOMBAY! FESTIVAL DAYS" IN THE CITY OF ASHEVILLE

Mayor Sitnick read the proclamation proclaiming Friday, August 27 - Sunday, August 29, 1999, as "Goombay! Festival Days" in the City of Asheville. She presented the proclamation to Ms. Oralene Simmons, who briefed City Council on some activities taking place during the Festival.

B. PROCLAMATION PROCLAIMING SEPTEMBER 13, 1999, AS "FREDERICK LAW OLMSTED DAY" IN THE CITY OF ASHEVILLE

Vice-Mayor Hay read the proclamation proclaiming Monday, September 13, 1999, as "Frederick Law Olsmsted Day" in the City of Asheville and explained the significance of the new postage stamp honoring Mr. Olmsted. He presented the proclamation to Mr. Bruce Ballard.

II. CONSENT AGENDA:

A. ORDINANCE NO. 2600 - BUDGET AMENDMENT TO APPROPRIATE EXPENDITURES FOR NON-RESIDENT FEES WHICH HAVE BEEN COLLECTED FOR VARIOUS PARKS AND RECREATION PROGRAMS

Summary: The consideration of a budget amendment, in the amount of $23,000, to appropriate expenditures for non-resident fees which have been collected for various Parks and Recreation programs.

Several years ago, City Council approved collecting non-resident fees for various Parks and Recreation services. These fees include services for classes, adult and youth sports, and various clubs that use Parks and Recreation facilities. The Parks and Recreation Department wishes to establish expenditure line items and appropriations in order to spend funds which have been collected. The revenue that has been collected is intended to be used for various capital projects of the department. It is the intent of staff to use these funds in conjunction with various public/private endeavors and other activities or improvements that will benefit the community.

The Parks and Recreation Department requests City Council approve the budget amendment to appropriate funding from revenue collected from non-resident fees totaling $23,000.

ORDINANCE BOOK NO. 17 - PAGE 426

B. RESOLUTION NO. 99-120 - RESOLUTION MODIFYING THE SCHEDULE OF THE CITY COUNCIL MEETINGS TO CANCEL THE AUGUST 31, 1999, CITY COUNCIL COMMUNITY MEETING

RESOLUTION BOOK NO. 25 - PAGE 276

C. ORDINANCE NO. 2601 - BUDGET AMENDMENT TO INCREASE APPROPRIATIONS TO THE WATER CAPITAL PROJECTS FUND TO INCLUDE A GRANT FROM THE CLEAN WATER MANAGEMENT TRUST FUND FOR WATERSHED PROTECTION IMPROVEMENTS IN MILLS RIVER VALLEY

Summary: The consideration of a budget amendment, in the amount of $589,000, to amend Capital Project Ordinance 82-25 (35 Fund) to provide funding for the Mills River Watershed Protection Project.

By Resolution 82-25 dated October 5, 1982, the Regional Water Authority authorized and budgeted for various capital projects to be funded by Investment Earnings, Contributions From Other Funds, and Appropriated Fund Balance.

Capital Project Ordinance 82-25 needs to be amended to provide funding for the Mills River Watershed Protection Project which will protect and improve water quality in the Mills River. This project will include replacing eight stream-side pesticide mixing stations with state-of-the-art agrichemical handling facilities located outside of the floodplain, restoring 41,000 feet of riparian buffer in degraded areas along the Mills River, stabilizing 2.6 acres of streambank using bio-engineering methods, controlling erosion and sedimentation in the Wash Creek watershed, and developing a long-term watershed protection management strategy.

On December 1, 1998, the Regional Water Authority, on behalf of the Mills River Partnership, requested funding from the NC Clean Water Management Trust Fund (NC CWMTF) for the Mills River Watershed Protection Project. Funding of $541,000 was approved by the NC CWMTF on April 12, 1999. The Regional Water Authority will provide matching funds of $100,718 with $33,000 budgeted in 1998/1999, $33,000 budgeted in 1999/2000 and $34,718 budgeted in 2000/2001. The City of Hendersonville will provide $15,000 in matching funds.

Revenues will be increased as follows: $541,000 for NC CWMTF Grant, $33,000 for the Authority's 1999/2000 contribution of matching funds, and $15,000 for Hendersonville's matching funds. The appropriation for the Mills River Watershed Protection Project will increase from $33,000 to $622,000.

Staff recommends approval of the budget amendment amending Capital Project Ordinance 82-25 to provide funding for the Mills River Watershed Protection Project for FY 1999/2000.

ORDINANCE BOOK NO. 17 - PAGE 428

D. RESOLUTION NO. 99-121 - RESOLUTION AUTHORIZING A GRANT AGREEMENT BETWEEN THE REGIONAL WATER AUTHORITY AND THE CLEAN WATER MANAGEMENT TRUST FUND FOR WATERSHED PROTECTION MEASURES IN MILLS RIVER VALLEY

Summary: The consideration of a resolution authorizing the Chairman of the Regional Water Authority to execute a Grant Agreement with the North Carolina Clean Water

Management Trust Fund for the Mills River Watershed Protection Project in the amount of $541,000 to replace pesticide mixing stations and restore riparian buffers on the Mills River and its tributaries.

On December 1, 1999, the Regional Water Authority, on behalf of the Mills River Partnership, requested funding from the NC Clean Water Management Trust Fund (NC CWMTF) for a two-year comprehensive project to preserve and improve water quality in the Mills River watershed. The NC CWMTF approved funding of $730,000 on April 12, 1999, for the following elements of the Mills River Watershed Protection Project:

- Replace eight stream-side pesticide mixing stations with USDA-approved agrichemical handling facilities (AHF's) located outside of the floodplain;
- Preserve approximately 50 acres of existing riparian buffer through a combination of purchased and donated conservation easements;
- Re-vegetate or widen 41,000 feet of riparian buffer in degraded areas along the Mills River and its two forks;
- Stabilize 2.6 acres of streambank using bio-engineering methods;
- Control erosion and sedimentation in the Wash Creek watershed by stabilizing 22 camp sites and installing sedimentation control measures along six miles of road; and
- Develop a long-term watershed protection management strategy.

The grant agreement between the Authority and the NC CWMTF will include all of the projects except the preservation of 50 acres of riparian buffers through purchased or donated easements. The total funding provided for the projects being administered by the Authority is $541,000. The preservation of riparian buffers will require a separate grant agreement between the NC CWMTF and the Carolina Mountain Land Conservancy (CMLC) in the amount of $189,000.

The Regional Water Authority will provide $100,718 in matching funds and $30,972 in in-kind services. The City of Hendersonville will provide a match of $15,000 for the replacement of the mixing stations and the Carolina Mountain Land Conservancy will provide $2,400 in in-kind services for management costs related to the preservation of riparian buffers.

The purpose of this project is to restore water quality in the lower Mills River and Wash Creek while maintaining the outstanding quality of the other streams in the watershed. The grant agreement will be approved as to form by the Authority's counsel before the Grant Agreement is executed.

Staff recommends approval of a resolution authorizing the Regional Water Authority to execute a Grant Agreement in the amount of $541,000 with the North Carolina Clean Water Management Trust Fund

RESOLUTION BOOK NO. 25 - PAGE 277

E. RESOLUTION NO. 99-122 - RESOLUTION AUTHORIZING A CONTRIBUTION AGREEMENT BETWEEN THE REGIONAL WATER AUTHORITY AND NATURAL RESOURCES CONSERVATION SERVICE FOR DESIGN OF AGRICHEMICAL HANDLING FACILITIES FOR MIXING OF PESTICIDES AT EIGHT FARM LOCATIONS IN HENDERSON COUNTY

Summary: The consideration of a resolution authorizing the Regional Water Authority to execute a contract with the Natural Resources Conservation Service to complete the final design of Agrichemical Handling Facilities for eight farms in the Mills River valley as required by a grant from the Clean Water Management Trust Fund.

The Regional Water Authority was awarded a grant by the Clean Water Management Trust Fund in March 1999 to make improvements to watershed land management practices to protect the quality of water in the Mills River. A major component of this grant was the award of $329,157 from the Trust Fund, matched by an additional $99,000 from the City's Water Fund and $15,000 from the City of Hendersonville, to relocate the practice of pesticide mixing at up to eight locations from near the streambank to state-of-the-art facilities outside the floodplain.

The grant application and grant award provides for funding disbursements and management and construction practices to be handled as currently provided through the Agricultural Cost-Share program. Further, the state-of-the-art agrichemical handling facilities (AHF) are to conform to the standard design developed by the Natural Resources Conservation Service (NRCS) and Henderson County Soil & Water Conservation District (HSWCD). Through discussions with the HSWCD staff, the Water Resources Department staff have been able to obtain a commitment for engineering to complete the final design of these facilities through registered engineers of the NRCS staff. This has an advantage since NRCS engineers are already very familiar with the AHF standard design, and specific site requirements, and are experienced in working with farmers and agricultural practices. NRCS is an agency of the U S Department of Agriculture.

The contract is called a Contribution Agreement and calls for the complete design, including flood elevation surveying, site plan, grading plan, piping plan, layout, and detailed construction specifications for eight locations, to be completed not later than January 1, 2000 at a fee not to exceed $21,943.00.

Staff recommends the adoption of the resolution authorizing the Regional Water Authority to execute a Contribution Agreement with the Natural Resources Conservation Service.

RESOLUTION BOOK NO. 25 - PAGE 278

F. RESOLUTION NO. 99-123 - RESOLUTION AUTHORIZING THE CITY MANAGER TO ENTER INTO A CONTRACT WITH MA ENGINEERING CONSULTANTS INC. FOR A SURVEY AND FEASIBILITY STUDY OF THE LAKE CRAIG AND AZALEA ROAD PARK

Summary: The consideration of a resolution authorizing the City Manager to enter into a contract with MA Engineering Consultants, Inc., for a survey and feasibility study of the Lake Craig and Azalea Road Park.

This property was identified as a potential recreation and public works resource though task teams initiated by the Parks and Recreation and Public Works Departments. These teams combined and developed a consolidated, conceptual program of recreational (soccer fields, gymnasium complex, ballfields, greenway trails, etc.) and public works facilities (beneficial fill, eco-park, composting, etc.). Within the conceptual recreational program, partnerships were solidified with Western North Carolina Soccer Foundation, Western North Carolina Youth Sports Complex Foundation, and RiverLink to maximize recreational needs and funding opportunities.

With these organizational efforts in place, City Council directed staff to proceed with the land acquisition process. Consequently, a request for qualifications was sent for the initial phase which entailed a property survey. Staff from Parks and Recreation, Public Works and Engineering Departments followed city procedures and selected MA Engineering Consultants, Inc. (from Raleigh, N.C.) as the top firm. A comprehensive boundary and topographic survey will be the scope of service provided by the consultant for $85,173 (boundary survey $34,980, topographic survey $40,185, wetland delineation $10,008) for this 150 acre tract. In addition, staff is currently discussing with this consultant, an exact scope of work and cost estimate for a feasibility study of the entire project, which includes the needs of the Public Works and Parks and Recreation Departments.

The Parks and Recreation Department recommends that authorization be given to the City Manager to enter into a contract with MA Engineering Consultants, Inc. for the boundary and topographical survey for Lake Craig and Azalea Road Park and to enter into a change order agreement for a feasibility study if deemed necessary by staff.

RESOLUTION BOOK NO. 25 - PAGE 279

G. RESOLUTION NO. 99-124 - RESOLUTION MAKING PROVISIONS FOR THE POSSESSION AND CONSUMPTION OF MALT BEVERAGES AND/OR UNFORTIFIED WINE AT THE 1999 GOOMBAY! FESTIVAL

Summary: The consideration of a resolution to allow alcoholic beverages on August 27-29, 1999, at the 1999 Goombay! Festival which will be held on August 27-29, 1999, within the area known as City/County Plaza, S. Market Street, Eagle Street, Spruce Street, Wilson Alley, and Beaumont Street.

N.C. Gen. Stat. sec. 18B-300(c) authorizes the City by ordinance to regulate or prohibit the consumption and/or possession of open containers of malt beverages and unfortified wine on public streets, and on property owned, occupied or controlled by the City. The City Council of the City of Asheville has adopted an ordinance pursuant to that statutory authority. That ordinance, Section 11-11 in the Code of Ordinances, provides that the City Council may adopt a resolution making other provisions at a special event or community festival. The 1999 Goombay! Festival Board, YMI Cultural Center and the Parks and Recreation Department recommends that possession and consumption of malt beverages and/or unfortified wine be allowed at the 1999 Goombay! Festival.

The Parks and Recreation Department recommends that City Council adopt the resolution allowing the possession and consumption of malt beverages and/or unfortified wine at the 1999 Goombay! Festival to include the areas as described in the resolution.

RESOLUTION BOOK NO. 25 - PAGE 280

Mayor Sitnick said that members of Council have been previously furnished with a copy of the resolutions and ordinances and the Consent Agenda and they would not be read.

Councilman Sellers moved for the adoption of the Consent Agenda. This motion was seconded by Councilman Tomes and carried unanimously.

III. PUBLIC HEARINGS:

A. PUBLIC HEARING RELATIVE TO THE VOLUNTARY ANNEXATION OF A NON-CONTIGUOUS AREA LOCATED ON SWEETEN CREEK ROAD AND PEACH TREE STREET KNOWN AS ROYAL PINES POOL AND PARK PROPERTIES

ORDINANCE NO. 2602 - ORDINANCE EXTENDING THE CORPORATE LIMITS OF THE CITY OF ASHEVILLE BY ANNEXING A NON-CONTIGUOUS AREA LOCATED ON SWEETEN CREEK ROAD AND PEACH TREE STREET KNOWN AS ROYAL PINES POOL AND PARK PROPERTIES

Mayor Sitnick opened the public hearing at 5:12 p.m.

Mr. Paul Benson, Urban Planner, said that this is the consideration of an ordinance extending the corporate limits of the City of Asheville by annexing a non-contiguous area located on Sweeten Creek Road and Peach Tree Street known as Royal Pines Pool and Park properties. This public hearing was legally advertised on August 13, 1999.

The Trust for Public Land, owner of the Royal Pines Pool and Park, has submitted an annexation petition for the property on which the pool and park are located.

This area is located within three miles of the City's corporate limits. The property is located west of Sweeten Creek Road (US 25A). The total acreage is 5.5 acres. The effective date of this annexation is August 24, 1999.

Planning staff recommends City Council adopt the ordinance extending the corporate limits of the City of Asheville by annexing a non-contiguous area located on Sweeten Creek Road and Peach Tree Street known as Royal Pines Pool and Park properties.

Mayor Sitnick closed the public hearing at 5:15 p.m.

Mayor Sitnick said that members of Council have previously received a copy of the ordinance and it would not be read.

Councilwoman Field moved for the adoption of Ordinance No. 2602. This motion was seconded by Councilman Sellers and carried unanimously.

ORDINANCE BOOK NO. 17 - PAGE 430

B. PUBLIC HEARING RELATIVE TO THE VOLUNTARY ANNEXATION OF PROPERTY LOCATED OFF OF HENDERSONVILLE ROAD AND KNOWN AS DEERFIELD EPISCOPAL RETIREMENT COMMUNITY INC.

ORDINANCE NO. 2603 - ORDINANCE EXTENDING THE CORPORATE LIMITS OF THE CITY OF ASHEVILLE BY ANNEXING A CONTIGUOUS AREA CONTAINING 24.635 ACRES LOCATED OFF OF HENDERSONVILLE ROAD AND KNOWN AS DEERFIELD EPISCOPAL RETIREMENT COMMUNITY INC.

Mayor Sitnick opened the public hearing at 5:16 p.m.

Mr. Paul Benson, Urban Planner, said that this is the consideration of an ordinance extending the corporate limits of the City of Asheville by annexing a contiguous area containing 24.635 acres located off of Hendersonville Road and known as Deerfield Episcopal Retirement Community, Inc. This public hearing was legally advertised on August 13, 1999.

Deerfield Episcopal Retirement Community, Inc. has submitted an annexation petition for an area of 24.635 acres currently under development for the expansion of the retirement community. The effective date of this annexation is August 24, 1999.

This area is located adjacent to the established section of the Deerfield Episcopal Retirement Community which is within the City's corporate limits. The property is located west of Hendersonville Road (US 25).

Planning staff recommends City Council adopt the ordinance extending the corporate limits of the City of Asheville by annexing a contiguous area containing 24.635 acres located off of Hendersonville Road and known as Deerfield Episcopal Retirement Community.

At the request of Ms. June Lamb, 16 Carrier Street, City Manager Westbrook explained what kind of tax benefits will there be regarding this annexation.

Mayor Sitnick closed the public hearing at 5:22 p.m.

Mayor Sitnick said that members of Council have previously received a copy of the ordinance and it would not be read.

Councilman Tomes moved for the adoption of Ordinance No. 2603. This motion was seconded by Councilman Sellers and carried unanimously.

ORDINANCE BOOK NO. 17 - PAGE 433

IV. UNFINISHED BUSINESS:

A. CONSIDERATION OF FINDINGS FOR CONDITIONAL USE PERMIT FOR THE ASHEVILLE MALL EXPANSION

ORDINANCE NO. 2604 - ORDINANCE ISSUING A CONDITIONAL USE PERMIT FOR THE ASHEVILLE MALL EXPANSION

Councilman Sellers moved to excuse Councilman Tomes from participating in this matter due his being absent from the public hearing. This motion was seconded by Councilman Cobb and carried unanimously.

City Attorney Oast said that this is the consideration of an ordinance making findings and conclusions, and establishing conditions, for a Conditional Use Permit for the expansion to the Asheville Mall.

On July 27, 1999, City Council held a public hearing and voted unanimously (6 - 0; Councilmember Tomes absent) to issue a Conditional Use permit for the Level III expansion of the Asheville Mall. Staff was directed to research and provide more information to Council relative to certain concerns that surfaced during the public hearing, and to develop proposed conditions to deal with them. Some of this information was presented to Council in a progress report at your August 10, 1999, meeting.

City Attorney Oast briefly summarized the following findings in the Order noting that it is in draft form and may be modified by Council prior to voting on it:

1. Notice of the hearing of this matter was published on July 16, 1999, and July 23, 1999; signs advertising the hearing were posted, and notification was mailed to adjacent property owners.

2. The applicant, CBL and Associates, seeks a Conditional Use Permit for an expansion to the Asheville Mall (herein "the Project).

3. The Asheville Mall is located on approximately 64 acres (herein "Subject Property), situated on the Southwest side of South Tunnel Road (US Highway 74), immediately South of its intersection with Tunnel Road (US Highway 70), and North of its intersection with Swannanoa River Road (N.C. Highway 81).

4. Tunnel Road and South Tunnel Road are both major multi-lane highways carrying a high volume of traffic. The Asheville Mall is the largest shopping center in Western North Carolina and serves a regional market. Across South Tunnel Road from the Subject Property are several strip shopping centers, housing several high traffic retail businesses, and a multiple screen theater. Located nearby on South Tunnel Road are another multiplex theater, a major home improvement retailer (Lowe's), and another strip shopping center.

5. The Lowe's store, currently located immediately to the south of the Subject Property, is constructing an expanded facility immediately to the south of its current location. Plans have been submitted to redevelop the current Lowe's site as a strip shopping center.

6. Interstate 240 passes to the North and East of the Subject Property, and crosses over Tunnel Road. There is a two lane exit from I-240 which deposits exiting traffic at the above-described intersection of Tunnel Road and South Tunnel Road, which intersection is signalized.

7. Located along Tunnel Road to the North and West (heading towards downtown Asheville) are smaller scale commercial uses, consisting of motels, restaurants, retail businesses and automobile service stations, among other uses.

8. Immediately adjacent to the South and West of the Subject Property is an established residential area, Kenilworth Forest, consisting primarily of single family residences on small lots. There are approximately 90 single family residences in Kenilworth Forest.

9. The Subject Property is zoned to a RB-Regional Business -- classification. The other non-residential properties adjacent to the Subject Property and across South Tunnel Road are zoned RB or HB-Highway Business. Kenilworth Forest is zoned RS-4 Medium Density Residential.

10. The City's 2010 plan provides for regional commercial development along the Tunnel Road/South Tunnel Road corridor.

11. The current Asheville Mall contains over 900,000 square feet of enclosed space and approximately 4200 parking spaces. The Project consists of demolishing the existing twin theaters, (approximately 14,000 square feet) located at the South end of the Subject Property, adding approximately 154,000 square feet of retail space and adding a total of 573 new parking spaces. Most of the retail space expansion will occur on the Eastern elevation of the existing mall, on the far side of the building from Kenilworth Forest. Some ground level parking spaces will replace the demolished theaters. Most of the additional parking will be added in a two-tiered parking deck, also to be located on the eastern elevation of the mall building. The amount of land occupied by the Mall will not increase.

12. The Subject Property is served by 5 driveways: 3 signalized two-way driveways along South Tunnel Road, one two way driveway (Brackettown Road) on White Pine Drive at the north end of the Subject Property, and one unsignalized two-way driveway that originates on Tunnel Road just north of the intersection with South Tunnel Road.

13. White Pine Drive, where the Brackettown Road driveway is located, is a two lane residential street and is the only street that serves the Kenilworth Forest neighborhood. The two commercial uses, a restaurant and a service station, located at the intersection of White Pine Drive and Tunnel Road, also have driveways onto White Pine Drive. The intersection of White Pine Drive and Tunnel Road is controlled by a traffic signal.

14. During times of peak usage, including Saturdays, work weeks, homebound rush hour, and seasonal (especially Christmas) holiday shopping, vehicles using the Brackettown Road driveway to enter and exit the mall frequently back up White Pine Drive to the point where the Brackettown Road driveway intersects, resulting in inconvenience and delays to the residents of Kenilworth Forest trying to enter and leave the subdivision. The driveway is just below the crest of a hill on White Pine Drive, and vehicles exiting Kenilworth Forest sometimes have difficulty stopping for backed up Mall traffic.

15. A traffic analysis reviewed and concurred in by the City's staff indicated that the additional traffic generated by the proposed Mall expansion would not significantly worsen the peak usage traffic problems on White Pine Drive, but that closing that driveway or making it a one way entrance would negatively affect the peak hour traffic along Tunnel Road and South Tunnel Road. The traffic analysis also indicated that any traffic problems on White Pine Drive could be mitigated by making adjustments to the signal timing at the White Pine Drive/Tunnel Road intersection, and to other signals in either direction from that intersection along Tunnel Road and South Tunnel Road. The staff's recommendation was that the Brackettown Road driveway not be eliminated or made one way in connection with the Project, but that other adjustments, such as signs, signals, and curbing and markings, should be considered.

16. Residents from Kenilworth Forest expressed concern over the proximity of the Mall and the impact of the proposed expansion to their neighborhood. These concerns centered on (a) traffic, primarily the Brackettown Road driveway, as described above; (b) noise anticipated from the construction and from Mall activities in general; (c) litter and trash from the Mall parking lot; (d) light and glare from the parking lot light poles and from the headlights of cars using the parking lot and parking deck; and (e) privacy, especially in the vicinity of the existing theaters where the grade differential changes.

17. The City's Technical Review Committee has reviewed the Project and indicated that all applicable technical and development standards, including provision of adequate water, sewer and emergency services, storm water and erosion control, and buffering from adjacent residential areas will be met if the Project is developed according to the submitted site plan. The TRC approval was subject to several recommendations as to conditions, which are contained in Attachment 1 hereto, and include:

    1) installation of additional buffer or a solid wall along the property line in the area of the theaters to be demolished, in order to provide a visual and noise buffer.

    2) designing new light fixtures to minimize intrusion of light into the adjacent residential area.

    3) installation of a sidewalk along the entire South Tunnel Road frontage of the Subject Property.

City Attorney Oast said that the conclusions, or determinations, are what Council must make under the ordinance and Council must find in favor of the applicant on each one of the conditions in order for the conditional use permit to be issued. He briefly reviewed the following draft conclusions:

1. The Project is a Level III project within the meaning of City Code Sec. 7-5-9(a) and a Conditional Use Permit is required.

   All notice and advertising requirements were properly and timely met, and no one has objected to this public hearing on the basis of any alleged failure to satisfy said requirements.

2. That the proposed use or development of the Project will not materially endanger the public health or safety in that the Project is an expansion of an existing retail facility in a regional retail shopping area. The Project received technical approval from the Water Resources Department, the Fire Department, and MSD, Engineering, and other City Departments.

3. That the Project is reasonably necessary for the health and general welfare, such as by enhancing the successful operation of the surrounding area in its basic community functions or by providing an essential service to the community or region.

   The Asheville Mall serves as a regional shopping center. The presence of the mall enhances the successful operation of the surrounding area as a commercial corridor.

4. That the Project will not substantially injure the value of the adjoining or abutting property, provided that adequate buffering and screening are installed so that negative impacts of the mall on adjoining property will not be increased above pre-expansion conditions.

5. That the proposed use or development of the land will be in harmony with the scale, bulk, coverage, density and character of the area or neighborhood in which it is located.

   The existing mall is located on property zoned Regional Business. The neighboring uses along Tunnel Road include a number of large-scale retail developments. Adequate buffering and screening are necessary to separate this use from neighboring single-family residential development.

6. That the proposed use or development of the land will generally conform with the Comprehensive Plan and other official plans adopted by the City.

   The Asheville City Plan 2010 indicates commercial development for the Tunnel Road corridor. The proposed expansion of the Asheville Mall is consistent with the intent and the standards of the Regional Business zoning district.

7. That the proposed use is appropriately located with respect to transportation facilities, water supply, fire and police protection, waste disposal, and similar facilities.

   The proposed development is located in an existing developed area. The project received technical approval from the Water Resources Department, the Fire Department, and MSD. The mall is located on a five-lane major thoroughfare as identified on the Asheville Thoroughfare Map.

8. That the proposed use will not cause undue traffic congestion or create a traffic hazard.

The developer prepared a Traffic Impact Analysis (TIA) for the proposed mall expansion as required by the UDO. The TIA considered the impact of this expansion and other projected traffic on the transportation system. The TIA concluded that "with modifications in the timing will not have a detrimental impact on the traffic operations on S. Tunnel Road." The TIA also indicated that the proposed expansion would have no substantial impact on the existing situation on White Pine Drive. The City Engineer and Traffic Engineer reviewed the findings of the TIA for accuracy, and concur with the findings.

Planning & Development Director Scott Shuford reviewed with Council the following conditions which address the points that City Council raised:

Brackettown Road

The issue of Brackettown Road was an issue City Council reviewed on August 10, 1999, and determined that based upon staff's acceptance of a consultant's report prepared by the applicant, that Council would not modify the traffic access on Brackettown Road. Since that is a performance-based condition that the signalization changes that are proposed for Tunnel Road will resolve some of the access issues, then staff feels it's important that Council consider alternatives if the projected performance does not occur. The following condition will address this potential problem:

1. Brackettown Road - Prior to the issuance of a certificate of occupancy for the Asheville Mall expansion floor area, the traffic signal timing changes recommended by the applicant's consultant in the Mall's vicinity shall be implemented. After a six month performance evaluation period (from the date of the opening of the Mall expansion to the public), staff shall coordinate a public meeting to receive comments from the Kenilworth Forest neighborhood, the applicant, NCDOT, and City Engineering regarding the effectiveness of the signal timing changes in addressing the traffic safety, capacity and convenience objectives of the City in general and the neighborhood and the Mall in particular. If deemed warranted by City staff, further engineering and operational adjustments to the White Pine Drive and Brackettown Road intersection shall be implemented by the applicant, including, but not limited to: adjustments to the intersection design (realignment, radius reduction, one way in or out, etc.); signalization options (flashing red beacons, "traffic in intersection" warning signals, etc.); and/or operational changes ("no truck traffic" signage, etc.). Alternately, further signalization adjustments in the Mall's vicinity may also be considered as a possible means of meeting the performance objectives established in the consultant's report; however, this alternative shall require a similar re-evaluation of the performance within six months of implementation.

After this condition was drafted, staff did hear from the applicant and they did raise an important consideration - they have legal obligations to their tenants with regard to driveway access and they are concerned that the wording proposed will put them in some jeopardy. City staff recognizes that and recommends the following amended version of Condition No. 1:

1. Brackettown Road - Prior to the issuance of a certificate of occupancy for the Asheville Mall expansion floor area, ... If deemed warranted by City staff, further engineering and operational adjustments to the White Pine Drive and Brackettown Road intersection may ~~shall~~ be implemented ~~by the applicant~~, including, but not limited to: ....

Upon inquiry of Councilwoman Field, City Attorney Oast said that this doesn't solve the problem because we don't know until the Mall is expanded what the problem will be. What this does is preserves for the City the right to go in and make appropriate changes to the extent that we can, if deemed warranted by City staff. He said the point of including this condition is to not set up a situation where the City is precluded from going in and making changes if we think the situation warrants it.

Site Lighting

There seems to be a general agreement with this. The Mall's existing lighting creates an unacceptable glare situation and ambient lighting cannot be increased without negatively affecting the Kenilworth Forest neighborhood. The applicant has agreed to insure that the glare effect will be eliminated and that ambient light will be maintained at current levels or reduced. This agreement will be enforced through staff review of the proposed lighting plan prior to issuance of electrical permits for the lighting, comparison of pre-existing photometrics and post-construction photometrics, and shielding of the existing and proposed light sources in order to eliminate glare (the direct visibility of an unshielded light source from the Kenilworth Forest neighborhood).

2. Site Lighting - The applicant shall eliminate all existing glare into the Kenilworth Forest neighborhood and no glare shall be created from the proposed site lighting; for the purpose of this condition, "glare" shall be considered as the direct visibility of any unshielded light source on the Asheville Mall property from any point within the Kenilworth Forest neighborhood. Additionally, ambient light shall not be increased as it affects the Kenilworth Forest neighborhood; preferably, the ambient light should be decreased. To enforce this condition, the applicant shall provide City staff with a pre-construction photometric study and proposed lighting plan prior to the issuance of any electrical permits for the proposed site lighting. A post-installation photometric study shall be provided to City staff by the applicant to allow evaluation of the lighting design and installation in meeting this condition. The applicant shall correct any deficiencies noted by City staff in both the analysis of these studies and the inspection of the effectiveness of the installation prior to the issuance of a certificate of occupancy for the Asheville Mall expansion floor area. Any future installation of outdoor lighting, including upgrades to, or replacement of existing outdoor lighting on Mall property shall be done in accordance with a photometric plan approved by the Planning and Development Director.

Councilman Cloninger suggested the following amendment: ... for the purpose of this condition, "glare" shall be considered as the direct visibility of any unshielded **or inadequately shielded** light source on the Asheville Mall property ...."

Mayor Sitnick suggested the following amendment: "Additionally, ambient light shall not be increased as it affects the Kenilworth Forest neighborhood.~~; preferably, the ambient light should be decreased~~."

Upon inquiry of Councilwoman Field, Mr. Shuford explained what kinds of measures can be taken to decrease the ambient light.

Buffer Wall/Landscaping

The applicant indicated there would be a buffer wall erected essentially at the place where the cinema will be removed. The extent of that buffer wall, from the staff's perspective, is not satisfactory in addressing the issue. Staff feels it needs to be largely along the entire west side of the property from the edge of the existing parking deck all the way to a point beyond the cinema.

3. Buffer Wall/Landscaping - The applicant shall erect a buffer wall consisting of an aesthetically pleasing, acoustic-deadening/absorptive material mounted on posts and projected to reduce noise volume of the specified type (routine auto traffic on the perimeter road, car stereos, and tire squeals) by a minimum of 65% below existing volume as measured along the common property boundary between the Mall and Kenilworth Forest. This buffer wall shall be of a material and height necessary to achieve the specified level of performance and shall be approved by the Planning and Development Director. The buffer wall shall be erected after the demolition of the cinema building and before the start of other construction. The buffer wall shall be erected along the west side of the property boundary starting at the south end of the existing parking deck and running the remainder of the western property boundary to where it jogs to the south (app. 600 ft.); the buffer shall replace the existing vinyl-slatted chain link fence. The buffering along the remaining property boundary shall be a fence-option Type-D buffer. To protect existing trees which form an integral part of the buffer, the following requirements shall be met by the applicant:

   - Existing trees along the west property line shall not be removed.
   - Prior to receiving a zoning permit, the applicant shall submit a tree survey and tree protection plan showing the location of the buffer wall in relationship to the tree trunks to demonstrate that the trees will remain undisturbed; additionally, the applicant shall work with City staff to identify and apply appropriate fertilization to the existing landscape buffer to improve survivability.
   - The edge of the wall shall be no closer than 4 feet from the tree trunks.
   - If necessary, the edge of the proposed parking lot shall be shifted to achieve this performance.

Mr. Shuford said that the City received today from the applicant a proposal to do a buffer wall, and it's not clear to City staff yet where they are proposing it. Their proposal is to do a buffer wall that is a Georgia DOT standard wall, 8-feet tall, consisting of metal panels which are caulked together, that would, given the information that they have presented to the City, come into pretty general compliance with the standard that we propose. We need to give that further study.

Vice-Mayor Hay asked if you determine, before the wall is constructed, that it will in fact reduce the noise by 65%, or do you have to build the wall and then test it before it is known. Mr. Shuford suspected that we will be able to tell with some relative reasonable degree of assurance, given the parameters of the wall whether or not it's going to perform to that standard, and of course, the method of construction may have an affect on that. For instance, if they did not caulk between the panels, sound could leak through there. This particular type of wall, from the information from the applicant, generally seems to cover that range that the neighborhood indicated was a problem.

Councilwoman Field felt the noise reduction should be stated in terms of a range, since not every frequency will be reduced by 65%, and the ultimate desire is to have a substantial decrease in the amount of noise going into the neighborhood. She felt that a better indicator might be the use of the standard in the industry which is a STC level. Mr. Shuford noted that in the information provided to them by the applicant, this particular wall had an STC rating of 27. As to what that exactly means, staff will have to go back and do some calculations to see if that rating meets the intent of Council.

To address Councilwoman Field's concerns, Mr. Shuford suggested the following amendment to Condition No. 3: "The applicant shall erect a buffer wall ... to reduce noise volume of the specified type ... by a minimum of **an average of** 65% ...."

Mayor Sitnick was concerned that the applicant's original proposal lacked specificity and was limited in scope enough for City staff to say that it doesn't address the noise issue raised by the neighborhood. Mr. Shuford explained that at the time the condition was written they had not received further clarification from the applicant as to what type of wall they were proposing. Staff does now have that information, in that they would erect an 8-foot tall buffer wall, however, staff doesn't feel that that limited length proposed by the applicant is sufficient to address the issues City Council felt were important. Staff recommends the buffer wall be erected along the west side of the property boundary starting at the south end of the existing parking deck and running the remainder of the western property boundary to where it jogs to the south (app. 600 ft.), to address the fact that there will be increased traffic activity in the back.

Upon inquiry of Councilwoman Field if the wall proposed by the applicant will allow the vegetative buffer to remain, Mr. Shuford responded that the wall is fairly narrow and it appears that it will allow the vegetative buffer to remain.

Upon inquiry of Councilwoman Field, Mr. Shuford felt that given the way the property drops off and the elevation change that occurs in the back, it seems like to achieve what City Council is after, some physical barrier will have to be constructed. Staff hasn't said what that physical barrier needs to be, but it needs to be in conjunction with the existing landscaping. He is pretty confident that the barrier needs to be the approximately 600 feet in order to achieve that level of noise reduction. However, if City staff finds that it is not necessary, the applicant and staff may come back before City Council to suggest a modification to that condition.

City Attorney Oast said that in an appropriate circumstance, a modification to a condition can be made. He said the intent of the condition staff is proposing is that we get a projection from the people who are going to be installing the wall, or some engineering certification, that the wall is designed to reduce the average noise by 65%.

Councilwoman Cobb didn't want to lose sight of the fact that privacy is an issue for the neighborhood as well.

Upon inquiry of Mayor Sitnick, Mr. Shuford said that the condition would require that the existing vinyl-slatted chain link fence be removed and replaced by the buffer wall.

Existing Parking Deck Privacy Wall

The July 27, 1999, Council meeting included testimony from neighbors immediately adjacent to the existing parking deck who expressed concerns about privacy. While much of the existing parking deck is shielded from the Kenilworth Forest neighborhood by topography, there are some areas where privacy may be an issue. The applicant should address this issue through the selective placement of six foot tall visual barriers.

4. Parking Deck Wall - The applicant shall work with City staff to identify where Kenilworth Forest properties can be seen from the existing parking deck and shall install six foot tall visual barriers where necessary to eliminate privacy concerns. These barriers shall be erected prior to the issuance of a certificate of occupancy for the Asheville Mall expansion floor area.

City staff suggested that might be the possibility of increased planting of evergreens which might have the same effect. Council may wish to consider whether to leave that option a little open-ended in order to give some flexibility to the applicant.

Transit

The applicant has agreed to a City Council suggestion to provide transit access to the Mall. The recommended condition to address this issue is:

5. Transit - Prior to the issuance of a certificate of occupancy for the Mall expansion project, the applicant shall allow access to mall property to the Asheville Transit Authority for pick up and drop off of bus patrons at a mutually agreed-upon location near a primary entrance to the mall. This access shall include internal circulation of transit buses through the mall parking lot.

Mayor Sitnick thanked the developers for agreeing to provide this transit service which has been requested for many years.

Sidewalk

The applicant has agreed to a City staff condition to install sidewalks along the Mall's street frontage. This sidewalk will tie into the one being constructed on the "former" Lowe's site. The recommended condition to address this issue is:

6. Sidewalk - Prior to the issuance of a certificate of occupancy for the Mall expansion project, the applicant shall construct a five-foot sidewalk along the entire frontage of the mall property where none exists as shown on the revised site plan (revision date 7/9/99).

Mayor Sitnick thanked the developers for agreeing to this condition which will be a great safety and convenience benefit to our citizens.

Deliveries/Service

The neighborhood has expressed concern about the timing of deliveries and service activities such as parking lot vacuuming, as well as the location of dumpsters. To address this issue, the following condition is recommended:

7. Deliveries - The applicant shall limit delivery (loading and unloading) and service activities (parking lot vacuuming, dumpster service, etc.) on the west side of the Mall to between the hours of 7:00 a.m. and 10:00 p.m. Dumpsters shall be located as specified on the revised site plan (revision date 7/9/99).

Mr. Shuford said that the applicant does have a concern with this because they indicate that there is some limited ability to influence deliveries by their tenants.

Councilwoman Field agreed that there is nothing a developer can do to tell trucking companies when to deliver. Therefore, she suggested the following amendment: "The applicant shall limit ~~delivery (loading and unloading) and~~ service activities ...."

Councilwoman Field noted that when leases are re-negotiated or new leases are drawn, that something could be included in the lease agreement that the tenant would make every attempt to have deliveries between 7:00 a.m. and 10:00 p.m.

Hours of Construction

The neighborhood has requested some limit on construction hours. The applicant has agreed to limit the time period for cinema demolition, but needs the ability to work a flexible schedule for other construction activities.

8. Hours of Construction - The applicant shall limit construction hours for cinema demolition to the hours between 7:00 a.m. and 7:00 p.m., Monday through Saturday. Upon installation of the proposed buffer wall, construction hours for the Mall expansion shall not be limited.

Proposed Parking Deck Privacy Wall

Mr. Shuford said that there was one issue which was raised by the neighborhood that staff did not propose a condition for. That dealt with the need to have a privacy wall on the proposed parking deck. The applicant has submitted a line-of-sight study that shows that the proposed parking deck will allow someone standing on the part of the deck nearest the closest adjoining residences to see into the backyards of some of these residences. The view distance to these homes is through wooded areas and ranges from 223 ft. to 313 ft. to the property lines and 298 ft. to 410 ft. to the residential structures.

Staff has measured the height of the headlights of the largest vehicles reasonably anticipated to be parked on the parking deck (a Ford F-250 pickup equipped for off-roading; Chevy Tahoe) and has determined that the proposed four foot high wall will contain the light from these vehicle types.

Given these facts, staff does not recommend a condition to address this issue raised by the neighborhood. The neighborhood proposal of a very high privacy wall on top of this parking deck does not appear warranted given the distance involved and the four foot tall screening proposed by the applicant will block headlights.

General discussion:

Upon inquiry of Councilman Cloninger, Mr. Shuford said that many communities are going to performance standards to allow some flexibility and alternative means of meeting conditions. He felt it was important for City staff to address compatibility issues because as our city grows and redevelops we will have more and more cases where neighborhoods are going to come into a potential impact from non-residential or residential development and we need ways to address that.

Upon inquiry of Councilman Cloninger, Mr. Shuford agreed that some of the engineering and operational adjustments spelled out in Condition No. 1 have been determined not feasible and realistically some of them will not be feasible in six months. However, staff was trying to list the items that had been brought forward by the neighborhood and City Council as items to be looked at in six months. He noted that the City Traffic Engineer earlier indicated that some of these measures would have limited effectiveness - for example, a flashing signal on top of the existing stop signs probably would be ignored just as frequently as the stop sign itself, once people got used to seeing it there. But, he said there is always a possibility that it could be introduced and it be effective.

Upon inquiry of Mayor Sitnick, Mr. Shuford said that there is a sign on Brackettown Road that says "Do Not Block Intersection" but still people will try to squeeze out and get in line to make the left hand turn onto Tunnel Road. He felt that perhaps there are some stripping options that could be put on the pavement. He said City staff can pursue that unilaterally.

Vice-Mayor Hay said that essentially we are being told the best thing we can do is rely on the traffic signal changes along South Tunnel Road to mitigate traffic problems at the intersection of White Pine Drive and Brackettown Road. He noted that we are relying on the applicant's consultant making that decision, although our City staff agrees with that decision. What this says is we want to go back in 6 months and see if that's right or not. If it's not right, then we want to do something about it because essentially the representation that was made to us about mitigating traffic was an erroneous representation. Therefore, he didn't know if we should be so willing to let the developer out of the re-evaluation process. They are the ones that represented to City Council in the first place, that this is the way to mitigate the traffic problems. If they were mistaken about that, and I think it's a good faith representation if it turns out not to be true, I think the developer should be a more active participant in what we do to go ahead and meet that need that apparently wasn't met with the traffic study in the first place. Mr. Shuford said that adjustment staff proposed was intended to address the specific issue and that was they did not want to have to re-visit the issue on their part of closing that driveway or making it one way in or one way out. I will try to work on some language that might address that specific thing and that be a city issue - which we always have the right to do - we control the access to our roads so we can put that in as an alternative and let the other things, which are basically signage and warning lights, etc., potentially be the responsibility of the developer.

Mr. Michael Lebovitz, Senior Vice-President of CBL & Associates Properties (owners of the Asheville Mall) said that Condition No. 1 regarding Brackettown Road as drafted and amended is not acceptable to them. Their traffic report made suggestions as a way of accommodating the increased traffic that will be generated by the proposed Mall expansion. The NC DOT controls the signals on Tunnel Road and we can't tell them when to make those changes. They can, however, request those changes be made and file an application for those changes. He felt that Condition 1 puts the burden on the applicants to make those changes and, therefore, he requested that Condition No. 1 be modified.

Regarding Condition No. 1 still, Mr. Lebovitz said that the City has the right to come in and make changes to the public streets around the Mall that the City controls and the Mall has the right to challenge those changes if they chose. But, for them to agree, through this conditional use permit process, to allow the City to potentially make Brackettown Road a one-way in/one-way out, is, in their opinion, giving the City more room to make future changes that can adversely affect their development. For that reason, they requested that Condition No. 1 be modified to eliminate any of those requests.

Mr. Lebovitz agreed that Brackettown Road can be improved in terms of safety, mainly by drivers from the subdivision improving their driving habits and by the Mall patrons improving their driving habits. He agreed that there does need to be increased signage, a better painted stop bar, etc. But, Brackettown Road cannot be something that they allow to potentially be closed or changed as it impacts their development.

With regard to Condition No. 2 (site lighting), Mr. Lebovitz said that you can decrease ambient lighting by making the edge lighting zero, which is a mistake from a safety standpoint. They provided a site photometric study that shows a very low level of lighting at the edge and we propose that level of lighting be maintained because you just can't have no lighting at the edge of the parking lot.

With regard to Condition No. 3 (buffer wall), Mr. Lebovitz said that at the public hearing they understood from Council that the fence they proposed was not acceptable. They have spent a lot of time trying to find something that is acceptable and they chose a Department of Transportation sound wall that is used in Atlanta, Georgia, on I-285 (he passed out three photographs of the wall). He said that in Georgia that wall buffers a major 10-lane freeway from a residential area. With regard to the requirement that the wall reduce noise by 65%, he

192

discovered that the 65% was arbitrary and they don't feel it is appropriate because their buffering is beyond the City's Code, as is the sound barrier. They feel that erecting the DOT approved sound barrier is something that is being used in the field and to place an arbitrary percentage on noise is not appropriate. As to the length of the sound barrier, they are not aware of any complaints from the neighborhood residents before they entered into this process. He agreed that to erect a sound barrier to replace the theatre is an important thing to do and that is why they are proposing the wall to be the length of the theatre.

With regard to Condition No. 4 (existing parking deck privacy wall), Mr. Lebovitz said that only one comment was made regarding this issue at the public hearing. Because they have never had any reported incidences, they don't feel that is an appropriate condition because there has been no problem with that in the past.

With regard to Condition No. 7 (deliveries/service), Mr. Lebovitz appreciated the amendment to that condition. He said they can control their services and will agree to that.

Mr. Lebovitz said that the Mall owners want to be good corporate citizens and good corporate neighbors. He said that they did some research and found that 76% of the residents of Kenilworth Subdivision purchased their house after the Mall was built, stressing that they chose to live next to a regional mall. A statement was made earlier that the Mall decreases property values. They talked to several appraisers in town who said that was not a true statement. He said that, as owners of the Mall, they have an obligation to not only protect the neighborhood and be good corporate citizens, but also to enhance the Asheville Mall.

Vice-Mayor Hay agreed with Mr. Lebovitz in that the NC DOT does have control over the signal timing changes and essentially our Condition No. 1 states that the certificate of occupancy will not be issued until NC DOT makes the traffic signal timing changes. He felt that would be a fair request to amend that condition to something similar to "the applicant will do everything humanly possibly to get the NC DOT to make the traffic signal timing changes recommended by the applicant's consultant ...."

Vice-Mayor Hay said that his point of reference to most of these issues is to limit the intrusion by the new expansion. One issue regarding the length of the buffer wall is increased traffic on the back side of the Mall - not only in the space behind the theatre. He noted that the traffic study shows the expansion will result in a 20% increase of traffic on Brackettown Road and if the Mall patrons want to go to the new Mall expansion, they will go along the back of the Mall from Brackettown Road.

Mr. Lebovitz said that with regard to the increased traffic in the back, they are not re-focusing the entrance to the Mall. If anything, the back area will remain a relatively unused over-flow area, even to a lesser extent than it is now because the cinemas are gone. The way this expansion is being designed, this will not be a high traffic area, except possibly in the 19 days during the holiday season.

Councilwoman Field felt that Council needed to be fair to this new developer to make sure that they are addressing problems that are due to the expansion and not pre-existing problems from the prior Mall owners.

Mr. Phil Noblitt, resident of 297 White Pine Drive and representative of the Kenilworth Forest Neighborhood Association, encouraged Council not to summarily exclude any further consideration of Brackettown Road. There are some things that can be done that may not be as radical as closing that Road, or even making it one-way, for example, looking at the turning radius, installation of stop signs, increase signage to promote traffic onto the new Sears Auto Center entrance. Condition No. 1 does call for NC DOT involvement. As he reads the condition, there is no indication that the traffic signal timing changes would be done summarily and without NC DOT input. He said that on the entrance road to the Sears main entrance, there is a "No Truck" sign and he requested that be removed because that specifically diverts truck traffic to White Pine Drive.

Mr. Noblitt proposed Condition No. 2 be amended to read: "glare" shall be considered as the direct visibility of any ~~unshielded or inadequately shielded~~ light source on the Asheville Mall property ...." He was concerned about "refracted" light and felt there may be a need to look at taking existing light levels within the neighborhood itself so that you can address any glare issue that may be very indirect and may be refracted. He believed that Brackettown Road is a safety issue. Since Council has asked how many traffic accidents have been recorded at the intersection of Brackettown Road and White Pine Drive, he felt that to be consistent, Council should ask how many assaults have been made at the Mall to justify that much additional lighting in the Mall itself.

Regarding the buffer wall, Mr. Noblitt requested Council look at the 65% noise reduction at all frequency ranges. Height of the wall is a factor and in his opinion, an 8-foot buffer wall simply will not be adequate, or reasons such as trash thrown over the wall and security. He reemphasized that even if this is some additional expense, this is a $15 million project. He also requested that the noise wall go from one elevation and topography to the other elevation and topography, whether that's 575 feet or 625 feet (specifically from the two existing banks, noting that one bank goes up hill approximately 30-feet beyond the parking deck).

With regard to the parking deck wall, Mr. Noblitt requested that there be some slightly higher elevation than the four foot wall. He felt that some inexpensive could be installed.

Mr. Noblitt felt that Condition No. 7 regarding limiting delivery hours is a critical issue for the neighborhood. If the applicant cannot limit the delivery hours, he felt Council should revisit the neighborhood's request for a 75% noise reduction and 14-foot high sound wall. He agreed that delivery trucks go into the parking lot area at night and wait till the Mall opens. He felt it would be a good faith effort on the part of the Mall to ask their security personnel to ask the delivery truck drivers to turn off their diesel engines when they sleep in their cabs at night waiting for the stores open.

Mr. Noblitt pointed out several issues where Mr. Lebovitz said they weren't aware of or could not be responsible for, however, not once did he hear Mr. Lebovitz say that they would voluntarily do something that might improve the situation. He felt this process allows the developer selectively to accept responsibility. The neighborhood has acted in good faith, agreed to mediation but is disappointed that there was no attempt made to contact them prior to formal notice being given that this project was going before the Technical Review Committee.

Upon inquiry of Mayor Sitnick, City Manager Westbrook said that Mr. Ken Putnam, Division Traffic Engineer for the NC DOT was at the public hearing and said that are very interested in working with the City of Asheville in doing whatever they can to improve the signal timing.

Councilman Cloninger reminded Council that there is an evaluation, which starts six months after the date of the opening of the Mall expansion to the public. City Attorney Oast noted that Condition No. 1 will be amended so that the performance is evaluated six-months after the changes that the City has recommended, and hopefully implemented, by the NC DOT.

Mayor Sitnick asked that the "No Truck" sign on the entrance road to the Sears main entrance be removed.

Councilwoman Field suggested Council take a short break and let Mr. Shuford talk with the neighborhood representative, the developer and the City Attorney to address the issues that City Council has raised.

Councilman Cloninger felt that the City should retain performance standards to allow some flexibility in the noise wall.

At 6:55 p.m., Mayor Sitnick announced a short break.

Mr. Shuford said that the following amended Condition No. 1 is staff's attempt to address the following concerns: (1) the applicant not having the ability to unilaterally influence the NC DOT; (2) the applicant being forced to make adjustments on Brackettown Road because of contractual agreements with tenants; (3) comments from Vice-Mayor Hay with regard to what the City can do if the NC DOT fails to accept the signalization options; and (4) indicate that the City has the right to unilaterally take certain traffic engineering actions:

1. The traffic signal timing changes recommended by the applicant's consultant in the Mall's vicinity shall be immediately presented to the NC DOT for consideration for implementation. The applicant shall work cooperatively with the NC DOT and the City to maximize the potential for implementation of this performance standard. If the NC DOT fails to enact signalization changes or after a six month performance evaluation period (from the date of the opening of the Mall expansion to the public), or the implementation of signalization changes (whichever is later), staff shall coordinate a public meeting to receive comments from the Kenilworth Forest neighborhood, the developer, NC DOT, and City Engineering regarding the effectiveness of the signal timing changes in addressing the traffic safety, capacity and convenience objectives of the City in general and the neighborhood and the Mall in particular. If deemed warranted by City staff, further engineering and operational adjustments to the White Pine Drive and Brackettown Road intersection shall be implemented by the applicant. These options shall not include closure of the intersection or access changes such as one-way in or out, although the City reserves the right to unilaterally take these actions and the applicant has the right to take whatever legal means necessary to preserve his right of access. Alternately, further signalization adjustments in the Mall's vicinity may also be considered as a possible means of meeting the performance objectives established in the consultant's report; however, this alternative shall require a similar re-evaluation of the performance within six months of implementation.

Upon inquiry of Councilman Cloninger, Mr. Shuford said that all intersection design changes would have to be done by the developer, except the drastic ones, such as closure. For example, if there was a need to adjust the radius of the roadway or to install signage, signalization, then those would be at the expense of the developer, but they are relatively minority compared to that one issue.

When Councilman Cobb asked who will do the six-month evaluation after the Mall opens, Mr. Shuford said City staff will convene a meeting of the NC DOT, City Engineering staff, applicant and the neighborhood and talk about whether or not the performance issues have been addressed to everyone's satisfaction. The City will reserve the right to make the ultimate decision with regard to whether Condition No. 1 has been met.

Councilman Cobb was reluctant to eliminate the one-way in/one-way out issue on Brackettown Road. He felt the developer inherited a bad situation and he was not sure whether the City needed to hold the developer liable to make the change. If the City made the mistake years ago, they should assume some responsibility to correct it.

Mayor Sitnick announced that there was City Council consensus on Condition No. 1 as amended by Mr. Shuford after the break.

Mr. Shuford said that the following amended Condition No. 2 is staff's attempt to address the following concern, in addition to the two amendments suggested earlier by Councilman Cloninger and Mayor Sitnick: (1) the neighborhood's need to address the issue from their side of the neighborhood:

2. The applicant shall eliminate all existing glare into the Kenilworth Forest neighborhood and no glare shall be created from the proposed site lighting; for the purpose of this condition, "glare" shall be considered as the direct visibility of any unshielded or inadequately shielded light source on the Asheville Mall property from any point within the Kenilworth Forest neighborhood. Additionally, ambient light shall not be increased as it affects the Kenilworth Forest neighborhood. To enforce this condition, the applicant shall provide City staff with a pre-construction photometric study and proposed lighting plan prior to the issuance of any electrical permits for the proposed site lighting. A post-installation photometic study shall be provided to City staff by the applicant to allow evaluation of the lighting design and installation in meeting this condition. **All photometric studies shall include readings taken from locations in the Kenilworth Forest neighborhood affected by ambient and glare lighting.** The applicant shall correct any deficiencies noted by City staff in both the analysis of these studies and the inspection of the effectiveness of the installation prior to the issuance of a certificate of occupancy for the Asheville Mall expansion floor area. Any future installation of outdoor lighting, including upgrades to, or replacement of existing outdoor lighting on Mall property shall be done in accordance with a photometric plan approved by the Planning and Development Director.

Mr. Lebovitz said that since there are street lights in the neighborhood, it is hard to get a good reading and determine where the lights are coming from when you have multiple light sources. Mr. Shuford responded that if you go in and do a photometric study prior to the installation of the lighting and do one afterwards (the street lighting factor has not changed) and there is a difference, then the City can suggest some adjustments to the lighting.

Mayor Sitnick announced that there was City Council consensus on Condition No. 2 as amended by Mr. Shuford after the break.

Mr. Shuford said that the following amended Condition No. 3 is staff's attempt to address the concerns raised by City Council, in addition to the amendment suggested earlier by Councilwoman Field:

3. Buffer Wall/Landscaping - The applicant shall erect a buffer wall consisting of an aesthetically pleasing, acoustic-deadening/absorptive material(s) mounted on posts and projected to reduce audible noise volume **to a weighted average of not more than 65 decibels during the hours of operation of the Mall** ~~of the specified type (routine auto traffic on the perimeter road, car stereos, and tire squeals) by a minimum of 65% below existing volume~~ as measured along the common property boundary between the Mall and Kenilworth Forest, **and in no case shall the buffer wall be less than eight feet in height**. This buffer wall shall be of a material and height necessary to achieve the specified level of performance and shall be approved by the Planning and Development Director. The buffer wall shall be erected after the demolition of the cinema building and before the start of other construction. The buffer wall shall be erected along the west side of the property boundary starting at the south end of the existing parking deck and

running the remainder of the western property boundary to where it jogs to the south (app. 600 ft.); the buffer shall replace the existing vinyl-slatted chain link fence. The buffering along the remaining property boundary shall be a fence-option Type-D buffer. To protect existing trees which form an integral part of the buffer, the following requirements shall be met by the applicant:

- Existing trees along the west property line shall not be removed.
- Prior to receiving a zoning permit, the applicant shall submit a tree survey and tree protection plan showing the location of the buffer wall in relationship to the tree trunks to demonstrate that the trees will remain undisturbed; additionally, the applicant shall work with City staff to identify and apply appropriate fertilization to the existing landscape buffer to improve survivability.
- The edge of the wall shall be no closer than 4 feet from the tree trunks.
- If necessary, the edge of the proposed parking lot shall be shifted to achieve this performance.

Mr. Shuford said that the City Attorney has been studying this issue from the standpoint of the noise ordinance. He has indicated to them that in an average neighborhood, during daytime, you have an ambient noise of between 60-65 decibels. Staff recommends that standard be measured from the property line, so that during the operating hours of the Mall, there would be an average reading of 65 decibels or less at the property line. The intent of that would be to try to keep the Mall from not creating a non-neighborhood level of noise. Whether that means it needs to be an 8-foot wall or an 18-foot wall is a performance issue to be resolved at some future point.

Mayor Sitnick said that personally she would like to see the buffer wall be erected the full length (along the west side of the property boundary starting at the south end of the existing parking deck and running the remainder of the western property boundary to where it jogs to the south, app. 600 ft.). Mr. Shuford said that if Council wants to go with the true performance standard, Council would not specify the length or height of the wall.

Upon inquiry of Vice-Mayor Hay, City Attorney Oast said the 65 decibel standard is from expert sources he consulted for residential noise levels in urban areas.

When Mayor Sitnick asked if we can amend a condition that would require delivery trucks that come in early for early deliveries, to sleep in a different part of the parking lot, to address the concerns of noise when they leave their motors running all night. City Attorney Oast said that the revised noise ordinance will take part of that. He said that regardless of whether or not the developer or his tenants can control deliveries, the people who make deliveries will have to abide by the noise ordinance. The City has some ability to enforce the noise ordinance on private property and we are in the process of clarifying that ability when the revisions are reviewed by City Council.

Upon inquiry of Councilman Cobb, Mr. Shuford said that if you use the weighted average of not more than 65 decibels, you will balance out those highs and lows and end up with something that basically keeps the noise activity in the neighborhood at neighborhood levels.

When Councilwoman Field asked about comparison of decibels, City Attorney Oast said that a vacuum cleaner is about 90 decibels.

Upon inquiry of Mayor Sitnick about devices that measure decibels, City Manager Westbrook said that the Police Department does have decibel meters.

Mr. Lebovitz said that if noise is the concern of City Council, just set the standard since that can be measured. He realized that they have to extend the privacy area behind the cinema, but there already is a privacy barrier extending to the parking deck (the chain-link fence). He said that after the construction is completed and they find that they are higher than the 65 decibels, they will extend the sound wall to the parking deck.

When Councilwoman Field said that the wall needs to be either a sound wall or a visual wall against the neighborhood, Mr. Lebovitz felt that as long as it is listed as a visual wall, that's fine because it can be of a material that they chose and which they feel is architecturally compatible.

Mr. Noblitt felt that the discussion is moving from a noise wall to a wooden fence. He felt we should be looking to decrease the noise and decrease the light in the neighborhood, because he feels they are making a trade-off on traffic congestion. He said that the fence is also a privacy and security issue and an 8-foot fence is easy for a young person to jump. Even a 10-foot fence would be a trash issue and security issue.

Mayor Sitnick said that we are talking about improvements - meeting a standard for as long and as high as the wall has to go to meet that standard. In addition to that, behind the cinema now there is nothing.

Mr. Noblitt said that there is a barbed-wire fence now behind the cinema and he hoped that the materials would not be mixed and matched so that they could have a continuous fence that would be aesthetically pleasing and not part barbed-wire and part not. He suggested that it be a pleasing fence and be of consistent material.

Councilman Cloninger suggested Council adopt the 600 feet length with the wall to be comprised of whatever materials staff feels fit to meet the decibel requirements and privacy issues.

Upon inquiry of Councilman Cobb, Mr. Shuford said that staff is trying to address the noise level that will not be affected by the City's upcoming noise ordinance. Noise, like boom-boxes, etc. will be addressed by enforcement of the revised noise ordinance.

Mr. Shuford reiterated that City Council does need to address the issue of height and the aesthetics of the wall in Condition No. 1, and Council certainly wants to leave the provision in there about the chain-link fence being removed. He understands that was the consensus of the Council that even though that serves as a barrier to people crossing back and forth to property and it is 8-feet tall, that it is not the level of aesthetics that Council is interested in pursuing.

Mayor Sitnick announced that there was City Council consensus on Condition No. 3 as amended by Mr. Shuford after the break.

Mr. Shuford said that the following amended Condition No. 4 is staff's attempt to address another alternative for the applicant:

4. The applicant shall work with City staff to identify where Kenilworth Forest properties can be seen from the existing parking deck and shall install six foot tall visual barriers where necessary to eliminate privacy concerns. **Alternatives to the visual barrier, such as the planting of evergreens, may be proposed by the applicant and accepted by the City in its sole discretion.** These barriers shall be erected prior to the issuance of a certificate of occupancy for the Asheville Mall expansion floor area.

Mayor Sitnick announced that there was City Council consensus on Condition No. 4 as amended by Mr. Shuford after the break.

Mr. Shuford said that the following amended Condition No. 7 is staff's attempt to address the amendment suggested earlier by Councilwoman Field:

7. Deliveries - The applicant shall limit service activities (parking lot vacuuming, dumpster service, etc.) on the west side of the Mall to between the hours of 7:00 a.m. and 10:00 p.m. Dumpsters shall be located as specified on the revised site plan (revision date 7/9/99).

Mayor Sitnick felt that another way to address parking lot vacuuming is that crews could start cleaning part of lot nearest the neighborhood earlier in evening and end up in the farthest areas later at night.

Again, Mr. Shuford said City staff didn't feel the need to address the issue of the height of the wall on the proposed parking deck because they feel the distance from the properties is going to address that issue.

Mayor Sitnick announced that there was City Council consensus on Condition No. 7 as amended by Mr. Shuford after the break.

Mayor Sitnick noted that Condition Nos. 5, 6 and 8 have consensus by City Council as read by Mr. Shuford before the break.

City Attorney Oast said that if Council is comfortable is voting on the conditions as modified by Mr. Shuford, he will proceed in drafting the Order for the Mayor's signature, upon vote of City Council.

Councilman Cloninger moved to adopt the ordinance which incorporates the order granting the conditional use permit with the modifications as explained by Mr. Shuford. This motion was seconded by Councilman Sellers.

Mayor Sitnick felt that it needs to be absolutely clear to everyone that this Council's main concern, where Brackettown Road is, is safety - secondary to convenience. She agreed with Councilman Cobb in that Brackettown Road was not a problem created by the expansion and it shouldn't be something the current owners have to deal with, and certainly she didn't think that it's Council's intention to give you any surprises in six months after completion of your expansion. She did think it was important to say, however, that whatever this City has to do to make sure Brackettown Road is safe for the neighborhood residents and the Mall patrons, is what we will do when, and if, the time comes to do it.

The motion made by Councilman Cloninger and seconded by Councilman Sellers carried unanimously.

ORDINANCE BOOK NO. 17 - PAGE 435

At 8:10 p.m., Councilman Sellers moved to excuse Councilman Cloninger from the meeting. This motion was seconded by Councilman Cobb and carried unanimously.

V. NEW BUSINESS:

A. MOTION AUTHORIZING CITY STAFF TO ADVERTISE A REQUEST FOR PROPOSAL FROM NON-PROFIT AGENCIES INTERESTED IN MANAGING THE PUBLIC ACCESS CHANNEL

Councilman Tomes said that the cable franchise agreement adopted by City Council designates three initial access channels to be used for public, educational and/or governmental programming.

Last November Council discussed several possible ways to organize these channels. The governmental and educational channels were established first because they were less involved and could be on-the-air quickly. It is now time to concentrate on the public access channel.

City Council requested that staff prepare a Request for Proposal (RFP) for proposal soliciting non-profit organizations to run the public access channel. Council also decided to appoint a Public Access Channel Commission following the section of this non-profit organization.

Staff has prepared an RFP that has been reviewed by the City Manager's Office, the Legal Division, Buncombe County and members of the community. Changes were made to the document based on suggestions presented from these different sources. An ordinance has also been prepared establishing a Public Access Channel Commission which will set policy and oversee the management of the public access channel.

Staff requests that City Council approve issuance of the Request for Proposal. Staff further requests that City Council approve the ordinance establishing a Public Access Channel Commission.

Upon inquiry of Mayor Sitnick, Ms. Robin Westbrook, Public and Community Information Coordinator, said that 4-5 organizations have requested a copy of the RFP.

When Councilman Cobb asked what would happen if we don't get any responses to the RFP, Ms. Westbrook said that then Council can go back and try one of the other possible ways in which to organize this channel.

Mr. Jack Fobes presented Council with the following statement: "It will be interesting to see what reactions you receive from non-profit citizens groups to the Request for Proposals on the operation of a so-called public access TV channel. I feel, however, that the approach which has been adopted is faulty and will result in further delays in providing this new facility for citizens. My thinking begins with two premises. First, that an integrated system for public learning o public service television is desirable, covering so-called government information reporting, school and higher education outreach to the community and public access. All three are public services and all are part of lifelong learning in a community. Moreover, there is likely to be an overlap in programming by the education institutions and those arranging public access. For example, non-profit groups can be expected to bring educational videos for exhibition to either channel. My second and more important premise is this: it is Council's role and responsibility to establish the overall principles, goals, policies and strategies for all three public service TV operations. Moreover, only with such a basis can the next steps toward implementation of an integrated system be fruitful. In my view, the Council should have drafted - perhaps with advice from a citizens committee - and adopted a solemn resolution embodying two provisions. First, there was and is a needed a statement of principles and goals for such an important public service operation. Second, we need to see set forth the policies and strategies within which a government 'channel' and organized education 'channels' and a public access 'channel' should function. One element of such a policy and strategy would cover the future of cable TV services spanning both city and county. Clarification is needed also as to policies governing current and future sources of funding. Although the RFP records some important principles and policies, their place is in a Council resolution. Under present circumstances, any responses to the present RFP will surely be accompanied by questions to the Council on basic policy and strategic considerations. If such a basic policy resolution had been adopted, the Council could logically then have decided whether a single board or commission or separate boards or commissions should be established. The resolution could have directed the single board or the several boards to begin by reviewing tentative plans for the operations involved and to return to the Council with recommendations for authorization of actual operations. The basic resolution would have set forth the second and continuing function of such board or boards, that is, to monitor and to receive accountability reports from the operators, including, by the way, from the City Manager. You will guess that I believe that one public commission should be charged with overseeing all community learning as it is severed through cable television, whether the programs originate with or come from government entities and civil servants, from high school or higher education authorities or from individuals or citizens groups who are given the possibility of 'speaking out' on cable TV. My guess is that no single non-profit group will be able to put together a proposal on public access TV and that efforts to form a responsible and accountable coalition for such service will raise basic questions which bring matters back to the Council for solution. Some, I am sorry to say, will probably welcome the delay in launching what is a difficult and sensitive, but highly desirable form of enhancing learning and promoting citizen participation in democracy. By then, who knows? -- advances in technology and competition for the public eye and ear may have satellite and telephone company services in the picture with the cable franchisees to complicate matters."

Councilman Tomes moved to authorize City staff to advertise the Request for Proposal from non-profit agencies interested in managing the public access channel. This motion was seconded by Councilman Sellers and carried unanimously.

VI. OTHER BUSINESS:

A. APPROVAL OF THE MINUTES OF THE REGULAR MEETING HELD ON AUGUST 10, 1999, AND THE WORKSESSION HELD ON AUGUST 17, 1999

Vice-Mayor Hay moved for the adoption of the minutes of the regular meeting held on August 10, 1999, and the worksession held on August 17, 1999. This motion was seconded by Councilman Cobb and carried unanimously.

B. CLAIMS

The following claims were received by the City of Asheville during the period of August 6-12, 1999: Deborah I. Parries (Parks & Recreation), BellSouth (Streets) and Patricia Youngblood (Water).

The following claims were received by the City during the period of August 13-19, 1999: Sam Arrington (Water), Janelle Taylor (Police) and Iris Wardlaw (Water).

These claims have been referred to Asheville Claims Corporation for investigation.

VII. INFORMAL DISCUSSION AND PUBLIC COMMENT:

VIII. ADJOURNMENT:

Mayor Sitnick adjourned the meeting at 8:17 p.m.

Magdalen Burleson
CITY CLERK

Leni Sitnick
MAYOR

Tuesday - September 7, 1999 - 3:00 p.m.

Worksession

Present: Mayor Leni Sitnick, Presiding; Vice-Mayor Edward C. Hay Jr.; Councilman M. Charles Cloninger; Councilman Earl Cobb; Councilwoman Barbara Field; Councilman Thomas G. Sellers; and Councilman O.T. Tomes; City Attorney Robert W. Oast Jr.; City Manager James L. Westbrook Jr.; and City Clerk Magdalen Burleson

Absent: None

CONSENT:

Budget Amendment regarding the Jim Crum Memorial

Summary: The consideration of a budget amendment, in the amount of $2,152, to set up a memorial for Jim Crum, former City Print Shop Manager.

Jim Crum, former City Print Shop Manager, recently passed away after an extended illness. A number of City employees who knew and worked with Jim expressed an interest in setting up a memorial to Jim as an expression of appreciation for a special person. Since Jim was an avid skier and supporter of youth activities, the idea of establishing an annual scholarship to assist a deserving youth to participate in the City's learn to ski program was suggested as a fitting memorial to Jim. City employees have contributed a total of $1,076 to the City for the memorial and Jim's family have agreed to match the employee contributions bringing the total to $2,152. This action will set up an ongoing appropriation for the use of this amount as a memorial to Jim.

City staff recommends that a budget amendment for the Jim Crum Memorial be approved.

Brevard Road Annexation Area - Phase II, Contract A, Sewer System Improvements Contract

Summary: The consideration of adopting a resolution awarding the contract for Brevard Road Annexation Area - Phase II - Contract "A" Sewer System Improvements to the lowest responsible bidder, Wolfpen Corporation, in the amount of $249,681.00.

This project is part of the proposed Brevard Road Annexation Area Sanitary Sewer System Improvements and consists of the installation of approximately 3,600 linear feet of eight inch (8") diameter sanitary sewer line and related appurtenances.

The Engineering Department received and publicly opened three (3) bids on Friday, July 30, 1999, at 2:00 p.m. After a thorough review of the bid documents by the Engineering Department and the Office of Minority Affairs, Wolfpen Corporation was found to be the lowest responsible bidder with a total bid of $249,681.00. The Engineer's estimate for this project was $312,555.00.

Wolfpen Corporation has performed several projects of this nature in the past without any major problems.

The construction time for this project is identified as 120 calendar days in the contract documents. The Contractor will be required to pay the sum of $250.00 as liquidated damages for each and every calendar day that he/she shall be in default after the time stipulated in the contract.

Staff recommends that City Council adopt the resolution awarding the bid for Brevard Road Annexation Area - Phase II- Contract "A" Sewer System Improvements to Wolfpen Corporation, the responsible low bidder, and authorize the City Manager to execute all necessary agreements and contracts.

Provisions for Malt Beverages and/or Unfortified Wine at the 1999 Greek Festival

Summary: The consideration of a resolution to allow alcohol at the Asheville Greek Festival on October 1-3, 1999, at the time and location shown on the resolution.

The Asheville Greek Festival is a unique celebration of Greek heritage and traditions at City County Plaza on October 1-3, 1999. Local entertainment, food, and vendor displays will be available daily.

N.C. Gen. Stat. sec. 18B-300(c) authorizes the City by ordinance to regulate or prohibit the consumption and/or possession of open containers of malt beverages and unfortified wine on public streets, and on property owned, occupied or controlled by the City. The City Council of the City of Asheville has adopted an ordinance pursuant to that statutory authority. That ordinance, Section 11-11 in the Code of Ordinances, provides that the City Council may adopt a resolution making other provisions at a special event or community festival.

The Parks and Recreation Department recommends that City Council adopt the resolution allowing the possession and consumption of malt beverages and/or unfortified wine at the Asheville Greek Festival to include the areas as described in the resolution.

Revisions of the Regional Water Authority for Asheville, Buncombe and Henderson County By-Laws

Summary: The consideration of a motion revising the Regional Water Authority's By-Laws to reflect the conditions of the Restated and Amended Supplemental Water Agreement dated August 13, 1996.

Most of the changes reflect the requirements of the amended water agreement, and to update other references which have been revised over time, such as change in position title of the Director's position from Director of Water and Sewer to Director of Water Resources. The existing By-Laws were last adopted before the Water Agreement was updated in 1996. The restated Water Agreement in 1996 made a number of changes to the organization of the Authority, including the number of members of the Authority and the inclusion of representation by Henderson County.

One additional change was included in the By-Laws as approved by the Water Authority on August 17, 1999. On the second page, Section V, line 4, the word "appropriate" was substituted for "good" in front of cause to allow each appointing board to the Water Authority (the City Council, Buncombe County Commission, or Henderson County Commission) to decide by two-thirds vote what is appropriate for removing one of its appointments to the Water Authority before the appointee's three year term ended. Mr. Bill Moyer, a member of the Water Authority and Henderson County Commissioner, expressed the desire of the Henderson Commissioners to remove an appointment from its own board if that individual left the Board of Commissioners before the term on the Water Authority expired.

The Water Agreement requires the Water Authority, the City Council, and the Buncombe County Commissioners to consider changes to the Water Authority By-Laws, with the amended By-Laws considered adopted upon the approval of two of the three boards.

The Regional Water Authority recommends approval of the changes to the By-Laws.

Mayor Sitnick wanted to make sure that City Council receives semi-annual reports from the Water Authority.

Bid Award for Bee Tree Creek Crossing

Summary: The consideration of a resolution adopting the recommendation of the Regional Water Authority to award a contract to Cooper Construction Company for the Bee Tree Creek Crossing Project.

The City Engineer's Office received bids on June 29, 1999, for the Bee Tree Creek Crossing waterline improvement project. This was the second scheduled bid opening as there were not three (3) bids at the first bid opening. This project involves the relocation of a 24-inch waterline, in three (3) separate locations along Bee Tree Creek. These relocations are necessary to insure the continued uninterrupted service of this major waterline.

Two (2) bids were received at the June 29th opening with Buckeye Construction Company submitting the low bid of $ 349,220. Following is a summary of the bids received:

Buckeye Construction Co., Canton, N.C.	$349,220
Cooper Construction Co., Hendersonville, N.C.	$366,025
The engineer's estimate for this project is	$340,000

The Office of Minority Affairs has reviewed these bids and has determined that the low bidder, Buckeye Construction Company, did not fully comply with the requirements for documentation of the Minority Business Plan. The second low bidder, Cooper Construction Company, did comply with the requirements of the Minority Business Plan but their bid is over budget.

The Regional Water Authority voted on August 17, 1999, to reject the bid of Buckeye Construction Company and award the contract to Cooper Construction Company.

Since August 17, 1999, staff has met with Cooper Construction Company as part of a "value engineering" review to negotiate reduction in the contract price. The results of these efforts will be prepared as Change Order No. 1 and executed at the time of execution of the construction contract.

The Regional Water Authority recommends to reject the low bid from Buckeye Construction Company for non-compliance with the Minority Business Plan, and a contract be awarded to Cooper Construction Company.

Councilman Tomes was pleased to see that there is a commitment by the City of Asheville to be intentional when dealing with the Minority Business Plan.

Incident Based Crime Reporting System Grant Award

Summary: The consideration of a resolution to authorize the City Manager to accept a grant award from the North Carolina Department of Crime Control and Public Safety, Division of Governor's Crime Commission.

The Governor's Crime Commission has awarded the City a grant in the amount of $19,950. A local matching contribution of $6,650 is required. Total project cost is $26,600. The intent of the project is to implement an automated crime reporting system for the Police Department which will interface with the existing criminal justice information system and the Department's mobile computer network infrastructure. The switch from a manual process to an automated process will result in greater efficiency and accuracy in the department's crime reporting program.

The source for the local match is 110-0000-233-01-02, controlled substance excise tax revenues.

City staff recommends City Council adopt a (1) resolution authorizing the City Manager to accept the grant award and (2) Budget Ordinance Amendment to appropriate funds to the Police Department budget in support to the above referenced grant.

Agreement with Carolina Power & Light Company for Replacement of Ballfield Lights

Summary: The consideration of an agreement with Carolina Power & Light Company for the replacement of ballfield lights at Murphy-Oakley Park and Weaver Park.

Over the past several years, the ballfield lights at both Murphy-Oakley and Weaver Parks have continued to deteriorate. This has caused not only increased maintenance costs but has also resulted in safety concerns for participants. The Parks and Recreation Department has been working with Carolina Power & Light Company (CP&L) on an innovative approach to replacing the ballfield lights without an upfront capital expense. Traditionally, it has cost approximately $75,000 to replace lights at one field. By working with CP&L, we are able to enter into a lease purchase agreement which would allow for monthly payments to CP&L to cover not only the cost of the lights but also maintenance. The monthly fee for Weaver Park would be $587 and the monthly fee for Oakley would be $1,132. The Parks and Recreation Department currently has funds allocated for this expenditure. As stated before, CP&L will maintain the lights over the ten-year lease agreement. This would include replacing any lights, relining the lights, and any other electrical work at the beginning of spring and fall seasons. In addition, after five years, CP&L will completely rewire and relight both ballfields. This total price is turnkey and includes use of concrete poles, which would replace the current poles at both fields. The Department has been spending approximately $12,000 per year in maintenance costs associated with the outdated lights and feels that this equipment rental and maintenance agreement with CP&L would be extremely advantageous to the City.

The Parks and Recreation Department requests City Council approval for the City Manager to enter into an equipment rental and maintenance agreement with Carolina Power & Light for the replacement of the ballfield lights at Murphy-Oakley Park and Weaver Park.

Councilman Cloninger said that his firm does work for Carolina Power & Light Company and wondered if he had a conflict of interest. City Attorney Oast said that he did not feel that Councilman Cloninger had a conflict of interest.

Renewal of Agreement with State for Regional Response Team for Major Hazardous Materials Emergencies in Western North Carolina

Summary: The consideration of a resolution authorizing the Mayor to enter into a new agreement with the North Carolina Department of Crime Control/Public Safety's Emergency Management Division to provide hazardous materials emergency response in Western North Carolina through June of 2001.

In 1994, the North Carolina Assembly established funding for a "regional response" approach to hazardous materials emergencies. This approach involved selection of the state's top six local fire department hazardous materials response teams to respond to multi-county areas in case of emergency using vehicles and equipment furnished by the state. The Asheville Fire Department's Hazardous Materials Response Team was selected as one of these elite teams.

In 1997, the State called for new competitive proposals for regional hazardous materials response teams, and Asheville's team was selected as the WNC team again. This past May, the State once again called for competitive proposals for regional hazardous materials response teams—and, again, Asheville's team was selected as the WNC regional response team.

The new agreement provides for hazardous materials emergency response for major incidents in North Carolina's 20 western counties from October of 1999 through June of 2001. The State will continue to provide and maintain the team's response vehicle ("RRT 6") and related equipment. The State will also reimburse the City for training expenses (up to $24,500), administrative expenses (up to $31,500), workers compensation expenses (up to $8,750) and medical surveillance/evaluation (up to $14,000) for each year of the proposed two-year agreement.

The Fire Chief recommends City Council adopt a resolution authorizing the Mayor into enter in a new agreement with the State of North Carolina through which the City of Asheville will provide hazardous materials emergency response in Western North Carolina, and the State will furnish response equipment and reimburse expenses of the City's hazardous materials response team for such response.

Budget Amendment re: Hazard Mitigation Grant for French Broad River

Summary: The consideration of a budget amendment, in the amount of $2,382,328, from the Federal Emergency Management Agency as a part of the Hazard Mitigation Program.

The City applied for funds in 1997 for a grant from the Federal Emergency Management Agency as a part of the Hazard Mitigation Program. The grant was recently awarded in the amount of $2,382,328 and is designated for the acquisition and improvement of commercial property for the French Broad River Greenway.

The section of greenway represents the City of Asheville's commitment to revitalize and build a greenway corridor along the French Broad River. Earlier developments in the greenway corridor include the French Broad River Park, Amboy Road Park Trail, and land acquisition. The section of greenway will be located on 7.25 acres along Riverside Drive adjacent to Haywood Road. The grant funds will be used for the acquisition and improvement of commercial property for the French Broad River Greenway.

The Parks and Recreation Department recommends City Council to approve the budget amendment, in the amount of $2,382,328, to establish a budget for implementation of the FEMA grant project.

Grant Application for Food Service in After School Program

Summary: The consideration of a resolution authorizing the City Manager to apply for a grant from and enter into an agreement with the N. C. Dept. of Health and Human Services, Division of Maternal and Child Health, to provide food service in the After School Program.

The Parks and Recreation After School Program provides supervised licensed child care, recreation, enrichment activities, and food service to children ages 5 to 12 during after school hours, teacher work days, and holidays at six program sites. Sites are located at Claxton, Dickson, Hall Fletcher, Jones, and Vance Elementary Schools; and Reid Community Center. Sites are licensed by the State of North Carolina with a child/staff ratio of 1 to 25. Snacks are provided in the afternoon, and breakfast and lunch is provided on holidays and teacher work days. Activities include arts and crafts, games, sports, science, music, homework time, and special events. Fees are based on the number of children from each family and frequency of attendance. The Parks and Recreation Department will contract with Asheville City Schools for food service at a rate of $1.00 per breakfast, $1.95 per lunch, and $.85 per snack. The grant will reimburse the Parks and Recreation Department approximately one third of the cost of providing food service in the After School Program. The number of meals will vary based on the total meals actually served each month.

The Parks and Recreation Department recommends the City of Asheville to apply for the grant funds through the Child and Adult Care Food Program.

New Street Name Approval - Medical Park Drive

Summary: The consideration of a resolution accepting the new proposed street name of "Medical Park Drive."

Sweeten Creek Surgery, LLC. Edward B. Shoff, Marian B. Shoff, Eyeland, LLC, Mission - ST. Joseph's Health System, Inc. owners of lots in The Regional Medical Park have petitioned the City of Asheville to accept the street name "Medical Park Drive."

Staff recommends adoption of the resolution.

New Street Name Approval - Patch Adams Drive

Summary: The consideration of a resolution accepting the new proposed street name of "Patch Adams Drive."

David Buckner, John Backe, Shirley Backe, Jasper J. Boyer, Calvin A. Boyer, owners of all the lots off Sandhill Road have petitioned the City of Asheville to accept the street name "Patch Adams Drive."

Staff recommends adoption of the resolution.

At the request of Councilwoman Field, Planning & Development Director Scott Shuford said that he would give her a report on how streets are named.

New Street Name Approval - Vanderbilt Park Drive

Summary: The consideration of a resolution accepting the new proposed street name of "Vanderbilt Park Drive."

Biltmore Farms, Inc., and Cecil Development Group, Inc., owners of all the lots in Vanderbilt Park South Development have petitioned the City of Asheville to accept the street name "Vanderbilt Park Drive."

Staff recommends adoption of the resolution.

Cable Rates for Rebuild

Summary: The consideration of a resolution which would issue a written decision in response to the filings of an FCC Form 1235 and an FCC Form 1240 by Brenmor Cable Partners, L.P. (d/b/a InterMedia) for monthly rates for the basic service tier on its cable system.

Pursuant to federal law and the regulations of the Federal Communications Commission ("FCC"), the City of Asheville ("City") is certified to regulate basic service rates and charges of Brenmor Cable Partners, L.P. ("InterMedia") in the franchised area of InterMedia within the corporate limits of the City.

On May 19, 1997, the City of Asheville received from InterMedia an FCC Form 1235 entitled "Abbreviated Cost of Service Filing for Cable Network Upgrades". The FCC Form 1235 filed with the City of Asheville by InterMedia was for pre-approval of maximum permitted rates for the basic service tier to recover costs for the rebuild of a portion of the cable system. The City of Asheville reviewed that FCC Form 1235 filed by InterMedia and issued an order in Resolution No. 97-90, extending the review period of the FCC Form 1235 by the City of Asheville by 150 days pursuant to federal laws and regulations.

After further review of the FCC Form 1235 filed by InterMedia, the City Council adopted Resolution No. 97-213 on November 11, 1997, which directed InterMedia to keep an accurate account of all amounts received by reason of the rate increase requested pursuant to the FCC Form 1235 filing by InterMedia, in order that the City may, at its option, subsequently issue a written decision regarding the rate request and determine whether or not refunds should be provided to subscribers after completion of the upgrade or rebuild of the cable system.

FCC regulations require a cable system operator who has chosen the pre-approval option to file the FCC Form 1235 again following the end of the month in which upgraded cable services become available and are providing benefits to all customers of rate-regulated services, using actual costs where applicable. The upgrade or rebuild of the cable system was completed for service to customers as of August 1, 1998.

On March 1, 1999, InterMedia filed FCC Form 1240, for the purpose of justifying its monthly rates and hourly service charges for cable services on the basic service tier on its cable system for the time period of June 1, 1999, to May 31, 2000. The new maximum permitted rate for the monthly rate on the basic service tier as calculated by InterMedia on the FCC Form 1240 for the time period of June 1, 1999 to May 31, 2000, was $10.3579. InterMedia proposed to continue charging the current monthly rate of $11.91 for the time period of June 1, 1999, to May 31, 2000, which amount exceeds the new maximum permitted rate of $10.3579, by relying upon the filing of the FCC Form 1235 submitted to the City on May 16, 1997, which determined that an increase in the basic service tier rate of $1.96 per month would be permitted as of the time of filing, based upon a rebuild of the cable system. The new maximum permitted rate of $10.3579 and the increase in the rate of $1.96 per month based on the filing of the FCC Form 1235 would combine to be a rate of $12.32, which is in excess of the current basic service tier rate charged of $11.91 per month.

Based upon the filing of FCC Form 1240 by InterMedia on March 1, 1999, and the filing of FCC Form 1235 by InterMedia on May 19, 1997, the City Council adopted Resolution No. 99-

82 on May 25, 1999, which noted that InterMedia should file again the FCC Form 1235. The resolution also ordered InterMedia to keep an accurate accounting of all fees charged to subscribers on the basis of the FCC Form 1235 filed on May 16, 1997, and the FCC Form 1240 filed on March 1, 1999, in order that the City of Asheville may subsequently issue a decision on the reasonableness of the rates charged.

After adoption of Resolution No. 99-82 by the City Council on May 25, 1999, InterMedia filed again the FCC Form 1235 with the City of Asheville on June 4, 1999. Additional information was required from the Federal Communications Commission and InterMedia regarding the second filing of the FCC Form 1235, which information has now been received.

After further review of all documents and FCC requirements, it appears that the monthly rate of $11.91 charged by InterMedia for the basic service tier, based upon the filings of FCC Form 1235 on May 19, 1997, and June 4, 1999, and the filing of FCC Form 1240 on March 1, 1999, does not exceed the maximum permitted rate per month for the basic service tier as authorized under FCC rules and regulations. The resolution makes that finding.

City staff recommends City Council adopt the resolution.

Mayor Sitnick asked that the record show that City Council has received this information and instructs the City Manager to place these items on the next formal City Council agenda.

CONTRACT REVISIONS

Mr. David Pisha, Civic Center Director, said that this is the consideration of a resolution authorizing the City Manager to amend the lease agreement with Asheville Professional Hockey, Ltd., for the Asheville Civic Center.

The City and Asheville Professional Hockey have entered into an agreement for an initial period of five years with an optional extension for two additional years. The hockey team, as part of the contract, agreed to purchase an ice rink and related equipment. At the end of the initial contract period, the rink ownership passes to the City. A contractual provision, however, allows the City to assume ownership earlier if it so desires. The team has asked the City to consider the possibility of exercising this option. Staff has reviewed this request and believes it would be in the best interest of the City to do so.

In doing so, the City would assume the approximately $90,000 in annual lease payments for the next four years. The City, however, would not be at any financial risk by completing this transaction because the team is willing to give up its share of revenues from public skating and hockey concessions that were part of the original agreement. This revenue sharing was designed to aid the team in making the lease payments. Furthermore, the team has agreed to make up any monetary shortfall the City may suffer under this new agreement when compared to the old one. Therefore, the amount of net proceeds the City will receive is exactly equal to the previous amount it was due. In addition, the team has agreed to buy a new ice cover of the City's choice totally at its own expense (approximately $75-80,000). This cover will also come under City ownership once the loan necessary to finance it is amortized in at most four years.

Should revenues due the City exceed the amount that would have been earned under the old contract, the excess will be applied to accelerate payments of the ice cover. This would have the effect of transferring ownership of it to the City even sooner.

When the ice rink payment is completed by the City, the terms of the contract revert to the terms contained within the "option years" portion of the current contract. The team will once again receive a share of public skating and hockey concession revenues, however, it will be at substantially reduced rates from the current schedule.

The City has always wanted to own the ice rink and related equipment and taking over the lease payment will allow the City to own the rink sooner. By taking over the ice rink lease, the City will not be in any financial jeopardy since the team will make up any revenue shortfall that may occur. Furthermore, the team is willing to supply a new ice cover at their sole expense and turn it over to City ownership within four years.

Staff recommends City Council accept the proposed changes and direct the City Manager to sign the amended lease agreement.

Mr. Daniel Wilhelm, representing the Asheville Professional Hockey Ltd., said that the main reason they have made this request is because it will take that debt off their books and free up capital for other operations.

Vice-Mayor Hay felt that this new venture with hockey has been successful and was pleased that the City has a good and successful partnership with this organization as well.

Upon inquiry of Councilwoman Field, Mr. Wilhelm said that the new ice cover is anticipated to be here after the first week in October, 1999, and explained the material of the new ice cover.

Mayor Sitnick asked that the record show that City Council has received this information and instructs the City Manager to place this item on the next formal City Council agenda.

ESTABLISHMENT OF A POLICY ON PUBLIC ART FOR THE CITY OF ASHEVILLE

Councilwoman Field, Chair of the group working on public art, said that this is the consideration of adopting a policy on public art and creating a seven-member Public Art Board to oversee this policy.

Ms. Hojun Welker, Urban Trail Coordinator, said that the City of Asheville, although listed as seventh and thirteenth in two national surveys of favorite "art destination" cities of all sizes and ninth in terms of outstanding small town cultural centers, does not have a policy or program on public art. City Council at both its 1998 and 1999 Retreats discussed the need for some sort of mechanism to deal with public art issues and to promote the installation of public art. The *Downtown Streetscape Plan* and the Cultural Arts Task Force of VISION, INC! both have recommended the establishment of a Public Art Board or Commission. City Council has requested staff prepare a public art policy. A Public Art Working Group, chaired by Councilmember Barbara Field and staffed by the Urban Trail Coordinator, has met monthly since November to draft recommendations that form the basis for the proposed policy statement. The City Manager will make adjustments to realign the organization to accomplish the implementation of this policy by transferring the Urban Trail Coordinator from the Public Works Department to the Parks and Recreation Department. This staff person will implement the policy and continue to oversee the Urban Trail Program. Since the focus of Cultural Arts has been in Parks and Recreation, through the support of the YMI programming, special events and festivals, and other cultural programs, locating the Public Arts function in Parks and Recreation is a natural fit. The Public Art Program will be funded through a 1% annual appropriation of the General Capital Improvement Program ($45-50,000) being dedicated to acquisition and maintenance of Public Art. In addition, an establishing the Public Art Board with members being appointed by City Council is recommended.

The Public Works Department and the Parks and Recreation Department recommend that City Council adopt a public art policy and create a seven-member Public Art Board.

Upon inquiry of Vice-Mayor Hay, City Manager Westbrook explained how the money would be allocated.

Mayor Sitnick said that it is important to recognize that this is not just about art, but also about cultural , education, tourism and economics.

Mayor Sitnick said that she would like included in the master plan that we work with local schools, high schools, and surrounding colleges to see if we can set up a program by which graduate art students can create projects for themselves in their senior years with an eye towards creating a piece of work that can used in a public space.

Councilwoman Field said that it was important to note that the City already owns a great deal of art and crafts and we need to be able to maintain it.

Mayor Sitnick asked that the record show that City Council has received this information and instructs the City Manager to place these items on the next formal City Council agenda.

TRANSFER OF PROPERTY TO BUNCOMBE COUNTY FOR WEST ASHEVILLE LIBRARY EXPANSION

Mr. Irby Brinson, Director of Parks & Recreation, said that this is the consideration of a resolution authorizing the transfer of property currently owned by the City of Asheville to Buncombe County for expansion of the West Asheville Branch Library.

A part of the negotiations for the renovation of the upstairs area of the West Asheville Complex included the transfer of approximately 5400 sq. ft. of area to Buncombe County for expansion of the West Asheville Branch Library. The library wishes to expand the current branch to include a resource area for Library programs and meeting space. The Parks and Recreation Department has been working on this particular issue and wishes to recommend proceeding with a deed transfer of the above property to Buncombe County for this specific use. The Department also recommends that a clause be included in the deed transfer that would require Buncombe County to revert the property back to the City of Asheville if the Library ever moves or if this particular use of the property is no longer an function that results in direct customer services to the citizens. Furthermore, the Parks and Recreation Department is asking for City Council approval to begin negotiations involving both City and County Legal staff in finalizing this agreement. The anticipated value of this property based upon information provided by Ed Vess of Community Development will be approximately $27,000.

The Parks and Recreation Department requests City Council approval to proceed with the transfer of approximately 5400 sq. ft. of property currently owned by the City of Asheville to Buncombe County to be used for library expansion at the West Asheville Branch Library.

Mayor Sitnick asked that the record show that City Council has received this information and instructs the City Manager to place this item on the next formal City Council agenda.

RESOLUTION NO. 99-125 - RESOLUTION AUTHORIZING THE CITY MANAGER TO ENTER INTO SERVICE CONTRACTS AND PURCHASE AGREEMENTS NECESSARY TO FACILITATE THE REQUIRED IMPROVEMENTS FOR ACCESSIBILITY AND LIFE-BUILDING SAFETY ISSUES AT THE ASHEVILLE CIVIC CENTER

ORDINANCE NO. 2605 - BUDGET AMENDMENT FOR REQUIRED IMPROVEMENTS AND UPGRADES NECESSARY TO CORRECT ACCESSIBILITY AND LIFE-BUILDING SAFETY ISSUES AT THE ASHEVILLE CIVIC CENTER

Mr. Irby Brinson, Director of Parks & Recreation, said that that this is the consideration of (1) a resolution authorizing the City Manager to enter into service contracts and purchase agreements necessary to facilitate the required improvements for accessibility and life-building safety issues at the Asheville Civic Center; and (2) a budget amendment, in the amount of $122,000, for the required improvements and upgrades necessary to correct accessibility and life-building safety issues at the Asheville Civic Center.

A thorough review has been conducted regarding accessibility and life-building safety issues at the Civic Center, Arena Level, with input from Civic Center staff, the architect (Mathews & Glazer), the structural engineer (Kloesel Engineering), and City of Asheville Building Safety staff (Terry Summey and Harry Taylor). During this review, three different scenarios which included concerts, trade shows, and hockey/public skating were addressed to see how the codes applied to each. The review has produced a comprehensive list of tasks that must receive immediate action to bring the arena level of the Civic Center into compliance with State and local codes regarding accessibility and life-building safety.

The deadline to have the substantial portion of corrective action in place is Friday, October 1, 1999, with all corrective action completed no later than Friday, October 15, 1999. The tentative start date for the project is September 8, 1999, which leaves 28 regular work days (Monday - Friday) and 5 premium work days (Saturdays) to complete the required tasks. It will be necessary to utilize the services of several contractors and material suppliers in an effort to divide the work into several smaller divisions to meet the completion deadline.

Funds for this will be comprised of an appropriation of $82,000 from Fund Balance and re-directing $40,000 from the Civic Center Capital Improvement Projects previously designated for "update of ACC elevator technology."

The Parks and Recreation Department requests City Council to (1) authorize the City Manager to enter into service contracts and purchase agreements necessary to facilitate the required improvements for accessibility and life-building safety issues at the Asheville Civic Center; and (2) authorize a budget amendment, in the amount of $122,000, for the required improvements and upgrades necessary to correct accessibility and life-building safety issues at the Asheville Civic Center.

City Manager Westbrook explained why these actions are being brought to the City Council on short notice.

Councilman Sellers moved to waive the rules and vote at this meeting. This motion was seconded by Councilman Tomes and carried unanimously.

Mayor Sitnick said that members of Council have been previously furnished with a copy of the resolution and the ordinance and they would not be read.

Councilman Cloninger moved for the adoption of Resolution No. 99-125. This motion was seconded by Councilman Sellers and carried unanimously.

RESOLUTION BOOK NO. 25 - PAGE 283

Councilman Cloninger moved for the adoption of Ordinance No. 2605. This motion was seconded by Vice-Mayor Hay and carried unanimously.

ORDINANCE BOOK NO. 17 - PAGE 445

Mayor Sitnick said that she would write a letter to the Buncombe County Board of Commissioners to ask if they would be willing to participate in any of the costs for this work since both City and County residents use the Civic Center.

COMMUNITY ORIENTED POLICING GRANT AWARD

Mr. Alan Hyder, Administrative Services Manager, said that this is the consideration of a resolution authorizing the City Manager to accept a grant award from the U. S. Dept. of Justice, Office of Community Oriented Policing Services (COPS), and to adopt a budget amendment, in the amount of $990,454, to support the grant.

The Police Department is planning a project to install 106 in-car mobile computers, and to fund two non-sworn police service technician (PST) positions. The computers will increase officer efficiency by allowing them to complete and submit reports from the field thereby reducing office time and remaining available for service. The police service technicians will perform non law enforcement related tasks now performed by officers. With the PSTs performing such activities as traffic control and direction, cold crime reporting, and the like officers will have more time to commit to law enforcement and community problem solving.

The City has been awarded a grant from the U.S. Dept. of Justice in the amount of $742,840 to fund a portion of the project cost. As part of the grant requirements, the City is required to contribute local matching funds in the amount of $247,614, which is equivalent to 25% of the total project cost. The City's matching requirement will be financed by appropriating a portion of unappropriated fund balance.

City staff recommends City Council adopt the (1) resolution authorizing the City Manager to accept the grant award; and (2) budget amendment, in the amount of $990,454, to appropriate funds in support of the above referenced grant.

City Manager Westbrook said that there has been a commitment from staff to make law enforcement technology driven. He said some of the greater advancements in terms of law enforcement will be through technology.

Mayor Sitnick said that she wrote to Senator John Edwards to see if the City could get out of having to make the match, however, the restrictions were too great.

Upon inquiry of Councilman Cobb, City Manager Westbrook said that over a period of time, with the use of the in-car mobile computers, our officers will be a lot more effective.

Mayor Sitnick asked that the record show that City Council has received this information and instructs the City Manager to place these items on the next formal City Council agenda.

UDO WORDING AMENDMENTS

Enforcement Procedures & Remedies

214

Assistant City Attorney Patsy Meldrum said that this is the consideration of an ordinance to amend Section 7-18 of Chapter 7 of the Code of Ordinances of the City of Asheville concerning Enforcement Remedies and Procedures.

During June and July of 1999, the Planning and Zoning Commission held various work sessions and regular meetings at which they discussed and recommended a wording amendment concerning the enforcement of zoning violations of the Unified Development Ordinance (UDO).

The amendment was based on a request from City enforcement staff to add language to subsection 7-18-3 describing the contents of the notice of violation. This language was incorporated in the old zoning ordinance but was inadvertently left out of the UDO. The language is as follows:

> The notice of violation may include, but not be limited to, an order to discontinue the illegal use of land, buildings or structures; require removal of illegal buildings, structures or uses or removal of illegal additions, alterations or structural changes; discontinue the illegal work being done; or require any other action to insure compliance with or prevent violation of this chapter.

At the same time this language was requested to be added, the City Attorney's Office recommended relocating the language of subsections (e) and (f) from Section 7-18-3 to new Sections 7-18-4 and 7-18-5 as they described remedies for violations rather than the procedure for and content of notices of violation. The language of subsection 7-18-3 (e) has been relocated to subsection 17-18-4 (a). Other than two minor changes, the language is the same. The minor changes included the addition of the phrase "of a civil penalty" in the first line and the change from "shall" to "may" in the third line. As Section 7-18-2 (c) included criminal penalties as a remedy, a new subsection 17-18-4 (b) was added to set out the enforcement procedure which would be followed in the event of a criminal penalty.

The language in subsection 7-18-3 (f) regarding summary removal of signs/sign structures and remove orders for signs/sign structures was relocated to new Section 7-18-5. Other than a few minor changes, the language is the same. Those minor changes include substituting the word "City" for "Sign Administrator" and "director of building safety" in the first sentence of subsection 7-18-5 (a). In subsection 7-18-5 (b) the first four lines regarding the statutory authority were added.

The Planning and Development staff presented this proposed wording amendment to the Planning and Zoning Commission at their June 24, 1999, worksession and again at their July 7, 1999, regular meeting. After presentation by staff, the Commissioners voted unanimously to recommend to City Council the adoption of this wording amendment.

Mayor Sitnick said that she would like to see the City work with neighborhood groups for kiosks or bulletin boards that can be placed at the entrances to the neighborhoods which yard sale notices, lost dog flyers, etc. can be posted on .

Mayor Sitnick asked that the record show that City Council has received this information and instructs the City Manager to place this item on the next formal City Council agenda.

Signs Located in the Rights-of-Way

Mr. Ownbey said that this is the consideration of an ordinance to amend Section 7-13-3 of Chapter 7 of the Code of Ordinances of the City of Asheville concerning Signs Prohibited in All Zoning Districts - Signs in the Right-of-Way.

During June and July of 1999, the Planning and Zoning Commission held various worksessions and regular meetings at which they discussed and recommended a wording amendment concerning signs in the right-of-way.

The Planning and Development staff presented for review regulations concerning signs in the rights-of-way. This section generally prohibits signs in the right-of-way with the exception of certain specified signs. This amendment to the ordinance strengthens the methods of enforcement by staff, reduces clutter from three permitted signs to two, increases the number of sign faces from three to four by permitting double-face signs, and reduces the height of signs placed in the right-of-way from nine feet to six feet. It also requires review of permits for signs in the right-of-way by the Public Works Department, the City Traffic Engineer, the Planning and Development staff, and written notification to the adjacent property owner. Specific wording is also incorporated to permit City staff to enforce this section of the ordinance within the N.C. Dept. of Transportation right-of-way.

The Planning and Development staff presented this proposed wording amendment to the Planning and Zoning Commission at their June 24, 1999, worksession. After presentation by staff, the Commissioners voted unanimously to recommend to City Council the adoption of this wording amendment.

Mayor Sitnick asked that the record show that City Council has received this information and instructs the City Manager to place this item on the next formal City Council agenda.

Definition of Community Identification Signs and Community Facilities

Mr. Ownbey said that this is the consideration of an ordinance to amend Section 7-2-5 of Chapter 7 of the Code of Ordinances of the City of Asheville defining Community Identification Signs and Community Facilities.

During June and July of 1999, the Planning and Zoning Commission held various work sessions and regular meetings at which they discussed and recommended a wording amendment concerning the definition of Community Identification Signs and Community Facilities.

The Planning and Development staff presented for review the definition of Community Identification Signs and Community Facilities. When staff began amending other sections of the ordinance, we discovered that the terms "community identification signs" and "community facilities" were not specifically defined in the ordinance.

The Planning and Development staff presented this proposed wording amendment to the Planning and Zoning Commission at their June 2, 1999, regular meeting. After presentation by staff, the Commissioners voted unanimously to recommend to City Council the adoption of this wording amendment.

Mayor Sitnick asked that the record show that City Council has received this information and instructs the City Manager to place this item on the next formal City Council agenda.

Size and Location of Community Identification Signs

Mr. Ownbey said that this is the consideration of an ordinance to amend Section 7-13-4 of Chapter 7 of the Code of Ordinances of the City of Asheville regarding On-Premise Signs/Single Tenant Development - Community Identification Signs.

During June and July of 1999, the Planning and Zoning Commission (Commission) held various worksessions and regular meetings at which they discussed and recommended a wording amendment concerning the location and size of community identification signs.

The Planning and Development staff presented for review the location and size of community identification signs. The request was initiated through the Haw Creek Community after they were required by the City to remove their community identification sign and related community facilities panels. At that time, these particular signs were not permitted under the ordinance.

The Commissioners held two hearings concerning the location and size of Community Identification Signs (the Haw Creek community requested additional square footage for identification of community facilities) and approved the maximum square footage of the Community Identification Sign to be equal to that of a subdivision or multi-family sign at 16 square feet based on initial community input and acceptance by community representation at the meeting. After the Commission's decision, it was determined that the proposed sign size does not meet the needs of the community in adequately identifying community facilities because the overall sign size (including the facility panels) would be too small.

The Planning and Development staff presented this proposed wording amendment to the Planning and Zoning Commission at their June 24, 1999, worksession and again at their July 22, 1999, worksession. After presentation by staff and comments from community representation, the Commissioners voted unanimously to recommend to City Council the adoption of this wording amendment outlining the location of the community identification sign and its maximum square footage.

Since that time, the Planning and Development staff has reviewed the recommendation again with the community and agreed that since the purpose of the community identification sign would be to identify an area larger than a subdivision or multi-family development, the size and design should be larger (the recommendation is a total of 24 square feet). The Commissioners were informed about the specifics at the September 1, 1999, meeting and by consensus, they indicated that they did not want to change their recommendation or see the issue remanded back to them.

A representative from the Haw Creek community explained why the neighborhood would like to have a total of 28 square feet, however, he felt the staff recommendation of 24 square feet would be a good compromise.

City Attorney Oast said that City Council postponed these public hearings indefinitely and that a motion on the September 14, 1999, agenda will be necessary to set the date for the public hearings.

UPDATE ON THE SKATEBOARD PARK, APPROPRIATION AND DESIGN CONTRACT

Mr. Jim Orr, Superintendent of Parks, said that this is the consideration of a resolution authorizing the City Manager to enter into a contract with John Fisher Architects for the design and formulation of construction documents for the new skateboard park and approval of a budget amendment from funds collected from outside sources, in the amount of $568,275.00, to establish a budget for commencing the development of the skateboard park.

The concept of a new skateboard park in Asheville came from members of the Skateboard Task Force which is comprised of staff, skateboarders, Asheville Police Department officers, parents and community leaders. Due to the tremendous popularity and success of the "temporary site," City Council directed staff to proceed with locating a permanent site.

A site was located on land owned by the N.C. Department of Transportation. The parcel of land is located between I -240 to the South; Flint Street on the West; and Cherry Street on the North. The skateboard park will be designed in such a way to be a positive feature for the neighborhood and surrounding businesses.

The Skateboard Task Force developed a conceptual design of the new skateboard park. A Request for Proposal process solicited proposals from qualified firms for the final design and to formulate construction documents. The team of John Fisher Architects, Design Associates and Team Pain was selected as the top firm by an interview panel that was comprised of staff, and members of the Skateboard Task Force. The contract for the scope of service as outlined in the Request for Proposal is for $47,775 (Design $20,950, formulation of construction documents $26,825). Staff has developed an overall budget of $568,275 for the development of the skateboard park. As directed by City Council, staff and members of the Skateboard Task Force will be soliciting funds from outside sources for the development of the park.

The Parks and Recreation Department recommends (1) that authorization be given to the City Manager to enter into a contract with John Fisher Architects for the design and formulation of construction documents for the new skateboard park; and (2) approval of a budget amendment from outside funding, in the amount of $568,275, to establish a budget for commencing the development of the skateboard park.

Mayor Sitnick said that she will write a thank you letter to the N.C. Dept. of Transportation for contributing the land for this purpose.

Mayor Sitnick asked that the record show that City Council has received this information and instructs the City Manager to place these items on the next formal City Council agenda.

ESTABLISHMENT OF THE PUBLIC ACCESS CHANNEL COMMISSION

Ms. Robin Westbrook, Public and Community Information Coordinator, said that this is the consideration of an ordinance establishing a Public Access Channel Commission to develop policy and oversee the management of the public access channel.

In August 1998, City Council adopted a Cable Franchise Agreement allowing InterMedia to provide cable service within the city limits of Asheville. As part of this agreement, InterMedia was required to provide three initial channels to be used for public, educational, and/or government programming. A fourth access channel will be provided when certain programming thresholds are met on other channels.

The educational and government channels are established. In November 1998, the Asheville City Council directed staff to prepare a Request For Proposal (RFP) to solicit non-profit organizations who may be interested in managing the public access channel. Staff has prepared, advertised, and disseminated the RFP to interested organizations. The next step in establishing the public access channel is forming the Public Access Channel Commission.

This Commission will be responsible for developing policy for the public access channel and overseeing the management of the channel.

City staff requests that City Council approve the ordinance establishing a Public Access Channel Commission.

Mayor Sitnick asked that the record show that City Council has received this information and instructs the City Manager to place this item on the next formal City Council agenda.

BOARDS & COMMISSIONS

It was the consensus of City Council to have the City Clerk prepare the proper paperwork to confirm the appointment of Stephanie Coleman and Grace Dorn to the Minority Business Commission.

It was the consensus of City Council to prepare the proper paperwork for City Council to reappoint Max Haner and Lionel Williams to the Planning & Zoning Commission. It was also the consensus of City Council to have the City Clerk arrange interviews with Barber Melton, Anne Campbell, Priscilla Bass, Susan Andrew, Jan Howard, Ben Slosman, Peter Alberice and Hedy Fischer for a vacancy on the Planning & Zoning Commission.

It was the consensus of City Council to have the City Clerk arrange interviews with Chris Cavanaugh and possibly Steve Rice (if he is eligible) for a vacancy on the Tourism Development Authority.

It was the consensus of City Council to have the City Clerk arrange an interview with Ted Patton for a vacancy on the Regional Water Authority of Asheville, Buncombe and Henderson County.

OTHER ITEMS:

Mayor Sitnick encouraged City Council liaisons to make reports at the end of the worksession agendas on items they think City Council should be up-dated on.

It was the consensus of City Council to reschedule the Tuesday, October 26, 1999, formal meeting of City Council to Wednesday, October 27, 1999, beginning at 5:00 p.m. in the Council Chamber, 2nd Floor of the City Hall Building, due to the N.C. League of Municipalities Conference being held in Greensboro, N.C., October 24-26, 1999.

City Attorney Oast said that he is looking into a concern raised by Mayor Sitnick about the appointment of the Chair to the Air Pollution Control Board.

ADJOURNMENT:

Mayor Sitnick adjourned the meeting at 5:05 p.m.

Magdalen Burleson
CITY CLERK

Leni Sitnick
MAYOR

Tuesday - September 14, 1999 - 5:00 p.m.

Regular Meeting

Present: Mayor Leni Sitnick, Presiding; Vice-Mayor Edward C. Hay Jr.; Councilman M. Charles Cloninger; Councilman Earl Cobb; Councilwoman Barbara Field; and Councilman O.T. Tomes; City Attorney Robert W. Oast Jr.; City Manager James L. Westbrook Jr.; and City Clerk Magdalen Burleson

Absent: Councilman Thomas G. Sellers

INVOCATION

Vice-Mayor gave the invocation.

I. PROCLAMATIONS:

A. PROCLAMATION PROCLAIMING THE WEEK OF SEPTEMBER 27-OCTOBER 1, 1999, AS "MINORITY ENTERPRISE DEVELOPMENT WEEK"

Councilman Tomes read the proclamation proclaiming September 27-October 1, 1999, as "Minority Enterprise Development Week" in the City of Asheville. He presented the proclamation to Mr. Marvin Vierra.

B. PROCLAMATION PROCLAIMING SEPTEMBER 15-OCTOBER 15, 1999, AS "NATIONAL HISPANIC HERITAGE MONTH "

Mayor Sitnick read the proclamation proclaiming September 15-October 15, 1999, as "National Hispanic Heritage Month " in the City of Asheville. She presented the proclamation to Ms. Oralene Simmons and Ms. Edna Campos, who briefed City Council on some activities taking place during the month.

C. RECOGNITION OF URBAN TRAIL VOLUNTEERS

Vice-Mayor Hay read a certificate recognizing Ms. Grace Gordon Pless and Ms. Harriette Gradman Winner for their special contributions and endeavors to enhance the quality of life in Asheville and to tell the story of the City's rich history.

CONTINUANCE REQUEST

A. PUBLIC HEARING TO CONSIDER AN AMENDMENT TO THE UNIFIED DEVELOPMENT ORDINANCE TO REVISE THE STANDARDS OF WIRELESS TELECOMMUNICATION FACILITIES

Mayor Sitnick said that on September 13, 1999, she received a letter from Mr. Larry McDevitt, attorney representing Bell Atlantic, requesting that the public hearing be postponed in order for his clients to have an opportunity to review the proposed ordinance for input.

Councilman Cloninger moved to postpone the public hearing on this matter until the October 19, 1999, worksession. This motion was seconded by Councilwoman Field and carried unanimously.

II. CONSENT:

A. APPROVAL OF THE MINUTES OF THE REGULAR MEETING HELD ON AUGUST 24, 1999, AND THE WORKSESSION HELD ON SEPTEMBER 7, 1999

B. ORDINANCE NO. 2606 - BUDGET AMENDMENT TO SET UP A MEMORIAL FOR JIM CRUM, FORMER PRINT SHOP MANAGER

Summary: The consideration of a budget amendment, in the amount of $2,152, to set up a memorial for Jim Crum, former City Print Shop Manager.

Jim Crum, former City Print Shop Manager, recently passed away after an extended illness. A number of City employees who knew and worked with Jim expressed an interest in setting up a memorial to Jim as an expression of appreciation for a special person. Since Jim was an avid skier and supporter of youth activities, the idea of establishing an annual scholarship to assist a deserving youth to participate in the City's learn to ski program was suggested as a fitting memorial to Jim. City employees have contributed a total of $1,076 to the City for the memorial and Jim's family have agreed to match the employee contributions bringing the total to $2,152. This action will set up an ongoing appropriation for the use of this amount as a memorial to Jim.

City staff recommends that a budget amendment for the Jim Crum Memorial be approved.

ORDINANCE BOOK NO. 17 - PAGE 448

C. RESOLUTION NO. 99-126 - RESOLUTION AUTHORIZING THE CITY MANAGER TO ENTER INTO A CONTRACT WITH WOLFPEN CORPORATION FOR THE PROJECT KNOWN AS BREVARD ROAD ANNEXATION AREA, PHASE II, CONTRACT A, SEWER SYSTEM IMPROVEMENTS

Summary: The consideration of adopting a resolution awarding the contract for Brevard Road Annexation Area - Phase II - Contract "A" Sewer System Improvements to the lowest responsible bidder, Wolfpen Corporation, in the amount of $249,681.00.

This project is part of the proposed Brevard Road Annexation Area Sanitary Sewer System Improvements and consists of the installation of approximately 3,600 linear feet of eight inch (8") diameter sanitary sewer line and related appurtenances.

The Engineering Department received and publicly opened three (3) bids on Friday, July 30, 1999, at 2:00 p.m. After a thorough review of the bid documents by the Engineering Department and the Office of Minority Affairs, Wolfpen Corporation was found to be the lowest responsible bidder with a total bid of $249,681.00. The Engineer's estimate for this project was $312,555.00.

Wolfpen Corporation has performed several projects of this nature in the past without any major problems.

The construction time for this project is identified as 120 calendar days in the contract documents. The Contractor will be required to pay the sum of $250.00 as liquidated damages for each and every calendar day that he/she shall be in default after the time stipulated in the contract.

Staff recommends that City Council adopt the resolution awarding the bid for Brevard Road Annexation Area - Phase II- Contract "A" Sewer System Improvements to Wolfpen Corporation, the responsible low bidder, and authorize the City Manager to execute all necessary agreements and contracts.

RESOLUTION BOOK NO. 25 - PAGE 284

D. RESOLUTION NO. 99-127 - RESOLUTION ISSUING A WRITTEN DECISION IN RESPONSE TO THE FILLING OF AN FCC FORM 1235 AND AN FCC FORM 1240 BY BRENMOR CABLE PARTNERS, L.P. (d/b/a INTERMEDIA) FOR MONTHLY RATES FOR THE BASIC SERVICE TIER ON ITS CABLE SYSTEM

Summary: The consideration of a resolution which would issue a written decision in response to the filings of an FCC Form 1235 and an FCC Form 1240 by Brenmor Cable Partners, L.P. (d/b/a InterMedia) for monthly rates for the basic service tier on its cable system.

Pursuant to federal law and the regulations of the Federal Communications Commission ("FCC"), the City of Asheville ("City") is certified to regulate basic service rates and charges of Brenmor Cable Partners, L.P. ("InterMedia") in the franchised area of InterMedia within the corporate limits of the City.

On May 19, 1997, the City of Asheville received from InterMedia an FCC Form 1235 entitled "Abbreviated Cost of Service Filing for Cable Network Upgrades". The FCC Form 1235 filed with the City of Asheville by InterMedia was for pre-approval of maximum permitted rates for the basic service tier to recover costs for the rebuild of a portion of the cable system. The City of Asheville reviewed that FCC Form 1235 filed by InterMedia and issued an order in Resolution No. 97-90, extending the review period of the FCC Form 1235 by the City of Asheville by 150 days pursuant to federal laws and regulations.

After further review of the FCC Form 1235 filed by InterMedia, the City Council adopted Resolution No. 97-213 on November 11, 1997, which directed InterMedia to keep an accurate account of all amounts received by reason of the rate increase requested pursuant to the FCC Form 1235 filing by InterMedia, in order that the City may, at its option, subsequently issue a written decision regarding the rate request and determine whether or not refunds should be provided to subscribers after completion of the upgrade or rebuild of the cable system.

FCC regulations require a cable system operator who has chosen the pre-approval option to file the FCC Form 1235 again following the end of the month in which upgraded cable services become available and are providing benefits to all customers of rate-regulated services, using actual costs where applicable. The upgrade or rebuild of the cable system was completed for service to customers as of August 1, 1998.

On March 1, 1999, InterMedia filed FCC Form 1240, for the purpose of justifying its monthly rates and hourly service charges for cable services on the basic service tier on its cable system for the time period of June 1, 1999, to May 31, 2000. The new maximum permitted rate for the monthly rate on the basic service tier as calculated by InterMedia on the FCC Form 1240 for the time period of June 1, 1999 to May 31, 2000, was $10.3579. InterMedia proposed to continue charging the current monthly rate of $11.91 for the time period of June 1, 1999, to May 31, 2000, which amount exceeds the new maximum permitted rate of $10.3579, by relying upon the filing of the FCC Form 1235 submitted to the City on May 16, 1997, which determined that an increase in the basic service tier rate of $1.96 per month would be permitted as of the time of filing, based upon a rebuild of the cable system. The new maximum permitted rate of $10.3579 and the increase in the rate of $1.96 per month based on the filing of the FCC Form 1235 would combine to be a rate of $12.32, which is in excess of the current basic service tier rate charged of $11.91 per month.

Based upon the filing of FCC Form 1240 by InterMedia on March 1, 1999, and the filing of FCC Form 1235 by InterMedia on May 19, 1997, the City Council adopted Resolution No. 99-82 on May 25, 1999, which noted that InterMedia should file again the FCC Form 1235. The resolution also ordered InterMedia to keep an accurate accounting of all fees charged to subscribers on the basis of the FCC Form 1235 filed on May 16, 1997, and the FCC Form 1240 filed on March 1, 1999, in order that the City of Asheville may subsequently issue a decision on the reasonableness of the rates charged.

After adoption of Resolution No. 99-82 by the City Council on May 25, 1999, InterMedia filed again the FCC Form 1235 with the City of Asheville on June 4, 1999. Additional information was required from the Federal Communications Commission and InterMedia regarding the second filing of the FCC Form 1235, which information has now been received.

After further review of all documents and FCC requirements, it appears that the monthly rate of $11.91 charged by InterMedia for the basic service tier, based upon the filings of FCC Form 1235 on May 19, 1997, and June 4, 1999, and the filing of FCC Form 1240 on March 1, 1999, does not exceed the maximum permitted rate per month for the basic service tier as authorized under FCC rules and regulations. The resolution makes that finding.

City staff recommends City Council adopt the resolution.

RESOLUTION BOOK NO. 25 - PAGE 287

E. RESOLUTION NO. 99-128 - RESOLUTION MAKING PROVISIONS FOR THE POSSESSION AND CONSUMPTION OF MALT BEVERAGES AND/OR UNFORTIFIED WINE AT THE 1999 GREEK FESTIVAL

Summary: The consideration of a resolution to allow alcohol at the Asheville Greek Festival on October 1-3, 1999, at the time and location shown on the resolution.

The Asheville Greek Festival is a unique celebration of Greek heritage and traditions at City County Plaza on October 1-3, 1999. Local entertainment, food, and vendor displays will be available daily.

N.C. Gen. Stat. sec. 18B-300(c) authorizes the City by ordinance to regulate or prohibit the consumption and/or possession of open containers of malt beverages and unfortified wine on public streets, and on property owned, occupied or controlled by the City. The City Council of the City of Asheville has adopted an ordinance pursuant to that statutory authority. That ordinance, Section 11-11 in the Code of Ordinances, provides that the City Council may adopt a resolution making other provisions at a special event or community festival.

The Parks and Recreation Department recommends that City Council adopt the resolution allowing the possession and consumption of malt beverages and/or unfortified wine at the Asheville Greek Festival to include the areas as described in the resolution.

RESOLUTION BOOK NO. 25 - PAGE 290

F. MOTION REVISING THE REGIONAL WATER AUTHORITY OF ASHEVILLE, BUNCOMBE AND HENDERSON BY-LAWS

Summary: The consideration of a motion revising the Regional Water Authority's By-Laws to reflect the conditions of the Restated and Amended Supplemental Water Agreement dated August 13, 1996.

Most of the changes reflect the requirements of the amended water agreement, and to update other references which have been revised over time, such as change in position title of the Director's position from Director of Water and Sewer to Director of Water Resources. The existing By-Laws were last adopted before the Water Agreement was updated in 1996. The restated Water Agreement in 1996 made a number of changes to the organization of the Authority, including the number of members of the Authority and the inclusion of representation by Henderson County.

One additional change was included in the By-Laws as approved by the Water Authority on August 17, 1999. On the second page, Section V, line 4, the word "appropriate" was substituted for "good" in front of cause to allow each appointing board to the Water Authority (the City Council, Buncombe County Commission, or Henderson County Commission) to decide by two-thirds vote what is appropriate for removing one of its appointments to the Water Authority before the appointee's three year term ended. Mr. Bill Moyer, a member of the Water Authority and Henderson County Commissioner, expressed the desire of the Henderson Commissioners to remove an appointment from its own board if that individual left the Board of Commissioners before the term on the Water Authority expired.

The Water Agreement requires the Water Authority, the City Council, and the Buncombe County Commissioners to consider changes to the Water Authority By-Laws, with the amended By-Laws considered adopted upon the approval of two of the three boards.

The Regional Water Authority recommends approval of the changes to the By-Laws.

G. RESOLUTION NO. 99-129 - RESOLUTION ADOPTING THE RECOMMENDATIONS OF THE WATER AUTHORITY TO AWARD A BID TO COOPER CONSTRUCTION COMPANY FOR THE BEE TREE CREEK CROSSING

Summary: The consideration of a resolution adopting the recommendation of the Regional Water Authority to award a contract to Cooper Construction Company for the Bee Tree Creek Crossing Project.

The City Engineer's Office received bids on June 29, 1999, for the Bee Tree Creek Crossing waterline improvement project. This was the second scheduled bid opening as there were not three (3) bids at the first bid opening. This project involves the relocation of a 24-inch waterline, in three (3) separate locations along Bee Tree Creek. These relocations are necessary to insure the continued uninterrupted service of this major waterline.

Two (2) bids were received at the June 29th opening with Buckeye Construction Company submitting the low bid of $ 349,220. Following is a summary of the bids received:

Buckeye Construction Co., Canton, N.C.	$349,220
Cooper Construction Co., Hendersonville, N.C.	$366,025
The engineer's estimate for this project is	$340,000

The Office of Minority Affairs has reviewed these bids and has determined that the low bidder, Buckeye Construction Company, did not fully comply with the requirements for documentation of the Minority Business Plan. The second low bidder, Cooper Construction Company, did comply with the requirements of the Minority Business Plan but their bid is over budget.

The Regional Water Authority voted on August 17, 1999, to reject the bid of Buckeye Construction Company and award the contract to Cooper Construction Company.

Since August 17, 1999, staff has met with Cooper Construction Company as part of a "value engineering" review to negotiate reduction in the contract price. The results of these efforts will be prepared as Change Order No. 1 and executed at the time of execution of the construction contract.

The Regional Water Authority recommends to reject the low bid from Buckeye Construction Company for non-compliance with the Minority Business Plan, and a contract be awarded to Cooper Construction Company.

RESOLUTION BOOK NO. 25 - PAGE 292

H. RESOLUTION NO. 99-130 - RESOLUTION AUTHORIZING THE CITY MANAGER TO ACCEPT A GRANT FROM THE N.C. DEPT. OF CRIME CONTROL & PUBLIC SAFETY TO FUND IMPLEMENTATION OF AN AUTOMATED CRIME REPORTING SYSTEM

Summary: The consideration of a resolution to authorize the City Manager to accept a grant award from the North Carolina Department of Crime Control and Public Safety, Division of Governor's Crime Commission.

The Governor's Crime Commission has awarded the City a grant in the amount of $19,950. A local matching contribution of $6,650 is required. Total project cost is $26,600. The intent of the project is to implement an automated crime reporting system for the Police Department which will interface with the existing criminal justice information system and the Department's mobile computer network infrastructure. The switch from a manual process to an automated process will result in greater efficiency and accuracy in the department's crime reporting program.

The source for the local match is 110-0000-233-01-02, controlled substance excise tax revenues.

City staff recommends City Council adopt a (1) resolution authorizing the City Manager to accept the grant award and (2) Budget Ordinance Amendment to appropriate funds to the Police Department budget in support to the above referenced grant.

RESOLUTION BOOK NO. 25 - PAGE 293

I. ORDINANCE NO. 2607 - BUDGET AMENDMENT TO FUND THE IMPLEMENTATION OF AN AUTOMATED CRIME REPORTING SYSTEM

Summary: See Consent Agenda Item "H" above.

ORDINANCE BOOK NO. 17 - PAGE 450

J. RESOLUTION NO. 99-131 - RESOLUTION AUTHORIZING THE CITY MANAGER TO ACCEPT A GRANT FROM THE U.S. DEPT. OF JUSTICE TO FUND A COMMUNITY POLICING PROJECT

Summary: The consideration of a resolution authorizing the City Manager to accept a grant award from the U. S. Dept. of Justice, Office of Community Oriented Policing Services (COPS), and to adopt a budget amendment, in the amount of $990,454, to support the grant.

The Police Department is planning a project to install 106 in-car mobile computers, and to fund two non-sworn police service technician (PST) positions. The computers will increase officer efficiency by allowing them to complete and submit reports from the field thereby reducing office time and remaining available for service. The police service technicians will perform non law enforcement related tasks now performed by officers. With the PSTs performing such activities as traffic control and direction, cold crime reporting, and the like officers will have more time to commit to law enforcement and community problem solving.

The City has been awarded a grant from the U.S. Dept. of Justice in the amount of $742,840 to fund a portion of the project cost. As part of the grant requirements, the City is required to contribute local matching funds in the amount of $247,614, which is equivalent to 25% of the total project cost. The City's matching requirement will be financed by appropriating a portion of unappropriated fund balance.

City staff recommends City Council adopt the (1) resolution authorizing the City Manager to accept the grant award; (2) budget amendment, in the amount of $990,454, to appropriate funds in support of the above referenced grant.

RESOLUTION BOOK NO. 25 - PAGE 294

K. ORDINANCE NO. 2608 - BUDGET AMENDMENT TO SUPPORT A GRANT FROM THE U.S. DEPT. OF JUSTICE TO FUND A COMMUNITY POLICING PROJECT

Summary: See Consent Agenda Item "J" above.

ORDINANCE BOOK NO. 17 - PAGE 453

L. RESOLUTION NO. 99-132 - RESOLUTION CONFIRMING APPOINTMENTS TO THE MINORITY BUSINESS COMMISSION

Summary: The consideration of a resolution confirming the appointments of Stephanie Coleman, representative of the Eagle/Market Streets Development Corporation, and Grace Dorn, representative of the NAACP, on the Minority Business Commission.

On May 26, 1998, City Council adopted Resolution No. 98-63 adopting a City-County Minority Business Plan.

The composition of the Minority Business Commission consists of 13 members from various groups.

Jill Arrington, representing the Eagle/Market Streets Development Corporation, and Christy Credle, representing the NAACP, have resigned due to relocation and personal time constraints, respectively. The Commission has met and recommends to City Council the appointments of (1) Stephanie Coleman to serve the unexpired term of Ms. Arrington, term to expire August 1, 2001, or until her successor has been appointed; and (2) Grace Dorn to serve the unexpired term of Ms. Credle, term to expire August 1, 2000, or until her successor has been appointed.

City staff recommends City Council adopt a resolution confirming the appointments of Stephanie Coleman and Grace Dorn on the Minority Business Commission.

RESOLUTION BOOK NO. 25 - PAGE 295

M. RESOLUTION NO. 99-133 - RESOLUTION ESTABLISHING A PUBLIC ART POLICY

Summary: The consideration of adopting a policy on public art and creating a seven-member Public Art Board to oversee this policy.

The City of Asheville, although listed as seventh and thirteenth in two national surveys of favorite "art destination" cities of all sizes and ninth in terms of outstanding small town cultural centers, does not have a policy or program on public art. City Council at both its 1998 and 1999 Retreats discussed the need for some sort of mechanism to deal with public art issues and to promote the installation of public art. The *Downtown Streetscape Plan* and the Cultural Arts Task Force of VISION, INC! both have recommended the establishment of a Public Art Board or Commission. City Council has requested staff prepare a public art policy. A Public Art Working Group, chaired by Councilmember Barbara Field and staffed by the Urban Trail Coordinator, has met monthly since November to draft recommendations that form the basis for the proposed policy statement. The City Manager will make adjustments to realign the organization to accomplish the implementation of this policy by transferring the Urban Trail Coordinator from the Public Works Department to the Parks and Recreation Department. This staff person will implement the policy and continue to oversee the Urban Trail Program. Since the focus of Cultural Arts has been in Parks and Recreation, through the support of the YMI programming, special events and festivals, and other cultural programs, locating the Public Arts function in Parks and Recreation is a natural fit. The Public Art Program will be funded through a 1% annual appropriation of the General Capital Improvement Program being dedicated to acquisition and maintenance of Public Art. In addition, an establishing the Public Art Board with members being appointed by City Council is recommended.

The Public Works Department and the Parks and Recreation Department recommend that City Council adopt a public art policy and create a seven-member Public Art Board.

RESOLUTION BOOK NO. 25 - PAGE 296

N. ORDINANCE NO. 2609 - ORDINANCE ESTABLISHING A PUBLIC ART BOARD

Summary: See Consent Item "M" above.

ORDINANCE BOOK NO. 17 - PAGE 456

O. RESOLUTION NO. 99-134 - RESOLUTION AUTHORIZING THE CITY MANAGER TO ENTER INTO AN AGREEMENT WITH CAROLINA POWER & LIGHT COMPANY FOR THE REPLACEMENT OF BALLFIELD LIGHTS AT MURPHY-OAKLEY PARK AND WEAVER PARK

Summary: The consideration of an agreement with Carolina Power & Light Company for the replacement of ballfield lights at Murphy-Oakley Park and Weaver Park.

Over the past several years, the ballfield lights at both Murphy-Oakley and Weaver Parks have continued to deteriorate. This has caused not only increased maintenance costs but has also resulted in safety concerns for participants. The Parks and Recreation Department has been working with Carolina Power & Light Company (CP&L) on an innovative approach to replacing the ballfield lights without an upfront capital expense. Traditionally, it has cost approximately $75,000 to replace lights at one field. By working with CP&L, we are able to enter into a lease purchase agreement which would allow for monthly payments to CP&L to cover not only the cost of the lights but also maintenance. The monthly fee for Weaver Park would be $587 and the monthly fee for Oakley would be $1,132. The Parks and Recreation Department currently has funds allocated for this expenditure. As stated before, CP&L will maintain the lights over the ten-year lease agreement. This would include replacing any lights, relining the lights, and any other electrical work at the beginning of spring and fall seasons. In addition, after five years, CP&L will completely rewire and relight both ballfields. This total price is turnkey and includes use of concrete poles, which would replace the current poles at both fields. The Department has been spending approximately $12,000 per year in maintenance costs associated with the outdated lights and feels that this equipment rental and maintenance agreement with CP&L would be extremely advantageous to the City.

The Parks and Recreation Department requests City Council approval for the City Manager to enter into an equipment rental and maintenance agreement with Carolina Power & Light for the replacement of the ballfield lights at Murphy-Oakley Park and Weaver Park.

RESOLUTION BOOK NO. 25 - PAGE 299

P. RESOLUTION NO. 99-135 - RESOLUTION AUTHORIZING THE MAYOR TO ENTER INTO A NEW AGREEMENT WITH THE STATE OF NORTH CAROLINA FOR RENEWAL OF THE ASHEVILLE FIRE DEPARTMENT'S HAZARDOUS MATERIALS RESPONSE TEAM'S STATUS AS "REGIONAL RESPONSE TEAM" FOR MAJOR HAZARDOUS MATERIALS EMERGENCIES IN WESTERN NORTH CAROLINA

Summary: The consideration of a resolution authorizing the Mayor to enter into a new agreement with the North Carolina Department of Crime Control/Public Safety's Emergency Management Division to provide hazardous materials emergency response in Western North Carolina through June of 2001.

In 1994, the North Carolina Assembly established funding for a "regional response" approach to hazardous materials emergencies. This approach involved selection of the state's top six local fire department hazardous materials response teams to respond to multi-county areas in case of emergency using vehicles and equipment furnished by the state. The Asheville Fire Department's Hazardous Materials Response Team was selected as one of these elite teams.

In 1997, the State called for new competitive proposals for regional hazardous materials response teams, and Asheville's team was selected as the WNC team again. This past May, the State once again called for competitive proposals for regional hazardous materials response teams—and, again, Asheville's team was selected as the WNC regional response team.

The new agreement provides for hazardous materials emergency response for major incidents in North Carolina's 20 western counties from October of 1999 through June of 2001.

The State will continue to provide and maintain the team's response vehicle ("RRT 6") and related equipment. The State will also reimburse the City for training expenses (up to $24,500), administrative expenses (up to $31,500), workers compensation expenses (up to $8,750) and medical surveillance/evaluation (up to $14,000) for each year of the proposed two-year agreement.

The Fire Chief recommends City Council adopt a resolution authorizing the Mayor into enter into a new agreement with the State of North Carolina through which the City of Asheville will provide hazardous materials emergency response in Western North Carolina, and the State will furnish response equipment and reimburse expenses of the City's hazardous materials response team for such response.

RESOLUTION BOOK NO. 25 - PAGE 300

Q. ORDINANCE NO. 2610 - BUDGET AMENDMENT FROM THE FEDERAL EMERGENCY MANAGEMENT AGENCY AS A PART OF THE HAZARD MITIGATION PROGRAM FOR THE FRENCH BROAD RIVER

Summary: The consideration of a budget amendment, in the amount of $2,382,328, from the Federal Emergency Management Agency as a part of the Hazard Mitigation Program.

The City applied for funds in 1997 for a grant from the Federal Emergency Management Agency as a part of the Hazard Mitigation Program. The grant was recently awarded in the amount of $2,382,328 and is designated for the acquisition and improvement of commercial property for the French Broad River Greenway.

The section of greenway represents the City of Asheville's commitment to revitalize and build a greenway corridor along the French Broad River. Earlier developments in the greenway corridor include the French Broad River Park, Amboy Road Park Trail, and land acquisition. The section of greenway will be located on 7.25 acres along Riverside Drive adjacent to Haywood Road. The grant funds will be used for the acquisition and improvement of commercial property for the French Broad River Greenway.

The Parks and Recreation Department recommends City Council to approve the budget amendment, in the amount of $2,382,328, to establish a budget for implementation of the FEMA grant project.

ORDINANCE BOOK NO. 17 - PAGE 460

R. RESOLUTION NO. 99-136 - RESOLUTION AUTHORIZING THE TRANSFER OF PROPERTY TO BUNCOMBE COUNTY FOR EXPANSION OF THE WEST ASHEVILLE BRANCH LIBRARY

Summary: The consideration of a resolution authorizing the transfer of property currently owned by the City of Asheville to Buncombe County for expansion of the West Asheville Branch Library.

A part of the negotiations for the renovation of the upstairs area of the West Asheville Complex included the transfer of approximately 5400 sq. ft. of area to Buncombe County for expansion of the West Asheville Branch Library. The library wishes to expand the current branch to include a resource area for Library programs and meeting space. The Parks and Recreation Department has been working on this particular issue and wishes to recommend proceeding with a deed transfer of the above property to Buncombe County for this specific use.

The Department also recommends that a clause be included in the deed transfer that would require Buncombe County to revert the property back to the City of Asheville if the Library ever moves or if this particular use of the property is no longer an active function that results in direct customer services to the citizens. Furthermore, the Parks and Recreation Department is asking for City Council approval to begin negotiations involving both City and County Legal staff in finalizing this agreement. The anticipated value of this property based upon information provided by Ed Vess of Community Development will be approximately $27,000.

The Parks and Recreation Department requests City Council approval to proceed with the transfer of approximately 5400 sq. ft. of property currently owned by the City of Asheville to Buncombe County to be used for library expansion at the West Asheville Branch Library.

RESOLUTION BOOK NO. 25 - PAGE 301

S. RESOLUTION NO. 99-137 - RESOLUTION AUTHORIZING THE CITY MANAGER TO APPLY FOR AND ENTER INTO AN AGREEMENT WITH THE N.C. DEPT. OF HEALTH AND HUMAN SERVICES TO FUND THE AFTER SCHOOL FOOD SERVICE PROGRAM.

Summary: The consideration of a resolution authorizing the City Manager to apply for a grant from and enter into an agreement with the N. C. Dept. of Health and Human Services, Division of Maternal and Child Health, to provide food service in the After School Program.

The Parks and Recreation After School Program provides supervised licensed child care, recreation, enrichment activities, and food service to children ages 5 to 12 during after school hours, teacher work days, and holidays at six program sites. Sites are located at Claxton, Dickson, Hall Fletcher, Jones, and Vance Elementary Schools; and Reid Community Center. Sites are licensed by the State of North Carolina with a child/staff ratio of 1 to 25. Snacks are provided in the afternoon, and breakfast and lunch is provided on holidays and teacher work days. Activities include arts and crafts, games, sports, science, music, homework time, and special events. Fees are based on the number of children from each family and frequency of attendance. The Parks and Recreation Department will contract with Asheville City Schools for food service at a rate of $1.00 per breakfast, $1.95 per lunch, and $.85 per snack. The grant will reimburse the Parks and Recreation Department approximately one third of the cost of providing food service in the After School Program. The number of meals will vary based on the total meals actually served each month.

The Parks and Recreation Department recommends the City of Asheville to apply for the grant funds through the Child and Adult Care Food Program.

RESOLUTION BOOK NO. 25 - PAGE 302

T. RESOLUTION NO. 99-138 - RESOLUTION AUTHORIZING THE CITY MANAGER TO ENTER INTO A CONTRACT WITH JOHN FISHER, ARCHITECTS, FOR THE DESIGN AND FORMULATION OF CONSTRUCTION DOCUMENTS FOR THE NEW SKATEBOARD PARK

Summary: The consideration of a resolution authorizing the City Manager to enter into a contract with John Fisher Architects for the design and formulation of construction documents for the new skateboard park and approval of a budget amendment from funds collected from outside sources, in the amount of $568,275.00, to establish a budget for commencing the development of the skateboard park.

The concept of a new skateboard park in Asheville came from members of the Skateboard Task Force which is comprised of staff, skateboarders, Asheville Police Department officers, parents and community leaders. Due to the tremendous popularity and success of the "temporary site," City Council directed staff to proceed with locating a permanent site.

A site was located on land owned by the N.C. Department of Transportation. The parcel of land is located between I -240 to the South; Flint Street on the West; and Cherry Street on the North. The skateboard park will be designed in such a way to be a positive feature for the neighborhood and surrounding businesses.

The Skateboard Task Force developed a conceptual design of the new skateboard park. A Request for Proposal process solicited proposals from qualified firms for the final design and to formulate construction documents. The team of John Fisher Architects, Design Associates and Team Pain was selected as the top firm by an interview panel that was comprised of staff, and members of the Skateboard Task Force. The contract for the scope of service as outlined in the Request for Proposal is for $47,775.00 (Design $20,950.00, formulation of construction documents $26,825.00). Staff has developed an overall budget of $568,275.00 for the development of the skateboard park. As directed by City Council, staff and members of the Skateboard Task Force will be soliciting funds from outside sources for the development of the park.

The Parks and Recreation Department recommends (1) that authorization be given to the City Manager to enter into a contract with John Fisher Architects for the design and formulation of construction documents for the new skateboard park; and (2) approval of a budget amendment from outside funding, in the amount of $568,275.00, to establish a budget for commencing the development of the skateboard park.

V. RESOLUTION NO. 99-139 - RESOLUTION ACCEPTING THE NEW STREET NAME OF "VANDERBILT PARK DRIVE" LOCATED OFF OF HENDERSONVILLE ROAD IN VANDERBILT PARK SOUTH DEVELOPMENT EXTENDING TO THE CUL-DE-SAC

Summary: The consideration of a resolution accepting the new proposed street name of "Vanderbilt Park Drive."

Biltmore Farms, Inc., and Cecil Development Group, Inc., owners of all the lots in Vanderbilt Park South Development have petitioned the City of Asheville to accept the street name "Vanderbilt Park Drive."

Staff recommends adoption of the resolution.

RESOLUTION BOOK NO. 25 - PAGE 304

W. RESOLUTION NO. 99-140 - RESOLUTION ACCEPTING THE NEW STREET NAME OF "PATCH ADAMS DRIVE" LOCATED OFF OF SANDHILL ROAD TO A DEAD-END

Summary: The consideration of a resolution accepting the new proposed street name of "Patch Adams Drive."

David Buckner, John Backe, Shirley Backe, Jasper J. Boyer, Calvin A. Boyer, owners of all the lots off Sandhill Road have petitioned the City of Asheville to accept the street name "Patch Adams Drive."

Staff recommends adoption of the resolution.

RESOLUTION BOOK NO. 25 - PAGE 305

X. RESOLUTION NO. 99-141 - RESOLUTION ACCEPTING THE NEW STREET NAME OF "MEDICAL PARK DRIVE" LOCATED OFF OF SWEETEN CREEK ROAD IN REGIONAL MEDICAL PARK

Summary: The consideration of a resolution accepting the new proposed street name of "Medical Park Drive."

Sweeten Creek Surgery, LLC. Edward B. Shoff, Marian B. Shoff, Eyeland, LLC, Mission - ST. Joseph's Health System, Inc. owners of lots in The Regional Medical Park have petitioned the City of Asheville to accept the street name "Medical Park Drive."

Staff recommends adoption of the resolution.

RESOLUTION BOOK NO. 25 - PAGE 306

Y. ORDINANCE NO. 2612 - ORDINANCE ESTABLISHING THE PUBLIC ACCESS CHANNEL COMMISSION

Summary: The consideration of an ordinance establishing a Public Access Channel Commission to develop policy and oversee the management of the public access channel.

In August 1998, City Council adopted a Cable Franchise Agreement allowing InterMedia to provide cable service within the city limits of Asheville. As part of this agreement, InterMedia was required to provide three initial channels to be used for public, educational, and/or government programming. A fourth access channel will be provided when certain programming thresholds are met on other channels.

The educational and government channels are established. In November 1998, the Asheville City Council directed staff to prepare a Request For Proposal (RFP) to solicit non-profit organizations who may be interested in managing the public access channel. Staff has prepared, advertised, and disseminated the RFP to interested organizations. The next step in establishing the public access channel is forming the Public Access Channel Commission.

This Commission will be responsible for developing policy for the public access channel and overseeing the management of the channel.

City staff requests that City Council approve the ordinance establishing a Public Access Channel Commission.

Mayor Sitnick said that members of Council have been previously furnished with a copy of the resolutions and ordinances and the Consent Agenda and they would not be read.

Councilwoman Field moved for the adoption of the Consent Agenda. This motion was seconded by Councilman Tomes and carried unanimously.

III. PUBLIC HEARINGS:

IV. UNFINISHED BUSINESS:

V. NEW BUSINESS:

A. RESOLUTION NO. 99-143 - RESOLUTION APPROVING PURCHASE OF CIVIC CENTER ICE FLOOR AND RELATED EQUIPMENT

City Attorney Bob Oast said that this is the consideration of a resolution authorizing the City to purchase the Civic Center ice floor.

Pursuant to the City's lease with Asheville Smoke Pro Hockey (ASPH), ASPH is responsible for providing a competition-grade ice floor for the hockey team. At the end of the five-year initial term of the lease, the City became the owner of the ice floor and related equipment (dasherboards, plexiglass, etc.). The lease provides that, at the end of any of the first four years of the lease, the City may purchase the floor from ASPH essentially for the balance remaining on ASPH's financing obligation (assuming a straight line declining balance).

The City has negotiated with ASPH for the purchase of the floor, on slightly different terms than contemplated in the lease, and City Council has adopted or will adopt a resolution authorizing the City Manager to proceed with appropriate amendments to the lease. This resolution authorizes the City to proceed with the purchase of the ice floor and related equipment.

Ordinarily, purchases of equipment and apparatus are subject to the statutory competitive bidding process. However, the statute provides an exception to the competitive bidding process where the item to be purchased is available from only one source, or when performance or price competition is not available, or when compatibility is an overriding consideration. Purchases made under this section must be approved by the City Council prior to awarding the contract.

The Civic Center ice floor is not a regulation size hockey floor; it was custom fitted to our facility, and is essentially one of a kind. Moreover, following a competitive process conducted by ASPH, and United Hockey League, and in consultation with the Civic Center, Burley's Rink Supply, the manufacturer and installer of the ice floor, was determined to be the only company that could meet the particular needs of the Civic Center and ASPH. Accordingly, the exception in the statute appears to clearly apply, and the resolution contains these findings. We are in the process of obtaining affidavits and other documentation to support this determination.

Whether the City assumes ASPH's loan in connection with this purchase or seeks its own financing, the purchase will be by installment contract. Because the term of the installment purchase contract is less than 5 years, and the amount to be financed is less than $500,000, no approval by the Local Government Commission is required. Because this is not a purchase of real property, no public hearing is required.

If City Council wishes to proceed with the purchase of the Civic Center ice floor and related equipment, adoption of the resolution is recommended.

Mayor Sitnick said that members of Council have been previously furnished with a copy of the resolution and it would not be read.

Vice-Mayor Hay moved for the adoption of Resolution No. 99-143. This motion was seconded by Councilman Cloninger and carried unanimously.

RESOLUTION BOOK NO. 25 - PAGE 306

B. RESOLUTION NO. 99-144 - RESOLUTION AUTHORIZING THE CITY MANAGER TO AMEND THE LEASE AGREEMENT WITH ASHEVILLE PROFESSIONAL HOCKEY, LTD., FOR THE ASHEVILLE CIVIC CENTER

Mr. David Pisha, Civic Center Director, said that this is the consideration of a resolution authorizing the City Manager to amend the lease agreement with Asheville Professional Hockey, Ltd., for the Asheville Civic Center.

The City and Asheville Professional Hockey have entered into an agreement for an initial period of five years with an optional extension for two additional years. The hockey team, as part of the contract, agreed to purchase an ice rink and related equipment. At the end of the initial contract period, the rink ownership passes to the City. A contractual provision, however, allows the City to assume ownership earlier if it so desires. The team has asked the City to consider the possibility of exercising this option. Staff has reviewed this request and believes it would be in the best interest of the City to do so.

In doing so, the City would assume the approximately $90,000 in annual lease payments for the next four years. The City, however, would not be at any financial risk by completing this transaction because the team is willing to give up its share of revenues from public skating and hockey concessions that were part of the original agreement. This revenue sharing was designed to aid the team in making the lease payments. Furthermore, the team has agreed to make up any monetary shortfall the City may suffer under this new agreement when compared to the old one. Therefore, the amount of net proceeds the City will receive is exactly equal to the previous amount it was due. In addition, the team has agreed to buy a new ice cover of the City's choice totally at its own expense. This cover will also come under City ownership once the loan necessary to finance it is amortized in at most four years.

Should revenues due the City exceed the amount that would have been earned under the old contract, the excess will be applied to accelerate payments of the ice cover. This would have the effect of transferring ownership of it to the City even sooner.

When the ice rink payment is completed by the City, the terms of the contract revert to the terms contained within the "option years" portion of the current contract. The team will once again receive a share of public skating and hockey concession revenues, however, it will be at substantially reduced rates from the current schedule.

The City has always wanted to own the ice rink and related equipment and taking over the lease payment will allow the City to own the rink sooner. By taking over the ice rink lease, the City will not be in any financial jeopardy since the team will make up any revenue shortfall that may occur. Furthermore, the team is willing to supply a new ice cover at their sole expense and turn it over to City ownership within four years.

Staff recommends City Council accept the proposed changes and direct the City Manager to sign the amended lease agreement.

Mr. Pisha responded to a question from Councilwoman Field relative to the maintenance of the darker material for the ice cover.

Mayor Sitnick said that members of Council have been previously furnished with a copy of the resolution and it would not be read.

Councilman Cloninger moved for the adoption of Resolution No. 99-144. This motion was seconded by Councilman Tomes and carried unanimously.

VI. OTHER BUSINESS:

A. LAWSUITS

The following lawsuit was received on August 19, 1999: Carrier Heights Neighborhood Association v. City of Asheville. The nature of the proceeding is: appealing Board of Adjustment decision upholding issuance of Level II permit. This matter will be handled in-house.

The following lawsuit was received on August 25, 1999: George E. Davis and Patricia D. Davis, and Ervin L. Ball Jr. and Carol Ball v. City of Asheville and Board of Adjustment. The nature of the proceeding is: appealing Board of Adjustment decision to deny petitioners' variance requests. This matter will be handled in house.

The following lawsuit was received on August 25, 1999: Outdoor Communications Inc. (now Lamar-OCI South Corporation) v. Board of Adjustment. The nature of the proceeding is: appealing Board of Adjustment decision dismissing appeal from Notice of Violation. This matter will be handled in-house.

The following lawsuit was received on August 27, 1999: Morris Communications Corporation (d/b/a Fairway Outdoor Advertising) v. Zoning Board of Adjustment. The nature of the proceeding is: appealing Board of Adjustment decision dismissing appeal from Notice of Violation. This matter will be handled in-house.

VII. INFORMAL DISCUSSION AND PUBLIC COMMENT:

Comments by June Lamb

Ms. June Lamb, resident of 16 Carrier Street, thanked City Council for approving the transfer of property to Buncombe County for the expansion of the West Asheville Branch Library and hoped that Council would look favorably at funding for that project.

Ms. Lamb suggested that it might be helpful for someone to read the list of consent agenda items so when the meeting is televised, the public will know what items are being considered.

VIII. ADJOURNMENT:

Mayor Sitnick adjourned the meeting at 5:37 p.m.

Magdalen Burleson
CITY CLERK

Leni Sitnick
MAYOR

Tuesday - September 21, 1999 - 2:40 p.m.

Worksession

Present: Mayor Leni Sitnick, Presiding; Vice-Mayor Edward C. Hay Jr.; Councilman M. Charles Cloninger (arrived at 2:45 p.m.); Councilman Earl Cobb; Councilwoman Barbara Field; Councilman Thomas G. Sellers; and Councilman O.T. Tomes; City Attorney Robert W. Oast Jr.; Assistant City Manager S. Douglas Spell; and City Clerk Magdalen Burleson

Absent: City Manager James L. Westbrook Jr.

CLOSED SESSION

At 2:40 p.m. Councilman Cobb moved to go into closed session to establish or to instruct the City's staff or negotiating agents concerning the position to be taken by or on behalf of the City in negotiating the terms of a contract for the acquisition of real property by purchase, option, exchange or lease. The statutory authorization is contained in G. S. 143-318.11 (a) (5). This motion was seconded by Councilman Sellers and carried unanimously.

At 3:00 p.m., Councilman Sellers moved to come out of closed session. This motion was seconded by Councilman Cloninger and carried unanimously.

CONSENT:

Public Auction

Summary: The consideration of a resolution authorizing the Purchasing Director to dispose of City-owned personal property by public auction.

The resolution authorizes the City's Purchasing Division to hold a public auction to dispose of motor vehicles, off-road equipment, and other miscellaneous property declared as surplus by various City departments. The auction is to be held Saturday, October 16, 1999, at 10:00 a.m. in the Public Works Complex, 161 S. Charlotte Street.

City staff recommends City Council approve the resolution authorizing the Purchasing Director to dispose of City-owned personal property by public auction.

Fire Station #4 Roof Replacement Contract

Summary: The consideration of a resolution authorizing the City Manager to enter into a roof replacement contract for Fire Station #4 on 300 Merrimon Avenue.

In an effort to maintain City facilities, City staff, through the capital improvement process, has determined Fire Station #4 at 300 Merrimon Avenue requires roof replacement. City staff solicited sealed bids from seven Roofing Contractors, three of which were minority contractors, to supply and install a new roofing system. City staff received bids from three qualified bidders which are as follows:

Construction Advantage, Inc.	$34,474.00
Service One, Inc.	$37,070.00
Stroup Sheet Metal Works, Inc.	$41,480.00

City staff has reviewed all bids and determined that Construction Advantage, Inc. is the lowest bidder and, therefore, recommends acceptance of the base bid amount of $34,474.00.

237

Approved funding is available in the capital improvement project account to pay for this roof replacement for Fire Station #4.

The Parks and Recreation Department requests City Council authorize the City Manager to enter into a contract for $ 34,474.00 with Construction Advantage, Inc., for this project.

Hawthorne Village Resurfacing Agreement

Summary: The consideration of a resolution authorizing the City Manager to enter into an agreement with Asheville Paving Company to resurface streets located in Hawthorne Village Subdivision in Asheville, North Carolina.

The City is in need of a contractor to provide paving and resurfacing services for streets in Hawthorne Village Subdivision. In accordance with N.C. Gen. Stat. sec. 143-131, informal bids for paving and resurfacing services were solicited and three responses were received. The bidders are listed below:

Company	Bid
Asheville Paving Company	$43/Ton (not to exceed $47,000)
Tarheel Paving Inc.	$47/Ton
Lonesome Mountain Paving Company	$57/Ton
Asphalt Unlimited	$50/Ton

Funding for this project has already been allocated in the Public Works Department's Capital Improvement budget.

The Public Works Department staff recommends City Council adopt the Resolution Authorizing the City Manager of the City of Asheville to enter into contract with Asheville Paving Company to resurface roads in Hawthorne Village Subdivision.

FAA Grant Agreement

Summary: The consideration of a resolution approving a grant from the Federal Aviation Administration in an amount not to exceed $1,076,956. This grant consists of the following projects: Y2K Verification, Master Plan Update, Wildlife Fencing, ARFF Road and Perimeter Security Road - Phase I.

Application for Elderly and Disabled Transportation Assistance Program Grant

Summary: The consideration of an application for a $20,700 grant of state money routed through Buncombe County for transportation of elderly people to recreation programs in the area.

The City of Asheville has applied for $20,700 for use in transporting elderly persons for recreational purposes. The Parks and Recreation Department will use this money for nutrition programs and additional transportation to events for seniors. These events include such things as a Labor Day picnic, in conjunction with the Council for Aging at Lake Julian and the UNC-A Holiday Concert at UNC-A Campus. These are new trips which the Department has not provided prior to this grant.

The Grant will take the form of a credit when applicable to costs incurred through the use of Mountain Mobility, and disbursements to the City when and if other transportation sources are used. This grant requires no matching amount on the part of the City.

City staff recommends City Council authorize the City Manager to apply for and enter into an agreement with Buncombe County for a grant to transport elderly people to recreation programs in the area.

Acceptance of Street Names in Twin Springs Subdivision

Summary: The consideration of a resolution accepting the new proposed street names of McTindal Circle, Oaken Court and Peeler Drive located in Twin Springs Subdivision.

The City of Asheville Community Development Division, owner of all lots in Twin Springs Subdivision, located on Broadview Drive in Oakley, has petitioned City Council to adopt the new street names of McTindal Circle, Oaken Court and Peeler Drive.

Community Development staff recommends adoption of the resolution accepting the new proposed street names of McTindal Circle, Oaken Court and Peeler Drive located in Twin Springs Subdivision.

Dedication to Public Use the Streets and Easements of Twin Springs Subdivision

Summary: The consideration of a resolution authorizing the Mayor to dedicate to the public use streets and easements on the plat for Twin Springs Subdivision.

The City of Asheville is the owner of record of a 12.353-acre tract of unimproved real property on Broadview Drive within the City limits. Prior to recordation of the final subdivision plat, the City of Asheville must dedicate to public use the streets and easements as shown on the plat.

On August 19, 1997, the City of Asheville and the Asheville Area Habitat for Humanity, Inc. entered into a Memorandum of Understanding to develop a 12.353-acre tract of unimproved land on Broadview Drive within the City limits. The City agreed to construct infrastructure improvements, including water, sanitary sewer, storm water drainage, streets and sidewalks, curb and gutter, electric, telephone, cable, street lighting, and minor landscaping. Habitat will construct 34 affordable housing units to be occupied by income-eligible families, and will transfer title of the individual real property to the qualified family when housing construction is completed.

Community Development staff recommends adoption of the resolution to dedicate the streets and easements in Twin Springs Subdivision to public use.

Mayor Sitnick asked that the record show that City Council has received this information and instructs the City Manager to place these items on the next formal City Council agenda.

BUNCOMBE COUNTY ZONING ORDINANCE

Mr. Jim Coman, Buncombe County's Zoning Administrator, reviewed with City Council the proposed zoning ordinance for Buncombe County. He explained that the County

Commissioners are holding various meetings around the County to explain the ordinance. He said the proposed ordinance is based very heavily upon the Limestone Township zoning ordinance. He reviewed with Council a map showing various land use restrictions that are already in place in Buncombe County, noting that well over 1/3 of the County has some sort of land use regulation already in place, whether by zoning, watersheds, current County zoning or the federally owned lands. He then reviewed with Council the zoning map the County is proposing. He said the proposed Rural Use District, which comprises of 91% of the County's jurisdiction, is probably the most permissive of various zoning districts in terms of what is allowed. He said that the zoning districts as well as the text of the proposed zoning ordinance are susceptible to change. He said they have tried to be cognizant of all the recommendations in the County's land use plan.

Upon inquiry of Councilman Cobb, Mr. Coman said that they have scheduled one meeting in the City of Asheville at Asheville High School on Tuesday, September 28, 1999, beginning at 7:00 p.m.

Mayor Sitnick said that she would send a formal request to the County asking if they could schedule another meeting (just concerning the zoning ordinance) in the City of Asheville on a different day so as not to conflict with the City Council regular meeting schedule.

Upon inquiry of Councilwoman Field, Mr. Coman said that the City will maintain the existing zoning in the extraterritorial jurisdiction.

Upon inquiry of Mayor Sitnick, Mr. Coman said that there has been a County Planning Board since 1994 and a Board of Adjustment since 1982. City Attorney Oast said the City is required by statute, since we do have extraterritorial jurisdiction, to have some representation from the County on the Board of Adjustment and the Planning & Zoning Commission.

Councilman Cloninger noted that City of Asheville residents pay County taxes as well and felt it made perfect sense that City residents should be allowed to vote on the proposed zoning ordinance.

City Planning & Development Director Scott Shuford said that the most significant implication for the City of Asheville resulting from Buncombe County zoning is that the land use patterns in the immediate vicinity of our City limits will become more stabilized as County land use requirements and development standards (height, parking and setbacks) are imposed. This will allow the City to better plan their own land use patterns in these areas, as well as program multi-jurisdiction infrastructure improvements. Because of this, he was highly supportive of the proposed County zoning ordinance. It is a major step forward and provides the City with planning and capital improvement investment opportunities that have not previously existed. Additionally, the County ordinance achieves brevity and clarity through the use of tables for dimensional requirements and uses; he believes our regulations can benefit from a similar approach.

At the request of Mayor Sitnick, Mr. Coman said that he would furnish City Council with black and white copies of the maps.

It was the consensus of City Council to review the proposed County zoning ordinance and then, if appropriate, adopt a resolution far enough in advance of the election date to show the residents were City Council stands on this issue.

EDUCATIONAL ACCESS CHANNEL OPERATING GUIDELINES

Councilman Cobb said the cable franchise agreement adopted by City Council designates three initial access channels to be used for public, educational and/or government programming. In March 1999, City Council approved Ordinance No. 2554 establishing an Educational Access Channel Commission to oversee the development of the educational access channel. The ordinance requires that operating guidelines for the educational access channel be approved by Asheville City Council. At their August 11, 1999, meeting, the Educational Access Channel Commission unanimously approved the operating guidelines. As of September 20, 1999, the Education Channel is operating

Mr. Tim Amos, Chairman of the Educational Access Channel Commission, said the Commission also unanimously approved an overview, mission & objectives statement. The operating guidelines and the overview, mission & objectives statement are both based upon information gathered from the guidelines and operating policies of access channels in other communities as well as input from Commission members, City staff, and Asheville City Council.

Upon inquiry of Mayor Sitnick, Mr. Amos said that even though the public has not had any input into the guidelines, all meetings of the Commission were held in open session. He felt that City Council should review the guidelines first. Mayor Sitnick noted that the public would have an opportunity for input at the formal meeting on September 28, 1999, when City Council considers adoption of the guidelines.

When Mayor Sitnick was concerned that there was no one on the Commission representing the diversity of the community, e.g., the Spanish community, Mr. Amos said that all Commission members are educators or involved in education and assured City Council that there will be an effort to reach out to everyone in the community for diverse language programming. Mr. Jeff Reble, Cable Access Coordinator, said that he would furnish City Council with a list of Commission members.

At the request of Councilwoman Field, Mr. Amos said that he would be happy to send some proposed budget information to City Council.

Upon inquiry of Mayor Sitnick, Mr. Amos said that the guidelines contain language that reads "At no time shall coverage of athletic events or activities exceed 40 percent of available programming hours."

Mayor Sitnick asked that the record show that City Council has received this information and instructs the City Manager to place this item on the next formal City Council agenda.

ESTABLISHMENT OF GREENWAY COMMISSION

Mr. Irby Brinson, Director of Parks and Recreation, said that this is the consideration of an ordinance to establish a Greenway Commission to serve in an advisory capacity for the development of greenways in Asheville.

On October 13, 1998, City Council adopted the Greenway Master Plan for the City of Asheville. Part of that plan included the establishment of a Greenway Commission to serve in an advisory capacity within the City. This ordinance will establish a Greenway Commission made up of interested citizens to promote the establishment of linear park areas known as greenways. The Commission shall consist of seven members. The Executive Director of Quality Forward, Executive Director of Parks, Recreation and Greenway Foundation, Executive Director of RiverLink, and Chair of the Parks and Recreation Advisory Board will serve as ex-officio members of the Commission. Members of the Commission will serve three year staggered terms. In addition, this ordinance will split the greenway function from the Asheville Tree and Greenway Commission, establishing the Asheville Tree Commission as a separate entity from the Greenway Commission. The purpose of the Greenway Commission will be to recommend updates of the Greenway Master Plan, foster communication and coordination among citizens of the City for acquisition and development of greenways, identify potential sites to be acquired, and conduct research, planning and feasibility assessments to support the Greenway Commission. The Greenway Commission will report to the Parks and Recreation Director. The Greenway Commission will establish monthly meeting times and dates to conduct their business.

City Council will determine who on the Asheville Tree and Greenway Commission will serve on the Greenway Commission and will appoint additional members as needed to both Commissions.

The Parks and Recreation Department staff is requesting City Council's approval of an ordinance establishing the Greenway Commission.

After discussion about the number of members on each commission, it was the consensus of City Council to appoint seven members to the Tree Commission and seven members to the Greenway Commission (in addition to the ex-officio members on both commissions).

Mayor Sitnick asked that the record show that City Council has received this information and instructs the City Manager to place this item on the next formal City Council agenda.

PRESENTATION OF TRANSPORTATION IMPROVEMENT PLAN PRIORITIES

Mr. Ron Fuller, Transportation Planner, said that this is the consideration of authorizing City staff to submit the Priority Needs List to the Technical Coordinating Committee and the Transportation Advisory Committee.

He then reviewed the Transportation Improvement Program (TIP) process and explained that the TIP process has now moved to a two year cycle. He said one year is dedicated to establishing priority needs and the second year is to development of the annual State Transportation Improvement Plan and the Local Transportation Improvement Plan.

He explained that the Board of Transportation utilizes this information as they develop the TIP. Upon recommendation by the Technical Coordinating Committee on October 14, 1999, the draft Priority Needs will be sent out for a required thirty day public review and comment period. The Transportation Advisory Committee will then meet on November 18, 1999, for a public hearing to gather comments and concerns from the public.

The City departments involved in compiling the recommended Priority Needs List consist of the Planning and Development Department, the Public Works Department, the Engineering Department, and the Parks and Recreation Department.

Mr. Fuller then reviewed in detail the following projects on the Priority Needs List:

Accelerated Project

- I-26 Connector (I-2513)
  Accelerate the planning, design and construction of the Asheville Connector to match or precede the construction completion schedule of the US 19-23 upgrade to interstate standards. TIP Project E-3608 should be incidental to and incorporated into this project. Staff also recommends that the proposed design for a full interchange at Amboy Road be included as part of the project.

Endorsement of Existing TIP Projects with Request for Changes

- New Bridge on Biltmore over Swannanoa River (B-2515)
  Reconsider the concept of constructing a temporary bridge east of Biltmore Avenue to accommodate traffic during construction with the possibility of having the City take over the maintenance as a permanent bridge that will coincide with future development plans. Design of B-2515 should incorporate key elements of existing bridge to duplicate historic details of bridge and improve aesthetics. Lighting on bridge should match those on B-1070.

- Long Shoals Road (R-2813)
  Expand the scope of NC 146 (Long Shoals Road) widening project to a multi-lane facility which includes sidewalks on both sides, wide outside lanes for bicycles and a landscaped median. This facility has been identified as a "Gateway Corridor".

- Hendersonville Road (R-2213)
  US 25 (Hendersonville Road) between Old Airport Road (in Henderson County) and US 25A (Sweeten Creek Road) intersection. Construct outside lanes a minimum of 14 feet wide on each side of roadway. Install Share-the-Road signs and bicycle safe drainage grates.

- Sweeten Creek Road (U-2801)
  Extend the widening of US 25A (Sweeten Creek Road) from SR 3229 to Fairview Road and construct new bridge over Swannanoa River. This project should include, in its entirety, sidewalks on both sides, a landscaped median and wide outside lanes. The FY 1998-2004 NC TIP lists the northerly project terminus at SR 3229 (Project U-2801). This facility has been identified as a "Gateway Corridor." A feasibility study should be conducted to determine the impact on the Biltmore Village area. Accelerate to match construction schedule of entire US 25A project.

- Biltmore Avenue (U-3404)
  Recommendation from staff is to delete this project.

- North Louisiana Avenue (U-619)
  Staff recommends a feasibility study be conducted and that other alternatives rather than only a four-lane roadway be constructed.

- NC 191 - Brevard Road (U-3404)
  This facility has been identified as a "Gateway Corridor" and as such, should include design criteria that is sensitive to the physical environment of the area. Staff recommends a four-lane cross section with a landscaped median, wide outside lanes and sidewalks on both sides of the roadway on the section from NC 112 (Sardis Road) to the Blue Ridge Parkway. From the Parkway to NC 280, additional study should be undertaken to determine the best cross section to meet the demands of the community.

Top Ten Project Requests (in order of City staff recommendations):

- Construct turn lanes at targeted intersections on Merrimon Avenue.
- Widen Weaverville Highway (US 25) from Elkwood Avenue intersection to New Stock Road (SR 1740) to three lanes and resurface with curb and gutters and install appropriate signage.
- Widen Fanning Bridge Road (SR 1358) to include wide outside lanes (14 foot lanes).
- Widen Mills Gap Road (SR 3116) from US 25 to US 25A.

- Widen New Haw Creek Road (SR 2032) between Tunnel Road (US 70) and City limits (2-14 foot lanes).
- Widen, resurface, and realign Riverside Drive (NC 251) between Broadway Avenue and the new Craggy prison with 14 foot lanes to safely accommodate bicycles.
- Widen NC 9 from Third Street in Black Mountain to the Montreat gates with sidewalks on one side.
- Reserve right-of-way and extend Cane Creek Road south from approximately 1,000 feet south of the intersection of Old Airport Road (SR 1547) and Cane Creek Road (SR 1545) to the intersection of Howard Gap Road (SR 1006) and Old Howard Gap Road (SR 1556).
- Improve Beaverdam Road to two 14-foot lanes from Merrimon Avenue to City limits with special consideration to bikes and pedestrians.
- Realign the intersection of Reems Creek Road (SR 1003) and South Main Street (SR 2127) in Weaverville.

Mr. Fuller then displayed examples and discussed the "Gateway Corridor" concept as mentioned in some project recommendations.

City staff recommends City Council authorize City staff to submit their recommendations along to the Technical Coordinating Committee and the Transportation Advisory Committee.

Mr. Fuller said that representatives from the N.C. Dept. of Transportation (NC DOT) will be coming to Asheville for three days next week to meet with City Council, staff, and various neighborhood and business groups. When Mayor Sitnick asked that we make sure that those meetings were well advertised and Mr. Fuller responded that the NC DOT would be doing the advertising, not the City.

Mayor Sitnick hoped that if the widening of New Haw Creek Road occurs, that the intersection where Tunnel Road almost intersects with New Haw Creek Road gets reviewed as well.

Mayor Sitnick and Councilwoman Field felt that even though improving Overlook Road is now no. 11 on our top priority needs list (was no. 2 prior year), traffic calming on that State maintained road is long overdue.

Mayor Sitnick was concerned that this is such a big issue and yet so few people attend the Transportation Advisory Committee meetings. She asked Mr. Fuller to see if he can come up with some ways to better advertise the meetings. Mr. Fuller said that they have just finished a fairly in depth process where NC DOT spent $60,000 for consultants to design a public involvement process for us. He felt that recommendations from the process will be positive.

Mayor Sitnick said that she had a meeting with Ken Putnam, from the local NC DOT office, about many NC DOT related issues. She requested that sidewalks be installed whenever the NC DOT builds projects. She asked Mr. Putnam to pass on a request to the NC DOT that truck traffic on I-240 be slowed down as it comes through the City. She asked Mr. Fuller to follow-up on her request. She also felt it would be a great idea that her request include that all 18-wheel trucks stay in the right hand lane when travelling through the City. She expressed concern that I-240 is not built to interstate standards and asked Mr. Fuller what could be done to bring that up to interstate standards. She wanted to make sure that the NC DOT knows that City Council cares about signage, signalization and crosswalks whenever they build roads, in addition to the gateway concepts too.

Mayor Sitnick said that with regard to the I-26 Connector, even though City Council did pass a resolution stating that they would like to see the project completed, she personally has a great desire to see the NC DOT consider a different design that would still require the improvement of the bridge, but may not require eight lanes through West Asheville. She will present to them a different design that has come to her from the public.

Mayor Sitnick asked Mr. Fuller to meet with City Council with any recommendations or changes that he things should be made to the TIP and Council can then send a letter to the TAC in time for them to consider certain suggestions at their meetings.

Councilman Cobb requested the NC DOT be contacted to see if the signalization on Patton Avenue could be reviewed.

Councilwoman Field said that transportation patterns are the key to the growth of the community and thanked Mr. Fuller for his work with the TIP. She explained how important public participation is to the planning of projects.

Mayor Sitnick felt that if the NC DOT can go from six to eight lanes, they should be flexible enough to go from eight lanes to six lanes, if the time changes or community needs change. She stressed we cannot allow the NC DOT to be totally rigid in this community because this is a living, breathing, dynamic community. She felt their new philosophy goes in that direction.

It was the consensus of City Council to review the information presented by Mr. Fuller and place this issue on the October 27, 1999, City Council agenda.

Mayor Sitnick asked that this be placed on the Government Channel to let the public know Council is seeking their input on this very important issue.

RESOLUTION NO. 99-145 - RESOLUTION AUTHORIZING THE MAYOR TO EMPOWER STAFF TO MOVE FORWARD IN THE PLANNING, PURCHASE OF PROPERTY AND DESIGN OF A PARKING DECK IN THE BATTERY PARK AREA

ORDINANCE NO. 2613 - BUDGET AMENDMENT TO HIRE A REAL ESTATE BROKER AND FINANCIAL ADVISOR TO ASSIST IN THE PARKING DECK IN THE BATTERY PARK AREA

Assistant City Manager Spell asked City Council to waive their rules of procedure and vote formally at this meeting because there are some specific activities staff would like to begin on and they feel it is critical that they begin as quick as they can on those.

City Engineer Cathy Ball said that City staff has been working during the past 3-4 months trying to develop some private partnerships with the community in locating a deck and determining how many spaces need to be installed in the deck in the Battery Park area. In doing that, staff has determined that we have a need to have a real estate broker in order to negotiate the agreements and a financial advisor so that we can begin determining the best way to get the money to build the deck. She requested authority from the Mayor to authorize staff to (1) hire a real estate broker to represent the City in negotiations of the land and partnership agreements and appropriate funds for same; (2) hire a financial advisory to assist in developing optimum financing and appropriate funds for same; and (3) develop a Request for Proposals in order to select a consultant to design the parking deck. A budget amendment, in the amount of $130,000, is also requested in that it is the estimated cost for professional services of a real estate broker and financial advisor.

Councilman Cloninger moved to waive the rules and take formal action at this meeting. This motion was seconded by Councilwoman Field and carried unanimously.

Councilman Cloninger moved to adopt Resolution No. 99-145. This motion was seconded by Councilman Sellers and carried unanimously.

Vice-Mayor Hay further explained that the City has partners that they want to negotiate with and we also have location issues. The action today is getting the professional help we need.

Councilwoman Field agreed that we are not authorizing staff to purchase anything other than engineering or architectural engineering services to get started on a design, if, and when, we get the property and the partners together.

City Attorney Oast stressed that we are authorizing staff to proceed with negotiations, but not the purchase of any land, and to put out a Request for Proposals for engineering services. Also, staff is authorized to obtain options on purchasing land, but that does not obligate the City to purchase the land.

Councilman Cloninger moved to adopt Ordinance No. 2613. This motion was seconded by Councilman Tomes and carried unanimously.

Assistant City Manager Spell said that the revenue source would be the proceeds from Certificates of Participation.

RESOLUTION BOOK NO. 25 - PAGE 310

ORDINANCE BOOK NO. 17 - PAGE 466

REPORTS ON BOARDS AND COMMISSIONS

Councilwoman Field updated City Council on the MSD issue around the Kenilworth Forest Project.

Councilman Sellers updated City Council on the Mills River Plant which should be operational in mid-October. Assistant City Manager Spell also noted that the Water Resources Department will be proceeding with the Fall Flush to begin in October.

ADJOURNMENT:

Mayor Sitnick adjourned the meeting at 5:35 p.m.

Magdalen Burleson
CITY CLERK

Leni Sitnick
MAYOR

246

Tuesday - September 28, 1999 - 5:00 p.m.

Regular Meeting

Present: Mayor Leni Sitnick, Presiding; Vice-Mayor Edward C. Hay Jr.; Councilman M. Charles Cloninger; Councilman Earl Cobb; Councilwoman Barbara Field; Councilman Thomas G. Sellers; and Councilman O.T. Tomes; Assistant City Attorney Patsy Meldrum; City Manager James L. Westbrook Jr.; and City Clerk Magdalen Burleson

Absent: City Attorney Robert W. Oast Jr.

INVOCATION

Councilman Sellers gave the invocation.

I. PROCLAMATIONS:

A. PROCLAMATION PROCLAIMING SEPTEMBER 26-OCTOBER 2, 1999, AS "ENOUGH IS ENOUGH WEEK" IN THE CITY OF ASHEVILLE

Councilman Tomes read the proclamation proclaiming September 26-October 2, 1999, as "Enough is Enough Week" in the City of Asheville. He presented the proclamation to Ms. Bonnie Rose, who briefed City Council on some activities taking place during the week.

B. PROCLAMATION PROCLAIMING OCTOBER 3-9, 1999, AS "METAL ILLNESS AWARENESS WEEK " IN THE CITY OF ASHEVILLE

Councilman Cloninger read the proclamation proclaiming October 3-9, 1999, as "Mental Illness Awareness Week" in the City of Asheville. He presented the proclamation to Ms. Lynn Woods who briefed City Council on some activities taking place during the week.

C. PROCLAMATION PROCLAIMING OCTOBER 3-9, 1999, AS "GET ORGANIZED WEEK " IN THE CITY OF ASHEVILLE

Councilman Sellers read the proclamation proclaiming October 3-9, 1999, as "Get Organized Week" in the City of Asheville. He presented the proclamation to Ms. Cheryl Dodd who briefed City Council on some activities taking place during the week.

D. PROCLAMATION PROCLAIMING OCTOBER, 1999, AS "URBAN TRAIL MONTH" IN THE CITY OF ASHEVILLE

Vice-Mayor Hay read the proclamation proclaiming October, 1999, as "Urban Trail Month " in the City of Asheville. He presented the proclamation to Ms. Mitzi Tessier, Chair of the Urban Trail Committee, who briefed City Council on some activities taking place during the month.

E. PROCLAMATION PROCLAIMING OCTOBER, 1999, AS "ASHEVILLE SISTER CITIES MONTH " IN THE CITY OF ASHEVILLE

Councilwoman Field read the proclamation proclaiming October, 1999, as "Asheville Sister Cities Month " in the City of Asheville. She presented the proclamation to Ms. Mary Lasher, President of Asheville Sister Cities Inc., who briefed City Council on some activities taking place during the month.

F. PROCLAMATION PROCLAIMING OCTOBER, 1999, AS "ALPHA DELTA KAPPA MONTH " IN THE CITY OF ASHEVILLE

Councilman Cobb read the proclamation proclaiming October, 1999, as "Alpha Delta Kappa Month " in the City of Asheville. He presented the proclamation to Ms. Shirley McIntosh, District I Vice-President for North Carolina, who briefed City Council on some activities taking place during the month.

II. CONSENT:

A. APPROVAL OF THE MINUTES OF THE REGULAR MEETING HELD ON SEPTEMBER 14, 1999, AND THE WORKSESSION HELD ON SEPTEMBER 21, 1999

B. RESOLUTION NO. 99-146 - RESOLUTION AUTHORIZING THE PURCHASING DIRECTOR TO SELL SURPLUS MOTOR VEHICLES, OFF ROAD EQUIPMENT AND OTHER SURPLUS PROPERTY AT PUBLIC AUCTION

Summary: The consideration of a resolution authorizing the Purchasing Director to dispose of City-owned personal property by public auction.

The resolution authorizes the City's Purchasing Division to hold a public auction to dispose of motor vehicles, off-road equipment, and other miscellaneous property declared as surplus by various City departments. The auction is to be held Saturday, October 16, 1999, at 10:00 a.m. in the Public Works Complex, 161 S. Charlotte Street.

City staff recommends City Council approve the resolution authorizing the Purchasing Director to dispose of City-owned personal property by public auction.

RESOLUTION BOOK NO. 25 - PAGE 311

C. RESOLUTION NO. 99-147 - RESOLUTION AUTHORIZING THE CITY MANAGER TO EXECUTE A CONTRACT WITH CONSTRUCTION ADVANTAGE INC. FOR FIRE STATION 4 ROOF AND RELATED REPAIRS

Summary: The consideration of a resolution authorizing the City Manager to enter into a roof replacement contract for Fire Station #4 on 300 Merrimon Avenue.

In an effort to maintain City facilities, City staff, through the capital improvement process, has determined Fire Station #4 at 300 Merrimon Avenue requires roof replacement. City staff solicited sealed bids from seven Roofing Contractors, three of which were minority contractors, to supply and install a new roofing system. City staff received bids from three qualified bidders which are as follows:

Construction Advantage, Inc.	$34,474.00
Service One, Inc.	$37,070.00
Stroup Sheet Metal Works, Inc.	$41,480.00

City staff has reviewed all bids and determined that Construction Advantage, Inc. is the lowest bidder and, therefore, recommends acceptance of the base bid amount of $34,474.00.

Approved funding is available in the capital improvement project account to pay for this roof replacement for Fire Station #4.

The Parks and Recreation Department requests City Council authorize the City Manager to enter into a contract for $ 34,474.00 with Construction Advantage, Inc., for this project.

RESOLUTION BOOK NO. 25 - PAGE 312

D. RESOLUTION NO. 99-148 - RESOLUTION AUTHORIZING THE CITY MANAGER TO ENTER INTO AN AGREEMENT WITH ASHEVILLE PAVING COMPANY TO RESURFACE STREETS IN THE HAWTHORNE VILLAGE SUBDIVISION

Summary: The consideration of a resolution authorizing the City Manager to enter into an agreement with Asheville Paving Company to resurface streets located in Hawthorne Village Subdivision in Asheville, North Carolina.

The City is in need of a contractor to provide paving and resurfacing services for streets in Hawthorne Village Subdivision. In accordance with N.C. Gen. Stat. sec. 143-131, informal bids for paving and resurfacing services were solicited and three responses were received. The bidders are listed below:

Company	Bid
Asheville Paving Company	$43/Ton (not to exceed $47,000)
Tarheel Paving Inc.	$47/Ton
Lonesome Mountain Paving Company	$57/Ton
Asphalt Unlimited	$50/Ton

Funding for this project has already been allocated in the Public Works Department's Capital Improvement budget.

The Public Works Department staff recommends City Council adopt the Resolution Authorizing the City Manager of the City of Asheville to enter into contract with Asheville Paving Company to resurface roads in Hawthorne Village Subdivision.

RESOLUTION BOOK NO. 25 - PAGE 313

E. RESOLUTION NO. 99-149 - RESOLUTION AUTHORIZING THE MAYOR TO EXECUTE ON BEHALF OF THE CITY OF ASHEVILLE A FEDERAL AVIATION GRANT AGREEMENT

Summary: The consideration of a resolution approving a grant from the Federal Aviation Administration in an amount not to exceed $1,076,956. This grant consists of the following projects: Y2K Verification, Master Plan Update, Wildlife Fencing, ARFF Road and Perimeter Security Road - Phase I.

RESOLUTION BOOK NO. 25 - PAGE 314

F. RESOLUTION NO. 99-150 - RESOLUTION AUTHORIZING THE CITY MANAGER TO APPLY FOR AND ENTER INTO AN AGREEMENT WITH BUNCOMBE COUNTY FOR A GRANT TO ASSIST WITH THE TRANSPORTATION OF ELDERLY INDIVIDUALS FOR RECREATIONAL PURPOSES

Summary: The consideration of an application for a $20,700 grant of state money routed through Buncombe County for transportation of elderly people to recreation programs in the area.

The City of Asheville has applied for $20,700 for use in transporting elderly persons for recreational purposes. The Parks and Recreation Department will use this money for nutrition programs and additional transportation to events for seniors. These events include such things as a Labor Day picnic, in conjunction with the Council for Aging at Lake Julian and the UNC-A Holiday Concert at UNC-A Campus. These are new trips which the Department has not provided prior to this grant.

The Grant will take the form of a credit when applicable to costs incurred through the use of Mountain Mobility, and disbursements to the City when and if other transportation sources are used. This grant requires no matching amount on the part of the City.

City staff recommends City Council authorize the City Manager to apply for and enter into an agreement with Buncombe County for a grant to transport elderly people to recreation programs in the area.

RESOLUTION BOOK NO. 25 - PAGE 315

G. RESOLUTION NO. 99-151 - RESOLUTION ACCEPTING THE STREET NAMES OF McTINDAL CIRCLE, OAKEN COURT AND PEELER DRIVE LOCATED IN TWIN SPRINGS SUBDIVISION

Summary: The consideration of a resolution accepting the new proposed street names of McTindal Circle, Oaken Court and Peeler Drive located in Twin Springs Subdivision.

The City of Asheville Community Development Division, owner of all lots in Twin Springs Subdivision, located on Broadview Drive in Oakley, has petitioned City Council to adopt the new street names of McTindal Circle, Oaken Court and Peeler Drive.

Community Development staff recommends adoption of the resolution accepting the new proposed street names of McTindal Circle, Oaken Court and Peeler Drive located in Twin Springs Subdivision.

RESOLUTION BOOK NO. 25 - PAGE 316

H. RESOLUTION NO. 99-152 - RESOLUTION AUTHORIZING THE MAYOR TO DEDICATE TO THE PUBLIC USE STREETS AND EASEMENTS IN TWIN SPRINGS SUBDIVISION

Summary: The consideration of a resolution authorizing the Mayor to dedicate to the public use streets and easements on the plat for Twin Springs Subdivision.

The City of Asheville is the owner of record of a 12.353-acre tract of unimproved real property on Broadview Drive within the City limits. Prior to recordation of the final subdivision plat, the City of Asheville must dedicate to public use the streets and easements as shown on the plat.

On August 19, 1997, the City of Asheville and the Asheville Area Habitat for Humanity, Inc. entered into a Memorandum of Understanding to develop a 12.353-acre tract of unimproved land on Broadview Drive within the City limits. The City agreed to construct infrastructure improvements, including water, sanitary sewer, storm water drainage, streets and sidewalks, curb and gutter, electric, telephone, cable, street lighting, and minor landscaping. Habitat will construct 34 affordable housing units to be occupied by income-eligible families, and will transfer title of the individual real property to the qualified family when housing construction is completed.

Community Development staff recommends adoption of the resolution to dedicate the streets and easements in Twin Springs Subdivision to public use.

RESOLUTION BOOK NO. 25 - PAGE 317

I. MOTION SETTING A PUBLIC HEARING ON OCTOBER 12, 1999, TO AMEND THE UNIFIED DEVELOPMENT ORDINANCE TO CONSIDER A NEW HEAD OF MONTFORD TRANSITION OVERLAY DISTRICT AND APPLICATION OF THAT DISTRICT TO NINE LOTS ON MONTFORD AVENUE, HILL STREET AND GUDGER STREET

Mayor Sitnick said that members of Council have been previously furnished with a copy of the resolutions and ordinances and the Consent Agenda and they would not be read.

Councilman Tomes moved for the adoption of the Consent Agenda. This motion was seconded by Councilman Sellers and carried unanimously.

CHANGE OF AGENDA

Councilman Cloninger moved to amend the agenda to change the order of public hearings. This motion was seconded by Councilman Sellers and carried unanimously.

PUBLIC HEARING TO CONSIDER A CONDITIONAL USE PERMIT FOR A TELECOMMUNICATIONS TOWER AT 200 TUNNEL ROAD

Mayor Sitnick opened the public hearing at 5:30 p.m.

Urban Plan Dan Baechtold said that this public hearing was advertised on September 17 and September 24, 1999.

Councilman Cloninger moved to continue the public hearing, without further advertisement, until November 23, 1999. This motion was seconded by Councilman Sellers.

Councilman Cloninger said that he is requesting the continuance because City Council will be considering revisions to the standards of wireless telecommunication facilities on November 9, 1999, and he feels it's important that those revisions be considered before any more petitions for cell towers are received. Also, he felt that since Council has not been given adequate time to review this information, the continuance would allow Council to study the request.

When Vice-Mayor Hay asked if Council were to make changes to the ordinance, would it affect this application, since the application was made before the changes were in effect, Assistant City Attorney Meldrum responded that generally applications are subject to the ordinance in effect when they are made. It would be up to the applicant to determine whether or not they would be subject to any amendments after the application was made.

Councilman Cloninger explained that the area the petitioner is asking to be allowed to erect a tower is near McGuffey's on Kenilworth Knoll, very near where BellSouth currently has a tower. We are trying to encourage co-location so that the phone companies will locate more than one antenna on a tower. As it stands now, if BellSouth, who has the current tower there, wanted to take down their tower and construct a new stronger tower that could accommodate more antenna, their tower would have to be reduced from 180 feet to 100 feet. However, one of the proposed revisions to the ordinance would states that where a company already has a tower that is 180 feet and they want to fortify that tower or replace the tower so that it can accommodate more antenna, then the City will let them maintain that same height, rather than requiring them to reduce it to 100 feet. He said that if the proposed revision is adopted by City Council, then at least the petitioner would have the option of looking into the possibility of locating on the BellSouth tower, contingent upon BellSouth being agreeable as well. He felt Council should make that option available to applicants prior to Council ruling on petitions.

An attorney representing American Tower Corporation, petitioner, stated that the current telecommunications facilities standards were subject to extensive revisions and as a result, structure builders and carriers were on hold throughout all of 1999 unable to build out their structures until the ordinance was finalized. Now they have filed a tower application that meets that revised ordinance and he felt they have a reasonable expectation to have their application considered. They do not want to have to wait months for the Council to act upon the proposed ordinance revisions and whether BellSouth will allow them to tear down their tower and rebuild it is a very speculative issue. He felt this was an issue of fairness in that the tower application, as filed under the current ordinance in effect today, should be considered.

Mayor Sitnick noted that if the proposed ordinance passes, the City will be able to offer the co-location option which is something that City Council is very much in favor of having available.

Assistant City Attorney Meldrum asked City Council to be mindful of the provision in the Unified Development Ordinance which reads "a public hearing on the application shall be scheduled by the City Council following review and approval or conditional approval by the Technical Review Committee. The Asheville City Council shall consider the request within 35 days of receiving information regarding the conditional use request from the Planning and Development Director." She said that since City Council has opened the public hearing and after looking at the information, has determined that additional time is needed for review, she felt that City Council has met that provision.

The motion made by Councilman Cloninger and seconded by Councilman Sellers carried unanimously.

III. PUBLIC HEARINGS:

A. PUBLIC HEARING TO AMEND THE UNIFIED DEVELOPMENT ORDINANCE TO AMEND THE UNIFIED DEVELOPMENT ORDINANCE TO ESTABLISH THE DEFINITIONS OF COMMUNITY FACILITIES AND COMMUNITY IDENTIFICATION SIGNS, TO DETERMINE THE LOCATIONS OF COMMUNITY IDENTIFICATION SIGNS, TO AMEND REGULATIONS REGARDING SIGNS IN THE RIGHT -OF-WAY, AND TO AMEND REGULATIONS REGARDING THE ENFORCEMENT REMEDIES

Mayor Sitnick said that this public hearing was opened on Tuesday, August 10, 1999, and continued indefinitely until City Council had an opportunity to review the items in a worksession. These items were reviewed in the September 7, 1999, City Council worksession and on September 14, 1999, a motion was made to set the public hearing on these matters on this date.

Mr. Carl Ownbey, Urban Planner, said that this public hearing was advertised on September 17 and 24, 1999.

ORDINANCE NO. 2615 - ORDINANCE AMENDING CHAPTER 7 OF THE CODE OF ORDINANCES INSERTING THE DEFINITION OF COMMUNITY FACILITIES AND COMMUNITY IDENTIFICATION SIGNS

Mayor Sitnick opened the public hearing at 5:44 p.m.

Mr. Ownbey said that this is the consideration of an ordinance to amend Section 7-2-5 of Chapter 7 of the Code of Ordinances of the City of Asheville defining Community Identification Signs and Community Facilities.

During June and July of 1999, the Planning and Zoning Commission held various work sessions and regular meetings at which they discussed and recommended a wording amendment concerning the definition of Community Identification Signs and Community Facilities.

The Planning and Development staff presented for review the definition of Community Identification Signs and Community Facilities. When staff began amending other sections of the ordinance, we discovered that the terms "community identification signs" and "community facilities" were not specifically defined in the ordinance.

The Planning and Development staff presented this proposed wording amendment to the Planning and Zoning Commission at their June 2, 1999, regular meeting. After presentation by staff, the Commissioners voted unanimously to recommend to City Council the adoption of this wording amendment.

Mayor Sitnick closed the public hearing at 5:48 p.m.

Councilwoman Field moved for the adoption of Ordinance No. 2615. This motion was seconded by Councilman Tomes and carried unanimously.

ORDINANCE BOOK NO. 17 - PAGE 476

ORDINANCE NO. 2616 - ORDINANCE AMENDING CHAPTER 7 OF THE CODE OF ORDINANCES DEALING WITH ON-PREMISE SIGNS: SINGLE TENANT DEVELOPMENT - COMMUNITY IDENTIFICATION SIGNS

Mayor Sitnick opened the public hearing at 5:50 p.m.

Mr. Ownbey said that this is the consideration of an ordinance to amend Section 7-13-4 of Chapter 7 of the Code of Ordinances of the City of Asheville regarding On-Premise Signs/Single Tenant Development - Community Identification Signs.

During June and July of 1999, the Planning and Zoning Commission (Commission) held various worksessions and regular meetings at which they discussed and recommended a wording amendment concerning the location and size of community identification signs.

The Planning and Development staff presented for review the location and size of community identification signs. The request was initiated through the Haw Creek Community after they were required by the City to remove their community identification sign and related community facilities panels. At that time, these particular signs were not permitted under the ordinance.

The Commissioners held two hearings concerning the location and size of Community Identification Signs (the Haw Creek community requested additional square footage for identification of community facilities) and recommended approval of the ordinance, with the maximum square footage of the Community Identification Sign to be equal to that of a subdivision or multi-family sign at 16 square feet based on initial community input and acceptance by community representation at the meeting. After the Commission's decision, it was determined that the proposed sign size does not meet the needs of the community in adequately identifying community facilities because the overall sign size (including the facility panels) would be too small.

After receipt of the letter from Mr. Pelly, the Planning and Development staff has reviewed the recommendation again with the community and agreed that since the purpose of the community identification sign would be to identify an area larger than a subdivision or multi-family development, the size and design should be larger. The revised staff recommendation is a total of 24 square feet to include the community identification sign and related community facilities panels with a maximum size of the community identification sign to be 16 square feet. The Commissioners were informed about the staff recommendation at their September 1, 1999, meeting and by consensus, they indicated that they did not want to change their recommendation or see the issue remanded back to them.

At a worksession on this matter on September 7, 1999, the City Council received a report on the revised staff recommendation. Two ordinances are presented for consideration: (1) an ordinance incorporating the recommendation from the Planning and Zoning Commission ("Option One"); and (2) an ordinance incorporating the revised staff recommendation ("Option Two").

The Planning and Development Department recommends adoption of the ordinance incorporating the revised staff recommendation ("Option Two").

Mr. Frank Martin, representative of the Haw Creek Community Association, supported staff's recommendation of a total of 24 square feet which will be large enough to properly identify the community and also provide directions to their six local churches.

Councilwoman Field felt that the six foot maximum height of the sign is not realistic with our terrain.

After a brief discussion about possibly having a range of height, Assistant City Attorney Meldrum said that this particular type of sign is allowed within a City street right-of-way and the only way that it's allowed is upon issuance of an encroachment agreement by the Public Works Department, approval by the Traffic Engineer and permit from the Planning and Development Department. So, with that much review, you may be able to include a range of six to nine feet and let the height be determined based upon that review by City staff. She said that if Council wished to proceed in that direction, she would include the appropriate language in the Option No. Two ordinance.

Mayor Sitnick closed the public hearing at 5:57 p.m.

Councilman Cloninger moved for the adoption of Ordinance No. 2616 (Option Two, as modified by Assistant City Attorney Meldrum). This motion was seconded by Councilman Tomes and carried unanimously.

ORDINANCE BOOK NO. 17 - PAGE 477

ORDINANCE NO. 2617 - ORDINANCE AMENDING CHAPTER 7 OF THE CODE OF ORDINANCES DEALING WITH SIGNS PROHIBITED IN ALL ZONING DISTRICTS - SIGNS LOCATED IN THE RIGHT-OF-WAY

Mayor Sitnick opened the public hearing at 6:00 p.m.

Mr. Ownbey said that this is the consideration of an ordinance to amend Section 7-13-3 of Chapter 7 of the Code of Ordinances of the City of Asheville concerning Signs Prohibited in All Zoning Districts - Signs in the Right-of-Way.

During June and July of 1999, the Planning and Zoning Commission held various worksessions and regular meetings at which they discussed and recommended a wording amendment concerning signs in the right-of-way.

The Planning and Development staff presented for review regulations concerning signs in the rights-of-way. This section generally prohibits signs in the right-of-way with the exception of certain specified signs. This amendment to the ordinance strengthens the methods of enforcement by staff, reduces clutter from three permitted signs to two, increases the number of sign faces from three to four by permitting double-face signs, and reduces the height of signs placed in the right-of-way from nine feet to six feet. It also requires review of permits for signs in the right-of-way by the Public Works Department, the City Traffic Engineer, the Planning and Development staff, and written notification to the adjacent property owner. Specific wording is also incorporated to permit City staff to enforce this section of the ordinance within the N.C. Dept. of Transportation right-of-way.

The Planning and Development staff presented this proposed wording amendment to the Planning and Zoning Commission at their June 24, 1999, worksession. After presentation by staff, the Commissioners voted unanimously to recommend to City Council the adoption of this wording amendment.

Discussion surrounded the illegal posting of signs on utility poles and the process in which the Zoning Office uses when signs are taken down. Ms. Sharon Allen, Development Code Administrator, said that approximately 200 signs a week are being taken down.

Upon inquiry of Vice-Mayor Hay, Ms. Allen said that the ordinance does contain remedies for citing violators and they have used those provisions with repeat offenders.

Mayor Sitnick suggested the City work with the Coalition of Asheville Neighborhoods, who expressed a willingness to go from neighborhood association to neighborhood association to raise the funds, in order to purchase a kiosk that can be placed at the entrances to the neighborhoods to display signs like yard sales, lost dogs, etc. She understood that the Public Works Department could install the kiosks if they are located within the right-of-way.

It was the consensus of City Council that the ordinance be modified to include a range of six to nine feet and let the height be determined based upon that review by City staff.

Mayor Sitnick closed the public hearing at 6:10 p.m.

Vice-Mayor Hay moved for the adoption of Ordinance No. 2617, as modified. This motion was seconded by Councilman Cobb and carried unanimously.

ORDINANCE BOOK NO. 17 - PAGE 479

ORDINANCE NO. 2618 - ORDINANCE AMENDING CHAPTER 7 OF THE CODE OF ORDINANCES REGARDING ENFORCEMENT REMEDIES AND PROCEDURES

Mayor Sitnick opened the public hearing at 6:10 p.m.

Mr. Ownbey said that this is the consideration of an ordinance to amend Section 7-18 of Chapter 7 of the Code of Ordinances of the City of Asheville concerning Enforcement Remedies and Procedures.

During June and July of 1999, the Planning and Zoning Commission held various work sessions and regular meetings at which they discussed and recommended a wording amendment concerning the enforcement of zoning violations of the Unified Development Ordinance (UDO).

The amendment was based on a request from City enforcement staff to add language to subsection 7-18-3 describing the contents of the notice of violation. This language was incorporated in the old zoning ordinance but was inadvertently left out of the UDO. The language is as follows:

> The notice of violation may include, but not be limited to, an order to discontinue the illegal use of land, buildings or structures; require removal of illegal buildings, structures or uses or removal of illegal additions, alterations or structural changes; discontinue the illegal work being done; or require any other action to insure compliance with or prevent violation of this chapter.

A few other minor changes have been recommended as shown on the copy of the "Proposed Ordinance."

At the same time this language was requested to be added, the City Attorney's Office recommended relocating the language of subsections (e) and (f) from Section 7-18-3 to new Sections 7-18-4 and 7-18-5 as they described remedies for violations rather than the procedure for and content of notices of violation. The language of subsection 7-18-3 (e) has been relocated to subsection 17-18-4 (a). Other than two minor changes, the language is the same. The minor changes included the addition of the phrase "of a civil penalty" in the first line and the change from "shall" to "may" in the third line. As Section 7-18-2 (c) included criminal penalties as a remedy, a new subsection 17-18-4 (b) was added to set out the enforcement procedure which would be followed in the event of a criminal penalty.

The language in subsection 7-18-3 (f) regarding summary removal of signs/sign structures and remove orders for signs/sign structures was relocated to new Section 7-18-5. Other than a few minor changes, the language is the same. Those minor changes include substituting the word "City" for "Sign Administrator" and "director of building safety" in the first sentence of subsection 7-18-5 (a). In subsection 7-18-5 (b) the first four lines regarding the statutory authority were added.

The Planning and Development staff presented this proposed wording amendment to the Planning and Zoning Commission at their June 24, 1999, worksession and again at their July 7, 1999, regular meeting. After presentation by staff, the Commissioners voted unanimously to recommend to City Council the adoption of this wording amendment.

Assistant City Attorney Meldrum responded to various questions and comments from Council, some being, but are not limited to: the notice of violation wording in secs. 17-18-4 and 17-18-5; what the illegal use of land would constitute; and what is the prescribed period of time within which the violation should be cured,

Councilman Tomes was concerned that the public may not be aware of the provisions in this ordinance. Ms. Allen responded that once a complaint is received, an inspector goes out and tries to make contact with the violator. The inspector would then advise them of the requirements to either get a permit, or stop the violation. If they do not comply, then they follow up with a notice of violation. She stressed that this will mostly be used for repeat offenders and blatant abusers.

Mayor Sitnick closed the public hearing at 6:27 p.m.

Vice-Mayor Hay moved for the adoption of Ordinance No. 2618. This motion was seconded by Councilman Cloninger and carried unanimously.

ORDINANCE BOOK NO. 17 - PAGE 481

B. PUBLIC HEARING RELATIVE TO AMENDING THE UNIFIED DEVELOPMENT ORDINANCE TO DEFINE THE POWERS AND DUTIES OF THE ASHEVILLE TREE COMMISSION

ORDINANCE NO. 2619 - ORDINANCE AMENDING CHAPTER 7 OF THE CODE OF ORDINANCES OF THE CITY OF ASHEVILLE TO DEFINE THE POWERS AND DUTIES OF THE ASHEVILLE TREE COMMISSION

Due to the order of the agenda, Assistant City Attorney Meldrum said that this amendment delegates the powers and duties of a combined commission (Tree/Greenway Commission) into one commission, the Tree Commission. By holding this public hearing, Council will be delegating powers to a commission that does not exist until Council adopts the ordinance under new business which separates the Tree/Greenway Commission into two separate commissions (Tree Commission and Greenway Commission). Therefore, to take action on this, Council will need to adopt this amendment to the Unified Development Ordinance subject to adopting the ordinance separating the Tree/Greenway Commission into two separate commissions.

Mayor Sitnick opened the public hearing at 6:27 p.m.

Mr. Gerald Green, Senior Planner, said that this is the consideration of an amendment to the Unified Development Ordinance which would delete references to "Tree and Greenway Commission" and insert "Tree Commission" in its place. This public hearing was legally advertised on September 17 and 24, 1999.

The Planning and Zoning Commission has recommended approval of an amendment to Chapter 7 of the Code of Ordinances which will delete all references to the "Tree and Greenway Commission" and insert "Tree Commission" instead. The proposed ordinance amendment has been drafted in anticipation of Council designating the Tree and Greenway Commission as the

Tree Commission and creating a separate Greenway Commission. With the adoption of the proposed amendment, the Tree Commission will assume those duties and responsibilities previously delegated by the Unified Development Ordinance to the Tree and Greenway Commission. Among these duties and responsibilities are:

- Having a representative serve on the Technical Review Committee;
- Reviewing and commenting on requests for reductions in buffer areas for churches located in residential zoning districts; and
- Review of plans for Level II and Level III site plan projects.

The proposed ordinance amendment would enable the Tree Commission to call upon Planning and Development Department staff for advice and assistance, as the Tree and Greenway Commission can do under the existing ordinance. Adoption of the proposed ordinance amendment is necessary to facilitate the creation of a separate Tree Commission and a separate Greenway Commission.

The Planning and Zoning Commission unanimously recommended approval of the ordinance amendment at their May 5, 1999, meeting. The Planning and Development Department staff recommends approval of the ordinance amendment.

Mayor Sitnick closed the public hearing at 6:31 p.m.

Mayor Sitnick said that members of Council have previously received a copy of the ordinance and it would not be read.

Councilman Tomes moved for the adoption of Ordinance No. 2619, subject to adoption of the ordinance separating the Tree/Greenway Commission into two separate commissions which will be considered under "New Business". This motion was seconded by Councilwoman Sellers and carried unanimously.

ORDINANCE BOOK NO. 17 - PAGE 485

C. PUBLIC HEARING TO CONSIDER A CONDITIONAL USE PERMIT FOR A DUPLEX ON TOWN MOUNTAIN ROAD

ORDINANCE NO. 2602 - ORDINANCE GRANTING A CONDITIONAL USE PERMIT FOR A DUPLEX ON TOWN MOUNTAIN ROAD

Assistant City Attorney Meldrum reviewed with Council the conditional use permit process by stating that City Council will first hear from staff who will describe the proposal and provide some background information. Then the applicant may make a presentation and then comments from the public will be taken. She said that there will be an opportunity for questions and rebuttal comments, as necessary. Following the hearing, Council will then debate the proposal and will take action on the request. It has been Council's practice to have two separate votes, one today to either grant or denial of the request. At the next formal meeting, staff would prepare a written Order summarizing the finding and conclusions either granting or denying issuance of the permit and there would be a separate vote on that written Order.

After hearing no questions about the procedure, Mayor Sitnick opened the public hearing at 6:32 p.m.

City Clerk Burleson administered the oath to anyone who anticipated speaking on this matter.

Assistant City Attorney Meldrum said that as documentary evidence is submitted, she will be noting the entry of that evidence into the record.

Mr. Mike Matteson, Urban Planner, submitted into the record City Exhibit 1 (Affidavit of Publication), City Exhibit 2 (Certification of Mailing of Notice to Property Owners); and City Exhibit 3 (Staff Report).

Mr. Matteson said that this is the consideration of a Conditional Use approval and permit as outlined in the Unified Development Ordinance (UDO) to construct a duplex on a 0.34 acre parcel on Town Mountain Road. The property owner is Dr. Shing Kuai.

By use of a "Sketch Plan" dated July 8, 1999, (City Exhibit 4), Mr. Matteson described the property which is zoned RS-8 Residential Single-Family High Density. Duplexes are conditional uses within the RS-8 zoning district.

Conditional uses are uses which, because of their unique characteristics or potential impacts on the surrounding neighborhood and/or the city as a whole, require individual consideration of their location, design, configuration, and/or operation at the particular location proposed.

In addition to development standards for the zoning district in which they are located, conditional uses must meet certain general and individualized conditions in order to ensure that the use is appropriate at a particular location and to ensure protection of the public health, safety, and welfare.

The general conditions, which apply to all conditional uses, can be found in Section 7-16-2 (c) of the UDO and are as follows:

1. That the proposed use or development of the land will not materially endanger the public health or safety;
2. That the proposed use is reasonably necessary for the public health or general welfare, such as by enhancing the successful operation of the surrounding area in its basic community functions or by providing an essential service to the community or region;
3. That the proposed use or development of the land will not substantially injure the value of adjoining or abutting property;
4. That the proposed use or development of the land will be in harmony with the scale, bulk, coverage, density, and character of the area or neighborhood in which it is located;
5. That the proposed use or development of the land will generally conform with the comprehensive plan and other official plans adopted by the city;
6. That the proposed use is appropriately located with respect to transportation facilities, water supply, fire and police protection, waste disposal, and similar facilities; and
7. That the proposed use will not cause undue traffic congestion or create a traffic hazard.

There is no indication that these general conditions will not be met by the proposal.

The following individualized conditions, which can be found in Section 7-16-2 (d) (4) of the UDO, apply specifically to duplexes in single-family residential districts:

a. Use districts: RS-2, RS-4, RS-8.

The property is zoned RS-8.

b. Duplexes shall be located a minimum of 300 feet from all other multi-family uses (excluding dwellings with accessory apartments) on the same street in the single-family district.

There is not another multi-family use within 300 feet on the same street and within this single-family district.

c. Minimum lot area shall be 125 percent of that required for a single residential unit in the respective district.

The lot area exceeds this minimum requirement.

d. Parking shall be located in the rear and screened with vegetation from adjacent single-family uses.

The site plan addresses this condition.

e. The structure shall have a single front entrance and other entrances as required.

The proposed structure will have one entrance on the front and the second entrance on the side of the building.

f. Requirements of the N.C. State Building Code shall be met.

State Building Code requirements must be met in order for a building permit to be issued for the project.

At their August meeting, the Technical Review Committee recommended approval of the conditional use permit with a number of conditions which were met with the submittal of revised plans.

The Planning and Development Department staff recommends that City Council hold a public hearing to consider a Conditional Use approval and permit to construct a duplex on a 0.34 acre parcel on Town Mountain Road.

Mr. Alex Cochran, representing Dr. Kuai, said that basically this is building a small house in his back yard. At this time it is uncertain that this will be used as a duplex. He said it may be used for Dr. Kuai's family who will be coming to the United States from Japan. He asked that consideration of this permit be considered at this meeting because if it is approved, waiting another two weeks for approving the written order may make it difficult to break ground.

Vice-Mayor Hay said that in the past Council has had to hammered out different conditions and it was hard to give exact direction to the staff to draft the written Order. However, this may be a situation where Council can give exact direction to staff and it will not have to come back to Council for approval of the written Order.

Assistant City Attorney Meldrum said that if City Council would like to accommodate the petitioner, Council would need a motion to adopt findings that the general conditions and the specific conditions have been met and then staff will draft an Order to indicate that.

There being no request from the applicant for rebuttal, Mayor Sitnick closed the public hearing at 6:46 p.m.

Councilman Cloninger moved to adopt findings that the application complies with the general conditions as set forth in Section 7-16-2 (c) of the Code of Ordinances of the City of Asheville and finds that in addition the application complies with the specific conditions found in Section 7-16-2 (d) (4) of the Code of Ordinances of the City of Asheville. This motion was seconded by Councilman Sellers and carried unanimously.

In consideration of adoption of those findings, Councilman Cloninger moved to grant a conditional use permit to construct a duplex on a 0.34 acre parcel on Town Mountain Road. This motion was seconded by Councilman Tomes and carried unanimously.

ORDINANCE BOOK NO. 17 - PAGE 492

As noted by this action today, Councilman Cloninger has shown that they are willing to approve multi-family units in single-family zoned areas where appropriate.

IV. UNFINISHED BUSINESS:

V. NEW BUSINESS:

A. RESOLUTION NO. 99-153 - RESOLUTION ADOPTING THE EDUCATIONAL ACCESS CHANNEL OPERATING GUIDELINES

Mr. Tim Amos, Chairman of the Educational Access Channel Commission, said that the Cable Franchise Agreement adopted by City Council in August 1998 designates three initial access channels to be used for public, educational, and/or government programming.

In March 1999, The Asheville City Council approved Ordinance No. 2554 establishing an Educational Access Channel Commission to oversee the development of the educational access channel. The ordinance requires that operating guidelines for the educational access channel be approved by Asheville City Council. At their August 11, 1999, meeting, the Educational Access Channel Commission unanimously approved the operating guidelines. The Commission is prepared to launch the Education Channel upon approval of these guidelines by City Council.

The Commission also unanimously approved an overview, mission & objectives statement which is also included for informational purposes. Both documents are based upon information gathered from the guidelines and operating policies of access channels in other communities as well as input from Commission members, City staff, and Asheville City Council.

Staff requests that City Council adopt the proposed resolution approving the Educational Television Operating Guidelines as written.

Mayor Sitnick said that the educational programming will be the primary focus and that at no time shall coverage of athletic events exceed 40% of available programming hours. In addition, considering the growing international community in Asheville, and the fact that many languages are spoken in the schools and in the community at large, we make sure that the use of other languages is considered all the time and at every turn. If there is need for interpretation, that might be something to consider.

When Mayor Sitnick asked if the channel that carries the educational station be capable of closed caption, Cable Access Coordinator Jeff Reble said that the capability exists, however, it is not offered like on the other cable stations. He explained that closed captioning is a service that either needs to be purchased or be provided and oftentimes that takes the form of a typist actually creating the captioning which is then transferred over the air to the viewers at home.

Mayor Sitnick said that members of Council have been previously furnished with a copy of the resolution and it would not be read.

Councilman Cobb moved for the adoption of Resolution No. 99-153. This motion was seconded by Councilman Tomes and carried unanimously.

RESOLUTION BOOK NO. 25 - PAGE 318

B. ORDINANCE NO. 2621 - ORDINANCE AMENDING CHAPTER 2 OF THE CODE OF ORDINANCES TO SEPARATE THE ASHEVILLE TREE/GREENWAY COMMISSION INTO THE ASHEVILLE TREE COMMISSION AND THE ASHEVILLE GREENWAY COMMISSION AND TO DEFINE THEIR POWERS AND DUTIES

Mr. Irby Brinson, Director of Parks and Recreation, said that this is the consideration of an ordinance to establish a Greenway Commission to serve in an advisory capacity for the development of greenways in Asheville.

On October 13, 1998, City Council adopted the Greenway Master Plan for the City of Asheville. Part of that plan included the establishment of a Greenway Commission to serve in an advisory capacity within the City. This ordinance will establish a Greenway Commission made up of interested citizens to promote the establishment of linear park areas known as greenways. The Commission shall consist of seven members. The Executive Director of Quality Forward, Executive Director of Parks, Recreation and Greenway Foundation, Executive Director of RiverLink, and Chair of the Parks and Recreation Advisory Board will serve as ex-officio members of the Commission. Members of the Commission will serve three year staggered terms. In addition, this ordinance will split the greenway function from the Asheville Tree and Greenway Commission, establishing the Asheville Tree Commission as a separate entity from the Greenway Commission. The purpose of the Greenway Commission will be to recommend updates of the Greenway Master Plan, foster communication and coordination among citizens of the City for acquisition and development of greenways, identify potential sites to be acquired, and conduct research, planning and feasibility assessments to support the Greenway Commission. The Greenway Commission will report to the Parks and Recreation Director. The Greenway Commission will establish monthly meeting times and dates to conduct their business.

City Council will determine who on the Asheville Tree and Greenway Commission will serve on the Greenway Commission and will appoint additional members as needed to both Commissions.

The Parks and Recreation Department staff is requesting City Council's approval of an ordinance establishing the Greenway Commission.

Mayor Sitnick said that members of Council have been previously furnished with a copy of the ordinance and it would not be read.

Councilman Tomes moved for the adoption of Ordinance No. 2621. This motion was seconded by Councilwoman Field and carried unanimously.

ORDINANCE BOOK NO. 17 - PAGE 495

C. RESOLUTION NO. 99-154 - RESOLUTION APPOINTING MEMBERS TO THE PLANNING & ZONING COMMISSION

Vice-Mayor Hay, Chairman of the Boards & Commissions Committee, said that the terms of Max Haner, Lionel Williams and Jane Mathews expired on August 14, 1999.

The Boards & Commissions Committee recommended the reappointment of Mr. Haner and Mr. Williams and that the position of Ms. Mathews be interviewed for. On September 7, 1999, it was the consensus of Council to instruct the City Clerk to prepare the proper paperwork to reappoint Mr. Haner and Mr. Williams to each serve an additional three-year term, terms to expire on August 14, 2002, or until their successors have been appointed.

Vice-Mayor Hay moved to reappoint Max Haner and hearing no opposition, Mr. Haner was unanimously appointed to the Planning & Zoning Commission to serve a three year term, term to expire August 14, 2002, or until his successor is appointed.

Vice-Mayor Hay moved to reappoint Lionel Williams and hearing no opposition, Mr. Williams was unanimously appointed to the Planning & Zoning Commission to serve a three year term, term to expire August 14, 2002, or until his successor is appointed.

On September 14, 1999, City Council interviewed Anne Campbell, Barber Melton, Hedy Fisher, Ben Slosman and Jan Howard. Peter Alberice was interested in the vacancy, however, he was not able to attend the interview on September 14.

Councilman Cobb nominated Barber Melton.

Mayor Sitnick nominated Hedy Fischer.

Councilwoman Field nominated Ben Slosman.

Each Council member voiced praise about all candidates for the Planning & Zoning Commission. After each Council member voiced their nominations, they each spoke in support of their choices.

Barber Melton was supported by two Council members, Ben Slosman was supported by two Council members and Hedy Fisher was supported by three Council members. Since there was not a majority for any candidate, Vice-Mayor Hay suggested in an effort to reduce the field of candidates, each Council member state their number one and number two choices. The number one choices would be given two points and the number two choices would be given one point. Hedy Fisher received eight points, Barber Melton received eight points and Ben Slosman received five points. Vice-Mayor Hay then asked for a show of hands in favor of appointing Hedy Fisher. Mayor Sitnick and Councilmen Cloninger Sellers and Tomes raised their hands. Vice-Mayor Hay then asked for a show of hands in favor of appointing Barber Melton. Vice-Mayor Hay, Councilwoman Field and Councilman Cobb raised their hands. Therefore, Hedy Fisher was appointed to the Planning & Zoning Commission to serve a three year term, term to expire August 14, 2002, or until her successor is appointed.

RESOLUTION BOOK NO. 25 - PAGE 320

D. RESOLUTION NO. 99-155 - RESOLUTION APPOINTING A MEMBER TO THE TOURISM DEVELOPMENT AUTHORITY

Vice-Mayor Hay, Chairman of the Boards & Commissions Committee, said that this is the consideration of appointing a member to the Tourism Development Authority.

The term of Randy Fluharty as a member on the Tourism Development Authority expired on August 30, 1999. Mr. Fluharty has served two full successive terms and is therefore, not eligible for reappointment.

On September 14, 1999, City Council interviewed Chris Cavanaugh.

Vice-Mayor Hay moved to appoint Chris Cavanaugh and hearing no opposition, Mr. Cavanaugh was appointed to the Tourism Development Authority, to serve a three year term, term to expire August 30, 2002, or until his successor is appointed.

RESOLUTION BOOK NO. 25 - PAGE 321

E. RESOLUTION NO. 99-156 - RESOLUTION APPOINTING A MEMBER TO THE REGIONAL WATER AUTHORITY OF ASHEVILLE, BUNCOMBE AND HENDERSON

Vice-Mayor Hay, Chairman of the Boards & Commissions Committee, said that this is the consideration of appointing a member to the Regional Water Authority of Asheville, Buncombe and Henderson.

The term of Charles Worley as a member on the Regional Water Authority expires on September 30, 1999. Mr. Worley is eligible for reappointment.

On September 14, 1999, City Council interviewed Ted Patton.

The Boards & Commissions Committee recommended City Council reappoint Mr. Worley to the Regional Water Authority.

Mayor Sitnick nominated Ted Patton.

Councilwoman Field nominated Charles Worley.

Each Council member spoke in support of their choices.

Ted Patton received four nominations and Charles Worley received three nominations. Therefore, Ted Patton was appointed to the Regional Water Authority to serve a three year term, term to expire September 30, 2002, or until his successor is appointed.

RESOLUTION BOOK NO. 25 - PAGE 322

VI. OTHER BUSINESS:

A. CLAIMS

The following claims were received by the City of Asheville from August 20 - September 16, 1999: Mark Gibney (Streets), Mikola Zzaricheuskiy (Sanitation), Mary Ann Mason (Police), Corinne Kurzman (Water), Debra Sharp (Fire), BellSouth (Water), Buncombe County Sheriff Department (Finance), Westall-Chandley Lumber Co. (Sanitation) and Robin Hester (Sanitation).

The following claims were received by the City from September 17-23, 1999: Charles Gantt (Streets) and Clarence Benton (Streets).

These claims have been referred to Asheville Claims Corporation for investigation.

VII. INFORMAL DISCUSSION AND PUBLIC COMMENT:

City Manager reported on his recent trip to Saumur, France, as part of a delegation of Sister City representatives. He presented the Mayor with a letter from the Mayor of Saumur along with a report of the some of the activity that took place during that trip.

City Council directed the City Manager to arrange a social for the local delegation to thank them for their help in getting a number of pieces of legislation through the General Assembly.

City Manager Westbrook updated City Council on the efforts being made by the City of Asheville with regard to the Hurricane Floyd Disaster Relief Program.

It was the consensus of City Council to place an item on the next worksession agenda about upcoming City Council meeting dates.

Ms. Carol Collins, representing Citizens for Property Rights, said that Buncombe County's Zoning Administrator Jim Coman was given the opportunity to report to City Council on their proposed ordinance on September 21, 1999, and that presentation is being aired on the Government Channel. The Citizens for Property Rights disagree with the position taken to endorse and promote the County's zoning ordinance. They feel the public deserves to hear both sides of the debate in Council's public education effort. They are tax payers and City Council is using public tax money to promote zoning in airing the video of Mr. Coman's presentation and they feel they should have equal time to make a presentation to City Council at the next worksession. They request this equal time to more fully inform voters of both sides of the issue and that it receive equal broadcasting time. Furthermore, if the City hosts an additional information meeting, either a public forum or in a City Council meeting session, they request equal time and opportunity to give that presentation. They feel that equal time and resources should be given to the opposing side.

Mayor Sitnick said that the City Council has not made any statement that they are endorsing the County's zoning ordinance at this time. However, after further review by City Council of the plan, they will then determine whether or not to support and endorse the ordinance.

It was the consensus of City Council to invite the Citizens for Property Rights to the next formal meeting on October 12, 1999, to make a 10-minute presentation under the item titled "Informal Discussion and Public Comment."

Upon inquiry of Ms. June Lamb, Mayor Sitnick said that no City funds were used for the City Manager's trip to Saumur, France.

VIII. ADJOURNMENT:

Mayor Sitnick adjourned the meeting at 8:05 p.m.

Magdalen Burleson
CITY CLERK

Leni Sitnick
MAYOR

Tuesday - October 5, 1999 - 3:00 p.m.

Worksession

Present: Mayor Leni Sitnick, Presiding; Vice-Mayor Edward C. Hay Jr.; Councilman Earl Cobb; Councilwoman Barbara Field (arrived at 3:05 p.m.); Councilman Thomas G. Sellers; and Councilman O.T. Tomes (arrived at 3:35 p.m.); City Attorney Robert W. Oast Jr.; City Manager James L. Westbrook Jr.; and City Clerk Magdalen Burleson

Absent: Councilman M. Charles Cloninger

CONSENT:

Fire Safety House Donation

Summary: The consideration of a resolution accepting a trailer-mounted "fire Safety House" donated by the Asheville Firefighters Association.

The Asheville Firefighters Association, a voluntary association that represents Asheville firefighters, conducts periodic fundraising activities, the funds from which are used to help promote community safety from fire. Over the past ten years, the Association has purchased literally hundreds of smoke detectors for free distribution to people who couldn't otherwise afford them.

The Association has acquired a "Fire Safety House"--a reduced-size mock-up of a house mounted on a trailer--that is used to help train children in fire safety techniques, like "Get Low in Smoke," "Stop, Drop and Roll" and "Learn Not to Burn." The Association would like to donate this Fire Safety House to the City of Asheville for use by the Asheville Fire Department in expanding its public fire safety education outreach activities.

Because the Fire Safety House was designed and built for this purpose, maintenance costs are expected to be nominal. No new vehicles would be required--the Fire Department has a vehicle with sufficient towing capacity to convey the Fire Safety House from school to school.

If the City were to pursue acquiring a Fire Safety House on its own, acquisition cost would be approximately $25,000.

The Fire Chief recommends that the City Council adopt a resolution authorizing the City Manager to accept the donation of a Fire Safety House to the City of Asheville by the Asheville Firefighters Association.

Set Public Hearing for Closing Portion of Spruce Street from Eagle Street to South Market Street for November 9, 1999

Mayor Sitnick asked that the record show that City Council has received this information and instructs the City Manager to place these items on the next formal City Council agenda.

UDO AMENDMENT REVIEW

City Attorney Oast said that these Unified Development Ordinance amendments are being brought before City Council in order that staff may respond to questions Council may have prior to the public hearings, which are scheduled on Tuesday, October 12, 1999. He advised Council that it would be inappropriate for Council to receive comments from the public at this worksession.

Change the area required for public notification for Certificates of Appropriateness for projects

Senior Planner Gerald Green said that this is the consideration of an ordinance to amend the Unified Development Ordinance to change the area required for public notification for Certificates of Appropriateness for projects.

The Planning and Zoning Commission, at their September 1, 1999, meeting, reviewed and recommended approval of an amendment to the Unified Development Ordinance which would revise the notification requirements for public hearings held to receive input on requests for Major Work Certificates of Appropriateness. The public hearings are held by the Historic Resources Commission prior to making a decision regarding the issuance of the Certificate of Appropriateness. The current ordinance requires notification of all owners of property located within 400 feet of the property for which the Certificate of Appropriateness is requested. The proposed amendment would require the following notification:

- For public hearings to consider requests for Certificates of Appropriateness (CA) for new construction, owners of property located within 400 feet of the property for which the CA is requested shall be notified. (No change)

- For public hearings to consider requests for all other major work Certificates of Appropriateness, owners of property located within 150 feet of the property for which the CA is requested shall be notified. (Change from current requirement of 400 feet)

- For the Biltmore Village and Albemarle Park Local Historic Districts, notification of public hearings to consider requests for CA's for major work (excluding new construction) shall be provided to all property owners in the local historic districts. (Currently no requirement for notification of all property owners in these historic districts).

No changes are proposed in the notification requirements for CA requests for new construction. The proposed changes would affect notification of public hearings for CA's for projects such as additions, major landscape projects, addition of windows and/or doors, construction of small outbuildings, etc. The proposed change in notification requirements was requested by the Historic Resources Commission.

The Asheville Planning and Zoning Commission voted 5 to 0 to recommend approval of the wording amendment. The Historic Resources Commission voted unanimously to recommend approval of the amendment. The Planning and Development staff recommends approval of the amendment.

Establish as minor works those projects related to locally designated historic landmarks for the purpose of downtown design review

Urban Planner Mike Matteson said that this is the consideration of an amendment to the Unified Development Ordinance which establishes all work related to Local Historic Landmark buildings and properties as minor works for the purposes of downtown design review.

This wording amendment is designed to streamline the review process for work related to Local Historic Landmark properties which are also located within the Downtown Design Review boundaries.

The Historic Resources Commission (HRC) reviews all changes to Local Historic Landmark properties throughout the county for compliance with the Secretary of the Interior's

Standards for Rehabilitation. HRC's design review process, and compliance with the standards, is mandatory. There are a number of Local Historic Landmark properties which are located downtown, and therefore are subject to review under the City's Downtown Design Review process as well as HRC review.

Downtown Design Review Major Works Projects are reviewed by the Downtown Commission while Downtown Design Review Minor Works Projects are reviewed by staff. Both major works projects and minor works projects are reviewed for compliance with the Downtown Design Review Guidelines.

This ordinance amendment establishes all work related to landmark buildings and properties as minor works projects for the purposes of Downtown Design Review, thus eliminating the need for review by two separate commissions.

At their September 1, 1999, meeting, the Planning and Zoning Commission voted unanimously to recommend approval of this proposed wording amendment.

Head of Montford Transition Overlay District and application of that district to 9 lots on Montford Avenue, Hill Street and Gudger Street

Urban Planner Mike Matteson said that this is the consideration of an amendment to the Unified Development Ordinance to consider the adoption of the Head of Montford Transition Overlay District as well as the application of this overlay district to nine lots at the "Head of Montford".

In late July, the Planning and Development Department received a rezoning application from the Asheville Area Chamber of Commerce for a 4.3 acre site (including 9 individual tax lots) at the Head of Montford.

The initial request was to rezone the property, which is currently zoned a combination of Community Business I, Office and RM-8 to Community Business II.

After examining the rezoning request, staff felt that certain uses would be very appropriate for the site, but that some of the uses permitted in the Community Business II zoning district could be detrimental to the surrounding community. Therefore, staff suggested that the Chamber of Commerce amend its request to ask that a Transition Overlay District be developed and applied to the site. The benefit of such an overlay district is that it can address the unique characteristics of a given area and define more clearly the type of development which will occur. The Chamber agreed to amend their rezoning request as suggested.

In developing the Transition Overlay District, staff first prepared a study of the area which documents its characteristics and describes how a Transition Overlay District can best address the issues.

The preparation of the overlay district involved significant input from both the Chamber of Commerce and the Montford community. A community meeting was held on September 15, 1999, at the Montford Center at which the overlay district was presented and additional input from the community was received.

The Head of Montford Transition Overlay District is designed to guide future development in a way that is beneficial to the immediate area, the Montford community and the City as a whole. The overlay district permits a relatively narrow range of uses and establishes development standards designed to promote compatibility with the historic context of the area and to minimize negative impacts of future development.

City Council is asked to first consider the ordinance amendment to create the Head of Montford Transition Overlay District and then to consider the application of the overlay district to the properties in question.

At their September 22, 1999, meeting, the Planning and Zoning Commission voted unanimously to recommended approval of both the ordinance amendment creating the Head of Montford Transition Overlay District and the application of the overlay district to the properties in question.

The Planning and Development Department staff is also recommending approval of both the ordinance amendment and the application of the overlay district.

Mr. Matteson answered various questions from Council regarding these amendments.

Mayor Sitnick asked that the record show that City Council has received this information and instructs the City Manager to proceed with the public hearings on October 12, 1999.

REQUIREMENT FOR RECEPTACLES FOR DISPOSAL OF CIGARETTE BUTTS

City Attorney Bob Oast said that Mayor Sitnick had requested that he draft an ordinance requiring businesses to provide receptacles for the disposal of smoking material

The indiscriminate disposal of cigar and cigarette butts in the public areas of the City harms the appearance of the City, is contrary to the public welfare, and is not always adequately addressed by litter laws. The proposed ordinance would require businesses that have one or more outside entrances, whether for the public or for employees only, directly abutting or within ten feet of a public street, sidewalk, right-of-way, or public or private common area, to provide at each such entrance a receptacle for the disposal of smoking materials.

If Council wishes to require receptacles for disposal of cigarette butts, cigar butts, or other smoking material, adoption of the ordinance is recommended.

Upon inquiry of Councilwoman Field relative to the North Carolina handicapped accessibility requirement, City Attorney Oast said that the ordinance is drafted in such a way that the receptacle could be provided at or near the entrance. He said that if the business placed the receptacle inside the establishment, he felt that would satisfy the purposes of the ordinance. He said that that he could a provision in the ordinance that suggests that alternative means may be provided where necessary to comply with building code requirements or handicapped accessibility requirements.

Vice-Mayor Hay was concerned about whether the City should regulate the litter on private property. City Attorney Oast said that the City does regulate a lot of activity that does occur on private property, such as building codes, but it will create an enforcement burden for staff.

Mayor Sitnick said that she didn't feel that the public necessarily discerns the difference between public and private property when it comes to litter.

Councilman Cobb wondered if the City should provide the standardized receptacles if they would not be cost prohibitive. Councilwoman Field responded that most businesses would not want the City to tell them what kind of receptacles they should have.

Mayor Sitnick noted that a number of years ago Quality Forward (who is very much in favor of this ordinance) bought a number of concrete square planters with sand in them and distributed them. However, since that time, owners have changed and businesses have opened and closed and the planters are no longer around.

After discussion about the penalty for violation of the ordinance, it was the consensus of City Council to have the violation be a $10 civil penalty.

Vice-Mayor Hay felt that we should draw the line, in terms of what we require, where our responsibilities are, which is to keep the streets clean. He felt it would be great if we could encourage, rather than require, businesses to have receptacles on their private property. City Attorney Oast responded that since we have an active anti-litter campaign, that would be the appropriate place to add language to that effect.

Upon direction of Council, City Attorney Oast reviewed the changes to the ordinance which include: (1) the removal of private common areas language; (2) making sure this requirement does not conflict with the NC State Building Code or the Handicapped Access Code; and (3) changing violation of the ordinance to a $10 civil penalty.

Mayor Sitnick asked that the record show that City Council has received this information and instructs the City Manager to place this item on the next formal City Council agenda.

CITY COUNCIL/STAFF RETREAT

It was the consensus of City Council to hold its annual retreat to identify the key service and budget issues for Fiscal Year 2000-2001 on January 28-30, 2000, at Highland Lake Inn and Conference Center in Flat Rock, North Carolina. Discussion also centered around the possibility of only having the retreat for two days, depending on the agenda.

Mayor Sitnick said that she would appoint three members of Council to work with the City Manager on the agenda.

UPCOMING CITY COUNCIL MEETING DATES

It was the consensus of City Council to amend it's meeting schedule as follows: November 2, 1999 worksession be rescheduled to November 3, 1999; November 9, 1999 - formal; November 16, 1999 - worksession; November 23, 1999 - formal; November 30, 1999 - community meeting at the West Asheville Community Center; December 7, 1999 - formal; December 14, 1999 - worksession; December 21, 1999 - formal; December 28, 1999 - cancel; January 4, 2000 - cancel; January 11, 2000 - formal; January 18, 2000 - worksession; and January 25, 2000 - formal. The meeting dates thereafter will continue to be a worksession on the first and third Tuesdays of each month, formal meetings on the second and fourth Tuesdays of each month, and a community meeting on the fifth Tuesday of any month.

Mayor Sitnick asked that the record show that City Council has received this information and instructs the City Manager to place this item on the next formal City Council agenda.

REPORTS ON BOARDS/COMMISSIONS

Vice-Mayor Hay reported that the Boards and Commissions Committee met and reviewed the next quarterly appointment process. He also said that the City Clerk would be developing a reappointment application in which current members would not have to reapply if they are interested in reappointment, however, they can update their initial application if they so choose.

It was the consensus of City Council to have City staff research a request from the Chamber of Commerce and the Economic Development Commission Chair about designating a portion of funding from the City's current contribution to the Chamber of Commerce being designated to the Economic Development Commission.

ADJOURNMENT:

Mayor Sitnick adjourned the meeting at 4:15 p.m.

Magdalen Burleson
CITY CLERK

Leni Sitnick
MAYOR

Tuesday - October 12, 1999 - 5:00 p.m.

Regular Meeting

Present: Mayor Leni Sitnick, Presiding; Vice-Mayor Edward C. Hay Jr.; Councilman Earl Cobb; Councilwoman Barbara Field; Councilman Thomas G. Sellers; and Councilman O.T. Tomes; City Attorney Robert W. Oast Jr.; City Manager James L. Westbrook Jr.; and City Clerk Magdalen Burleson

Absent: M. Charles Cloninger

INVOCATION

Councilman Tomes gave the invocation.

I. PROCLAMATIONS:

A. PROCLAMATION PROCLAIMING OCTOBER 25-NOVEMBER 1, 1999, AS "EARTH RELIGIONS AWARENESS WEEK"

Mayor Sitnick read the proclamation proclaiming October 25-November 1, 1999, as "Earth Religions Awareness Week" " in the City of Asheville. She presented the proclamation to Rev. Bryon Ballard, who briefed City Council on some activities taking place during the week.

B. ANNOUNCEMENTS

Mayor Sitnick recognized Ms. Janet Sword and her 6th grade class from Carolina Day School.

Mayor Sitnick thanked Mr. Glen Holbert from the Asheville Firefighters Association for their extremely generous donation of the fire safety house to educate children about fire prevention.

Councilman Sellers invited City Council members and the public to attend the October 21, 1999, 2:00 p.m. grand re-opening of the new West Asheville Police Resource Center at 970 Haywood Road.

On behalf of the City of Asheville, City Manager Westbrook expressed his deep sorrow over the passing of William F. Wolcott Jr. on October 9, 1999. Mr. Wolcott served the City of Asheville for over 45 years until his retirement as Associate City Manager/City Clerk on December 31, 1994. A resolution in memory will be presented to Mr. Wolcott's family.

On behalf of City Council, City Manager Westbrook expressed his deep sorrow over the passing of Councilman Cloninger's father Rowell C. Cloninger.

II. CONSENT:

A. APPROVAL OF THE MINUTES OF THE REGULAR MEETING HELD ON SEPTEMBER 28, 1999, AND THE WORKSESSION HELD ON OCTOBER 5, 1999

B. RESOLUTION NO. 99-157 - RESOLUTION AUTHORIZING THE CITY MANAGER TO ACCEPT THE DONATION OF A FIRE SAFETY HOUSE TO THE CITY OF ASHEVILLE BY THE ASHEVILLE FIREFIGHTERS ASSOCIATION

Summary: The consideration of a resolution accepting a trailer-mounted "fire Safety House" donated by the Asheville Firefighters Association.

The Asheville Firefighters Association, a voluntary association that represents Asheville firefighters, conducts periodic fundraising activities, the funds from which are used to help promote community safety from fire. Over the past ten years, the Association has purchased literally hundreds of smoke detectors for free distribution to people who couldn't otherwise afford them.

The Association has acquired a "Fire Safety House"--a reduced-size mock-up of a house mounted on a trailer--that is used to help train children in fire safety techniques, like "Get Low in Smoke," "Stop, Drop and Roll" and "Learn Not to Burn." The Association would like to donate this Fire Safety House to the City of Asheville for use by the Asheville Fire Department in expanding its public fire safety education outreach activities.

Because the Fire Safety House was designed and built for this purpose, maintenance costs are expected to be nominal. No new vehicles would be required--the Fire Department has a vehicle with sufficient towing capacity to convey the Fire Safety House from school to school.

If the City were to pursue acquiring a Fire Safety House on its own, acquisition cost would be approximately $25,000.

The Fire Chief recommends that the City Council adopt a resolution authorizing the City Manager to accept the donation of a Fire Safety House to the City of Asheville by the Asheville Firefighters Association.

RESOLUTION BOOK NO. 25 - PAGE 323

C. RESOLUTION NO. 99-158 - RESOLUTION SETTING A PUBLIC HEARING ON NOVEMBER 9, 1999, TO CLOSE A PORTION OF SPRUCE STREET FROM EAGLE STREET TO SOUTH MARKET STREET

RESOLUTION BOOK NO. 25 - PAGE 324

D. RESOLUTION NO. 99-159 - RESOLUTION MODIFYING THE CITY COUNCIL MEETING SCHEDULE

Summary: November 2, 1999 worksession be rescheduled to November 3, 1999; November 9, 1999 - formal; November 16, 1999 - worksession; November 23, 1999 - formal; November 30, 1999 - community meeting at West Asheville Community Center; December 7, 1999 - formal; December 14, 1999 - worksession; December 21, 1999 - formal; December 28, 1999 - cancel; January 4, 2000 - cancel; January 11, 2000 - formal; January 18, 2000 - worksession; and January 25, 2000 - formal. The meeting dates thereafter will continue to be a worksession on the first and third Tuesdays of each month, formal meetings on the second and fourth Tuesdays of each month, and a community meeting on the fifth Tuesday of any month.

RESOLUTION BOOK NO. 25 - PAGE 325

E. MOTION SETTING A PUBLIC HEARING ON OCTOBER 27, 1999, TO REPEAL ORDINANCE NO. 2480, SO AS TO REMOVE THE ORDER REQUIRING DEMOLITION OF THE STRUCTURE LOCATED AT 22 SULPHUR SPRINGS ROAD

F. **MOTION SETTING A PUBLIC HEARING ON OCTOBER 27, 1999, TO CONSIDER A REQUEST TO APPROVE A MODIFICATION FROM THE SUBDIVISION STANDARD REQUIRING THAT EACH LOT ABUT A PUBLIC STREET FOR A SUBDIVISION OF A 0.75 ACRE TRACT OF LAND LOCATED ON THIRD STREET INTO TWO LOTS**

G. **MOTION SETTING A PUBLIC HEARING ON OCTOBER 27, 1999, TO CONSIDER A REQUEST TO APPLY THE PLANNED UNIT DEVELOPMENT OVERLAY DISTRICT TO THAT LOT LOCATED AT 121 MERCHANT STREET WHICH HAS AN UNDERLYING ZONING OF RS-8 RESIDENTIAL SINGLE-FAMILY HIGH DENSITY DISTRICT**

H. **MOTION SETTING A PUBLIC HEARING ON OCTOBER 27, 1999, TO CONSIDER THE INITIAL ZONING OF THE ROYAL PINES POOL AND PARK PROPERTIES LOCATED ON SWEETEN CREEK ROAD AND PEACH TREE STREET TO RS-4 RESIDENTIAL SINGLE-FAMILY MEDIUM DENSITY DISTRICT**

I. **MOTION SETTING A PUBLIC HEARING ON OCTOBER 27, 1999, TO CONSIDER THE INITIAL ZONING OF PROPERTY KNOWN AS DEERFIELD EPISCOPAL RETIREMENT COMMUNITY LOCATED OFF OF HENDERSONVILLE ROAD TO RM-16 RESIDENTIAL MULTI-FAMILY HIGH DENSITY DISTRICT**

J. **MOTION SETTING A PUBLIC HEARING ON OCTOBER 27, 1999, TO CONSIDER THE REZONING OF A PORTION OF THAT LOT LOCATED ALONG GASTON STREET FROM RS-8 RESIDENTIAL SINGLE-FAMILY HIGH DENSITY DISTRICT TO OFFICE II DISTRICT**

Mayor Sitnick said that members of Council have been previously furnished with a copy of the resolutions and ordinances and the Consent Agenda and they would not be read.

Councilman Sellers moved for the adoption of the Consent Agenda. This motion was seconded by Councilman Tomes and carried unanimously.

III. PUBLIC HEARINGS:

A. **PUBLIC HEARING TO AMEND THE UNIFIED DEVELOPMENT ORDINANCE TO CONSIDER A NEW HEAD OF MONTFORD TRANSITION OVERLAY DISTRICT AND APPLICATION OF THAT DISTRICT TO NINE LOTS ON MONTFORD AVENUE, HILL STREET AND GUDGER STREET**

ORDINANCE NO. 2622 - ORDINANCE AMENDING THE UNIFIED DEVELOPMENT ORDINANCE TO ESTABLISH THE HEAD OF MONTFORD TRANSITION OVERLAY DISTRICT

ORDINANCE NO. 2623 - ORDINANCE AMENDING ZONING OF NINE LOTS ON MONTFORD AVENUE, HILL STREET AND GUDGER STREET

Mayor Sitnick opened the public hearing at 5:22 p.m.

Mr. Mike Matteson, Urban Planner, said that this is the consideration of an amendment to the Unified Development Ordinance ("UDO") to consider the adoption of the Head of Montford Transition Overlay District as well as the application of this overlay district to nine lots at the "Head of Montford". This public hearing was advertised on October 1 and October 8, 1999.

In late July, the Planning and Development Department received a rezoning application from the Asheville Area Chamber of Commerce for a 4.3 acre site (including 9 individual tax lots) at the Head of Montford.

The initial request was to rezone the property, which is currently zoned a combination of Community Business I, Office and RM-8 to Community Business II.

After examining the rezoning request, staff felt that certain uses would be very appropriate for the site, but that some of the uses permitted in the Community Business II zoning district could be detrimental to the surrounding community. Therefore, staff suggested that the Chamber of Commerce amend its request to ask that a Transition Overlay District be developed and applied to the site. The benefit of such an overlay district is that it can address the unique characteristics of a given area and define more clearly the type of development which will occur. The Chamber agreed to amend their rezoning request as suggested.

In developing the Transition Overlay District, staff first prepared a study of the area which documents its characteristics and describes how a Transition Overlay District can best address the issues.

The preparation of the overlay district involved significant input from both the Chamber of Commerce and the Montford community. A community meeting was held on September 15, 1999, at the Montford Center at which the overlay district was presented and additional input from the community was received.

The Head of Montford Transition Overlay District is designed to guide future development in a way that is beneficial to the immediate area, the Montford community and the City as a whole. The overlay district permits a relatively narrow range of uses and establishes development standards designed to promote compatibility with the historic context of the area and to minimize negative impacts of future development.

City Council is asked to first consider the ordinance amendment to create the Head of Montford Transition Overlay District and then to consider the application of the overlay district to the properties in question.

At their September 22, 1999, meeting, the Planning and Zoning Commission voted unanimously to recommended approval of both the ordinance amendment creating the Head of Montford Transition Overlay District and the application of the overlay district to the properties in question.

The Planning and Development Department staff is also recommending approval of both the ordinance amendment and the application of the overlay district.

Mr. Jay Garner, President and CEO of the Chamber of Commerce, said that he was excited about this potential opportunity to partner with the Montford neighborhood and the Asheville community by remaining in downtown Asheville and developing a Chamber Visitor Center and Headquarters Building that is indicative of our community and in developing something that the neighborhood residents and the Chamber would be proud of at the Head of

Montford. He said they have asked the Historic Resources Commission to partner with them in having a design team that will work with their architects that will develop a facility that everyone can be proud of.

Ms. Mary Jo Brezny, Montford resident, stated that the UDO requires that a neighborhood plan, a corridor plan, or an area plan be completed prior to the establishment of a transition overlay district. She said it was difficult to believe that a plan could be completed in the six weeks before it was presented to the Planning & Zoning Commission, especially since the Charlotte Street transition overlay district is taking months to complete. She said the residents of Montford are not aware of the Head of Montford Study, nor were they involved in it, except to the extent they were called for input into the transition overlay district. She was concerned that this procedure has not been carried forth as it should be according to the UDO. She was also concerned about the traffic that will be generated by the Chamber. She felt zoning this one piece of property was illegal spot zoning. She urged City Council to remand this matter back to the Planning & Zoning Commission for the property study that it deserves. Ms. Brezny also noted that the transition overlay district calls for allowing a 45,000 square foot building. She felt this large sized building will be out of proportion to the other commercial buildings in the neighborhood.

Mr. Matteson said that City staff did do a study looking at the property in question as well as the surrounding properties, documenting the characteristics and making recommendations, which included the establishment of a transition overlay district. The Planning & Zoning Commission was furnished a copy of that study well before they took action on the issue. City Council has also been furnished a copy of that study.

Planning & Development Director Scott Shuford said that they felt the transition overlay was a tool provided in our UDO that we could utilize to address the issues and concerns that were being raised by the community, as well as to meet the needs of the Chamber. He said it is a very small transition overlay district and they did look at the possibility of expanding it to include other areas, however, through that research they found no need to extend it further.

Ms. June Lamb, West Asheville resident, also felt that the UDO was not followed in this process with regard to a prior study.

Ms. Myra Fuller, Montford resident, said that many Montford residents are cautiously optimistic about the Chamber's proposed development on this property. They appreciate the Chamber's willingness to work with the neighborhood and the Historic Resources Commission from the very beginning. However, she said area residents are very concerned about the traffic situation that will be created by the Chamber development. She said the Chamber had done a cursory traffic study, however, they didn't take into consideration the Neighborhood Housing Services' ("NHS") gateway project that is due to break ground very soon. The residents, and possibility representatives of NHS, will be meeting with the City's Traffic Engineer to discuss traffic concerns which need to be ironed out prior to any construction. She said that no one in the neighborhood has seen any kind of study that the Planning & Development Department has prepared concerning this area. She said that while the Chamber is perhaps a very good use for this property and we feel like it's in their best interest to do a good development, they are still concerned about commercial encroachment in their neighborhood.

Mr. Jeff Kelly, Montford resident, agreed that the Chamber might be a good use for that property, however, the neighborhood is very concerned about the traffic.

Mr. Matteson said that Planning staff had an initial meeting with 8-10 Montford residents to get their concerns and issues. At that time, staff mentioned that a study was in the process of being done. Staff also mentioned and referred to the study in the community meeting on

September 15 and the presentation to the Planning & Zoning Commission on September 22. He wasn't aware until now that some of the residents didn't know about the study. It certainly was communicated to them that a study had been done. He noted that this was not a full scale small area plan, but this was a study that documented the characteristics of the area and gave some guidance to the development of a transition overlay district.

Mr. Michael Moule, City's Traffic Engineer, said that after reviewing the Chamber study (which is a preliminary study), he noted that there will be a few things that he will be asking that they add to the study. Because the major concern was at the intersection of Hill Street and Montford Avenue, the City is currently having an independent consultant look into the possibility of signalizing the Hill Street approach to that intersection. He hoped to have the recommendation from the consultant shortly. Besides that, he felt the preliminary study shows that even with the additional traffic generated, that the intersections in the interchange area should operate at an acceptable level of service.

Upon inquiry of Vice-Mayor Hay, Mr. Moule said that the existing zoning has a potential for ultimately more traffic than the proposed zoning.

Mayor Sitnick closed the public hearing at 6:03 p.m.

Upon inquiry of Councilman Cobb relative to the potential illegal spot zoning, City Attorney Oast said that other facts you need to look at, in addition to the size, are the consistency with the comprehensive plan, the degree to which the zoning is being proposed differs from the uses of the surrounding properties, and the purpose of the rezoning that is being requested. He felt that the record demonstrates that the staff has carefully looked at these issues and that the zone being established is carefully tailored to fit the peculiarities of the area where is it being proposed. He said there will always be an issue with a small rezoning, however, he felt in this case, it is defensible. City Manager Westbrook also noted that the Planning & Zoning Commission, Planning & Zoning staff and the City Attorney would not have recommended approval if they felt this was an illegal spot zoning.

Mayor Sitnick said that members of Council have previously received a copy of the ordinances and they would not be read.

Vice-Mayor Hay was pleased with the good working relationship between the Chamber, the neighborhood and City staff in trying to find something everyone is satisfied with. The Montford residents he has talked with felt that this is a good choice for that very critical lot. He was glad to hear that the transition overlay will reduce traffic in that area. He liked the extra protection of extending the Historic Resources Commission's jurisdiction beyond the district. He felt this piece of property needs careful development and this process seems to represent to him exactly that kind of careful development.

After speaking in favor of having a transition overlay district tool, especially for this area, Councilwoman Field moved to adopt Ordinance No. 2622. This motion was seconded by Councilman Sellers and carried unanimously.

ORDINANCE BOOK NO. 18 - PAGE 1

City Attorney Oast reminded Council that this rezoning is not for any particular use.

Mayor Sitnick said that no matter what this property is used for, that the buffering standards, the landscaping standards and the traffic issues be addressed with the community as much as possible and at the very beginning of the process.

Vice-Mayor Hay moved for the adoption of Ordinance No. 2623. This motion was seconded by Councilwoman Field and carried unanimously.

ORDINANCE BOOK NO. 17 - PAGE 7

Councilwoman Field noted that that not every study involves months of work. She suggested a possible amendment to the UDO to clarify what is meant by a transition overlay study, which is different from a small area plan.

B. PUBLIC HEARING RELATIVE TO AMENDING THE UNIFIED DEVELOPMENT ORDINANCE TO ESTABLISH AS MINOR WORKS THOSE PROJECTS RELATED TO LOCALLY DESIGNATED HISTORIC LANDMARKS FOR THE PURPOSES OF DOWNTOWN DESIGN REVIEW

ORDINANCE NO. 2624 - ORDINANCE AMENDING THE UNIFIED DEVELOPMENT ORDINANCE TO ESTABLISH AS MINOR WORKS THOSE PROJECTS RELATED TO LOCALLY DESIGNATED HISTORIC LANDMARKS FOR THE PURPOSES OF DOWNTOWN DESIGN REVIEW

Mayor Sitnick opened the public hearing at 6:12 p.m.

Mr. Mike Matteson, Urban Planner, said that this is the consideration of an amendment to the Unified Development Ordinance which establishes all work related to Local Historic Landmark buildings and properties as minor works for the purposes of downtown design review. This public hearing was advertised on October 1, 1999, and October 8, 1999.

This wording amendment is designed to streamline the review process for work related to Local Historic Landmark properties which are also located within the Downtown Design Review boundaries.

The Historic Resources Commission (HRC) reviews all changes to Local Historic Landmark properties throughout the county for compliance with the Secretary of the Interior's Standards for Rehabilitation. HRC's design review process, and compliance with the standards, is mandatory. There are a number of Local Historic Landmark properties which are located downtown, and therefore are subject to review under the City's Downtown Design Review process as well as HRC review.

Downtown Design Review Major Works Projects are reviewed by the Downtown Commission while Downtown Design Review Minor Works Projects are reviewed by staff. Both major works projects and minor works projects are reviewed for compliance with the Downtown Design Review Guidelines.

This ordinance amendment establishes all work related to landmark buildings and properties as minor works projects for the purposes of Downtown Design Review, thus eliminating the need for review by two separate commissions.

At their September 1, 1999, meeting, the Planning and Zoning Commission voted unanimously to recommend approval of this proposed wording amendment.

Mayor Sitnick closed the public hearing at 6:14 p.m.

Mayor Sitnick said that members of Council have previously received a copy of the ordinance and it would not be read.

Councilwoman Field moved for the adoption of Ordinance No. 2624. This motion was seconded by Councilman Cobb and carried unanimously.

ORDINANCE BOOK NO. 18 - PAGE 10

C. PUBLIC HEARING RELATIVE TO AMENDING THE UNIFIED DEVELOPMENT ORDINANCE TO CHANGE THE AREA REQUIRED FOR PUBLIC NOTIFICATION FOR CERTIFICATES OF APPROPRIATENESS FOR PROJECTS

ORDINANCE NO. 2625 - ORDINANCE AMENDING THE UNIFIED DEVELOPMENT ORDINANCE TO CHANGE THE AREA REQUIRED FOR PUBLIC NOTIFICATION FOR CERTIFICATES OF APPROPRIATENESS FOR PROJECTS

Mayor Sitnick opened the public hearing at 6:15 p.m.

Mr. Mike Matteson, Urban Planner, said that this is the consideration of an ordinance to amend the Unified Development Ordinance to change the area required for public notification for Certificates of Appropriateness for projects. This public hearing was advertised on October 2, 1999, and October 8, 1999.

The Planning and Zoning Commission, at their September 1, 1999, meeting, reviewed and recommended approval of an amendment to the Unified Development Ordinance which would revise the notification requirements for public hearings held to receive input on requests for Major Work Certificates of Appropriateness. The public hearings are held by the Historic Resources Commission prior to making a decision regarding the issuance of the Certificate of Appropriateness. The current ordinance requires notification of all owners of property located within 400 feet of the property for which the Certificate of Appropriateness is requested. The proposed amendment would require the following notification:

- For public hearings to consider requests for Certificates of Appropriateness (CA) for new construction, owners of property located within 400 feet of the property for which the CA is requested shall be notified. (No change)

- For public hearings to consider requests for all other major work Certificates of Appropriateness, owners of property located within 150 feet of the property for which the CA is requested shall be notified. (Change from current requirement of 400 feet)

- For the Biltmore Village and Albemarle Park Local Historic Districts, notification of public hearings to consider requests for CA's for major work (excluding new construction) shall be provided to all property owners in the local historic districts. (Currently no requirement for notification of all property owners in these historic districts).

No changes are proposed in the notification requirements for CA requests for new construction. The proposed changes would affect notification of public hearings for CA's for projects such as additions, major landscape projects, addition of windows and/or doors, construction of small outbuildings, etc. The proposed change in notification requirements was requested by the Historic Resources Commission.

The Asheville Planning and Zoning Commission voted 5-0 to recommend approval of the wording amendment. The Historic Resources Commission voted unanimously to recommend approval of the amendment. The Planning and Development staff recommends approval of the amendment.

Mayor Sitnick closed the public hearing at 6:17 p.m.

Mayor Sitnick said that members of Council have previously received a copy of the ordinance and it would not be read.

Councilman Tomes moved for the adoption of Ordinance No. 2625. This motion was seconded by Councilwoman Field and carried unanimously.

ORDINANCE BOOK NO. 18 - PAGE 13

IV. UNFINISHED BUSINESS:

A. CITY COUNCIL/STAFF RETREAT

Mayor Sitnick appointed herself, Vice-Mayor Hay and Councilwoman Field to work with the City Manager on the upcoming City Council/Staff Retreat agenda.

V. NEW BUSINESS:

A. ORDINANCE REQUIRING RECEPTACLES FOR DISPOSAL OF CIGARETTE BUTTS

City Attorney Oast said that that this is the consideration of adoption of an ordinance requiring businesses to provide receptacles for the disposal of smoking material

The indiscriminate disposal of cigar and cigarette butts in the public areas of the City harms the appearance of the City, is contrary to the public welfare, and is not always adequately addressed by litter laws. The proposed ordinance would require businesses that open directly onto sidewalks or public areas to provide buckets or similar receptacles at or near their entrances for disposal of smoking materials.

If Council wishes to require receptacles for disposal of cigarette butts, cigar butts, or other smoking material, adoption of the ordinance is recommended.

Mayor Sitnick recommended that City Council not vote on this ordinance at this time so that we can have the opportunity for additional public input. She stressed that we are looking for a solution to the problem of disposing cigarette butts and other smoking material remnants on the ground. She said Council is willing to consider any possible solution to this problem. Personally she is appalled that we even have to consider passing an ordinance that would establish a way for people to properly dispose of their smoking material debris, rather than throwing them on the sidewalks. This does not, however, address the problem of people emptying their ashtrays from their cars at stop signs, etc. This ordinance was merely an attempt to find a way to ask businesses that had employees who smoke outside their entrances or exits to provide a receptacle for those employees' smoking debris. She is very open to further discussion on this. It is very difficult to enforce litter laws, especially when it only takes about 1 second to dispose a cigarette butt onto the ground and unless you see someone doing it, it is very difficult to enforce. She would like to solve the problem, create awareness of the problem, and implore our citizenry to not dispose of their smoking material debris on the ground. The purpose of introducing the potential ordinance was to open the discussion and find a solution.

City Attorney Oast said that he had made changes to the ordinance as requested by City Council at their October 5, 1999, worksession.

Mayor Sitnick recommended, in addition to receiving more public comment on this issue, that we forward this problem along to the Downtown Commission and ask them to review it and come back to Council, as an advisory commission, within 60 days with any recommendation that they might have.

Councilman Cobb also suggested we obtain input from the Biltmore Village and West Asheville groups.

Councilwoman Field said that there was one point a business roundtable that included representatives from Biltmore Village, West Asheville, the Malls, etc. and maybe we can reconstitute that group into a subcommittee.

City Attorney Oast said that the Downtown Commission is an officially established commission of the City and so your direction to that commission to advise you is certainly appropriate. Whether the Biltmore Village or West Asheville group wishes to participate is up to them, but he will be glad to refer it to them.

Mayor Sitnick said that she would like this to extend to the N.C. Dept. of Transportation which is in some ways the overseer of many of the areas where some of the biggest problems regarding smoking material debris is concerned.

Councilwoman Field agreed that we need to stop the litter, however, she said that the way the ordinance is written, we are penalizing the business owner for someone else's bad habits. She felt there must be a way of putting the punishment where the crime is.

Councilwoman Field moved to continue this matter for 60 days. This motion was seconded by Councilman Sellers and carried unanimously.

Mayor Sitnick suggested that a press release be issued to let the community know that City Council is seeking ideas, thoughts and comments on this issue.

VI. OTHER BUSINESS:

A. PRESENTATION BY THE CITIZENS FOR PROPERTY RIGHTS

Mr. Albert Sneed, attorney representing the Citizens for Property Rights, addressed City Council with their position on the proposed Buncombe County zoning ordinance. In summary, he explained they are concerned with the larger public policy issues: (1) zoning artificially increases the cost of affordable housing; (2) zoning is expensive (staff, cars, etc.) and the money will either have to come from cuts in services or a raise in property taxes; (3) zoning is extremely divisive and City residents should consider the fairness in telling people in the County what to do with their property; and (4) mandatory county-wide zoning will hurt industrial development. He felt there are better ways to deal with land use issues than to adopt the County's zoning ordinance. He urged the City residents to vote no zoning in Buncombe County.

B. PRESENTATION BY PRO-ZONING GROUP

Mr. Neb Cabaniss, representing the Fairview Advisory Coalition and the Citizens for Buncombe's Future, addressed City Council with their position on the proposed Buncombe County zoning ordinance. With the use of a slide program, he explained that growth is the reason they support the implementation of zoning on a County-wide basis. He said that good growth can be beneficial to our community and the consequences of unplanned growth is what causes concern. Some concerns include: farm land can be consumed by urban sprawl, mountainsides can be scarred by unplanned development on steep slopes, sprawl can consume recreational land, strip development along highways increases accidents and slows traffic; and when your neighbor is one mile down the road what he does has little impact on your life; however, when he is next door what he does can radically impact the quality of your life as well as your property values. He stressed that planned and smart growth is the key to the future success of Buncombe County. He said that Buncombe County is the largest rural county in Western North Carolina without county-wide zoning. He urged City Council to publicly support the Buncombe County zoning ordinance.

City's Planning & Development Director Scott Shuford felt that the County zoning is a step in the right direction and is a necessary tool for an area undergoing the transition from rural to urban.

C. CLAIMS

The following claims were received by the City of Asheville during the period of September 24-30, 999: Todd Kent (Finance), Vera Robinson (Streets) and Dearborn Movius (Water).

The following claims were received during the period of October 1-7, 1999: Blue Bird Cab (Police), Sandra Goodwin (Water), Tecora H. Young (Water) and Barbara Styles (Streets).

These claims have been referred to Asheville Claims Corporation for investigation.

D. LAWSUIT

The following lawsuit was received by the City of Asheville on October 12, 1999: Scott Alan Gaddy v. the City of Asheville. The nature of the proceeding is that he is seeking a trial de novo from his dismissal from employment with the City of Asheville. This matter will be handled in-house.

VII. INFORMAL DISCUSSION AND PUBLIC COMMENT:

A. COMMENTS BY CAROL COLLINS RE: BUNCOMBE COUNTY ZONING

Ms. Carol Collins was surprised that her request to allow the Citizens for Property Rights equal time for a presentation enlisted another opportunity for the pro-zoning message. Those concerned about going to a county-wide zoning plan are still behind with regard to the City's public education effort which is being aired on the government channel. With regard to infrastructure, she said the incentives for controlling growth in the county, with the incentive based voluntary land use plan that the County did adopt, did guide and direct growth and development in the county without going to a full-blown zoning plan.

B. COMMENTS BY MIKE CARROLL RE: STONER ROAD

Mr. Mike Carroll, representing the Stoner Road Community Club, addressed Council with the following concerns: (1) speeding problem on Stoner Road; (2) need of sidewalks on Stoner Road; (3) tree limbs that need to be cut; and (4) litter.

282

City Manager Westbrook said that he would contact Mr. Carroll and address his concerns.

C. CLOSED SESSION

At 7:12 p.m., Councilwoman Field moved to go into closed session for the following reasons: To consult with an attorney employed by the City of Asheville in order to preserve the attorney-client privilege between the City and its attorney. The parties to the lawsuit about which the Council expects to receive advice are: Morris Communications, Inc., d/b/a Fairway Outdoor Advertising Co.; Outdoor Communications, Inc.; Maple Cove, Inc.; and City of Asheville. The statutory authorization is G. S. 143-318.11 (a) (3). This motion was seconded by Councilman Sellers and carried unanimously.

At 7:20 p.m., Councilman Sellers moved to go out of closed session. This motion was seconded by Councilwoman Field and carried unanimously.

VIII. ADJOURNMENT:

Mayor Sitnick adjourned the meeting at 7:20 p.m.

Magdalen Burleson
CITY CLERK

Leni Sitnick
MAYOR

Tuesday - October 19, 1999 - 3:00 p.m.

Worksession

Present: Mayor Leni Sitnick, Presiding; Vice-Mayor Edward C. Hay Jr.; Councilman M. Charles Cloninger; Councilman Earl Cobb; Councilwoman Barbara Field; Councilman Thomas G. Sellers; and Councilman O.T. Tomes; City Attorney Robert W. Oast Jr.; City Manager James L. Westbrook Jr.; and City Clerk Magdalen Burleson

Absent: None

CONSENT:

MSD Sewer Line Easement

Summary: The consideration of a resolution authorizing the Mayor to execute an easement to the Metropolitan Sewerage District for an existing sewer line which will be upgraded on property owned by the City of Asheville located off of Old County Home Road.

Staff has been working with Martin-McGill, a consultant for the Metropolitan Sewerage District, in coordinating improvements to be made on an existing sanitary sewer line and a permanent easement. The property, located off of Old County Home Road, was dedicated to the City for park use. It is currently undeveloped. The Parks and Recreation Department staff have agreed that the easement will in no way limit the potential use of the property for a park.

City staff recommends that the Mayor be authorized to execute easement documents for an existing sewer line to the Metropolitan Sewerage District in order to upgrade the sewer line located off of Old County Home Road (PIN No. 9628.08-79-7112).

Extension in Deadline for Public Access Channel Proposals

Summary: The consideration of a request from the non-profit organizations interested in submitting proposals to manage the public access channel for an extension in the deadline to submit these proposals.

On August 3, 1999, City staff requested permission to issue a Request for Proposal (RFP) soliciting non-profit organizations who were interested in managing the public access channel. The RFP was issued and a mandatory pre-bid conference was held on September 3, 1999, with all interested bidders. WCQS Radio and the League of Women Voters attended the pre-bid conference. Both organizations requested an extension in the deadline for the proposals. The deadline was originally set for October 15, 1999. The organizations have asked that the deadline be extended to January 28, 2000, so that they can explore the feasibility of forming partnerships to manage the public access channel.

Staff recommends that City Council grant an extension in the deadline to submit proposals to manage the public access channel until January 28, 2000.

Vice-Mayor Hay and Councilwoman Field both expressed their disappointment with the lack of response to the RFP and now with the requested extension, it would be several more months before the channel would be up and running.

It was the consensus of City Council to have Ms. Robin Westbrook, Public and Community Information Officer, submit monthly status reports to City Council on the progress of the two organizations possibly forming a partnership.

Mayor Sitnick asked that the record show that City Council has received this information and instructs the City Manager to place these items on the next formal City Council agenda.

DOWNTOWN COMMISSION AMENDMENTS

Chair of the Downtown Commission Carol King said that this is the consideration of approving revised changes to the ordinance regarding the Downtown Commission.

Last winter, the Downtown Commission reported to you several recommendations that were the result of a technical visit conducted by National Main Street Center. One of the recommendations was to make changes to the ordinance regarding the Downtown Commission. It was felt the ordinance needed to be updated to reflect the changing dynamics in downtown. The recommendation was to shift the focus from revitalization to instead a focus on sustainable and continued development of downtown.

Since then, the Downtown Commission has spent considerable time recently discussing its future efforts as an organization chartered by the City Council. This discussion, along with the ongoing issue identification process involving the Mayor's Roundtable, various focus groups and the Center City Plan meetings, has resulted in a number of suggested revisions to the Downtown Commission's charter which is part of the City Code of Ordinances.

Ms. King then reviewed with Council the suggested changes which involved updating obsolete language, reprioritizing the purposes and powers, restructuring the membership of the Commission, as well as clarifying its role in areas such as promotion, design review and communication.

The Downtown Commission's current initiatives and successes include: Pack Square Task Force; Center City Plan; Downtown Design Review, Streetscape Committee College Street Design Charette, Support for Chamber location downtown; Parking Task Force; Building Code Chapter Nine extension and the National Main Street Technical Visit Recommendations.

The City Development staff of the Planning and Development Department recommend approving the revisions to the ordinance.

Vice-Mayor Hay, Chair of the City Council Boards/Commissions Committee, said that the Committee reviewed these amendments and recommended approval of the changes.

At the request of Councilwoman Field, and with the consensus of City Council, staff was directed to add "promote downtown living" as an objective to reach the Downtown Commission's goals.

Mayor Sitnick asked that the record show that City Council has received this information and instructs the City Manager to place this item on the next formal City Council agenda.

UDO AMENDMENT REVIEW

City Attorney Oast said that these Unified Development Ordinance amendments are being brought before City Council in order that staff may respond to questions Council may have prior to the public hearings, which are scheduled on Tuesday, November 9, 1999.

Ordinance to Amend the Unified Development Ordinance to revise the standards of wireless telecommunication facilities

Mr. Gerald Green, Senior Planner, said that this is the consideration of an ordinance amending the Unified Development Ordinance with regard to standards for the location of telecommunications facilities in response to issues identified by service providers at the time of adoption of the ordinance.

When the City Council adopted the Telecommunications Facilities Ordinance in January 1999, the service providers identified six areas of concern with the ordinance. City Council directed staff and the Planning and Zoning Commission to study the identified concerns and to propose appropriate revision to the ordinance, if needed. The Commission and staff spent over two months studying the identified issues, even hiring a telecommunications engineer to provide input on the question of tower height. Based upon this study, the Commission is recommending certain revisions to the ordinance. The revisions are presented with the following goals:

- Promote and facilitate co-location of facilities;
- Enable adequate service to be provided to Asheville's citizens and visitors; and
- Protect and preserve Asheville's scenic beauty.

One of the issues of concern identified by the service providers was the tower height limit of 100 feet. The service providers argued that this height limit would limit the ability to provide adequate service and/or result in a proliferation of towers. After studying this issue closely, the Planning and Zoning Commission is recommending the tower height limit remain at 100 feet. Revisions recommended by the Commission include:

- Permitting existing structures (including non-conforming ones) to be improved or rebuilt at the existing height to accommodate co-located equipment;
- Reducing the buffering requirement for co-located equipment;
- Providing City Council authority to reduce the required setback of a new structure from adjacent residential uses and zones;
- Revising the standards for consideration of electric transmission towers as locations for telecommunications equipment; and
- Reducing the maintenance/removal bond amount when the equipment is co-located in an existing equipment shelter.

Representatives of the service providers were involved in the development of the proposed amendments.

The Planning and Zoning Commission voted unanimously to recommend adoption of the proposed amendment. The staff of the Planning and Development Department also recommends adoption of the amendment.

Mr. Green noted that he met with representatives of some service providers earlier in the day and they expressed two concerns: the five year conditional use permit renewal and the tower height issue.

Mr. Larry McDevitt, attorney, asked that City Council delete the five year conditional use permit renewal requirement.

Mr. Gary Pennington, attorney, addressed the concern about limiting the tower heights to 100 feet.

It was the consensus of City Council to proceed with the recommended changes as presented by staff and approved by the Planning & Zoning Commission and instruct the Planning staff to investigate the concerns expressed by the service providers and report back to Council.

Flexible Development Standards

Mr. Gerald Green, Senior Planner, said that this is the consideration of amending the Unified Development Ordinance which would create flexible development standards for setbacks, lot area and dimension, and number of parking spaces and would permit structures which comply with design review standards to be exempt from the setback, height, and building floor area requirements of the underlying zoning district.

The Planning and Zoning Commission, at their October 6, 1999, meeting, reviewed and recommended approval of an amendment to the Unified Development Ordinance which would establish Section 7-11-7 to create flexible development standards. These standards would, under certain conditions, permit the Planning and Development Director to relax the existing standards for setbacks, lot area and dimensions, and number of parking spaces. In addition, it would permit structures which comply with design review standards to be exempt from the setback, height, and building floor area requirements of the underlying zoning district. The Planning and Development Director could approve the following relaxations in the existing standards if certain conditions are met:

- Reduction in required setbacks up to 10% or 24 inches, whichever is greater;
- Up to a 25% reduction in the required number of parking spaces; and
- Up to a 10% reduction in lot area or dimension.

In addition, structures which have been reviewed by a qualified design review board and found to comply with the applicable design guidelines would be exempt from the setback, height, and building floor area requirements of the underlying zoning district.

The Asheville Planning and Zoning Commission voted 7-0 to recommend approval of the wording amendment. The Planning and Development staff recommends approval of the amendment.

Alternative Landscape Compliance

Ms. Stacy Merten, Urban Planner, said this is the consideration of an ordinance to allow the Planning and Development Director to review and approve requests for alternative compliance to the landscape requirements.

Currently the Unified Development Ordinance (UDO) requires that any request for alternative compliance to the landscaping requirement of Article 11, must be heard by the Technical Review Committee (TRC). Since the adoption of the UDO, all requests for alternative compliance meeting the criteria have been approved by the TRC based on the recommendation of staff and the representative from the Tree/Greenway Commission. Most of these requests have been for Level I projects which are typically reviewed in 5-10 days. Often these projects are unnecessarily delayed when seeking alternative compliance due to the current process of review by the TRC. Staff discussed this wording amendment with the TRC and all agreed that it would be beneficial to amend the UDO.

Planning & Development staff presented this wording amendment to the Planning & Zoning Commission at their October 6, 1999, work session and meeting. The Commission voted unanimously to recommend to City Council the adoption of this wording amendment.

Mayor Sitnick asked that the record show that City Council has received this information and instructs the City Manager to proceed with the public hearings on November 9, 1999.

UPDATE ON CITY'S ENVIRONMENTAL SUSTAINABILITY INITIATIVE

Waste Management Coordinator Karen Rankin said that the City of Asheville has partnered with the Land-of-Sky Regional Council's Waste Reduction Partners (WRP) and the NC Division of Pollution Prevention and Environmental Assistance (DPPEA) to examine and improve the environmental impact of the City's internal operations.

In 1998, Governor Hunt issued a challenge to State agencies to set an example of environmental stewardship in their internal operations. Each agency was charged to plan and select strategies to implement environmental sustainability initiatives into its specific responsibilities and operations. The objective was to make environmental stewardship an integral part of the way government operates.

With the state initiative as a model, the City of Asheville has begun implementation of a similar environmental sustainability program. This program has several goals:

1 Identify current City operations/projects that promote environmental stewardship.
2. Propose future projects that can be both environmentally desirable and economically feasible.
3. Involve all City employees and increase awareness of the environmental component within every employee's job.
4. Create permanent mechanisms and practices that make "environmental excellence" a part of the way the city conducts business.

To date, the WRP team consisting of retired engineers and scientists, has conducted assessments at Fleet Management, City Hall, and the Print Shop. Depending on the facility being examined, these assessments focus on water and energy use, solid waste generation, and emission production. The assessments conducted on City facilities have revealed several opportunities for improving efficiency and reducing waste.

In addition to revealing opportunities for improvement, the team discovered many ways the City is already serving as a model in the area of environmental sustainability. Programs are in place for recycling items ranging from office paper to scrap metal. The use of recycled paper is prevalent and hazardous chemicals are treated and disposed of properly. The team hopes to increase awareness and participation in these current programs through employee education.

With potential opportunities coming forth through the assessments, the need to track impacts becomes obvious. To that end, the team has begun to collect data that could be used as benchmarks for the City's sustainability initiative. Information on the amount of power and water used in City buildings, the amount of paper purchased, and the number of gallons of gasoline used by City vehicles can be collected and compared annually to reveal improvements or areas in need of attention. Collection and analysis of this data is ongoing.

Council was very supportive of the efforts along these lines.

Councilwoman Field supported a facilities management program along with working towards a paperless government.

Mayor Sitnick hoped that the City can find some alternatives to the spray that they use on weeds in curbs and sidewalks, both to keep the toxins out of the ground water and to keep employee exposure down.

Ms. Rankin said that work on the sustainability initiative will continue over the next several months and a final report with recommended action steps will be provided to Council upon completion.

UPDATE ON TRAFFIC ON ST. DUNSTAN'S ROAD

City Engineer Cathy Ball reported to City Council with updated traffic count on the streets in the St. Dunstan's Road neighborhood.

On February 9, 1998, staff requested that City Council pass a resolution in favor of leaving the connection between St. Dunstan's Road and McDowell Street open. Council did so largely because closing it would delay emergency response to the area. City Council asked staff to update them on the status of the traffic, particularly cut-through traffic, once the road was opened.

On February 5, 1999, and February 6, 1999, traffic counts were taken. These counts were taken prior to the opening of St. Dunstan's Road to McDowell Street. Traffic counts were taken on June 25, 1999, through June 28, 1999, after St. Dunstan's Road and McDowell Street were connected.

According to the before and after traffic counts some conclusions can be made:

1. Traffic volumes did not increase significantly in any areas where counts were taken (except near McDowell Street where "before" counts were zero).
2. It appears that on weekdays, approximately 100 cars per day (30%) of the traffic on Grindstaff Road moved (back) to St. Dunstan's Road once the road was reopened.
3. Based on the number of homes on St. Dunstan's Road and Grindstaff Road, there is some cut-through traffic on both St. Dunstan's Road and Grindstaff Road. The number of houses on these two streets is about 30, which would generate approximately 300 one-way trips per weekday. A rough estimation of cut-through trips would be 300 cut-through trips. This means that about 2/3 of the traffic on these two streets are cut-through trips.
4. The highest traffic volume recorded in the neighborhood was less than 500 vehicles per day, which is a relatively low number for a local service residential street.

Staff recommends leaving this street open to allow better access to the neighborhood.

Mayor Sitnick asked that the record show that City Council has received this information and instructs the City Manager to place this item on the next formal City Council agenda.

REQUIREMENT FOR OWNERS TO CLEAN UP AFTER ANIMALS

City Attorney Bob Oast said that at the request of Mayor Sitnick, he has prepared a draft ordinance to require pet owners to clean up after their pets.

The ordinance requires pet owners to clean up after their pets, if the pets defecate on public or quasi-public property or right-of-way, or on private property other than that of the pet owner. The ordinance also requires appropriate disposal of any collected fecal matter.

There is already an ordinance provision, Section 3-9(6) in the Asheville City Code, that provides that animal defecation on the property of another may be a nuisance, but this requires a qualitative judgment as to what constitutes a nuisance, and only applies to private property.

This ordinance, like other City animal control ordinances, may be enforced civilly by animal control officers or by a designated agency.

If City Council wishes to require owners to clean up after their pets, adoption of the ordinance is recommended.

Discussion surrounded how the ordinance will be enforced and who will enforce it.

Upon inquiry of Vice-Mayor Hay and upon consensus of City Council, City Attorney Oast said that he would amend the ordinance to include language that if property owners don't mind animals defecating on their private property, then there would be no violation of the ordinance. He noted that he would also amend the language that violation of the ordinance would be a civil penalty.

Councilman Cobb spoke in support of the ordinance and felt it should be enforced city-wide.

Mayor Sitnick asked that the record show that City Council has received this information and instructs the City Manager to place this item on the next formal City Council agenda.

REPORTS ON BOARDS/COMMISSIONS

Councilman Sellers reported that at the Regional Water Authority meeting, a request was brought up by Buncombe County Chairman Tom Sobol (and Regional Water Authority member), to amend the Regional Water Authority's by-laws as follows: "All members of the Authority shall serve 3-year terms. No member may serve more than 2 consecutive 3-year terms, but this restriction shall not apply to Authority members who are members of the Buncombe or Henderson County Boards of Commissioners or the Asheville City Council, so long as they remain members of said Boards or Council." City Council agreed that this amendment to the by-laws was appropriate.

City Manager Westbrook said that the Water Authority will be presenting this recommendation for amendment laws to the City Council, Buncombe County Commissioners and Henderson County Commissioners.

OTHER BUSINESS

City Manager Westbrook gave a brief factual report on the unplayable ice conditions, due to an equipment malfunction, that led to a rescheduling in the Asheville Smoke's hockey game on October 15, 1999. He said the cooling tower, an important piece of equipment used in the formation of the ice, malfunctioned during the set-up of the rink causing the ice to freeze more slowly than anticipated.

After Vice-Mayor Hay noted that the City needs to begin to do something with the Civic Center in order to meet the massive community need, Mayor Sitnick said that she would not feel comfortable with imposing the entire burden of responsibility on the Asheville taxpayers.

It was the consensus of City Council to refer the request from the Merchants Action Coalition to have City Council review the possibility of allowing "sandwich board/A-frame" signs on sidewalks within the Central Business District to the Asheville Downtown Commission for their review and recommendation back to City Council.

CLOSED SESSION

At 5:45 p.m., Councilman Cloninger moved to go into closed session to consult with an attorney employed by the City in order to preserve the attorney-client privilege between the City and its attorney. The parties to the lawsuit about which the Council expects to receive advice are: City of Asheville, Elijah Jones t/a Jones Convenience Store, NC Alcoholic Beverage Control Commission - statutory authorization is G.S. 143-318.11 (a) (3). This motion was seconded by Councilman Sellers and carried unanimously.

At 5:57 p.m., Councilman Sellers moved to come out of closed session. This motion was seconded by Vice-Mayor Hay and carried unanimously.

ADJOURNMENT:

Mayor Sitnick adjourned the meeting at 5:57 p.m.

Magdalen Burleson
CITY CLERK

Leni Sitnick
MAYOR

Wednesday - October 27, 1999 - 5:00 p.m.

Regular Meeting

Present: Mayor Leni Sitnick, Presiding; Vice-Mayor Edward C. Hay Jr.; Councilman M. Charles Cloninger; Councilman Earl Cobb; Councilwoman Barbara Field; Councilman Thomas G. Sellers; and Councilman O.T. Tomes; City Attorney Robert W. Oast Jr.; City Manager James L. Westbrook Jr.; and City Clerk Magdalen Burleson

Absent: None

INVOCATION

Mayor Sitnick gave the invocation.

I. PROCLAMATIONS:

A. RESOLUTION NO. 99-160 - RESOLUTION IN MEMORY OF WILLIAM F. WOLCOTT JR.

On behalf of City Council, Mayor Sitnick read the resolution in memory of Mr. William F. Wolcott Jr. She said that the City of Asheville wishes to express its deep sorrow over the passing of William F. Wolcott, Jr., an honored and respected citizen of our City whose death has ended a career of service to our community on October 9, 1999. Prior to his retirement on December 31, 1994, Billy faithfully and conscientiously served the City of Asheville and its citizens for 45 years in many of our most responsible City positions: City Engineer, Director of Aviation, Assistant City Manager, and Associate City Manager/City Clerk. On November 16, 1993, the new South Charlotte Street Public Works Building was named the William F. Wolcott Jr. Building, in recognition of Billy's love for the City and the good deeds he has done for our residents. Billy was devoted to Mary Ellen, his wife of 57 years, his son William F. Wolcott III, his daughter Anne, and his grandchildren. Billy's life was marked by exemplary dedication to the best interests of the community, as he worked for the its economic, cultural and aesthetic betterment as shown by his active involvement in the construction of the William F. Wolcott Jr. Building; the North Fork Reservoir; the Asheville Regional Airport; the Asheville Civic Center; the Motor Transport Facility; and the Civic Center, Rankin Avenue and Wall street Parking Garages. Throughout a long career of public service, Billy's professional leadership and dedication earned the respect, admiration and friendship of all those with whom he came into contact, and this community has sustained a great loss in his death. She then presented the Resolution to Mr. Wolcott's wife, son and daughter.

Resolution No. 99-160 was adopted by acclamation.

RESOLUTION BOOK NO. 25 - PAGE 326

B. STATEMENT BY MAYOR

Mayor Sitnick said that "The Mayor traditionally issues proclamations at the request of individuals or groups, approximately 100 a year. On October 12, 1999, I, not City Council, and I stress, City Council had no part in this, issued a Proclamation of Awareness of Earth Religions. The proclamation neither endorses or embraces any of the Earth Religions, which include Native American Spirituality, Celtic, Pagan, traditional African celebrations, Shintoism, and Daoism, but rather calls for awareness and tolerance. It is not, nor was it ever intended to be a proclamation for witches.

"As the Mayor of a community of great diversity, I believe it is my responsibility to represent all citizens without bias. As a citizen of the United States, I believe in the fundamental, constitutional right of freedom of religion. Our Nation was founded by people escaping religious persecution and unfortunately, religious prejudice continues today - all over the world. It is not for anyone to tell another how to worship their creator. Being "aware" of different religions, of all religions, whether Christian, Jewish, Muslim, Hindu, Native American, or any other, should not be feared. I don't tell anyone how to believe, but I support everyone's right to freedom of religion. I apologize if I have offended anyone, but I support all persons rights to religious freedom and am happy to say that 99% of the communications I have received, whether supportive or not, were from citizens who support the liberties granted by freedom of religion.

"I am deeply saddened that a gesture of good intention to support religious tolerance and freedom has caused division in our community. The proclamations with religious themes that have been issued before, like Rock Hill Baptist Church Week, Calvary Baptist Church Day, Nazareth First Baptist Church Day, Beth Israel Day, Day of Prayer Days, Days of Remembrance, Catholic Schools Week, and Bible Week have never caused a problem or been an issue. I viewed them as part of an ongoing tradition accepted by the good people of our City.

"As an effort toward reconciliation and peace, the Proclamation on Earth Religions Awareness Week has, by mutual agreement, been returned and received by me. I will not issue the Proclamation for Lordship of Jesus Christ Awareness Week. I am suspending the issuance of proclamations and will consider, with the Council, what to do in the future.

"I will issue no further statements and answer no other questions.

"It is my fervent hope that, as we get on with the healing process, we will all have a greater understanding of what our founding fathers meant when they wrote the first amendment to the Constitution."

C. PROCLAMATION PROCLAIMING OCTOBER 31 - NOVEMBER 7, 1999, AS "PORNOGRAPHY AWARENESS WEEK "

Mayor Sitnick read the proclamation proclaiming October 31 - November 7, 1999, as "Pornography Awareness Week and the White Ribbon Against Pornography Campaign " in the City of Asheville. She presented the proclamation to Ms. Gail Harding who briefed City Council on ways to combat the negative impact of pornography in our community.

D. PROCLAMATION PROCLAIMING NOVEMBER, 1999, AS "NATIVE AMERICAN MONTH"

Mayor Sitnick read the proclamation proclaiming November, 1999, as "Native American Month" in the City of Asheville. She presented the proclamation to Ms. Oralene Simmons and Mr. Bruce Two Eagle, who briefed City Council on some activities taking place during the month.

II. CONSENT:

A. APPROVAL OF THE MINUTES OF THE REGULAR MEETING HELD ON OCTOBER 12, 1999, AND THE WORKSESSION HELD ON OCTOBER 19, 1999

B. RESOLUTION NO. 99-161 - RESOLUTION AUTHORIZING THE MAYOR TO EXECUTE AN EASEMENT TO THE METROPOLITAN SEWERAGE DISTRICT IN ORDER TO UPGRADE THE SEWER LINE LOCATED OFF OF OLD COUNTY HOME ROAD

Summary: The consideration of a resolution authorizing the Mayor to execute an easement to the Metropolitan Sewerage District for an existing sewer line which will be upgraded on property owned by the City of Asheville located off of Old County Home Road.

Staff has been working with Martin-McGill, a consultant for the Metropolitan Sewerage District, in coordinating improvements to be made on an existing sanitary sewer line and a permanent easement. The property, located off of Old County Home Road, was dedicated to the City for park use. It is currently undeveloped. The Parks and Recreation Department staff have agreed that the easement will in no way limit the potential use of the property for a park.

City staff recommends that the Mayor be authorized to execute easement documents for an existing sewer line to the Metropolitan Sewerage District in order to upgrade the sewer line located off of Old County Home Road (PIN No. 9628.08-79-7112).

RESOLUTION BOOK NO. 25 - PAGE 327

C. MOTION GRANTING AN EXTENSION IN THE DEADLINE TO SUBMIT PROPOSALS TO MANAGE THE PUBLIC ACCESS CHANNEL UNTIL JANUARY 28, 2000

Summary: The consideration of a request from the non-profit organizations interested in submitting proposals to manage the public access channel for an extension in the deadline to submit these proposals.

On August 3, 1999, City staff requested permission to issue a Request for Proposal (RFP) soliciting non-profit organizations who were interested in managing the public access channel. The RFP was issued and a mandatory pre-bid conference was held on September 3, 1999, with all interested bidders. WCQS Radio and the League of Women Voters attended the pre-bid conference. Both organizations requested an extension in the deadline for the proposals. The deadline was originally set for October 15, 1999. The organizations have asked that the deadline be extended to January 28, 2000, so that they can explore the feasibility of forming partnerships to manage the public access channel.

Staff recommends that City Council grant an extension in the deadline to submit proposals to manage the public access channel until January 28, 2000.

D. MOTION SETTING A PUBLIC HEARING ON NOVEMBER 9, 1999, TO AMEND THE 1999 CONSOLIDATED ACTION PLAN FOR COMMUNITY DEVELOPMENT BLOCK GRANT AND HOME PROGRAMS

E. MOTION SETTING A PUBLIC HEARING ON NOVEMBER 9, 1999, TO REVISE THE STANDARDS OF WIRELESS TELECOMMUNICATION FACILITIES

F. MOTION SETTING A PUBLIC HEARING ON NOVEMBER 9, 1999, TO AMEND THE UNIFIED DEVELOPMENT ORDINANCE TO ALLOW THE PLANNING AND DEVELOPMENT DIRECTOR TO APPROVE DEVIATIONS FROM CERTAIN DEVELOPMENT STANDARDS

G. MOTION SETTING A PUBLIC HEARING ON NOVEMBER 9, 1999, TO AMEND THE UNIFIED DEVELOPMENT ORDINANCE TO ALLOW THE PLANNING AND DEVELOPMENT DIRECTOR TO REVIEW AND APPROVE REQUESTS FOR ALTERNATIVE COMPLIANCE TO THE LANDSCAPE REQUIREMENTS

Mayor Sitnick said that members of Council have been previously furnished with a copy of the resolutions and ordinances and the Consent Agenda and they would not be read.

Councilwoman Field moved for the adoption of the Consent Agenda. This motion was seconded by Councilman Tomes and carried unanimously.

III. PUBLIC HEARINGS:

A. PUBLIC HEARING RELATIVE TO REPEALING ORDINANCE NO. 2480

ORDINANCE NO. 2626 - ORDINANCE REPEALING ORDINANCE NO. 2480 DIRECTING THE DIRECTOR OF BUILDING INSPECTIONS TO DEMOLISH THE DWELLING KNOWN AS 22 SULPHUR SPRINGS ROAD

Mayor Sitnick opened the public hearing at 5:42 p.m.

Mr. Terry Summer, Director of Building Safety, said that this is the consideration of an ordinance repealing the demolition of the structure located at 22 Sulpher Springs Road as adopted in Ordinance No. 2480. This public hearing was advertised on October 15 and October 22, 1999.

On May 26, 1998, an ordinance was adopted by City Council instructing the Director of Building Safety to cause the demolition or otherwise effectuate the purpose of the Minimum Housing Code in regard to the structure located at 22 Sulpher Springs Road. The Owner's Contractors applied and were granted permits on or about June 18, 1998. Once ordered by City Council to comply with the City of Asheville's Minimum Housing Code, Gabriel Ferrari and wife, Livia were very cooperative. The corrections included but were not limited to:

1) Proper venting of the gas hot water heater
2) Installation of complete electrical wiring and service
3) Stairways to the basement and 2nd floor
4) Elimination of the internal accumulation of garbage

All work was completed on 7/9/98 and a "Housing Certificate" was issued. The Certificate is valid until 7/9/05, unless the structure falls back into a state of disrepair.

The Director of Building Safety Department recommends the adoption an ordinance to repeal Ordinance No. 2480 to demolish the structure located at 22 Sulpher Springs Road.

Upon inquiry of Councilman Cobb about the violations of the sign ordinance on the property, Mr. Summey stated that to his knowledge the owners have taken down the signs and is now in compliance with the sign ordinance.

Mayor Sitnick closed the public hearing at 5:45 p.m.

Mayor Sitnick said that members of Council have previously received a copy of the ordinance and it would not be read.

Councilman Cloninger moved for the adoption of Ordinance No. 2626. This motion was seconded by Councilman Tomes and carried unanimously.

ORDINANCE BOOK NO. 18 - PAGE 15

B. PUBLIC HEARING TO CONSIDER A REQUEST TO APPROVE A MODIFICATION FROM THE SUBDIVISION STANDARD REQUIRING THAT EACH LOT ABUT A PUBLIC STREET FOR A SUBDIVISION OF A 0.75 ACRE TRACT OF LAND LOCATED ON THIRD STREET INTO TWO LOTS

Mayor Sitnick opened the public hearing at 5:46 p.m.

Urban Planner Dan Baechtold said that this is the consideration of a request to approve a modification from the subdivision standard requiring that each lot abut a public street for a subdivision of a 0.75 acre track of land located on Third Street into two lots. This public hearing was advertised on October 15 and October 22, 1999.

The subdivision regulations of the Unified Development Ordinance require that all residential lots must abut a public street. In Section 7-15-1(j), the ordinance states: "The Asheville City Council, upon receiving recommendation from the Planning and Zoning Commission, may approve modifications to the standards found in subsection 7-15-1(k)." Further, the ordinance addresses acceptable grounds for modification:

"Modifications from the standards of this article may be granted in cases of physical hardship. Cases of physical hardship shall be defined as those cases where because of the topography of the tract to be subdivided, the condition or nature of adjoining areas, or the existence of other unusual physical conditions, strict compliance with the provisions of this article would cause unusual and unnecessary hardship on the property owner. Financial hardship shall not be considered grounds for a modification. "

Mr. Mychajlo Ostapovich (owner) presented a plat to the City of Asheville for a two lot subdivision. One of the lots does not have the required 25-foot minimum frontage on a public street. The existing tract of land is located on the corner of Wanoca Avenue and Third Street. The tract fronts on a platted right-of-way for an extension of Third Street. The street was never constructed.

At their September 1999 meeting, the Planning and Zoning Commission recommended that Mr. Ostapovich explore alternative methods to create a lot with frontage on a public street. Mr. Ostapovich investigated several options with City staff. Unable to find an acceptable solution for Mr. Ostapovich, staff determined that sufficient physical hardship exists to justify granting a modification to the subdivision regulations.

At their October 1999 meeting, the Planning and Zoning Commission voted unanimously to recommend approval of this request to City Council.

Upon inquiry of Councilwoman Field, City Attorney Oast said that the issuance of any building permit would depend upon appropriate access being provided.

Mayor Sitnick closed the public hearing at 5:50 p.m.

Councilman Tomes moved to approve a modification from the subdivision standard requiring that each lot abut a public street for a subdivision of a 0.75 acre track of land located on Third Street into two lots. This motion was seconded by Councilman Cloninger and carried unanimously.

C. PUBLIC HEARING TO CONSIDER A REQUEST TO APPLY THE PLANNED UNIT DEVELOPMENT OVERLAY DISTRICT TO THAT LOT LOCATED AT 121 MERCHANT STREET WHICH HAS AN UNDERLYING ZONING OF RS-8 RESIDENTIAL SINGLE-FAMILY HIGH DENSITY DISTRICT

ORDINANCE NO. 2627 - ORDINANCE TO APPLY THE PLANNED UNIT DEVELOPMENT OVERLAY DISTRICT TO THAT LOT LOCATED AT 121 MERCHANT STREET WHICH HAS AN UNDERLYING ZONING OF RS-8 RESIDENTIAL SINGLE-FAMILY HIGH DENSITY DISTRICT

Mayor Sitnick opened the public hearing at 5:50 p.m.

Senior Planner Gerald Green said that this is the consideration of applying the Planned Unit Development Overlay District to that lot located at 121 Merchant Street (Willow Arbor) which has an underlying zoning of RS-8 Residential Single-Family High Density District. This public hearing was advertised on October 15 and October 22, 1999.

The Planning and Zoning Commission, at their October 6, 1999, meeting, reviewed and unanimously recommended approval of the application of the Planned Unit Development (PUD) overlay zone to a lot of approximately 0.85 acres located on Merchant Street, currently zoned RS-8 Residential Single-Family High Density District. The developers are proposing the construction of an 8 unit residential development on the site. The preliminary master plan approved by the Planning and Zoning Commission calls for the construction of 4 duplex structures on the site. Parking will be screened from the street by the buildings and the site will be buffered from adjacent residential uses by a landscaped buffer. The site plan complies with all standards set forth in the Unified Development Ordinance (UDO) for a PUD. Council's role is to act upon the recommendation of the Planning and Zoning Commission for approval of the application of the PUD overlay zone to the project site. The purposes of the PUD overlay zone, as identified in Sec. 7-9-1 (a) of the UDO, include:

- Encourage better design and maintenance of open space;
- Facilitate more affordable housing; and
- Encourage pedestrian circulation within and adjacent to the PUD.

Council must determine if these and the other goals and purposes of the PUD overlay zone are achieved by the proposed Willow Arbor PUD.

At the public hearing conducted by the Planning and Zoning Commission, neighboring property owners expressed concern about the traffic which would be generated by this development and the existing traffic on Merchant Street. According to the City's Traffic Engineer, the difference between the traffic generated by the proposed development and that generated by permitted single family development on the site is insignificant.

The Planning and Zoning Commission voted 7-0 to recommend approval of the application of the PUD overlay zone. Staff is also recommending approval.

At the request of Councilman Cloninger, City Manager Westbrook said that he would include the developer's name and property owner's name on future staff reports so Council can determine if there might be a conflict of interest.

Noting that this is the first PUD overlay zone request, Mayor Sitnick and Vice-Mayor Hay spoke in favor of the process.

Mayor Sitnick closed the public hearing at 6:00 p.m.

Mayor Sitnick said that members of Council have previously received a copy of the ordinance and it would not be read.

Councilman Tomes moved for the adoption of Ordinance No. 2627. This motion was seconded by Councilwoman Field and carried unanimously.

ORDINANCE BOOK NO. 18 - PAGE 16

D. PUBLIC HEARING TO CONSIDER THE INITIAL ZONING OF THE ROYAL PINES POOL AND PARK PROPERTIES LOCATED ON SWEETEN CREEK ROAD AND PEACH TREE STREET TO RS-4 RESIDENTIAL SINGLE FAMILY MEDIUM DENSITY DISTRICT

Mayor Sitnick opened the public hearing at 6:01 p.m.

Urban Planner Stacy Merten said that this is the consideration of an ordinance to zone Royal Pines Pool and Park Properties, located on Sweeten Creek Road and Peach Tree Street, RS-4 Residential Single Family Medium Density District. This public hearing was advertised on October 15 and October 22, 1999.

The Planning and Zoning Commission, at their October 6, 1999, meeting, reviewed and recommended approval to zone the recently annexed non-contiguous property known as Royal Pines Pool and Park located off of Sweeten Creek Road on Sycamore Drive and Peach Tree Street in South Asheville as RS-4 Residential Single Family Medium Density District. Four properties with a total area of 5.5 acres are included as part of the zoning proposal. This was a private pool and park serving the local community and will now be managed by the Parks and Recreation Department of the City of Asheville. There are currently no definitive plans for the property but it is anticipated that it will continue in some type of passive recreational use. The proposed zoning of RS-4 allows for the recreational use to continue while protecting the character of the surrounding neighborhood.

Several community residents expressed their concern that the residential zoning meant that the parcel would become a housing development. It was explained that it was the owner's intent for the parcel to continue as a park. It was also explained that the property is currently zoned residential by Buncombe County and that because the Unified Development Ordinance (UDO) does not have a special district for parks and open space that parks are typically zoned residential, where compatible recreational uses are also permitted. Other concerns had to do with future plans for the park itself, which will ultimately be decided by the City Council with recommendations by Parks & Recreation Department.

The Planning and Zoning Commission voted unanimously to recommend approval of the initial zoning. The Planning and Development staff recommends approval of the new zoning.

Vice-Mayor Hay said that it was his understanding that the deed to the property contains restrictions that prohibit the use for anything other than a park. Ms. Merten said that the deed doesn't specifically state that, however, there is language in the contract as far as the permitted uses being parks and conservation uses.

Mayor Sitnick said that there was significant discussion during adoption of the UDO to consider a zoning classification for parks. She urged City Council to adopt a park designation in the UDO that is specifically applied to parks and didn't zone them according to the land use around them.

Councilman Cloninger agreed with Mayor Sitnick in that a zoning designation for park space should be included in the UDO. He said that because zoning designations can be changed, there might be a lot of situations where Council would want to put a conservation easement on the property so that future Councils cannot change their mind.

City Attorney Oast said that there are some special statutory provisions that deal with land acquired for park purposes and if we acquire land for park purposes, there are certain restrictions on our ability to dispose of it for any other use.

Planning & Development Director Scott Shuford said that his staff is in the process of creating an open space zoning district and will have it before City Council in January of 2000.

Mr. John Ward, property owner in the area, urged City Council not to zone the property until there is a permanent zoning classification for parks. He wanted the property to be left as a park, as it was intended to be.

City Attorney Oast said that if the property is not zoned, it is potentially available for anything. It was his recommendation that if Council is going to zone it, that it be zoned to some restrictive residential classification.

Ms. Doris McQuiggan, property owner in the area, also urged Council to postpone zoning the property until a park designation can be adopted.

When Ms. McQuiggan questioned why the zoning classification was recommended to an RS-4 and not an RS-2, Ms. Merten responded that the RS-4 classification is in keeping with the character of the neighborhood to the north. She also said that if the rest of the property around it were annexed into the City and there is no zoning classification for parks, it would also be like a spot zone to have an RS-2 in the center which would not be contiguous with the rest of the neighborhood.

Upon inquiry of Councilwoman Field, City Attorney Oast explained the specifics of a conservation easement.

Upon inquiry of Vice-Mayor Hay, City Attorney Oast said that the City of Asheville owns the property. City Manager Westbrook said that The Trust for Public Land provided the financial mechanism for the City to purchase the property.

Mayor Sitnick closed the public hearing at 6:20 p.m.

Councilman Cloninger moved to continue this matter until February 22, 2000, which will allow time for the open space zoning classification to be adopted into the UDO. This motion was seconded by Councilman Sellers.

E. PUBLIC HEARING TO CONSIDER THE INITIAL ZONING OF PROPERTY KNOWN AS DEERFIELD EPISCOPAL COMMUNITY LOCATED OFF OF HENDERSONVILLE ROAD TO RM-16 RESIDENTIAL MULTI-FAMILY HIGH DENSITY DISTRICT

ORDINANCE NO. 2628 - ORDINANCE TO ZONE PROPERTY KNOWN AS DEERFIELD EPISCOPAL COMMUNITY LOCATED OFF OF HENDERSONVILLE ROAD TO RM-16 RESIDENTIAL MULTI-FAMILY HIGH DENSITY DISTRICT

Mayor Sitnick opened the public hearing at 6:27 p.m.

Urban Planner Stacy Merten said that this is the consideration of an ordinance to zone Deerfield Episcopal Retirement Community, Inc., located off of Hendersonville Road, RM-16 Residential Multi-Family High Density District. This public hearing was advertised on October 15 and October 22, 1999.

The Planning and Zoning Commission, at their October 6, 1999, meeting, reviewed and recommended approval to zone the recently annexed property known as Deerfield Episcopal Retirement Community, Inc., located off of Hendersonville Road as RM-16 Residential Multi-Family High Density District. This is a 24-acre tract of property that is part of and contiguous with the existing Deerfield Retirement Community, also zoned RM-16. The newly annexed property is currently under development with two 5-story apartment buildings, a 2-story community center and 13 single family residences. The proposed zoning will allow the proposed development to go forward as planned with adequate infrastructure in place to support the higher density. There was no comment at the public hearing.

The Planning and Zoning Commission voted unanimously to recommend approval of the initial zoning as RM-16 Residential Multi-Family High Density District. The Planning and Development staff recommends approval of the new zoning.

Upon inquiry of Vice-Mayor Hay, Fire Chief John Rukavina said that Asheville is already providing fire protection services to that area already. He explained that the way fire protection works in Buncombe County is that they try to ignore boundaries to the extent that they can. Asheville is the nearest fire department to that populated area, so the expectation would be that if a fire were to occur, they would respond.

Mayor Sitnick closed the public hearing at 6:32 p.m.

Mayor Sitnick said that members of Council have previously received a copy of the ordinance and it would not be read.

Councilwoman Field moved for the adoption of Ordinance No. 2628. This motion was seconded by Councilman Sellers and carried unanimously.

ORDINANCE BOOK NO. 18 - PAGE 18

F. PUBLIC HEARING TO CONSIDER THE REZONING OF A PORTION OF THAT LOT LOCATED ALONG GASTON STREET FROM RS-8 RESIDENTIAL SINGLE-FAMILY HIGH DENSITY DISTRICT TO OFFICE II DISTRICT

ORDINANCE NO. 2629 - ORDINANCE TO REZONE A PORTION OF THAT LOT LOCATED ALONG GASTON STREET FROM RS-8 RESIDENTIAL SINGLE-FAMILY HIGH DENSITY DISTRICT TO OFFICE II DISTRICT

At the request of Councilman Tomes, Councilwoman Field moved to excuse Councilman Tomes from participating in this matter due to a conflict of interest. This motion was seconded by Councilman Sellers and carried unanimously.

Mayor Sitnick opened the public hearing at 6:34 p.m.

Senior Planner Gerald Green said that this is the consideration of an ordinance to rezone a portion of a lot located along Gaston Street from RS-8 Residential Single Family High Density District to Office II District. This public hearing was advertised on October 15 and October 22, 1999.

The Planning and Zoning Commission, at their October 6, 1999, meeting, reviewed and unanimously recommended approval of the rezoning of a portion of a lot located on Herman and Gaston Streets from Residential Single-Family High Density District to Office II District. The property for which the rezoning is requested is approximately 6,000 square feet. Current land uses on adjacent parcels include medical offices, a credit union, a clinic, a community center, single family homes, and some vacant land. The property for which the rezoning is requested is vacant. Most of this parcel was rezoned from Office District to Office District II by City Council in March, 1999. Although the ownership of this portion of the parcel had been transferred to Opportunity Corporation at that time, neither the County's tax maps nor the City's zoning maps reflected this transfer. As a result, this area was not included in the rezoning of properties to Office District II in March 1999. Currently the lot is split zoned, with the majority zoned Office II and a small portion zoned Residential Single-Family High Density District. Rezoning of this small portion to Office II would eliminate the split zoning, making it easier for the Opportunity Corporation to proceed with their planned development of the property. The Planning and Development Department has received no public comments regarding the requested rezoning..

The Asheville Planning and Zoning Commission voted 7-0 to recommend approval of the rezoning. The Planning and Development staff recommends approval of the rezoning.

Ms. Vicki Heidinger, Executive Director of the Opportunity Corporation, supported the rezoning request.

Mayor Sitnick closed the public hearing at 6:37 p.m.

Mayor Sitnick said that members of Council have previously received a copy of the ordinance and it would not be read.

Councilwoman Field moved for the adoption of Ordinance No. 2629. This motion was seconded by Councilman Sellers and carried unanimously.

ORDINANCE BOOK NO. 18 - PAGE 20

IV. UNFINISHED BUSINESS:

A. RESOLUTION NO. 99-162 - RESOLUTION ENDORSING THE CONCEPT OF ZONING THROUGHOUT BUNCOMBE COUNTY IN AREAS NOT ALREADY SUBJECT TO ZONING LAWS

Councilman Cloninger said that City Council has heard from representatives of Buncombe County, people in the community who are opposed to zoning in the County, and people in the community who are proponents of zoning in the County. He felt that all groups provided good information. He suggested that City Council consider adopting a resolution that endorses the concept of zoning throughout Buncombe County in areas not already subject to zoning laws.

Councilman Tomes, Councilwoman Field, Vice-Mayor Hay and Councilman Cobb all felt that they could support the suggested resolution endorsing the concept.

City Attorney Oast suggested the following resolution language: Whereas, zoning and land use regulations are an effective tool in guiding land use; and Whereas, the City of Asheville is the largest City in North Carolina whose surrounding county is unzoned; and Whereas, the City of Asheville will benefit from zoning in Buncombe County. Now therefore, the City Council of the City of Asheville does hereby endorse the concept of zoning in Buncombe County.

Councilman Cloninger moved to adopt the resolution as read by City Attorney Oast. This motion was seconded by Councilwoman Field and carried unanimously.

RESOLUTION BOOK NO. 25 - PAGE 328

B. REPORT ON ST. DUNSTAN'S ROAD TRAFFIC

At the City Council worksession on October 19, 1999, City staff updated City Council on the traffic on St. Dunstan's Road and recommended leaving this road open to allow better access to the neighborhood.

Mayor Sitnick said that just prior to the meeting she received a call from Ms. May, one of the original spokespersons for the neighborhood, who stated that she was unable to attend this meeting and requested City Council postpone this matter.

City Manager Westbrook recommended that since City Council is not taking any action on this and since it was only a report back from staff, rather than rescheduling this for public comment, residents can come to the next formal meeting, or any formal meeting, under "Informal Discussion and Public Comment" and discuss with the Council this issue, since there is no change in the condition on the road.

Mayor Sitnick invited the neighborhood to come to any formal meeting and under the "Informal Discussion and Public Comment" section they can give Council their comments.

V. NEW BUSINESS:

A. ORDINANCE NO. 2630 - ORDINANCE AMENDING THE ASHEVILLE DOWNTOWN COMMISSION

Chair of the Downtown Commission Carol King said that this is the consideration of approving revised changes to the ordinance regarding the Downtown Commission.

Last winter, the Downtown Commission reported to you several recommendations that were the result of a technical visit conducted by National Main Street Center. One of the recommendations was to make changes to the ordinance regarding the Downtown Commission. It was felt the ordinance needed to be updated to reflect the changing dynamics in downtown. The recommendation was to shift the focus from revitalization to instead a focus on sustainable and continued development of downtown.

Since then, the Downtown Commission has spent considerable time recently discussing its future efforts as an organization chartered by the City Council. This discussion, along with the ongoing issue identification process involving the Mayor's Roundtable, various focus groups and the Center City Plan meetings, has resulted in a number of suggested revisions to the Downtown Commission's charter which is part of the City Code of Ordinances.

These suggested changes involve updating obsolete language, reprioritizing the purposes and powers, restructuring the membership of the Commission, as well as clarifying its role in areas such as promotion, design review and communication.

The Downtown Commission's current initiatives and successes include: Pack Square Task Force; Center City Plan; Downtown Design Review, Streetscape Committee College Street Design Charette, Support for Chamber location downtown; Parking Task Force; Building Code Chapter Nine extension and the National Main Street Technical Visit Recommendations.

At the October 19, 1999, worksession, City Council asked that the ordinance be amended to include language to "promote and facilitate downtown living." That language has been included in ordinance.

The City Development staff of the Planning and Development Department recommend approving the revisions to the ordinance.

Vice-Mayor Hay was very pleased with the work the Downtown Commission did on this amendment and said that he is going to request that the Civic Center Commission undertake the same kind of review following the model of the Downtown Commission.

On behalf of City Council, Mayor Sitnick thanked Ms. King for her work on this amendment and the work of the Downtown Commission and all the downtown groups involved in the review.

Mayor Sitnick said that members of Council have been previously furnished with a copy of the ordinance and it would not be read.

Councilwoman Field moved for the adoption of Ordinance No 2630. This motion was seconded by Councilman Cloninger and carried unanimously.

ORDINANCE BOOK NO. 18 - PAGE 23

302

B. MOTION ENDORSING THE TRANSPORTATION IMPROVEMENT PLAN PRIORITIES NEEDS LIST

Mr. Ron Fuller, Transportation Planner, explained the Transportation Improvement Program and the Priority Needs process. He said that nothing has changed from the September 21, 1999, worksession, except they have had the opportunity to meet with the MPO meeting with the Technical Coordinating Committee, which is the staff level technical group that makes recommendations to the Transportation Advisory Committee. At that time they had the list of priorities that the City staff had proposed as well as the last year's priority needs list that was a little different. The Technical Coordinating Committee all agreed that the list that the staff had presented, which Council reviewed in the City Council worksession on September 21, 1999, was the one they would like to see submitted out for the 30-day public review period.

Mr. Fuller explained that the Transportation Improvement Plan which is the Capital Improvement Program for the State of North Carolina as it relates to all aspects of transportation improvements. It is a seven year plan that identifies specific projects such as new facilities, widened facilities, as well as pedestrian, bicycle, aviation, and rail improvements. Meetings begin in the fall to look at transportation needs of the area. A "wish list" referred to as the Priority Needs List (PNL) of new project requests, deletions of current projects and/or changes in existing projects is developed. The PNL is then sent out for at least a 30-day public review and comment period and is available at all branch libraries, all town halls and the County Planning Department. After the 30 day public review and comment, a public hearing is conducted by the Transportation Advisory Committee (TAC). Upon approval by the TAC, the PNL is submitted to the Board of Transportation for their consideration in development of the subsequent State Transportation Improvement Program (STIP). All projects that fall within the planning area are referred to as the Local Transportation Improvement Program (LTIP). The LTIP is then distributed, and after an additional period of public review and comment, a public hearing is conducted to approve as consistent with the STIP. Projects included in the STIP and LTIP are then considered to be in the "Project Selection Document" for the purpose of project funding and development. Upon being selected from the document, planning, design, right-of-way acquisition (if needed) and construction are scheduled. The TIP process has now moved to a two-year cycle. One year is dedicated to establishing priority needs and the second to development of the actual STIP and LTIP.

Mr. Fuller then discussed the "Gateway Corridor'" concept which he noted the NC DOT was "cautiously supportive" of.

Mayor Sitnick asked Mr. Fuller to follow-up with NC DOT on her request to slow truck speed on I-240 and to also encourage the NC DOT to do a better job of maintaining the roads.

Mayor Sitnick asked that Kenilworth Road and Beaucatcher Road be placed high on the list of roads to have speed bumps installed for safety reasons.

Councilman Cobb felt that the current I-26 corridor planned by the NC DOT is a mistake and hoped that a different corridor would be developed.

Councilman Tomes moved to support the Transportation Improvement Plan priorities as presented by staff. This motion was seconded by Councilwoman Field and carried unanimously.

C. ORDINANCE NO. 2631 - ORDINANCE AMENDING CHAPTER 3 OF THE CITY CODE TO REQUIRE CLEANING UP AFTER ANIMALS

At Mayor Sitnick's request, City Attorney Bob Oast said that this is consideration of an ordinance to require pet owners to clean up after their pets.

The ordinance is fairly straightforward and self-explanatory. It requires pet owners to clean up after their pets, if the pets defecate on any public property or upon any street, sidewalk, public way, play area or common grounds owned jointly by the members of a homeowners or condominium association, or upon private property without permission of the occupant of said property, unless such keeper immediately removes and disposes of all feces deposited by such animal by the following methods: (1) collection of the feces by appropriate implement and placement in a paper or plastic bag or other container; and (2) removal of such bag or container to the property of the animal keeper and disposition thereafter in a manner as otherwise permitted by law.

There is already an ordinance provision, Section 3-9(6) in the Asheville City Code, that provides that animal defecation on the property of another may be a nuisance, but this requires a qualitative judgment as to what constitutes a nuisance, and only applies to private property.

This ordinance, like other City animal control ordinances, may be enforced civilly by animal control officers or by a designated agency. Appendix B of the Code prescribes an escalating civil fine for violations of the Animal Control Ordinance, beginning with a $10.00 fine. Section 3-20 provides that no criminal penalty is available for violations that are specifically made subject to a civil penalty. By specifically providing for a civil penalty, criminal penalties are foreclosed by operation of the ordinance.

If City Council wishes to require owners to clean up after their pets, adoption of the ordinance is recommended.

Discussion surrounded how the ordinance would be enforced and who could enforce the ordinance.

Mayor Sitnick noted that adoption of this ordinance will heighten awareness of the problem and might inspire the city to move more quickly to develop some dog parks in downtown.

Mr. Fred English urged City Council to allow only seeing-eye dogs downtown. He also hoped that City Council to prohibit dogs from shopping centers.

When Councilwoman Field expressed concern about the animal being impounded, City Attorney Oast said that he would amend the ordinance to provide that the only penalty available for violations of this ordinance would be the escalating fines set forth in Appendix B of the Code of Ordinances. It was the consensus of City Council to make that amendment.

When Councilwoman Field questioned the removal method, City Attorney Oast said that he would amend the ordinance to state that removal of such bag or container and disposition thereof in a manner as otherwise permitted by law. It was the consensus of City Council to make that amendment.

At the request of Mayor Sitnick and upon consensus of City Council, the ordinance would be amended to be effective January 1, 2000.

Mayor Sitnick said that members of Council have been previously furnished with a copy of the ordinance and it would not be read.

Councilman Cloninger moved for the adoption of Ordinance No 2631, with the amendments noted above. This motion was seconded by Councilman Sellers and carried on a 6-1 vote, with Councilwoman Field voting "no".

ORDINANCE BOOK NO. 18 - PAGE 28

VI. OTHER BUSINESS:

A. CLAIMS

The following claims were received by the City of Asheville during the period of October 8-21, 1999: Donnie Holbrook (Streets), Thomas Bryant (Water) and Loretta Burke (Civic Center).

These claims have been referred to Asheville Claims Corporation for investigation.

VII. INFORMAL DISCUSSION AND PUBLIC COMMENT:

With regard to the I-26 corridor to be built through Asheville, Mr. Fred English, professional truck driver, stated that he has hauled hazardous materials through Asheville for several years on I-40 and I-26. Mr. English then expressed his disappointment in (1) the Asheville Motor Speedway closing, and (2) no Council representation at the VA Hospital Ceremony with regard to the Moving Wall Memorial.

Councilwoman Field briefed City Council on her recent trip to the N.C. League of Municipalities meeting in Greensboro, N.C.

At 7:52 p.m., Vice-Mayor Hay moved to go into closed session to establish or to instruct the City's staff or negotiating agents concerning the position to be taken by or on behalf of the City in negotiating the terms of a contract for the acquisition of real property by purchase, option, exchange or lease - statutory authority is G.S. 143-318.11 (a) (5). This motion was seconded by Councilwoman Field and carried unanimously.

At 8:05 p.m., Councilman Cloninger moved to come out of closed session. This motion was seconded by Councilman Sellers and carried unanimously.

VIII. ADJOURNMENT:

Mayor Sitnick adjourned the meeting at 8:05 p.m.

Magdalen Burleson
CITY CLERK

Leni Sitnick
MAYOR

Wednesday - November 3, 1999 - 3:00 p.m.

Worksession

Present: Mayor Leni Sitnick, Presiding; Vice-Mayor Edward C. Hay Jr.; Councilman M. Charles Cloninger; Councilman Earl Cobb; Councilwoman Barbara Field; Councilman Thomas G. Sellers; and Councilman O.T. Tomes; City Attorney Robert W. Oast Jr.; City Manager James L. Westbrook Jr.; and City Clerk Magdalen Burleson

Absent: None

Mayor Sitnick recognized Councilman-Elect Charles R. Worley.

CONSENT:

Cellular Phone Service Bid Award

Summary: The consideration of a resolution awarding a contract for cellular telephone service and equipment to U. S. Cellular Corp.

The City of Asheville uses cellular telephone services in the conduct of City business on a daily basis. The City desires to use those services that provide the best cost and coverage possible for its customers. As the communications industry is able to provide increasingly better and less expensive equipment and coverage, the City elected to seek proposals for cellular telephone service. The City advertised in the Asheville Citizen-Times for interested cellular telephone service providers and sent a Request for Proposal for cellular telephone service to prospective bidders. A pre-bid conference was held on September 22 at which three prospective bidders attended. The City received two responses to the Request for Proposal. The bids were originally due on October 1, 1999, however, one bidder expressed a concern regarding a possible need for more time to respond. The due date of the bids was then moved to October 8, 1999. The City has a communications team comprised of various City staff which have reviewed and evaluated the bids for cost and coverage as stated in the Request for Proposal. The team reviewed the proposals, evaluated the equipment submitted by the bidders for clarity and coverage of service, and reviewed certain proprietary information regarding coverage submitted by both bidders. The spreadsheet highlights the basic cost differences between the two proposals. The proposal submitted by U. S. Cellular represents the best overall cost package to the City while providing satisfactory cellular telephone equipment and service coverage.

Funding is available in the Fiscal Year 2000 operating budgets of the various City departments.

Staff recommends the City Council adopt the resolution which awards the contract to U. S. Cellular and authorizes the City Manager to execute the contract and any related documents.

Twin Springs Sewer Easement Conveyance

Summary: The consideration of a resolution authorizing the Mayor to convey to the Metropolitan Sewerage District of Buncombe County the sewer system and sewer system easements of Twin Springs Subdivision.

The City of Asheville is the owner of record of a 12.27-acre tract of unimproved real property on Broadview Drive within the City limits. Infrastructure improvements have been completed and the final plat has been recorded. The City of Asheville must convey to the

Metropolitan Sewerage District of Buncombe County the sewer system and sewer system easements as shown on the as-built/easement survey.

On August 19, 1997, the City of Asheville and the Asheville Area Habitat for Humanity, Inc. entered into a Memorandum of Understanding to develop a 12.27-acre tract of unimproved land on Broadview Drive within the City limits. The City agreed to construct infrastructure improvements, including water, sanitary sewer, storm water drainage, streets and sidewalks, curb and gutter, electric, telephone, cable, street lighting, and minor landscaping. Habitat will construct 34 affordable housing units to be occupied by income-eligible families, and will transfer title of the individual real property to the qualified family when housing construction is completed.

Community Development staff recommends adoption of the resolution to convey to the Metropolitan Sewerage District of Buncombe County the sewer system and sewer system easements of Twin Springs Subdivision.

Grant for Master Street Tree Plan Phase II

Summary: The consideration of a budget amendment, in the amount of $9,873, from a grant from the N. C. Department of Environment and Natural Resources, to establish a budget for the Master Street Tree Program Phase II.

The City of Asheville applied for funds in August 1999 for a grant from the North Carolina Department of Environment and Natural Resources, Division of Forest Resources in the Urban and Community Forestry Grants Program. The grant was recently awarded in the amount of $9,873 and designated for implementing the next phase of the Master Street Tree Program (MSTP) in the south area of Asheville.

The Parks and Recreation Department is responsible for developing a MSTP for street trees on City rights-of-way located within the city limits of Asheville. The existing inventory is almost fifteen years old and does not accurately reflect the trees of the City. The next phase of the process will identify the location, size, condition, and site conditions of trees located in the south area of Asheville. The MSTP will serve as a critical link in developing a long term management plan for Asheville's urban trees, provide information for future tree planting and forestry planning, and provide educational and volunteer opportunities for community organizations.

The Parks and Recreation Department recommends City Council approve the budget amendment, in the amount of $9,873, to establish a budget for the next phase of the Master Street Tree Plan.

Subordination Agreement for Opportunity Corporation

Summary: The consideration of a resolution to authorizing the Mayor and Assistant City Attorney to execute a Deed of Subordination which would subordinate the Deed of Trust granted by the Opportunity Corporation to the City of Asheville for the property purchased on Gaston Street.

By Resolution No. 98-36 the City Council authorized the Mayor to execute any and all documents necessary to exchange property between the City of Asheville and The Opportunity Corporation of Madison-Buncombe Counties, Inc. ("The Opportunity Corporation"), which property was owned by the City of Asheville and located adjacent to the property on which the W.C. Reid Community Center Annex building is located. In exchange for that real property, The Opportunity Corporation was to provide $20,000 in cash for the city of Asheville Parks and Recreation Department to use in funding "mini-park" in the "West End section" of the City of

Asheville and materials and administrative costs of not less that $16,000 to construct a bridge across the creek at the base of property. The Opportunity Corporation acquired and an easement across the property acquired by The Opportunity Corporation for the city to use for greenway purposes. As part of that exchange, The Opportunity Corporation executed a Promissory Note and a deed of Trust against the property to secure the payments to be made to the City of Asheville.

The Opportunity Corporation has paid the $20,000 in cash but, the materials and administrative costs in the amount of not less than $16,000 have not yet been furnished in that City of Asheville is not yet ready to construct the bridge. The Opportunity Corporation desires to construct a new building on the property it has acquired and has secured financing to construct that building. The lender of the construction costs for that building, First Citizens Bank & Trust, desires to have a first lien on that property. The Parks and Recreation Department has no objection to the lien of the City of Asheville being subordinate to the lien of the construction lender for the new building of The Opportunity Corporation.

A Deed of Subordination has been prepared by The Opportunity Corporation, furnished to the City of Asheville, and reviewed and approved by the City Attorney's Office;

The Parks and Recreation Department and the City Attorney's Office recommend adoption of the resolution and execution of the Deed of Subordination.

Mayor Sitnick asked that the record show that City Council has received this information and instructs the City Manager to place these items on the next formal City Council agenda.

1999 BELE CHERE REPORT

Mr. Butch Kisiah, Superintendent of Recreation, said that this is the final report for the 1999 Bele Chere Festival which includes a financial statement and an update of the Strategic Plan.

In January of 1997, City Council approved the Bele Chere Strategic Plan for the next five years. Part of that plan included an annual report to City Council each year after the festival. He reviewed some of the objectives of the goals from the Strategic Plan and a financial statement for the 1999 festival. As the financial statement shows, Bele Chere made a total of $64,875.66. This represents the fourth year in a row that the festival has made a profit. This is due largely to an overall increase in sponsorships and souvenir sales. The profit made from Bele Chere will go into the Festival Fund and will be used to enhance Bele Chere as well as other festivals, therefore reducing the City's taxpayers' support of these events. Tremendous headway was made this year in relationships with the Downtown Merchants, including the second year for "Taste of Asheville." This dialogue has resulted in better communication and trust between both groups. Recognition should be given to all City departments for their involvement with the festival. Without their support and commitment to improving the quality of Bele Chere, the festival could not continue to be successful.

The Parks and Recreation Department and the Bele Chere Board recommend City Council's endorsement of the Annual Report for Bele Chere.

Councilman Sellers hoped that City Council will take a sincere look at continuing the no alcohol on Sunday for future Bele Chere festivals.

Vice-Mayor Hay was impressed that everyone has taken seriously the mandates of the Strategic Plan which shows that plans really can be the foundation for doing something good.

When Vice-Mayor Hay asked about marketing, Mr. Kisiah explained and noted that they are not looking for a bigger Bele Chere in that they feel it's about just the right size.

Mayor Sitnick commented on the 37% increase of sponsorships.

It was the consensus of City Council to endorse the 1999 Annual Report for Bele Chere.

PURCHASE OF REAL PROPERTY AT 8 CEDAR STREET

City Engineer Cathy Ball said that this is the consideration of a resolution authorizing the purchase of property located at 8 Cedar Street and a budget amendment, in the amount of $113,000, for purpose of making intersection improvements in the future.

In recent months, the property located at 8 Cedar Street (PIN No. 9657.07-58-4903) was placed on the market for sale by the owner for $122,500. An appraisal was made of the property, which was $104,000, and after negotiations, the price of $113,000 was agreed upon. The owners of the property are David S. and Robin G. Hylton. City staff became aware of this sale and recognized that this property would need to be acquired in order to make much needed intersection improvements at Cedar Street, Fairview Road, and Liberty Street.

Currently there is a traffic signal located at the intersection of Cedar Street and Fairview Road and another one approximately 100 feet away at Liberty Street and Fairview Road. By purchasing this property, the City could realign these two intersections to create a safer, less congested intersection in the future.

Following purchase of the property, staff will lease the house until such time as the house will need to be relocated to allow for the intersection improvements, move the house to a vacant lot and sell the house, or any combination of the above. These options should generate some revenue from the purchase of the property.

Staff recommends that the Mayor be authorized to execute documents to purchase property located at 8 Cedar Street and to approve a budget amendment, in the amount of $113,000, for the purpose of making intersection improvements in the future.

Mayor Sitnick asked that the record show that City Council has received this information and instructs the City Manager to place these items on the next formal City Council agenda.

AMENDMENT OF 1999 CONSOLIDATED ACTION PLAN

Ms. Charlotte Caplan, Community Development Director, said that this is the consideration of an amendment to the City's 1999 Consolidated Action Plan so as to recognize the receipt of additional program income and fund three new projects: (1) purchase of land for housing development in West Asheville; (2) a loan guarantee for the Montford Gateway development; and (3) rent assistance for families at risk of homelessness.

Program Income Receipts - Program income generated by our Community Development Block Grant (CDBG) and HOME programs is estimated at the start of each year. Necessarily, these estimates are conservative. We now have a significant accumulation of unallocated program income from prior years in both the CDBG and HOME programs, and are expecting to receive an additional $90,000 from the sale of a small piece of redevelopment land on Asheland Avenue. There is a total of $191,349 in CDBG and $54,551 in HOME funds is now available for allocation to projects.

Although it would be possible to retain these funds for allocation through the annual process in spring 2000, there are three projects which need funding now, outside the normal cycle.

(1) Purchase of land for Housing Development - The Asheville Housing Authority has offered the City an option to buy a 6.8 acre site at the intersection of Virginia Avenue and Brotherton Avenue in West Asheville. The site is suitable for a Planned Unit Development of 20-30 single family homes to provide home ownership opportunities to low and moderate income families in a setting designed to foster a sense of community. Design features would include: clustered homes joined by footpaths; peripheral on-site parking; commonly-owned play, garden, and green space area; and, if funds allow, a community house for social activities, laundry, etc.

The site has been appraised at $120,000. An allocation of **$130,000 in CDBG** funds is recommended to cover acquisition and pre-development costs.

(2) Montford Gateway Project - In 1998 Neighborhood Housing Services purchased from the City a site at the south end of Montford Avenue for a mixed use development with offices, retail space and apartments. NHS has put together a permanent financing plan incorporating Low Income Housing Tax Credits, a capital advance from Neighborhood Reinvestment Corporation, several foundation grants, a small ($31,250) CDBG grant made in 1998, and a $400,000 bank loan. The bank has required NHS to provide a loan guarantee or reserve amounting to two years of interest on the loan in case the commercial parts of the development are slow to lease. NHS has asked the City to allocate **$70,000 in CDBG** funds for this reserve.

If, as expected, the commercial units are quickly leased, these funds will revert to the City's CDBG fund for re-allocation to other projects through the normal allocation procedure.

(3) HOME Rent Assistance - The State Division of Social Services has announced the availability of $5 million statewide to assist families on welfare or eligible for welfare in securing safe, affordable housing. City, County, DSS, and non-profit agency staff are collaborating to prepare a $400,000 competitive grant application. The lead agency is the Affordable Housing Coalition (AHC). The state grant requires a match of $1 in local funds for every $2 in grant funds. This match would be funds contributed by participating agencies, including CDBG funds already allocated to AHC for rental education and counseling, and HOME funding to be applied directly to rent assistance, which is an eligible HOME activity.

An allocation of **$50,000 in HOME** funds has been requested by the partners in this grant application .

(4) Amendment of 1997 CDBG Grant to Mountain Housing Opportunities - A 1997 CDBG grant made $262,300 available to MHO for infrastructure improvements associated with its housing development in the West End/Clingman Avenue neighborhood. This project has been slow-moving, due in part to the absence of a detailed, site-specific, land-use and design plan for the neighborhood. MHO has requested that $35,000 of the 1997 funding be re-allocated for planning. MHO will also proceed with minor sanitary sewer and storm drain improvements near Rector Street and Park Place. No new funds are required.

Public Hearing Requirements - The changes amount to a substantial amendment to the City's Consolidated Action Plan for 1999-2000 and require a public hearing before Council approval. Notice of the amendment was given on October 29 and November 5, 1999.

Staff recommends amending the 1999 Consolidated Action Plan to include rent assistance in the HOME program, to allocate $200,000 in CDBG funds and $50,000 in HOME funds to the three projects described above, and to re-allocate $35,000 in 1997 CDBG funds from infrastructure improvements to planning in West End/Clingman.

Discussion surrounded several questions raised by Councilman Sellers, in particular the water flow in the Brotherton and Virginia Avenue area.

Mr. Mike Brookshire from the Water Resources Department, said that an extension of a water line was made on Hudson Street and their tests have consistently shown that there is approximately 500 gallons per minute water flow to that area. He said that with normal usage, the addition of 30 more houses in the Brotherton/Virginia area will have a very minor impact on water pressure.

Fire Chief John Rukavina said that they have a standard of 500 gallons per minute for single-family houses and townhouses. Fire Chief Rukavina also answered questions relative to a water storage facility.

Upon inquiry of Mayor Sitnick, Ms. Caplan said that an independent appraiser is reviewing the Housing Authority's appraisal on the land and stressed that they will not pay more than the fair market value.

Upon inquiry of Councilman Cloninger, Ms. Caplan said that the cost of each house will be well below $100,000, however, she could not be specific because the houses have not yet been designed.

Vice-Mayor Hay stated that Council is only being asked to authorize the use of the federal housing monies to purchase the land at Virginia and Brotherton and that the design and plan itself is subject to approval by City Council at a later date.

Councilman Sellers requested a statement from the Fire Chief and Water Resources Department about the water flow in the area, in addition to information about the property values of homes in the area.

Upon inquiry of Councilman Cloninger, Housing Authority Director David Jones said that the money the City pays to the Housing Authority for the purchase of the property on Brotherton and Virginia will be used for affordable housing throughout the community.

Councilwoman Field stressed the need for affordable housing in our area to keep our youth here.

Mayor Sitnick agreed with Councilwoman Field and felt that with the commitment from City Council, the City has risen to the challenge of providing for affordable housing and has done a remarkable job with the limited funds available.

Mayor Sitnick asked that the record show that City Council has received this information and instructs the City Manager to place this item on the next formal City Council agenda for a public hearing.

APPROVAL OF ISSUANCE OF MULTI-FAMILY HOUSING REVENUE BONDS BY HOUSING AUTHORITY OF THE CITY OF ASHEVILLE

City Attorney Oast said that this is the consideration of a resolution approving the issuance of revenue bonds by the Housing Authority for the Oak Knoll project.

The Housing Authority of the City of Asheville proposes to issue revenue bonds in the amount of $6,444,000 for the acquisition, rehabilitation, and equipping of a low- and moderate-income housing project in the City of Asheville. This project involves the acquisition and rehabilitation of an existing residential rental project currently known as Oak Knoll Apartments, consisting of 180 units located on Future Drive in Asheville.

The project will be acquired by the Silver Street Development Corporation through the Oak Knoll - Asheville Limited Partnership, which will also perform the rehabilitation work. The Housing Authority will use the bond proceeds to provide financial assistance. In a meeting and public hearing held on October 26,1999, the Housing Authority found that the issuance of the bonds would further the Authority's purpose of promoting low- and moderate-income housing in Asheville, found that the developer was financially responsible and capable of fulfilling its debt repayment obligations, if the financing was provided, and that estimated costs of the acquisition and rehabilitation were not excessive. The financing team was also approved.

The bonds being issued are "private activity bonds" under IRS regulations. Essentially, this is a form of financing that allows private entities to engage in public purpose projects, with some of the advantages of tax exempt financing. There are many requirements and limitations in the use of the money derived from bond proceeds. One of the requirements is that the governmental unit having jurisdiction over the area in which the activity occurs must approve the issuance of the bonds, and this approval may only come after a public hearing. According to the Housing Authority's attorney, concurred in by bond counsel and the attorneys for the developer and issue, this public hearing requirement is satisfied by the public hearing held by the Housing Authority, and a separate hearing by the City is not necessary. Our bond counsel has confirmed this, and this is the position of the Local Government Commission.

If City Council wishes to approve issuance of the revenue bonds for the Oak Knoll project, as required by Sec. 147(f) of the Internal Revenue Code, adoption of the resolution is recommended.

Mayor Sitnick asked that the record show that City Council has received this information and instructs the City Manager to place this item on the next formal City Council agenda.

BOARDS AND COMMISSIONS:

Upon inquiry of Vice-Mayor Field, liaison to the Civic Center Commission, it was the consensus of City Council to ask the Civic Center Commission to take upon the task of reviewing the role and mission of the Commission, similar to what was recently done with the Asheville Downtown Commission. The Commission will have City staff support and is requested to report back to City Council with some recommendations on how to make changes to the ordinance which established the Commission.

It was the consensus of City Council to have the City Clerk prepare the proper paperwork to reappoint Ralph Morris to the Alcoholic Beverage Control Board.

It was the consensus of City Council to have the City Clerk prepare the proper paperwork to reappoint Darryl Hart as a Regular member to the Board of Adjustment. The Clerk was also instructed to ask the City Alternate members if they would be interested in the Regular member position which David Young was not interested in being reappointed to. Therefore, the Clerk was instructed to arrange interviews for the following Alternate members, if appropriate: Joseph Brady, Patricia Grant, Chris Goodwin and Burt Stanford. Interviews will also be arranged for Derek Weekley for an Alternate position and Anne Campbell for a Regular position. Sondra Slosman will also be considered for a position, however, there is no need for an interview.

312

It was the consensus of City Council to have the City Clerk prepare the proper paperwork to reappoint Kathryn Liss and Cynthia Janes to the Community Relations Council.

It was the consensus of City Council to have Vice-Mayor Hay contact Brenda Sconyers to verify that she is still interested in serving on the Downtown Commission. If Ms. Sconyers is interested, the City Clerk was instructed to arrange interviews for Chuck Pickering, Bill Byrne and Kim MacQueen for vacancies on the Downtown Commission. If Ms. Sconyers is not interested in serving, the City Clerk was instructed to prepare the proper paperwork to appoint Mr. Pickering, Mr. Byrne and Ms. MacQueen to the Downtown Commission. City Council also instructed the City Attorney to prepare an ordinance to temporarily increase the membership of the Downtown Commission to include the two current City Council members currently on the Commission, until their term on City Council expires. At such time when the Council members' terms end, only one member of City Council will be on the Commission.

It was the consensus of City Council to have the City Clerk prepare the proper paperwork to reappoint Bill Schaefer to the Firemen's Relief Fund.

It was the consensus of City Council to have the City Clerk prepare the proper paperwork to reappoint Doug Spell to the Metropolitan Sewerage District Board.

It was the consensus of City Council to have the City Clerk prepare the proper paperwork to reappoint Jim McCulley to the Transit Commission, subject to Vice-Mayor Hay confirming with Mr. McCulley that he will be able to serve due to health problems. The City Clerk was instructed to arrange interviews for Claudia Nix and Pauline Kaltsunis.

It was the consensus of City Council to have the City Clerk prepare the proper paperwork to appoint Gerry Hardesty, Bruce Mulkey, John Tate and Casey Carmichael to the Greenway Commission. Since said Commission is to be made up of seven members, the City Clerk was also instructed to add this Commission in the next quarterly appointment process.

It was the consensus of City Council to have the City Clerk prepare the proper paperwork to appoint Kasty Latven, Sofia Mannos, Peter Gentling and Margaret Tinker for the Tree Commission. The City Clerk was instructed to arrange interviews with Monty Wooten and Philip Cusick. Also the Clerk was instructed to verify if Brian Inman was a City of Asheville resident, and if so, to ask him if he would be interested in being interviewed for a vacancy on the Tree Commission.

It was the consensus of City Council to have the City Clerk prepare the proper paperwork to appoint Ellen Rickman, Pamela Myers, S. Tucker Cooke, Judith Barber, Judy Swan, Carol Pennell and Caroline Mason to the Public Art Board.

Since only two applications were received for this new five member board, it was the consensus of City Council to readvertise the vacancies on the Public Access Channel Commission with a deadline of December 31, 1999.

ADJOURNMENT:

Mayor Sitnick adjourned the meeting at 5:50 p.m.

Magdalen Burleson
CITY CLERK

Leni Sitnick
MAYOR

Tuesday - November 9, 1999 - 5:00 p.m.

Regular Meeting

Present: Vice-Mayor Edward C. Hay Jr., Presiding; Councilman M. Charles Cloninger; Councilman Earl Cobb; Councilwoman Barbara Field; Councilman Thomas G. Sellers; and Councilman O.T. Tomes; City Attorney Robert W. Oast Jr.; City Manager James L. Westbrook Jr.; and City Clerk Magdalen Burleson

Absent: Mayor Leni Sitnick

INVOCATION

Councilman Cobb gave the invocation.

I. PROCLAMATIONS:

A. PROCLAMATION PROCLAIMING THURSDAY, NOVEMBER 11, 1999, AS "VETERANS DAY" IN THE CITY OF ASHEVILLE

Vice-Mayor Hay read the proclamation proclaiming Thursday, November 11, 1999, as "Veterans Day " in the City of Asheville.

II. CONSENT:

Mr. Daniel Breen asked that Item G. from the Consent Agenda be removed for discussion.

A. APPROVAL OF THE MINUTES OF THE REGULAR MEETING HELD ON OCTOBER 27, 1999, AND THE WORKSESSION HELD ON NOVEMBER 3, 1999

B. RESOLUTION NO. 99-163 - RESOLUTION AWARDING A CONTRACT FOR CELLULAR TELEPHONE SERVICE AND EQUIPMENT TO U.S. CELLULAR CORPORATION

Summary: The consideration of a resolution awarding a contract for cellular telephone service and equipment to U. S. Cellular Corp.

The City of Asheville uses cellular telephone services in the conduct of City business on a daily basis. The City desires to use those services that provide the best cost and coverage possible for its customers. As the communications industry is able to provide increasingly better and less expensive equipment and coverage, the City elected to seek proposals for cellular telephone service. The City advertised in the Asheville Citizen-Times for interested cellular telephone service providers and sent a Request for Proposal for cellular telephone service to prospective bidders. A pre-bid conference was held on September 22 at which three prospective bidders attended. The City received two responses to the Request for Proposal. The bids were originally due on October 1, 1999, however, one bidder expressed a concern regarding a possible need for more time to respond. The due date of the bids was then moved to October 8, 1999. The City has a communications team comprised of various City staff which have reviewed and evaluated the bids for cost and coverage as stated in the Request for Proposal. The team reviewed the proposals, evaluated the equipment submitted by the bidders for clarity and coverage of service, and reviewed certain proprietary information regarding coverage submitted by both bidders. The spreadsheet highlights the basic cost differences between the two proposals. The proposal submitted by U. S. Cellular represents the best overall cost package to the City while providing satisfactory cellular telephone equipment and service coverage.

Funding is available in the Fiscal Year 2000 operating budgets of the various City departments.

Staff recommends the City Council adopt the resolution which awards the contract to U. S. Cellular and authorizes the City Manager to execute the contract and any related documents.

RESOLUTION BOOK NO. 25 - PAGE 329

C. RESOLUTION NO. 99-164 - RESOLUTION AUTHORIZING THE MAYOR TO CONVEY TO THE METROPOLITAN SEWERAGE DISTRICT OF BUNCOMBE COUNTY THE SEWER SYSTEM AND SEWER SYSTEM EASEMENTS FOR TWIN SPRINGS SUBDIVISION

Summary: The consideration of a resolution authorizing the Mayor to convey to the Metropolitan Sewerage District of Buncombe County the sewer system and sewer system easements of Twin Springs Subdivision.

The City of Asheville is the owner of record of a 12.27-acre tract of unimproved real property on Broadview Drive within the City limits. Infrastructure improvements have been completed and the final plat has been recorded. The City of Asheville must convey to the Metropolitan Sewerage District of Buncombe County the sewer system and sewer system easements as shown on the as-built/easement survey.

On August 19, 1997, the City of Asheville and the Asheville Area Habitat for Humanity, Inc. entered into a Memorandum of Understanding to develop a 12.27-acre tract of unimproved land on Broadview Drive within the City limits. The City agreed to construct infrastructure improvements, including water, sanitary sewer, storm water drainage, streets and sidewalks, curb and gutter, electric, telephone, cable, street lighting, and minor landscaping. Habitat will construct 34 affordable housing units to be occupied by income-eligible families, and will transfer title of the individual real property to the qualified family when housing construction is completed.

Community Development staff recommends adoption of the resolution to convey to the Metropolitan Sewerage District of Buncombe County the sewer system and sewer system easements of Twin Springs Subdivision.

RESOLUTION BOOK NO. 25 - PAGE 331

D. ORDINANCE NO. 2632 - BUDGET AMENDMENT TO ESTABLISH A BUDGET FROM A GRANT FROM THE N.C. DEPT. OF ENVIRONMENT AND NATURAL RESOURCES FOR THE MASTER STREET TREE PLAN PHASE II

Summary: The consideration of a budget amendment, in the amount of $9,873, from a grant from the N. C. Department of Environment and Natural Resources, to establish a budget for the Master Street Tree Program Phase II.

The City of Asheville applied for funds in August 1999 for a grant from the North Carolina Department of Environment and Natural Resources, Division of Forest Resources in the Urban and Community Forestry Grants Program. The grant was recently awarded in the amount of $9,873 and designated for implementing the next phase of the Master Street Tree Program (MSTP) in the south area of Asheville.

The Parks and Recreation Department is responsible for developing a MSTP for street trees on City rights-of-way located within the city limits of Asheville. The existing inventory is almost fifteen years old and does not accurately reflect the trees of the City. The next phase of the process will identify the location, size, condition, and site conditions of trees located in the south area of Asheville. The MSTP will serve as a critical link in developing a long term management plan for Asheville's urban trees, provide information for future tree planting and forestry planning, and provide educational and volunteer opportunities for community organizations.

The Parks and Recreation Department recommends City Council approve the budget amendment, in the amount of $9,873, to establish a budget for the next phase of the Master Street Tree Plan.

ORDINANCE BOOK NO. 18 - PAGE 30

E. RESOLUTION NO. 99-165 - RESOLUTION AUTHORIZING THE MAYOR TO EXECUTE DOCUMENTS FOR THE PURCHASE OF REAL PROPERTY AT 8 CEDAR STREET FOR THE PURPOSE OF MAKING INTERSECTION IMPROVEMENTS IN THE FUTURE

Summary: The consideration of a resolution authorizing the purchase of property located at 8 Cedar Street and a budget amendment, in the amount of $113,000, for purpose of making intersection improvements in the future.

In recent months, the property located at 8 Cedar Street (PIN No. 9657.07-58-4903) was placed on the market for sale by the owner for $122,500. The owners of the property are David S. and Robin G. Hylton. City staff became aware of this sale and recognized that this property would need to be acquired in order to make much needed intersection improvements at Cedar Street, Fairview Road, and Liberty Street.

Currently there is a traffic signal located at the intersection of Cedar Street and Fairview Road and another one approximately 100 feet away at Liberty Street and Fairview Road. By purchasing this property, the City could realign these two intersections to create a safer, less congested intersection in the future.

Following purchase of the property, staff will lease the house until such time as the house will need to be relocated to allow for the intersection improvements, move the house to a vacant lot and sell the house, or any combination of the above. These options should generate some revenue from the purchase of the property.

Staff recommends that the Mayor be authorized to execute documents to purchase property located at 8 Cedar Street and to approve a budget amendment, in the amount of $113,000, for the purpose of making intersection improvements in the future.

RESOLUTION BOOK NO. 25 - PAGE 332

F. ORDINANCE NO. 2633 - BUDGET AMENDMENT TO PURCHASE REAL PROPERTY LOCATED AT 8 CEDAR STREET

Summary: See Consent Agenda Item "E" above.

ORDINANCE BOOK NO. 18 - PAGE 32

G. RESOLUTION AUTHORIZING THE MAYOR TO APPROVE ISSUANCE OF MULTI-FAMILY HOUSING REVENUE BONDS BY THE HOUSING AUTHORITY OF THE CITY OF ASHEVILLE

This item was removed from the Consent Agenda for further discussion.

H. RESOLUTION NO. 99-166 - RESOLUTION AUTHORIZING THE VICE-MAYOR AND ASSISTANT CITY ATTORNEY TO EXECUTE A DEED OF SUBORDINATION AGREEMENT FOR THE DEED OF TRUST GRANTED BY THE OPPORTUNITY CORPORATION OF MADISON-BUNCOMBE COUNTIES, INC. TO THE CITY OF ASHEVILLE FOR PROPERTY ON GASTON STREET

Summary: The consideration of a resolution to authorizing the Vice-Mayor and Assistant City Attorney to execute a Deed of Subordination which would subordinate the Deed of Trust granted by the Opportunity Corporation to the City of Asheville for the property purchased on Gaston Street.

By Resolution No. 98-36 the City Council authorized the Mayor to execute any and all documents necessary to exchange property between the City of Asheville and The Opportunity Corporation of Madison-Buncombe Counties, Inc. ("The Opportunity Corporation"), which property was owned by the City of Asheville and located adjacent to the property on which the W.C. Reid Community Center Annex building is located. In exchange for that real property, The Opportunity Corporation was to provide $20,000 in cash for the city of Asheville Parks and Recreation Department to use in funding "mini-park" in the "West End section" of the City of Asheville and materials and administrative costs of not less that $16,000 to construct a bridge across the creek at the base of property. The Opportunity Corporation acquired and an easement across the property acquired by The Opportunity Corporation for the city to use for greenway purposes. As part of that exchange, The Opportunity Corporation executed a Promissory Note and a deed of Trust against the property to secure the payments to be made to the City of Asheville.

The Opportunity Corporation has paid the $20,000 in cash but, the materials and administrative costs in the amount of not less than $16,000 have not yet been furnished in that City of Asheville is not yet ready to construct the bridge. The Opportunity Corporation desires to construct a new building on the property it has acquired and has secured financing to construct that building. The lender of the construction costs for that building, First Citizens Bank & Trust, desires to have a first lien on that property. The Parks and Recreation Department has no objection to the lien of the City of Asheville being subordinate to the lien of the construction lender for the new building of The Opportunity Corporation.

A Deed of Subordination has been prepared by The Opportunity Corporation, furnished to the City of Asheville, and reviewed and approved by the City Attorney's Office;

The Parks and Recreation Department and the City Attorney's Office recommend adoption of the resolution and execution of the Deed of Subordination.

RESOLUTION BOOK NO. 25 - PAGE 333

Vice-Mayor Hay said that members of Council have been previously furnished with a copy of the resolutions and ordinances and the Consent Agenda and they would not be read.

Councilman Tomes moved for the adoption of the Consent Agenda. This motion was seconded by Councilwoman Field and carried unanimously.

ITEM REMOVED FROM THE CONSENT AGENDA FOR FURTHER DISCUSSION

RESOLUTION NO. 99-167 - RESOLUTION AUTHORIZING THE MAYOR TO APPROVE ISSUANCE OF MULTI-FAMILY HOUSING REVENUE BONDS BY THE HOUSING AUTHORITY OF THE CITY OF ASHEVILLE

City Attorney Oast said that this is the consideration of a resolution approving the issuance of revenue bonds by the Housing Authority for the Oak Knoll project

The Housing Authority of the City of Asheville proposes to issue revenue bonds in the amount of $6,444,000 for the acquisition, rehabilitation, and equipping of a low- and moderate-income housing project in the City of Asheville. This project involves the acquisition and rehabilitation of an existing residential rental project currently known as Oak Knoll Apartments, consisting of 180 units located on Future Drive in Asheville.

The project will be acquired by the Silver Street Development Corporation through the Oak Knoll - Asheville Limited Partnership, which will also perform the rehabilitation work. The Housing Authority will use the bond proceeds to provide financial assistance. In a meeting and public hearing held on October 26,1999, the Housing Authority found that the issuance of the bonds would further the Authority's purpose of promoting low- and moderate-income housing in Asheville, found that the developer was financially responsible and capable of fulfilling its debt repayment obligations, if the financing was provided, and that estimated costs of the acquisition and rehabilitation were not excessive. The financing team was also approved.

The bonds being issued are "private activity bonds" under IRS regulations. Essentially, this is a form of financing that allows private entities to engage in public purpose projects, with some of the advantages of tax exempt financing. There are many requirements and limitations in the use of the money derived from bond proceeds. One of the requirements is that the governmental unit having jurisdiction over the area in which the activity occurs must approve the issuance of the bonds, and this approval may only come after a public hearing. According to the Housing Authority's attorney, concurred in by bond counsel and the attorneys for the developer and issue, this public hearing requirement is satisfied by the public hearing held by the Housing Authority, and a separate hearing by the City is not necessary. Our bond counsel has confirmed this, and this is the position of the Local Government Commission.

If City Council wishes to approve issuance of the revenue bonds for the Oak Knoll project, as required by Sec. 147(f) of the Internal Revenue Code, adoption of the resolution is recommended.

Mr. Daniel Breen urged City Council to require the developer put in writing that rates would not be raised and that current employees would not be fired. He stressed that this issue needed more time to be reviewed and the developer should be required to come in and explain exactly what is proposed.

The Manager of the Oak Knoll property stated that they do have concerns about their current positions and that they do not want their tenants to lose their housing.

City Attorney Oast explained what is being approved is rehabilitation work for a housing project that is projected to be low and moderate income. There are certain limitations on the amount of rent that can be charged for a development like this. With regard to the management staff at Oak Knoll, he suggested that the Housing Authority be contacted because they are a separate government entity as far as those things are concerned.

Vice-Mayor Hay said that members of Council have been previously furnished with a copy of the resolution and it would not be read.

Councilwoman Field moved for the adoption of Resolution No. 99-167. This motion was seconded by Councilman Tomes and carried unanimously.

RESOLUTION BOOK NO. 25 - PAGE 335

III. PUBLIC HEARINGS:

A. PUBLIC HEARING RELATIVE TO PERMANENTLY CLOSING SPRUCE STREET FROM EAGLE STREET TO SOUTH MARKET STREET

RESOLUTION NO. 99-168 - RESOLUTION TO PERMANENTLY CLOSING SPRUCE STREET FROM EAGLE STREET TO SOUTH MARKET STREET

Vice-Mayor Hay opened the public hearing at 5:17 p.m.

Director of Public Works Mark Combs said that this the consideration of a resolution to permanently close Spruce Street from Eagle Street to South Market Street. The public hearing was advertised on October 15, October 22, October 29 and November 5, 1999.

The petition has been received from Mount Zion Mission Baptist Church, owners of parcels 9648-07-59-0873, 9648-06-49-9911, 8786, and 7794, requesting that South Spruce Street from Eagle Street to South Market Street be permanently closed to public use. Mount Zion Baptist Church believes the closing of the street will help eliminate a public nuisance, help eliminate crime from the area, and enhance overall redevelopment efforts by non-profits in the area.

The Public Works Department staff recommends the resolution to permanently close South Spruce Street from Eagle Street to South Market Street be adopted, with the following retention of easements for the City of Asheville, the Metropolitan Sewerage District, and Carolina Power and Light Company for the full length and width of Spruce Street to be closed for maintenance of existing public utilities and to access to (and maintenance of) an all-weather driving surface as required for Fire Department emergency access and operations.

Mr. Abraham Adams urged City Council to keep the road open in that the road leads to a church. He said that when there is a crowd of people in the area, this is just another way the people can get around without having to wait. He felt that the Sanitation Division should take care of the litter and trash in the area and that the Police Department should take care of drugs and crime. He didn't feel like the road needed to be closed to eliminate those concerns.

Rev. John Grant, representing the Mt. Zion Missionary Baptist Church, presented City Council with a petition containing 218 signatures. Said petition reads "We the undersigned support the closing of S. Spruce Street from 47 Eagle Street to S. Market Street because of illegal activities, urination and defecation happening on and around our property." He said the street is often cluttered with trash, wine and beer bottles, beer cans, brown paper bags, etc. and is frequented by alcoholics, drug addicts, prostitutes and others with arrest records who engage themselves and often urinate and defecate in the area. They feel the closing will help eliminate a public nuisance, will help eliminate crime from the area and will enhance the overall redevelopment efforts by non-profits in the area.

Ms. Willie Mae Brown, representative from the Mt. Zion Development Community Organization, showed Council pictures of the portion of the road requested to be closed, which she felt would easily let City Council know why they are requesting that it be closed. Ms. Brown said that for the past 8-10 years she has been organizing clean-ups in that area and it's shocking to see the amount of litter and the kind of illegal activity in that area. She said that they have clean-ups scheduled four times a year, however, on that stretch of road, it has to be cleaned up at least twice a week.

Councilwoman Field wondered if closing this portion might make it more attractive for crime and other illegal activities. Rev. Grant responded that if the road is closed, they will work even closer with the Police Department to maintain and police the area. He also felt that if they can stop the traffic on the road, then that will significantly help reduce the problem.

Councilman Tomes applauded the Church and other non-profits in the area that have a strong resolve for rehabilitating the area. He also felt that closing the road is a first step in the right direction.

Councilman Cobb felt that this area has great potential for a walkable community in which businesses can locate in which will attract visitors to our City.

Ms. Bonnie Love urged City Council to not close this road. She felt that City Council should not close off a street that leads directly to a church, irregardless of the behavior of the people and irregardless of environmental circumstances. She felt to close this road will be segregating a community that is already segregated.

Vice-Mayor Hay closed the public hearing at 5:37 p.m.

Vice-Mayor Hay said that members of Council have previously received a copy of the resolution and it would not be read.

Councilman Tomes moved for the adoption of Resolution No. 99- 168. This motion was seconded by Councilwoman Field and carried unanimously.

RESOLUTION BOOK NO. 24 - PAGE 336

B. PUBLIC HEARING TO CONSIDER AN AMENDMENT TO THE UNIFIED DEVELOPMENT ORDINANCE TO REVISE THE STANDARDS OF WIRELESS TELECOMMUNICATION FACILITIES

ORDINANCE NO. 2634 - ORDINANCE TO AMEND THE UNIFIED DEVELOPMENT ORDINANCE TO REVISE THE STANDARDS OF WIRELESS TELECOMMUNICATION FACILITIES

Vice-Mayor Hay opened the public hearing at 5:45 p.m.

Mr. Gerald Green, Senior Planner, said that this is the consideration of an ordinance amending the Unified Development Ordinance with regard to standards for the location of telecommunications facilities in response to issues identified by service providers at the time of adoption of the ordinance. This public hearing was legally advertised on October 29 and November 5, 1999.

When the City Council adopted the Telecommunications Facilities Ordinance in January 1999, the service providers identified six (6) areas of concern with the ordinance. City Council directed staff and the Planning and Zoning Commission to study the identified concerns and to propose appropriate revision to the ordinance, if needed. The Commission and staff spent over two (2) months studying the identified issues, even hiring a telecommunications engineer to provide input on the question of tower height. Based upon this study, the Commission is recommending certain revisions to the ordinance. The revisions are presented with the following goals:

- Promote and facilitate co-location of facilities;
- Enable adequate service to be provided to Asheville's citizens and visitors; and
- Protect and preserve Asheville's scenic beauty.

One of the issues of concern identified by the service providers was the tower height limit of 100 feet. The service providers argued that this height limit would limit the ability to provide adequate service and/or result in a proliferation of towers. After studying this issue closely, the Planning and Zoning Commission is recommending the tower height limit remain at 100 feet. Revisions recommended by the Commission include:

- Permitting existing structures (including non-conforming ones) to be improved or rebuilt at the existing height to accommodate co-located equipment;
- Reducing the buffering requirement for co-located equipment;
- Providing City Council authority to reduce the required setback of a new structure from adjacent residential uses and zones;
- Revising the standards for consideration of electric transmission towers as locations for telecommunications equipment;
- Reducing the maintenance/removal bond amount when the equipment is co-located in an existing equipment shelter; and
- Clarify wording regarding the posting of the maintenance/removal bond.

Representatives of the service providers were involved in the development of the proposed amendments.

The Planning and Zoning Commission voted unanimously to recommend adoption of the proposed amendment. The staff of the Planning and Development Department also recommends adoption of the amendment.

Mr. Green responded to various questions from Council, some being, but are not limited to, is the City going to be able to provide adequate service to the citizens, are we limiting competition, and what is and how big is a search radius.

Councilwoman Field felt that protecting our beauty is very important, but going into the next century with the communications needs, she wanted to be absolutely sure that we are not creating an environment that puts us in a second rate position for the kinds of business and the kinds of economic development that we would like to have here.

Mr. Larry McDevitt, attorney representing Bell Atlantic Mobile, felt that the amendments represent some very positive steps to make the ordinance more workable. He did note, however, that he is working with City staff on two other amendments which deal with the height of the towers and the five year conditional use principle.

Councilman Cloninger felt that the ordinance, with these revisions, achieves the goal of preserving the beauty of our area. In fact, he felt further amendments should not be considered for a while in order to give enough time for the ordinance to be effective.

Vice-Mayor Hay closed the public hearing at 6:00 p.m.

Vice-Mayor Hay said that members of Council have previously received a copy of the ordinance and it would not be read.

Councilman Tomes moved for the adoption of Ordinance No. 2634. This motion was seconded by Councilwoman Field and carried unanimously.

ORDINANCE BOOK NO. 18 - PAGE

C. PUBLIC HEARING TO AMEND THE CITY'S 1999 CONSOLIDATED ACTION PLAN

RESOLUTION NO. 99-169 - RESOLUTION APPROVING AMENDMENTS TO THE 1999 CONSOLIDATED ACTION PLAN FOR THE HOME AND COMMUNITY DEVELOPMENT BLOCK GRANT PROGRAMS

ORDINANCE NO. 2635 - BUDGET AMENDMENT IN THE AMOUNT OF $70,000 IN CDBG FUNDS FOR THE MONTFORD GATEWAY PROJECT, $50,000 IN HOME FUNDS FOR HOME RENT ASSISTANCE, AND THE REALLOCATION OF $35,000 IN THE 1997 CDBG GRANT TO MOUNTAIN HOUSING OPPORTUNITIES

ORDINANCE NO. 2636 - BUDGET AMENDMENT IN THE AMOUNT OF $130,000 FROM CDBG FUNDS FOR THE ACQUISITION OF LAND IN WEST ASHEVILLE AND PRE-DEVELOPMENT COSTS

Vice-Mayor Hay opened the public hearing at 6:03 p.m.

Ms. Charlotte Caplan, Community Development Director, said that this is the consideration of an amendment to the City's 1999 Consolidated Action Plan so as to recognize the receipt of additional program income and fund three new projects: (1) purchase of land for housing development in West Asheville; (2) a loan guarantee for the Montford Gateway development; and (3) rent assistance for families at risk of homelessness.

Program income generated by our Community Development Block Grant (CDBG) and HOME programs is estimated at the start of each year. Necessarily, these estimates are conservative. We now have a significant accumulation of unallocated program income from prior years in both the CDBG and HOME programs, and are expecting to receive an additional $90,000 from the sale of a small piece of redevelopment land on Asheland Avenue. Information shows that a total of $191,349 in CDBG and $54,551 in HOME funds is now available for allocation to projects.

Although it would be possible to retain these funds for allocation through the annual process in spring 2000, there are three projects which need funding now, outside the normal cycle.

Purchase of land for Housing Development - The Asheville Housing Authority has offered the City an option to buy a 6.8 acre site at the intersection of Virginia Avenue and

Brotherton Avenue in West Asheville. The site is suitable for a Planned Unit Development of 20-30 single family homes to provide home ownership opportunities to low and moderate income families in a setting designed to foster a sense of community. Design features would include: clustered homes joined by footpaths; peripheral on-site parking; commonly-owned play, garden, and green space area; and, if funds allow, a community house for social activities, laundry, etc.

The site has been appraised at $120,000. An allocation of **$130,000 in CDBG** funds is recommended to cover acquisition and pre-development costs.

Montford Gateway Project - In 1998 Neighborhood Housing Services purchased from the City a site at the south end of Montford Avenue for a mixed use development with offices, retail space and apartments. NHS has put together a permanent financing plan incorporating Low Income Housing Tax Credits, a capital advance from Neighborhood Reinvestment Corporation, several foundation grants, a small ($31,250) CDBG grant made in 1998, and a $400,000 bank loan. The bank has required NHS to provide a loan guarantee or reserve amounting to two years of interest on the loan in case the commercial parts of the development are slow to lease. NHS has asked the City to allocate **$70,000 in CDBG** funds for this reserve.

If, as expected, the commercial units are quickly leased, these funds will revert to the City's CDBG fund for re-allocation to other projects through the normal allocation procedure.

HOME Rent Assistance - The State Division of Social Services has announced the availability of $5 million statewide to assist families on welfare or eligible for welfare in securing safe, affordable housing. City, County, DSS, and non-profit agency staff are collaborating to prepare a $400,000 competitive grant application. The lead agency is the Affordable Housing Coalition (AHC). The state grant requires a match of $1 in local funds for every $2 in grant funds. This match would be funds contributed by participating agencies, including CDBG funds already allocated to AHC for rental education and counseling, and HOME funding to be applied directly to rent assistance, which is an eligible HOME activity.

An allocation of **$50,000 in HOME** funds has been requested by the partners in this grant application .

Amendment of 1997 CDBG Grant to Mountain Housing Opportunities - A 1997 CDBG grant made $262,300 available to MHO for infrastructure improvements associated with its housing development in the West End/Clingman Avenue neighborhood. This project has been slow-moving, due in part to the absence of a detailed, site-specific, land-use and design plan for the neighborhood. MHO has requested that $35,000 of the 1997 funding be re-allocated for planning. MHO will also proceed with minor sanitary sewer and storm drain improvements near Rector Street and Park Place. No new funds are required.

The changes amount to a substantial amendment to the City's Consolidated Action Plan for 1999-2000 and require a public hearing before Council approval. Notice of the amendment was given on October 29 and November 5, 1999.

At the City Council worksession on November 3, 1999, City Council requested the following additional information on the Virginia/Brotherton site:

Fire Flow - Asheville's fire code includes "fire flow" requirements for new subdivisions and major projects.

The minimum fire flow requirement for single-family dwellings or townhouses with two-hour fire separations between townhouse units is 500 gallons per minute. Fire flow requirements for all other occupancy types begin at 1000 gallons per minute.

The fire code also provides for a "sprinkler credit"--if a building is equipped with an approved sprinkler system, the fire flow requirement can be cut in half, as long as there is sufficient fire flow to supply the sprinkler system and estimated non-fire water demand.

In the case of sprinkler-equipped single-family dwellings/townhouses, the fire flow requirement would be the flow required to support the sprinkler system and domestic needs, or 250 gallons per minute, whichever is greater.

Water Supply - Virginia Avenue is supplied by a 6-inch cast iron waterline. This 6-inch waterline is connected to an existing 8-inch waterline on Haywood Road and has cross-connecting 6-inch waterlines at Langwell Avenue and Drake Street.

Domestic water service for the entire Virginia Avenue area is excellent. Static pressures range from 120 psi (pounds per square inch) near Haywood Road to near 170 psi at the lower end of Virginia. The additional water demand created by the proposed (20-30) residential units being proposed on Brotherton Avenue will have negligible impact on water service to existing customers in the neighborhood.

Fire flows along Virginia Avenue range from excellent to adequate. Fire flows in excess of 3,000 gallons per minute (gpm) are available on Virginia Avenue at Haywood Road. Hydrant flow tests at the Brotherton/Virginia Avenue intersection have ranged from a low of 460 gpm to a high of 540 gpm. This variation is due to other demands on the water system at the time of the test, but tests on average have been at least 500 gpm. The 540 gpm test was conducted on 11/3/99.

The Water Resources Department is confident that they can provide water service to this proposed development without any negative impact on existing customers in the neighborhood.

Property Values - Twenty-three residential property values closest to the Brotherton Avenue site were assessed using the 1998 taxes. The median value is $62,400 . Staff estimates that current fair market values would be 10-25% higher, depending on the condition of the property, bringing the median value to about $75,000. The homes are generally of modest size, built in the middle years of this century, mostly before the second world war. They appear to be in fair to good condition, but because of their age may have somewhat out-dated plumbing, wiring, and heating systems, or lack some amenities generally found in newer homes, e.g. a second bathroom. The proposed development would create homes of comparable size and similar market position, with values within the range of the existing homes but towards the upper end of the range, because they would be newer.

It is unlikely that the proposed new development would have any significant impact on the values of existing homes in the neighborhood.

Use of Sale Proceeds by the Housing Authority - David Jones, Executive Director of the Housing Authority of the City of Asheville, stated at the November 3 worksession that the Authority will apply the proceeds of sale of the Brotherton Avenue Site to the construction of new public housing on scattered sites ("Project 19"), which is currently under way. He said that this is consistent with instructions he has received from HUD.

Staff recommends amending the 1999 Consolidated Action Plan to include rent assistance in the HOME program, to allocate $200,000 in CDBG funds and $50,000 in HOME funds to the three projects described above, and to re-allocate $35,000 in 1997 CDBG funds from infrastructure improvements to planning in West End/Clingman.

Upon inquiry of Councilman Sellers, Ms. Caplan explained that a planned unit development is a way of arranging the units on a site so that in parts of the site you may exceed the number of units per acre that the site is zoned for, but in other parts of the site you have no buildings - so it evens out. There is a process set out in the Unified Development Ordinance for approval of the site plan.

When Councilman Cobb asked what Ms. Caplan meant by a co-housing development, Ms. Caplan said that the term has nothing to do with communes. It is much more like a condominium than a commune. She said that there are approximately 300 co-housing communities in the United States. She said that the main features are to cluster the housing fairly close, to have footpaths and gardens between the houses, to have common management of the open spaces to encourage community uses of the open spaces, and to have a community building for people to meet. She said the difference between a condominium and a co-housing development would be these community activities and the fact that management of the development is not turned over to a board, but is undertaken equally by the owners. She said that each unit will probably resemble townhouses and will be a normal self-contained house. The owner would own it under normal fee simple deed, in addition to owning a share of the common areas.

When Councilman Cobb noted that under the RS-8 zoning the site is allowed to have up to 50 or more units, Ms. Caplan said that it would be difficult to develop 50-60 units on this site and co-housing development seems to work best with less than 30 homes. She stressed that the City will control how many units are built because the City will be the owner of the land and the site plan will have to be approved by the City too.

Councilwoman Field described some of the following common areas at the Westwood co-housing development: a community building, a workshop area, an area for day care, a garden and orchard, etc.

Mr. Mike Brookshire, Engineer with the Water Resources Department, said that the improvements made was a new 6-inch line on Hudson Street, between State Street and Landwell Avenue. He said that all records and tests indicate that there is also a 6-inch line from Landwell to Brotherton. He said that they were going to dig the waterline up, but when they got there the Water Resources Department crew found two values, one on Brotherton and one just past Brotherton further down the hill on Virginia Avenue. They operated the values and counted the turns, and it is consistent with a 6-inch waterline. He said that to compliment the values that they found, it is physically impossible to flow the amounts of water that we have found on Brotherton through a 2-inch line.

Councilman Sellers noted that the minutes of a 1994 meeting when this site was discussed, the Fire Chief indicated that this area had a 2-inch waterline. The minutes reflect that "if it is a 2-inch line, it would be suitable for domestic purposes, but not for fire flow purposes."

Fire Chief John Rukavina said that at the time the statement was made in 1994, it may have been speculation based on the amount of water flow and information he had at the time from the Water Authority.

Mr. Dick Rice, representing the West Asheville Community League, said that $130,000 for the Housing Authority's 6.8 acres is a per acre price of $19,117; however, since only about four acres are considered buildable, the price per acre is $27,083, which is unreasonable. Mr. Rice said that in the late 1980's or early 1990's the property was purchased by three businessmen who tried for years to sell the property. It was finally sold to the Housing Authority for a price of $64,500 and $9,000 for an additional two acres. He felt that if real estate is so scare and valuable, why haven't developers rushed to buy this property. He said that the 1994 City Council minutes reveal that Mr. Holcombe, former Water Resources Director, and Fire Chief John Rukavina both testified that there is only a 2 inch waterline at the lower end of Virginia Avenue and that the fire flow is inadequate. However, Mr. Brookshire said there is a 6 inch waterline at this location. He felt the waterline needed to be dug up to be sure about it's size. With regard to fire flow, sprinkler systems are worthwhile but they require a lot of water. He felt that the pathways between the housing units will be a breezeway for fire to spread. When the Housing Authority wanted to build on the property back in 1994, the issue was, and still is, safety. He stressed that (1) if the water supply is improved to provide water necessary to protect the number of units proposed to be built, as well as the rest of the neighborhood; (2) if one and two bedroom single-family homes are built according to the RS-8 zoning; and (3) if handicapped people were provided for, then new affordable homeowners would be very welcome in our backyard.

The following individuals spoke against the City purchasing the property on Virginia/Brotherton to build co-housing units for the following reasons: the infrastructure in the area is already overburdened, increased traffic on Virginia Avenue will contribute to the already speeding on that road, the property is not suitable to build houses on, there is presently inadequate water in the area, there are no sidewalks on Virginia Avenue, Virginia Avenue is a narrow road, residents need to see a design of the proposed units, there should be a smaller number of units built and they should become part of the existing neighborhood, I-240 interchange plans may affect the property, 20-30 units are too many for just the two acres of buildable property, and if there is a 6-inch waterline on Virginia Avenue then it is probably very old and rust inside the pipe will restrict the water flow:

Mr. Richard Nantelle, resident on Virginia Avenue
Mr. William Cogburn, resident of the area
Mr. Carlos Montgomery, resident of the area
Mr. Steve Gruber, affordable housing developer
Ms. Lisa Rentis, 32 Virginia Avenue
Ms. Martha M. Gosnell, resident of the area
Ms. Margaret Ballew, resident of the area
Ms. Rebecca Miller, 268 Virginia Avenue
Ms. Kay Cowan, resident of the area

Vice-Mayor Hay closed the public hearing at 7:17 p.m.

Upon inquiry of Councilwoman Field, Fire Chief Rukavina said that the fire flow requirement for a single-family home is 500 gallons per minute and the fire flow for a community center is 1,000 gallons per minute. He noted that if the community center were sprinklered and there was an adequate water supply, there would be a 50% credit for that, so theoretically, that would be 500 gallons per minute.

With regard to traffic, Councilwoman Field felt that Virginia Avenue would be a good candidate for incorporating some of the traffic calming devices. She suggested that the Traffic Engineer report on the street condition.

Councilwoman Field was concerned, as was the rest of City Council, about the whether the waterline on Virginia Avenue is a 2 inch line or a 6 inch line.

Upon inquiry of Councilman Cobb, Mr. Gruber said that 40-50 units could be built on the property under the RS-8 zoning designation. Councilwoman Field also noted that in the Unified

Development Ordinance there are some incentives for building affordable housing that will allow us to increase the density per acre based on the number of affordable units.

Councilman Sellers questioned how close will the I-240 construction come to Virginia Avenue and is the loop to Amboy Road going to take out the Hidden Cove Apartments. Planning & Development Director Scott Shuford said that the I-240 construction has not bee settled and the design has not been set. In fact, we have asked them to look at an alignment there that would move the access roads, in terms of the interchange, a little bit away from this area. However, we do not have an exact alignment, but it will come close.

Councilman Sellers said that he was not comfortable in voting on the land purchase issue with some of the questions raised. He suggested separating that issue from the other three issues (Montford Gateway Project, HOME Rent Assistance and Amendment of the 1997 CDBG grant to Mountain Housing Opportunities) which he was in favor of supporting.

Councilman Cloninger hoped that some of the unresolved issues can be answered so that the City can acquire the property. He felt Council should be specific with the questions they would like to have answered by City staff.

Vice-Mayor Hay has heard the community say that dedicating this site to the creation of affordable housing is a good thing and they favor it. However, they are concerned about what will happen on that property. He noted that there is a long way to go before the City decides what will happen with that property. Some remaining questions are, is the waterline sufficient, is traffic going to be a problem, along with other issues that come up with any development. Until designs and proposals are made and until there has been neighborhood input, City Council will not make any decisions on what will happen to the property. However, the first step is to acquire the property and what is in front of Council today is to take some of some of our federal housing funds and use them to acquire this property and dedicate it to affordable housing. Then we can move forward in designing exactly what we are going to do with it, with neighborhood input. On that basis, he would support the budget amendment to allow the City to purchase the property.

Councilwoman Field agreed with Vice-Mayor Hay, with the caveat that the City Manager be authorized to purchase the property, subject to absolute assurance that the waterline in the area is adequate and that the additional 20-30 units will not have a major impact on Virginia Avenue.

Vice-Mayor Hay agreed that if there is not a 6 inch line in the area and the traffic study shows the additional 20-30 units will increase traffic, then it's inappropriate to build 20-30 units. But, even if there is a 2 inch line, then the City can build what is appropriate for that site, based on what the infrastructure is and what the traffic concerns are and we can get into that as the project is designed.

Councilman Cloninger said then there would be the issue of cost feasibility. If the City is faced with a substantially reduced number of units that can be built, then would the City want to purchase the property for the price that is on the market. He did hope that the City can acquire the property and do a planned unit development, however, he felt some of the questions should be answered before a definite decision is made on acquiring the property.

Councilman Tomes felt that there are two different issues - one is the acquisition of the property and the other is what will be built on the property. Since what will be built on the property (after the unresolved questions have been answered) will have to come back to City Council, then he would be willing to support moving ahead with the acquisition.

Councilman Cobb felt that the unresolved questions should be answered prior to acquiring the property.

Councilman Cloninger suggested that Council vote to set aside $130,000 for the purchase of the land, but not actually close on the purchase of the property, subject to receiving a report from staff that satisfactory responds to the concerns raised by City Council. This way, if it comes to light that it's not feasible to build 20-30 units on the property, the City will not have acquired the property.

City Attorney Oast said that he was not certain of what HUD requirements are, however, he felt City Council could (1) go ahead and approve the entire budgetary request, but not authorize the City Manager to close on the property acquisition until the questions have been answered by a report to City Council; or (2) approve the budgetary amendment, minus the $130,000 for land purchase, and wait until the report from staff on the questions, along with authority for the City Manager to acquire it.

Vice-Mayor Hay said that members of Council have been previously furnished with a copy of the resolution and ordinance and they would not be read.

Councilman Cloninger moved to adopt Resolution No. 99-169, approving amendments to the 1999 Consolidated Action Plan for the HOME and CDBG Programs, with the deletion of $130,000 in CDBG funds for the acquisition of land in West Asheville and pre-development costs for the development of 20-30 single family homes. This motion was seconded by Councilman Sellers and carried unanimously.

Councilwoman Field moved to adopt Ordinance No. 2635, a budget amendment in the amount of $70,000 in CDBG funds for the Montford Gateway Project; $50,000 in HOME funds for HOME Rent Assistance; and the reallocation of $35,000 in the 1997 CDBG grant to Mountain Housing Opportunities. This motion was seconded by Councilman Cloninger and carried unanimously.

ORDINANCE BOOK NO. 18 - PAGE 39

Councilwoman Field moved to adopt Ordinance No. 2636, a budget amendment in the amount of $130,000 from CDBG funds for the acquisition of land in West Asheville and pre-development costs, subject to the City Manager not actually closing on the property pending a report from staff providing City Council with satisfactory answers to concerns raised by City Council about the property and the impact that a project of 20-30 units would have on the surrounding neighborhood. This motion was seconded by Councilman Cloninger and carried on a 4-2 vote with Councilmen Cobb and Sellers voting "no".

ORDINANCE BOOK NO. 18 - PAGE 42

Councilman Cobb felt it would be better to defer action on the land acquisition until all the questions raised by City Council have been satisfactorily answered.

Councilman Cloninger noted that if the questions are not answered to City Council's satisfaction, then the $130,000 will remain in the CDBG budget and appropriated somewhere else.

Councilman Cloninger moved to amend Resolution No. 99-169, to amend the CDBG Action Plan for FY 1999 to appropriate $130,000 in CDBG funds for the acquisition of land in West Asheville and pre-development costs for the development of 20-30 single family homes, provided that authorization for such purchase be considered by City Council following a report by the City Manager which addresses the following issues: (1) verification of waterline size; (2) report from the Traffic Engineer on if the additional 20-30 units will cause a major impact on the service level on Virginia Avenue, including assurance that the City will consider traffic calming devices to address concerns raised by the neighborhood; (3) whether or not the expansion of I-240 would take a piece of the property; (4) adequacy of sewer in the area; and (5) adequacy of water pressure throughout the day, including peak period. This motion was seconded by Councilwoman Field.

Councilwoman Field felt it was important that the City purchase this property and do something with this piece of land, and whether it is exactly what has been described today may not be what happens. However, she doesn't want to purchase the land without knowing that there is adequate water available.

Vice-Mayor Hay again felt the City should proceed with purchasing the property and design something that is appropriate for the area with the current infrastructure. He said he would vote against the motion because he felt these issues will be addressed before the site plan is approved.

Councilman Cobb again stressed that it would be better to defer action on the land acquisition until all the questions raised by City Council have been satisfactorily answered.

The motion made by Councilman Cloninger and seconded by Councilwoman Field failed on a 3-3 vote with Councilwoman Field and Councilmen Cloninger and Tomes voting "yes" and Vice-Mayor Hay and Councilmen Cobb and Sellers voting "no".

Vice-Mayor Hay moved to reconsider the motion made by Councilman Cloninger and seconded by Councilwoman Field. This motion was seconded by Councilman Cloninger and carried on a 4-2 vote, with Councilmen Cobb and Sellers voting "no".

The main motion made by Councilman Cloninger and seconded by Councilwoman Field was reconsidered and carried on a 4-2 vote with Councilmen Cobb and Sellers voting "no".

RESOLUTION BOOK NO. 25 - PAGE 338

D. PUBLIC HEARING TO AMEND THE UNIFIED DEVELOPMENT ORDINANCE TO ALLOW THE PLANNING & DEVELOPMENT DIRECTOR TO APPROVE DEVIATIONS FROM CERTAIN DEVELOPMENT STANDARDS

ORDINANCE NO. 2637 - ORDINANCE TO AMEND THE UNIFIED DEVELOPMENT ORDINANCE TO ALLOW THE PLANNING & DEVELOPMENT DIRECTOR TO APPROVE DEVIATIONS FROM CERTAIN DEVELOPMENT STANDARDS

Vice-Mayor Hay opened the public hearing at 7:52 p.m.

Mr. Gerald Green, Senior Planner, said that this is the consideration of amending the Unified Development Ordinance which would create flexible development standards for setbacks, lot area and dimension, and number of parking spaces and would permit structures which comply with design review standards to be exempt from the setback, height, and building floor area requirements of the underlying zoning district. This public hearing was advertised on October 29 and November 5, 1999.

329

The Planning and Zoning Commission, at their October 6, 1999, meeting, reviewed and recommended approval of an amendment to the Unified Development Ordinance which would establish Section 7-11-7 to create flexible development standards. These standards would, under certain conditions, permit the Planning and Development Director to relax the existing standards for setbacks, lot area and dimensions, and number of parking spaces. In addition, it would permit structures which comply with design review standards to be exempt from the setback, height, and building floor area requirements of the underlying zoning district. The Planning and Development Director could approve the following relaxations in the existing standards if certain conditions are met:

- Reduction in required setbacks up to 10% or 24 inches, whichever is greater;
- Up to a 25% reduction in the required number of parking spaces; and
- Up to a 10% reduction in lot area or dimension.

In addition, structures which have been reviewed by a qualified design review board and found to comply with the applicable design guidelines would be exempt from the setback, height, and building floor area requirements of the underlying zoning district.

The Asheville Planning and Zoning Commission voted 7-0 to recommend approval of the wording amendment. The Planning and Development staff recommends approval of the amendment.

Vice-Mayor Hay closed the public hearing at 7:56 p.m.

Vice-Mayor Hay said that members of Council have previously received a copy of the ordinance and it would not be read.

Councilwoman Field moved for the adoption of Ordinance No. 2637. This motion was seconded by Councilman Tomes and carried unanimously.

ORDINANCE BOOK NO. 18 - PAGE 45

E. PUBLIC HEARING TO AMEND THE UNIFIED DEVELOPMENT ORDINANCE TO ALLOW THE PLANNING & DEVELOPMENT DIRECTOR TO REVIEW AND APPROVE REQUESTS FOR ALTERNATIVE COMPLIANCE TO THE LANDSCAPE REQUIREMENTS

ORDINANCE NO. 2638 - ORDINANCE TO AMEND THE UNIFIED DEVELOPMENT ORDINANCE TO ALLOW THE PLANNING & DEVELOPMENT DIRECTOR TO REVIEW AND APPROVE REQUESTS FOR ALTERNATIVE COMPLIANCE TO THE LANDSCAPE REQUIREMENTS

Vice-Mayor Hay opened the public hearing at 7:56 p.m.

Ms. Stacy Merten, Urban Planner, said this is the consideration of an ordinance to allow the Planning and Development Director to review and approve requests for alternative compliance to the landscape requirements. This public hearing was advertised on October 29 and November 5, 1999.

Currently the Unified Development Ordinance (UDO) requires that any request for alternative compliance to the landscaping requirement of Article 11, must be heard by the Technical Review Committee (TRC). Since the adoption of the UDO, all requests for alternative compliance meeting the criteria have been approved by the TRC based on the recommendation of staff and the representative from the Tree/Greenway Commission. Most of these requests have been for Level I projects which are typically reviewed in 5-10 days. Often these projects are unnecessarily delayed when seeking alternative compliance due to the current process of review by the TRC. Staff discussed this wording amendment with the TRC and all agreed that it would be beneficial to amend the UDO.

Planning & Development staff presented this wording amendment to the Planning & Zoning Commission at their October 6, 1999, work session and meeting. The Commission voted unanimously to recommend to City Council the adoption of this wording amendment.

Vice-Mayor Hay closed the public hearing at 7:58 p.m.

Vice-Mayor Hay said that members of Council have previously received a copy of the ordinance and it would not be read.

Councilwoman Field moved for the adoption of Ordinance No. 2638. This motion was seconded by Councilman Sellers and carried unanimously.

ORDINANCE BOOK NO. 18 - PAGE 49

IV. UNFINISHED BUSINESS:

V. NEW BUSINESS:

VI. OTHER BUSINESS:

A. CLAIMS

The following claims were received by the City of Asheville during the period of October 22-November 4, 1999: Gene Kelly (Traffic Engineering), Donald Ledford (Traffic Engineering), Steve Parten (Civic Center), John H. Whitmire (Streets), Asheville Smoke (Civic Center), Evelyn Bruhn (Water) and Joe Barlow (Sanitation).

These claims have been referred to Asheville Claims Corporation for investigation.

VII. INFORMAL DISCUSSION AND PUBLIC COMMENT:

Pack Place Sign

Ms. Nan Davis and Ms. Julie Brandt, representatives of Re-design the Sign, read a statement to City Council objecting to the sign in front of Pack Place. "We were quite surprised when we found out that the sign ordinances DO NOT allow a sign like the one at Pack Place but that City Council approved a wording amendment that allowed this sign to contradict the regulations that were in place. The City Council, in that amendment, gave Pack Place permission to go beyond the limits that had been set for electronic signs and changed the definition of an electronic sign so that Pack Place could have the frantically active, animated sign it now has. Further the Pack Place Board requested another favor and was granted an encroachment agreement from Public Works so they could put the sign out on the sidewalk, with is public property." They feel that Pack Place is a wonderful asset to our City and they are supportive of the museums and their desire to attract attention to their events. Their objection is that this sign does not belong on the square because it is out of character in scale and materials with Pack Square. They are also concerned about the precedent it sets for other businesses that want and need signage. They feel that guidelines for signage should be a part of the first information every business receives when planning to come into the City and they should know that even though compliance is not mandatory, that Asheville is very serious about keeping the historical and small mountain town feeling in our downtown. Since Pack Square is going to be studied and the future of the square considered, they ask that City Council consider removing the sign. In the Pack Place encroachment agreement there is a provision for removal of the Pack Place sign should it come in conflict with any project or program undertaken by the City. They urged City Council to remove the sign so that this area of Pack Place Square can be a part of the total plans being made for renovating the Square. They suggested moving the sign to another location where it could be useful in announcing either events at Pack Place or events going on throughout the City. Perhaps move the sign to somewhere that businesses would want to pay to advertise on it or perhaps it could be sold to a business where its scale, materials and animated lights would be appropriate.

It was the consensus of City Council that the City Attorney to review the encroachment agreement and report back to City Council at a worksession to know what their options are with regard to this sign.

Closed Session

At 8:12 p.m., Councilman Tomes moved to go into closed session to consult with an attorney employed by the City in order to preserve the attorney-client privilege between the City and its attorney. The parties to the lawsuit about which the Council expects to receive advice are: CC&J Enterprises, City of Asheville, Jackson Park/Woolsey Neighborhood Association - statutory authorization is contained in G. S. 143-318.11 (a) (3). This motion was seconded by Councilwoman Field and carried unanimously.

At 8:40 p.m., Councilman Sellers moved to come out of closed session. This motion was seconded by Councilman Tomes and carried unanimously.

VIII. ADJOURNMENT:

Vice-Mayor Hay adjourned the meeting at 8:40 p.m.

Magdalen Burleson
CITY CLERK

Leni Sitnick
MAYOR

Tuesday - November 16, 1999 - 3:00 p.m.

Worksession

Present: Mayor Leni Sitnick, Presiding; Vice-Mayor Edward C. Hay Jr.; Councilman M. Charles Cloninger; Councilwoman Barbara Field; Councilman Thomas G. Sellers; and Councilman O.T. Tomes; City Attorney Robert W. Oast Jr.; City Manager James L. Westbrook Jr.; and City Clerk Magdalen Burleson

Absent: Councilman H. Earl Cobb

CONSENT:

Demolition of 119 Springside Road

Summary: This is the consideration of an ordinance directing the Director of the Building Safety Department to demolish and remove the structure located at 119 Springside Road.

This structure is located in Central Asheville with an address of 119 Springside Road. Over the years, the Building Safety Department has received numerous complaints from neighboring property owners. The structure is a one-story wooden frame house that has been extensively neglected over the years resulting in substantial deterioration and dilapidation. The Code Enforcement Officer's efforts to eliminate this nuisance has been frustrated by the inability to locate the current owner and a lack of knowledge of the whereabouts of the record owner. After requesting assistance from the Legal staff in the fall of 1999 and receiving same in October of 1999, notice to the Owner was published and a hearing was conducted before the Director Designee on October 21, 1999.

Subsequent to the October 21, 1999, hearing , the Housing Code Coordinator was contacted by the Owner, Nancy E. M. Harmon. Ms. Harmon informed the Housing Code Coordinator that she was in complete agreement that the structure located at 119 Springside Road should be demolished. Ms. Harmon came to the Complaint Notice of Hearing and signed the consent to demolish and wavier of notice. Ms. Harmon stated that she was not financially able to cause the structure to be demolished and removed. Ms Harmon stated that she had no problem with the City immediately proceeding with the demolition of the structure. Ms. Harmon, who is a widow, has executed appropriate forms to allow the City to dispense with all further procedures required by law to protect the interest of the property owners. Ms. Harmon desires for the City to immediately proceed with the demolition and removal of the structure and to place a lien against the property for the cost of the demolition.

General information:

- Fair market value of house is $55,300.00 (disputed).
- Value to rebuild the house only is $87,594.00.
- Land value without the house is $13,100.00.
- Estimated cost to demolish is $4,000.00.

Funds to demolish and remove the structure are available in the Building Safety Department.

The Building Safety Director recommends adoption of an ordinance directing the demolition of 119 Springside Road.

Municipal Agreement for Inspection of Bridges

Summary: The consideration of a resolution authorizing the Mayor to enter into a municipal agreement with the N.C. Department of Transportation (NC DOT) on a bi-annual basis for the reinspection of bridges on the Municipal Street System.

In 1983 the Federal Highway Administration developed the Federal Off-System Bridge Replacement Program. Since the establishment of the program, the City has replaced 17 bridges through the program. The program is funded 80% through federal funds and 20% through City funds and administered by the NC DOT. To remain eligible for replacement funds and avoid penalties, it is required that all public bridges are inspected every two years. The NC DOT offers three options for meeting the bi-annual inspection requirements. One is to do the inspection with City forces; two is for the City to hire a consultant to do the inspections; three is for the City to allow the Department of Transportation to do the inspections through a qualified private engineering firm.

Since 1983, the City has elected to execute an agreement with NC DOT to accomplish the required inspection through their personnel or engineering consultants. This process allows high numbers of bridges to be inspected under one contract or operation, and therefore, results in minimum inspection cost per bridge. NC DOT representatives anticipate the inspection costs to be $2,000 per bridge for the upcoming inspection. The City has 25 bridges in need of inspection this year which would bring the cost to $50,000. The City's share of 20% is $10,000. Funds for the City's share are budgeted in the Public Work's Bridge Maintenance line item.

The Public Works Department staff recommends adoption of the resolution authorizing the Mayor to execute a municipal agreement with the NC DOT for inspection of bridges on the Municipal Street System.

Grant Application to State for Funds to Purchase Van for Transporting Older Adults, etc., to Parks and Recreation Activities

Summary: The consideration of a resolution authorizing the City Manager to apply for and enter into an agreement with the N. C. Department of Health and Human Services to fund the purchase of a 15 passenger van.

Funds are available through the N. C. Department of Health and Human Services in the Human Services Grant Program to benefit older adults, adults with disabilities, at-risk children, and youth and families. The City of Asheville wishes to apply for funding to purchase a 15 passenger van to assist in transporting participants in all four categories to and from recreation program sites.

The lack of transportation is one of the primary barriers that prevent most people in the category groups from benefiting from the services of Asheville Parks and Recreation. The van will be used in conjunction with existing vans and other transportation services to assist in providing transportation to approximately 1180 participants per week from all four categories, a 64% increase over the current level of service. Existing staff holding a current North Carolina license will operate the vehicle.

The grant will provide 100% of the project costs, with no match required by the City of Asheville.

The Parks and Recreation Department recommends the City of Asheville to apply for the grant funds through the N. C. Department of Health and Human Services in the Human Services Grant Program to purchase a 15 passenger van.

Budget Amendment re: Legal Services

Summary: The consideration of a budget amendment to increase appropriated fund balance by $45,000 to cover outside legal counsel expenses including the billboard defense lawsuit.

For Fiscal Year 1999-2000, the Legal Services Division budget for general outside legal counsel was $24,000. There was no separate appropriation established for the billboard lawsuit defense.

During the current fiscal year, the Legal Services Division paid approximately $16,500 to the Charlotte law firm of Horack, Talley, Pharr & Lowndes for billboard lawsuit expenses using funds from its general outside legal counsel budget. In addition, Legal Services has paid approximately $4,031 in general outside legal counsel expenses. Approximately $3,468 remains in the outside legal counsel budget.

Currently there is a payment due in the amount of $19,500 for the billboard defense. The Charlotte law firm anticipates an additional $6,000 in billboard expenses for the remainder of the year. To cover the remaining billboard expenses, Legal Services is requesting an appropriation in the amount of $45,000 from fund balance. The balance left from this appropriation will be used to replenish the general outside counsel budget for the remainder of the year.

City staff recommends City Council appropriate $45,000 from fund balance to cover remaining billboard expenses and the replenish the general outside legal counsel budget.

Mayor Sitnick asked that the record show that City Council has received this information and instructs the City Manager to place these items on the next formal City Council agenda.

REGIONAL WATER AUTHORITY'S SEMI-ANNUAL REPORT

Water Resources Director Tom Frederick summarized the of the activities of the Water Resources Department and the Regional Water Authority for Fiscal Year 1998-99. He reported on several of their programs within the last year, including (1) activities and accomplishments in demand management corresponding to the drought within the past year; (2) update on the Pipeline Replacement Program and the Mills River Water Treatment Plant construction; (3) development of a Critical Needs List for the Water Distribution System; (4) successful award of over $3.5 million in grants for both water distribution system improvements and Mills River watershed protection; (5) performance of the divisions of the Department; and (6) budget highlights from Fiscal Year 1998-99.

The annual report has traditionally served as one of the two semi-annual reports from the Water Authority to the City Council as prescribed by Article IV, Section D of the Water Agreement. A memorandum to City Council is planned in the spring and will serve as the second report.

Mr. Frederick responded to several questions and comments raised by City Council, some being, but are not limited to: why water rates are raised and what that additional revenue is used for, how much of the 21 million gallons per day is coming from the new Mills River Plant, what is the status of the conservation program, will there be funds available in the near future to

Mayor Sitnick asked that the record show that City Council has received this information and instructs the City Manager to place this item on the next formal City Council agenda.

HAW CREEK VOLUNTEER FIRE DEPARTMENT AMENDED AGREEMENT

Fire Chief John Rukavina said that this is the consideration of a resolution authorizing the City Manager to enter into an amended agreement with the Haw Creek Volunteer Fire Department, Inc. for a one-year period.

In 1988, the City of Asheville and the Haw Creek Volunteer Fire Department, Inc. entered into a five-year fire protection agreement in connection with the City's annexation of part of the Haw Creek Fire Department's fire district, pursuant to N.C.G.S. 160A-49.1. In 1991, that contract was amended (again, in connection with an annexation). In December of 1997, the contract was extended for a two-year period; this extension was not required by N.C.G.S. 160A-49.1, but the City Council and Haw Creek's Board of Directors agreed that there were benefits to extending the contract, and providing limited continuing direct payments.

City staff and Haw Creek representatives have been working to negotiate a continuing agreement, because the Haw Creek Volunteer Fire Department depends on continuing City response to the Chunn's Cove area for fire insurance rating (and, thus, fire tax) credits. The recommended contract amendments include this continuing service, but end direct payments to Haw Creek.

The Fire Chief recommends City Council adoption of a resolution authorizing the City Manager to enter into the amended agreement with the Haw Creek Volunteer Fire Department, Inc. for a one-year period.

Mayor Sitnick asked that the record show that City Council has received this information and instructs the City Manager to place this item on the next formal City Council agenda.

ABC INVESTIGATION - 55 SOUTH MARKET STREET

City Attorney Oast said that this is the consideration of a resolution requesting the N.C. Alcoholic Beverage Control Commission to investigate alcohol sales at 55 South Market Street, known as Jones Convenience Store.

In July of this year, the North Carolina General Assembly adopted Session Law 1999-312, amending G.S. 18B-309 of the ABC law. The new law was effective on October 1. The amendment provides that certain types of businesses that hold ABC permits and are located in designated urban redevelopment areas may not have alcoholic beverages sales in excess of 50% of the total annual sales of the business. The types of businesses covered by this provision include retail businesses as defined in G.S. 18B-1000(7), which includes the convenience store at 55 South Market. The new law further provides that the ABC Commission "shall suspend or revoke a permit issued by it if the permitee is in violation of [the new law]."

In order to invoke this investigation or audit by the ABC Commission, the law requires that the City Council of the affected municipality request it.

If Council wishes request an audit of Jones Convenience Store at 55 South Market Street, adoption of the resolution is recommended.

Vice-Mayor Hay was concerned if would be limiting the other kinds of new businesses that might want to relocate in the area. City Attorney Oast said that what the law addresses is establishments that are essentially off-premise types of businesses which the convenience store improve the facility of South Charlotte Street, are discussions underway with the Town of Woodfin, how do our water rates compare with other communities not in North Carolina but of similar size, and what is the percentage of the revenues from residential and non-residential users.

Discussion surrounded the legislation which requires the City pay for the relocation of water lines for NC DOT projects. Mr. Frederick noted that our present obligation this year is $259,000 and next year it is anticipated that the costs will be over $1 Million.

Mr. Frederick said that because of the result of the successful water conservation campaign, based on data they have observed, they do not project that they will realize the revenues in the current year that were assumed when they adopted a $20.6 million budget. They are now projecting their revenues to be just over $19 million this year.

City Manger Westbrook said that the City really needs to sell water. He said that we have had some plant closings in the textile and related industries, as part of a national trend, and they will be replaced with knowledge based industry that will probably use less water.

Councilman Cloninger felt as part of the conservation evaluation, the Water Authority should look again at a rate structure of major water users vs. residential users.

FINANCING PURCHASE OF A FIRE TRUCK AND TRASH CANS

Finance Director Bill Schaefer said that this is the consideration of a resolution authorizing the installment financing of one fire truck and 4,000 trash cans and the associated budget revisions.

The City of Asheville Capital Improvement Budget includes authorization in FY 99/00 for the lease purchase of a pumper fire truck ($195,574.00) and 4,000 trash cans ($163,656.25) which are to be used in conjunction with two specialized auto-reach sanitation trucks in a pilot program.

The Finance Department sought proposals from 31 firms to finance the purchase of the pumper and trash cans. Proposals were received from twelve firms, the best of which was submitted by Crestar Leasing Corporation - - 4.951% interest for ten years (amortization of the trash cans portion will extend over a five-year period while the pumper will extend to ten years).

The proposed resolution authorizes an installment purchase contract between the City of Asheville and Crestar Leasing Corporation for the purchase of the pumper and trash cans and authorizes the City Manager to execute and deliver any and all necessary documents.

Financing for the two auto-reach sanitation trucks in the pilot program, along with a Fire Department severe service vehicle, in the amount of $495,000.00, was awarded to Wachovia Leasing Corp. in December 1998. Proceeds from that financing have been held in escrow pending delivery of the vehicles. Since payment for the vehicles is not made until delivery to and acceptance by the City, the $495,000 remained in fund balance as of the end of FY '99. Due to the delay in delivery, it is now necessary to adopt a FY 1999-2000 budget amendment which appropriates lease purchase proceeds currently held in fund balance in order to complete the purchase of the auto-reach sanitation trucks and the severe service vehicle. Delivery of the vehicles is expected within the next forty-five days.

City staff recommends City Council adopt the resolution authorizing the installment financing of one fire truck and 4,000 trash cans and the associated budget revisions.

is. To the extent that an on-premise establishments were to locate in the redevelopment area and their primary business is dispensing alcoholic beverages, then he didn't think this requirement would affect them. This just applies to certain kinds of retail establishment.

Some discussion occurred about whether the City should request an audit of any business in that small redevelopment area. City Attorney Oast said that he thought the convenience store is the only off-premise establishment in the redevelopment area.

At the request of Councilman Cloninger, City Attorney Oast said that he would find out how many ABC permits have been issued in that redevelopment area.

Mayor Sitnick asked that the record show that City Council has received this information and instructs the City Manager to place this item on the next formal City Council agenda.

REPORTS ON BOARDS & COMMISSIONS

Vice-Mayor Hay gave an update on the vacancies on the Downtown Commission, the Board of Adjustment and the Transit Commission.

Councilwoman Field requested to be the liaison to the newly created Public Art Board.

OTHER ITEMS

Mayor Sitnick stated that City Council is dedicated and committed to finding remedies for the aging Civic Center. She felt that we should reach out to all who use the Civic Center, including Buncombe County, tourists, regional visitors, etc. to help pay for the costs to fix the Civic Center and not rely on the Asheville taxpayers to pay for it all. She urged the fans to continue their energetic support of the Asheville Smoke team and the management of Asheville Smoke.

Vice-Mayor Hay stressed the serious need to proceed with plans regarding the Civic Center. A feasibility report with regard to the Civic Center should be forthcoming to City Council in the very near future.

Councilwoman Field asked for an estimate and breakdown of costs on what the total would be to fix the Civic Center. She asked that this information be discussed at the upcoming City Council Retreat.

ADJOURNMENT

Mayor Sitnick adjourned the meeting at 4:58 p.m.

Magdalen Burleson

Vice-Mayor Hay gave the invocation.

I. PROCLAMATIONS:

II. CONSENT:

A. APPROVAL OF THE MINUTES OF THE REGULAR MEETING HELD ON NOVEMBER 9, 1999, AND THE WORKSESSION HELD ON NOVEMBER 16, 1999

B. RESOLUTION NO. 99-170 - RESOLUTION AUTHORIZING THE MAYOR TO EXECUTE A MUNICIPAL AGREEMENT WITH THE N.C. DEPT. OF TRANSPORTATION FOR INSPECTION OF BRIDGES

Summary: The consideration of a resolution authorizing the Mayor to enter into a municipal agreement with the N.C. Department of Transportation (NC DOT) on a bi-annual basis for the reinspection of bridges on the Municipal Street System.

In 1983 the Federal Highway Administration developed the Federal Off-System Bridge Replacement Program. Since the establishment of the program, the City has replaced 17 bridges through the program. The program is funded 80% through federal funds and 20% through City funds and administered by the NC DOT. To remain eligible for replacement funds and avoid penalties, it is required that all public bridges are inspected every two years. The NC DOT offers three options for meeting the bi-annual inspection requirements. One is to do the inspection with City forces; two is for the City to hire a consultant to do the inspections; three is for the City to allow the Department of Transportation to do the inspections through a qualified private engineering firm.

Since 1983, the City has elected to execute an agreement with NC DOT to accomplish the required inspection through their personnel or engineering consultants. This process allows high numbers of bridges to be inspected under one contract or operation, and therefore, results in minimum inspection cost per bridge. NC DOT representatives anticipate the inspection costs to be $2,000 per bridge for the upcoming inspection. The City has 25 bridges in need of inspection this year which would bring the cost to $50,000. The City's share of 20% is $10,000. Funds for the City's share are budgeted in the Public Work's Bridge Maintenance line item.

The Public Works Department staff recommends adoption of the resolution authorizing the Mayor to execute a municipal agreement with the NC DOT for inspection of bridges on the Municipal Street System.

E. ORDINANCE NO. 2639 - ORDINANCE TO DEMOLISH 119 SPRINGSIDE ROAD

Summary: This is the consideration of an ordinance directing the Director of the Building Safety Department to demolish and remove the structure located at 119 Springside Road.

This structure is located in Central Asheville with an address of 119 Springside Road. Over the years, the Building Safety Department has received numerous complaints from neighboring property owners. The structure is a one-story wooden frame house that has been extensively neglected over the years resulting in substantial deterioration and dilapidation. The Code Enforcement Officer's efforts to eliminate this nuisance has been frustrated by the inability to locate the current owner and a lack of knowledge of the whereabouts of the record owner. After requesting assistance from the Legal staff in the fall of 1999 and receiving same in October of 1999, notice to the Owner was published and a hearing was conducted before the Director Designee on October 21, 1999.

Subsequent to the October 21, 1999, hearing , the Housing Code Coordinator was contacted by the Owner, Nancy E. M. Harmon. Ms. Harmon informed the Housing Code Coordinator that she was in complete agreement that the structure located at 119 Springside Road should be demolished. Ms. Harmon came to the Complaint Notice of Hearing and signed the consent to demolish and wavier of notice. Ms. Harmon stated that she was not financially able to cause the structure to be demolished and removed. Ms Harmon stated that she had no problem with the City immediately proceeding with the demolition of the structure. Ms. Harmon, who is a widow, has executed appropriate forms to allow the City to dispense with all further procedures required by law to protect the interest of the property owners. Ms. Harmon desires for the City to immediately proceed with the demolition and removal of the structure and to place a lien against the property for the cost of the demolition.

General information:

- Fair market value of house is $55,300.00 (disputed).
- Value to rebuild the house only is $87,594.00.
- Land value without the house is $13,100.00.
- Estimated cost to demolish is $4,000.00.

Funds to demolish and remove the structure are available in the Building Safety Department.

The Building Safety Director recommends adoption of an ordinance directing the demolition of 119 Springside Road.

G. RESOLUTION NO. 99-174 - RESOLUTION AUTHORIZING AN INSTALLMENT PURCHASE CONTRACT BETWEEN CRESTAR LEASING CORPORATION AND THE CITY OF ASHEVILLE TO FINANCE THE ACQUISITION OF A FIRE TRUCK AND 4,000 TRASH CANS

Summary: The consideration of a resolution authorizing the installment financing of one fire truck and 4,000 trash cans and the associated budget revisions.

The City of Asheville Capital Improvement Budget includes authorization in FY 99/00 for the lease purchase of a pumper fire truck ($195,574.00) and 4,000 trash cans ($163,656.25) which are to be used in conjunction with two specialized auto-reach sanitation trucks in a pilot program.

The Finance Department sought proposals from 31 firms to finance the purchase of the pumper and trash cans. Proposals were received from twelve firms, the best of which was submitted by Crestar Leasing Corporation - - 4.951% interest for ten years (amortization of the trash cans portion will extend over a five-year period while the pumper will extend to ten years).

The proposed resolution authorizes an installment purchase contract between the City of Asheville and Crestar Leasing Corporation for the purchase of the pumper and trash cans and authorizes the City Manager to execute and deliver any and all necessary documents.

Financing for the two auto-reach sanitation trucks in the pilot program, along with a Fire Department severe service vehicle, in the amount of $495,000.00, was awarded to Wachovia Leasing Corp. in December 1998. Proceeds from that financing have been held in escrow pending delivery of the vehicles. Since payment for the vehicles is not made until delivery to and acceptance by the City, the $495,000 remained in fund balance as of the end of FY '99. Due to the delay in delivery, it is now necessary to adopt a FY 1999-2000 budget amendment which appropriates lease purchase proceeds currently held in fund balance in order to complete the purchase of the auto-reach sanitation trucks and the severe service vehicle. Delivery of the vehicles is expected within the next forty-five days.

City staff recommends City Council adopt the resolution authorizing the installment financing of one fire truck and 4,000 trash cans and the associated budget revisions.

J. ORDINANCE NO. 2642 - BUDGET AMENDMENT TO AUTHORIZE DISBURSEMENT OF PROCEEDS OF DECEMBER 29, 1998, INSTALLMENT PURCHASE CONTRACT

Summary: See Consent Agenda Item "G" above.

ORDINANCE BOOK NO. 18 - PAGE 61

K. ORDINANCE NO. 2643 - BUDGET AMENDMENT TO COVER OUTSIDE LEGAL COUNSEL EXPENSES INCLUDING THE BILLBOARD DEFENSE LAWSUIT

Summary: The consideration of a budget amendment to increase appropriated fund balance by $45,000 to cover outside legal counsel expenses including the billboard defense lawsuit.

For Fiscal Year 1999-2000, the Legal Services Division budget for general outside legal counsel was $24,000. There was no separate appropriation established for the billboard lawsuit defense.

During the current fiscal year, the Legal Services Division paid approximately $16,500 to the Charlotte law firm of Horack, Talley, Pharr & Lowndes for billboard lawsuit expenses using funds from its general outside legal counsel budget. In addition, Legal Services has paid approximately $4,031 in general outside legal counsel expenses. Approximately $3,468 remains in the outside legal counsel budget.

Currently there is a payment due in the amount of $19,500 for the billboard defense. The Charlotte law firm anticipates an additional $6,000 in billboard expenses for the remainder of the year. To cover the remaining billboard expenses, Legal Services is requesting an appropriation in the amount of $45,000 from fund balance. The balance left from this appropriation will be used to replenish the general outside counsel budget for the remainder of the year.

City staff recommends City Council appropriate $45,000 from fund balance to cover remaining billboard expenses and the replenish the general outside legal counsel budget.

ORDINANCE BOOK NO. 18 - PAGE 63

Mayor Sitnick said that members of Council have been previously furnished with a copy of the resolutions and ordinances and the Consent Agenda and they would not be read.

Councilman Tomes moved for the adoption of the Consent Agenda. This motion was seconded by Councilwoman Field and carried unanimously.

III. PUBLIC HEARINGS:

A. PUBLIC HEARING TO CONSIDER A CONDITIONAL USE PERMIT FOR A TELECOMMUNICATIONS TOWER AT 200 TUNNEL ROAD

Mayor Sitnick said that this public hearing was opened on September 28, 1999, and continued until this date.

On September 28, 1999, City Council considered the request for a Conditional Use Permit for a new telecommunications tower at 200 Tunnel Road (Kenilworth Knoll Drive behind Asheville Assisted Housing), and the matter was continued until November 23, 1999, in order to provide additional time for City Council to review the information.

Since the date of the first hearing, staff engaged a consultant to aid in the review of the application. The consultant is Paul Rosa of Digital Landscapes. The consultant's fees will be paid by the applicant, American Tower Corporation, as provided in the Unified Development Ordinance (UDO).

The consultant recommended that City staff require the applicant to conduct a crane or balloon test at the site to simulate the height of the tower as provided in the UDO. Planning staff concurred and sent a letter to American Tower requesting the balloon test.

The balloon test requires advance notice of property owners and could not be conducted prior to the November 23rd public hearing on this matter. For this reason, American Tower has requested a one-month continuance of the public hearing.

As requested by American Tower, a continuance will allow American Tower to conduct the balloon test, and further investigate the possibility of co-locating on the existing BellSouth tower located at the Sports Club of Asheville. A continuance will also allow the City's consultant, Paul Rosa, additional time to review the application.

City staff recommends that City Council continue the public hearing on this matter until December 21, 1999.

Councilwoman Field moved to continue the public hearing until December 21, 1999. This motion was seconded by Councilman Tomes and carried unanimously.

IV. UNFINISHED BUSINESS:

A. REPORT REGARDING PURCHASE OF LAND AT BROTHERTON AND VIRGINIA AVENUES

RESOLUTION NO. 99-175 - RESOLUTION AUTHORIZING THE CITY MANAGER TO PROCEED WITH THE PURCHASE OF THE 7.3 ACRE TRACK OF LAND AT THE INTERSECTION OF BROTHERTON AND VIRGINIA AVENUES FROM THE HOUSING AUTHORITY OF THE CITY OF ASHEVILLE

Planning & Development Director Scott Shuford said this is additional information on the issues raised at the November 9, 1999, public hearing regarding City Council's consideration of the purchase of land at Brotherton and Virginia Avenues.

At the November 9 meeting, City Council requested follow-up on four questions in advance of authorizing purchase of a 7.3 acre site from the Housing Authority for the appraised value of $120,000. Planning staff has notified surrounding property owners regarding Council's continued consideration of this matter on November 23, as well as all those who have spoken or participated in public meetings on this proposal. On November 22, the Planning staff met with representatives of the neighborhood to share these findings with them in advance of the Council meeting.

1. **What size water main serves the site and does it provide adequate water pressure and fire flow for future site development?**

City staff exposed the water main on Brotherton Avenue at both ends of the street; at both locations it measured six inches in diameter. Additionally, a pressure check and flow test were performed on November 15 at 8:04 p.m. indicating water pressure in this line at 160 psi and fire flow at 520 gallons per minute with a residual pressure of 20 psi or greater. This is consistent with the previous tests. The water pressure is high enough that residential plumbing should be equipped with a pressure reducing valve; both the water pressure and the fire flow are sufficient for the proposed single family or town house construction.

If a community center or common house is included in the site design, it would require either a fire flow of 1000 gallons per minute or a supplementary fire suppression system for that building alone, e.g. sprinklers.

2. **Is sewer service adequate for future site development?**

MSD has responded orally that allocation of wastewater service would be conditional on the replacement of 600-700 feet of six-inch clay piping by a larger plastic pipe, starting from the manhole in the ravine on the east side of the property. The cost would be $30,000-40,000 to be shared between MSD and the site developer.

3. **What effect will the proposed I-240 widening have on this property?**

Under the most invasive scenario, a small corner of the property (which is proposed to remain undeveloped under any conceptual development plan) would be taken (with appropriate compensation) to accommodate a free-flow interchange with Amboy Road. Over a month ago, City staff asked the N. C. Dept. of Transportation (NC DOT) to examine another, less expensive and less land-intensive alternative design that will allow the site to remain untouched. The NC DOT has asked its design consultant to study this alternative.

By use of a map, Mr. Shuford illustrated the options. He noted that in neither case will development of the property, as we have proposed, be precluded.

4. **What is the traffic impact of the proposed development and will it significantly impact service levels on Virginia Avenue and surrounding roadways?**

Traffic counts performed on November 12-15, 1999, show that Virginia Avenue carries up to 1700 vehicles a day near the intersection with Haywood Road, at an average speed of about 26 mph. Single family development generates around ten one-way trips (or five round-trips) per day per unit. If developed to its maximum zoned density of 58 single family units, roughly 600 additional one-way trips per day would be generated from the property. Under development concepts being entertained by the City, no more than 30 units would be constructed, accounting for not more than 300 one-way trips per day. Both the existing and likely future traffic levels are within the physical capacity of the street, although any traffic increase would have an impact on the "livability" of the street.

Additionally, Virginia is a candidate for traffic calming analysis, although its traffic volume, speeds, and other characteristics would likely not put it as a high priority for the list of traffic calming projects to be undertaken by the City.

In addition to the above four questions posed by Council, staff felt it appropriate to address two more issues that have been raised by the public.

5. **Why have other providers of affordable housing not shown an interest in this site?**

First, the site was not offered to other providers: The Housing Authority approached the City first. Second, the site is not ideally situated for low income rental housing - a primary focus of many of the local providers - due to its distance from public transportation and other services used by low income persons (please note: our proposal is for housing primarily for moderate income home-buyers). Third, the site's limited street frontage requires infrastructure improvements or alternative site design that differs from the standard product offered by providers of single family housing. Fourth, each provider has its own priorities and work program; they are not easily able to acquire and "bank" sites for future development. Fifth, there have been technical development questions about this property that have not been answered until now.

6. **What are the plans for developing this site?**

Our plans are for a moderate income, single-family, ownership development. We have suggested a co-housing type development as it offers an opportunity to minimize infrastructure costs, preserve more of the existing tree canopy, and create a site design pattern that promotes community involvement, but a more traditional development pattern can be considered as well. By use of a map, Mr. Shuford illustrated how the site could be built under a traditional subdivision pattern as well as how a co-housing project could fit on the site. He noted that these are only conceptual sketches, not proposed site plans. He said that the City intends to develop the site in partnership with a non-profit or for-profit developer and an association of prospective homebuyers.

In summary, Planning and Development staff feels the Brotherton site offers an excellent opportunity to address an affordable housing need in a neighborhood that has expressed a willingness to accept such a project if technical concerns were met. The Planning staff does believe those technical issues have been addressed in this report.

Staff recommends that the City Manager be authorized to proceed with the purchase of the site at the price of $120,000.

Upon inquiry of Mayor Sitnick, Mr. Shuford confirmed that City Council is only voting on the purchase of the property at this time. He said that City Council will have future opportunities to have input, as will the community, in the ultimate development pattern of the property.

Upon inquiry of Vice-Mayor Hay, Community Development Director Charlotte Caplan said that once the City purchases the land, then the City can go out and seek a development partner and start recruiting potential homeowners. She noted that this is consistent with the Housing Action Plan.

Upon inquiry of Councilman Cobb, Ms. Caplan said that if the City partners with a for-profit, the City would require that the value of the road, sewer, etc. improvements be passed onto the home-buyer, probably in the form of a no-cost or low-cost second mortgage. The developer would take a profit solely on the construction of the houses.

Mr. Richard Nantelle hoped that City Council would take the initiative to alleviate the speeding problems on Virginia Avenue.

Mr. William Cogburn, retired firefighter and area resident, noted that it doesn't matter what size the waterline is in the area, but how much water can get through the line. He felt that co-housing is not a good use for the area. He hoped that the Council would not authorize a big building on the property with the water supply being what it is. He said that he would welcome some individual homes, but the area will require some improvements.

Ms. Beth Maczka, representing the Affordable Housing Coalition, encouraged City Council to vote in favor of the purchase of this land and asked that as Council is faced with this challenge in the future to continue to not let the infrastructure be a problem. She hoped Council would do all that they can to encourage the Water Authority and MSD to make the infrastructure work so that these concerns can be addressed.

Mr. Scott Dedman, Executive Director of Mountain Housing Opportunities, spoke to the issue of the appropriateness of the site for residential development and for moderate income housing.

Ms. Charlotte Caplan responded to a concern from Ms. Lila Rentis, 32 Virginia Avenue, about the affordability of the houses. She explained that there are many ways to structure such a development so as to ensure affordability. The price that a low or moderate income person pays for a home in terms of what they have to get a mortgage for and the value of the home can be different.

At the request of Councilwoman Field, Ms. Caplan explained the HUD definition of low and moderate income.

Vice-Mayor Hay was encouraged on how the neighborhood and City staff worked together on the issues raised.

Councilwoman Field felt that it was important that the City proceed with this project, but more important that the City work together with the community to come up with a plan acceptable to that community.

Councilman Cobb noted that he voted against the purchase of the land at the November 9 meeting because of the unanswered questions. However, after hearing the responses by Mr. Shuford, he felt it would be a good chance for home-owners to purchase affordable housing.

Councilwoman Field moved to adopt Resolution No. 99-175 which authorizes the City Manager to proceed with the purchase of the 7.3 acre tract of land at the intersection of Brotherton and Virginia Avenues from the Housing Authority of the City of Asheville and to execute any documents necessary to effectuate this purchase, subject to budgetary limitations. This motion was seconded by Councilman Tomes and carried unanimously.

RESOLUTION BOOK NO. 25 - PAGE 346

V. NEW BUSINESS:

A. RESOLUTION REQUESTING THE NORTH CAROLINA ABC COMMISSION TO AUDIT THE ALCOHOL SALES PERCENTAGE OF JONES CONVENIENCE STORE AT 55 SOUTH MARKET STREET

City Attorney Oast said that this is the consideration of a resolution requesting the N.C. Alcoholic Beverage Control Commission to investigate alcohol sales at 55 South Market Street, known as Jones Convenience Store.

In July of this year, the North Carolina General Assembly adopted Session Law 1999-312, amending G.S. 18B-309 of the ABC law. The new law was effective on October 1. The amendment provides that certain types of businesses that hold ABC permits and are located in designated urban redevelopment areas may not have alcoholic beverages sales in excess of 50% of the total annual sales of the business. The types of businesses covered by this provision include retail businesses as defined in G.S. 18B-1000(7), which includes the convenience store at 55 South Market. The new law further provides that the ABC Commission "shall suspend or revoke a permit issued by it if the permitee is in violation of [the new law]."

In order to invoke this investigation or audit by the ABC Commission, the law requires that the City Council of the affected municipality request it.

If Council wishes request an audit of Jones Convenience Store at 55 South Market Street, adoption of the resolution is recommended.

At the request of Councilwoman Field, City Attorney Oast gave a brief history of the concerns associated with this property.

Mr. John Hayes felt that since the City has a commitment for economic empowerment, then City staff should meet with Mr. Jones, along with others, and find a way to let him continue his business and do what is necessary so that he can be a part of the economic growth in this area.

Mr. Samuel Camp felt that the City is singling out Mr. Jones for the audit. He agreed with Mr. Hayes in that the City should sit down and talk with Mr. Jones and perhaps see if the City can purchase his property.

City Attorney Oast said that the requirement applies whether the City asks for an audit or not. If the business is in a redevelopment area and it is an ABC permitted convenience store, then you have to have non-alcoholic sales volume of at least 50%. We are only asking for that to be audited. He said that the City is not trying to put anyone out of business, we are only asking for the ABC Commission, which is the governmental body charged with administering the ABC laws, to make sure they are complied with. He did note that it can result in revocation of the permit.

Councilman Tomes said that since he is a firm believer of collaborative partnerships, and since there seems to be a willingness to try to create that kind of positive dialogue with Mr. Hayes, Mr. Camp, Mr. Jones and City staff, then he would be amenable to letting that dialogue take place with hopefully some positive results.

City Attorney Oast noted that there is no deadline for asking for the audit and that City Council can ask for the audit anytime. He did note that there is a pending contested case proceeding initiated by the ABC Commission to suspend or revoke the ABC permits of the convenience store and that will be heard by the ABC Commission on December 3.

Councilman Tomes asked how would the December 3 hearing by the ABC Commission impact the recommendation before City Council. City Attorney Oast responded that the December 3 hearing could also result in the suspension or revocation of the ABC permits. He said that it is for a different type of alleged violation, having to do with the suitability of the neighborhood.

When Councilman Cloninger suggested that City Council wait to see what happens at the December 3 hearing, City Attorney Oast said that we would know the outcome of that hearing by the first of the year.

City Attorney Oast said that his office and the Community Development office are willing to work with Mr. Jones or anyone who wants to be part of the recovery in the area.

Vice-Mayor Hay said that the City has been struggling with this for several years with the urging of the police and the urging of the other stakeholders down in the Eagle/Market Street area. He said that if Mr. Hayes and Mr. Camp think there is an opportunity to resolve some issues, then he suggests they sit down and get working with Mr. Jones and the City Attorney. He said now is the time to make something happen because the City hasn't been able to.

Councilwoman Field noted that there has been several attempts to work with members of the community, other non-profits and other organizations to purchase the property. However, if the City is involved, they cannot pay more than the appraised value and it is her understanding that the amount of money that has been asked for by Mr. Jones is considerably higher than the appraised value.

Councilman Tomes moved to table this matter pending the outcome of the December 3 ruling. This motion was seconded by Councilman Cobb and carried unanimously.

B. RESOLUTION NO. 99-176 - RESOLUTION APPOINTING A MEMBER TO THE ALCOHOLIC BEVERAGE CONTROL BOARD

Vice-Mayor Morris said that the term of Ralph Morris, as a member on the ABC Board, expired on November 13, 1999. This resolution will reappoint Mr. Morris to serve an additional three year term, term to expire November 13, 2002, or until his successor has been appointed.

Councilman Cloninger moved for the adoption of Resolution No. 99-176. This motion was seconded by Councilman Tomes and carried unanimously.

RESOLUTION BOOK NO. 25 - PAGE 347

C. RESOLUTION NO. 99-177 - RESOLUTION APPOINTING MEMBERS TO THE BOARD OF ADJUSTMENT

Vice-Mayor Hay said that the terms of Darryl Hart (Regular), David Young (Regular), Chris Goodwin (Alternate) and Burt Stanford (Alternate) on the Board of Adjustment expire on January 21, 2000. Also, Rose Rose has resigned as an Alternate, thus leaving an unexpired term until January 21, 2001.

On November 3, 1999, it was City Council's intent to reappoint Mr. Hart as a Regular member to serve an additional three year term, term to expire on January 21, 2003.

On November 4, 1999, David Young contacted the City Clerk and advised her that he is interested in reappointment to the Regular position if City Council wished him to continue serving.

On November 9, 1998, City Council interviewed Chris Goodwin (current City Alternate) for a position as a Regular member. Patricia Grant and Joe Brady (current City Alternates) and Anne Campbell were all interested in appointment to a Regular position; however, they were unable to come in for an interview. Richard Fort (current County Alternate) has also expressed interest in appointment to a Regular position.

All new appointments will begin their term on January 22, 2000, and end their term on January 21, 2003, or until their successor have been appointed.

Councilman Cloninger moved to reappoint Darryl Hart as a Regular member to serve an additional three year term, term to expire January 21, 2003. This motion was seconded by Councilwoman Field and carried unanimously.

Councilwoman Field nominated David Young for reappointment as a Regular member.

Councilman Cloninger nominated Chris Goodwin as a Regular member.

After Vice-Mayor Hay asked if anyone in the audience would like to comment on this matter and hearing none, each Council member voted: David Young received 5 votes and Chris Goodwin received 2 votes. Therefore, David Young was reappointed as a Regular member to serve an additional three year term, term to expire January 21, 2003.

Councilman Cloninger moved to reappoint Chris Goodwin as an Alternate member to serve an additional three year term, term to expire January 21, 2003. This motion was seconded by Councilman Tomes and carried unanimously.

The City Clerk was instructed to re-advertise for the two Alternate positions in the next quarterly appointment process.

RESOLUTION BOOK NO. 25 - PAGE 348

D. RESOLUTION NO. 99-178 - RESOLUTION APPOINTING MEMBERS TO THE ASHEVILLE-BUNCOMBE COMMUNITY RELATIONS COUNCIL

Vice-Mayor Hay said that the terms of Kathryn Liss and Cynthia Janes expire on December 31, 1999. This resolution will reappoint Ms. Liss and Dr. Janes to each serve an additional three year term, terms to expire December 31, 2002, or until their successors have been appointed.

Mayor Sitnick moved for the adoption of Resolution No. 99-178. This motion was seconded by Councilwoman Field and carried unanimously.

RESOLUTION BOOK NO. 25 - PAGE 349

E. RESOLUTION NO. 99-179 - RESOLUTION APPOINTING MEMBERS TO THE ASHEVILLE DOWNTOWN COMMISSION

Vice-Mayor Hay said that the terms of Brenda Sconyers, Jim Samsel and Garry Moffitt, as members on the Asheville Downtown Commission, expire on December 31, 1999.

On November 3, 1999, Vice-Mayor Hay was asked to contact Ms. Sconyers to verify that she was still interested in serving. If Ms. Sconyers' was interested in remaining on the Commission, the City Clerk was to arrange for interviews for Chuck Pickering, William Byrne and Kim MacQueen.

Councilwoman Field noted that Vice-Mayor Hay was unable to contact Ms. Sconyers to confirm her interest in reappointment. However, Ms. Sconyers no longer lives, works or owns property in the downtown area.

Councilwoman Field moved to appoint Chuck Pickering, William Byrne and Kim MacQueen to each serve a three year term. Their terms will begin on January 1, 2000, and expire on December 31, 2002, or until their successors have been appointed. This motion was seconded by Councilman Tomes and carried unanimously.

RESOLUTION BOOK NO. 25 - PAGE 350

F. RESOLUTION NO. 99-180 - RESOLUTION APPOINTING A MEMBER TO THE FIREMEN'S RELIEF FUND

Vice-Mayor Hay said that the term of Bill Schaefer, as a member of the Firemen's Relief Fund, expires on January 1, 2000. This resolution will reappoint Mr. Schaefer to serve an additional two year term, term to expire January 1, 2002, or until his successor has been appointed.

Councilman Cloninger moved for the adoption of Resolution No. 99-180. This motion was seconded by Councilman Tomes and carried unanimously.

RESOLUTION BOOK NO. 25 - PAGE 351

G. RESOLUTION NO. 99-181 - RESOLUTION APPOINTING MEMBERS TO THE GREENWAY COMMISSION

Vice-Mayor Hay said that on September 28, 1999, Ordinance No. 2621 was adopted separating the Tree/Greenway Commission into the Tree Commission and the Greenway Commission and defining their individual powers and duties.

Pursuant to City Council's request on November 3, 1999, this resolution will appoint Gerry Hardesty, Bruce Mulkey, John R. Tate and Casey Carmichael to the Greenway Commission.

On November 9, 1999, City Council interviewed Philip Cusick and Pauline Kaltsunis.

It was the consensus of City Council to (1) appoint Gerry Hardesty, Bruce Mulkey, and John R. Tate to each serve a three year term respectively, terms to expire December 31, 2002; (2) appoint Casey Carmichael and Pauline Kaltsunis to each serve a two year term respectively, terms to expire December 31, 2001; and (3) appoint Philip Cusick to serve a one year term, term to expire December 31, 2000. All terms will be until their successors have been appointed.

The City Clerk was instructed to re-advertise in the next quarterly appointment process the one additional vacancy on the Greenway Commission.

RESOLUTION BOOK NO. 25 - PAGE 352

H. RESOLUTION NO. 99-182 - RESOLUTION APPOINTING A MEMBER TO THE METROPOLITAN SEWERAGE DISTRICT BOARD OF DIRECTORS

Vice-Mayor Hay said that the term of S. Douglas Spell expires on January 19, 2000. This resolution will reappoint Mr. Spell to serve a three year term, term to expire January 19, 2003, or until his successor has been appointed.

Mayor Sitnick moved for the adoption of Resolution No. 99-182. This motion was seconded by Councilwoman Field and carried unanimously.

RESOLUTION BOOK NO. 25 - PAGE 353

I. RESOLUTION NO. 99-186 - RESOLUTION APPOINTING MEMBERS TO THE PUBLIC ART BOARD

Vice-Mayor Hay said that on September 14, 1999, Ordinance No. 2609 established a Public Art Board to consist of seven members appointed by City Council.

On November 3, 1999, City Council instructed the City Clerk to prepare the proper paperwork to appoint Carol Pennell, S. Tucker Cooke, Judith Barber, Ellen Rickman Judy Swan, Pamela Myers and Caroline Mason to the Public Art Board.

It was the consensus of City Council to appoint Carol Pennell, S. Tucker Cooke, Judith Barber and Ellen Rickman to each serve a four year term, terms to begin immediately and expire on December 31, 2003, or until their successors have been appointed; and (2) appoint Judy Swan, Pamela Myers and Caroline Mason to each serve a two year term, terms to begin immediately and expire on December 31, 2001, or until their successors have been appointed.

RESOLUTION BOOK NO. 25 - PAGE 357

J. RESOLUTION NO. 99-187 - RESOLUTION APPOINTING MEMBERS TO THE TRANSIT COMMISSION

Vice-Mayor Hay said that the term of Jim McCulley expires on December 31, 1999. Tom Tomlin's term expires after the new Transit Facility becomes operational and when City Council appoints his replacement.

On November 3, 1999, the City Clerk was instructed to prepare the proper paperwork to reappoint Mr. McCulley, subject to Vice-Mayor Hay confirming with Mr. McCulley that he is interested in serving. However, Vice-Mayor Hay was unable to reach Mr. McCulley and therefore, suggested that the City Clerk contact Mr. McCulley and advise him that when his health improves that he contact her and let her know which Board he would be interested in serving on.

On November 9, 1999, City Council interviewed Claudia Nix and Pauline Kaltsunis.

It was the consensus of City Council to appoint Claudia Nix, as a member of the Transit Commission, to serve a two year term, term to expire December 31, 2001, or until her successor has been appointed.

Councilman Sellers moved to retain Mr. Tomlin on the Transit Commission until his term expires on December 31, 2000. This motion was seconded by Councilman Cloninger and carried unanimously.

RESOLUTION BOOK NO. 25 - PAGE 358

K. RESOLUTION NO. 99-188 - RESOLUTION APPOINTING MEMBERS TO THE TREE COMMISSION

Vice-Mayor Hay said that on September 28, 1999, Ordinance No. 2621 was adopted separating the Tree/Greenway Commission into the Tree Commission and the Greenway Commission and defining their individual powers and duties.

On November 3, 1999, City Council instructed the City Clerk to prepare the proper paperwork to appoint Kasty Latven, Peter Gentling, Sofia Mannos and Margaret Tinkler to the

Tree Commission. Said term dates will be determined after the seven member board has been appointed, with board members being notified of term dates by the City Clerk.

On November 9, 1999, City Council interviewed Philip Cusick, Pauline Kaltsunis and Monty Wooten.

It was the consensus of City Council to (1) appoint Kasty Latven, Peter Gentling and Sofia Mannos to each serve a three year term respectively, terms to expire December 31, 2002; (2) appoint Margaret Tinkler and Ginger Mahler to each serve a two year term respectively, terms to expire December 31, 2001; and (3) appoint Monty Wooten to serve a one year term, term to expire December 31, 2000. All terms will be until their successors have been appointed.

The City Clerk was instructed to re-advertise in the next quarterly appointment process the one additional vacancy on the Tree Commission.

RESOLUTION BOOK NO. 25 - PAGE 359

VI. OTHER BUSINESS:

A. CLAIMS

The following claims were received by the City of Asheville during the period of November 5-18, 1999: Ricky Reeves (Water), Keith Gretzy (Civic Center), Phyllis Whitlow (Streets), Amy Young (Police) and Tim Moore (Water).

These claims have been referred to Asheville Claims Corporation for investigation.

B. LAWSUIT

The City received a Petition for Writ of Certiorari on November 1, 1999, which is generally described as follows: Budget Motel, Inc., v. Zoning Board of Adjustment of the City of Asheville. The nature of the proceeding is seeking reversal of decision to deny sign variance requests.

This matter will be handled in-house. Further investigation may result in a referral outside the office.

C. PRIMARY ELECTION RESULTS - CITY OF ASHEVILLE - OCTOBER 5, 1999

GENERAL ELECTION RESULTS - CITY OF ASHEVILLE, NOVEMBER 2, 1999

Attached hereto as Exhibit "A" is the abstract containing the number of legal votes cast in the Primary Election, City of Asheville, held on October 5, 1999. Also attached as Exhibit "B" is the abstract containing the number of legal votes cast in the General Election, City of Asheville, held on November 2, 1999.

VII. INFORMAL DISCUSSION AND PUBLIC COMMENT:

VIII. ADJOURNMENT:

Mayor Sitnick adjourned the meeting at 6:32 p.m.

Magdalen Burleson
CITY CLERK

Tuesday - November 30, 1999
West Asheville Community Center
970 Haywood Road

7:00 p.m. - Community Meeting

Present: Mayor Leni Sitnick, Presiding: Councilman M. Charles Cloninger; Councilman Earl Cobb; Councilwoman Barbara Field; Councilman Thomas G. Sellers; and Councilman O.T. Tomes; City Attorney Robert W. Oast Jr.; City Manager James L. Westbrook Jr.; and City Clerk Magdalen Burleson

Absent: Vice-Mayor Edward C. Hay Jr. (arrived at 8:38 p.m.)

The following topics were raised by residents and addressed by City Council and City staff: concerns expressed about proposed I-26 connector and suggestions of alternate routes; need for speed abatement on Vermont, Haywood Road, Virginia Avenue and Brevard Road; request for City Council to write a letter to NC DOT asking them to revisit the entire design process for the I-26 connector; request to paint speed bumps; request for traffic calming devices on Westwood Place; Brotherton/Virginia Avenues property purchase by the City should be looked at thoroughly; need for sidewalks on Virginia Avenue and Fairfax Avenue; need for traffic calming devices on Virginia Avenue and Fairfax Avenue; request to restrict cars from parking on Virginia Avenue; City's plan for Y2K and hate groups; concerns about water adequacy at Brotherton/Virginia Avenue site; need for noise ordinance to address car stereos; concern about City planting high growing grass on Westwood Place resulting in problems with trimming; request to grant money to library system for meeting room in West Asheville Library; how were funds obtained to refurbish the West Asheville Community Center for the Police Resource Center; and City Council needs to make the quality of life the bottom line in all decisions.

Mayor Sitnick adjourned the meeting at 8:45 p.m.

Magdalen Burleson
CITY CLERK

Leni Sitnick
MAYOR

Tuesday - December 7, 1999 - 4:00 p.m.

ORGANIZATIONAL SESSION:

Mayor Sitnick welcomed everyone to the organizational session and introduced Dr. Buddy Corbin, Calvary Baptist Church; Rabbi Shmuel Birnham, Beth Israel Synagogue; Rev. L. C. Ray, Greater New Zion Baptist Church, and Mr. Howard Hanger, Jubilee Community Church, each who gave the invocation.

Mayor Sitnick then announced that Councilman-Elect Charles R. Worley was out of the country and would be administered the Oath of Office when he returns.

The Honorable Earl J. Fowler Jr., Buncombe County Chief District Judge, administered the Oath of Office to the following:

Councilwoman Terry M. Whitmire
Councilman Brian L. Peterson

RESOLUTION NO. 99-183 - RESOLUTION OF APPRECIATION FOR COUNCILMAN H. EARL COBB

Mayor Sitnick read the resolution.

Resolution No. 99-183 was adopted by acclamation.

Mayor Sitnick presented Mr. Cobb with the resolution, a plaque, his name plate and a City pen.

RESOLUTION BOOK NO. 25 - PAGE 354

RESOLUTION NO. 99-184 - RESOLUTION OF APPRECIATION FOR COUNCILMAN THOMAS G. SELLERS

Mayor Sitnick read the resolution.

Resolution No. 99-184 was adopted by acclamation.

Mayor Sitnick presented Mr. Sellers with the resolution, a plaque, his name plate and a City pen.

Mayor Sitnick presented Rev. Tomes with the resolution, a plaque, his name plate and a City pen.

RESOLUTION BOOK NO. 25 - PAGE 356

ELECTION OF VICE-MAYOR

Vice-Mayor Hay nominated Councilman Cloninger as Vice-Mayor of the City of Asheville, stating that Councilman Cloninger is the most senior member on Council who has not been Vice-Mayor and that his service has been exemplary.

Councilwoman Field nominated Councilwoman Whitmire as Vice-Mayor of the City of Asheville, stating that traditionally the person who received the most votes during the General Election is appointed as Vice-Mayor.

There being no further nominations, by a show of hands, Councilman Cloninger was elected as Vice-Mayor on a 5-1 vote, with Councilwoman Field voting "no".

Mayor Sitnick announced that a recess would be held for approximately 15 minutes.

REGULAR MEETING

Present:	Mayor Leni Sitnick, Presiding; Vice-Mayor M. Charles Cloninger; Councilwoman Barbara Field; Councilman Edward C. Hay Jr. Councilman Brian L. Peterson; and Councilwoman Terry M. Whitmire; City Attorney Robert W. Oast Jr.; City Manager James L. Westbrook Jr.; and City Clerk Magdalen Burleson
Absent:	Councilman-Elect Charles R. Worley

City Manager Westbrook asked that a resolution be added to the agenda which would ratify the execution by the Mayor and Assistant City Attorney of a deed releasing a portion of the property described in a deed of trust granted to the City in order that one-half of the property identified as 100 Technology Drive may be sold.

PUBLIC HEARING TO CONSIDER THE VOLUNTARY ANNEXATION OF CONTIGUOUS PROPERTY LOCATED WEST OF OVERLOOK ROAD AND IDENTIFIED AS BURNSIDE PHASE III AT BILTMORE PARK

ORDINANCE NO. 2644 - ORDINANCE TO EXTEND THE CORPORATE LIMITS OF THE CITY OF ASHEVILLE TO INCLUDE PROPERTY LOCATED WEST OF OVERLOOK ROAD AND IDENTIFIED AS BURNSIDE PHASE III AT BILTMORE PARK

Mayor Sitnick opened the public hearing at 5:12 p.m.

Mr. Paul Benson, Urban Planner, said that this is the consideration of a resolution fixing the date of a public hearing on December 7, 1999, on the question of annexation of property located west of Overlook Road and identified as Burnside Phase III, Biltmore Park. He said that the public hearing was advertised on November 26, 1999.

Biltmore Farms, Inc. has submitted an annexation petition for Burnside Phase III, Biltmore Park. He said that this is the 15th section of Biltmore Park that has asked for voluntary annexation. This area, is west of and adjacent to Burnside Phase II, Biltmore Park which was annexed into the City last year. Biltmore Park is generally located west of Overlook Road and north of Long Shoals Road. This annexation is pursuant to an agreement between Biltmore Farms, Inc. and the City of Asheville.

The area proposed for annexation consists of 15.5 acres and is platted for 14 single-family residential lots, and a small park area. The area will be accessed by Burnside Lane, White Ash Drive and Barbarry Lane.

Utilities and streets are being developed by Biltmore Farms Inc. City services will begin on the effective date of annexation. Biltmore Farms, Inc. has requested that the effective date of annexation be six months from the adoption of the ordinance.

City staff recommends City Council adopt an ordinance annexing of property located west of Overlook Road and identified as Burnside Phase III, Biltmore Park.

Mayor Sitnick closed the public hearing at 5:16 p.m.

Mayor Sitnick said that members of Council have been previously furnished with a copy of the ordinance and it would not be read.

Councilwoman Field moved for the adoption of Ordinance No. 2644. This motion was seconded by Vice-Mayor Cloninger and carried unanimously.

ORDINANCE BOOK NO. 18 - PAGE 65

APPROVAL OF THE MINUTES OF THE FORMAL MEETING HELD ON NOVEMBER 23, 1999, AND THE WORKSESSION HELD ON NOVEMBER 30, 1999

Vice-Mayor Cloninger moved adopt the minutes of the formal meeting held on November 23, 1999, and the worksession held on November 30, 1999. This motion was seconded by Councilman Hay and carried unanimously.

MOTION SETTING A PUBLIC HEARING ON DECEMBER 21, 1999, TO CONSIDER AN AMENDMENT TO THE UNIFIED DEVELOPMENT ORDINANCE TO ESTABLISH SUPPLEMENTAL DEVELOPMENT STANDARDS FOR LARGE RETAIL STRUCTURES

Councilman Hay moved to set a public hearing for December 21, 1999, to consider an amendment to the Unified Development Ordinance to establish supplemental development standards for large retail structures. This motion was seconded by Vice-Mayor Cloninger and carried unanimously.

MOTION SETTING A PUBLIC HEARING ON DECEMBER 21, 1999, TO CONSIDER A CONDITIONAL USE PERMIT FOR SWEETEN CREEK CONDOMINIUMS (THE CARLYLE) LOCATED AT 3196 SWEETEN CREEK ROAD

Councilwoman Whitmire moved to set a public hearing for December 21, 1999, to consider a conditional use permit for Sweeten Creek Apartments located at 3196 Sweeten Creek Road. This motion was seconded by Councilman Peterson and carried unanimously.

RESOLUTION NO. 99-189 - RESOLUTION CONFIRMING AN APPOINTMENT ON THE MINORITY BUSINESS COMMISSION

Summary: On May 26, 1998, City Council adopted Resolution No. 98-63 adopting a City-County Minority Business Plan.

364

The composition of the Minority Business Commission consists of 13 members from various groups.

Laura Todd Thompson, representing the American Institute of Architects, has resigned. The American Institute of Architects has endorsed Jacquelyn A. Schauer to represent them on the Minority Business Commission. The Commission has met and recommends to City Council the appointment of Ms. Schauer to serve the unexpired term of Ms. Thompson, term to expire August 1, 2001, or until her successor has been appointed.

City staff recommends City Council adopt a resolution confirming the appointment of Jacquelyn A. Schauer on the Minority Business Commission.

Mayor Sitnick said that members of Council have been previously furnished with a copy of the resolution and it would not be read.

Councilwoman Field moved for the adoption of Resolution No. 99-189 This motion was seconded by Councilwoman Whitmire and carried unanimously.

RESOLUTION BOOK NO. 25 - PAGE 360

RESOLUTION NO. 99-190 - RESOLUTION RATIFYING THE EXECUTION BY THE MAYOR AND ASSISTANT CITY ATTORNEY OF A DEED RELEASING PROPERTY FROM A DEED OF TRUST GRANTED BY BILTMORE FARMS INC. TO THE CITY OF ASHEVILLE AS SECURITY FOR ADVANCING FUNDS FROM THE ISSUANCE OF CERTIFICATES OF PARTICIPATION FOR CONSTRUCTION OF A BUILDING AT BILTMORE PARK TECHNOLOGY CENTER

Assistant City Attorney Patsy Meldrum said that this is consideration of a resolution ratifying the execution by the Mayor and Assistant City Attorney of a deed releasing a portion of the property described in a deed of trust granted to the City in order that one-half of the property identified as 100 Technology Drive may be sold.

In 1997, the City of Asheville, Western North Carolina Regional Economic Development Non-Profit Corporation (hereinafter "Advantage West') and Biltmore Farms, Inc. entered into an agreement regarding the construction of a building to be located in a business park known as Biltmore Park Technology Center (hereinafter "1997 Agreement"). Biltmore Farms, Inc. owns the land on which the business park is located and on which the building was constructed. The 1997 Agreement provided that the City would issue certificates of participation in the amount of $2,500,000 for construction of the building and the certificates of participation were issued in 1997. Under the 1997 Agreement, Advantage West was to market the lease or sale of the building.

In December of 1998, the parties entered into an Amendment and Restatement of Agreement (hereinafter "1998 Agreement") wherein the property where the building was constructed was reconfigured and certain terms and conditions were updated and clarified.

The building has been constructed and marketed and one-half of the building and property has now been sold. As security for the issuance of the certificates of participation, the City of Asheville was granted a deed of trust on the property where the building is constructed and was provided an irrevocable letter of credit also securing that financing. As part of the sale of one-half of the building, it was necessary for the City of Asheville to release one-half of the property from the description included in the deed of trust in exchange for payment of one-half of the principal amount advanced to Biltmore Farms, Inc., payment of interest and other costs of issuance for the certificates of participation and payment of one-third of the net proceeds of the sale of the property pursuant to the 1998 Agreement. The rest of the property remains subject to the deed of trust.

The resolution ratifies the execution of the deed releasing one-half of the property from the deed of trust granted to the City. As the closing occurred between City Council meetings, it is now necessary for that execution to be ratified.

Upon inquiry of Councilwoman Field, Ms. Meldrum said that this action benefits the City in several ways: (1) the property will be in an active use by a new buyer so there will be a tax base after February 2000; (2) there is more interest in the Technology Park which means more jobs and more economic development; (3) in exchange for the releasing this portion of the property from the deed of trust, the City received a payment on the principle of the Certificates of Participation - approximately $1.8 million had been advanced for construction of the building and about $900,000 of that was paid back; (4) the City was repaid some interest and cost of issuance for the Certificates of Participation; and (5) because the property was sold instead of leased during the first two years after a Certificate of Completion was issued for the property, the City, along with Biltmore Farms and Advantage West shared in net proceeds from the sale of the property.

The City Attorney's Office recommends adoption of the resolution.

Mayor Sitnick said that members of Council have been previously furnished with a copy of the resolution and it would not be read.

Vice-Mayor Cloninger moved for the adoption of Resolution No. 99-190. This motion was seconded by Councilwoman Field and carried unanimously.

RESOLUTION BOOK NO. 25 - PAGE 361

CLAIMS

The following claims were received by the City of Asheville during the period of November 19 - December 2, 1999: Laura Hale (Fire), Sally Carter (Fire), Sheri Gaffney (Civic Center), Dan Wilhelm (Civic Center), Shirley Pope (Police), Catherine Russell (Police), Dan Hughes (Police), Marvin Manning (Water), David Herbert (Water) and Emily Belcher (Water).

These claims have been referred to the Asheville Claims Corporation for investigation.

Mayor Sitnick adjourned the meeting at 5:23 p.m.

Magdalen Burleson
CITY CLERK

Leni Sitnick
MAYOR

Tuesday - December 14, 1999 - 3:00 p.m.

Worksession

Present:	Mayor Leni Sitnick, Presiding; Vice-Mayor M. Charles Cloninger; Councilwoman Barbara Field; Councilman Edward C. Hay Jr.; Councilman Brian L. Peterson; Councilwoman Terry M. Whitmire; and Councilman Charles R. Worley; City Attorney Robert W. Oast Jr.; City Manager James L. Westbrook Jr.; and City Clerk Magdalen Burleson
Absent:	None

City Attorney Oast announced that Councilman Charles R. Worley was administered his Oath of Office on December 9, 1999, by City Clerk Burleson.

CONSENT:

Budget Amendment to Amend Water Capital Project - 29 Fund

Summary: The consideration of a budget amendment to amend Capital Project Ordinance 92-17 (29 Fund - Water Bond Capital Improvements Fund) to reflect transfer of completed projects to fixed assets and to restate budgeted revenues and appropriations to better reflect what is expected to be received and spent.

By Resolution 92-17 dated May 19, 1992, the Authority authorized and budgeted for various capital projects to be funded by City Water Bond proceeds. Staff recommends the following changes to the capital project ordinance:

Revenues:

- Investment earnings are increased to reflect additional unexpected interest received on the 1992 General Obligation Bonds and the 1996 Revenue Bonds.
- The Contribution From Other Funds (General Obligation Bonds), Sale of Water Revenue Bonds 1996, and State Clean Water Loan are adjusted to reflect transfer of completed projects to fixed assets.
- Contribution from other Funds - Water Resources and Appropriated Fund Balance are being deleted. These budgets were set up to reflect the Authority's contribution of $5 million to the 1996 Revenue Bond Projects that was required in the 1996 Bond Indenture. This contribution was made in the 30 Fund (operating budget) and the 35 Fund (major capital projects) and will not be made to the 29 Fund.

Appropriations:

- General Operations/Bond Issue is being changed to $1 million to reflect bond issue costs and some arbitrage payments. The Debt Service Reserve Fund and Capitalized Interest are being deleted. Debt Service and Interest has been budgeted and expended in the 30 Fund (operating budget).
- The Mills River Regional Water Resources Project, Water Distribution Master Plan, Leak Reduction/Mapping, and Pipeline Replacement Phase II are being decreased to reflect transfer of completed projects to fixed assets. There are also some excess funds remaining after closing projects that are being reprogrammed to other projects or deleted to offset decreases in revenue.
- Broadway Water Line (DOT), Pipeline Phase III, and Chemical Improvements have been completed and are being closed to reflect a transfer of the completed projects to fixed assets.

The Regional Water Authority approved these changes at their October 19, 1999, meeting.

Staff recommends approval of a resolution amending Capital Project Ordinance 92-17 to better reflect expected revenues and appropriations.

MSD Easements Over Portion of Property on Galax Street

Summary: The consideration of a resolution authorizing the Mayor to convey easements over a portion of property located on Galax Street in connection with the Fairfax Avenue Asheville Master Plan Project.

The subject property is located on Galax Street and backs up to property fronting on Fairfax Avenue. It is shown as Lots 51, 52, 53 and 54 on a plat recorded in Plat Book 154, Page 102, Buncombe County Registry (PIN 9638.17-22-2169) and contains 40,946 square feet. Due to its size, shape and topography it is suitable for subdividing into four buildable parcels.

Metropolitan Sewerage District of Buncombe County, North Carolina, has requested a Permanent Easement containing 171 sq. ft. along with a Temporary Construction Easement containing 561 sq. ft. over a portion of said Galax Street property. The easement would enable MSD to complete the sewer improvements in the Fairfax Avenue Asheville Master Plan project which will benefit the community as well as the subject property.

Approval of the resolution will authorize conveyance of the easement to MSD.

Community Development staff recommends adoption of the resolution.

Fair Housing Assistance Program Grant Funds

Summary: The consideration of a budget amendment, in the amount of $40,400, to increase federal funding for the Fair Housing Assistance Program for Fiscal Year 1998/99.

The City has been carrying out its fair housing program under contract with the Asheville-Buncombe Community Relations Council and Fair Housing Commission since January 1988, using HUD Fair Housing Assistance Program (FHAP) funds. The City's Community Development Division serves as Lead Entity and monitors the program. On November 24, 1998, City Council approved a 1998/99 budget of $18,400, equal to the HUD FHAP grant for the twelfth year of this program. HUD amended this in June 1999 adding $25,000 to give a total of $43,400.

The City has now received another grant agreement from HUD allocating a further $40,400 in Fiscal Year 1999 FHAP funds. HUD has treated this as a second amendment to the 1999 agreement, because it is using last year's funds in a "catch-up" process. A budget ordinance is needed to appropriate the new funds. Our next FHAP grant will be for Fiscal Year 2000, using Fiscal Year 2000 funds.

Community Development staff recommends adoption of the budget amendment.

Unattended Fuel Facility

Summary: The consideration of a resolution authorizing installation and operation of unattended fuel facility at the City's service station.

The City's service station is operated by the Department of Public Works. Mark Combs, Director of Public Works, has asked for Fire Department assistance with meeting fire code standards so that the motor fuel pumps at the service station can be operated by vehicle drivers without an attendant. Those standards having been met, and the installation having been approved by the Fire Department's Life Safety Division, the State Fire Code now requires City Council approval.

The Fire Chief recommends City Council authorize installation and operation of an unattended fuel facility at the City's service station through adoption of the resolution.

Financing the Purchase of Revenue Control and Gate Equipment

Summary: The consideration of a resolution authorizing the installment financing of revenue control and gate equipment for the City's parking decks.

The City of Asheville Fiscal Year 1999-2000 Budget for the Parking Services Fund includes authorization for the installment purchase of revenue control and gate equipment for the Rankin Avenue, Wall Street and Civic Center Parking Decks (amount to be financed $295,474.00).

The Finance Department had previously sought proposals from 31 firms to finance the purchase of a fire truck and 4,000 trash cans. Twelve proposals were received, the best of which was submitted by Crestar Leasing Corporation - - 4.96% for five years. Crestar Leasing Corporation has offered to extend those very favorable rates to finance the revenue control and gate equipment purchase.

The proposed resolution authorizes an installment purchase contract between the City of Asheville and Crestar Leasing Corporation for the purchase of the revenue control and gate equipment and authorizes the City Manager, Finance Director and City Clerk to execute and deliver any and all necessary documents.

Council adopt the resolution and enabling budget amendment.

When Mayor Sitnick asked about the broken gate arms at the Rankin Street deck, City Manager Westbrook said that we have been aware of those problems, however, they can't be repaired because they don't make repair parts for them anymore.

Amendment to the Asheville-Buncombe Minority Business Plan

Summary: This is the consideration of a resolution to amend the Minority Business Plan in order to enhance and clarify provisions of the Plan.

In May of 1998, City Council adopted the Asheville-Buncombe Minority Business Plan. The Plan was subsequently amended in November 1998, to expand participation in the Mentor-Protégé Program.

At their meeting on November 23, 1999, the Minority Business Commission recommended that the Plan be amended to enhance and clarify provisions of the Plan. The most significant changes include a listing of the requirements of minority businesses for certification under the Plan (page 15). The requirements have not changed; but, have been listed in the Plan in order to make the public aware of the policy and process. The only other significant amendment (page 8) allows contractors the opportunity to submit all of the minority business forms necessary to document the level of "good faith effort" made during the time of the bid (as is done presently) or to submit only the MB Form 1 (the Utilization Commitment listing which minority businesses will be used as subcontractors) with the bid; then turn in the rest of the documentation within 72 hours after the bid opening. This change evolved as a result of a roundtable discussion held with utility contractors, City department directors and the Office of Minority Affairs. This does not dilute the good faith effort requirement that must be made during the initial bidding process; however, it does allow a little more time for completion of the paperwork to document that effort.

The resolution amends the Plan as recommended by the Minority Business Commission. The recommended revision to the Plan will also be presented to the Buncombe County Commission for their consideration and adoption.

The Minority Business Commission recommends City Council adopt the resolution.

Renaming Old Fire Station 4 at 300 Merrimon Avenue in Honor of Harley Shuford, Asheville Fire Investigator

Summary: The consideration of a resolution naming Old Fire Station 4, located at 300 Merrimon Avenue, in honor of retiring Fire Investigation Supervisor Harley Shuford.

Asheville Fire Department Fire Investigation Supervisor Harley Shuford is retiring from his position after more than 30 years of service to people in Asheville and Buncombe County (and beyond) as a Firefighter , Fire Investigator and Fire Investigation Supervisor. He has determined the cause of hundreds (if not thousands) of fires during his career, and, in cooperation with the District Attorney's office, has established an arson arrest and conviction rate that is significantly above the national average.

Harley Shuford also played a crucial role in the development of the Asheville-Buncombe Arson Task Force, was unanimously selected as the Task Force's first director, and continues as director of the Task Force to this day. In large part because of Harley Shuford's contributions, the Asheville-Buncombe Arson Task Force has been selected by the U.S. Fire Administration as a model arson task force for study by other communities wishing to establish a local arson task force.

Harley Shuford is retiring from service, effective January 1, 2000. It is proposed that an appropriate City commemoration of Harley Shuford's service would be the naming of Old Fire Station 4, 300 Merrimon Avenue, in honor of Harley Shuford. (Old Fire Station 4 has served as headquarters for the Asheville-Buncombe Arson Task Force in recent years.)

The Fire Chief recommends adoption by City Council of the resolution providing for the naming of Old Fire Station 4 in honor of Harley Shuford.

Authority for the Water Authority to Acquire Property by Eminent Domain and Waiver of Conflict in Legal Representation

Summary: The consideration of resolutions: (1) authorizing the institution of legal proceedings to acquire an easement for waterline installation on part of Monte Vista Road; and (2) waiving a conflict in legal representation to allow the Water Authority's counsel to bring the action in the City's name.

(1) Eminent Domain – the Regional Water Authority of Asheville, Buncombe and Henderson will soon need to complete installing new water lines and extending its service to an area on the west side of town beyond the City limits that includes Monte Vista Road. A waterline is proposed for installation in the area between the road and the drainage ditch along Monte Vista Road. Other than the temporary inconvenience associated with construction, this installation will not impair the usability of the affected residential properties, which will be served by the new line.

Agreements have been reached with other property owners on Monte Vista Road and the property at 721 Monte Vista Road, owned by Oris and Elizabeth Balding, is the only holdout. The Water Authority authorized the initiation of legal proceedings to acquire the property in its meeting on September 21, 1999.

Pursuant to the Water Agreement, any real property or interest in real property acquired by the Water Authority must be held in the City's name. By extension, any proceeding in eminent domain to acquire the property must be brought in the City's name, and the City's authorization is therefore required in order for the Water Authority to take this action.

(2) Waiver of Conflict – The Water Authority is specifically authorized, pursuant to Section VI. N. of the Water Agreement, to employ its own legal counsel. The Authority's counsel is the law firm of Van Winkle, Buck, Wall, Starnes and Davis. That firm is also counsel for parties who oppose the City in several pending legal proceedings, notably the billboard litigation, and regularly represents property owners in land use disputes with the City. Technically, representation of the City by Van Winkle in this eminent domain matter is a conflict that the City must waive. This is a minimal conflict and Van Winkle's representation of the City in this eminent domain proceeding will not give them access to any information that could compromise the City's position in any matter where they represent parties opposing the City.

City staff recommends City Council (1) adopt the resolution authorizing the institution of eminent domain proceedings in the City's name, as the Water Authority has requested; (2) if the City Council has no objection to the Water Authority's use of the law firm of Van Winkle, Buck, Wall, Starnes and Davis in this eminent domain proceedings, the resolution waiving the conflict should also be adopted.

Mayor Sitnick asked that the record show that City Council has received this information and instructs the City Manager to place these items on the next formal City Council agenda.

CITY OF ASHEVILLE/UNC-ASHEVILLE COOPERATIVE AGREEMENT

UNC-Asheville Chancellor Jim Mullen said that he has been working with the City Manager on a concept of bringing young kids to the UNC-Asheville campus. There are already a number of programs in place and he hoped they could expand them and work in partnership with the City to create a community building which would result in a wonderful win-win situation for both the City and UNC-Asheville.

City Manager Westbrook said that the City needs a larger community center in north Asheville and they have also discussed the use of some of UNC-A's ballfields as an adjunct part of this whole agreement. It appears that the University's part would be the land and the City's portion would be the cost of the building and some of the programming. Before proceeding further, he asked for Council's authority to continue working with the University on this concept and trying to track down some grants.

Councilwoman Field said that she was aware of the possibility of a downtown campus for a portion of UNC-A's art department in building a gallery, etc. If we are indeed considering renovations and expansions to the Civic Center, she felt there may be a possibility for the City and UNC-A to partner in something in the future regarding that.

It was the consensus of City Council to instruct the City Manager to continue working with UNC-A on this concept.

LEAD POISONING PREVENTION PROGRAM

Ms. Nan Burnett, Program Coordinator for the Lead Poisoning Prevention Program ("LPPP"), and Mr. Charles McKenzie, Regional Environmental Health Specialist, explained that lead is the number one environmental health disease for children in the country. Countless numbers of children are unknowingly exposed to other dangers of lead poisoning which can cause damage to the brain and nervous system, learning and behavior problems, reduced attention span and hyperactivity, and numerous other health problems. Yet, Buncombe County has one of the lowest rates of blood-lead level screening of children in the state.

The Lead Poisoning Prevention Program, based out of UNC-Asheville, and funded by the Center for Disease Control and the United Way, is working to increase awareness of the sources and risks of lead poisoning in children. LPPP and the Buncombe County Health Center are working together in an effort to carry out free blood-lead screening for all children between the ages of six months and six years.

The most effective way to ensure that the greatest number of children are tested for lead is to include the test in the required vaccination schedule provided by the state using federal guidelines.

Locating children at risk should also include identifying those that are most likely to be exposed to lead. Lead-based paint, lead-contaminated dust, old plumbing fixtures and pipes, and many other features of older homes continue to be the main sources of lead-poisoning in children. There are 18,891 homes in Buncombe County built before 1950 and all except those that have recently been remodeled are likely to have lead-based paint. Houses constructed between 1950 and 1978 have an 85% chance of having lead somewhere in the house. Surveys have shown that lead-contaminated dust is the major source of lead poisoning. These find dust particles are particularly dangerous because they scatter easily and are difficult to control and it is easy for them to enter the body with every breath.

Although sellers and landlords are required by law to provide an EPA pamphlet about lead in the home to all buyers and renters, this regulation is often not enforced. All sellers and landlords are required to notify new buyers or renters of the likelihood of lead contamination in the home being sold or leased. Incorporated a lead inspection with the certificate of occupancy would ensure a lead free safe home. In addition, renovations or home repairs of houses containing lead-based paint must follow the strict guidelines prepared by the Dept. of Housing and Urban Development. A certified lead-abatement contractor should be utilized whenever there is any disturbance to lead-based paint. Currently, so such contractor exists in Asheville.

They hoped that these recommendations would be followed.

Mayor Sitnick suggested some ideas in order to get spread this information to the community and thanked Ms. Burnett and Mr. McKenzie for expanding Council's knowledge on this matter.

ADDITION TO THE COLBURN GEM AND MINERAL MUSEUM

Mr. Dan Lazar, representing the Colburn Gem & Mineral Museum, said that they are requesting the Mayor to execute a Waiver and Release of Building Restriction to allow the construction of an addition for the Colburn Gem & Mineral Museum on property conveyed to the City of Asheville and leased to Pack Place Education Arts & Science Center, Inc. He explained that they need to increase the size of the Museum to accommodate the increase in growth for earth science education. By the use of a map, he showed Council the approximate location of the portion of the courtyard on which the building would be constructed.

The City of Asheville owns property on which Pack Place Education Arts & Science Center, Inc. ("Pack Place") is located. Colburn Gem & Mineral Museum ("Colburn Museum") is located within Pack Place. Colburn Museum desires to expand the portion of the Pack Place building occupied by it into a portion of an area known as a "courtyard," which is identified as "Tract Two" on "Lot D" on that plat recorded in Plat Book 56 at Page 64 in the Office of the Register of Deeds for Buncombe County.

In the deed wherein Pack Plaza Associates Limited Partnership ("Pack Plaza") conveyed to the City of Asheville certain properties, including Lot D shown on the above-referenced plat, there is a provision wherein the City and Pack Plaza promised that they would not permit the construction of any permanent building or roof structure in, on or above the property identified as Tract Two of Lot D as shown on the above-referenced plat.

In a Memorandum of Understanding dated October 28, 1988, by and among the City, Pack Place and Pack Plaza, the City and Pack Place agreed that they would not construct any permanent building or room structures in the courtyards, including Tract Two of Lot D of the above-referenced plat.

Landmark Management, PBL Investment, LLC ("Landmark") is a successor to the interests of Pack Plaza. Landmark and Pack Place have agreed to permit the construction of the extension of the building for Colburn Museum. It is necessary to execute a document wherein the consent of the parties to the construction of the extension of the Colburn Museum can be recorded in the Office of the Register of Deeds for Buncombe County.

The City Attorney's Office recommends adoption of the resolution.

Councilman Hay said that he is a member of the Pack Place Board and space at Pack Place is very precious. He stated that this request is the end of a year-long process.

After Councilwoman Field looked at the architect's drawings of the expansion, she said that she had some serious technical questions but would meet with the architect to have her concerns addressed. However, she did state that the concept is fine.

Mayor Sitnick asked that the record show that City Council has received this information and instructs the City Manager to place this item on the next formal City Council agenda.

UDO AMENDMENT REVIEW

City Attorney Oast said that these Unified Development Ordinance amendments are being brought before City Council in order that staff may respond to questions Council may have prior to the public hearings, which are scheduled on Tuesday, January 11, 2000, and Tuesday, January 25, 2000. He advised Council that it would be inappropriate for Council to receive comments from the public at this worksession.

Supplemental Development Standards for Large Retail Structures

Senior Planner Gerald Green said that this is the consideration of amending the Unified Development Ordinance which would establish supplemental development standards for large retail structures.

The Planning and Zoning Commission, at their November 10, 1999, meeting, reviewed and recommended approval of an amendment to the Unified Development Ordinance which would establish supplemental development standards for large retail structures. Structures subject to the supplemental development standards are identified in the amendment as:

- Single tenant retail structures with a gross floor area of more than 75,000 square feet in the Highway Business District;
- Single tenant retail structures with a gross floor area of more than 100,000 square feet in the Regional Business, Commercial/Industrial, Industrial, and River Districts; and
- Multiple tenant retail structures with a gross floor area of more than 100,000 square feet in the Highway Business, Regional Business, Commercial/Industrial, Industrial, and River Districts.

Goals of the supplemental development standards are to:

- Employ high quality building design;
- Blend building design and layout with other site features;
- Avoid bland and monotonous building design; and
- Ensure that buildings contribute to the community character of the City.

To achieve these goals, the ordinance amendment establishes supplemental development standards addressing building design, building material and color, landscaping and buffering, lighting, pedestrian amenities and circulation, and customer entrances. Design professionals and developers are provided a great deal of flexibility in meeting the supplemental development standards through the provision of a variety of design standards from which they may choose. Meeting approximately 70% of the standards will result in a recommendation for approval of a basic retail structure; bulk retail structures will have to meet approximately 50% of the supplemental standards.

The amendment identifies large retail structures as conditional uses. During the review process they would be reviewed for compliance with the supplemental development standards. The amendment does not require an additional review process for these structures, as they are currently reviewed as conditional uses.

The Asheville Planning and Zoning Commission voted 6-0 to recommend approval of the wording amendment. The Planning and Development staff recommends approval of the amendment.

Mr. Green answered several questions from Council on this proposed amendment.

Detached Garages as Accessory Uses

Urban Planner Carl Ownbey said that this is the consideration of an ordinance amending the Unified Development Ordinance regarding detached garages as accessory uses.

The Planning and Development staff has received several requests over the past several months proposing the placement of detached garages in front of the principal structure. Since this placement is not permitted under section 7-16-1.c.2.d of the Unified Development Ordinance, these requests have been taken to the Board of Adjustment for a variance.

This wording amendment will permit the location of a detached garage in front of the principal structure if:

1) the garage is not located in the front setback;
2) the garage is located and/or designed so that it is not the principal structural feature on the lot and the scale is subordinate to and the building materials are compatible with the principal structure or other design features; and
3) the garage doors are not oriented to the front street.

Given the topography of the Asheville area and the unusual shapes of some lots in the City, the proposed ordinance amendment will provide reasonable options and flexibility in the location of detached garages.

The Planning and Development staff presented this proposed wording amendment to the Planning and Zoning Commission at their December 1, 1999, regular meeting. After presentation by staff, the Planning and Zoning Commissioners voted 6-1 to recommend to City Council the adoption of this wording amendment.

Since City Council did not want to amend the ordinance to permit anyone to place a detached garage in front of the principal structure if they didn't have a hardship of either the lot size or the topography, it was the consensus of City Council to have staff revise the language in the proposed ordinance which would delegate some flexibility of the planning staff to determine if a hardship exists.

Banks as Residential Related Commercial Services in RM-16

Urban Planner Stacy Merten said that this is the consideration of an ordinance amending the Unified Development Ordinance to allow banks to be included as residential related commercial services in RM-16 Residential Multi-Family High Density districts.

Currently the Unified Development Ordinance (UDO) limits residential related commercial services to dining halls, beauty shops, barber shops, laundry facilities, food stores, newsstands, drug stores, and flower and gift shops as uses by rights subject to special requirements in the RM-16 zoning district. This amendment will expand the limits to allow banking facilities. This amendment was precipitated by a specific request from the Deerfield Community to locate a small, 423 square foot, banking center in one of their buildings for use only by residents of the community. The amendment also prohibits drive-through facilities for all residential related commercial services and specifies that all of the services shall occupy no more than 25 square feet per dwelling within the residential development. There was no comment at the public hearing

Planning & Development staff presented this wording amendment to the Planning & Zoning Commission at their December 1, 1999, meeting. The Commission voted unanimously to recommend to City Council the adoption of this wording amendment.

Ms. Merten responded to questions regarding design criteria.

North Area Extraterritorial Jurisdiction Extension and Zoning

Vice-Mayor Cloninger stated that the law firm of which he is a partner in represents the owner/developer of property which would be brought into the extraterritorial jurisdiction in the north area and therefore, he would not be participating in any discussions concerning this matter.

Urban Planner Mike Matteson said that this is the consideration of an ordinance extending the City's Extraterritorial Jurisdiction (ETJ) in an area north of the City's corporate limits and the zoning of properties within the area.

In response to direction from both the Planning and Zoning Commission and City Council, the Planning and Development Department staff is proposing the extension of the City's ETJ in an area north of the City's corporate limits.

The provisions for exercising powers in an area of ETJ are governed by N. C. Gen. Stat. sec. 160A-360. These provisions grant a city the authority to extend ETJ "within a defined area extending not more than one mile beyond its limits". With the approval of the Board of County Commissioners, a city of more than 25,000 population can extend its ETJ up to three miles beyond its corporate limits. Upon the establishment of extraterritorial jurisdiction, property within the ETJ area becomes subject to the City's zoning, subdivision and other land development ordinances.

The area proposed for ETJ extension totals approximately 616 acres and is primarily either undeveloped or developed at a low residential density. The topography of the area is generally steeply sloping and mountainous. The proposed Reynolds Mountain Subdivision, which received preliminary plat approval from the Planning and Zoning Commission in December of 1998, is partially within the area proposed for ETJ extension.

The proposed boundaries for the ETJ area follow the phase line within the Reynolds Mountain Subdivision (as illustrated on the approved preliminary plat) and otherwise generally follow property lines or streets. At one point, at the northern end of the area, the boundary coincides with the one-mile distance from the City's corporate limits.

The Town of Woodfin is also pursuing the extension of ETJ in the area. Staff from the Planning and Development Department worked with Town of Woodfin officials to determine a line of demarcation separating potential City of Asheville ETJ with potential Town of Woodfin ETJ. This general line of demarcation has been endorsed by the Asheville City Council on August 10, 1999, and the Town of Woodfin Board of Aldermen.

Another issue associated with the ETJ extension is the zoning of the properties within the area. Staff has studied the area and is recommending a combination of RS-2 (residential single-family low density) and RS-4 (residential single family medium density) zoning. RS-2 zoning is recommended for the majority of the area, where current lot sizes are generally large and where steep slopes suggest low densities. RS-4 zoning is recommended in an area which is generally developed with a number of properties which, due to their size (under ½ acre), would be non-conforming within the RS-2 zoning district.

He reviewed a map which shows the area proposed for ETJ extension and another showing the proposed zoning within the area.

Council is asked to (1) determine whether to extend the City's ETJ in this area; and if so, to zone the properties within the area.

Mayor Sitnick asked that the record show that City Council has received this information and instructs the City Manager to proceed with the appropriate public hearings on January 11, 2000, and January 25, 2000.

GROVE ARCADE

Vice-Mayor Cloninger said that his firm represents the Grove Arcade Public Market Foundation and he would not participate in this matter.

City Attorney Oast said that the lessee and developer of the Grove Arcade are proposing some amendments to the Lease and Operating Agreement between the Grove Arcade Public Market Foundation ("GAPMF") and the City that will assist GAPMF and its sublessees in financing the renovations and improvements to the building.

In the Spring of 1997, the City acquired the Grove Arcade Building by Quitclaim Deed from the United States Government. The building was built originally as a public market and was so operated until 1942, when the federal government took it over in connection with the country's World War II efforts. The building's exterior windows and doors were bricked up by the federal government, which used the building until 1994.

The conveyance to the City was essentially without consideration, but it was subject to significant restrictions on how the City could dispose of the building and how it could be used. The Grove Arcade Public Market Foundation (herein "GAPMF"), a non-profit corporation, was established for the purpose of rehabilitating Grove Arcade. In August of 1997, the City entered into a long term lease of the Grove Arcade building to GAPMF. The redevelopment proposal calls for the public market to be reestablished on the First Floor and Mezzanine and for a combination of office and residential uses on the Third and Fourth Floors. GAPMF, with the permission of the City, subleased the upper floors to Skelton Development of Atlanta to develop the office and residential uses.

The City's lease with GAPMF recognized that the financial structure for the rehabilitation was subject to change, depending on the availability of such things as tax credits and possible participation of other financial partners. While GAPMF remains ultimately responsible to the City for the debt service on the Certificates of Participation that were issued to finance public market part of the renovations, the City has the authority to approve amendments as necessary to accommodate financial arrangements and participation by other developers.

The uniqueness of the Grove Arcade Rehabilitation project has made conventional financing difficult to obtain, and construction, primarily design work and demolition, have proceeded more slowly than anticipated. Marketing and leasing, however, have gone better than expected. After long negotiations involving GAPMF, Skelton Development, local and national financial institutions, real estate companies, and the United States Government, and after some changes in tax laws, a financial structure has finally been proposed that will: (1) allow GAPMF to take advantage of the significant tax credits available for the historic rehabilitation of the building; and (2) provide for substantial financial participation by another party on both the public market side and the residential/office side of the project.

Since a for-profit (taxpaying) entity was needed to take advantage of the available tax credits, the City Council earlier this year approved the assignment of the lease by GAPMF to Grove Arcade Preservation Inc., a for-profit subsidiary corporation wholly controlled by GAPMF. This was to permit investments in the project and the utilization of legally available tax credits by a qualified New York Stock Exchange investor.

Under the current proposal, the investor will still participate in the project as before, but instead of those tax credits running through one for-profit subsidiary corporation, there will be two for-profit limited liability companies (herein "LLC"):

(a) One of the LLC's will be Grove Arcade Restoration LLC (herein "GAR"), consisting of GAPMF as the managing partner and operating entity, and an investor corporation as a 99% financial participant. GAR will be responsible for developing the first floor, together with portions of the mezzanine and basement, of the Arcade Building as a public market in the same way that GAPMF proposed to do, GAPMF will still have full control as developer and manager of this part of the project.

(b) The other LLC will be the Historic Grove Arcade LLC (herein "HGA"), consisting of a management company controlled by Skelton Development as the managing partner and an investor corporation as a 99% financial participant. HGA will be responsible for developing the second, third and fourth floors of the Arcade Building, together with portions of the mezzanine and basement, in the same way that Skelton Development had previously been approved to do.

Each LLC will essentially be subject to the same agreements as are currently in place with GAPMF and Skelton Development, and each LLC will be managed and controlled by the entities that are currently developing the building. GAPMF will continue to be financially responsible to the City to the same extent as before. Negotiations between GAPMF and Skelton, on the one hand, and the potential investor corporations on the other, for participation in the subsidiary LLC's are not yet finalized, but according to representatives of GAPMF, agreements in principal have been reached, and closing will occur by year's end if the City approves. The extent of the financial participation by the investor corporations is expected to be worth millions of dollars, and should kick the entire project into high gear, such that it will come on line nearly as scheduled, despite delays in the start of construction.

One feature of the new proposal will involve the City becoming an organizational participant in the Grove Arcade development. In order to preserve the ability to use the rehabilitation tax credits, it is necessary that GAPMF, as the managing partner of the for-profit GAR LLC, have 21% participation by an entity that is not controlled by GAPMF. This could be any person or corporation, but GAPMF and its attorneys have suggested that, in order to ensure that the City remains appraised of all activities of GAR, the City would form a wholly-owned subsidiary corporation whose sole purpose is to participate with GAPMF in the ownership structure of GAR. The City's participation would be for ownership purposes only, would be in the nature of a limited partner, would not require any additional financial commitment by the City, and would not expose the City to any additional risk of loss in the event of financial problems.

It is anticipated that within six (6) years, GAPMF will acquire the ownership interest of the investor in GAR, and that Skelton will acquire the ownership interest in HGA. At that point, the ownership structure will revert to its original form. In order to accomplish all of this, several things must occur:

(1) the previously adopted resolution approving assignment of the Grove Arcade lease to Grove Arcade Preservation Inc. must be rescinded;

(2) the lease must be amended to permit the above-described ownership structure.

(3) the subleasing (or assignment) to the LLCs GAR and HGA, by GAPMF must be approved;

(4) certain amendments to the Operating Agreement and the Lease between GAPMF and the City must be approved. The major features of these amendments include:

   (a) the City may not unilaterally terminate the lease with GAPMF for five (5) years (currently, there is no such limitation). This five (5) year non-termination provision is necessary for purposes of the tax credits;

(b) the City must agree that the terms of the Quitclaim Deed from the United States are being complied with in the new arrangement (this approval has been obtained);

(c) the City must agree to a "Non-disturbance and Attornment Agreement," which essentially provides that the City will honor the subleases to the LLC's if GAPMF drops out; (this is a standard feature in a commercial sublease);

(d) the City must agree to the sublessees using their leasehold interest as security to obtain financing (the Lease and Operating Agreement specifically contemplate this);

(e) The City agrees to a starting date for renovation work of 36 months after the date of its Lease to GAPMF (currently, that date is 18 months, and some work has in fact already begun). This will not extend the five (5) year time period for a substantial completion of the improvements.

(5) the City must agree to formation of a corporation to participate with GAPMF in the ownership of the GAR LLC for the public market phase of the projects, or some other arrangement.

What the City gets in return is a guarantee from the investor corporations that, in the event of financial failure by either GAR or HGA, the investor corporation will continue to make half of the ongoing debt service payments to the City to retire the COPs. As noted above, GAPMF is still responsible for the entire payment, but this is an additional source of funds. Also, the investor corporations will immediately make a "bridge loan" of $500,000 to provide for immediate resumption of work on the building until the loan is closed and funds are disbursed next month.

These arrangements are still being worked out in anticipation that the transactions can close by the end of the year. What will be needed from the City is approval to proceed with the items enumerated above, and authority for the Manager and the Mayor to execute appropriate documents. Through its ability to approve subleases, the City will have final approval over the new financial participants in the subsidiary LLC's. If Council agrees to the formation of a subsidiary corporation, the work will be done by GAPMF attorneys, or otherwise paid for by GAPMF.

There is no recommendation at this time, pending further discussion with GAPMF and the receipt of additional information.

City Attorney Oast, Executive Director Aaron Zaresky, Executive Director of the GAPMF, and Mr. Lou Bissette, Attorney for the GAPMF, answered numerous questions from Council relative to this proposed financial structure, some being, but are not limited to: how are historic tax credits used; what is the benefit for the community if this transaction occurs; what is the liability of the City is something happens to the GAPMF; what avenues are available to the City since they would not be able to terminate the lease for five years; what would happen if the City did terminate the lease during the five year period; what constitutes a breach of the lease; what other rights are we giving up over the five year period; when the building is completed, what will be the tax base to the City; who is in charge of construction of the building; how many cents on the dollar is being received on the tax credits; and what are the City's benefits if they agree to form a corporation.

City Attorney Oast said that he will continue discussions with GAPMF and its attorneys in anticipation that the matter will be ready for Council consideration and action at your December 21st meeting.

Mayor Sitnick asked that the record show that City Council has received this information and instructs the City Manager to place this item on the next formal City Council agenda.

At this time, 5:54 p.m., Mayor Sitnick announced a short break.

CENSUS 2000 UPDATE

Urban Planner Carl Ownbey said that this is the consideration of resolution formulating a Census Complete Count Committee to direct the awareness campaign for the Census 2000 Update.

The Census Complete Count Committee will be responsible for the awareness campaign in "getting the word out" to the citizens of the community about the upcoming census count on April 1, 2000. The United States Bureau of the Census has prepared an operations guide to assist the community in the campaign. The Mayor is required to appoint a chairman for the committee and together they must appoint chairmen for the eight (8) subcommittees. These subcommittees, as outlined in the operations guide are:

Government
Religion
Business
Community-Based

Education
Media
Recruiting
Special Housing

A press conference is required announcing the formulating of this committee and the committee must begin work in January of 2000.

The Planning and Development staff recommends the formulating of the Census Complete Count Committee and will provide the committee with staff support during the campaign process.

Mayor Sitnick said that she is in the process of developing a list of people in the community who might be interested in serving on these committees. She encouraged City Council to provide her with any names and she would add those to her list.

Mayor Sitnick asked that the record show that City Council has received this information and instructs the City Manager to place this item on an upcoming formal City Council agenda.

BUNCOMBE COUNTY APPOINTMENT ON THE REGIONAL WATER AUTHORITY

City Manager Westbrook said that this is the consideration of a request from Buncombe County to permit Mr. Thomas Sobol to serve an additional three year term on the Water Authority from October 1999 through September 2002.

The Water Agreement between the City of Asheville and Buncombe County prescribes that each member of the Regional Water Authority be appointed for a three year term, and prescribes that the concurrence of the Water Authority, the City Council, and the Buncombe County Commissioners is required for members to serve additional terms.

The Water Authority By-Laws amended in 1986 by the joint concurrence of the City, County, and Authority, provided that a member of the Authority could serve up to two consecutive terms. Under these by-laws, it has been the practice of the Authority that the appointing authority (the City, Buncombe County, or Henderson County) could re-appoint a member to the Water Authority to a second consecutive term but not longer than two consecutive terms. Several re-appointments have been made since 1986 by both the City and County under these By-Laws. One of these was Mr. Tom Sobol, who was appointed to the Water Authority by Buncombe County in 1993 and reappointed in 1996. He completed two consecutive three-year terms in September 1999.

The County Attorney presented a request to the Water Authority in October 1999 to permit Mr. Sobol to serve a third term. At the regular meeting in November, the Water Authority endorsed this request. The Buncombe County Commissioners reappointed Mr. Sobol as a County representative to the Water Authority for a third term at their December 7, 1999, meeting. Under the terms of the Water Agreement, the City Council must concur in the decision to authorize Mr. Sobol another term.

The staff advises that the City Council exercise strong discretion in the review of all requests for Water Authority members to serve additional terms, to avoid setting a broad precedence that the same members can serve unlimited terms. In this particular case, Mr. Sobol has been a member of the County Commissioners since 1984, and has also served the community over a long period of time in the areas of tourism development and economic development. Should Council agree to reappoint Mr. Sobol, it should be clear that the appointment is for one term and is specifically made in view of the unique circumstances and experience of Mr. Sobol.

Vice-Mayor Cloninger felt this is a unique circumstance since Mr. Sobol is an elected official and we would be confirming an appointment made by the County Commissioners.

Councilwoman Field wondered if Mr. Sobol were not elected to the County Commissioners in 2000 would be remain as a member on the Water Authority.

If Mr. Sobol were not re-elected to the County Commissioners in 2000, Councilman Worley said that the Authority would have the option to have him remain on the Authority since the confirmation would be for an additional 3-year term, or, they could remove him by a 2/3 vote.

Councilman Peterson felt that there were good reasons behind the by-laws that limit serving for two consecutive terms and felt that we should not make exceptions for elected officials.

Councilwoman Field disagreed with the concept of term limits entirely. She felt that term limits don't recognize the knowledge of the person who has served on the committee. She had no problem with confirming Mr. Sobol to another three-year term in his capacity of a County Commissioner, however, she did have concerns if Mr. Sobol was no longer a County Commissioner.

Mayor Sitnick agreed with Councilman Peterson in not making exceptions for officials, however, she does understand the Commissioners wanting representation on the Authority. She was concerned that if Mr. Sobol is not re-elected in 2000 and the County chooses not to replace him with another Commissioner, then he would be serving outside of what the County has asked the City to confirm. She wondered if the County would be willing to ask the City to confirm Mr. Sobol's reappointment for one year and then if he is re-elected, City Council could then reconsider the reappointment at that time. She supported term limits because they bring in fresh ideas and allow other members of the community to serve.

Mayor Sitnick asked that the record show that City Council has received this information and instructs the City Manager to place this item on an upcoming formal City Council agenda.

BRIEFING ON CITY'S Y2K PREPAREDNESS

It was the consensus of City Council to have the City Manager make his report at the formal meeting on December 21, 1999, in order to have the report taped and broadcast on the government channel.

PUBLIC HEARING ON THE CONDITIONAL USE PERMIT FOR A CELL TOWER AT 200 TUNNEL ROAD

Vice-Mayor Cloninger said that at the request of American Tower, City Council continued this matter from its November 23, 1999, meeting to its December 21, 1999, meeting in order to allow time for them to conduct a balloon test at the site to simulate the height of the tower. This balloon test is scheduled for Friday, December 17, 1999. The City's consultant has requested a continuance of the December 21, 1999, hearing in order to provide him additional time to analyze the results of the balloon test and prepare a report for the public hearing before City Council.

It was the consensus of City Council to postpone the December 21 public hearing and to contact American Tower to work with the Planning staff on a rescheduled date.

I-26 CONNECTOR

Mayor Sitnick and Vice-Mayor Cloninger recently attended a Transportation Advisory Committee ("TAC") meeting (which the TAC unanimously voted to encourage the State to proceed expeditiously with the design and construction of the I-26 Connector) and realized that the public is not ready to settle on the issue of the I-26 Connector. It was their recommendation for the City to sponsor a Charette on the I-26 Connector Project with the design issues involved. There is still controversy over the project and a lack of consensus in the community. Since the N. C. Dept. of Transportation (NC DOT) has expressed that they are looking for the community's input and there has been precedence set that the NC DOT does take into account the community's suggestions, the need for this Charette is clear. This is no way will interfere with the resolution City Council passed that asked that the project be completed in a timely manner. However, after the Charette, it may be time to consider another resolution requesting the NC DOT to revisit, review and possibly e-design the I-26 connector.

It was the consensus of City Council to instruct the Planning & Development Director to investigate what other communities have done which led to a successful conclusion on an NC DOT project. Council further instructed the Planning & Development Director to report back as soon as possible on how a Charette with community, former I-26 Asheville Connector Advisory Committee members and design professionals might work. It was hoped that if design professionals are brought in, that community groups help pay for that cost.

ASSIGNMENT OF BOARD/COMMISSION LIAISONS

City Council members were assigned to various boards and commissions as liaisons and/or regular board members.

Mayor Sitnick asked that the record show that City Council has received this information and instructs the City Manager to place appropriate items on an upcoming City Council agenda.

CLOSED SESSION

At 7:25 p.m., Councilwoman Whitmire moved to go into closed session for the following reason: To discuss matters relating to the location or expansion of industries or other businesses in the area served by the public body, including agreement on a tentative list of economic development incentives that may be offered by the public body in negotiations. Statutory authority is G.S. 143-318.11 (a) (4). This motion was seconded by Vice-Mayor Cloninger and carried unanimously.

At 7:50 p.m. Councilwoman Field moved to come out of closed session. This motion was seconded by Councilman Worley and carried unanimously.

ADJOURNMENT:

Mayor Sitnick adjourned the meeting at 7:50 p.m.

Magdalen Burleson
CITY CLERK

Leni Sitnick
MAYOR

Tuesday - December 21, 1999 - 5:00 p.m.

Regular Meeting

Present: Mayor Leni Sitnick, Presiding; Vice-Mayor M. Charles Cloninger; Councilwoman Barbara Field; Councilman Edward C. Hay Jr.; Councilman Brian L. Peterson; Councilwoman Terry M. Whitmire; and Councilman Charles R. Worley; City Attorney Robert W. Oast Jr.; City Manager James L. Westbrook Jr.; and City Clerk Magdalen Burleson

Absent: None

INVOCATION

Councilman Hay gave the invocation.

I. PROCLAMATIONS:

A. RECOGNITION OF THE 1999 STATE 4-A FOOTBALL CHAMPIONS - REYNOLDS ROCKETS

Mayor Sitnick recognized Dr. Tony Baldwin, Principal of A.C. Reynolds High School, Football Coach Bobby Poss and four representatives of the 1999 State 4-A Football Champions - the Reynolds Rockets.

B. RESOLUTION NO. 99-191 - RESOLUTION RENAMING THE OLD FIRE STATION 4, LOCATED AT 300 MERRIMON AVENUE, IN HONOR OF HARLEY SHUFORD

Mayor Sitnick said that this is the consideration of a resolution naming Old Fire Station 4, located at 300 Merrimon Avenue, in honor of retiring Fire Investigation Supervisor Harley Shuford.

Asheville Fire Department Fire Investigation Supervisor Harley Shuford is retiring from his position after more than 30 years of service to people in Asheville and Buncombe County (and beyond) as a Firefighter , Fire Investigator and Fire Investigation Supervisor. He has determined the cause of hundreds (if not thousands) of fires during his career, and, in cooperation with the District Attorney's office, has established an arson arrest and conviction rate that is significantly above the national average.

Harley Shuford also played a crucial role in the development of the Asheville-Buncombe Arson Task Force, was unanimously selected as the Task Force's first director, and continues as director of the Task Force to this day. In large part because of Harley Shuford's contributions, the Asheville-Buncombe Arson Task Force has been selected by the U.S. Fire Administration as a model arson task force for study by other communities wishing to establish a local arson task force.

Harley Shuford is retiring from service, effective January 1, 2000. It is proposed that an appropriate City commemoration of Harley Shuford's service would be the naming of Old Fire Station 4, 300 Merrimon Avenue, in honor of Harley Shuford. (Old Fire Station 4 has served as headquarters for the Asheville-Buncombe Arson Task Force in recent years.)

The Fire Chief recommends adoption by City Council of the resolution providing for the naming of Old Fire Station 4 in honor of Harley Shuford.

Resolution No. 99-191 was adopted by acclamation.

RESOLUTION BOOK NO. 25 - PAGE 363

CONTINUANCE REQUEST:

PUBLIC HEARING TO CONSIDER A CONDITIONAL USE PERMIT FOR A TELECOMMUNICATIONS TOWER AT 200 TUNNEL ROAD

At the request of the applicant, City Council continued this matter from its November 23, 1999, meeting to its December 21, 1999, meeting in order to allow time for the applicant to conduct a balloon test at the site to simulate the height of the tower. This balloon test is scheduled for Friday December 17, 1999, between the hours of 8:00 a.m. and 5:00 p.m.

The City engaged a consultant to aid in the review of the application. The consultant is Paul Rosa of Digital Landscapes. Mr. Rosa has requested a continuance to provide additional time to analyze the results of the balloon test and prepare a report for the public hearing before City Council.

The applicant, American Tower, sent a letter to the City agreeing to the continuance. The applicant requests that City Council continue the public hearing to January 11, 2000.

Vice-Mayor Cloninger moved to continue the public hearing until January 11, 2000. This motion was seconded by Councilman Worley and carried unanimously.

II. CONSENT:

Councilman Peterson requested that Consent Agenda Item G. be discussed at the upcoming City Council retreat. He felt that to move the worksession to after 5:00 p.m. would enable more members of the public to attend.

A. APPROVAL OF THE MINUTES OF THE REGULAR MEETING HELD ON DECEMBER 7, 1999, AND THE WORKSESSION HELD ON DECEMBER 14, 1999

B. MOTION SETTING A PUBLIC HEARING ON JANUARY 11, 2000, TO AMEND THE UNIFIED DEVELOPMENT ORDINANCE REGARDING DETACHED GARAGES AS ACCESSORY USES

C. MOTION SETTING A PUBLIC HEARING ON JANUARY 11, 2000, TO AMEND THE UNIFIED DEVELOPMENT ORDINANCE TO ALLOW BANKS TO BE INCLUDED AS RESIDENTIAL RELATED COMMERCIAL SERVICES IN RM-16 RESIDENTIAL MULTI-FAMILY HIGH DENSITY DISTRICTS

D. MOTION SETTING A PUBLIC HEARING ON JANUARY 11, 2000, TO ZONE HEATHBROOK AT BILTMORE PARK, PHASE II, AS RS-8 RESIDENTIAL SINGLE-FAMILY HIGH DENSITY DISTRICT

E. ORDINANCE NO. 2645 - BUDGET AMENDMENT TO AMEND THE WATER CAPITAL PROJECT ORDINANCE 92-17 (29 FUND)

Summary: The consideration of a budget amendment to amend Capital Project Ordinance 92-17 (29 Fund - Water Bond Capital Improvements Fund) to reflect transfer of completed projects to fixed assets and to restate budgeted revenues and appropriations to better reflect what is expected to be received and spent.

By Resolution 92-17 dated May 19, 1992, the Authority authorized and budgeted for various capital projects to be funded by City Water Bond proceeds. Staff recommends the following changes to the capital project ordinance:

Revenues:

- Investment earnings are increased to reflect additional unexpected interest received on the 1992 General Obligation Bonds and the 1996 Revenue Bonds.
- The Contribution From Other Funds (General Obligation Bonds), Sale of Water Revenue Bonds 1996, and State Clean Water Loan are adjusted to reflect transfer of completed projects to fixed assets.
- Contribution from other Funds - Water Resources and Appropriated Fund Balance are being deleted. These budgets were set up to reflect the Authority's contribution of $5 million to the 1996 Revenue Bond Projects that was required in the 1996 Bond Indenture. This contribution was made in the 30 Fund (operating budget) and the 35 Fund (major capital projects) and will not be made to the 29 Fund.

Appropriations:

- General Operations/Bond Issue is being changed to $1 million to reflect bond issue costs and some arbitrage payments. The Debt Service Reserve Fund and Capitalized Interest are being deleted. Debt Service and Interest has been budgeted and expended in the 30 Fund (operating budget).
- The Mills River Regional Water Resources Project, Water Distribution Master Plan, Leak Reduction/Mapping, and Pipeline Replacement Phase II are being decreased to reflect transfer of completed projects to fixed assets. There are also some excess funds remaining after closing projects that are being reprogrammed to other projects or deleted to offset decreases in revenue.
- Broadway Water Line (DOT), Pipeline Phase III, and Chemical Improvements have been completed and are being closed to reflect a transfer of the completed projects to fixed assets.

The Regional Water Authority approved these changes at their October 19, 1999, meeting.

Staff recommends approval of a resolution amending Capital Project Ordinance 92-17 to better reflect expected revenues and appropriations.

ORDINANCE BOOK NO. 18 - PAGE 67

F. RESOLUTION NO. 99-192 - RESOLUTION AUTHORIZING THE MAYOR TO CONVEY EASEMENTS OVER A PORTION OF PROPERTY ON GALAX STREET TO THE METROPOLITAN SEWERAGE DISTRICT OF BUNCOMBE COUNTY

Summary: The consideration of a resolution authorizing the Mayor to convey easements over a portion of property located on Galax Street in connection with the Fairfax Avenue Asheville Master Plan Project.

The subject property is located on Galax Street and backs up to property fronting on Fairfax Avenue. It is shown as Lots 51, 52, 53 and 54 on a plat recorded in Plat Book 154, Page 102, Buncombe County Registry (PIN 9638.17-22-2169) and contains 40,946 square feet. Due to its size, shape and topography it is suitable for subdividing into four buildable parcels.

Metropolitan Sewerage District of Buncombe County, North Carolina, has requested a Permanent Easement containing 171 sq. ft. along with a Temporary Construction Easement containing 561 sq. ft. over a portion of said Galax Street property. The easement would enable MSD to complete the sewer improvements in the Fairfax Avenue Asheville Master Plan project which will benefit the community as well as the subject property.

Approval of the resolution will authorize conveyance of the easement to MSD.

Community Development staff recommends adoption of the resolution.

RESOLUTION BOOK NO. 25 - PAGE 364

G. ORDINANCE NO. 2646 - BUDGET AMENDMENT TO INCREASE FEDERAL FUNDING FOR THE FAIR HOUSING ASSISTANCE PROGRAM FOR FISCAL YEAR 1998-99

Summary: The consideration of a budget amendment, in the amount of $40,400, to increase federal funding for the Fair Housing Assistance Program for Fiscal Year 1998/99.

The City has been carrying out its fair housing program under contract with the Asheville-Buncombe Community Relations Council and Fair Housing Commission since January 1988, using HUD Fair Housing Assistance Program (FHAP) funds. The City's Community Development Division serves as Lead Entity and monitors the program. On November 24, 1998, City Council approved a 1998/99 budget of $18,400, equal to the HUD FHAP grant for the twelfth year of this program. HUD amended this in June 1999 adding $25,000 to give a total of $43,400.

The City has now received another grant agreement from HUD allocating a further $40,400 in Fiscal Year 1999 FHAP funds. HUD has treated this as a second amendment to the 1999 agreement, because it is using last year's funds in a "catch-up" process. A budget ordinance is needed to appropriate the new funds. Our next FHAP grant will be for Fiscal Year 2000, using Fiscal Year 2000 funds.

Community Development staff recommends adoption of the budget amendment.

ORDINANCE BOOK NO. 18 - PAGE 71

H. RESOLUTION NO. 99-193 - RESOLUTION AUTHORIZING INSTALLATION AND OPERATION OF AN UNATTENDED SERVICE STATION FACILITY BY THE CITY OF ASHEVILLE PUBLIC WORKS DEPARTMENT

Summary: The consideration of a resolution authorizing installation and operation of unattended fuel facility at the City's service station.

The City's service station is operated by the Department of Public Works. Mark Combs, Director of Public Works, has asked for Fire Department assistance with meeting fire code standards so that the motor fuel pumps at the service station can be operated by vehicle drivers without an attendant. Those standards having been met, and the installation having been approved by the Fire Department's Life Safety Division, the State Fire Code now requires City Council approval.

The Fire Chief recommends City Council authorize installation and operation of an unattended fuel facility at the City's service station through adoption of the resolution.

RESOLUTION BOOK NO. 25 - PAGE 365

I. RESOLUTION NO. 99-194 - RESOLUTION ADOPTING THE 2000 SCHEDULED CITY COUNCIL MEETINGS

Summary: The following schedule of the meetings of the Asheville City Council for 2000 be, and the same is, hereby established as follows: (1) City Council Worksessions; 3:00 p.m.; 1st and 3rd Tuesdays of each month; 1st Floor North Conference Room; City Hall Building, Asheville, N.C. and (2) City Council Formal Meetings; 5:00 p.m.; 2nd and 4th Tuesdays of each month; Council Chamber - 2nd Floor; City Hall Building, Asheville, N.C. This schedule may be amended or modified by resolution.

RESOLUTION BOOK NO. 25 - PAGE 368

J. RESOLUTION NO. 99-195 - RESOLUTION AMENDING THE ASHEVILLE-BUNCOMBE MINORITY BUSINESS PLAN

Summary: This is the consideration of a resolution to amend the Minority Business Plan in order to enhance and clarify provisions of the Plan.

In May of 1998, City Council adopted the Asheville-Buncombe Minority Business Plan. The Plan was subsequently amended in November 1998, to expand participation in the Mentor-Protégé Program.

At their meeting on November 23, 1999, the Minority Business Commission recommended that the Plan be amended to enhance and clarify provisions of the Plan. (A copy of the Plan with recommended changes shown in red is attached hereto.) The most significant changes include a listing of the requirements of minority businesses for certification under the Plan (page 15). The requirements have not changed; but, have been listed in the Plan in order to make the public aware of the policy and process. The only other significant amendment (page 8) allows contractors the opportunity to submit all of the minority business forms necessary to document the level of "good faith effort" made during the time of the bid (as is done presently) or to submit only the MB Form 1 (the Utilization Commitment listing which minority businesses will be used as subcontractors) with the bid; then turn in the rest of the documentation within 72 hours after the bid opening. This change evolved as a result of a roundtable discussion held with utility contractors, City department directors and the Office of Minority Affairs. This does not dilute the good faith effort requirement that must be made during the initial bidding process; however, it does allow a little more time for completion of the paperwork to document that effort.

The resolution amends the Plan as recommended by the Minority Business Commission. The recommended revision to the Plan will also be presented to the Buncombe County Commission for their consideration and adoption.

The Minority Business Commission recommends City Council adopt the resolution.

RESOLUTION BOOK NO. 25 - PAGE 369

K. MOTION SETTING A PUBLIC HEARING ON JANUARY 25, 2000, TO EXTEND THE CITY'S EXTRATERRITORIAL JURISDICTION IN AN AREA NORTH OF THE CORPORATE LIMITS AND INITIALLY ZONE THE PROPERTY RS-2 RESIDENTIAL SINGLE-FAMILY LOW DENSITY DISTRICT AND RS-4 RESIDENTIAL SINGLE-FAMILY MEDIUM DENSITY DISTRICT

L. RESOLUTION NO. 99-196 - RESOLUTION AUTHORIZING AN INSTALLMENT PURCHASE CONTRACT BETWEEN CRESTAR LEASING CORPORATOIN AND THE CITY OF ASHEVILLE TO FINANCE THE ACQUISITION OF REVENUE CONTROL AND GATE EQUIPMENT

Summary: The consideration of a resolution authorizing the installment financing of revenue control and gate equipment for the City's parking decks.

The City of Asheville Fiscal Year 1999-2000 Budget for the Parking Services Fund includes authorization for the installment purchase of revenue control and gate equipment for the Rankin Avenue, Wall Street and Civic Center Parking Decks (amount to be financed $295,474.00).

The Finance Department had previously sought proposals from 31 firms to finance the purchase of a fire truck and 4,000 trash cans. Twelve proposals were received, the best of which was submitted by Crestar Leasing Corporation - - 4.96% for five years. Crestar Leasing Corporation has offered to extend those very favorable rates to finance the revenue control and gate equipment purchase.

The proposed resolution authorizes an installment purchase contract between the City of Asheville and Crestar Leasing Corporation for the purchase of the revenue control and gate equipment and authorizes the City Manager, Finance Director and City Clerk to execute and deliver any and all necessary documents.

Council adopt the resolution and enabling budget amendment.

RESOLUTION BOOK NO. 25 - PAGE 370

M. ORDINANCE NO. 2647 - BUDGET AMENDMENT TO FINANCE THE ACQUISITION OF REVENUE CONTROL AND GATE EQUIPMENT

Summary: See Consent Agenda Item "L" above.

ORDINANCE BOOK NO. 18 - PAGE 73

N. RESOLUTION NO. 99-197 - RESOLUTION FIXING A DATE OF PUBLIC HEARING ON JANUARY 11, 2000, TO CONSIDER THE VOLUNTARY ANNEXAION OF CONTIGUOUS PROPERTY LOCATED WEST OF OVERLOOK ROAD AND IDENTIFIED AS BRAESIDE SECTION 5 OF BILTMORE PARK

RESOLUTION BOOK NO. 25 - PAGE 372

O. RESOLUTION NO. 99-198 - RESOLUTION AUTHORIZING THE REGIONAL WATER AUTHORITY TO ACQUIRE EASEMENTS BY EMINENT DOMAIN

Summary: The consideration of resolutions: (1) Authorizing the institution of legal proceedings to acquire an easement for waterline installation on part of Monte Vista Road; and (2) waiving a conflict in legal representation to allow the Water Authority's counsel to bring the action in the City's name.

(1) Eminent Domain – the Regional Water Authority of Asheville, Buncombe and Henderson will soon need to complete installing new water lines and extending its service to an area on the west side of town beyond the City limits that includes Monte Vista Road. A waterline is proposed for installation in the area between the road and the drainage ditch along Monte Vista Road. Other than the temporary inconvenience associated with construction, this installation will not impair the usability of the affected residential properties, which will be served by the new line.

Agreements have been reached with other property owners on Monte Vista Road and the property at 721 Monte Vista Road, owned by Oris and Elizabeth Balding is the only holdout. The Water Authority authorized the initiation of legal proceedings to acquire the property in its meeting on September 21, 1999.

Pursuant to the Water Agreement, any real property or interest in real property acquired by the Water Authority must be held in the City's name. By extension, any proceeding in eminent domain to acquire the property must be brought in the City's name, and the City's authorization is therefore required in order for the Water Authority to take this action.

(2) Waiver of Conflict – The Water Authority is specifically authorized, pursuant to Section VI. N. of the Water Agreement, to employ its own legal counsel. The Authority's counsel is the law firm of Van Winkle, Buck, Wall, Starnes and Davis. That firm is also counsel for parties who oppose the City in several pending legal proceedings, notably the billboard litigation, and regularly represents property owners in land use disputes with the City. Technically, representation of the City by Van Winkle in this eminent domain matter is a conflict that the City must waive. This is a minimal conflict and Van Winkle's representation of the City in this eminent domain proceeding will not give them access to any information that could compromise the City's position in any matter where they represent parties opposing the City.

City staff recommends City Council (1) Adopt the resolution authorizing the institution of eminent domain proceedings in the City's name, as the Water Authority has requested; (2) If the City Council has no objection to the Water Authority's use of the law firm of Van Winkle, Buck, Wall, Starnes and Davis in this eminent domain proceedings, the resolution waiving the conflict should also be adopted.

RESOLUTION BOOK NO. 25 - PAGE 374

P. RESOLUTION NO. 99-199 - RESOLUTION WAIVING CONFLICT IN LEGAL REPRESENTATION TO ALLOW THE REGIONAL WATER AUTHORITY'S COUNSEL TO BRING AN ACTION IN THE CITY'S NAME

Summary: See Consent Agenda Item "O" above.

RESOLUTION BOOK NO. 25 - PAGE 275

Q. RESOLUTION NO. 99-200 - RESOLUTION AUTHORIZING THE MAYOR TO EXECUTE A WAIVER AND RELEASE OF BUILDING RESTRICTION TO ALLOW THE CONSTRUCTION OF AN ADDITION FOR THE COLBERN GEM AND MINERAL MUSEUM PROPERTY CONVEYED TO THE CITY OF ASHEVILLE AND LEASED TO PACK PLACE EDUCATION ARTS AND SCIENCE CENTER INC.

Summary: The consideration of a resolution would authorize the Mayor to execute a Waiver and Release of Building Restriction to allow the construction of an addition for the Colburn Gem & Mineral Museum on property conveyed to the City of Asheville and leased to Pack Place Education Arts & Science Center, Inc.

The City of Asheville owns property on which Pack Place Education Arts & Science Center, Inc. ("Pack Place") is located. Colburn Gem & Mineral Museum ("Colburn Museum") is located within Pack Place. Colburn Museum desires to expand the portion of the Pack Place building occupied by it into a portion of an area known as a "courtyard," which is identified as "Tract Two" on "Lot D" on that plat recorded in Plat Book 56 at Page 64 in the Office of the Register of Deeds for Buncombe County. She reviewed the approximate location of the portion of the courtyard on which the building would be constructed.

In the deed wherein Pack Plaza Associates Limited Partnership ("Pack Plaza") conveyed to the City of Asheville certain properties, including Lot D shown on the above-referenced plat, there is a provision wherein the City and Pack Plaza promised that they would not permit the construction of any permanent building or roof structure in, on or above the property identified as Tract Two of Lot D as shown on the above-referenced plat.

In a Memorandum of Understanding dated October 28, 1988, by and among the City, Pack Place and Pack Plaza, the City and Pack Place agreed that they would not construct any permanent building or room structures in the courtyards, including Tract Two of Lot D of the above-referenced plat.

Landmark Management, PBL Investment, LLC ("Landmark") is a successor to the interests of Pack Plaza. Landmark and Pack Place have agreed to permit the construction of the extension of the building for Colburn Museum. It is necessary to execute a document wherein the consent of the parties to the construction of the extension of the Colburn Museum can be recorded in the Office of the Register of Deeds for Buncombe County.

The City Attorney's Office recommends adoption of the resolution.

RESOLUTION BOOK NO. 25 - PAGE 376

Mayor Sitnick said that members of Council have been previously furnished with a copy of the resolutions and ordinances and the Consent Agenda and they would not be read.

Councilwoman Field moved for the adoption of the Consent Agenda. This motion was seconded by Councilwoman Whitmire and carried unanimously.

III. PUBLIC HEARING:

A. PUBLIC HEARING TO CONSIDER A CONDITIONAL USE PERMIT FOR A TELECOMMUNICATIONS TOWER AT 200 TUNNEL ROAD

Mayor Sitnick said that this public hearing was opened on September 28, 1999, and continued until November 23, 1999. On November 23, 1999, the public hearing was continued until this date.

See Continuance Request above.

B. PUBLIC HEARING RELATIVE TO THE CONDITIONAL USE PERMIT FOR THE SWEETEN CREEK CONDOMINIUMS (THE CARLYLE) LOCATED AT 3195 SWEETEN CREEK ROAD

ORDINANCE NO. 2648 - ORDINANCE APPROVING THE CONDITIONAL USE PERMIT FOR THE SWEETEN CREEK CONDOMINIUMS (THE CARLYLE) LOCATED AT 3195 SWEETEN CREEK ROAD

Mayor Sitnick opened the public hearing at 5:19 p.m.

City Clerk Burleson administered the oath to anyone who anticipated speaking on this matter.

Ms. Stacy Merten, Urban Planner, submitted into the record City Exhibit 1 (Affidavit of Publication), City Exhibit 2 (Certification of Mailing of Notice to Property Owners); and City Exhibit 3 (Staff Report).

Ms. Stacy Merten, Urban Planner, said that this is the consideration of a conditional use permit as outlined in the Unified Development Ordinance (UDO) for the Sweeten Creek Condominiums (the Carlyle) located at 3195 Sweeten Creek Road. This public hearing was legally advertised on December 10 and 17, 1999.

Sweeten Creek Apartments, LLC, has submitted development plans for Level III site plan review. The project is a new 80 unit condominium complex consisting of two 3-story buildings and six 2-story buildings, with a combined total of 108,040 square feet. The developer has reduced the number of units on the site to comply with the UDO requirements for hillside area development. The developer has also obtained permits from the Army Corps of Engineers as there are designated wetlands located in the site. There will be one new driveway entrance off Sweeten Creek Road to serve the development. The Technical Review Committee (TRC) reviewed the plans at their meeting on July 19, 1999, and took action to approve with the following conditions:

- Plans must be revised to show compliance with the City's Hillside Area Development regulations.
- Provide figure for the total open space to be provided as well as a figure for the size of the largest contiguous area of open space. A letter from the Norfolk & Southern Railroad must be submitted which authorizes the use of a portion of the railroad easement for open space.
- The North Carolina Accessibility Code must be met for this project.
- A detailed final landscaping and buffering plan must be approved by the Planning and Development Department. Please note that the City strongly encourages the retention of as much existing vegetation as possible within the required buffer areas.
- Provide detail of the proposed fence which will screen the dumpster locations.

392

- Recommend lighting to stay within a 16-20 foot height limit.
- Submit sewer plan to MSD for review and approval
- Plans must meet MSD rehabilitation requirements as outlined in the MSD allocation letter for the project.

City Council must take formal action as set forth in section 7-5-5(e) of the UDO, and must make the following findings based on the evidence and testimony received at the public hearing or otherwise appearing in the record of this case [UDO 7-16-2 (c)]:

1. That the proposed use or development of the land will not materially endanger the public health or safety.

   The proposed development is a new condominium development on a hillside with an average slope of 16.5%. The developer has reduced the number of units by 15 less than what would technically be allowed on the site, in compliance with the requirements of the Hillside Area Development Standards The project has also received a permit from the Army Corps of Engineers as there are designated wetlands on the property. The impacts of the development will not materially endanger the public, health or safety.

2. That the proposed use is reasonably necessary for the public health or general welfare, such as by enhancing the successful operation of the surrounding area in its basic community functions or by providing an essential service to the community or region.

   The proposed development will enhance the successful operation of the surrounding community in its basic function by providing needed housing and adding to the mix of housing types available to the community.

3. That the proposed use or development of the land will not substantially injure the value of adjoining or abutting property.

   The neighboring uses include a mobile home park to the north, and Ravenscroft Condominiums and Arbor Terrace to the south. The site backs up to the railroad on the west side. The plans show a buffer meeting the landscaping requirements of the UDO which will mitigate any possible negative impacts of the new development.

4. That the proposed use or development of the land will be in harmony with the scale, bulk, coverage, density, and character of the area or neighborhood in which it is located.

   The proposed project is located in an area zoned RM-16. The neighboring uses to the proposed development are also medium to higher density multi-family developments which conform to the zoning and are in character with the proposed development.

5. That the proposed use or development of the land will generally conform with the Comprehensive Plan and other official plans adopted by the City.

   The Asheville City Plan 2010 indicates medium density residential development in this area.

6. That the proposed use is appropriately located with respect to transportation facilities, water supply, fire and police protection, waste disposal, and similar facilities.

The proposed development is located in an existing developed area. The project received technical approval from the Water Resources Department, the Fire Department, MSD, Engineering and Public Works.

7. That the proposed use will not cause undue traffic congestion or create a traffic hazard.

A Traffic Impact Analysis (TIA) was prepared for this site as required by the UDO. The TIA considered the impact of this development and other projected traffic on the transportation system. The TIA acknowledged that there is an existing problem at the intersection of Sweeten Creek Road and Mills Gap Road, but concluded that the addition of new traffic from this development will only minimally impact this intersection. The City Engineer and Traffic Engineer reviewed the findings of the TIA for accuracy and concur with the findings

A copy of the site plan was previously furnished to City Council for review prior to the public hearing.

The Planning and Development staff and the TRC find that the project will meet all the technical standards for development in the RM-16 zoning district if all of the attached conditions are addressed.

Mr. Jeff MaHaffey, representing Land Planning Collaborative, passed out 3 drawings (Applicant Exhibit 1) and spoke in support of this affordable housing option. He said that the purchase price would be approximately $85-90,000 for each unit.

Mayor Sitnick closed the public hearing at 5:26 p.m.

Councilwoman Whitmire moved to approve Ordinance No. 2648, which approves the conditional use permit for Sweeten Creek Condominiums (the Carlyle) located at 3195 Sweeten Creek Road, subject to the conditions of the Technical Review Committee being met. This motion was seconded by Councilwoman Field and carried unanimously.

ORDINANCE BOOK NO. 18 - PAGE 75

C. PUBLIC HEARING RELATIVE TO AMENDING THE UNIFIED DEVELOPMENT ORDINANCE WHICH WOULD ESTABLISH SUPPLEMENTAL DEVELOPMENT STANDARDS FOR LARGE RETAIL STRUCTURE

ORDINANCE NO. 2649 - ORDINANCE AMENDING THE UNIFIED DEVELOPMENT ORDINANCE WHICH WOULD ESTABLISH SUPPLEMENTAL DEVELOPMENT STANDARDS FOR LARGE RETAIL STRUCTURE

Mayor Sitnick opened the public hearing at 5:28 p.m.

Senior Planner Gerald Green said that this is the consideration of amending the Unified Development Ordinance which would establish supplemental development standards for large retail structures. This public hearing was legally advertised on December 10 and 17, 1999.

The Planning and Zoning Commission, at their November 10, 1999, meeting, reviewed and recommended approval of an amendment to the Unified Development Ordinance which would establish supplemental development standards for large retail structures. Structures subject to the supplemental development standards are identified in the amendment as:

- Single tenant retail structures with a gross floor area of more than 75,000 square feet in the Highway Business District;
- Single tenant retail structures with a gross floor area of more than 100,000 square feet in the Regional Business, Commercial/Industrial, Industrial, and River Districts; and
- Multiple tenant retail structures with a gross floor area of more than 100,000 square feet in the Highway Business, Regional Business, Commercial/Industrial, Industrial, and River Districts.

Goals of the supplemental development standards are to:

- Employ high quality building design;
- Blend building design and layout with other site features;
- Avoid bland and monotonous building design; and
- Ensure that buildings contribute to the community character of the City.

To achieve these goals, the ordinance amendment establishes supplemental development standards addressing building design, building material and color, landscaping and buffering, lighting, pedestrian amenities and circulation, and customer entrances. Design professionals and developers are provided a great deal of flexibility in meeting the supplemental development standards through the provision of a variety of design standards from which they may choose. Meeting approximately 70% of the standards will result in a recommendation for approval of a basic retail structure; bulk retail structures will have to meet approximately 50% of the supplemental standards.

The amendment identifies large retail structures as conditional uses. During the review process they would be reviewed for compliance with the supplemental development standards. The amendment does not require an additional review process for these structures, as they are currently reviewed as conditional uses.

The Asheville Planning and Zoning Commission voted 6-0 to recommend approval of the wording amendment. The Planning and Development staff recommends approval of the amendment.

Upon inquiry of Councilwoman Field, Mr. Green said that in the staff's presentation to City Council, they will address those issues identified to them as major concerns.

Councilwoman Field felt this amendment is a really good start on design based zoning and a way of assuring that a lot of people have input on what happens.

Councilman Hay said that this builds in a communication with staff and let's them tell developers what they would like to see and builds in a structure for that to happen. He understands that it will evolve over time and the points will be revised by staff as they learn more about what the community and Council wants to see.

Upon inquiry of Councilman Peterson, Mr. Green said that if the developers do not make an effort to change their design, staff would point out to City Council that the developer failed to comply with the supplemental development standards noting that the ultimate approval or denial rests with City Council.

Upon inquiry of Councilman Peterson, City Attorney Oast said that staff is discussing the possibility of including the Planning & Zoning Commission in the process of reviewing conditional use permits, and when their review is complete, they will report their results to City Council.

Mayor Sitnick closed the public hearing at 5:51 p.m.

Mayor Sitnick said that members of Council have been previously furnished with a copy of the ordinance and it would not be read.

Vice-Mayor Cloninger moved to adopt Ordinance No. 2649. This motion was seconded by Councilwoman Field and carried unanimously.

ORDINANCE BOOK NO. 18 - PAGE 80

IV. UNFINISHED BUSINESS:

A. I-26 DESIGN CONCEPT

Planning & Development Director Scott Shuford said that at last week's worksession, Council directed him to develop a concept on how to obtain additional public input regarding the N. C. Dept of Transportation (NC DOT) corridor project. This direction specified that the added public input process be consistent with the Technical Advisory Committee's recommendation that NC DOT's project schedule be expedited.

Pursuant to this direction, he recommended the following process for allowing meaningful public input in a manner designed to not interfere with the project schedule. If Council is comfortable with this approach, staff will return with more specifics, as well as some general transportation planning information, at an upcoming Council meeting.

First, it is important to provide balanced technical expertise at the design forum. Transportation planning is a field undergoing many innovations and it is critical to take advantage of recent developments in the profession as part of this process. Consequently, he recommended that the City bring in an independent facilitator(s)/observer(s) to provide technical expertise and balance. There are a number of academic sources for this type of facilitator/observer; the use of a university professor insures that we have someone up to date on transportation planning innovations while eliminating the conflict of interest issue that may be applied, fairly or unfairly, to someone in the private sector.

Second, it is crucial that we organize the design forum around separate issues so we can offer input on a wide range of matters. He suggested we set up tables and work areas around the following seven issues. Each table would be staffed with experts in the area, including City staff, Land-of-Sky staff, NC DOT staff, our academic facilitator(s), and members of the earlier corridor design task force, with each table presenting a summary of ideas at the conclusion of the forum for NC DOT consideration.

- West Asheville links (Amboy Road, Brevard Road interchanges; Virginia and Fairfax Avenue connections; etc.)
- 8 laning issue
- Bicycle/Pedestrian/Greenway/Transit issues
- Outer Loop concept
- Buffer issues
- Boulevard treatment for peripheral roads (Patton Avenue, I-240)
- River/Bridge issues

Third, the forum should occur on a Friday and Saturday to maximize input, including Friday evening. Stephens-Lee or the Civic Center would be possible locations for the forum.

Finally, to fit with the NC DOT schedule, the forum will need to occur by mid-February.

Mr. Shuford said that the NC DOT has asked for a formal request for their participation in the design forum. He suggested that, if the Council is comfortable with this proposal, that the Mayor write a letter to the NC DOT making that request.

Mayor Sitnick said that it was clear that there is a lack of consensus in the community regarding this project and a need on the part of the part of the community to ask questions and have concerns addressed.

Upon inquiry of Councilman Hay about the timing of the forum and the April NC DOT public hearing, Mr. Shuford said that if NC DOT is going to have an effective public hearing in April then we will need to give them time to look at the ideas and to actually take them through their engineering process in order to see if the ideas will work from a technical standpoint.

Councilman Hay said that he was told that there is a possibility of raising some private money to help pay for the forum and wondered how strict the NC DOT April public hearing date is. Mr. Shuford said the NC DOT is programming for that date but was unable to say how firm that date would be. If there is some slack in their schedule, he will certainly report back to Council.

Councilman Hay said that it was critical that we not lose any ground in proceeding with this project, however, a month or two at this critical stage may be a month or two well spent to make sure we get the most out of the forum and also that the NC DOT public hearing is as responsive as we want it to be from what we learn from the forum.

Councilwoman Field voiced concern over people raising funds to pay for the forum in that the public may think that the process was tainted. She had no problem in delaying the forum if that would make it a better process. But she did have a problem with delaying the forum in order to give people time to raise funds to help sponsor it.

Vice-Mayor Cloninger felt we could have a better forum if we get participation from a variety of groups, including a variety of financial support. He had no problem in asking foundations, non-profits, etc. to participate with the City financially with the forum.

Councilman Whitmire felt that it would be okay to accept financial help from foundations, however, not from the Chamber of Commerce, for example. She suggested some facilitators that Mr. Shuford might contact to help with the forum.

Councilman Peterson strongly suggested that Mr. Shuford invite the neighborhoods and business groups that will be directly affected by this project to the forum.

When Councilman Peterson asked what the outcome of the product from the forum would be, Mr. Shuford said that past forums have resulted in drawings which will then be transmitted back to the actual design professionals at the NC DOT for consideration.

Upon inquiry of Councilman Peterson about the role the NC DOT staff would be taking in this forum, Mayor Sitnick said that she was assured that the NC DOT staff would be present and would actively participate.

It was the consensus of City Council to have the Mayor send a letter to the NC DOT requesting their participation in the design forum.

V. NEW BUSINESS:

A. RESOLUTION NO. 99-201 - RESOLUTION APPROVING AMENDMENTS TO "LEASE AGREEMENT" AND "PRESERVATION, OPERATION AND REHABILITATION AGREEMENT" FOR GROVE ARCADE BUILDING

RESOLUTION NO. 99-202 - RESOLUTION AUTHORIZING NON-DISTURBANCE AND ATTORNMENT AGREEMENT FOR GROVE ARCADE

RESOLUTION NO. 99-203 - RESOLUTION AUTHORIZING THE CITY TO FORM A CORPORATION FOR THE PURPOSE OF PARTICIPATION IN OPERATION OF GROVE ARCADE PUBLIC MARKET RESTORATION WORK

RESOLUTION NO. 99-204 - RESOLUTION AUTHORIZING CONVEYANCE OF FACADE EASEMENT FOR GROVE ARCADE

Vice-Mayor Cloninger asked to be excused from participating in this issue since his firm represents the Grove Arcade Public Market Foundation. Therefore, Councilman Worley moved to excuse Vice-Mayor Cloninger from participating in this matter due to a conflict of interest. This motion was seconded by Councilwoman Whitmire and carried unanimously.

City Attorney Oast said that this is the consideration of Amendments to the Lease and Operating Agreement, and other documents, to allow for financing of improvements at Grove Arcade. He then reviewed the new structure of the Grove Arcade ownership and management. He also reviewed the current leasing structure of the Grove Arcade, the proposed new structure, and the highlights of the Grove Arcade transition.

In the Spring of 1997, the City acquired the Grove Arcade Building by Quitclaim Deed from the United States Government. The building was built originally as a public market and was so operated until 1942, when the federal government took it over in connection with the country's World War II efforts. The building's exterior windows and doors were bricked up by the federal government, which used the building until 1994.

- Summary of Activities: The conveyance to the City was essentially without consideration, but it was subject to significant restrictions on how the City could dispose of the building and how it could be used. The Grove Arcade Public Market Foundation (herein "GAPMF"), a non-profit corporation, was established for the purpose of rehabilitating Grove Arcade. In August of 1997, the City entered into a long term lease of the Grove Arcade building to GAPMF. The redevelopment proposal calls for the public market to be reestablished on the First Floor and a portion of the Mezzanine and for a combination of office and residential uses on the Third and Fourth Floors. GAPMF, with the permission of the City, subleased the balance of the mezzanine and the upper floors to Skelton Development of Atlanta to develop the office and residential uses.

The City's lease with GAPMF recognized that the financial structure for the rehabilitation was subject to change, depending on the availability of such things as tax credits and possible participation of other financial partners. While GAPMF remains ultimately responsible to the City for the debt service on the Certificates of Participation that were issued to finance the public market part of the renovations, the City has the authority to approve amendments as necessary to accommodate financial arrangements and participation by other developers.

The uniqueness of the Grove Arcade rehabilitation project has made conventional financing difficult to obtain, and construction, has proceeded more slowly than anticipated. Marketing and leasing, however, have gone better than expected. After long negotiations involving GAPMF, Skelton Development, local and national financial institutions, real estate companies, and the United States Government, and after some changes in tax laws, a financial structure has finally been proposed that will: (1) allow GAPMF to take advantage of the significant tax credits available for the historic rehabilitation of the building; and (2) provide for substantial financial participation by another party on both the public market side and the residential/office side of the project.

Since a for-profit (taxpaying) entity was needed to take advantage of the available tax credits, the City Council earlier this year approved the assignment of the lease by GAPMF to Grove Arcade Preservation Inc., (herein "GAP, Inc.") a for-profit subsidiary corporation wholly controlled by GAPMF. This was to permit investments in the project and the utilization of legally available tax credits by a qualified New York Stock Exchange investor.

- Effect of Proposed Amendments: Under the current proposal, the investor will still participate in the project as before, but instead of those tax credits running through one for-profit subsidiary corporation, there will be two for-profit limited liability companies (herein "LLC"):

(a) One of the LLC's will be Grove Arcade Restoration LLC (herein "GAR"), consisting of GAP, Inc. as the managing partner and operating entity, and an investor corporation as a 99% financial participant. GAR will be responsible for developing the first floor, together with portions of the mezzanine and basement, of the Arcade Building as a public market in the same way that GAPMF proposed to do. Through GAP, Inc., GAPMF will still have full control as developer and manager of this part of the project.

(b) The other LLC will be the Historic Grove Arcade LLC (herein "HGA"), consisting of a management company controlled by Skelton Development as the managing partner and an investor corporation as a 99% financial participant. HGA will be responsible for developing the second, third and fourth floors of the Arcade Building, together with portions of the mezzanine and basement, in the same way that Skelton Development had previously been approved to do.

Each LLC will essentially be subject to the same agreements as are currently in place with GAPMF and Skelton Development, and each LLC will be managed and controlled by the entities that are currently developing the building. GAPMF will continue to be financially responsible to the City to the same extent as before. Negotiations between GAPMF and Skelton on the one hand, and the potential investor corporations on the other, for participation in the subsidiary LLC's are not yet finalized, but according to representatives of GAPMF, agreements in principal have been reached, and closing will occur by year's end if the City approves. The extent of the financial participation by the investor corporations is expected to be worth millions of dollars, and should kick the entire project into high gear, such that it will come on line, despite delays in the start of construction, well within the five (5) year provided for in the City's agreement with GAPMF. The proposed amendments will not extend this period.

One feature of the new proposal will involve the City becoming an organizational participant in the Grove Arcade development. In order to preserve the ability to use the rehabilitation tax credits, it is necessary that GAP, Inc., as the managing partner of the for-profit GAR LLC, have 21% participation by an entity that is not controlled by GAPMF. This could be any person or corporation, but GAPMF and its attorneys have suggested that, in order to ensure that the City remains appraised of all activities of GAR, the City would form a wholly-owned subsidiary corporation whose sole purpose is to participate with GAP, Inc. in the ownership structure of GAR. The City's participation would be for ownership purposes only, would be in the nature of a limited partner, would not require any additional financial commitment by the City, and would not expose the City to any additional risk of loss in the event of financial problems. The City's ownership in GAR would be 21% of GAP, Inc.'s 1% interest.

- Non-Disturbance and Attornment Agreement: This is an item required by the investor corporations in order to protect their investment during the tax credit recapture period.

This is an Agreement whereby, if the covenants and restrictions of the Quitclaim Deed from the United States to the City are violated such that title to the Grove Arcade Building could revest in the United States pursuant to the Quitclaim Deed, the United States would continue to honor the existing leases of any party whose use or occupancy was not the cause of the default or violation.

For instance, the Quitclaim Deed prohibits the City from selling the Grove Arcade Building except to another governmental agency that can assure the continued use of the building for historic monument purposes. In the unlikely event that the City were to violate this restriction, its title would revest in the United States, but the Agreement provides that the subleases would not be terminated. Rents under the subleases in this event would be paid to the United States.

Because of the degree of control that the City has over the project by virtue of the Lease Agreement and Preservation Agreement with GAPMF, and because of the working relationship between the City, GAPMF and the responsible federal agencies, the possibility of a default triggering revestment of the title in the United States appears to be remote at best.

One feature of this Non-disturbance and Attornment Agreement is that the United States is expressly agreeing to and approving the Lease, Subleases and Development Agreements, and essentially consenting to the activities described in all of them, and waives any breach of the conditions of the Quitclaim Deed (of which there have been none). This representation by the United States, in addition to protecting the subtenant LLCs, provides sound assurance to the City, by the only party that could enforce the applicable restrictions against it, that the restructuring authorized pursuant to the amendments is not inconsistent with the Quitclaim Deed or the Program of Preservation and Utilization, and that the City's possessory interest is not compromised by the amendments.

It is anticipated that within six years, GAPMF will reacquire its full ownership interest from the investor in GAR, and that Skelton will acquire the ownership interest in HGA. At that point, the ownership structure will revert to its original form.

In order to accomplish all of this, several things must occur:

(1) certain amendments to the Operating Agreement and the Lease between GAPMF and the City must be approved to permit the above described ownership and operating structure. The major features of these amendments include:

    (a) the subleasing to the LLCs GAR and HGA, by GAPMF must be approved;

    (b) the City may not unilaterally terminate the lease with GAPMF for five (5) years (currently, there is no such limitation). This five (5) year non-termination provision is necessary for purposes of the tax credits. In the unlikely event that termination becomes necessary, it will be possible by mutual consent. The City gives up none of its other remedies to enforce the Lease.

(c) the City must agree that the use restrictions in the Quitclaim Deed from the United States are being complied with in the new arrangement; federal officials responsible for oversight have indicated that the new arrangement will not violate the restrictions

(d) the City must agree to the sublessees using their leasehold interest as security to obtain financing (the Lease and Operating Agreement specifically contemplate this);

(e) The City agrees to a starting date for renovation work of 36 months after the date of its Lease to GAPMF (currently, that date is 18 months, and some work has in fact already begun). This will not extend the five (5) year time period for substantial completion of the improvements, which is provided for in the City's Agreement with GAPMF.

(2) the City must agree to a "Non-disturbance and Attornment Agreement," which essentially provides that the United States will honor the subleases to the LLC's if some default occurs that would cause the title to the building to revest in the United States (this is a standard feature of commercial subleasing arrangements);

(3) the City must agree to formation of a corporation to participate with GAP, Inc. in the ownership of the GAR LLC for the public market phase of the projects, or some other arrangement.

- Non termination: Of the changes summarized above, the one that will affect the City most significantly is giving up the right to terminate its lease with GAPMF for a period of five years, beginning at or about the effective date of the amendment, and continuing until early 2004. This five year non-termination period is a requirement of federal tax law, apparently to insure that the investor who is using the tax credits remains financially committed to the historic preservation project long enough to get it done, and does not simply collect the tax credit and move on. The rationale is apparently to guarantee that a historic preservation tax credit actually results in historic preservation.

Currently, the City may terminate its lease with GAPMF upon 180 days written notice for any failure by GAPMF to comply with the terms of the lease or operating agreement, or for any breach of covenants or restrictions applicable to the property. Such a breach would include, among other things:

(a) failure to make any payments provided for in the lease or operating agreement (these payments include assessments and taxes, utilities and operating expenses, and debt service on the certificates of participation);

(b) abandonment of the premises;

(c) failure to maintain adequate insurance

(d) failure to perform the renovations according to approved plans; and

(e) failure to maintain its non-profit status. Any of these failures constitutes an "event of default," which triggers a process that can result in termination of the lease.

If the lease were to be terminated under the current arrangement, then GAPMF would have no obligation to make any further payments thereunder. While the City could proceed against the bonds and insurance maintained by GAPMF to recover some of its loss, the City would still be bound by its preservation agreement with the federal government to rehabilitate the building (failure of which could result in loss of the property), and would still be responsible for the debt service on the COPs. About the only advantage the ability to terminate holds for the City is that if GAPMF does not proceed with the rehabilitation work, the City can step into GAPMF's position or replace GAPMF with another developer. The ability to terminate does not, by itself, accomplish the rehab work or guarantee financing for it.

Under the proposed arrangement, the LLCs must invest in the project and perform the rehab work in accordance with the preservation plan, or the tax credit is lost, together with the value of any improvements that were made. Since the tax credits are used all at once but the improvements are made over time, the loss of the credits, either by failure to complete the work or by abandoning the project before the expiration of five years, is financially catastrophic for the investor. Not only must the value of the credits be repaid to the IRS, with interest and substantial penalties, but the value of any completed work is potentially lost because it becomes the City's property under the lease.

Moreover, if either of the LLC's or GAPMF fails such that GAPMF cannot make its payments on the debt service (which is also an event of default under the current lease), then the investor corporations are bound to the City for 50% of GAPMF's obligations with respect to the debt service on the COP's.

In essence, while the City losses the ability to "punish" an event of non-compliance by unilaterally taking GAPMF out of the project (and in the process assuming responsibility for the rehab work), what is gained is:

(a) strong financial incentive for completing the work as planned;

(b) stronger financial disincentive for not completing the work as planned; and

(c) better security for the City's debt service obligation.

"Punishment" for non-compliance can still occur, but it is now backed up with significant financial leverage besides simply being removed from the project, and will be administered by the IRS. The new arrangement also enables participation by entities whose financial resources are substantial. If the project is successful, the City winds up with a boost to its downtown economy in the form of more consumer traffic, more jobs and a restored structure of national architectural and historic significance.

The new proposed arrangement is not risk free. By authorizing the subleases and giving up its right to terminate the lease with GAPMF, the City creates another layer between it and the developer of the project. Despite the financial consequences, the corporate investors could still pull out of the project, leaving the City with an incomplete building and a debt, as could happen with the current arrangement. If they do pull out, they will lose the millions of dollars they invested in order to claim the tax credits. The loss of direct control will be somewhat made up, at least on the public market side, by the City's participation as a partner in the controlling interest of the GAR LLC. On the whole, while some degree of control over the project is lost it appears that the proposed arrangement significantly improves the financial prospects of the project and involves less risk than the current arrangement, both because there will be more money available to complete the project, and better recourse available to the City if the project is

402

not completed. Finally, as noted above, even with the proposed amendment, GAPMF is responsible to the City for compliance with the terms of the lease.

In anticipation of closing, the investor corporations will immediately make a "bridge loan" of several hundred thousand dollars to provide for immediate resumption of work on the building until the loan is closed and funds are disbursed next month. This occurred on Friday, and the contractors are expected to be back at work on Monday.

These arrangements are still being worked out in anticipation that the transaction can close completely by the end of the year. In anticipation of closing, what will be needed from the City is approval to proceed with the items enumerated above, and authority for the Manager and the Mayor to execute appropriate documents. Through its ability to approve subleases, the City will have final approval over the new financial participants in the subsidiary LLCs. If Council agrees to the formation of a subsidiary corporation, the incorporation work will be done by GAPMF's attorneys, or otherwise paid for by GAPMF.

This is a complicated transaction, but this proposed structure is one that is fairly routine among entities that use tax credits to assist in financing expensive construction or rehabilitation projects. The terms of the City's agreements with GAPMF will not be changed in any way that compromises the City's position with respect to GAPMF's financial obligations to the City. Overall, the City's position, both financially and in terms of getting the project completed, appears to be enhanced by the proposed arrangement. If Council wishes to proceed authorize the changes that will effectuate the new arrangement, adoption of the following resolutions is recommended.

- The first resolution authorizes the amendments to the lease and operating agreements;
- The second resolution authorizes the Manager to enter into the non-disturbance and attornment agreement;
- The third resolution authorizes City staff to proceed with formation of a corporation to participate in GAR, in accordance with the limitations noted in this Staff Report; and
- The fourth resolution authorizes conveyance of a facade easement for the Grove Arcade.

Mr. Oast responded to several questions and comments from Council, some being, but are not limited to: what are the limits on the profit-making activity; who pays for the accounting requirements; will the residential units or condominiums built by Skelton Development be in the affordable range; what does the word attornment mean; what remedies would the City have if a breach of the contract occurred; what the effect of electric de-regulation would do to CP&L; what rights does CP&L have if in 2-3 years GAPMF cannot perform their part; is there an annual review process that takes place annually with CP&L; when did the five year date for "substantial completion" of the public market improvements start; can anyone sit on the corporation formed by the City; after the end of the five year period and the GAPMF re-acquires the full ownership of the building, will be GAR LLC be dissolved; and, who will the tenants be paying their rent to.

Councilman Hay was concerned about the project being abandoned with no improvements even being made to the building. He wondered if there was a way to tie the termination to the investment, that is, that we waive our right to terminate as of the time the investors make their commitment to the project.

Mr. Aaron Zaresky, Executive Director of the GAPMF, said that the investor has already committed that upon signing there will be approximately $700,000 in funds transferred immediately and they are anticipated to sign later next week.

Councilman Hay then confirmed that then the expenditure of money is contemporaneous with the waiver of the right to terminate.

Councilwoman Whitmire said that CaroHome is currently participating in two other projects in the community for affordable housing tax credits. So, we have an investor who is committed to our community, not for just five years, but for 30 years. This is a company that believes in Asheville and are committed.

Upon inquiry of Councilwoman Field, Mr. Lou Bissette, attorney for GAPMF, said that the units would be leased for a period of five years and after that time, they would be sold as lease-hold condominiums.

Mr. Bissette said that the GAPMF was formed as a non-profit entity to try to find a way to restore and save this national historic treasure and it has taken a long time and a lot of effort to get to this point, which will close next week. The investor, CP&L, is a North Carolina, reputable company and is in great financial shape. CP&L and Wachovia Bank will be putting something in excess of $10 Million into this project.

Councilwoman Field said that she would vote in favor of this, however, several merchants from existing businesses in downtown asked her the following questions which she would like answered so she can respond back to them: (1) Has the City Council looked into the impact of 70 new businesses on the existing businesses in downtown; (2) The GAPMF has committed to no chain stores. What assurance do we have that this will be true? We have worked hard and for a very long time to make a successful downtown; (3) The GAPMF has committed to not compete with existing businesses within a certain radius of the building. What is to say that this will be adhered to? (4) The failure of the project will be devastating to existing businesses in downtown. The majority of the merchants see this is a lose-lose proposition in that if the Public Market fails, the rest of downtown fails. They believe that the only way it can succeed is if the Public Market competes with other downtown businesses and encourages chain stores, which is exactly what most of the people don't want them to do; (5) Why is the City building 300 parking spaces for a project that is not yet made any contribution to downtown while turning a blind eye and a deaf ear to merchants who have committed to downtown for up to 10-20 years and have been paying taxes for 10-20 years. We need parking right now in the Pack Square and Biltmore quadrant of the City. (6) Why has the GAPMF totally ignored the downtown community while marketing their project based on how much they will do for our downtown?

Mayor Sitnick said that members of Council have been previously furnished with a copy of the resolutions and they will not be read.

Councilman Worley moved for the adoption of Resolution No. 99-201. This motion was seconded by Councilwoman Whitmire and carried unanimously.

Councilman Worley moved for the adoption of Resolution No. 99-204. This motion was seconded by Councilman Hay and carried unanimously.

RESOLUTION BOOK NO. 25 - PAGE 387

B. REPORT ON BILTMORE PARK HIGH TECH FLEX BUILDING

Mr. Dale Carroll, President of the Advantage West Regional Commission, said that they are involved in a collaborative project at the Biltmore Park Technology Center for a high tech flex space building. The unique partnership involves the City of Asheville, the non-profit development corporation through Advantage West, and also Biltmore Farms Inc. The need for this project was originated through a study in order to attach high technology companies to Western North Carolina. The 100 Technology Drive building was put in place at the Biltmore Park Technology Center and reported that it has in fact created high tech client traffic for our region. His staff has worked with an environmental technology company from Atlanta, we have worked with a medical technology company from New York, and currently there is a computer technology company that is considering space there. He also reported that Carolina Television Inc. has purchased one-half of the 100 Technology Drive building and is going to be expanding the studios for WLOS-TV. Equally important, they will be increasing their technical infrastructure in the park and at the building with microwave communication ability, with satellite communication ability and by strengthening the fiber optic telecommunication backbone for broad-band technology. All of this will help continue to momentum in the kind of client traffic we are seeing. This would not be possible without this product being available. In this fast-paced business world today, you must have the high tech flex space if you want to target effectively those kinds of companies.

Mr. Jack Cecil, President of Biltmore Farms, thanked City Council and staff for their cooperation in what was, at the time, a fairly unique deal that brought together a public body, a public non-profit, and a private sector.

Councilman Worley said it was nice to hear a success story, but also pointed out that it doesn't happen without some degree of risk. The City took a risk when it approved the investment in this project and Biltmore Farms took an even bigger risk in building the project.

C. PROPOSAL FROM PAUL AND JAMES YOUNG RELATIVE TO ACQUIRING PROPERTY NEAR THE ASHEVILLE REGIONAL AIRPORT TO OPERATE A MOTOR SPEEDWAY

Due to a conflict of interest, Councilman Hay excused Vice-Mayor Cloninger from participating in this matter. This motion was seconded by Councilman Worley and carried unanimously.

City Manager Westbrook said that Paul and James Young are interested in discussing the possibility of either acquiring or leasing property located on the northeast by Airport Road, on the southwest by the French Broad River and on the northwest and southeast by the Buncombe-Henderson County line from the City of Asheville to operate a motor speedway. In order to determine the feasibility of developing a motor speedway on this particular tract, they are requesting access to the property for up to 90 days to conduct certain tests on the property.

Mayor Sitnick said that to set the record straight about letters and comments, the City did not offer the Youngs the subject property at the Airport for possible development of a racetrack.

Mr. Lou Bissette, attorney representing Paul and James Young, said that their only request is for City Council to let the Youngs go onto the subject property for a period of up to 90 days to perform some tests to see if the property might be an adequate location for a new Asheville speedway. He said they are not requesting any commitment from the City in reference to acquiring the property. They realize the Airport, area residents and the Federal Aviation Administration have an interest in that property. But again, they are only requesting that they be allowed to go on the property and do some drillings to see if a racetrack would even work. If the property tests out and everything else falls into place, the Youngs would be interested in discussing the possibility of either acquiring this property from the City or leasing it. They would construct a facility which would be a very nice modern speedway and the investment would be in the several millions of dollars. It would operate basically Friday and Saturday nights for a period of four hours ending at 11:30 p.m. during April through September. There are noise abatement techniques that would be used and there would be a 100-foot buffer dedicated along the French Broad River which could be used for walking trails or greenspaces. He noted that Paul and James Young operated the Asheville Speedway this past final year in a first class manner. While passing out photographs of the property, Mr. Bissette talked about the property and it's history. For the past year the Youngs have been searching for a tract of land which might be suitable for the development of a new Asheville speedway. After months of searching, they have located this tract of property which is owned by the City of Asheville and contains approximately 54 acres. This property has been owned by the City since the 1950's and it is not in the lease of the property from the City of Asheville to the Airport Authority. The area is in the floodplain and located in close proximity to the end of the Airport runway. It would be good for a project such as this because it's located near some very large roads which would accommodate a lot of traffic. Racing has broad support in Asheville, Buncombe County and Western North Carolina, noting that NASCAR racing has more spectators than any other sport in the United States.

Mr. James Young said that they have been searching for a place not only to relocate a speedway but to have a community center noting that they want to have something that involves something more than just motor sports. They would like to participate in projects with the fair, Blue Grass Festival, church revivals, etc. Their plans consist of a driving course which would include a high speed driving course that they would make available to law enforcement agencies of Western North Carolina for training of high performance driving and a drag strip. If this project is completed as they would like, they want a lot of community involvement. They would like to go to 10 area high schools that have automobile mechanic classes and fund up to $5,000 per school, if they wished to participate, and start a program where they can drag cars against each other on a closed course, under supervision, and with proper medical attention close by. Kids now drag race on the streets and it's not safe. This would provide the kids with an opportunity to come to where it's legal to see how fast their cars can go. They would also like to make the track available in the summertime one night a week to have a cruise-in, with patrolmen on duty. They would also like to go to the Buncombe County and Henderson County Sheriff Departments and make a donation of $5,000 each for them to build a drag car and they could have cops and kids drag racing. He felt that anything they can do to promote respect and responsibility for the youth today is great. They are not asking for any tax breaks because it will be totally privately funded. He said that if this is accepted by City Council, then he would be more than happy to meet at the Fletcher Town Hall and answer all their questions.

Mr. Robert E. Turner , Chairman of the Regional Airport Authority, reported on the statistics regarding the Asheville Airport and the benefits of the Airport to our region. He said the Airport Master Plan of August 1993 is the preeminent planning document for the Airport Authority and has been accepted and approved by the Federal Aviation Administration ("FAA") for the 20 year period through 2013 as a guide for future development at the facility. Because the Airport is hemmed in on the east by highways and development, the Master Plan calls for west side development to provide for long range expansion for a variety of future aviation-related uses including a proposed parallel runway of a minimum of 6,800 feet in length designed to air carrier standards, air freight facilities, additional general aviation facilities and air field service facilities. The subject property has clearly been identified and approved by the FAA as suitable and appropriate for future development of aviation facilities, in support Asheville Regional Airport Authority's mission to provide facilities for aviation services meeting the needs of Western North Carolina. In light of this planning, the Regional Airport Authority adopted a resolution on December 20, 1999, which requested that the City of Asheville not permit any non-aviation related activities on such real property and that such real property be reserved and preserved solely for the use of the Asheville Regional Airport.

Upon inquiry of Mr. Richard Lantrip, President of the High Vista Homeowner's Association, City Attorney Oast said that the City can dispose of real property in several ways, but all of the ways that would be applicable with this property would involve the opportunity for upset bids. He said that the City would have to sell it to the highest bidder.

The following residents spoke in opposition to locating a speedway near the Airport on City owned property for several reasons, some being, but are not limited to: extreme noise levels; a race track is not suited for, and would be detrimental to, the congested and high growth corridor between Buncombe and Henderson Counties; the quality of life in the surrounding area will be compromised; major benefits will accrue to the developers of the race track, but will be a significant detriment to the residents of the surrounding area; Henderson County Commissioners took appropriate action to protect groups (not only in Henderson County, but in Buncombe County) from the adverse impact of a race track and they request the City of Asheville take appropriate action as well; property values up to 10 miles away will be decreased ; current development activities underway will be negatively impacted; future residential developments in this area will be negatively impacted; future needs of the Airport must be given priority status; it would be more prudent to consider the proposed land for an upscale industrial park that would benefit both counties; a rack track would add very little to the economic growth of the workforce; a race track would only generate more traffic; Fletcher is highly concerned of any type of development, growth, changes, growing pains that they will be seeing surrounding the communities; there is already a $10 Million race track being built only 11 miles from East Asheville in Canton, N.C.; soil sampling testing is only first step towards acquiring the land; noise from the planes is neither consistent nor a nuisance and the sound for the takeoff of a jet is less than 20 seconds and does not occur frequently - noise from a race would be much louder and for several hours at a time; and Westfelt Park is a resource in the area that enjoys fishing, picnicking, etc., and that character will be destroyed:

Mr. Richard Lantrip , President of the High Vista Homeowner's Association
Mr. Jamie McArthur, President of Wildwood Homeowner's Association
Councilman Byrd, Town of Fletcher
Mr. Bob Chapman, member of Residents Opposition Airport Race Track (presented pictures of the race track being built in Canton, N.C.)
Ms. Hilda Hamilton, member of the River Port Homeowner's Association
Mr. Al Cutter
Mr. Ukiah Morrison
Mr. Charles Swenson, resident in the Wildwood development

The following people spoke in support of allowing soil testing to be performed on the property near the Airport in hopes that it might be suitable for a race track. Reasons include, but are not limited to: the Airport doesn't need to expand; stock car engines are the less polluting engines there are with regard to pollution; the race track will provide a place for young people to go; noise will not be extreme because the area already has the noise of airplanes landing and taking off daily; the request is only for testing on the site; no special privileges are being asked for other than what was done at the Asheville Motor Speedway; noise decibels will not be any higher than they were in West Asheville; progress is being made in finding mufflers to lower the noise decibels even more; the site is in the floodplain and would not be suitable for major commercial development; the topography, two highways and the Agricultural Center are located between the site and the residential communities, thus helping to defuse the noise of the race track; the race track will pay taxes to the City; diversity should be encouraged; an industrial park in a flood plain area is not a wise investment; site is not long enough for a runway; the site can be used as a joint parking lot for patrons of the Asheville Airport and the race track; the testing of the soil will be valuable to the City and save taxpayers money; and the race track will only have a minor impact on traffic because of the major interstate:

Mr. Mike Fryer, member of Speedway '99
Mr. Kermit Tolly, member of Speedway '99
Mr. Drew Weeks
Mr. Don Yelton, No Holds Barred
Mr. Dean Bonessy, area resident

Councilman Peterson preferred to postpone action on this matter until some questions were answered, i.e., asked what exactly is in the floodplain, what can be built on that property, and what exactly does the Airport Authority have planned for that site.

Councilwoman Field understood that this site is about 60 feet below the present one runway and if they do have it in their Master Plan, how they intend to get up that 60 feet. She remembered from an earlier presentation that there is already a second runway planned on properties that the Airport already owns. She wondered why we need another race track if there is already one being built 11 minutes away from Asheville. If a race track is not being built in Canton, she was curious about what was being built on that site. She was strongly supportive of the racing community having a place to race in Asheville.

Councilman Worley's major concern was where does this property fit in with the long-range Airport expansion. If this property legitimately fits into the long-range Airport expansion plans, then he would be very hard-pressed to do something different with it. He would like to see the plans from the Airport Authority in order to see how the Airport has treated that property in the long-range planning that has taken place to date. If it doesn't fit in with those plans, then he would entertain some other use.

Councilman Hay was satisfied by the strong statement by the Airport Authority about whether the Airport needs that land. He felt that by looking at the maps, any expansion plans to the west by the Airport would have to take into account that piece of land. He felt the Youngs did a tremendous job of running the speedway last year and he appreciated the way they have dealt with the City. He doesn't think the City has encouraged the Youngs at any point about this particular piece of property because he thought the City has always seen this as part of the Airport property. He hated to hold up the possibility that something else can happen out there or to offer any encouragement down that line at this point because quite frankly, he didn't think it heads anywhere. The sooner we tell the public that, the sooner the Youngs can be looking for a different site, the sooner the neighborhoods can relax, and the sooner the Airport Authority can go forward with their long-range planning.

Mayor Sitnick said that she was also very supportive of the racing community. She said that there are enough questions from Council at this point to delay taking action at this meeting.

It was the consensus of City Council to bring back this issue at the formal meeting on January 11, 2000, in order to get the Council's questions answered and the additional information requested. The City Clerk will compile a list of the questions posed by Council. The following groups were asked to participate in the dialog at the January 11, 2000, meeting: a representative of the Airport Authority, the petitioner, the developer, a representative of High Vista Homeowner's Association, a representative of Wildwood Homeowner's Association, and a representative from the Resident Opposition Airport Race Track.

At 9:00 p.m. Mayor Sitnick announced a break.

D. BRIEFING ON THE CITY'S Y2K PREPAREDNESS

City Manager Westbrook said that the City is prepared and has tested all of its facilities. He then reviewed the City's operational plan and contingencies for the Y2K event. The following Department Directors and other personnel will be at the Emergency Operations Center, as specified in the plan below: Mark Combs, Public Works Director; Irby Brinson, Parks and Recreation Director; Tom Frederick, Water Resources Director; John Rukavina, Fire Chief; Will Annarino, Police Chief; Terry Summey, Building Safety Director; Bill Schaefer, Finance Director; Jim Westbrook, City Manager; Doug Spell, Assistant City Manager; and Robin Westbrook, Public and Community Information Coordinator. Other Department Directors and key personnel already contacted by the Department Directors will remain on standby during the event period.

The operational plan is as follows:

1. Appropriate City staff and the Communications Center will be placed on operational alert beginning December 22, 1999. Operational alert for the purpose of the Y2K will be defined as a general heightened awareness of the Y2K situation and heightened alert status of individuals involved in normal, routine communications and other services provided by the City. The City of Asheville Emergency Operations Center will be on the Fourth Floor of the Municipal Building.

2. On Monday, December 27, 1999, at 0800 hours, the City will be placed on a Level I alert. A Level I alert is defined as the Communications Center being set up and prepared for any emergency. All operating departments will place appropriate people on standby alert during this period of time. At least Level I alert will be continued through January 5, 2000, at 1800 hours.

3. On December 31, 1999, at 1800 hours, the City will be placed on a Level II alert. Level II is defined as key Department Directors and other staff occupying the Emergency Operations Center and being prepared to manage the Y2K and weather emergency. All other Department Directors and key staff will be on standby and available by pager, cell phone, telephone or other means. The City will terminate the Level II alert when no further action is needed with regard to the Y2K and/or weather event.

4. The Emergency Operations Center will be placed on Level III alert, which is defined as full-scale operational emergency response, at such time as notified by the City Manager, the Assistant City Manager or other appropriate City official in response to large-scale Y2K problems and/or weather emergencies.

Five community centers have been selected as emergency centers. Those five centers are as follows: West Asheville, East Asheville, Montford, Murphy-Oakley and Stephens-Lee. Each community emergency center will be stocked with emergency supplies and have generator capability for electricity.

City facilities, where appropriate, will be locked and secure during a Level II operation of the Emergency Operations Center.

E. MOTION TO CONFIRMING TOM SOBOL'S REAPPOINTMENT TO SERVE AN ADDITIONAL THREE-YEAR TERM ON THE REGIONAL WATER AUTHORITY OF ASHEVILLE, BUNCOMBE AND HENDERSON

City Manager Westbrook said that this is the consideration of a request from Buncombe County to permit Mr. Thomas Sobol to serve an additional three year term on the Water Authority from October 1999 through September 2002.

The Water Agreement between the City of Asheville and Buncombe County prescribes that each member of the Regional Water Authority be appointed for a three year term, and prescribes that the concurrence of the Water Authority, the City Council, and the Buncombe County Commissioners is required for members to serve additional terms.

The Water Authority By-Laws amended in 1986 by the joint concurrence of the City, County, and Authority, provided that a member of the Authority could serve up to two consecutive terms. Under these by-laws, it has been the practice of the Authority that the appointing authority (the City, Buncombe County, or Henderson County) could re-appoint a member to the Water Authority to a second consecutive term but not longer than two consecutive terms. Several re-appointments have been made since 1986 by both the City and County under these By-Laws. One of these was Mr. Tom Sobol, who was appointed to the Water Authority by Buncombe County in 1993 and reappointed in 1996. He completed two consecutive three-year terms in September 1999.

The County Attorney presented a request to the Water Authority in October 1999 to permit Mr. Sobol to serve a third term. At the regular meeting in November, the Water Authority endorsed this request. The Buncombe County Commissioners reappointed Mr. Sobol as a County representative to the Water Authority for a third term at their December 7, 1999, meeting. Under the terms of the Water Agreement, the City Council must concur in the decision to authorize Mr. Sobol another term.

The staff advises that the City Council exercise strong discretion in the review of all requests for Water Authority members to serve additional terms, to avoid setting a broad precedence that the same members can serve unlimited terms. In this particular case, Mr. Sobol has been a member of the County Commissioners since 1984, and has also served the community over a long period of time in the areas of tourism development and economic development. Should Council agree to reappoint Mr. Sobol, it should be clear that the appointment is for one term and is specifically made in view of the unique circumstances and experience of Mr. Sobol.

Councilman Peterson and Councilwoman Whitmire felt that City Council should follow their policy of only serving two full successive terms and not make any exceptions to the policy.

Councilman Worley noted that the City Council rules apply to City Council appointments and this is actually a Buncombe County appointment. He noted that the City Council is only being asked to concur with the recommendation of the Water Authority and the County Commissioners. The County Commissioners want a member of their Board on the Authority and to not reappoint Mr. Sobol would necessitate their reshuffling other Board appointments. He felt that Mr. Sobol has provided good, dedicated service to the Authority and would recommend concurring with the reappointment.

Vice-Mayor Cloninger supported the concurrence as well in that we should allow elected bodies broad discretion as to who they want to serve on their boards and commissions. He felt that if the County Commissioners made a similar request to City Council, City Council would want to honor that request. Also, our boards and commissions policy is not set in stone and City Council has, from time to time, extended a particular re-appointment to a third term for unique circumstances.

Councilwoman Field doesn't agree with the concept of term limits because she feels it is a disservice to the community to take someone off of a board who has performed good service for a number of years.

Upon inquiry of Councilwoman Field about if the City Council can re-appoint Mr. Sobol to serve until his term has ended on the County Commissioners, City Attorney Oast said that since he is a Buncombe County appointment, Council's ability to make the re-appointment for less than a full term is limited.

Councilman Hay said that he would support the concurrence to allow Mr. Sobol to serve an additional term. He agreed with the reasoning of fresh faces and fresh points of views on boards, however, the County Commissioners want a Commissioner on the Authority and it makes sense that it be Mr. Sobol.

Mayor Sitnick agreed with Councilman Hay and stressed that City Council is only being asked to concur with the recommendations of the Water Authority and the County Commissioners.

Councilman Worley moved to confirm Tom Sobol's reappointment to serve an additional three-year term on the Regional Water Authority of Asheville, Buncombe and Henderson due to the unique circumstances and experience of Mr. Sobol. This motion was seconded by Councilwoman Field and carried on a 5-2 vote, with Councilman Peterson and Councilwoman Whitmire voting "no".

VI. OTHER BUSINESS:

A. CLAIMS

The following claims were received by the City of Asheville during the period of December 3-16, 1999: Lori Huntley (Water), Evan Beveridge (Water), Carolyn Harwood (Fire), David Peter (Water), Steve Banner (Parks & Recreation), Terry Bencar (Water), Michael Jarvis (Inspections), Kathy Norins (Inspections), Rex Snodgrass (Inspections) and Beverly Reid (Sanitation).

These claims have been referred to Asheville Claims Corporation for investigation.

VII. INFORMAL DISCUSSION AND PUBLIC COMMENT:

Mr. Peter Dawes felt that City Council was setting a precedent in allowing Mr. Tom Sobol to be reappointed to serve an additional three year term on the Regional Water Authority. He felt that perhaps Mr. Sobol should be been appointed as an ex-officio member. He felt that the Authority needed fresh ideas.

Mr. Don Yelton suggested City Council help in any way that they can to help clean up property owned by Mr. Ellis Harold Roberts on 5 Woodlawn Terrace.

VIII. ADJOURNMENT:

Mayor Sitnick adjourned the meeting at 10:02 p.m.

Magdalen Burleson
City Clerk

Leni Sitnick
Mayor

412

Tuesday - January 11, 2000 - 5:00 p.m.

Regular Meeting

Present: Mayor Leni Sitnick, Presiding; Vice-Mayor M. Charles Cloninger; Councilwoman Barbara Field; Councilman Edward C. Hay Jr.; Councilman Brian L. Peterson; Councilwoman Terry M. Whitmire; and Councilman Charles R. Worley; City Attorney Robert W. Oast Jr.; City Manager James L. Westbrook Jr.; and City Clerk Magdalen Burleson

Absent: None

INVOCATION

Councilman Peterson gave the invocation.

ADDITIONS TO THE AGENDA

At the request of City Manager Westbrook, City Council added two items (1) report on I-26 Design Forum; and (2) Civic Center appropriation.

At the request of Mayor Sitnick, City Council added and item called "Ukiah Morrison".

I. PROCLAMATIONS:

A. UNITED WAY CAMPAIGN

Mayor Sitnick recognized Mr. David Bailey, Chief Executive Officer of United Way of Asheville and Buncombe County, who outlined the support given to the United Way by employees of the City of Asheville. He said that it appears to have resulted in the largest City employee campaign in our history.

The City of Asheville made significant contributions to United Way's 1999 campaign. City employees were the largest employee group to volunteer for Day of Caring (in fact, nearly half of the firefighters of the Asheville Fire Department volunteered to participate on their own time).

On behalf of City Council, Mayor Sitnick thanked City Campaign Co-Chairs Ms. Corinne Meade, Ms. Dee Black and Fire Department Captain Nancy Tabel who coordinated the Day of Caring) for their hard work on the United Campaign.

B RECOGNITION OF WILLOW KOERBER - WINNER OF THE NATIONAL MOUNTAIN BIKE AWARD

Mayor Sitnick recognized Willow Koerber, student at UNC-Asheville, and her accomplishment of winning the National Mountain Bike Award.

II. CONSENT:

At the request of Councilman Peterson, Item E. was briefly discussed.

A. APPROVAL OF THE MINUTES OF THE REGULAR MEETING HELD ON DECEMBER 21, 1999

B. RESOLUTION NO. 00-1 - RESOLUTION APPOINTING A MEMBER TO THE AMERICANS WITH DISABILITIES ACT COMPLIANCE COMMITTEE

Summary: On December 16, 1997, City Council appointed H. Earl Cobb as the elected representative on the Americans with Disabilities Act Compliance Committee. Due to Councilman Cobb's term ending on City Council, there is a need to appoint a replacement.

On December 14, 1999, City Council instructed the City Clerk to prepare the proper paperwork to appoint Councilman Brian Peterson as the elected representative to the Americans with Disabilities Act Compliance Committee to serve a term according to the length of his Council term of office.

RESOLUTION BOOK NO. 25 - PAGE 388

C. RESOLUTION NO. 00-2 - RESOLUTION APPOINTING A MEMBER TO THE ASHEVILLE-BUNCOMBE CRIME STOPPERS COMMITTEE

Summary: On June 22, 1999, Councilman Tommy Sellers was reappointed as the elected representative on the Asheville-Buncombe Crime Stoppers Board of Directors. Due to Councilman Sellers' term ending on City Council, there is a need to appoint a replacement.

On December 14, 1999, City Council instructed the City Clerk to prepare the proper paperwork to appoint Councilwoman Terry Whitmire to serve the unexpired term of Mr. Sellers, term to expire June 30, 2002, or until her successor has been appointed.

RESOLUTION BOOK NO. 25 - PAGE 389

D. RESOLUTION NO. 00-3 - RESOLUTION APPOINTING A MEMBER TO THE CITIZENS/POLICE ADVISORY COMMITTEE

Summary: On January 23, 1996, City Council appointed Councilman Tommy Sellers as the non-voting City Council member on the Citizens/Police Advisory Committee. Due to Councilman Sellers' term ending on City Council, there is a need to appoint a replacement.

On December 14, 1999, City Council instructed the City Clerk to prepare the proper paperwork to appoint Councilman Brian Peterson as the non-voting City Council member on the Citizens/Police Advisory Committee to serve a term according to the length of his Council term of office.

RESOLUTION BOOK NO. 25 - PAGE 390

E. MOTION SETTING A PUBLIC HEARING ON JANUARY 25, 2000, TO CONSIDER A CONDITIONAL USE PERMIT FOR NETTLEWOOD PROFESSIONAL PARK LOCATED ON HENDERSONVILLE ROAD IN THE VICINITY OF WAL-MART

Councilman Peterson said that after meeting with the developer and reviewing his plans, and after talking with some of the residents, it has come to his attention that the issue of access to the property has not been settled. Since one of the Council's criteria in evaluation a conditional use permit is the impact on traffic, he felt it would be inappropriate to hold the public hearing when that key component has not been worked out.

City Attorney Oast said that it was his understanding that City staff is prepared to go forward with the public hearing. There are questions about access, however, Planning staff feels that the project is ready for Council's consideration.

City Manager Westbrook said that the Traffic Engineer was not in his office today and was unable to review the information, however, a revised staff report will be sent to Council tomorrow with his evaluation of the traffic impact analysis.

Upon inquiry of Mayor Sitnick, City Attorney Oast said that even if the public hearing is set for January 25, City Council can continue the public hearing if City staff has not had adequate time to review the information.

Mr. Scott Shuford, Planning & Development Director, said that there are still some issues that need to be resolved. He has talked with the developer who has indicated a willingness to work towards resolution. If they are unable to get that resolved in time for the Planning staff to have adequate time to analyze it, they would then send a recommendation to continue the public hearing to allow further time for review.

Upon inquiry of Councilman Peterson, Mr. Shuford stated that the developer will have had to pretty well have the issue of his major access settled prior to the public hearing.

Mayor Sitnick said that members of Council have been previously furnished with a copy of the resolutions and ordinances and the Consent Agenda and they would not be read.

Councilwoman Field moved for the adoption of the Consent Agenda. This motion was seconded by Councilman Worley and carried unanimously.

III. PUBLIC HEARINGS:

A. PUBLIC HEARING TO CONSIDER A CONDITIONAL USE PERMIT FOR A TELECOMMUNICATIONS TOWER AT 200 TUNNEL ROAD

Mayor Sitnick said that a letter has been received from the petitioner American Tower Corporation requesting a continuance of this public hearing until February 8, 2000. This continuance would allow them time to receive final written approval from US Cellular which would allow them to stack their equipment on top of theirs, thus allowing American Tower to withdraw their application for a conditional use permit.

Vice-Mayor Cloninger moved to continue the public hearing until February 8, 2000. This motion was seconded by Councilman Worley and carried unanimously.

B. PUBLIC HEARING RELATIVE TO AMENDING THE UNIFIED DEVELOPMENT ORDINANCE REGARDING DETACHED GARAGES AS ACCESSORY USES

ORDINANCE NO. 2650 - ORDINANCE AMENDING THE UNIFIED DEVELOPMENT ORDINANCE REGARDING DETACHED GARAGES AS ACCESSORY USES

Mayor Sitnick opened the public hearing at 5:25 p.m.

Urban Planner Carl Ownbey said that this is the consideration of an ordinance amending the Unified Development Ordinance regarding detached garages as accessory uses. This public hearing was advertised on December 31, 1999, and January 7, 2000.

The Planning and Development staff has received several requests over the past several months proposing the placement of detached garages in front of the principal structure. Since this placement is not permitted under section 7-16-1.c.2.d of the Unified Development Ordinance, these requests have been taken to the Board of Adjustment for a variance.

This wording amendment will permit the location of a detached garage in front of the principal structure if:

1) the garage is not located in the front setback, and
2) the garage is located and/or designed so that it is clearly subordinate to the principal structure in terms of scale.

Given the topography of the Asheville area and the unusual shapes of some lots in the City, City Council, at their worksession on December 14, 1999, asked that the ordinance be amended to provide reasonable options and flexibility in the location of detached garages. The proposed ordinance before City Council addressed those concerns.

The Planning and Development staff presented the original proposed wording amendment to the Planning and Zoning Commission at their December 1, 1999, regular meeting. After presentation by staff, the Planning and Zoning Commissioners voted 6-1 to recommend to City Council the adoption of the original wording amendment.

When Councilwoman Field asked about the definition of "clearly subordinate" vs. "architectural compatibility", City Attorney Oast said that "architectural compatibility" is a judgment term and "clearly subordinate" can be defined.

Mayor Sitnick closed the public hearing at 5:30 p.m.

Mayor Sitnick said that members of Council have previously received a copy of the ordinance and it would not be read.

Vice-Mayor Cloninger moved for the adoption of Ordinance No. 2650. This motion was seconded by Councilman Hay and carried unanimously.

ORDINANCE BOOK NO. 18 - PAGE 87

C. PUBLIC HEARING RELATIVE TO AMENDING THE UNIFIED DEVELOPMENT ORDINANCE REGARDING BANKS AS RESIDENTIAL RELATED COMMERCIAL SERVICES

ORDINANCE NO. 2651 - ORDINANCE AMENDING THE UNIFIED DEVELOPMENT ORDINANCE TO ALLOW BANKS TO BE INCLUDED AS RESIDENTIAL RELATED COMMERCIAL SERVICES IN RM-16 RESIDENTIAL MULTI-FAMILY HIGH DENSITY DISTRICTS

Mayor Sitnick opened the public hearing at 5:31 p.m.

Urban Planner Stacy Merten said that this is the consideration of an ordinance amending the Unified Development Ordinance to allow banks to be included as residential related commercial services in RM-16 Residential Multi-Family High Density districts. This public hearing was advertised on December 31, 1999, and January 7, 2000.

Currently the Unified Development Ordinance (UDO) limits residential related commercial services to dining halls, beauty shops, barber shops, laundry facilities, food stores, newsstands, drug stores, and flower and gift shops as uses by rights subject to special requirements in the RM-16 zoning district. This amendment will expand the limits to allow banking facilities. This amendment was precipitated by a specific request from the Deerfield Community to locate a small, 423 square foot, banking center in one of their buildings for use only by residents of the community. The amendment also prohibits drive-through facilities for all residential related commercial services and specifies that all of the services shall occupy no more than 25 square feet per dwelling within the residential development. There was no comment at the public hearing

Planning & Development staff presented this wording amendment to the Planning & Zoning Commission at their December 1, 1999, meeting. The Commission voted unanimously to recommend to City Council the adoption of this wording amendment.

Mayor Sitnick closed the public hearing at 5:33 p.m.

Mayor Sitnick said that members of Council have previously received a copy of the ordinance and it would not be read.

Councilman Worley moved for the adoption of Ordinance No. 2651. This motion was seconded by Councilwoman Field and carried unanimously.

ORDINANCE BOOK NO. 18 - PAGE 89

D. PUBLIC HEARING RELATIVE TO ZONING HEATHBROOK AT BILTMORE PARK, PHASE II

ORDINANCE NO. 2652 - ORDINANCE ZONING PROPERTY KNOWN AS HEATHBROOK AT BILTMORE PARK, PHASE II

Mayor Sitnick opened the public hearing at 5:34 p.m.

Urban Planner Stacy Merten said that this is the consideration of an ordinance to zone Heathbrook at Biltmore Park, Phase II (Biltmore Park, Annexation Section 13) as RS-8, Residential Single-Family High Density. This public hearing was legally advertised on December 31, 1999, and January 7, 2000.

The Planning and Zoning Commission, at their December 1, 1999, meeting, reviewed and recommended approval to zone the recently annexed property known as Heathbrook at Biltmore Park, Phase II, as RS-8, Residential Single-Family High Density. This is a 4.82 acre tract, consisting of 22 individual parcels, adjacent to Phase I of Heathbrook which is also zoned RS-8. The newly annexed property is currently under development with single family residential housing. The proposed zoning will allow the development to go forward as planned with all of the lots conforming to the proposed zoning. There was no comment at the public hearing.

The Planning and Zoning Commission voted unanimously to recommend approval of the initial zoning as RS-8, Residential Single-Family High Density. The Planning and Development staff recommends approval of the new zoning.

Mayor Sitnick closed the public hearing at 5:35 p.m.

Mayor Sitnick said that members of Council have previously received a copy of the ordinance and it would not be read.

Vice-Mayor Cloninger moved for the adoption of Ordinance No. 2652. This motion was seconded by Councilwoman Field and carried unanimously.

ORDINANCE BOOK NO. 18 - PAGE 91

E. PUBLIC HEARING TO CONSIDER THE VOLUNTARY ANNEXATION OF CONTIGUOUS PROPERTY LOCATED WEST OF OVERLOOK ROAD AND IDENTIFIED AS BRAESIDE SECTION 5 AT BILTMORE PARK

ORDINANCE NO. 2653 - ORDINANCE TO EXTEND THE CORPORATE LIMITS OF THE CITY OF ASHEVILLE TO INCLUDE PROPERTY LOCATED WEST OF OVERLOOK ROAD AND IDENTIFIED AS BRAESIDE SECTION 5 AT BILTMORE PARK

Mayor Sitnick opened the public hearing at 5:36 p.m.

Urban Planner Paul Benson said that this is the consideration of an ordinance to annex property located west of Overlook Road and identified as Braeside Section 5 at Biltmore Park. The public hearing was legally advertised on December 31, 1999.

Biltmore Farms, Inc., has submitted an annexation petition for Braeside Section 5 at Biltmore Park. This area is north of and adjacent to Braeside Section 2 has been previously annexed and is within the corporate limits. Biltmore Park is generally located west of Overlook Road and north of Long Shoals Road. This annexation is pursuant to an agreement between Biltmore Farms, Inc. and the City of Asheville.

The area proposed for annexation consists of 10.5 acres and is platted for 4 single-family residential lots and a small reserve area. The area will be accessed by Braeside Circle.

Utilities and streets are being developed by Biltmore Farms, Inc. City services will begin on the effective date of annexation. Biltmore Farms, Inc. has requested that the effective date of annexation be six months from the adoption of the ordinance.

City staff recommends City Council annex property located west of Overlook Road and identified as Braeside Section 5 at Biltmore Park.

Upon inquiry of Mr. Don Yelton, City Attorney Oast said that City taxes begin on the effective date, which is in six months on this annexation.

Mayor Sitnick closed the public hearing at 5:38 p.m.

Mayor Sitnick said that members of Council have previously received a copy of the ordinance and it would not be read.

Councilman Worley moved for the adoption of Ordinance No. 2653. This motion was seconded by Councilman Hay and carried unanimously.

ORDINANCE BOOK NO. 18 - PAGE 93

IV. UNFINISHED BUSINESS:

A. REQUEST BY PAUL AND JAMES YOUNG REGARDING PROPERTY NEAR THE AIRPORT FOR A MOTOR SPEEDWAY

Due to a conflict of interest, Councilman Hay excused Vice-Mayor Cloninger from participating in this matter. This motion was seconded by Councilman Worley and carried unanimously. Vice-Mayor Cloninger then left the room.

Mayor Sitnick said that City Council had invited representatives of the Airport Authority, the Youngs, the High Vista Homeowners' Association, the River Port Homeowners' Association, Residents Opposition to the Airport Racetrack and Wildwood Homeowners' Association to answer questions raised by City Council at the December 21, 1999, meeting. She stated that she has received a letter from the Town of Fletcher as well as a letter from the Henderson County Board of Commissioners. In addition, Planning & Development Director Scott Shuford has provided City Council with their requested additional information from the December 21, 1999, meeting regarding the site near the Asheville Regional Airport proposed for a speedway.

Mr. Robert Turner, Chairman of the Asheville Regional Airport Authority, said that a special meeting was held by the Airport Authority and one of the questions surrounding the property which has been proposed for the racetrack was that of funding for its purchase by the City of Asheville and how that might affect its use. In summary of a letter received from the Federal Aviation Administration (FAA) on January 10, 2000, the property was purchased with Federal Aid for Development of Public Airports. The property is obligated under the grant agreement and may not be disposed of or used for purposes other than shown on the approved airport layout plan without the consent of the FAA. At the special meeting, as a result of the FAA letter, the Chair of the Airport's Buildings and Grounds Committee did not support making soil borings. There was a subsequent motion to allow the borings, however, the motion died for lack of a second. The inaction of the Authority is a reaffirmation of its December 20, 1999, resolution wherein the Authority requests the City to not permit any non-aviation related facilities on such real property and that such property be reserved and preserved solely for the use of the Airport.

Mr. Armour, Airport Director, reviewed with Council the Airport Master Plan process and explained the Airport Improvement Program. Using specific pages out of the Airport Master Plan, Mr. Armour pointed out that in the Airport Development Plan it states "A west side development area is recommended to provide the Airport with long-range expansion potential for a variety of future aviation-related uses. This will maximize the Airport's continued economic and development potential for the Asheville region." He then reviewed the economic impact of the Airport, the Air Space Plan, the Airport Layout Plan and the On-Airport Land Use Plan. He also quoted out of the Technical Report information on the floodplain issue.

Mr. Armour then read the following letter dated January 10, 2000, he received from the FAA from Scott L. Seritt, Manager of the Airports District Office in College Park, Georgia:

"As a follow-up to our meeting on January 6, I want to re-emphasize the Federal Aviation Administration's (FAA) position concerning the use of airport property acquired with federal assistance. The specific issue we discussed concerns the proposed construction of a racetrack at the Asheville Regional Airport.

"1. The property for the Asheville Regional Airport including the land proposed for the racetrack was purchased under Federal Aid for Development of Public Airports (FAAP) Project 9-31-024-5801 This property is obligated under the grant agreements and may not be disposed of or used for purposes other than shown on the approved airport layout plan (ALP) without the consent of the FAA.

"2. The 1993 Airport Master Plan (AMP) Update indicates an aeronautical need for the property proposed for the racetrack and it would not be in the best interest of the airport or the FAA to release the property. Note that a land release would require the airport sponsor to make a determination that the grant acquired land was no longer needed for airport purposes and establish its fair market value (FMV). The portion of the sale proceeds proportionate to the United States share of the acquisition costs would be paid to the Secretary for deposit in the Aviation Trust Fund.

"3. Any lease of grant acquired land must be at the current FMV and any funds generated must remain on the airport.

"4. The FAA may approve an interim use of aeronautical property for non-aviation purposes until such time as it is needed for its primary purpose. This requires a determination that such property will not be needed for any aviation use during the short-term contemplated. Investment by the interim user is at their risk and will not be a factor in considering any renewal of a lease or use agreement. FAA consent would be conditioned on the airport owners' agreement to apply the income from such use to the development, operation and maintenance of airport facilities.

"5. The conversion of any area of airport land to a substantially different use than that shown on the approved ALP could adversely affect the safety, utility or efficiency of the airport and constitute a violation of the grant obligations."

When Councilwoman Field asked how it is decided when it's time to build a new runway, Mr. Armour said that it is only a long-range project at this time. Presently there is approximately 90,000 operations on an annual basis. Even though the need for a new runway is based on a lot of things, one of those is the Airport serving between 150-200,000 operations on an annual basis.

Mr. Armour agreed with Councilwoman Field in that the Airport also wants the land reserved for safety reasons.

In responding to questions from Councilwoman Whitmire, Mr. Armour said that commercial air service only accounts for about 20% of their traffic. About 80% is general aviation and most of that is business and corporate related.

Councilman Peterson asked about the procedure that the City went through with the FAA to release the property which is currently leased to the Agricultural Center. Mr. Armour said that City petitioned the FAA and the FAA said that based on the development and layout of the airfield, the FAA determined the that property was in excess to the aviation needs. Mr. Armour did not know how long the process took in order to get the property released. City Attorney Oast also responded in that the lease with the Agricultural Center property was entered into in 1986 for an initial term of 20 years, renewable for four additional terms of 20 years each. He said the rental was $500,000 one-time one-sum payment that appears to have gone to the City of Asheville.

Mr. Armour noted that because the subject property was purchased by the City with federal funds, the property would have to sold at fair market value. He said the City would be responsible for paying the United States proportionate share which is normally 90%.

When Councilman Peterson asked about what restrictions do the private property owners have that live on the west side of the Airport, Mr. Armour said that the only restrictions that would affect the Airport would be the height of objects that might affect the navigable air space.

Councilman Peterson said that since the Airport Authority and the FAA are concerned with protecting the property surrounding the Airport for compatible uses, he asked what was being done to further protect that property. Mr. Armour said that the only way the property can be protected is through local zoning and comprehensive land use plans.

Mr. Samuel Tucker, retired air controller, said that Asheville does not have the capacity in the immediate future to promote dual or parallel runways.

Mr. Lou Bissette, attorney for the Youngs, said that he was Mayor of the City of Asheville in 1986 when the property was leased to the Agricultural Center. If he recalled correctly, none of that money was required to go the FAA - it went to the City of Asheville. He felt that the Airport is one the most important things to our community from an economic development standpoint. On January 5, 2000, when the Airport Authority met, he said there was a lot of discussion about letting the testing go forward and also some discussion of a short term lease (10-15 year range) that would allow the Youngs to build the racetrack, if they wanted to risk that, and still give the Airport the opportunity to get the property back if indeed they needed a new runway. On January 6, Mr. Armour talked to the FAA, then at the January 10 meeting the FAA letter was received. He said from all news accounts, you would think the FAA letter is something unique that was written that absolutely precludes the use of that property for a racetrack. That is not the case.

Mr. Bissette then responded separately to each paragraph in the letter: Paragraph One: Everyone knew the subject property was acquired with FAA funds and that was no big surprise. The Holiday Inn property, the White Westinghouse property, the WNC Agricultural Center, and the Exxon Station property were all acquired with FAA funds. Paragraph Two: The letter states that the use of the racetrack would have to be approved by the FAA. They've known that from the beginning and that is no surprise either. Paragraph Three: He was not sure where the Holiday Inn lease payments are going and the City just received a report from the City Attorney about the Ag Center lease payment. The information in paragraph three is nothing new. Paragraph Four: Mr. Armour just reported that the Master Plan calls for the runway to be built in the long-term or sometime in the 15-20 year range. This goes right along with the Airport Authority's discussions last week about a lease to the Young in the 10-15 year range, so that if in fact a runway is needed, then there would be a way to get it back and build it. In looking at the plans, with regard to safety, the White Westinghouse property and the Ag Center property appear to be as close to the runway as this property is. Information from the Airport Authority dated December 22, 1999, states that aircraft operations average 208 per day, and annually that would be approximately 76,000 per year - noting that Mr. Armour said that to build another runway would require approximately 150-200,000 operations per year. Because of those figures, a short-term lease is something that the Youngs could very well be able to consider. Paragraph Five: No one would say that anything be built on that property without getting FAA approval.

Mr. Bissette felt that the FAA has sent a similar letter every time to the City when they have explored using some of that property for other purposes. The letter is only a start and just spells out a procedure that has been used time and time again for property owned by the City around the Airport. The Youngs are asking for an orderly process for determining whether or not this new Asheville speedway should be allowed on this property. The process consists of four parts: (1) begins with allowing the Youngs to go onto the property for testing; (2) if the tests prove to be okay, then the Youngs would hire a designer who would design the facility and present to City Council, the Airport Authority and the FAA exactly what the facility would look like; (3) then Airport Authority and FAA approvals would be sought; and (4) then it would come back to the City Council for public input and Council could make the final decision on the transaction. He said that based on facts, no one is getting ready to begin work on a new runway. He urged City Council to allow the Youngs to test the soil.

Councilman Peterson said that the City has a great many needs, particularly recreational programs, parks, sidewalks, etc., and the Youngs have talked about their concern about the greater community. He wondered, if the City did lease the property if they find that some of that property is unsuitable for other uses, if they would consider working with the City to meet some of its other needs. Mr. Bissette said that knowing the Youngs and their interest in youth, he was certain they would be very amenable to working with the City on recreational facilities in that project.

Mayor Sitnick said that the safety feature to her is primary and she knows the Youngs would not want to do anything to create an unsafe situation, nor would the FAA allow that to happen.

When Mayor Sitnick said about how long it would take to build a speedway - beginning with the soil testing to the actual opening of the speedway, Mr. Bissette felt it would possibly take 1-1/2 to 2 years.

Mayor Sitnick asked who would make the determination of a lease termination. Mr. Bissette responded that that matter would be negotiated between the City, the Airport Authority and the Youngs.

Mayor Sitnick asked if a speedway could be enclosed to eliminate the noise concerns. Mr. Young responded that it could not be enclosed because of the fumes and enormous expense. Mr. Bissette also responded that the Youngs have had a noise consultant look at the project and will have a report if testing of the property is approved.

Councilwoman Field asked Mr. Young if he would continue to look for other suitable property if City Council did not approve access to this property. Mr. Young responded that at this point he was unsure if he would pursue other land options or not.

Upon inquiry of Councilman Peterson, Mr. Young said that the lease payment to the City for operation of the Asheville Speedway in 1999 was $75,000.

Mr. Dick Lantrip, speaking on behalf of High Vista Homeowners Association and the Regional Organization Against the Airport Racetrack and resident of Henderson County, clarified that even though land is partially in a floodplain, it can be used for development of other commercial, industrial and residential properties in addition to airport runway expansion, if the ground is properly prepared. He pointed out that in the 1993 the Airport Master Plan it is projected that property will be needed in the 11-20 year timeframe. If you take the 11-20 year projection and bring it to the current date of 2000, you could assume that the planned use of the property is in the 4-13 year range. He explained that there could be no guaranteed lease period for the Youngs because if the FAA or Airport Authority recognized the need for the property, the racetrack would have to give it up. He felt that the focus of the racetrack issue is moving away from the overall impact on the area and more toward the technical aspects of property control. He felt Council was focusing too much on whether the property can be authorized for racetrack use, who has control over that authorization, and under what terms and conditions could it be authorized for racetrack use - completely ignoring the detrimental impact the racetrack would have on that piece of property over the broad area of Buncombe County and Henderson County. He urged Council to refocus on the human elements that would be impacted by a racetrack on that property. He stressed that the racetrack will have a devastating impact on residents in the area. He explained some of the impacts being to the quality of life; decreasing property values; significant noise pollution; high traffic impact; adverse impact on the French Broad River basis; activities and influence that might surround a racetrack; and adverse impact on local churches and schools. He felt the property is prime for economic development in the area which would bring in more traffic to the Airport. However, he felt that to build a racetrack on that property would decrease the growth rate of the Airport. He said they have a letter of opposition signed by representatives of subdivisions, pastors of local churches, and homeowners that live outside subdivisions. He said the boundaries between Buncombe and Henderson Counties were adjusted in 1959 for the express purpose of building an airport. He questioned if there would be a violation of the intent of the land agreements if the City were to sell or lease it to the private industry for personal or financial gain.

When Mr. Lantrip mentioned that there might be other motivations driving the focus of the issue of the racetrack, Mayor Sitnick stressed that even though Mr. Bissette is a former Mayor of Asheville and Representative Martin Nesbitt is on our legal delegation, at no time has there been any conflict of interest or crossing the line of any person in this matter. Both attorneys have handled this matter in the most professional way, never using their positions to influence City Council in any way.

Ms. Hilda Hamilton, representative of the River Port Homeowners Association, spoke in opposition of the racetrack on the property at the Airport due to noise pollution and the significant decrease of property values if the racetrack is built.

Representative Martin Nesbitt, speaking on behalf of the racing community, reiterated what Mr. Bissette said in that there was nothing in the letter from the FAA that they did not know about, and discussed in great detail, before the Airport Authority meeting. They asked the Airport Authority how long they felt it might be before another runway would be built and the Authority anticipated that it would be at least 10 years. Amongst other things discussed at the Authority meeting was the possibility of Winston Cup and Bush teams using our Airport facility and using this racetrack as a test facility. He was of the opinion that if the racetrack was allowed to be built at that site, Winston Cup would fly their drivers in, test their cars and then fly them back out for appearances. They have talked about building buildings on the grounds so they would have a facility there where their crews could get the cars ready. That is economic development for the Airport and industry in that area. He made it clear that in these discussions no one has ever indicated that anything should be permitted on that property that would be adverse to the interests of the Airport. He urged City Council to support the racing community and allow the Youngs to test the soil on the subject property.

Mr. Norman Medford, resident of Haywood County and representative of Citizens for Improving Mountain Living, talked about the major obstacles regarding the proposed racetrack in Canton, citing no comprehensive water or sewer. He said that there is a strong consensus now that it may never be built in a timely manner that everyone is believing. Over 88% of the Canton community has not endorsed it.

Upon inquiry of Councilwoman Field, Ms. Cindy Michael, representing Canton Motor Sports Park, said that they are in the process of getting their permits ready to be applied for. Water and sewer issues have been addressed and they are looking into grants. They have their preliminary artist conceptual drawings and their plans. This will not be just a racetrack, but a family place - campgrounds and a lodge. Regarding the viability of this track, there has been 30 acres cleared. They are working with Canton Alderman Charlie Crawford who have been very helpful and is helping them get things through the political process. There are not as many restrictions in Haywood County as in Buncombe County, but it is private property and that allows them to do some things that you don't on a commercial or public piece of property. She said the access to the racetrack would be from Highway 19-23, which the State already has plans for widening that road.

Councilwoman Field stated that the Airport Master Plan shows that when the parallel runway is built that Fanning Bridge Road will be closed. She questioned what impact would be with the closing of that road. Mr. Armour said that they would have to provide private property owners with another access. But, because this is in the long-range plans, they have not gone into any details.

Upon Mayor Sitnick about the proposed new noise ordinance, City Attorney Oast said that the proposed ordinance does not contain decibel limitations of any kind and there are arguments for and against that. He will ask City Council to consider those arguments at the time he presents the Council with the proposed ordinance. What is generally acceptable in a residential area is ambient noises to the level of 65 decibels in the daytime. To the extent that our noise ordinance addresses decibels at all, that would be the line for a problem in a residential area. If it is a commercial area, the acceptable decibel limits are somewhat higher. He thought that noise levels in and around interstates are about 85-90 decibels.

Upon inquiry of Councilman Worley, Mr. Drew Weeks tried to explain what the decibel levels are at an airport with a jet taking off and what the decibel level of a racetrack would be, noting that they did have hire a noise consultant.

Mr. Stan Moser, resident of Henderson County, pointed out that the noise from loud speakers are intermittent and very irritating.

Upon inquiry of Councilman Peterson, City Attorney Oast said that the Holiday Inn has a lease with the City of Asheville and the City does receive that revenue, which is a percentage of their income.

Councilman Worley also noted that with regard to the Holiday Inn lease, it expires in 2040 and the City refunded the FAA $388,900 to release the property in August of 1989.

Upon inquiry of Councilwoman Field, Planning & Development Director Scott Shuford said that the property is zoned industrial which does not allow speedways. As with all rezonings, at least two public hearings would be held (one with the Planning & Zoning Commission and one with the City Council) and the land could possibly be rezoned to a more regional or highway business district. This would also constitute a Level III site plan consideration as well.

Councilman Hay said that for him personally, this is Airport property and it was acquired by the City for over 40 years for purposes of running the Airport. It is in the Airport Master Plan and it is part of the Airport, as far as he is concerned. The decision about how this should be handled is most properly, in his mind, in the hands of the Airport Authority. They have sent City Council a very clear message in December that they did not want the soil testing to go forward because they didn't see it was leading to anything. He stated in December that if the Airport changed it's position then that would make a big difference to him. They reconsidered their position and once again advised City Council that they don't see any future in this proposal and that they want to reserve the property for Airport uses.

Councilman Worley stated that he is generally supportive of motor sports and impressed with the orderly process the Youngs have outlined. However, he agreed with Councilman Hay that the property was clearly purchased for Airport use. He strongly believes in the long term and doesn't want to see the City or any governmental entity give up property that might be needed down the road because the cost for getting it back is always extraordinarily high. He also felt that the Airport Authority should make the decision on the use of that property because they are the ones charged with the stewardship of the Airport property and the ultimate decision about the long-term of our Airport. The Authority has requested that the City not allow soil testing. If City Council allowed soil testing and it still has to go to the Airport Authority for approval, perhaps that part of the orderly process is reversed. He felt he would have to respect the Airport

Authority's position because they are the ones who are entrusted with the Airport property. Even though he will vote against allowing soil testing at this time, he would reconsider that vote if the Airport Authority comes back at some later time and agrees to allow the testing.

Councilman Peterson stated that he was thinking of potential revenue to the City because there is a lot of demand for additional City services. He was very interested in the possibilities of additional City revenues through either a lease and the possible increases in sales tax. The needs of the Airport Authority is the highest and most important focus, but he was a little skeptical of the immediate need of an additional runway. With our current Airport and it's projected growth, he felt that need is pretty far down the road. He imagined that when those other properties that the City obtained FAA approval to release were first proposed for other uses, the Airport Authority was probably was not interested. However, those seem to have worked out fine. He felt that we should consider the impact on the residents and the economic impact of the area and the desire to be a good regional neighbor. But, also want to take into account the economic impact that racing might have to the benefit of Asheville and Buncombe County, for example some additional recreational facilities. He also agreed with Representative Nesbitt's comments that Buncombe County and Asheville should be a big enough place to have room for a racing community and he would like to support that community.

Upon inquiry of Councilwoman Field, Mr. Turner said there was never a proposal made to them to lease the property.

Mayor Sitnick said there no doubt there will be an impact for the community, but what level that impact will be has not been determined. Industrial or commercial growth in that area will also have an impact for the community. She felt the natives, new-comers, racers, retirees are all important to our community and this community depends on all of them. The Airport is crucial to our future in that it has been a deciding factor on whether corporate CEO's and smaller business owners located here. It was important to her, when she read the comments in the FAA letter, that this potential use may not be in the best interest of the Airport, that it could create a violation of grant obligations, that it could threaten future grant monies to the Airport and that there might be a possible adverse effect of the safety factor. However, there is a great economic impact on the community, on the City of Asheville, and on local business people without a speedway. While it is important for City Council to consider what might or might not be going on in Haywood County, that is not necessarily part of what she is thinking about in making this decision. It was her hope that this is not the only property the Youngs are considering because if the City and the Airport Authority allowed the soil testing, this property might not qualify. If it didn't, it would be her hope that the Youngs would continue in their search. With great conflict, with great compassion for the racing community, with great understanding of the human factor, and with the consideration of the Airport Authority, on two different occasions with the same result, she will abide by the Airport Authority's decision to now allow soil testing, knowing that the decision is theirs - it's their land and it's their need.

Councilman Peterson moved that the City grant permission for the Youngs to conduct soil testing on the City property adjacent to the Asheville Airport. This motion was seconded by Councilwoman Whitmire.

Councilwoman Field also felt this was a decision for the Airport Authority. If City Council approves the soil testing and the Airport denies the soil testing, then the Airport Authority has made the ultimate decision. She felt this issue was inappropriately placed with City Council. She also noted that the Airport Authority never considered the lease of the property, in that their decisions were made based on the City selling the property. Again, she felt the Airport Authority should make the decision.

Mayor Sitnick said that she would be happy at this point to allow soil testing, but the Airport has decided against it twice and she feels that it is the Airport's decision. She felt the City was really being asked to confirm the Airport's existing decision.

The motion made by Councilman Peterson and seconded by Councilwoman Whitmire died on a 3-3 vote with Councilwoman Field, Councilman Peterson and Councilwoman Whitmire voting "yea" and Mayor Sitnick, Councilman Hay and Councilman Worley voting "no".

At 8:40 p.m., Mayor Sitnick announced a short break.

V. NEW BUSINESS:

A. PACK SQUARE PROPOSAL BY THE DOWNTOWN COMMISSION

Ms. Carol King, Chair of the Asheville Downtown Commission, said that the City Public Works Department will shortly begin the repair project for the Pack Square fountain and surrounding area. This event has sparked considerable interest in future improvements to the park, both over the short and longer terms. Short term improvements proposed by the Public Works and Parks and Recreation Departments will result in better operational circumstances for Pack Square, making events there much simpler to conduct.

However, this maintenance work provides the City with an opportunity to examine longer term improvements to the most important public park area in Asheville - the construction activity and barricades will draw considerable public attention to Pack Square and this chance to formulate creative ideas should not be missed. While it is recognized that public funding for such a project is limited and currently not allocated, we are extremely hopeful that private sector support will enable any improvements to be implemented over a short period of time.

In order to attract private donations, a clear idea of the type and extent of the improvements is needed. This can only be determined through a public process involving all interested parties. The Square is a critical public area and the public must determine how it is to be designed and used. In addition to the Square itself, we anticipate the project involving City-County Plaza.

Their proposal is that they would like to initiate a public-private effort to attract a world-class park planning consultant to Asheville to facilitate public discussion of the desired park design and to prepare a concept plan or plans and cost estimates for its future implementation. This effort involves designation of $7,500.00 of funds from both the City of Asheville and Buncombe County, with a minimum match of $15,000.00 raised from the private sector. With these monies, they will hire a consultant and adhere to an ambitious schedule of public involvement with an anticipated May 2000 final conceptual design presented to the Asheville City Council and Buncombe County Board of Commissioners.

With the concept plan in hand, we will initiate a private sector fund-raising effort to procure the money needed for implementation.

She reviewed the following proposal:

Council Involvement - We recognize that City Council involvement is critical to the success of this proposal. We anticipate that each phase of the project will require Council approval. Council involvement will include:

- Selection of the Design Consultant;
- Final Approval of the Design Consultant Contract;
- Consultation Regarding the Public Input Process;
- Regular Reporting of Project Progress at Council Meetings and Worksessions; and
- Final Approval of Project Design.

Project Objectives - Our intention is to develop a community-based design concept in order to generate enthusiasm for the Pack Square/City-County Plaza project, including substantial private donations for its implementation. We recognize that this is an ambitious undertaking, involving funding sources that are far from certain. Consequently, the design concept will be configured as one or more design alternative proposals with individual components that allow phasing of construction as funding becomes available. Our program calls for the retention of a nationally-recognized park design consultant to facilitate and refine public discussion concerning this critical public space. This consultant will develop a design concept based upon this facilitated discussion. Clear direction (as part of the consultant contract) will be given to the consultant regarding project scale and scope, the current unavailability of public sector funding for design implementation, and the consequent need to divide the project into implementable phases. Monitoring arrangements regarding these matters will be worked out with City staff prior to the consultant beginning work. The consultant will not prepare construction drawings and documents. However, the consultant will be responsible for preparing detailed cost estimates for each alternative design and associated phases.

Funding Sources - It is clear that the City of Asheville and Buncombe County cannot make the budgetary commitments necessary to accomplish such an ambitious project over the short term. There are simply too many priorities facing our local governments. As a result, this project anticipates a major private fundraising effort, spearheaded by the City of Asheville Downtown Commission, to raise the monies needed to implement this project in a short period of time. Our City and County have a tradition of achieving great public works through private philanthropy; we fully expect to be able to raise the great majority of funds from the private sector. We will also actively seek grant funding from a variety of sources. If outside funding alternatives do not materialize, we recognize that the project implementation will be delayed or deferred indefinitely.

In summary, we are asking your approval to move forward with this project with the understanding that City Council members will be fully involved in this project and that it will be a fully public process. They asked for a City commitment of funding in the amount of $7,500 for this project, as well as a recognition that some staff time will be needed to accomplish our objectives over the time frame we propose.

Vice-Mayor Cloninger said that this proposal addresses a need that we do re-design that area of the City and it also contains a very reasonable request as to the amount sought by the City to contribute to the project. It also has a major element of public participation in it which could development enthusiasm for the project that could lead to raising private money for it.

Councilwoman Field also spoke in support of this very exciting project. She noted that there is grant money available for urban spaces and for public-private processes.

Upon inquiry of Councilman Hay, Ms. King said that the Commission has used the information accumulated over 15 years ago from the Discovery process to leverage this process. She said they have a lot of information they are building on.

When Councilman Hay asked about how the construction work fits into this, City Manager Westbrook said that this will not impede the repair work in the areas around the foundation.

Councilwoman Field said that she would like to see us at least make that connection to Pritchard Park as well because that is really the corridor when you come off the interstate.

Mayor Sitnick loved the idea but the City has limited funds for everything we would love to do City-wide. She wanted to point out that whatever is planned and designed for this end of downtown takes into account the enormous amount of money that it will require and the time that it will require so that the greater community understands that it's not going to happen next year and that the project is good for the entire City, not just for the downtown area. For instance, with regard to Pritchard Park, it has been talked about for years and nothing has been done. She wanted to make sure that as optimistic as these plans are, that they be put into some kind of practical form so that the greater community understands that it might be done in phases, that money might have to be raised from time to time, and that it was not all coming out of the public funds. In addition, she also wants to make sure that the City had great latitude in the design, the implementation of the design, etc., to make sure that the design concept worked well with the City needs, e.g. traffic. She said that her personal preference on the design should be someone local.

Ms. King said that it was very apparent to them from the off-set that this is a project which will be far more expensive than either municipality can afford. A message will be sent to everyone that the funding will be largely from the private sector, with a 60/40 split (60% from the private sector). A marketing committee has been created so the public can be kept informed every step of the way. All decisions regarding Pack Square rests in the City Council's hands. Regarding the designer, there are approximately 4-5 designers in the country who have the ability to design a project like this. We will intend to offer all of them the opportunity, but will probably require that they partner with a local firm, so we are sure to use local skill as much as possible. The project itself could run from $500,000 to $2.5 million and there will be a lot of people with economic benefit from this project.

Councilman Hay wanted to make sure that people who make private contributions to a City planning process are not doing it with the certain expectation that the City will then immediately implement the plan. We will have to prioritize in terms of money, etc. He wanted to make sure that once the plan is in place, then the City will have to figure out how to pay for it and it may take a while to do that.

Upon inquiry of Mayor Sitnick, Ms. King said that the County Commissioners will consider the allocation of $7,500 at their meeting next week and they have responded as favorably as the City Council has at this point.

Councilwoman Field moved to approve the report which is committing the City to the $7,500, contingent upon the Downtown Commission's securing the rest of the funding. This motion was seconded by Councilman Worley and carried unanimously.

City Manager Westbrook said that the primary contact on this City process will the Planning and Development Director Scott Shuford.

B. RESOLUTION NO. 00-4 - RESOLUTION FORMULATING A CENSUS COMPLETE COUNT COMMITTEE TO DIRECT THE AWARENESS CAMPAIGN FOR THE CENSUS 2000 UPDATE

Urban Planner Carl Ownbey said that this is the consideration of resolution formulating a Census Complete Count Committee to direct the awareness campaign for the Census 2000 Update.

The Census Complete Count Committee will be responsible for the awareness campaign in "getting the word out" to the citizens of the community about the upcoming census count on April 1, 2000. The United States Bureau of the Census has prepared an operations guide to assist the community in the campaign. The Mayor is required to appoint a chairman for the committee and together they must appoint chairmen for the eight subcommittees. These subcommittees, as outlined in the operations guide are:

Government
Religion
Business
Community-Based
Education
Media
Recruiting
Special Housing

A press conference is required announcing the formulating of this committee and the committee must begin work in January of 2000.

The Planning and Development staff recommends the formulating of the Census Complete Count Committee and will provide the committee with staff support during the campaign process.

Ms. Edna Campos, Partnership Specialist, and Mr. Robert Haskins, Manager of the Local Census Office spoke about the importance of data received from the census count.

Councilwoman Field said that it was incredibly important that there be an accurate count because that's how we get our block grant money, how we get certain portions of sales tax, etc.

Mayor Sitnick said that members of Council have been previously furnished with a copy of the resolution and it would not be read.

Councilwoman Field moved for the adoption of Resolution No. 00-4. This motion was seconded by Councilman Worley and carried unanimously.

RESOLUTION BOOK NO. 25 - PAGE 391

VI. OTHER BUSINESS:

A. PUBLIC ACCESS CHANNEL COMMISSION

Vice-Mayor Cloninger moved to continue this matter to the January 18, 2000, worksession. This motion was seconded by Councilwoman Field and carried unanimously.

B. I-26 CONNECTOR DESIGN FORUM

Planning & Development Director Scott Shuford, said that he has received a letter from the N.C. Dept. of Transportation and they agree that the design forum for the I-26 Connector Project may be appropriate for this project at this time. They would like to partner with the City in the preparation of this event and to meet with City staff to jointly plan the public meeting. They feel that a meeting such as this will take considerable preparation and probably could not be held until sometime in March, 2000. While this will delay completion of the environmental document and initiation of the preparation of final design drawings, they hope to be able to compress the construction schedule so completion of the project is not affected. Additionally, they feel the benefits of involving the public in this manner are significant.

C. RESOLUTION NO. 00-5 - RESOLUTION AUTHORIZING THE MAYOR TO EXECUTE A CONTRACT OR CONTRACTS TO MEET THE ELECTRICAL POWER NEEDS FOR VARIOUS EVENTS AT THE CIVIC CENTER

ORDINANCE NO. 2654 - BUDGET AMENDMENT TO MEET THE ELECTRICAL POWER NEEDS FOR VARIOUS EVENTS AT THE CIVIC CENTER

Due to a conflict of interest regarding Emory Electric, Councilman Worley excused Vice-Mayor Cloninger for participating in this matter. This motion was seconded by Councilwoman Field and carried unanimously.

Mr. David Pisha, Civic Center Director, said that this is the consideration of a resolution authorizing the City Manager to execute an agreement to meet the electrical power needs for various events at the Asheville Civic Center, and an associated budget amendment, in the amount of $95,000.

Due to the increasing electrical demands of the trade shows that utilize the Civic Center arena, Emory Electrical was engaged to undertake a survey of this matter on behalf of the City. Having completed their report, they have since advised the Center's staff that certain renovations should be undertaken to improve the level of this service and its reliability. In the past, electrical power has been brought up through the arena floor from the Exhibit Hall. With the addition of the ice rink, this procedure has proven much more difficult and time consuming. Coupled with the total amount of electricity being used by events, it has become increasingly problematical for the Center to meet their power needs.

The Civic Center is therefore requesting funding to install a 150 KVA transformer and 400 amp disconnect system in the ceiling of the arena. In addition, electric supply lines will also be needed to distribute the power. In order to expedite the project and take advantage of what is currently available, the staff have proposed using existing structural steel and conduits to the fullest extent possible.

Emory Electrical has stated that by following these recommendations, it will now be possible for the Civic Center to be able to efficiently supply adequate power to trade shows using the arena in the future.

Staff has also discussed the plans with the City's electrical inspector and have received his preliminary approval to proceed to the next step. Furthermore, he agrees with the findings and recommendations of Emory Electrical regarding the need for the overall project.

City staff recommends City Council adopt the resolution and appropriate $95,000 in order to meet the Civic Center's electrical power needs.

Upon inquiry of Councilman Hay, City Manager Westbrook said that Emory Electrical is one out of three or four possible bidders on this project.

Upon inquiry of Councilwoman Whitmire, Mr. Pisha said that this has been a renovation that has been long discussed and it would absolutely work into any future renovations that City Council might consider.

Mayor Sitnick said that members of Council have been previously furnished with a copy of the resolution and ordinance and they will not be read.

Councilman Worley moved for the adoption of Resolution No. 00-5. This motion was seconded by Councilwoman Field and carried unanimously.

RESOLUTION BOOK NO. 25 - PAGE 392

Councilman Worley moved for the adoption of Ordinance No. 2654 This motion was seconded by Councilwoman Field and carried unanimously.

ORDINANCE BOOK NO. 18 - PAGE 95

D. CLAIMS

The following claims were received by the City of Asheville during the period of December 17, 1999 - January 6, 2000: Thomas Joyce (Police), Eugene D. Jones (Police), Charles McGhee (Inspections), Vera Siminow (Streets), Jerry Birdwell (Water), BellSouth (Water), Wallace C. Pegg (Streets), Bobbie Warren (Streets), Asheville Smoke (Civic Center), David Weeks (Water), Robert Hileman (Water), Catherine Hitesman (Water), Michael Peck (Sanitation) and Sandra Clory (Civic Center).

These claims have been referred to Asheville Claims Corporation for investigation.

VII. INFORMAL DISCUSSION AND PUBLIC COMMENT:

VIII. ADJOURNMENT:

Mayor Sitnick adjourned the meeting at 9:47 p.m.

Magdalen Burleson
CITY CLERK

MAYOR

Tuesday - January 18, 2000 - 3:00 p.m.

Worksession

Present:	Mayor Leni Sitnick, Presiding; Vice-Mayor M. Charles Cloninger; Councilwoman Barbara Field; Councilman Edward C. Hay Jr.; Councilwoman Terry M. Whitmire; and Councilman Charles R. Worley; City Attorney Robert W. Oast Jr.; City Manager James L. Westbrook Jr.; and City Clerk Magdalen Burleson
Absent:	Councilman Brian L. Peterson

CONSENT:

Update on Parking Study Recommendations

Summary: The review of an updated Status Report Spreadsheet used to track the progress of the Parking Study Implementation Team.

The City's Comprehensive Parking Study was adopted by the City Council in December 1998. The Parking Study Implementation Team was formed in June 1999. The study made about 60 recommendations for potential changes that would improve parking issues within the city. In addition, a few other recommendations were made by other groups including the Asheville Downtown Association and the Implementation Team itself. A total of 65 recommendations have been incorporated into a single Status Report Spreadsheet. This spreadsheet is used to track the Implementation Team's progress on evaluating and implementing the recommendations. Beginning in July 1999, the Implementation Team has provided updates to the City Council twice each year; once in July and once in January.

The following summarizes the current status:

- Many operational issues where scheduled to be complete by the Finance Department in July 1999. Many of these items were evaluated and implemented. Others were not implemented during this budget year but will be addressed in subsequent budget years.
- A contract is being finalized for the design of a parking garage in the Battery Park area.
- On-street parking changes for some areas in downtown are being designed for implementation in the next few months.
- The spreadsheet outlines the continuing work being done by employees from several departments to implement many of the remaining recommendations.
    - Two sub-teams have been formed. The first is to be an ongoing team that will work with business owners, downtown employees, downtown residents, and other stakeholders on numerous downtown parking issues.
    - The second sub-team will work on developing way-finding signs for downtown parking garages.

A more detailed description of these sub-teams and their progress can be found in the Status Report.

Staff recommends that Council review the Status Report Spreadsheet and direct staff to continue implementing the Parking Study.

Traffic Engineer Michael Moule reviewed with Council the issues being worked on recently.

Finance Director Bill Schaefer responded to a question from Councilwoman Field about when the railings at the Wall Street Parking Deck would be painted, noting that it is their intent to have a program on a rotational basis for all of the decks.

Grant Application to NC Dept. of Health & Human Services for Senior Center Improvements

Summary: The consideration of a resolution to apply for grants through the North Carolina Department of Health and Human Services to assist with facility improvements and equipment at Harvest House and Senior Opportunity Center.

Funds are available through the North Carolina Department of Health and Human Services, Division on Aging, in the 1999 Senior Center Appropriation to assist with programming and general operation of senior centers. The Harvest House and the Senior Opportunity Center are eligible to receive $6,329 each, and will use the funds to refinish wood floors, purchase tables and chairs, and purchase miscellaneous equipment and improvements.

The Parks and Recreation Department is requesting $12,658 in grant funds from the 1999 Senior Center Appropriation which requires a 10% cash/in-kind match. The in-kind match is available in the Recreation Division and the Public Facilities Division operating budgets.

The Parks and Recreation Department recommends the City of Asheville apply for and enter into an agreement for grant funds through the 1999 Senior Center Appropriation for improvements and equipment at Harvest House and Senior Opportunity Center.

Grant Applications to NC Dept. of Environment & Natural Resources (Parks & Recreation Trust Fund & National Recreational Trails Fund) for French Broad River Park Phase IV

Summary: The consideration of a resolution to apply for grant funds through the North Carolina Department of Environment and Natural Resources to assist with the construction of the next phase of the French Broad River Park.

Funds are available through the N.C. Department of Environment and Natural Resources, Division of Parks and Recreation in the North Carolina Parks and Recreation Trust Fund, and in the National Recreational Trails Fund to assist with the development of parks and greenways.

The French Broad River Park, Phase IV, represents the City of Asheville's next phase of a major greenway and park system being developed along the French Broad River on Amboy Road. Although the final master plan will not be complete until February, public input requested the park include greenways, bicycle facilities, lawn bowling, soccer and softball fields, restrooms, skateboarding and rollerblading facilities, open space, picnic shelter, parking, and perhaps a welcome center. Phase IV will also connect to a planned N.C. Department of Transportation funded greenway from Hominy Creek on the west, and eventually to the Amboy Road greenway to the east.

The Parks and Recreation Department and RiverLink are in partnership to implement an ambitious fundraising plan to raise approximately $2 million to build the park. RiverLink recently presented a proposal to the Janirve Foundation for $250,000, and has identified an additional $500,000 in funding resources.

The Parks and Recreation Department is requesting $250,000 in grant funds from the North Carolina Parks and Recreation Trust Fund which requires a 50% cash match. The cash match is available through a combination of funds with the Parks and Recreation Department budget, RiverLink, and other sources. In addition, the Parks and Recreation Department is requesting $50,000 from the National Recreational Trails Fund, which requires a 20% cash/in-kind match. The in-kind match is available in the Parks Division budget.

The Parks and Recreation Department recommends the City of Asheville apply for and enter into an agreement for the grant funds through the North Carolina Parks and Recreation Trust Fund and the National Recreational Trails Fund to assist with the construction of the French Broad River Park Phase IV.

Upon inquiry of Councilwoman Whitmire, Superintendent of Administration for the Parks and Recreation Department Debbie Ivester said that the City is currently working with RiverLink to find out exactly how much they will be able to contribute to the match.

Right-of-Way Agreement with the N. C. Dept. of Transportation

Summary: The consideration of a resolution authorizing the Mayor to execute a right-of-way agreement with the N. C. Department of Transportation (NC DOT) for roadway improvements to Spivey Mountain Road.

The City of Asheville purchased a 3-acre site in 1998 for the Regional Water Authority to construct a new water reservoir as part of the 1994 Master Plan improvements for the water system. The property has approximately 400 feet of frontage on the south end of the property along a gravel road (Spivey Mountain Road) maintained by the NC DOT. This road serves as access to the site and the new water main providing water to and from the reservoir from the valley below is in the shoulder of the road.

The NC DOT is proposing, at its expense, to improve Spivey Mountain Road by widening the road to 18 feet and paving the road. Widening will include minor grading along the shoulder, but there are no improvements to alignment or centerline grade proposed. The NC DOT has been maintaining this road in the past without recorded right-of-way on some properties and is now asking those property owners to formally dedicate right-of-way in advance of the improvements.

The proposed roadway improvements are not in conflict with the water reservoir or the use of the property. Staff has discussed the proposed improvements with the NC DOT and have been assured by NC DOT that the road improvements will not create a conflict which would require relocation of the existing water line anywhere in Spivey Mountain Road. With this understanding, the resolution has been prepared authorizing the Mayor to execute a Right-of-Way Agreement dedicating 22.5 feet of right-of-way from the existing centerline to the NC DOT for roadway improvements.

Staff recommends the City Council adopt the resolution.

Retiree Health Benefits

Summary: The consideration of a resolution adopting changes regarding the eligibility of City employees to participate in the City's Self-Funded Employee Welfare Benefit Plan upon retirement.

In June 1993 Council adopted a resolution setting the terms & conditions for retirees to continue health benefits through the City. Two of the provisions of that resolution (Resolution No 93-74) are considered impediments to employees seeking to retire.

The Human Resources Director believes the recommended changes will encourage employees wanting to retire to do so without the financial consequences of not having affordable health care, and further that employees with spouses working for the City can retire with the same benefits that other retirees enjoy whose spouses do not work for the City. The Risk Management Division concurs with this recommendation.

It is also noted that the recommendation will not require any funding from the City beyond the current budget for fringe benefits, and that the impact on the heath plan will be negligible.

Staff from the Risk Management Division and the Human Resources Department jointly recommend the adoption of this resolution.

Public Hearing Set for February 22, 2000, to Permanently Close Portion of Herman Avenue Extension

Quitclaim for Water Line Easement for Dreamland Partners, LP

Summary: The consideration of a resolution authorizing the Mayor to execute a quitclaim for an existing water line easement over an abandoned water main on the property which is currently the site of the Lowe's superstore at the intersection of South Tunnel Road and Swannanoa River Road.

As part of the construction of a new Lowe's superstore at South Tunnel Road and Swannanoa River Road, the site developer relocated a 24" water transmission main which was part of the Asheville water system in order to use the site for the superstore. The new transmission line has been completed, tested, and accepted in accordance with the policies of the Regional Water Authority and the standards of the City of Asheville, and an appropriate easement has been dedicated to the City of Asheville and recorded at the Buncombe County Registry over the new 24" water transmission line. This new line runs under the parking lot for the new store.

Upon acceptance of the new water line a few months ago, the old water transmission line was disconnected from service and abandoned, and a part of the new Lowe's store is now on top of the abandoned line. The new owners of the property, Dreamland Partners, LP, have requested the City of Asheville quitclaim the easement over the now abandoned line.

Staff recommends the City Council adopt the resolution to quitclaim the easement over the abandoned water line.

Extension of Time to Complete the Audit of City Accounts

Summary: The consideration of a resolution authorizing the Mayor to execute a contract change with Crisp Hughes Evans LLP, Certified Public Accountants, extending the completion date for auditing services for Fiscal Year 1998-99.

N.C. General Statutes sec. 159-34 requires that local governments of North Carolina have their accounts audited each fiscal year and submit a copy of the audit to the Local Government Commission.

During May 1999, the City entered into a contract with Crisp Hughes Evans LLP to conduct the City's annual audit for Fiscal Year 1998-99. The contract called for the audit to be performed and the report of audit submitted by October 31, 1999. Due to delays encountered by City staff in preparing financial statements for the first time using the City's new accounting software and the more extensive audit procedures employed to verify the accuracy of the software's accounting and reporting operations, the report of audit was completed on December 29, 1999. The Local Government Commission requires that any extension of the completion date beyond October 31 must be approved by the City Council. The resolution authorizes the Mayor to execute an amendment to the audit contract to extend the completion date.

City staff recommends Council adopt the resolution.

Mayor Sitnick asked that the record show that City Council has received this information and instructs the City Manager to place these items on the next formal City Council agenda.

DRAFT SUSTAINABLE ECONOMIC DEVELOPMENT STRATEGIC PLAN

Mr. Jack Cecil, Chair of the Sustainable Economic Development Task Force, reviewed with Council the process the Task Force used in developing the Strategic Plan for the sustainable economic development of Asheville.

Mr. David Kolzow, Consultant, outlined three questions to Council on why a strategic plan for Asheville was needed: (1) what do we need to do to get where we want to be using the resources available to us? (2) what can we do to create a sustainable and healthy economy, considering what is happening or is likely to happen in the world, our nation, our region, and our community? and (3) how do we more effectively get the community and its leadership involved in "building a better tomorrow."

Mr. Kolzow reviewed the following key strengths of Asheville: strong medical and health care services; attractive quality of life; availability of higher education and technical training; good telecommunications infrastructure; strong tourism industry; good highway access to community; supportive environment for small business; and vibrant downtown.

He then reviewed the key weaknesses of Asheville: lack of industrial and office sites and buildings; inadequate housing availability and high cost; inadequate graduate-level technical, science, and research programs at institutions of higher education; impediment to development from local permitting and zoning process; cost of water and sewer service; inadequate local streets and traffic problems; lack of quality jobs; and inadequate local environmental protection and cleanliness of community.

Priority development issues include: shortage of diverse and affordable housing within City; lack of developable sites; tight labor supply with shortage of skilled workers; lack of local agreement on type of business and industry the City should try to attract; water supply is inadequate and high cost; lack of prestigious research institutions and technical graduate programs; problems with planning, zoning and permitting processes; lack of cooperation between city and county government; need to revitalize the riverfront; high underemployment; lack of available buildings for manufacturing and distribution; and city's economic development role needs to be more clearly defined.

He said the following are the four key issues for Asheville's sustainable economic development: (1) development process; (2) real estate; (3) workforce/education; and (4) riverfront.

Priority target industries include: health and medical services; Internet-related activity; corporate back offices and higher-pay call centers; film-making; software development; environment technology; tourism; arts and crafts; electronic equipment; and automotive parts.

The vision for economic development include: sustainable and diversified economy; higher level of earnings: broad range of attractive job opportunities; top notch infrastructure; world-class education system; and higher level of community and leadership participation.

Mr. Cecil then reviewed the issues to actions which are: (1) a leadership workshop to determine priorities; (2) strategic action leans to: (a) clarify issues and state as problems to be solved; (b) determine primary causes; (c) develop actions to address the problems more effectively; and (3) four month process of meetings.

Mr. Cecil reviewed the following key goals: (1) Asheville's urban planning, zoning and permitting processes as created and administered by the City facilitates sustained and positive development. (2) the availability of suitable sites within the City meets its business needs into the future; (3) the City's future development balances economic objectives, social goals, and its natural resources to the benefit of present and future generations; (4) the institution of higher education and training in the Asheville area meets the skill needs of the businesses and industries in the community; (5) the local workforce has the basic education, life skills, and technical skills to meet the demands of Asheville's workplace in the future; and (6) Asheville's "total" riverfront is redeveloped to maximize its full potential as both a quality of life amenity and economic development opportunity.

Implementation of the plan includes: creating a nurturing environment for the new economy; more effective communication and coordination among local government agencies and other organizations; developing the Asheville "product" through major projects such as Knowledge Center, Multimedia Center, Riverfront Greenway, and regional business/industrial parks; Implementation Task Force to monitor, evaluate, coordinate, and oversee future strategic actions; and identifying/security sustained and recurring funds to ensure successful implementation of strategic actions.

Upon inquiry of Councilwoman Field, Mr. Cecil said that this plan did incorporate input from 400 citizens which were from a cross section of the community. He also stated that the Task Force was more focused on product development not marketing and recruitment.

Councilman Worley said that City Council can begin implementing the Plan beginning with the little or no cost objectives.

Mr. Cecil said that the Task Force would like to proceed with obtaining additional public comment on the plan. He also suggested that some type of Implementation Task Force be established.

Mayor Sitnick make some comments and suggestions for the plan, one suggestion in particular was for City Council to consider, in the future, setting up a commission on sustainability to act in an advisory capacity to City Council. The Commission would be for in-house and community-wide education on sustainability and economic development that will fit with our community.

On behalf of City Council, Mayor Sitnick thanked Mr. Cecil, Mr. Kolzow, and Economic Development Director Mac Williams for the outstanding work in bringing this draft plan to City Council.

PRESENTATION OF ANNUAL AUDIT REPORT

Finance Director Bill Schaefer said that City Council retained an independent audit firm, Crisp Hughes Evans LLP of Asheville, NC, to perform an audit of the City of Asheville for the fiscal year ended June 30, 1999, as required by North Carolina General Statute sec. 159-34. The auditors gave the City an unqualified audit opinion. (The term "unqualified" means that in the auditor's opinion the financial statements represent fairly the financial position of the City and is not modified by reservations or restrictions).

Mr. Brian Broom, Engagement Manager, briefed City Council on their findings. He then reviewed the Fund Balance in the General Fund, along with General Fund expenditures and revenues. He also pointed out recent developments in local government regulation and legislation.

UDO AMENDMENT REVIEW

City Attorney Oast said that these Unified Development Ordinance amendments are being brought before City Council in order that staff may respond to questions Council may have prior to the public hearings, which are scheduled on Tuesday, February 8, 2000. He advised Council that it would be inappropriate for Council to receive comments from the public at this worksession.

Fee in Lieu of Sidewalks

Mr. Oliver Gajda, Pedestrian and Bicycle Coordinator, said this is the consideration of an ordinance to amend the Unified Development Ordinance (UDO) regarding sidewalk requirements and consideration of an amendment to the Fees and Charges Manual for reimbursement costs.

When the UDO was adopted in 1997, it included requirements for the majority of new developments to install sidewalk as part of the development. More specifically, the requirements are for all new commercial, industrial, single family residential subdivisions greater than 20 units; multi-family residential greater than 10 units to install sidewalks as part of their development; all new commercial, educational and industrial uses; and substantial improvements of commercial, educational and industrial uses greater than 50% improvements. Currently the only way for a developer to avoid these requirements is a waiver by City Council.

The UDO does not currently allow for a "fee in lieu of" for construction of sidewalks. In some cases there may be valid reasons for not requiring the sidewalk be constructed. This may be due to terrain, location, impact, future widening, etc. Developers have requested this option as they feel the sidewalk would be a more benefit in another location, particularly when sidewalk connectivity is needed on other major thoroughfares.

The purpose of the recommended changes in the ordinance are as follows:

- More clearly define what type of developments must install sidewalk as part of their development.
- Develop a mechanism for allowing a "Fee In Lieu" of constructing sidewalk when certain conditions are met.

Proposed guidelines requiring sidewalks would be:

- All additions or expansions where the gross.floor area of the addition or expansion is greater than 50,000 square feet.

- Sidewalk rehabilitation shall be required when the City Engineer has determined the existing sidewalk to be dilapidated, for development that meet new sidewalk construction requirements.

The proposed ordinance requires the City Engineer make the determination as to whether or not a development meets the requirements for a "Fee In Lieu" of constructing a sidewalk. In order to make that determination, the City Engineer will determine that one of several conditions exist:

- The residential area does not have sidewalks and sidewalks would be incompatible with the existing landscaping, architecture, design and/or pedestrian or vehicular traffic patterns;
- Sidewalks are scheduled to be installed as part of a City or State project which has been funded for construction;
- In locations where the District Engineer of the North Carolina Department of Transportation recommends in writing that no sidewalk be constructed; and
- Where a combination of conditions (such as, but not limited to, topography, low pedestrian volume and low vehicular volumes) exist which make it impractical or not feasible to construct a sidewalk, as determined by the City Engineer.

These recommended changes support the Pedestrian Thoroughfare Plan adopted by City Council in 1999. The Plan recommended that a "Fee In Lieu" of constructing sidewalks be implemented in order to provide funding for needed sidewalk linkages.

Staff recommends that the amount of the fee be defined in the City of Asheville Fees and Charges Manual. Staff recommends that the fee be paid based upon the linear foot of sidewalk that would be required at the location requesting the waiver. Staff recommends that the unit costs of the fee be $20 per linear foot for 5' concrete sidewalk, $65 per linear foot for 5' brick sidewalk, $28 per square foot of retaining wall and $11.50 per linear foot of railing. The unit cost were established from a national publication. The publication is R S Means Sitework and Landscape Cost Data 2000, 19th Annual Edition. In addition to the construction costs, staff has included administrative costs necessary to install the sidewalk. Staff takes the approach that this is the fairest way to balance the costs of paying a "Fee In Lieu" of constructing a sidewalk to those developments that are not granted a waiver. All fees shall be accounted for separately from other monies and shall be expended for pedestrian improvements in the same area as they are collected with a five year period.

This recommendation passed the Planning and Zoning Commission on a 4 to 3 vote. Some of the members who voted against the recommendation indicated that they had a concern over the requirement to have a development consisting of three or more single family residences install sidewalk as part of the development. They stated that this requirement could pose a hardship for developers building affordable homes. After further review by staff, we have revised the recommendation for sidewalks for single-family and multi-family structures to stay as it currently is until further analysis is completed.

Staff recommends that City Council approve the recommended changes to the UDO as they relate to sidewalk requirements and adopt an amendment to the Fees and Charges Manual for reimbursement costs.

Councilman Hay felt there were really two issues being considered: (1) fee in lieu of sidewalks; and (2) the minimum sidewalk issue. He wondered if it would be better to consider each issue separately.

Councilwoman Field suggested that the Director for Economic Development review the ordinance. She was concerned about (1) the interior construction requirements; and (2) the definition of 50%. She suggested the City Engineer review the proposed ordinance to see if those concerns could be addressed.

At the suggestion of Councilwoman Whitmire, City Engineer Cathy Ball said that she would put a task force together to work on the affordable housing issue.

Ms. Ball pointed out that the fee in lieu of is the exception, not the rule.

Changes in Definitions of Church, Place of Worship and Sanctuary; and Creating Standards for Places of Worship

Senior Planner Gerald Green said that this is the consideration of two amendments to the Unified Development Ordinance which would establish definitions for place of worship and sanctuary and establish standards for places of worship in residential districts.

The Planning and Zoning Commission, at their January 5, 2000, meeting, reviewed and recommended approval of amendments to the Unified Development Ordinance which would establish definitions for place of worship and sanctuary and establish standards for places of worship located in residential districts. The definitions and standards are the result of several months of work by a committee composed of representatives of neighborhoods and the religious community, the Planning and Zoning Commission, and the Planning and Development staff. The definitions established by the proposed amendment would be applicable throughout the City's jurisdiction; the standards would apply to places of worship located in residential zoning districts only. As proposed, the definition of place of worship would make it clear that schools, day cares, recreational facilities, and other facilities could be developed in conjunction with a place of worship but would have to meet applicable development standards. The proposed standards for places of worship in residential districts establish three categories for places of worship based upon the number of seats in the sanctuary(ies):

- Small - Not more than 300 seats;
- Medium - 301 to 800 seats; and
- Large - More than 800 seats.

Locational requirements, with regard to the functional classification of the abutting street, are established for the three categories. In addition, standards are established which address:

- Lot size;
- Setbacks;
- Access points;
- Parking;
- Landscaping and buffering;
- Impervious surfaces
- Building height;
- Lighting;
- Space devoted to office use;
- Commercial activities;
- Grading; and
- Outdoor speaker systems.

The intent of the proposed standards is to permit the expansion and development of places of worship in residential districts while minimizing their impact on adjacent residential uses.

The Planning and Zoning Commission voted 7 to 0 to recommend approval of the wording amendments. The Planning and Development staff recommends approval of the amendments.

Upon inquiry of Councilman Worley, Mr. Green said that amendment to the ordinance would make one or two churches slightly non-conforming because of the size, however they would be grandfathered.

Mayor Sitnick asked that the record show that City Council has received this information and instructs the City Manager to proceed with the appropriate public hearings on February 8, 2000.

REPORT ON CITY DEVELOPMENT STAFFING AND CENTER CITY PLAN

Planning & Development Director Scott Shuford said that this is the consideration of a motion approving $35,000, already allocated in the Planning and Development Department budget, to be reallocated to the Center City Plan.

In adopting this fiscal year's budget, the City Council postponed a staffing decision regarding the City Development Office for six months to allow the new Planning and Development Director to prepare a recommendation for staffing this key City Division. Working with the Downtown Commission, a list of expected duties for the City Development Division was prepared and is provided below. In analyzing the list of duties, I am recommending the following staffing arrangement: this organizational structure transfers an added staff member to the City Development Office while keeping the overall staffing level for the City Planning and Development Department (of which City Development is a part) at its current level. If the Center City Plan that is under development proposes significant changes to the functions of the City Development Division, this organizational structure will need to be reconsidered.

- Division Head - this Senior Planner position is to be transferred from the Planning Services Division
- Urban Development Specialist - this existing position is currently filled
- Coordinator/Urban Planner I - this existing position is currently vacant and represents a revised position description from Terry Clevenger's Marketing Coordinator position
- Administrative Assistant - this existing position is currently filled
- Senior Secretary - this existing position is currently filled

City Development Division Functions

FUNCTION
Downtown Commission Liaison
Development Advice; Design Standards; Contractor Ombudsman
Infrastructure Support Coordination - Serve as a central conduit for complaints or concerns about parking, cleanliness, utilities, streetscape
Grant Writing/Fundraising - Facilitate efforts by the City's new grant writer position and by the Downtown Commission or other groups in project-based fundraising and grant applications
General Promotion - coordination of efforts in promoting Downtown

Available Space Inventory
Center City Plan Coordination
Festival Coordination - Serve as a conduit for questions or issues about festivals
Project Coordination - Communicate and relay questions and concerns about Downtown projects; participate in project planning and design
Communication (e.g., newsletter, interactive webpage as part of COA webpage, etc.)
Administrative Duties (supervisory and administrative functions)

In addition to postponing the City Development Division staffing decision, City Council decided to wait for a recommendation from the Planning and Development Director regarding what type of plan was needed for downtown Asheville (this plan is referred to as the Center City Plan). Since the adoption of this fiscal year's budget, the Mayor and the Downtown Commission have held numerous public input sessions soliciting concerns and ideas about downtown. These sessions have resulted in considerable agreement about the direction desired for the future of downtown Asheville. Additional planning work has occurred as part of the Pritchard Park and Downtown Parking Study projects, as well as the Main Street Study and Recommendations, and more is anticipated from the Pack Square Project and the Sustainable Economic Development Task Force report.

Given the extent of the planning that has already occurred and is occurring, it appears that all that is lacking is a way to tie this input together in a priority-based plan that would be prepared by City staff with limited technical assistance and with a continued high level of community involvement. There is $35,000 in this year's Planning and Development Department budget that, with City Council approval, can be reallocated to the Center City Plan. This money will allow City staff to obtain the technical assistance needed to complete the plan in-house under the guidance of the Center City Plan Steering Committee that was formed to provide continuing public involvement in Downtown planning efforts. Technical assistance may be needed in the areas of retail analysis, transportation planning, streetscape design, or other areas that may be dictated by the planning process. Use of these current fiscal year monies will enable staff to fully initiate and possibly complete the Center City Plan this budget year.

The consideration of a motion approving $35,000, already allocated in the Planning and Development Department budget, to be reallocated to the Center City Plan.

Mayor Sitnick asked that the record show that City Council has received this information and instructs the City Manager to place this item on the next formal City Council agenda.

CONTRACT FOR PROFESSIONAL DESIGN SERVICES FOR THE PARKING DECK IN THE BATTERY PARK AREA

City Engineer Cathy Ball said that this is the consideration of a resolution authorizing the City Manager to sign a contract with Carl Walker, Inc., to design and provide project administration for the Parking Deck in the Battery Park area and an associated budget amendment, in the amount of $570,000, for said project.

In October 1999, City Council directed staff to develop a Request For Proposals (RFP) to select a consultant to design a parking deck in the Battery Park area. The RFP was completed in October 1999. Proposals were received on November 19, 1999. Seven firms submitted proposals. The selection team reviewed the proposals and short-listed two firms: Carl Walker, Inc., and Hayes, Seay, Mattern and Mattern, Inc. (HSMM). The interviews were held on December 20, 1999. The selection team recommended Carl Walker, Inc., based upon qualifications.

Phase I of the contract consists of conceptual and preliminary design plans. Phase II of the contract consists of final construction specifications and design. Phase III consist of project administration during the construction phase of the project. The contractor will be allowed 150 calendar days for the completion of Phase I and II.

The estimated cost of Phase I is $153,000, Phase II is $242,000, and Phase III is $115,000 for a total cost not to exceed $510,000. This amount is approximately 6% of the estimated construction costs of the deck ($8.8 Million). The fee for the project is based on an hourly rate plus allowable expenses, not to exceed $510,000. Staff also requests that City Council approve a budget amendment, in the amount of $570,000, for the cost of the above services, surveying and geotechnical testing, in addition to a 10% contingency to be paid from the issuance of Certificates of Participation.

Carl Walker, Inc., proposes to use five sub-consultants in the project. Three of the five are minority or women owned businesses.

Staff recommends that City Council (1) authorize the City Manager to execute a contract with Carl Walker, Inc., to design and provide project administration for the Parking Deck in the Battery Park area; and (2) adopt a budget amendment, in the amount of $570,000, for said project.

Mayor Sitnick asked that the record show that City Council has received this information and instructs the City Manager to place these items on the next formal City Council agenda.

PLAN FOR PRITCHARD PARK PHASE I

Park Planner Alan Glines reviewed with City Council the proposed drawing of Phase One of the Pritchard Park Master Plan.

The Parks and Recreation Department, at the request of City Council, began a public process to determine the future design for Pritchard Park. A task force was developed which represented broad community interests. In the fall of 1998, the City hired the services of Genesis Group to develop a Master Plan for the project. An initial Master Plan was presented in January 1999 and has received broad community support and Council interest. Since then minor changes have been made to the Plan within the framework of the overall proposal.

In conjunction with the Pritchard Park proposal a Downtown Traffic Evaluation was undertaken to determine the feasibility of returning downtown traffic along College Street and Patton Avenue to two-way operation. While the study states that it is feasible to return two way traffic to downtown, financial and other major considerations will preclude any renovation of the traffic network at this time. The Traffic Evaluation Report is currently being studied by the City Engineering Department. There has been on-going interest from the City Council liaison group assisting with the direction of the project, to phase the construction of the park Master Plan. Staff has recommended a phased construction scope for Pritchard Park.

Phase One of the park design and construction will enlarge the park area. The central area of the park will feature a terraced public gathering space, enhanced crosswalks to connect to the surrounding sidewalk areas, planted areas with native trees and shrubs, ornamental lighting, rock work that will display a small water feature, an area for food vendors and opportunities for public art.

In addition to the park expansion, the Phase One construction will include the renovation of the College Street sidewalk area across from the park in an effort to support economic growth and downtown vitality. The sidewalk space will be increased from the current 9 foot width to 18 feet. Other amenities will include trees and tree grates, building access to comply with the American with Disabilities Act, and ornamental street lights. Parallel parking will continue along the sidewalk in front of the buildings on College Street.

The next step for the project will be to complete construction drawings and specifications by the Genesis Group team. Construction is expected to commence in May and be completed by early fall. It is expected that there will be sufficient funds to complete Phase One.

City staff recommends City Council authorize the Parks and Recreation Department to proceed with construction documents and implement Phase One for Pritchard Park.

Councilwoman Field said that the County has indicated that they would look favorably upon waiving the tipping fees.

Councilwoman Field said that when the project gets in the Phase Two stage, City Council may want to discuss were the parade route will be.

Upon inquiry of Vice-Mayor Cloninger, Mr. Glines said that there is substantial greenspace in the park design.

Upon inquiry of Councilwoman Field, Director of Transit Services Bruce Black said that he is looking for potential corporate sponsors for some bus shelters in the downtown area.

Mayor Sitnick asked that the record show that City Council has received this information and instructs the City Manager to place this item on the next formal City Council agenda.

SPECIAL EVENT PARKING

Revenue Manager Deborah Crowder provided information to City Council about: under what circumstances and how often special event fees are in effect; special event fee structure and resulting revenue figures for last year; the impact of special event parking to downtown shoppers, library patrons and monthly parkers; and the possibility of pursuing other options based on the capabilities of the new gate equipment which will be installed over the next several weeks.

Ms. Crowder answered various questions from Council regarding special event parking.

Mayor Sitnick asked that the record show that City Council has received this information and instructs the City Manager to place this item on the next formal City Council agenda.

PUBLIC ACCESS CHANNEL COMMISSION

It was the consensus of City Council to have the City Clerk arrange the following interviews for the Public Access Channel Commission: Wally Bowen, John Hayes, Raphael Peter, Mark Rosenstein, Mary Ellen Brown, James Torpey, Andrew Reed, Marianna Bailey, Lisa Michie, Rebecca Em Campbell, Orpheus Allison, Clifford Davids, Mark Goldstein, Beth Lazer and Allan Goodstadt.

Upon inquiry of Vice-Mayor Cloninger, City Attorney Oast said that if City Council wanted to change the membership of the Commission that it would require an ordinance amendment.

444

At the request of Councilwoman Field, it was the consensus of City Council to have the City Attorney prepare the proper paperwork to increase the membership on the Public Art Board to include a seat for the Chairman of the Arts Alliance.

It was the consensus of City Council to appoint Councilman Worley as the liaison to the ABC Board.

Councilwoman Field updated City Council on the MSD retreat.

Mayor Sitnick suggested that in the future a simple chart be prepared showing which entity has control over what policies.

ADJOURNMENT:

Mayor Sitnick adjourned the meeting at 6:21 p.m.

Magdalen Burleson
CITY CLERK

Leni Sitnick
MAYOR

Tuesday - January 25, 2000 - 5:00 p.m.

Regular Meeting

Present: Mayor Leni Sitnick, Presiding; Vice-Mayor M. Charles Cloninger; Councilwoman Barbara Field; Councilman Edward C. Hay Jr.; Councilman Brian L. Peterson; Councilwoman Terry M. Whitmire; and Councilman Charles R. Worley; City Attorney Robert W. Oast Jr.; City Manager James L. Westbrook Jr.; and City Clerk Magdalen Burleson

Absent: None

INVOCATION

Councilwoman Whitmire gave the invocation.

ADDITIONS TO THE AGENDA

City Attorney Oast asked that consideration of a subordination agreement regarding Disposal Parcel 6B be added to the Council's agenda.

At the request of Mayor Sitnick, Vice-Mayor Cloninger moved to appropriate up to $2,000 out of General Fund Contingency into City Council's training and travel line item. This will allow a member of the Film Board to attend a conference in Los Angeles, California, in order to promote to the City of Asheville. This motion was seconded by Councilman Hay and carried unanimously.

I. PROCLAMATIONS:

A. RECOGNITION OF JASON SUMMEY

Mayor Sitnick recognized Jason Summey for his development of the "Be Cool ... Stay in School" Program and praised his work in the community.

B. GIRL SCOUT TROOP 736

Councilwoman Whitmire recognized Ms. Sharon Farmer and representatives of Girl Scout Troop 736 out of Lee Walker Heights.

C. POLICE OFFICER MIKE GODWIN

Mayor Sitnick recognized Police Officer Mike Godwin who was awarded the metal of honor at the Asheville Police Department's Award Banquet.

II. CONSENT:

Councilman Peterson asked that Consent Agenda Items F, I and J be removed from the Consent Agenda for further discussion.

A. APPROVAL OF THE MINUTES OF THE REGULAR MEETING HELD ON JANUARY 11, 2000, AND THE WORKSESSION HELD ON JANUARY 18, 2000

B. MOTION SETTING A PUBLIC HEARING ON FEBRUARY 8, 2000, TO CONSIDER AN AMENDMENT TO THE UNIFIED DEVELOPMENT ORDINANCE TO REVISE REQUIREMENTS FOR CONSTRUCTION OF

SIDEWALKS, TO ESTABLISH REQUIREMENTS FOR REHABILITATION OF SIDEWALKS, AND TO PROVIDE A PROCESS FOR THE PAYMENT OF A FEE IN LIEU OF CONSTRUCTION OR REHABILITATION OF SIDEWALKS

C. MOTION SETTING A PUBLIC HEARING ON FEBRUARY 8, 2000, TO CONSIDER AN AMENDMENT TO THE UNIFIED DEVELOPMENT ORDINANCE WHICH WOULD DELETE THE DEFINITION OF CHURCH, ADD THE DEFINITIONS FOR A PLACE OF WORSHIP AND SANCTUARY, AND CREATE STANDARDS FOR PLACES OF WORSHIP

D. MOTION SETTING A PUBLIC HEARING ON FEBRUARY 8, 2000, TO CONSIDER A CONDITIONAL USE PERMIT FOR HOME DEPOT LOCATED AT THE INTERSECTION OF ACTON CIRCLE AND MONTE VISTA ROAD

E. RESOLUTION NO. 00-6 - RESOLUTION AUTHORIZING A GRANT APPLICATION TO THE N.C. DEPT. OF HEALTH AND HUMAN SERVICES TO ASSIST WITH FACILITY IMPROVEMENTS AND EQUIPMENT AT HARVEST HOUSE AND SENIOR OPPORTUNITY CENTER

Summary: The consideration of a resolution to apply for grants through the North Carolina Department of Health and Human Services to assist with facility improvements and equipment at Harvest House and Senior Opportunity Center.

Funds are available through the North Carolina Department of Health and Human Services, Division on Aging, in the 1999 Senior Center Appropriation to assist with programming and general operation of senior centers. The Harvest House and the Senior Opportunity Center are eligible to receive $6,329 each, and will use the funds to refinish wood floors, purchase tables and chairs, and purchase miscellaneous equipment and improvements.

The Parks and Recreation Department is requesting $12,658 in grant funds from the 1999 Senior Center Appropriation which requires a 10% cash/in-kind match. The in-kind match is available in the Recreation Division and the Public Facilities Division operating budgets.

The Parks and Recreation Department recommends the City of Asheville apply for and enter into an agreement for grant funds through the 1999 Senior Center Appropriation for improvements and equipment at Harvest House and Senior Opportunity Center.

RESOLUTION BOOK NO. 25 - PAGE 393

F. RESOLUTION AUTHORIZING GRANT APPLICATIONS TO THE N.C. DEPT. OF ENVIRONMENT AND NATURAL RESOURCES TO ASSIST WITH THE DEVELOPMENT OF THE FRENCH BROAD RIVER PARK PHASE IV

This item was removed from the Consent Agenda for further discussion.

G. RESOLUTION NO. 00-7 - RESOLUTION AUTHORIZING THE MAYOR TO EXECUTE A RIGHT-OF-WAY AGREEMENT WITH THE N.C. DEPT. OF TRANSPORTATION FOR ROADWAY IMPROVEMENTS TO SPIVEY MOUNTAIN ROAD

Summary: The consideration of a resolution authorizing the Mayor to execute a right-of-way agreement with the N. C. Department of Transportation (NC DOT) for roadway improvements to Spivey Mountain Road.

The City of Asheville purchased a 3-acre site in 1998 for the Regional Water Authority to construct a new water reservoir as part of the 1994 Master Plan improvements for the water system. The property has approximately 400 feet of frontage on the south end of the property along a gravel road (Spivey Mountain Road) maintained by the NC DOT. This road serves as access to the site and the new water main providing water to and from the reservoir from the valley below is in the shoulder of the road.

The NC DOT is proposing, at its expense, to improve Spivey Mountain Road by widening the road to 18 feet and paving the road. Widening will include minor grading along the shoulder, but there are no improvements to alignment or centerline grade proposed. The NC DOT has been maintaining this road in the past without recorded right-of-way on some properties and is now asking those property owners to formally dedicate right-of-way in advance of the improvements.

The proposed roadway improvements are not in conflict with the water reservoir or the use of the property. Staff has discussed the proposed improvements with the NC DOT and have been assured by NC DOT that the road improvements will not create a conflict which would require relocation of the existing water line anywhere in Spivey Mountain Road. With this understanding, the resolution has been prepared authorizing the Mayor to execute a Right-of-Way Agreement dedicating 22.5 feet of right-of-way from the existing centerline to the NC DOT for roadway improvements.

Staff recommends the City Council adopt the resolution.

RESOLUTION BOOK NO. 25 - PAGE 394

H. RESOLUTION NO. 00-8 - RESOLUTION ADOPTING CHANGES REGARDING THE ELIGIBILITY OF CITY EMPLOYEES TO PARTICIPATE IN THE CITY'S SELF-FUNDED EMPLOYEE WELFARE BENEFIT PLAN UPON RETIREMENT

Summary: The consideration of a resolution adopting changes regarding the eligibility of City employees to participate in the City's Self-Funded Employee Welfare Benefit Plan upon retirement.

In June 1993 Council adopted a resolution setting the terms & conditions for retirees to continue health benefits through the City. Two of the provisions of that resolution (Resolution No 93-74) are considered impediments to employees seeking to retire.

The Human Resources Director believes the recommended changes will encourage employees wanting to retire to do so without the financial consequences of not having affordable health care, and further that employees with spouses working for the City can retire with the same benefits that other retirees enjoy whose spouses do not work for the City. The Risk Management Division concurs with this recommendation.

It is also noted that the recommendation will not require any funding from the City beyond the current budget for fringe benefits, and that the impact on the heath plan will be negligible.

Staff from the Risk Management Division and the Human Resources Department jointly recommend the adoption of this resolution.

RESOLUTION BOOK NO. 25 - PAGE 395

I. RESOLUTION AUTHORIZING A CONTRACT WITH CARL WALKER INC. TO DESIGN AND PROVIDE CONTRACT ADMINISTRATION FOR A PARKING DECK IN THE BATTERY PARK AREA

This item was removed from the Consent Agenda for further discussion.

J. BUDGET AMENDMENT FOR THE DESIGN AND PROJECT ADMINISTRATION FOR A PARKING DECK IN THE BATTERY PARK AREA

This item was removed from the Consent Agenda for further discussion.

K. RESOLUTION NO. 00-9 - RESOLUTION SETTING A PUBLIC HEARING FOR FEBRUARY 22, 2000, TO CLOSE A PORTION OF HERMAN AVENUE EXTENSION

RESOLUTION BOOK NO. 25 - PAGE 397

L. RESOLUTION NO. 00-10 - RESOLUTION AUTHORIZING THE MAYOR TO EXECUTE AN AGREEMENT TO QUITCLAIM AN EASEMENT OVER AN ABANDONED WATER TRANSMISSION LINE AT THE SITE OF THE NEW LOWE'S SUPERSTORE AT SOUTH TUNNEL ROAD AND SWANNANOA RIVER ROAD

Summary: The consideration of a resolution authorizing the Mayor to execute a quitclaim for an existing water line easement over an abandoned water main on the property which is currently the site of the Lowe's superstore at the intersection of South Tunnel Road and Swannanoa River Road.

As part of the construction of a new Lowe's superstore at South Tunnel Road and Swannanoa River Road, the site developer relocated a 24" water transmission main which was part of the Asheville water system in order to use the site for the superstore. The new transmission line has been completed, tested, and accepted in accordance with the policies of the Regional Water Authority and the standards of the City of Asheville, and an appropriate easement has been dedicated to the City of Asheville and recorded at the Buncombe County Registry over the new 24" water transmission line. This new line runs under the parking lot for the new store.

Upon acceptance of the new water line a few months ago, the old water transmission line was disconnected from service and abandoned, and a part of the new Lowe's store is now on top of the abandoned line. The new owners of the property, Dreamland Partners, LP, have requested the City of Asheville quitclaim the easement over the now abandoned line.

Staff recommends the City Council adopt the resolution to quitclaim the easement over the abandoned water line.

RESOLUTION BOOK NO. 25 - PAGE 398

M. RESOLUTION NO. 00-11 - RESOLUTION AUTHORIZING STAFF TO PROCEED WITH PHASE ONE OF THE PRITCHARD PARK MASTER PLAN

The Parks and Recreation Department, at the request of City Council, began a public process to determine the future design for Pritchard Park. A task force was developed which represented broad community interests. In the fall of 1998, the City hired the services of Genesis Group to develop a Master Plan for the project. An initial Master Plan was presented in January 1999 and has received broad community support and Council interest. Since then minor changes have been made to the Plan within the framework of the overall proposal.

In conjunction with the Pritchard Park proposal a Downtown Traffic Evaluation was undertaken to determine the feasibility of returning downtown traffic along College Street and Patton Avenue to two-way operation. While the study states that it is feasible to return two way traffic to downtown, financial and other major considerations will preclude any renovation of the traffic network at this time. The Traffic Evaluation Report is currently being studied by the City Engineering Department. There has been on-going interest from the City Council liaison group assisting with the direction of the project, to phase the construction of the park Master Plan. Staff has recommended a phased construction scope for Pritchard Park.

Phase One of the park design and construction will enlarge the park area. The central area of the park will feature a terraced public gathering space, enhanced crosswalks to connect to the surrounding sidewalk areas, planted areas with native trees and shrubs, ornamental lighting, rock work that will display a small water feature, an area for food vendors and opportunities for public art.

In addition to the park expansion, the Phase One construction will include the renovation of the College Street sidewalk area across from the park in an effort to support economic growth and downtown vitality. The sidewalk space will be increased from the current 9 foot width to 18 feet. Other amenities will include trees and tree grates, building access to comply with the American with Disabilities Act, and ornamental street lights. Parallel parking will continue along the sidewalk in front of the buildings on College Street.

The next step for the project will be to complete construction drawings and specifications by the Genesis Group team. Construction is expected to commence in May and be completed by early fall. It is expected that there will be sufficient funds to complete Phase One

City staff recommends City Council authorize the Parks and Recreation Department to proceed with construction documents and implement Phase One for Pritchard Park.

RESOLUTION BOOK NO. 25 - PAGE 399

N. RESOLUTION NO. 00-12 - RESOLUTION AUTHORIZING THE MAYOR TO EXECUTE A CONTRACT AMENDMENT WITH CRISP HUGHES EVANS LLP TO EXTEND THE COMPLETION DATE FOR AUDITING SERVICES FOR FISCAL YEAR 1998-99

Summary: The consideration of a resolution authorizing the Mayor to execute a contract change with Crisp Hughes Evans LLP, Certified Public Accountants, extending the completion date for auditing services for Fiscal Year 1998-99.

N.C. General Statutes sec. 159-34 requires that local governments of North Carolina have their accounts audited each fiscal year and submit a copy of the audit to the Local Government Commission.

During May 1999, the City entered into a contract with Crisp Hughes Evans LLP to conduct the City's annual audit for Fiscal Year 1998-99. The contract called for the audit to be performed and the report of audit submitted by October 31, 1999. Due to delays encountered by City staff in preparing financial statements for the first time using the City's new accounting software and the more extensive audit procedures employed to verify the accuracy of the software's accounting and reporting operations, the report of audit was completed on December 29, 1999. The Local Government Commission requires that any extension of the completion date beyond October 31 must be approved by the City Council. The resolution authorizes the Mayor to execute an amendment to the audit contract to extend the completion date.

City staff recommends Council adopt the resolution.

RESOLUTION BOOK NO. 25 - PAGE 400

O. MOTION APPROVING $35,000, ALREADY BUDGETED IN THE PLANNING & DEVELOPMENT DEPARTMENT BUDGET, TO BE REALLOCATED TO THE CENTER CITY PLAN

Summary: The consideration of a motion approving $35,000, already allocated in the Planning and Development Department budget, to be reallocated to the Center City Plan.

In adopting this fiscal year's budget, the City Council postponed a staffing decision regarding the City Development Office for six months to allow the new Planning and Development Director to prepare a recommendation for staffing this key City Division. Working with the Downtown Commission, a list of expected duties for the City Development Division was prepared and is provided below. In analyzing the list of duties, I am recommending the following staffing arrangement: this organizational structure transfers an added staff member to the City Development Office while keeping the overall staffing level for the City Planning and Development Department (of which City Development is a part) at its current level. If the Center City Plan that is under development proposes significant changes to the functions of the City Development Division, this organizational structure will need to be reconsidered.

- Division Head - this Senior Planner position is to be transferred from the Planning Services Division
- Urban Development Specialist - this existing position is currently filled
- Coordinator/Urban Planner I - this existing position is currently vacant and represents a revised position description from Terry Clevenger's Marketing Coordinator position
- Administrative Assistant - this existing position is currently filled
- Senior Secretary - this existing position is currently filled

City Development Division Functions

FUNCTION
Downtown Commission Liaison
Development Advice; Design Standards; Contractor Ombudsman

Infrastructure Support Coordination - Serve as a central conduit for complaints or concerns about parking, cleanliness, utilities, streetscape
Grant Writing/Fundraising - Facilitate efforts by the City's new grant writer position and by the Downtown Commission or other groups in project-based fundraising and grant applications
General Promotion - coordination of efforts in promoting Downtown
Available Space Inventory
Center City Plan Coordination
Festival Coordination - Serve as a conduit for questions or issues about festivals
Project Coordination - Communicate and relay questions and concerns about Downtown projects; participate in project planning and design
Communication (e.g., newsletter, interactive webpage as part of COA webpage, etc.)
Administrative Duties (supervisory and administrative functions)

In addition to postponing the City Development Division staffing decision, City Council decided to wait for a recommendation from the Planning and Development Director regarding what type of plan was needed for downtown Asheville (this plan is referred to as the Center City Plan). Since the adoption of this fiscal year's budget, the Mayor and the Downtown Commission have held numerous public input sessions soliciting concerns and ideas about downtown. These sessions have resulted in considerable agreement about the direction desired for the future of downtown Asheville. Additional planning work has occurred as part of the Pritchard Park and Downtown Parking Study projects, as well as the Main Street Study and Recommendations, and more is anticipated from the Pack Square Project and the Sustainable Economic Development Task Force report.

Given the extent of the planning that has already occurred and is occurring, it appears that all that is lacking is a way to tie this input together in a priority-based plan that would be prepared by City staff with limited technical assistance and with a continued high level of community involvement. There is $35,000 in this year's Planning and Development Department budget that, with City Council approval, can be reallocated to the Center City Plan. This money will allow City staff to obtain the technical assistance needed to complete the plan in-house under the guidance of the Center City Plan Steering Committee that was formed to provide continuing public involvement in Downtown planning efforts. Technical assistance may be needed in the areas of retail analysis, transportation planning, streetscape design, or other areas that may be dictated by the planning process. Use of these current fiscal year monies will enable staff to fully initiate and possibly complete the Center City Plan this budget year.

The consideration of a motion approving $35,000, already allocated in the Planning and Development Department budget, to be reallocated to the Center City Plan.

Mayor Sitnick said that members of Council have been previously furnished with a copy of the resolutions and ordinances and the Consent Agenda and they would not be read.

Councilman Worley moved for the adoption of the Consent Agenda. This motion was seconded by Vice-Mayor Cloninger and carried unanimously.

ITEMS REMOVED FROM THE CONSENT AGENDA FOR DISCUSSION

RESOLUTION NO. 00-13 - RESOLUTION AUTHORIZING GRANT APPLICATIONS TO THE N.C. DEPT. OF ENVIRONMENT AND NATURAL RESOURCES TO ASSIST WITH THE DEVELOPMENT OF THE FRENCH BROAD RIVER PARK PHASE IV

Summary: The consideration of a resolution to apply for grant funds through the North Carolina Department of Environment and Natural Resources to assist with the construction of the next phase of the French Broad River Park.

Funds are available through the N.C. Department of Environment and Natural Resources, Division of Parks and Recreation in the North Carolina Parks and Recreation Trust Fund, and in the National Recreational Trails Fund to assist with the development of parks and greenways.

The French Broad River Park, Phase IV, represents the City of Asheville's next phase of a major greenway and park system being developed along the French Broad River on Amboy Road. Although the final master plan will not be complete until February, public input requested the park include greenways, bicycle facilities, lawn bowling, soccer and softball fields, restrooms, skateboarding and rollerblading facilities, open space, picnic shelter, parking, and perhaps a welcome center. Phase IV will also connect to a planned N.C. Department of Transportation funded greenway from Hominy Creek on the west, and eventually to the Amboy Road greenway to the east.

The Parks and Recreation Department and RiverLink are in partnership to implement an ambitious fundraising plan to raise approximately $2 million to build the park. RiverLink recently presented a proposal to the Janirve Foundation for $250,000, and has identified an additional $500,000 in funding resources.

The Parks and Recreation Department is requesting $250,000 in grant funds from the North Carolina Parks and Recreation Trust Fund which requires a 50% cash match. The cash match is available through a combination of funds with the Parks and Recreation Department budget, RiverLink, and other sources. In addition, the Parks and Recreation Department is requesting $50,000 from the National Recreational Trails Fund, which requires a 20% cash/in-kind match. The in-kind match is available in the Parks Division budget.

The Parks and Recreation Department recommends the City of Asheville apply for and enter into an agreement for the grant funds through the North Carolina Parks and Recreation Trust Fund and the National Recreational Trails Fund to assist with the construction of the French Broad River Park Phase IV.

Upon inquiry of Councilman Peterson, Parks and Recreation Director Irby Brinson explained the other prior three phases of the project. He explained that the City does have a conceptual master plan that has been developed from community input. He said that they will be meeting with the community again to finalize the plan. He said that the grant application deadline is February 1 and that the grant application does not require exact details in order for the grant to be applied for. The City will not know until May whether or not they have actually received the grant. Mr. Brinson said that at this particular time we are looking to match that money with non-City money from the RiverLink proposal.

Mayor Sitnick was pleased that the City has an opportunity to hire a grants officer who will spend a significant amount of time looking for grants for this kind of a program and other programs.

Mayor Sitnick also noted that the City Council and City staff are doing everything they can recognizing the important history of the Asheville Motor Speedway in our community and to sensitive to that history as we move along in this process.

Councilwoman Field suggested that after the RiverLink Master Plan is finalized, that they be invited to attend a City Council worksession in order to see how their Plan meshes with the City's Parks and Recreation Master Plan.

Mr. Don Yelton pointed out that this property no longer pays property taxes as it did before when it was used for the speedway. He wanted to know the cost for maintaining a 31 acre park in the City. He also asked City staff to check the flood records to see what the cost will be over the next 10-15 years for repairing damage from floods. He felt these additional expenses need to be considered.

Mr. Mike Morgan said that with a city and county that boasts itself on diversity, he was appalled that they didn't take into account the racing fans that are part of the culture in our area.

Mr. Eddie Harwood said that there is not much for families to do in Asheville. He pointed out that the proposed park on the racetrack property is the perfect spot for drug deals to take place. Before long, the City will need full-time law enforcement for the park, resulting in more tax dollars spent.

Mayor Sitnick said that the racetrack was for sale for four years by a private property and it was advertised for sale. No one purchased it. She could not understand why the City, that received the land as a gift, has become bad government. She also wondered what the community would have thought about City Council had they turned down a million dollar gift on behalf of the taxpayers of this community.

Councilman Peterson asked if the City could sell the racetrack property. City Attorney Oast said that the property is subject to some restrictions as to its use and disposition. There are not only deed restrictions, but a conservation easement that covers part of the property as well.

Mr. Eric Gaddy, racing fan, wondered if City Council will be raising taxes to recoup the money lost since the racetrack property will not be paying taxes.

Upon inquiry of Mr. Gaddy about how the City will attract industry since the racetrack is gone, Mayor Sitnick explained that the City has a comprehensive strategic economic development plan for the City of Asheville.

Mr. Gaddy questioned if RiverLink is an entity of the City of Asheville. Mayor Sitnick responded that RiverLink is a private non-profit organization and the only funds they received from the City of Asheville is $18,000 as part of the outside agency request process. Mr. Yelton noted, however, that RiverLink's articles of incorporation spells out that they are an agent of the City and the County.

Councilman Peterson said that even though we will be losing some taxes, we also need to keep in mind that the City needs the ballfields, soccer fields, softball fields, etc. and if we received that property as a donation, that saved the City possibly $1 million that they would have had to spend to buy some property.

Mr. Chad Nesbitt urged City Council to look at the police reports for the French Broad River Park to see how much drug dealing and prostitution goes on in that area. Mr. Brinson said that the City does have a full-time park attendant, as well as a park warden that patrols that area often.

Mayor Sitnick said that members of Council have been previously furnished with a copy of the resolution and it would not be read.

Vice-Mayor Cloninger moved to approve Resolution No. 99-13. This motion was seconded by Councilman Worley and carried unanimously.

RESOLUTION BOOK NO. 25 - PAGE 401

RESOLUTION NO. 00-14 - RESOLUTION AUTHORIZING A CONTRACT WITH CARL WALKER INC. TO DESIGN AND PROVIDE CONTRACT ADMINISTRATION FOR A PARKING DECK IN THE BATTERY PARK AREA

ORDINANCE NO. 2655 - BUDGET AMENDMENT FOR THE DESIGN AND PROJECT ADMINISTRATION FOR A PARKING DECK IN THE BATTERY PARK AREA

Summary: The consideration of a resolution authorizing the City Manager to sign a contract with Carl Walker, Inc., to design and provide project administration for the Parking Deck in the Battery Park area and an associated budget amendment, in the amount of $570,000, for said project.

In October 1999, City Council directed staff to develop a Request For Proposals (RFP) to select a consultant to design a parking deck in the Battery Park area. The RFP was completed in October 1999. Proposals were received on November 19, 1999. Seven firms submitted proposals. The selection team reviewed the proposals and short-listed two firms: Carl Walker, Inc., and Hayes, Seay, Mattern and Mattern, Inc. (HSMM). The interviews were held on December 20, 1999. The selection team recommended Carl Walker, Inc., based upon qualifications.

Phase I of the contract consists of conceptual and preliminary design plans. Phase II of the contract consists of final construction specifications and design. Phase III consist of project administration during the construction phase of the project. The contractor will be allowed 150 calendar days for the completion of Phase I and II.

The estimated cost of Phase I is $153,000, Phase II is $242,000, and Phase III is $115,000 for a total cost not to exceed $510,000. This amount is approximately 6% of the estimated construction costs of the deck ($8.8 Million). The fee for the project is based on an hourly rate plus allowable expenses, not to exceed $510,000. Staff also requests that City Council approve a budget amendment, in the amount of $570,000, for the cost of the above services, surveying and geotechnical testing, in addition to a 10% contingency to be paid from the issuance of Certificates of Participation.

Carl Walker, Inc., proposes to use five sub-consultants in the project. Three of the five are minority or women owned businesses.

Staff recommends that City Council (1) authorize the City Manager to execute a contract with Carl Walker, Inc., to design and provide project administration for the Parking Deck in the Battery Park area; and (2) adopt a budget amendment, in the amount of $570,000, for said project.

Upon inquiry of Councilman Peterson, Finance Director Bill Schaefer said that the $570,000 will be coming from the proceeds of the financing from the Certificates of Participation that the City will be issuing in connection with this project.

Mayor Sitnick said that members of Council have been previously furnished with copies of the resolution and ordinance and they would not be read.

Councilman Peterson moved for the adoption of Resolution No. 00-14. This motion was seconded by Vice-Mayor Cloninger and carried unanimously.

RESOLUTION BOOK NO. 25 - PAGE 402

Councilman Peterson moved for the adoption of Ordinance No. 2655. This motion was seconded by Vice-Mayor Cloninger and carried unanimously.

ORDINANCE BOOK NO. 18 - PAGE 97

III. PUBLIC HEARINGS:

A. PUBLIC HEARING TO CONSIDER THE CONDITIONAL USE PERMIT FOR NETTLEWOOD PROFESSIONAL PARK LOCATED OFF OF HENDERSONVILLE ROAD IN THE VICINITY OF WAL-MART

Ms. Stacy Merten, Urban Planner, said that this project was reviewed by the Technical Review Committee (TRC) on December 20, 1999. The TRC voted to approved the project with conditions which are outlined in a revised staff report dated January 13, 2000. These conditions included a resolution of an access issue through the Deerwood development and approval of a Traffic Impact Analysis prior to Council consideration. As of January 21, 2000, the applicant has been unable to resolve these critical issues which may affect the technical viability of the project. Consequently staff is recommending that the public hearing for this project be continued. Staff plans to meet with the developer and the Deerwood representatives and will have a better understanding of the time frame involved for resolution at the time of the City Council meeting.

City staff recommends that the public hearing for the conditional use permit for the Nettlewood Professional Park located off of Hendersonville Road in the vicinity of Wal-Mart be continued until February 8, 2000.

Vice-Mayor Cloninger moved to continue the public hearing for the conditional use permit for the Nettlewood Professional Park located off of Hendersonville Road in the vicinity of Wal-Mart to February 8, 2000. This motion was seconded by Councilman Hay and carried unanimously.

Councilman Peterson asked if the City has a policy on how many times a matter can be continued. City Attorney Oast responded that there is not really a policy and that each continuance depends on facts and circumstances surrounding the continuance request.

B. PUBLIC HEARING RELATIVE TO EXTENDING THE CITY'S EXTRATERRITORIAL JURISDICTION OF AN AREA NORTH OF THE CITY'S CORPORATE LIMITS AND THE ZONING OF PROPERTIES WITHIN THE AREA

ORDINANCE NO. 2656 - ORDINANCE TO EXTEND THE CITY'S EXTRATERRITORIAL JURISDICTION OF AN AREA NORTH OF THE CITY'S CORPORATE LIMITS AND THE ZONING OF PROPERTIES WITHIN THE AREA

Vice-Mayor Cloninger asked that he be excused from participating in this matter since the firm, of which he is a partner in, represents the owner of the property on an on-going basis. Therefore, Councilwoman Whitmire moved to excuse Vice-Mayor Cloninger due to a conflict of interest. This motion was seconded by Councilman Worley and carried unanimously.

Mayor Sitnick opened the public hearing at 6:03 p.m.

Urban Planner Mike Matteson said that this is the consideration of an ordinance extending the City's Extraterritorial Jurisdiction (ETJ) in an area north of the City's corporate limits and the zoning of properties within the area. This public hearing was legally advertised on January 14 and 21, 2000.

In response to direction from both the Planning and Zoning Commission and City Council, the Planning and Development Department staff is proposing the extension of the City's ETJ in an area north of the City's corporate limits.

The provisions for exercising powers in an area of ETJ are governed by N. C. Gen. Stat. sec. 160A-360. These provisions grant a city the authority to extend ETJ "within a defined area extending not more than one mile beyond its limits". With the approval of the Board of County Commissioners, a city of more than 25,000 population can extend its ETJ up to three miles beyond its corporate limits. Upon the establishment of extraterritorial jurisdiction, property within the ETJ area becomes subject to the City's zoning, subdivision and other land development ordinances.

The area proposed for ETJ extension totals approximately 616 acres and is primarily either undeveloped or developed at a low residential density. The topography of the area is generally steeply sloping and mountainous. The proposed Reynolds Mountain Subdivision, which received preliminary plat approval from the Planning and Zoning Commission in December of 1998, is partially within the area proposed for ETJ extension. Although most all of the property was outside of the City's zoning jurisdiction, it is expected to have an impact on the City, particularly the street system through the Lakeview Park neighborhood. It was felt that by establishing ETJ the City would have a greater ability to plan for and manage future growth in the area.

The proposed boundaries for the ETJ area follow the phase line within the Reynolds Mountain Subdivision (as illustrated on the approved preliminary plat) and otherwise generally follow property lines or streets. At one point, at the northern end of the area, the boundary coincides with the one-mile distance from the City's corporate limits.

The Town of Woodfin is also pursuing the extension of ETJ in the area. Staff from the Planning and Development Department worked with Town of Woodfin officials to determine a line of demarcation separating potential City of Asheville ETJ with potential Town of Woodfin ETJ. This general line of demarcation has been endorsed by the Asheville City Council on August 10, 1999, and the Town of Woodfin Board of Aldermen.

Another issue associated with the ETJ extension is the zoning of the properties within the area. Staff has studied the area and is recommending a combination of RS-2 (residential single-family low density) and RS-4 (residential single family medium density) zoning. RS-2 zoning is recommended for the majority of the area, where current lot sizes are generally large and where steep slopes suggest low densities. RS-4 zoning is recommended in an area which is generally developed with a number of properties which, due to their size (under ½ acre), would be non-conforming within the RS-2 zoning district.

He reviewed a map which shows the area proposed for ETJ extension and another showing the proposed zoning within the area.

Council is asked to take two separate actions regarding this issue. The first action will be to determine whether to extend the City's ETJ in this area. If the determination is to extend the ETJ, the second action will be to zone the properties within the area.

Mr. Michael Goforth, representing Tom Coleman who is one of the owners of Sherwood Heights Inc., R.L. Coleman & Company, said that their property is approximately 160 acres. They object to the City zoning this land residential and forcing them to come before the Planning & Zoning Commission if they want to develop their property. They request their 160 acres not be considered in this action.

Upon inquiry of Mr. Goforth about ETJ representation on the Board of Adjustment or the Planning & Zoning Commission, City Attorney Oast said that the law requires property owners be notified of their opportunity to be appointed on the Planning & Zoning Commission and/or the Board of Adjustment at such time as their property comes within the ETJ, but not before that happens. He explained that if their property is within the ETJ then they are eligible to be appointed by the County Commissioners.

Mr. Clarence Biggs, representing his father an neighbor, stated that their property is located to the north of Beards Cove and if any zoning is designated, the Town of Weaverville should do it, because they receive all their emergency services from the Town of Weaverville.

In response to concerns of Mr. John Cort, area property owner, Mr. Matteson said that one of the issues Mr. Cort raised is the issue of the City's street standards in our subdivision regulations and whether or not properties could be accessed from a common drive. They can under our current ordinance. All lots that are created would have to abut a public street, but a single drive could serve to provide access to a number of those lots. In terms of just the development potential of this area, with a planned unit development, that gives a little more flexibility and allows a little more creativity in the design of new developments. He felt that is particularly true in areas with steep slopes.

Upon inquiry of Councilwoman Whitmire, Mr. Matteson said that this ETJ is not an annexation issue and doesn't affect property taxes at all.

In response to Councilman Peterson, Mr. Matteson said that the property owners in the area are aware of the zoning proposal.

Councilman Worley wondered if it would be difficult to get streets in that area and still comply with our restrictions on maximum street grade. He felt that if it is developable land, it is certainly to our advantage to include it in the ETJ, but not if it creates an inability to develop it. Mr. Matteson didn't think that was the case with this property. He also said that the Engineering Department is currently looking at all of those standards and there may be an opportunity to look at those standards in particular as they relate to steeply sloping areas.

Planning & Development Director Scott Shuford pointed out that we do have a planned unit development provision that would allow some clustering of units on land that was flat over the entire area. Also, one of the difficulties we find ourselves in when we ultimately end up annexing developed property around the City that has been built to either some lesser standard or no standard at all, is how do you overcome the costs associated with bringing those properties up to what the City would consider to be appropriate standard and the legal obligation that we have to do that as part of our annexation efforts. Again, the UDO does have some provisions right now would allow some creativity in lot design that is ideally suited for situations like these steep slopes. He also pointed out that Planning staff will be bringing to City in the near future a conditional use zoning approach that would allow Council to change the zoning of this property and have it developed in accordance with a site plan that would make sense for all parties.

An area property owner questioned why his area is not annexed since it is a fairly self-contained community and fully developed. Mr. Shuford said that in our latest annex study, this property was not considered. However, we have not received anything from our consultant about future phrases and that be an area to be included.

Mayor Sitnick closed the public hearing at 6:33 p.m.

Mayor Sitnick said that members of Council have previously received a copy of the ordinance and it would not be read.

Councilman Peterson moved for the adoption of Ordinance No. 2656. This motion was seconded by Councilwoman Field and on a 5-1 vote with Councilwoman Whitmire voting "no".

ORDINANCE BOOK NO. 18 - PAGE 99

IV. UNFINISHED BUSINESS:

V. NEW BUSINESS:

A. RESOLUTION NO. 00-15 - RESOLUTION DECLARING THE INTENT OF THE CITY OF ASHEVILLE, NORTH CAROLINA, TO REIMBURSE ITSELF FOR CAPITAL EXPENDITURES INCURRED IN CONNECTION WITH THE ACQUISITION AND CONSTRUCTION OF A PARKING FACILITY FROM THE PROCEEDS OF CERTAIN TAX-EXEMPT OBLIGATIONS TO BE EXECUTED AND DELIVERED IN THE YEAR 2000

Finance Director Bill Schaefer said that this is the consideration of a resolution declaring the intent of the City to reimburse itself for capital expenditures incurred in connection with the acquisition and construction of a parking facility in the vicinity of Battery Park from the proceeds of financing.

City Council has previously directed staff to initiate action to obtain options to acquire land, retain real property and financial advisors, and contract for the design of a parking deck in the vicinity of Battery Park. City Council has also previously passed budget amendments authorizing expenditures for the project, with the supporting revenues to be provided from the proceeds of a Certificates of Participation (COPs) issue. The current project schedule calls for the COPs to be issued in the summer of 2000. However, project expenses are presently being incurred and the first payment of project expenses was made on January 5, 2000. U.S. Treasury regulations require that, if the City intends to reimburse itself from the proceeds of a tax exempt financing for certain project expenses, which were paid prior to the closing date of the financing, it must adopt a resolution evidencing that intent. The resolution of intent may cover expenses paid by the City during the period beginning sixty days prior to adoption of the resolution of intent and ending on the day of issue of the financing. The resolution indicates the City's intent to reimburse itself accordingly.

City staff recommends Council adopt the resolution.

Mayor Sitnick said that members of Council have been previously furnished with a copy of the resolution and it would not be read.

Councilman Worley moved for the adoption of Resolution No. 00-15. This motion was seconded by Councilwoman Field and carried unanimously.

RESOLUTION BOOK NO. 25 - PAGE 403

VI. OTHER BUSINESS:

A. RESOLUTION NO. 00-16 - RESOLUTION AUTHORIZING THE CITY STAFF TO EXECUTE DOCUMENTS RELATING TO THE REDEVELOPMENT OF DISPOSAL PARCEL 6B OF THE HEAD OF MONTFORD REDEVELOPMENT PROJECT

City Attorney Oast said that this is the consideration of a resolution authorizing City staff to execute documents relating to the redevelopment of Disposal Parcel 6B of the Head of Montford Redevelopment Project.

Neighborhood Housing Services of Asheville, Inc.(NHS) has requested from the City a Consent to Transfer and a Loan Subordination Agreement in connection with the proposed redevelopment of Disposal Parcel 6B.

The City conveyed Disposal Parcel 6B to NHS for redevelopment and provided purchase money financing in the amount of $85,000. NHS has secured a loan commitment from the Bank of America to finance the construction of the planned improvements on the property. Part of the project financing will be from the sale of Low-Income Housing tax credits. In order to facilitate the financing for the redevelopment NHS has requested the City to consent to the transfer of title to the property to Montford Gateway, LLC, a wholly owned subsidiary of NHS and to subordinate the purchase money loan to the loan from Bank of America.

Approval of the resolution will authorize the Planning & Development Director or the Community Development Director to execute the necessary documents to consent to the transfer and loan subordination.

Community Development staff recommends adoption of the resolution.

Upon inquiry of Councilman Worley, Mr. Vess said that he had no problem with putting a limit on what we would subordinate to the construction loan, however, he requested that Council give staff the opportunity to discuss the amount with the Bank of American and NHS to see what they think their total need is going to be. Again, he didn't see a problem with putting a limit on what we would subordinate. He asked Council to trust his judgment in that the amount will be somewhere in the range of $400-450,000, noting that they will be looking at the total project to make sure that it is reasonable.

Mayor Sitnick said that members of Council have been previously furnished with a copy of the resolution and it would not be read.

Councilman Hay moved for the adoption of Resolution No. 00-16. This motion was seconded by Councilwoman Whitmire and carried unanimously.

RESOLUTION BOOK NO. 25 - PAGE 405

B. CLAIMS

The following claims were received by the City of Asheville during the period of January 7-13, 2000: Ed Yockey (Civic Center), Daphine Jones (Streets), Mark Parlier (Water), Michael Margolin (Water), Karen Taylor (Parks and Recreation) and Melvin Lilly (Water).

The following claims were received during the period of January 14-20, 2000: Jack Hyder (water), Dale Williams (Civic Center), Gene Marshbanks (Water) and Lauren Rose (Finance).

These claims have been referred to Asheville Claims Corporation for investigation.

VII. INFORMAL DISCUSSION AND PUBLIC COMMENT:

A. COMMENTS BY MS. SHIRLEY DOZIER

Ms. Shirley Dozier passed out to City Council a letter dated January 25, 2000, and asked that the continuing harassment of the Dozier family by the City of Asheville be stopped.

B. COMMENTS BY MR. DON YELTON

Mr. Don Yelton said that the history of car racing has more roots in Western North Carolina than most people know. Even though car racing does not have glamour, he asked Council to consider (a) putting deed restrictions on a piece of property that will never let racing occur on that piece of property even if a local businessman is willing to buy that piece of property at a substantial profit from the City; (b) letting a businessman spend his time and his money finding a piece of property that the City Council did not know that they owned and refusing to let that businessman do soil borings that would provide valuable information to the City and to the Airport if they ever develop that property; and (c) not having any racing next year. That will definitely hurt the local economy. He pledged his efforts to keep the native culture of car racing alive.

VIII. ADJOURNMENT:

Mayor Sitnick adjourned the meeting at 6:49 p.m.

Magdalen Burleson
CITY CLERK

Leni Sitnick
MAYOR

Tuesday - February 1, 2000 - 3:00 p.m.

Worksession

Present: Mayor Leni Sitnick, Presiding; Vice-Mayor M. Charles Cloninger; Councilwoman Barbara Field; Councilman Edward C. Hay Jr.; Councilman Brian L. Peterson; and Councilman Charles R. Worley; City Attorney Robert W. Oast Jr.; City Manager James L. Westbrook Jr.; and City Clerk Magdalen Burleson

Absent: Councilwoman Terry M. Whitmire

CITY COUNCIL GOALS AND OBJECTIVES

Mayor Sitnick announced that due to the weather, the City Council goals and objectives portion of the City Council retreat held on January 28, 2000, was rescheduled to this meeting. However, due to absence of Councilwoman Whitmire, that portion of the meeting will need to be rescheduled again. Councilman Worley moved to reschedule the City Council goals and objectives portion of the City Council retreat to Sunday, February 6, 2000, at 3:00 p.m. in the City Hall Building. This motion was seconded by Vice-Mayor Cloninger and carried unanimously.

CONSENT:

Grant Application to the Pigeon River Fund for the Broadway Greenway

Summary: The consideration of a resolution to apply for grant funds through the Pigeon River Fund to assist with the clean up of private property along Reed Creek for a donation of approximately 0.5 acre of land, which will be used for the Broadway Greenway.

The Broadway Greenway represents one of the City of Asheville's top greenway priorities in greenway development along Broadway. Funds are available through the Pigeon River Fund to assist with the development of greenways that make a significant impact on water quality. The grant will be used to clean up and restore approximately 540 feet of streambank along Reed Creek located in the Montford neighborhood. The City will retain the corridor amounting to 0.5 acre for use for the Broadway Greenway. The funds will be used to remove overgrowth of kudzu, remove debris, and restore the streambank, which is highly scoured and degraded. The streambank will be replanted with native riparian trees and shrubs.

The Parks and Recreation Department is requesting $19,940 in grant funds from the Pigeon River Fund. The grant does not require matching funds but strongly encourages a cash or in-kind match. The in-kind match of project management is valued at 25% of the request, and is available in the Parks Division operating budget.

The Parks and Recreation Department recommends the City of Asheville apply for and enter into an agreement for the grant funds through the Pigeon River Fund to assist with the clean up of private property for an easement for the Broadway Greenway.

Grant Application to the Community Foundation of WNC for the Youth Employment Program

Summary: The consideration of a resolution to apply for and enter into an agreement with the Community Foundation of Western North Carolina in the New Horizon Grant Program to assist with the expansion of the Youth Employment Program currently managed by the Parks and Recreation Department.

462

The Youth Employment Program represents the City of Asheville's commitment to provide youth with valuable opportunities that have significant impact in their development preparation to be employable members in our community. The expansion of the Youth Employment Program is a result of a recent collaboration between the City of Asheville, the Community Foundation, Job Link, the Asheville Housing Authority, and the Chamber of Commerce. The Parks and Recreation Department is requesting $7,500 in grant funds from the Community Foundation. The grant does not require matching funds.

The Parks and Recreation Department recommends the City of Asheville to apply for and enter into an agreement for the grant funds through the Community Foundation of Western North Carolina to assist with expanding the Youth Employment Program.

Grant Applications for Public Art and Heritage Trails Program

Summary: The consideration of a resolution applying for funds through the North Carolina Arts Council, the Community Foundation of Western North Carolina, and AdvantageWest North Carolina to assist with programs that support the arts and provide for tourist related economic development.

The City of Asheville wishes to apply for grant funds to accomplish two objectives: to assist with the development of a Public Art Master Plan and to promote the Asheville Urban Trail as part of its Public Art and Heritage Trails Program.

The first request is to establish a Master Plan for Public Art that will include a five year strategy on how best to provide art in public places. This will include selection criteria, a capital budget, funding sources, and a process for gaining community input. The Plan would be submitted to City Council for approval and be used to guide the activities of the Public Art Board. The plan itself will be prepared by staff and members of the Public Art Board.

The second request reflects the fact that the Asheville Urban Trail is nearing completion and requires additional promotional materials to enable visitors and residents to use the Trail.

Requested grant funds are primarily to assist with the cost of printing and distribution of promotional materials for the Urban Trail and the Master Plan for Public Art, and to obtain community input on and support for the Public Art and Heritage Trails Program .

The Parks and Recreation Department is requesting $6,000 in grant funds from the North Carolina Arts Council which requires a 50% cash and/or in-kind match. It is anticipated that the $3,000 required for the cash match will come from proposed project funds (percent-for-art) for the public art program. The in-kind match is available in the Park Maintenance Operational budget. The Parks and Recreation Department also requests $6,000 from the Community Foundation of Western North Carolina and $5,000 from AdvantageWest North Carolina.

: The Parks and Recreation Department recommends the City of Asheville apply for and enter into an agreement for grant funds through the North Carolina Arts Council, Community Foundation of Western North Carolina, and AdvantageWest North Carolina to assist with the development the Public Art and Heritage Trails Program.

Budget Amendment to Amend Water Capital Project Ordinance - 29 Fund

Summary: The consideration of a budget amendment to amend Capital Project Ordinance 92-17 (29 Fund - Water Bond Capital Improvements Fund) to fund current and expected change orders associated with the Mills River Project.

By Resolution 92-17 dated May 19, 1992, the Authority authorized and budgeted for various capital projects to be funded by City Water Bond proceeds. In October 1999, the Authority approved a change order with CDM to extend full-time on-site construction management services for the Mills River Water Treatment Plant from August 29, 1999, to November 15, 1999 (79 day delay). This was approved in the amount not to exceed $104,549. Since that time, there has been an additional 39 day delay, but the amount has been negotiated to remain at $104,549. In addition, a change order has been negotiated in the amount of $71,483.05 for necessary additional work required to complete the contract with Metric. There is sufficient funding of $236,307 in the Mills River Project Contingency for these change orders.

In addition to these change orders, there are the following anticipated change orders: approximately $20,000 for a change order with Hays and Lunsford (the electrical contractor) for the Mills River Project and $86,790 with NC DOT for the Mills River Transmission Main. Further, the Director recommends $81,378.61 be set aside to use any part as necessary for legal and engineering services pertaining to the issue of liquidated damages.

There is not enough Mills River Contingency to fund all of these changes, so staff is requesting the transfer of $49,760 from the Brevard Rd/Sand Hill Bridges line item. This was targeted for design and engineering for Sand Hill and Brevard Road Bridges that will have to be postponed until additional funding is available from pay-as-you-go CIP or from a bond issue in Fiscal Year 2000-01. A Budget Amendment will transfer $49,760 from the Brevard Rd/Sand Hill Bridges to Mills River Contingency.

The Water Authority approved an amendment to Capital Project Ordinance 92-17 at the January 18, 2000, meeting to fund current and expected change orders associated with the Mills River Project.

The Regional Water Authority recommends approval of a budget amendment for Capital Project Ordinance 92-17 to reprogram funds to increase the Mills River Contingency in order to fund current and expected change orders associated with the Mills River Project.

Budget Amendment to Accept Grant for Police Department

Summary: The consideration of a budget ordinance amendment, in the amount of $6,500, to appropriate funds to offset expenditures from the Police Department (safety equipment) budget.

In July of 1999, with the approval of the City Manager, the Police Department applied for partial reimbursement for bullet proof vests through the Bureau of Justice Assistance. Total funds expended were approximately $12,000. On October 13, 1999, the Police Department was notified that 50% of the funds it expended for bullet proof vests ($6,537.13) was awarded to them through the Bulletproof Vest Partnership Grant Act of 1998.

Staff recommends adoption of a budget ordinance amendment appropriating $6,500 to the Police Department budget.

Adoption of the Fiscal Year 2000-01 Budget Schedule

Summary: The consideration of a motion approving the Fiscal Year 2000/2001 budget schedule.

The proposed Fiscal Year 2000/2001 budget schedule identifies key dates for completion of all phases of the budget process leading to adoption. Certain administrative phases of the budget process including the distribution of budget materials and instructions have already begun or have been previously approved by City Council (i.e. City Council Retreat). Other key phases include submission of departmental requests, presentation of the proposed budget to City Council, a public hearing and formal adoption. Adoption of the Fiscal Year 2000/2001 budget is scheduled for June 2, 2000.

City staff recommends City Council adopt the Fiscal Year 2000/2001 budget schedule.

Annual Asphalt & Concrete Repair Contract

Summary: The consideration of a resolution confirming the contract award by the Regional Water Authority for a new annual asphalt and concrete repair contract by APAC Carolina Inc. which is an average 5% less than the current contract with APAC.

Bids for unit prices for contracted asphalt and concrete replacement work resulting from utility repair excavations have been received by the City's Engineering Department. The bids were advertised twice and only one bid was received, from APAC Carolina Inc. The bid has been evaluated and is responsive to the Minority Business Plan. Unit prices are on average about 5% lower than the current contract.

The contract establishes the unit prices for all work performed by APAC but does not guarantee any minimum quantity. Generally, the contractor under this agreement has provided asphalt and concrete work on State highways and in the unincorporated areas of the County.

The alternate bid includes unit prices for after hours and weekend work and those prices will only be paid when the work is specifically authorized by the Water Resources Department under an after-hour requirement. Immediate asphalt repair is required by the N. C. Dept. of Transportation on major thoroughfares such as US 19/23, US 25, US 70, etc.

In addition to this contract, the City repairs some utility cuts with in-house crews. In past years, the City of Asheville Street Division has provided the work on City streets, but under a re-engineering proposal, based on a Memorandum of Understanding, the Water Resources Department took direct control over the City crews for utility cut repair on October 1, 1999. The Water Resources Operations Manager will oversee this contract and the City repair crews and will evaluate what repairs are more cost-effective to contract and what repairs are more cost-effective to perform with our crews.

Staff recommends that the City Council approve the execution of a contract with APAC Carolina Inc. for the annual asphalt and concrete repair, which was awarded by the Regional Water Authority on January 18, 2000.

Approval of Engineering Services Contract for Critical Needs State Grant - Phase II

Summary: The consideration of a resolution confirming the contract award of engineering services contracts to McGill Associates and Cavanaugh & Associates, contingent upon the Water Authority receiving selection for a State grant based on an application submitted by the Water Authority on November 23, 1999.

On Friday, January 7, 2000, six proposals were received from consulting engineering firms for engineering services for Contracts 1-4 defined under an application dated November 23, 1999, by the Authority for a $3.0 Million State grant. On Thursday, January 13, 2000, a selection committee approved by the Water Authority's Policies & Priorities Committee and consisting of Ms. Leslie Thornton, Mr. Mike Brookshire, and Mr. Tom Frederick met after reviewing the proposals. The selection committee ranked the proposals based on the following criteria set out in the Request for Proposals (RFP): firm's demonstrated qualifications, ability to meet the design schedule, project approach, financial standing of firm, and the firm's minority business plan. Based on these criteria, the committee selected McGill Associates and Cavanuagh & Associates for this work.

Following the evaluation based on RFP criteria, the committee also reviewed fees for these two firms. The Director was authorized by the Selection Committee to conduct further negotiations with the selected firms and the fees recommended in the resolution are very competitive and within the budget prepared in the grant application.

Other firms submitting proposals include W. K. Dickson, William G. Lapsley & Associates, Mattern & Craig, and Vaughn & Melton.

The staff expects to receive word from the State of North Carolina on grant selections about February 1, 2000. With the adoption of the resolution, staff will complete the final contracts for execution by the engineering firms, but the Chairman will not execute the contracts until a grant award is made by the State. The State requires final engineering design be completed and permitted within 120 days of award to confirm the grant offer, therefore, engineering work must start immediately after an award is confirmed.

On January 18, 2000, the Regional Water Authority unanimously approved the staff recommendation.

Staff recommends the City Council approve the execution of engineering contracts with McGill Associates for $122,500 and with Cavanaugh & Associates for $83,000 contingent upon the Authority's November 23, 1999 application being selected by the State of North Carolina for a grant.

Budget Amendment for the 1999 Senior Center Appropriation

Summary: The consideration of a budget amendment, in the amount of $12,658, for an appropriation from the State of North Carolina, Department of Health and Human Services, Division on Aging to implement facility improvements and purchase equipment for the Senior Opportunity Center and Harvest House.

The City of Asheville applied for funds in January 2000 for the 1999 Senior Center Allocation from the State of North Carolina, Department of Health and Human Services, Division on Aging. The allocation was recently awarded in the amount of $12,658 and designated for facility improvements and purchasing equipment at Senior Opportunity Center and Harvest House.

The Parks and Recreation Department is responsible for the management and operation of two senior centers. The annual allocation from the State of North Carolina will assist the department in implementing facility improvements and purchasing equipment and supplies.

The Parks and Recreation Department recommends City Council approve the budget amendment, in the amount of $12,658, to establish a budget for the next phase of improvements at Senior Opportunity Center and Harvest House.

Mayor Sitnick asked that the record show that City Council has received this information and instructs the City Manager to place these items on the next formal City Council agenda.

UPDATE BY THE FILM BOARD

Film Board Chairman Pam Turner updated City Council on accomplishments that have been made since the Film Board was created.

The Asheville Film Board was created in September 1998 for the purpose of encouraging film production in the Asheville area. Since this time, the Film Board has accomplished several goals toward this end. An internet web site has been created and education workshops are being developed to educate the community about the film industry.

She said that their mission as established by the Council is to: "Act as liaison to film crews that come to Asheville and to act as ambassadors on behalf of the City to that industry."

They also established an additional mission statement, which is: "To enhance the economic potential of Asheville by providing educational and promotional opportunities towards the growth of the film, TV and print industries."

Six tasks accomplished include:

- Marketing of City of Asheville to the film industry - This past fall after several months of planning we established our own web site (Ashevillefilmboard.com.)
- Do a more aggressive job of recruiting films the City of Asheville - Because we have no official status with the State Film Commission or The WNC Film Commission under the auspices of Advantage West, we have not been able to directly engage in any activities to aggressively recruit films to Asheville other than our website. We will be going to the Location 2000 Trade fair in Los Angeles, California, in March working with Advantage West and thank the City for providing these funds. This is the first step in making the industry aware of our existence and marketing Asheville. Because the Western North Carolina Film Commission represents 23 counties equally and according to Mary Nell Webb, the philosophy of the Commission is to "take it as it comes" we feel it is vitally important that Asheville take the a leading role in recruiting films to this area. In this industry's climate we cannot wait for them to come knocking on our door.
- Help entice a private developer establish a film studio and postproduction facility in our community - At this time we all realize that to make Asheville a film industry center, the City needs to make this a priority. This is a clean industry that can provide jobs for our young people. This is an industry where youth or age is not a disadvantage. We need to make a joint effort with the Advantage West, The Chamber and the City to make this a reality.
- Create a resource guide - The Film Board is very interested in moving ahead with this project. We will need money for printing and mailings as well personnel to compile an up to date guide that would require periodic updates. In the meantime we are collecting areas guides from other to determine what it would take to produce our own.
- Lure a television series here. - Though not an impossibility, we feel at this time without a fulltime paid film recruiter and /or studio the chances are very remote.
- Establish workshops and training - We are proud to announce that on Tuesday, March 28 and March 30 from 7 p.m. to 9 p.m. we will offer two-community education programs at A/B Tech. The first will deal with information for members of the general public interested in becoming involved in the movies. Some of the topics covered will be: Casting (actors and extras), Locations, History of film in Asheville, How to find work. The second night will be devoted to businesses and professionals that want to have access to work when films are located here.

We have discussed with A/B Tech the need for them to create a film curriculum similar to the one at Trident Community College in South Carolina. It's the chicken and egg syndrome. (Slides of Trident curriculum) Until there are jobs for their graduates, they don't want to offer a course. Until we have a trained work force, it is difficult to attract a studio and post-production facility.

The Asheville Film Board is experiencing a level of frustration because there is so much that could be done but there are limited resources with which we can work. If the City wants to attract more films to this area, it needs to hire a full time professional, and we do mean professional, film commissioner, to aggressively recruit new projects, work with them before and while they are here and attract a film studio. Currently there is no one who has the expertise or time to devote to an industry that already is contributing millions to the local economy.

We also would like to request that a budget be established for the Film Board so that we increase our effectiveness. We know that most boards help to establish policy but we feel that we are more of an arm of Economic Development and as such need promotional materials and assistance not normally given to a board.

This is a group of very devoted volunteers who feel that there are great opportunities to increase the film industry in Asheville if the necessary resources are committed to it. This is an investment that will benefit the citizens of the Asheville area with jobs and an enhanced economy.

Ms. Turner answered various questions from Council regarding their status as a board vs. a commission.

Vice-Mayor Cloninger, as did the entire Council, spoke in support of the Film Board and their accomplishments to date. He felt that the Film Board is an extension of economic development and should be considered during the budget deliberations.

It was the consensus of City Council to have the Film Board look into the possibility of creating more of an official status.

Upon inquiry of Mayor Sitnick, Ms. Turner said that the Board is working on a "film friendly policy".

Councilman Peterson wondered if the Board was reorganized into something like the "Asheville-Buncombe Film Commission" if the Buncombe County Commissioners and/or the Tourism Development Authority would be interested in helping fund some of the needs.

TRAFFIC CALMING POLICY

City Traffic Engineer Michael Moule said that this is the consideration of a resolution adopting the Traffic Calming Policy for the City of Asheville.

Citizens have previously expressed concerns about speeding traffic in Asheville neighborhoods. The City Council has shown their commitment to traffic calming by including a budget for traffic calming measures in the 1999-2000 budget. With input from other City departments and the general public, the Engineering Department has drafted a Neighborhood Traffic Calming Policy. This policy is intended to guide city staff and inform residents about the processes and procedures for implementing traffic calming on residential streets. Under the policy, the Traffic Engineering Division will work with residents to identify traffic problems in their neighborhoods and seek appropriate solutions.

Staff recommends that City Council adopt the Neighborhood Traffic Calming Policy in order to provide the methodology for implementing traffic calming on residential streets in the City.

Mr. Moule then reviewed the purpose of the policy, what streets are addressed by the policy, the process (in steps 1-11) which will be followed in the policy, along with the rating criteria.

Mr. Moule and City Engineer Cathy Ball responded to several questions and comments from Council; some being, but are not limited to: how is this policy different from an earlier City policy; what is the average cost of instituting traffic calming on a street; what kind of data will the crash history contain; and is the percentage too high for the necessary petition support and what areas are included for that percentage.

Mayor Sitnick asked that the record show that City Council has received this information and instructs the City Manager to place this item on the next formal City Council agenda.

BUDGET AMENDMENT REGARDING ANIMAL CONTROL SERVICES

Mr. Alan Hyder, Support Services Manager for the Police Department, said that this is the consideration of a budget ordinance amendment, in the amount of $34,000, to appropriate funds to the Police Department budget to fund the Fiscal Year 1999 - 2000 animal control contract for animal control services within the City.

The City contracts with Buncombe County Friends for Animals (BCFFA) for the provision of animal control services. The Fiscal Year 1999/2000 contract is in the amount of $135,000. This is $34,000 over what was budgeted. An appropriation from the City contingency fund, 110-0601-414-5097, to the Police Department budget, 110-3503-421-3010, Professional Services, in the amount of $34,000 is requested.

The increase is necessary because the initial contract for animal control services was underfunded to provide the required services. The $135,000 more closely matches the required funding for the services received. This information was not brought to the City's attention at a time when it could have been included in the Fiscal Year 2000 budget proposal.

Staff recommends adoption of a budget ordinance amendment appropriating $34,000 to the Police Department budget.

Upon inquiry of Vice-Mayor Cloninger, Mr. Hyder explained that if the City were to resume handling animal control in-house, their estimate for start-up for the first year would be $308,000. The second and subsequent years would be approximately $190,000 annually.

Mr. Hyder responded to questions from Council regarding from the number of animal control officers BCFFA employs, how officers are professional trained, and how many officers are assigned to the City.

Upon inquiry of Councilwoman Field, City Attorney Oast said that in our animal control ordinance certain laws are required to be complied with.

The Executive Director of BCFFA explained some of the services City residents receive. In addition, he summarized a letter from Buncombe County Commissioner Chairman Tom Sobol which stated that the County performed an audit for Fiscal Year 1998-99 and found that BCFFA's financial records demonstrate that they have administered public funds in compliance with their contract. He suggested that the City might want to investigate changing the civil penalties from $10 to perhaps $50 for the first offense and language that would allow them to intervene at an earlier stage with regard to cruelty to animals.

City Attorney Oast was instructed to look into strengthening the civil penalties and other provisions that would allow early intervention under the current law.

Mayor Sitnick asked that the record show that City Council has received this information and instructs the City Manager to place this item on the next formal City Council agenda.

NEXT COMMUNITY MEETING

It was the consensus of City Council to hold it's next community meeting at the Shiloh Community Center area on Tuesday, February 29, 2000, beginning at 7:00 p.m.

Mayor Sitnick asked that the record show that City Council has received this information and instructs the City Manager to place this item on the next formal City Council agenda.

RECYCLING INITIATIVES

Ms. Karen Rankin, Waste Management Coordinator, reviewed with Council several options to improve recycling participation and increase recovery rates. Options and benefits reviewed were (1) weekly curbside recycling program; (2) biweekly collection with the addition of mixed paper; (3) weekly collection with the addition of mixed paper; and (4) remain at current levels.

It was the consensus of City Council instruct the City Manager to bring back the appropriate paperwork at the February 22, 2000, meeting to begin implementation as soon as possible of biweekly collection, with the addition of mixed paper to the collection stream (at a proposed price of $2.06 per household per month).

OTHER BUSINESS

Vice-Mayor Cloninger updated City Council on a meeting he had with the League of Women Voters regarding the public access channel.

It was the consensus of City Council to have the City Attorney prepare the proper paperwork to increase the membership on the Public Access Channel Commission from five to nine members.

Due to a National League of Cities Congressional Conference, it was the consensus of City Council to reschedule the Tuesday, March 14, 2000, City Council formal meeting until Wednesday, March 15, 2000, beginning at 5:00 p.m. in the Council Chamber, City Hall Building.

Mayor Sitnick made the following liaison appointments: (1) Terry Whitmire to the Educational Access Channel Commission; and (2) Vice-Mayor Cloninger (along with Councilman Peterson) to the Public Access Channel Commission.

ADJOURNMENT:

Mayor Sitnick adjourned the meeting at 6:15 p.m.

Magdalen Burleson
CITY CLERK

Leni Sitnick
MAYOR

Tuesday - February 8, 2000 - 5:00 p.m.

Regular Meeting

Present: Mayor Leni Sitnick, Presiding; Vice-Mayor M. Charles Cloninger; Councilwoman Barbara Field; Councilman Edward C. Hay Jr.; Councilman Brian L. Peterson; Councilwoman Terry M. Whitmire; and Councilman Charles R. Worley (participated by speaker phone); Assistant City Attorney S. Patterson Brison Meldrum; City Manager James L. Westbrook Jr.; and City Clerk Magdalen Burleson

Absent: None

INVOCATION

Councilman Hay gave the invocation.

ADDITIONS TO THE AGENDA

City Manager Westbrook asked that a resolution setting a public hearing date for February 22, 2000, for the voluntary annexation of property identified as Oakbrook, Phase 1 at Biltmore Park be added to the Consent Agenda.

Mayor Sitnick asked that a disclosure statement regarding Councilwoman Whitmire be entered into the minutes under "Other Business."

City Manager Westbrook asked that the approval of City Council goals be added to the agenda under "Other Business."

I. PROCLAMATIONS:

A. RESOLUTION NO. 00-17 - RESOLUTION IN MEMORY OF OSBORNE M. HART

Councilwoman Whitmire read the resolution in memory of Mr. Osborne M. Hart. She then presented the resolution to Mr. Hart's wife Louise, and his son Darryl J. Hart.

Resolution No. 00-17 was adopted by acclamation.

RESOLUTION BOOK NO. 25 - PAGE 406

B. RESOLUTION NO. 00-18 - RESOLUTION IN MEMORY OF JAMES E. McCRACKEN III

Mayor Sitnick read the resolution in memory of Mr. James E. McCracken III. She stated that the resolution will be sent to Mr. McCracken's wife Marilyn.

Resolution No. 00-18 was adopted by acclamation.

RESOLUTION BOOK NO. 25 - PAGE 407

C. PROCLAMATION PROCLAIMING FEBRUARY 2000 AS "BLACK HISTORY MONTH"

Mayor Sitnick read the proclamation proclaiming February 2000 as "Black History Month" in the City of Asheville. She presented the proclamation to Mr. John Hayes.

II. CONSENT AGENDA:

Councilwoman Whitmire asked that Item A (minutes of the January 25, 2000, City Council meeting) be removed from the Consent Agenda for further discussion.

Mayor Sitnick asked that Item E be removed from the Consent Agenda for further discussion.

At the request of Councilman Worley, Items I and J were removed from the Consent Agenda for further discussion.

Councilman Hay requested Item N be removed from the Consent Agenda for further discussion.

A. APPROVAL OF THE MINUTES OF THE REGULAR MEETING HELD ON JANUARY 25, 2000, AND THE WORKSESSION HELD ON FEBRUARY 1, 2000

This item was removed from the agenda for further discussion.

B. RESOLUTION NO. 00-19 - RESOLUTION AUTHORIZING THE APPLICATION FOR A GRANT WITH THE PIGEON RIVER FUND TO ASSIST WITH THE CLEANUP OF PRIVATE PROPERTY ALONG REED CREEK FOR A DONATION OF 0.5 ACRE OF LAND WHICH WILL BE USED FOR THE BROADWAY GREENWAY

Summary: The consideration of a resolution to apply for grant funds through the Pigeon River Fund to assist with the clean up of private property along Reed Creek for a donation of approximately 0.5 acre of land, which will be used for the Broadway Greenway.

The Broadway Greenway represents one of the City of Asheville's top greenway priorities in greenway development along Broadway. Funds are available through the Pigeon River Fund to assist with the development of greenways that make a significant impact on water quality. The grant will be used to clean up and restore approximately 540 feet of streambank along Reed Creek located in the Montford neighborhood. The City will retain the corridor amounting to 0.5 acre for use for the Broadway Greenway. The funds will be used to remove overgrowth of kudzu, remove debris, and restore the streambank, which is highly scoured and degraded. The streambank will be replanted with native riparian trees and shrubs.

The Parks and Recreation Department is requesting $19,940 in grant funds from the Pigeon River Fund. The grant does not require matching funds but strongly encourages a cash or in-kind match. The in-kind match of project management is valued at 25% of the request, and is available in the Parks Division operating budget.

The Parks and Recreation Department recommends the City of Asheville apply for and enter into an agreement for the grant funds through the Pigeon River Fund to assist with the clean up of private property for an easement for the Broadway Greenway.

RESOLUTION BOOK NO. 25 - PAGE 408

C. RESOLUTION NO. 00-20 - RESOLUTION AUTHORIZING THE APPLICATION FOR A GRANT WITH THE COMMUNITY FOUNDATION OF WNC TO ASSIST WITH THE EXPANSION OF THE YOUTH EMPLOYMENT PROGRAM

Summary: The consideration of a resolution to apply for and enter into an agreement with the Community Foundation of Western North Carolina in the New Horizon Grant Program to assist with the expansion of the Youth Employment Program currently managed by the Parks and Recreation Department.

The Youth Employment Program represents the City of Asheville's commitment to provide youth with valuable opportunities that have significant impact in their development preparation to be employable members in our community. The expansion of the Youth Employment Program is a result of a recent collaboration between the City of Asheville, the Community Foundation, Job Link, the Asheville Housing Authority, and the Chamber of Commerce. The Parks and Recreation Department is requesting $7,500 in grant funds from the Community Foundation. The grant does not require matching funds.

The Parks and Recreation Department recommends the City of Asheville to apply for and enter into an agreement for the grant funds through the Community Foundation of Western North Carolina to assist with expanding the Youth Employment Program.

RESOLUTION BOOK NO. 25 - PAGE 409

D. RESOLUTION NO. 00-21 - RESOLUTION AUTHORIZING GRANT APPLICATIONS FROM THE N.C. ARTS COUNCIL, THE COMMUNITY FOUNDATION OF WNC, AND ADVANTAGEWEST NORTH CAROLINA TO ASSIST WITH PUBLIC ART AND HERITAGE TRAIL PROGRAMS

Summary: The consideration of a resolution applying for funds through the North Carolina Arts Council, the Community Foundation of Western North Carolina, and AdvantageWest North Carolina to assist with programs that support the arts and provide for tourist related economic development.

The City of Asheville wishes to apply for grant funds to accomplish two objectives: to assist with the development of a Public Art Master Plan and to promote the Asheville Urban Trail as part of its Public Art and Heritage Trails Program.

The first request is to establish a Master Plan for Public Art that will include a five year strategy on how best to provide art in public places. This will include selection criteria, a capital budget, funding sources, and a process for gaining community input. The Plan would be submitted to City Council for approval and be used to guide the activities of the Public Art Board. The plan itself will be prepared by staff and members of the Public Art Board.

The second request reflects the fact that the Asheville Urban Trail is nearing completion and requires additional promotional materials to enable visitors and residents to use the Trail.

Requested grant funds are primarily to assist with the cost of printing and distribution of promotional materials for the Urban Trail and the Master Plan for Public Art, and to obtain community input on and support for the Public Art and Heritage Trails Program .

The Parks and Recreation Department is requesting $6,000 in grant funds from the North Carolina Arts Council which requires a 50% cash and/or in-kind match. It is anticipated that the $3,000 required for the cash match will come from proposed project funds (percent-for-art) for the public art program. The in-kind match is available in the Park Maintenance Operational budget. The Parks and Recreation Department also requests $6,000 from the Community Foundation of Western North Carolina and $5,000 from AdvantageWest North Carolina.

: The Parks and Recreation Department recommends the City of Asheville apply for and enter into an agreement for grant funds through the North Carolina Arts Council, Community Foundation of Western North Carolina, and AdvantageWest North Carolina to assist with the development the Public Art and Heritage Trails Program.

RESOLUTION BOOK NO. 25 - PAGE 410

E. BUDGET AMENDMENT TO FUND THE 1999-2000 ANIMAL CONTROL CONTRACT FOR ANIMAL CONTROL SERVICES WITHIN THE CITY

This item was removed from the Consent Agenda for further discussion.

F. ORDINANCE NO. 2657 - BUDGET AMENDMENT TO AMEND THE WATER CAPITAL PROJECT ORDINANCE NO. 92-17 (29 FUND) TO FUND CURRENT AND EXPECTED CHANGE ORDERS ASSOCIATED WITH THE MILLS RIVER PROJECT

Summary: The consideration of a budget amendment to amend Capital Project Ordinance 92-17 (29 Fund - Water Bond Capital Improvements Fund) to fund current and expected change orders associated with the Mills River Project.

By Resolution 92-17 dated May 19, 1992, the Authority authorized and budgeted for various capital projects to be funded by City Water Bond proceeds. In October 1999, the Authority approved a change order with CDM to extend full-time on-site construction management services for the Mills River Water Treatment Plant from August 29, 1999, to November 15, 1999 (79 day delay). This was approved in the amount not to exceed $104,549. Since that time, there has been an additional 39 day delay, but the amount has been negotiated to remain at $104,549. In addition, a change order has been negotiated in the amount of $71,483.05 for necessary additional work required to complete the contract with Metric. There is sufficient funding of $236,307 in the Mills River Project Contingency for these change orders.

In addition to these change orders, there are the following anticipated change orders: approximately $20,000 for a change order with Hays and Lunsford (the electrical contractor) for the Mills River Project and $86,790 with NC DOT for the Mills River Transmission Main. Further, the Director recommends $81,378.61 be set aside to use any part as necessary for legal and engineering services pertaining to the issue of liquidated damages.

There is not enough Mills River Contingency to fund all of these changes, so staff is requesting the transfer of $49,760 from the Brevard Rd/Sand Hill Bridges line item. This was targeted for design and engineering for Sand Hill and Brevard Road Bridges that will have to be postponed until additional funding is available from pay-as-you-go CIP or from a bond issue in Fiscal Year 2000-01. A Budget Amendment will transfer $49,760 from the Brevard Rd/Sand Hill Bridges to Mills River Contingency.

The Water Authority approved an amendment to Capital Project Ordinance 92-17 at the January 18, 2000, meeting to fund current and expected change orders associated with the Mills River Project.

The Regional Water Authority recommends approval of a budget amendment for Capital Project Ordinance 92-17 to reprogram funds to increase the Mills River Contingency in order to fund current and expected change orders associated with the Mills River Project.

ORDINANCE BOOK NO. 18 - PAGE 105

G. ORDINANCE NO. 2658 - BUDGET AMENDMENT TO APPROPRIATE FEDERAL GRANT FUNDS TO THE POLICE DEPARTMENT BUDGET

Summary: The consideration of a budget ordinance amendment, in the amount of $6,500, to appropriate funds to offset expenditures from the Police Department (safety equipment) budget.

In July of 1999, with the approval of the City Manager, the Police Department applied for partial reimbursement for bullet proof vests through the Bureau of Justice Assistance. Total funds expended were approximately $12,000. On October 13, 1999, the Police Department was notified that 50% of the funds it expended for bullet proof vests ($6,537.13) was awarded to them through the Bulletproof Vest Partnership Grant Act of 1998.

Staff recommends adoption of a budget ordinance amendment appropriating $6,500 to the Police Department budget.

ORDINANCE BOOK NO. 18 - PAGE 107

H. RESOLUTION NO. 00-22 - RESOLUTION SETTING A PUBLIC HEARING ON FEBRUARY 22, 2000, TO CONSIDER THE VOLUNTARY ANNEXATION OF 65 AND 67 LONG SHOALS ROAD

I. RESOLUTION CONFIRMING THE CONTRACT AWARD BY THE REGIONAL WATER AUTHORITY FOR A NEW ANNUAL ASPHALT AND CONCRETE REPAIR CONTRACT BY APAC CAROLINA INC.

This item was removed from the Consent Agenda for further discussion.

J. RESOLUTION CONFIRMING THE CONTRACT AWARD BY THE REGIONAL WATER AUTHORITY OF CONTRACTS TO McGILL ASSOCIATES AND CAVANAUGH & ASSOCIATES P.A. TO FURNISH ENGINEERING SERVICES FOR $3 MILLION CRITICAL NEEDS/INFRASTRUCTURE STATE GRANT

This item was removed from the Consent Agenda for further discussion.

K. ORDINANCE NO. 2659 - BUDGET AMENDMENT FROM THE N.C. DEPT. OF HEALTH AND HUMAN SERVICES TO IMPLEMENT FACILITY IMPROVEMENTS AND PURCHASE EQUIPMENT FOR THE SENIOR OPPORTUNITY CENTER AND HARVEST HOUSE

Summary: The consideration of a budget amendment, in the amount of $12,658, for an appropriation from the State of North Carolina, Department of Health and Human Services, Division on Aging to implement facility improvements and purchase equipment for the Senior Opportunity Center and Harvest House.

The City of Asheville applied for funds in January 2000 for the 1999 Senior Center Allocation from the State of North Carolina, Department of Health and Human Services, Division on Aging. The allocation was recently awarded in the amount of $12,658 and designated for facility improvements and purchasing equipment at Senior Opportunity Center and Harvest House.

The Parks and Recreation Department is responsible for the management and operation of two senior centers. The annual allocation from the State of North Carolina will assist the department in implementing facility improvements and purchasing equipment and supplies.

The Parks and Recreation Department recommends City Council approve the budget amendment, in the amount of $12,658, to establish a budget for the next phase of improvements at Senior Opportunity Center and Harvest House.

ORDINANCE BOOK NO. 18 - PAGE 109

L. RESOLUTION NO. 00-23 - RESOLUTION MODIFYING THE CITY COUNCIL MEETING SCHEDULE TO (1) SCHEDULE A CITY COUNCIL COMMUNITY MEETING ON TUESDAY, FEBRUARY 29, 2000, BEGINNING AT 7:00 P.M. AT THE SHILOH COMMUNITY CENTER LOCATED AT 121 SHILOH ROAD, ASHEVILLE, N.C. ; AND (2) RESCHEDULE THE TUESDAY, MARCH 14, 2000, CITY COUNCIL FORMAL MEETING, UNTIL WEDNESDAY, MARCH 15, 2000, BEGINNING AT 5:00 P.M. IN THE COUNCIL CHAMBER, CITY HALL BUILDING

RESOLUTION BOOK NO. 25 - PAGE 413

M. MOTION APPROVING THE FISCAL YEAR 2000-01 BUDGET SCHEDULE

Summary: The consideration of a motion approving the Fiscal Year 2000/2001 budget schedule.

The proposed Fiscal Year 2000/2001 budget schedule identifies key dates for completion of all phases of the budget process leading to adoption. Certain administrative phases of the budget process including the distribution of budget materials and instructions have already begun or have been previously approved by City Council (i.e. City Council Retreat). Other key phases include submission of departmental requests, presentation of the proposed budget to City Council, a public hearing and formal adoption. Adoption of the Fiscal Year 2000/2001 budget is scheduled for June 2, 2000.

City staff recommends City Council adopt the Fiscal Year 2000/2001 budget schedule.

N. ORDINANCE EXPANDING THE MEMBERSHIP OF THE PUBLIC ACCESS CHANNEL COMMISSION FROM FIVE TO NINE MEMBERS

This item was removed from the Consent Agenda for further discussion.

~~**ORDINANCE BOOK NO. 18 - PAGE**~~

RESOLUTION BOOK NO. 25 - PAGE 414

Mayor Sitnick said that members of Council have been previously furnished with a copy of the resolutions and ordinances on the Consent Agenda and they would not be read.

Councilwoman Field moved for the adoption of the Consent Agenda. This motion was seconded by Councilman Hay and carried unanimously.

ITEMS REMOVED FROM THE CONSENT AGENDA FOR FURTHER DISCUSSION

APPROVAL OF THE MINUTES OF THE REGULAR MEETING HELD ON JANUARY 25, 2000, AND THE WORKSESSION HELD ON FEBRUARY 1, 2000

This matter was pulled off of the Consent Agenda to make certain that the cross reference to Consent Items were correct. They were correct. Councilman Hay moved to approve the minutes of the formal meeting held on January 25, 2000, and the worksession held on February 1, 2000. This motion was seconded by Councilwoman Whitmire and carried unanimously.

ORDINANCE NO. 2660 - BUDGET AMENDMENT TO FUND THE 1999-2000 ANIMAL CONTROL CONTRACT FOR ANIMAL CONTROL SERVICES WITHIN THE CITY

Summary: The consideration of a budget ordinance amendment, in the amount of $34,000, to appropriate funds to the Police Department budget to fund the Fiscal Year 1999 - 2000 animal control contract for animal control services within the City.

The City contracts with Buncombe County Friends for Animals (BCFFA) for the provision of animal control services. The Fiscal Year 1999/2000 contract is in the amount of $135,000. This is $34,000 over what was budgeted. An appropriation from the City contingency fund, 110-0601-414-5097, to the Police Department budget, 110-3503-421-3010, Professional Services, in the amount of $34,000 is requested.

The increase is necessary because the initial contract for animal control services was underfunded to provide the required services. The $135,000 more closely matches the required funding for the services received. This information was not brought to the City's attention at a time when it could have been included in the Fiscal Year 2000 budget proposal.

Staff recommends adoption of a budget ordinance amendment appropriating $34,000 to the Police Department budget.

Upon inquiry of Mayor Sitnick, City Manager Westbrook said that this is part of the City's general contract with BCFFA and is a part of the Police Department's budget, however, it is in turn paid to BCFFA for services rendered.

Mayor Sitnick said that members of Council have been previously furnished with a copy of the ordinance and it would not be read.

Vice-Mayor Cloninger moved to adopt Ordinance No. 2660. This motion was seconded by Councilwoman Field and carried unanimously.

ORDINANCE BOOK NO. 18 - PAGE 111

RESOLUTION CONFIRMING THE CONTRACT AWARD BY THE REGIONAL WATER AUTHORITY FOR A NEW ANNUAL ASPHALT AND CONCRETE REPAIR CONTRACT BY APAC CAROLINA INC.

Summary: The consideration of a resolution confirming the contract award by the Regional Water Authority for a new annual asphalt and concrete repair contract by APAC Carolina Inc. which is an average 5% less than the current contract with APAC.

Bids for unit prices for contracted asphalt and concrete replacement work resulting from utility repair excavations have been received by the City's Engineering Department. The bids were advertised twice and only one bid was received, from APAC Carolina Inc. The bid has been evaluated and is responsive to the Minority Business Plan. Unit prices are on average about 5% lower than the current contract.

The contract establishes the unit prices for all work performed by APAC but does not guarantee any minimum quantity. Generally, the contractor under this agreement has provided asphalt and concrete work on State highways and in the unincorporated areas of the County.

The alternate bid includes unit prices for after hours and weekend work and those prices will only be paid when the work is specifically authorized by the Water Resources Department under an after-hour requirement. Immediate asphalt repair is required by the N. C. Dept. of Transportation on major thoroughfares such as US 19/23, US 25, US 70, etc.

In addition to this contract, the City repairs some utility cuts with in-house crews. In past years, the City of Asheville Street Division has provided the work on City streets, but under a re-engineering proposal, based on a Memorandum of Understanding, the Water Resources Department took direct control over the City crews for utility cut repair on October 1, 1999. The Water Resources Operations Manager will oversee this contract and the City repair crews and will evaluate what repairs are more cost-effective to contract and what repairs are more cost-effective to perform with our crews.

Staff recommends that the City Council approve the execution of a contract with APAC Carolina Inc. for the annual asphalt and concrete repair, which was awarded by the Regional Water Authority on January 18, 2000.

Councilman Worley explained that under the terms of the Water Agreement the Regional Water Authority has the ability to award it's own contracts and they do not need City Council approval. He suggested that no action be taken on this item.

City Manager Westbrook said that this item has been brought before City Council because the contract is written so that other public utilities, such as CP&L, MSD and Public Service Natural Gas, can also avail themselves of the contract price with this particular vendor. In addition, the concrete and asphalt will be used on City streets. Out of an over abundance of caution, staff recommended City Council concur in the Water Authority's award. He did state that if City Council did not concur, it would have no affect.

Councilwoman Whitmire said that she had no problem in taking no action on this item, however, she did want to be kept apprised of repairs on City streets.

Assistant City Attorney Meldrum said that City Council approval would be necessary on a contract for construction on City property. However, since this doesn't relate to ownership of property or construction of improvements on City property, it was her opinion that City Council action was not necessary.

Councilman Worley moved that this matter be removed from City Council consideration and that no action be taken on it. This motion was seconded by Vice-Mayor Cloninger and carried on a 4-3 vote, with Mayor Sitnick, Councilman Peterson and Councilwoman Whitmire voting "no".

RESOLUTION NO. 00-25 - RESOLUTION CONFIRMING THE CONTRACT AWARD BY THE REGIONAL WATER AUTHORITY OF CONTRACTS TO McGILL ASSOCIATES AND CAVANAUGH & ASSOCIATES P.A. TO FURNISH ENGINEERING SERVICES FOR $3 MILLION CRITICAL NEEDS/INFRASTRUCTURE STATE GRANT

Due to a conflict of interest and at the request of Vice-Mayor Cloninger, Councilwoman Whitmire moved to excuse Vice-Mayor Cloninger from participating in the matter. This motion was seconded by Councilman Worley and carried unanimously.

Summary: The consideration of a resolution confirming the contract award of engineering services contracts to McGill Associates and Cavanaugh & Associates, contingent upon the Water Authority receiving selection for a State grant based on an application submitted by the Water Authority on November 23, 1999.

On Friday, January 7, 2000, six proposals were received from consulting engineering firms for engineering services for Contracts 1-4 defined under an application dated November 23, 1999, by the Authority for a $3.0 Million State grant. On Thursday, January 13, 2000, a selection committee approved by the Water Authority's Policies & Priorities Committee and consisting of Ms. Leslie Thornton, Mr. Mike Brookshire, and Mr. Tom Frederick met after reviewing the proposals. The selection committee ranked the proposals based on the following criteria set out in the Request for Proposals (RFP): firm's demonstrated qualifications, ability to meet the design schedule, project approach, financial standing of firm, and the firm's minority business plan. Based on these criteria, the committee selected McGill Associates and Cavanuagh & Associates for this work.

Following the evaluation based on RFP criteria, the committee also reviewed fees for these two firms. The Director was authorized by the Selection Committee to conduct further negotiations with the selected firms and the fees recommended in the resolution are very competitive and within the budget prepared in the grant application.

Other firms submitting proposals include W. K. Dickson, William G. Lapsley & Associates, Mattern & Craig, and Vaughn & Melton.

The staff expects to receive word from the State of North Carolina on grant selections about February 1, 2000. With the adoption of the resolution, staff will complete the final contracts for execution by the engineering firms, but the Chairman will not execute the contracts until a grant award is made by the State. The State requires final engineering design be completed and permitted within 120 days of award to confirm the grant offer, therefore, engineering work must start immediately after an award is confirmed.

On January 18, 2000, the Regional Water Authority unanimously approved the staff recommendation.

Staff recommends the City Council approve the execution of engineering contracts with McGill Associates for $122,500 and with Cavanaugh & Associates for $83,000 contingent upon the Authority's November 23, 1999 application being selected by the State of North Carolina for a grant.

Councilman Worley explained that under the terms of the Water Agreement the Regional Water Authority has the ability to award it's own contracts and they do not need City Council approval. He suggested that no action be taken on this item.

Assistant City Attorney Meldrum said that since this is approval of an engineering services contract for a critical needs infrastructure grant, it was her opinion that City Council action was not necessary.

City Manager Westbrook said that out of an over abundance of caution, staff recommended City Council concur in the Water Authority's award. He noted that the infrastructure that the grant would create will be turned over to the City and will become City property once it is in the ground. In addition, our accounting system is going to have to administer those grants and since the City does approve receipt of the grant we feel we should approve requests of them as well.

Councilman Worley moved that this matter be removed from City Council consideration and that no action be taken on it. This motion was seconded by Councilwoman Field and failed on a 2-4 vote, with Mayor Sitnick, Councilmen Hay and Peterson and Councilwoman Whitmire voting "no".

Councilman Hay moved to approve Resolution No. 00-25. This motion was seconded by Councilman Peterson and carried unanimously.

RESOLUTION BOOK NO. 25 - PAGE 416

ORDINANCE NO. 2661- ORDINANCE EXPANDING THE MEMBERSHIP OF THE PUBLIC ACCESS CHANNEL COMMISSION FROM FIVE TO NINE MEMBERS

Councilman Hay moved to expand the membership of the Public Access Channel Commission from five to nine members. The Commission shall serve three year staggered terms, with five of the first appointees serving three year terms and four of the first appointees serving two year terms so that the terms may be staggered. This motion was seconded by Councilman Worley and carried unanimously.

ORDINANCE BOOK NO. 18 - PAGE 113

III. PUBLIC HEARINGS:

A. PUBLIC HEARING TO CONSIDER A CONDITIONAL USE PERMIT FOR A TELECOMMUNICATIONS TOWER AT 200 TUNNEL ROAD

Mayor Sitnick said that a letter has been received by the petitioner American Tower Company requesting that the public hearing be continued until March 15, 2000. They are still working with Crown Castle regarding the potential co-location on the adjacent tower. City staff, however, has requested that the hearing be continued until March 28, 2000, in order to avoid further continuances. Therefore, Vice-Mayor Cloninger moved to continue the public hearing until March 28, 2000. This motion was seconded by Councilwoman Field and carried unanimously.

B. PUBLIC HEARING TO CONSIDER A CONDITIONAL USE PERMIT FOR HOME DEPOT LOCATED AT THE INTERSECTION OF ACTON CIRCLE AND MONTE VISTA ROAD

Vice-Mayor Cloninger said that his law firm represents the petitioner and asked to be excused due to a conflict of interest. Councilman Worley moved to excuse Vice-Mayor Cloninger due to conflict of interest. This motion was seconded by Councilwoman Whitmire and carried unanimously. Vice-Mayor Cloninger then left the room.

Assistant City Attorney Meldrum reviewed with Council the conditional use permit process by stating that City Council will first hear from staff who will describe the proposal and provide some background information. Then the applicant may make a presentation and then comments from the public will be taken. She said that there will be an opportunity for questions and rebuttal comments, as necessary. Following the hearing, Council will then debate the proposal and will take action on the request. It has been Council's practice to have two separate votes, one today to either grant or denial of the request. At the next formal meeting, staff would prepare a written Order summarizing the finding and conclusions either granting or denying issuance of the permit and there would be a separate vote on that written Order.

After hearing no questions about the procedure, Mayor Sitnick opened the public hearing at 5:54 p.m.

Upon inquiry of Councilman Peterson, Assistant City Attorney Meldrum said that City Council are elected officials and that members of the public and applicants expect that they will be able to contact them on matters, not withstanding whether or not they are a legislative or a quasi-judicial matter. That alone is not taken into consideration where a Council member has to be excused from voting because they have previously been contacted. It's where a member has previously made up their mind based on facts outside of the hearing, either by yourself, without disclosing it, or if you stated publicly that you have looked into this matter and decided how to vote, without considering what you heard at the hearing. As far as disclosing if you have seen site, there is no problem with that. If you want to disclose that you have attended meetings, that certainly can be done on the record on that particular item. She would then ask if the Council member can consider the issue with an open mind on all the matters before them without pre-judgment and that they will make their decision based solely on what is before Council at the hearing.

City Clerk Burleson administered the oath to anyone who anticipated speaking on this matter.

Mr. Scott Shuford, Planning & Development Director, said that this is the first case involving the new large retail structure point-based ordinance Council recently adopted.

Basically what that does is allow Council the opportunity to use the conditional use permit process to establish special standards for parking lot location, buffering requirements, site lighting, the design and materials used in the building facade, accommodation of transit, the provision of sidewalks, etc. The intent is to have a higher quality development and site design and we are expecting better compatibility with surrounding uses as a result. Traffic is not really a part of that ordinance but is part of the conditional use process in the Traffic Impact Analysis (TIA).

Mr. Dan Baechtold, Urban Planner, submitted into the record City Exhibit 1 (Affidavit of Publication), City Exhibit 2 (Certificate of Mailing of Notice to Property Owners); and City Exhibit 3 (Staff Report received by City Council on January 25, 2000).

Mr. Baechtold said that this is the consideration of a Conditional Use approval and permit as outlined in the Unified Development Ordinance (UDO) to construct a new Home Depot store at the intersection of Acton Circle and Monte Vista Road.

He said that on December 6, 1999, The Home Depot Company submitted development plans for Level III site plan review. The proposal is to construct a Home Depot store on a 22 acre parcel of land on the northwest corner of the intersection of Acton Circle and Monte Vista Road. Using a location map (attached to City Exhibit 3) Mr. Baechtold described the property and its location. The property is zoned Highway Business. The Technical Review Committee (TRC) reviewed the plans on December 20, 1999, and took action to approve with conditions. On January 19, 2000, the applicant submitted revised site plans to the Planning and Development Department. The revised plans satisfy all of the conditions of the TRC.

The parcel of land for the proposed Home Depot is mostly undeveloped and partially wooded. The parcel is a "second-tier" parcel behind the "first tier" of commercial development to the east which fronts on US Highway 19/23 (McDonald's, Shoney's, and the Ramada Inn). The property is bordered by Interstate 40 to the North. Across Interstate 40 is a large undeveloped commercially-zoned piece of land. To the West is existing residentially-used, but commercially-zoned property. To the south is a mix of residential and commercial uses. Most of the property to the south is zoned Residential Multi-Family Low Density District (RM-6).

City Exhibit 4 (overview of site plan) was used in explaining that the proposed Home Depot store is approximately 108,000 square feet plus a garden center of approximately 22,000 square feet. The proposed orientation of the store is facing Acton Circle and US 19/23. The plan proposes 490 parking spaces in front of the store. Two driveway connections are proposed – one on Acton Circle and one on Monte Vista Road.

The proposed Home Depot store, parking lot, and driveways occupy approximately 18 acres of the 22 acre site. The plan identifies three remaining tracts to be used as potential outparcels for future development – a parcel of 2.04 acres behind the Home Depot Store; a parcel of .83 acres at the corner of Acton and Monte Vista; and a parcel of .75 acres in front of the store near the curve in Acton Circle.

This project meets all of the technical standards set forth in the UDO and other applicable codes. In addition, the project is the first to undergo a new review procedure for large retail structures. The Planning and Development staff reviewed the project using the administrative guidelines titled "Supplemental Development Standards for Large Retail Structures" as set forth by the ordinance which establishes large retail structures as conditional uses. These guidelines are based on a point system in which developers may choose among elements of improved site design and building design in order to achieve an overall design that meets the intent of the ordinance. The Home Depot proposal exceeds the target point total for bulk retail facilities. By complying with these standards, the Home Depot is afforded, and is taking advantage of, a structure size bonus of 50%. The baseline structure size limit in the Highway Business District is 75,000 square feet. By complying with the standards for large-scale retail, the Home Depot proposes to build a store of 108,000 square feet. He pointed out that under the current zoning someone could subdivide the property and put two structures of 75,000 square feet, if the site would accommodate that, but this allows a single structure to be larger than 75,000 square feet.

The Home Depot chose the following design elements to achieve the required number of points and meet the standards for large retail structures (City Exhibit 5 - copy of landscape plan) and (City Exhibit 6 - copy of front half of landscape plan):

- The parking area is buffered from the street with a landscaped buffer with a minimum width of fifty (50) feet which incorporates 150% of the plantings called for in a "D" buffer.
- Parking and loading areas are buffered from residential areas with a landscaped buffer with a minimum width of fifty (50) feet which incorporates 150% of the plantings called for in a "D" buffer.
- The buffer areas preserve existing trees where possible.
- Building facades facing the street have at least three distinct massing elements including changes in roof line height, changes in building color and pattern, and recessed entrances with columns.
- Predominant exterior building materials on the visible facades of the structure are brick and stucco.
- Facade colors are low-reflectance, subtle, neutral, or earth-tone colors.
- Parking lot landscaping is provided at the ratio of one tree and two shrubs for every 1500 square feet of impervious surface area. Half of these trees are planted in interior islands in the parking lot.
- The height of light fixtures will not exceed thirty (30) feet. All lights will be shielded and directed away from residential areas.
- The development provides an internal transit stop which includes a shelter and will be provided at the developer's expense to City transit specifications.
- The roof incorporates parapets concealing flat roofs and rooftop equipment from public view.
- Sidewalks are provided along the full length of the building along the facade providing customer entrances and abutting the parking area.
- Beds are provided for landscaping along the foundation of the building (south facing).
- Parking lot design and parking space orientation are consistent.
- The front entrance to the building is connected to a public sidewalk and public transit stop by a handicapped accessible sidewalk and crosswalk.
- Sidewalks are provided along all sides of the property which abut a public street.
- The building has multiple entrances facing the street spaced at intervals averaging 135 feet.

The above provisions exceed the ordinary requirements of the UDO. The landscaping provisions mentioned above are in addition to requirements for street trees and other landscaping required by the UDO.

Mr. Baechtold then outlined some of the features from an elevated view of the building. In reviewing the project, City staff assigns points for each of the items and based on the review of the Home Depot, they achieved the target number of points that the guidelines require.

Acton Circle and Monte Vista Road are both maintained by the North Carolina Department of Transportation and are classified as Secondary Roads. Acton Circle is a two-lane facility that is eighteen (18) feet wide. Monte Vista Road is a two-lane facility that is twenty (20) feet wide. The intersection of Acton Circle and Monte Vista Road is offset slightly and is not signalized. The intersection is controlled by a four-way stop. Acton Circle terminates at US

19/23 at both ends. Monte Vista Road turns into Sand Hill Road to the east. To the West, Monte Vista Road provides access to a number of single-family neighborhoods.

The TIA is prepared by an independent engineer and paid for by the developer. The report is reviewed by the City's Traffic Engineer and by the N. C. Dept. of Transportation (NC DOT). The TIA looks at existing traffic levels projects additional traffic from the development onto the roadway system. These projections also take into account background traffic, which will increase over time. The TIA identified existing roadway congestion problems - some in the morning and some in the evening peak travel times. The existing traffic problems are evident primarily at the intersection of Monte Vista Road and Acton Circle and also at the intersection of Acton Circle and US 19-23 next to McDonalds. The developer is proposing to construct a number of roadway improvements to accommodate the traffic generated by the Home Depot and to alleviate some of the existing problems. (City Exhibit 7)

- Widening Acton Circle to three lanes along the portion next to McDonald's to provide an additional exit lane from Acton Circle onto US 19/23.
- Widening Acton Circle to provide a right turn lane into the front entrance of the Home Depot.
- Widening Acton Circle to provide a right turn lane on to Monte Vista Road at the intersection.
- Widening the remaining portion of Acton Circle that borders the property by six feet and installing curb and gutter in order to meet the appropriate NCDOT standard for a two lane road.
- Widening Monte Vista Road to provide a right turn lane onto Acton Circle at the intersection.
- Widening the remaining portion of Monte Vista Road along the property by five feet and installing curb and gutter in order to meet the appropriate NC DOT standard for a two lane road.
- Providing signal changes to the traffic signal at the intersection of Acton Circle and US 19/23 to accommodate the additional turn lane.
- Providing additional signal system changes along the US 19/23 corridor.

All of these improvements are the responsibility of the developer. However, the signal system changes will likely be completed by the NC DOT. Costs to the NC DOT could be reimbursed by the developer. Before implementation of these signal improvements can take place, the Signals Division of NC DOT in Raleigh will review the TIA and perform additional analyses. The Signals Division will then make a recommendation to the Division office in Asheville for signal timing changes. According to the Division office, a time-based coordination system for several of the intersections on US 19/23 is likely to be installed for implementation of the recommendations of the TIA.

The Planning and Development staff has received input on the traffic issue from residents in the area surrounding the proposed development. Some area residents are concerned about the existing traffic problems that they experience during daily travel. The calls and letters express concern about existing problems during the morning and evening travel times; an increase in traffic levels from Home Depot; potential safety hazards posed by the Home Depot traffic exiting the driveways; the impact of trucks and heavy vehicle traffic; and the impact of increased traffic on the area schools.

Upon inquiry of Councilman Hay about how Home Depot will be involved with the signal system changes, Mr. Baechtold explained that Home Depot will be involved basically by cost participation in upgrading those signals to accommodate the additional turn lane and also in coordinating the signals.

Using Applicant's Exhibit 1 (proposed Home Depot site prepared by Kimley-Horn & Associates Inc.), Mr. Baechtold explained the proposed traffic improvements.

Mayor Sitnick requested that in the future with regard to public hearings, two drawings of each exhibit be furnished in presentations to City Council (especially in conditional use permit public hearings) - one for City Council to view and one for the audience to view.

Mr. Baechtold said that according to the TIA for this site, the proposed changes will produce improvements in traffic flow that will allow all of the intersections to operate at acceptable levels of service and accommodate the additional traffic generated by the Home Depot. The City's Traffic Engineer will review his findings with Council which conclude that he is in agreement with the assumptions and conclusions in the TIA. The traffic issue is one that City staff has taken very seriously and they have made every effort to ask the applicant to do some additional analyses at different times of day. The City's Traffic Engineer has worked closely with the Traffic Engineer for the applicant to review the data in detail and analyze the traffic issue.

In addition to the development standards for the zoning district in which they are located, conditional uses must meet certain general conditions in order to ensure that the use is appropriate at a particular location and to ensure protection of the public health, safety, and welfare. The general conditions, which apply to all conditional uses, can be found in Section 7-16-2(c) of the Unified Development Ordinance. City Council must make seven findings based on the evidence and testimony received at the public hearing or otherwise appearing in the record of the case. The findings are listed below. Following each finding is technical information from staff to assist Council in making these findings.

(1) That the proposed use or development of the land will not materially endanger the public health or safety;

The project received technical approval from the Water Resources Department, the Fire Department, MSD, Engineering, and other City Departments. The project is required meet the technical standards set forth in the UDO, the Standards and Specifications Manual, the North Carolina Building Code and other applicable laws and standards which protect the public health and safety.

(2) That the proposed use is reasonably necessary for the public health or general welfare, such as by enhancing the successful operation of the surrounding area in its basic community functions or by providing an essential service to the community or the region;

The project is a large-scale retail facility serving a regional market.

(3) That the proposed use or development of the land will not substantially injure the value of adjoining or abutting property;

The size of the tract of land allows room for adequate buffering to alleviate impacts of noise and lighting on adjacent properties. Traffic impacts are an important consideration and will be discussed separately. The impact of a future development on property values is difficult to quantify.

(4) That the proposed use or development of the land will be in harmony with the scale, bulk, coverage, density, and character of the area or neighborhood in which it is located;

The property is zoned Highway Business, which allows single-tenant structures up to 75,000 square feet and multiple-tenant retail structures up to 200,000 square feet with floor area bonuses available upon conditional use approval by the City Council. Some of the neighboring developed property is zoned Highway Business and is commercially developed. There are also large tracts of essentially undeveloped land bordering the property. The 22 acre size of the tract allows the coverage of the property to remain at a reasonable scale.

(5) That the proposed use or development of the land will generally conform with the comprehensive plan and other official plans adopted by the City;

The City's Comprehensive Plan, Asheville City Plan 2010, was adopted in 1987. This area was outside the City's zoning jurisdiction at that time. The proposed development is consistent with the zoning assigned to this location.

(6) That the proposed use is appropriately located with respect to transportation facilities, water supply, fire and police protection, waste disposal, and similar facilities;

The project received technical approval from the Technical Review Committee which includes representatives of the Water Resources Department, MSD, Engineering, the Fire Department, and Public Works. The adequacy of the transportation facilities are addressed in a Traffic Impact Analysis conducted by the developer.

(7) That the proposed use will not cause undue traffic congestion or create a traffic hazard.

The developer submitted a Traffic Impact Analysis (TIA) as required by the UDO. The TIA considered the impact of this development and other projected traffic on the transportation system. The TIA proposes several improvements to the transportation system to alleviate traffic problems. The developer is offering to construct these improvements.

In issuing conditional use permits, City Council has the discretion to impose conditions on a particular development to ensure that the design, operation, and configuration are compatible with the surrounding area and ensure the health, safety, and general welfare. If City Council chooses to approve the conditional use permit for the Home Depot, staff is recommending several additional conditions for approval. These recommended conditions appear in draft form below. The final wording of any conditions imposed by City Council shall be determined at the time of writing the Ordinance Granting a Conditional Use Permit. The draft recommended conditions are as follows:

1. All proposed on-site and off-site improvements and amenities shown on the revised development plans dated January 17, 2000, and indicated in the Traffic Impact Analysis shall be the responsibility of the developer. These improvements include, but are not limited to: roadway improvements, sidewalk improvements, and construction of a transit shelter.
2. Any required changes to the traffic signal system resulting from changes to the roadway system shall be the responsibility of the developer. This includes changes to the coordinated traffic signal system on US 19-23.
3. In addition to the proposed sidewalk shown on the development plans, the developer shall construct a sidewalk built to City standards along the widened portion of Acton Circle.
4. Detailed roadway construction plans for all proposed roadway improvements shall be reviewed and approved by NC DOT and the City Traffic Engineer.
5. Future driveway access for the three sites identified as potential outparcels shall be limited as follows: The outparcel of 2.04 acres behind the Home Depot store shall be limited to one driveway on Monte Vista Road. The outparcel of .83 acres at the intersection of Acton Circle and Monte Vista Road shall not be allowed driveway access to the public streets. The outparcel of .75 acres on Acton Circle in front of the Home Depot shall be limited to one driveway on Acton Circle.
6. A revised Traffic Impact Analysis shall be required at the time of development of any of the sites identified as future outparcels.

7. The following development standards shall be imposed upon the outparcels: parking shall be provided at the side or rear of structures and not closer to the street than the edge of the structure. Buildings shall be oriented to face the street and shall have customer entrance(s) on the street facing wall.

Mayor Sitnick asked if this project is approved could City Council prohibit variances. Assistant City Attorney Meldrum said that since that authority has already been given to the Board of Adjustment in the City Code, she felt it would be best to keep that procedure separate.

Mr. Baechtold responded to a question from Councilman Peterson about buffer requirements if the outparcels are developed. He said the site plan the developers have submitted for this development for those buffer areas on the outparcels show they are to remain undisturbed. Additional language in the form of a condition can be added that ensures that the out-parcels also preserve those buffers. It is staff's understanding that approval of this site plan which shows those buffers would require that those buffers would run with the land and any subsequent development on the parcel.

Mr. Baechtold also responded to questions from Councilman Peterson regarding buffering requirements in the Highway Business District and what are the developers doing in addition to that to earn the points. He said they can meet the intent of the guidelines by fronting the street with a building facade that meets our design standards, rather than a 50-foot landscape buffer. However, if it's the preference of Council to maintain a 50-foot buffer along the entire front of the property, we could also incorporate that into the conditions.

Councilman Peterson wondered what could be built in the outparcel of .83 acres at the intersection of Acton Circle and Monte Vista Road since no driveway access is allowed to the public streets and they have to maintain the buffering along the parking lot. Assistant City Attorney Meldrum said that a condition might be included that whenever that outparcel is developed that interior access be permitted through the parking lot of the Home Depot project and give some further condition for replacement of the buffering that is taken out when that driveway is put in to be located somewhere else on the site.

Mr. Michael Moule, City Traffic Engineer, summarized the traffic analysis (City Exhibit 8 -A). Based on nationally accepted guidelines, the traffic consultant estimated that the Home Depot store will generate 2,310 vehicles entering and 2,310 vehicles exiting the site on a typical weekday. He estimated approximately the same values using Trip Generation software.

The traffic consultant estimated the distribution of the site-generated traffic throughout the surrounding area. He agreed that this distribution is a reasonable estimate of how drivers will access the site. However, based on neighbors' concerns and the potential for a different distribution in reality, he asked the traffic consultant to analyze an alternate trip distribution for one intersection.

The other factors used by the consultant to project traffic volumes to full build-out are reasonable as well. These include:

- Turning movement counts at five intersections near the project;
- No recently approved developments in the area;
- 3% per year historical growth factor to project traffic from 1999 to 2001.

(City Exhibit 8) The nationally recognized resource for traffic analysis is the *Highway Capacity Manual* (HCM). According to the HCM, in order to estimate the operating characteristics of a road segment or intersection, a Level of Service (LOS) should be calculated. LOS is a qualitative measure that describes operational conditions and the perceptions of motorists in a traffic stream. The HCM defines six levels of service, LOS A (best) through LOS F (unacceptable). For both signalized and unsignalized intersections, LOS is defined in terms of the delay experienced by motorists. LOS can be defined for individual movements or for an entire intersection. The following chart displays the relationship between LOS and delay for signalized and unsignalized intersections.

Level of Service (LOS)	Signalized Intersections Average Stopped Delay (seconds per vehicle)	Unsignalized Intersections Average Total Delay (seconds per vehicle)
A	<5	<5
B	>5 and <15	>5 and <10
C	>15 and <25	>10 and <20
D	>25 and <40	>20 and <30
E	>40 and <60	>30 and <45
F	>60	>45

From the 1994 *Highway Capacity Manual* (TRB Special Report 209, 1994)

In the original TIA, the following intersections were analyzed during the PM peak hour.

- Acton Circle South and US 19/23
- Acton Circle and Monte Vista Road
- Acton Circle North/I-40 Eastbound Ramps and US 19/23
- I-40 Westbound Ramps and US 19/23
- Old Haywood Road and US 19/23
- Site Driveway and Acton Circle
- Site Driveway and Monte Vista Road

Only the PM peak hour was analyzed because a development like Home Depot generates significantly more traffic in the afternoon than in the morning. During the Technical Review Committee (TRC) meeting, residents expressed a concern about morning traffic at the intersection of Acton Circle and Monte Vista Road and the intersection of Acton Circle North/1-40 Eastbound Ramps and US 19/23. Consequently, the intersection of Acton Circle and Monte Vista Road was analyzed during the AM Peak.

Acton Circle South and US 19/23 (City Exhibit 8-E)

As shown in the TIA, this signalized intersection currently operates at LOS B, which is very favorable. The study shows an LOS of A after build-out of the site. The improved LOS is due to signal timing changes including an increased cycle length. This intersection will likely continue to operate favorably during the PM peak hour whether or not the signal timing is changed. It should be noted that while the proposed increased cycle length improves the LOS for the entire intersection, it degrades the LOS for movements from Acton Circle. Based on the analyses in the TIA and their own analyses, the NC DOT will ultimately decide whether to implement these signal changes at this intersection.

Acton Circle and Monte Vista Road (City Exhibit 8-F - page 1) (City Exhibit 8-F - page 2)

This is currently a 4-way stop-controlled intersection with two-lane roads on all approaches. The developer has proposed to add eastbound and southbound right turn lanes at this intersection. As discussed above, this intersection was analyzed during both the AM and PM peak hours. In addition the consultant performed additional analyses for an alternate trip distribution. According to the Technical Memo, this intersection currently operates at LOS D during the AM peak hour and LOS C during the PM peak hour. Under both the original trip distribution and the alternate distribution, at full build-out and with the proposed roadway improvements this intersection has been estimated to operate at LOS C for both the AM and PM peak hours. It is important to note that during the AM peak hour, without this development and the proposed roadway improvements, this intersection is estimated to operate at an unacceptable level (LOS E) in 2001. In other words, the developer is proposing to help solve a traffic problem that already exists.

At the TRC meeting, citizens also expressed a concern that traffic in this vicinity is worse on Fridays than other days of the week. Traffic analyses normally address a "typical" weekday and the counts reported in the original TIA were collected mid-week on Wednesday, October 6, 1999. In order to address the concerns of the citizens, counts were collected during the afternoon of Friday, January 14, 2000. During the PM peak hour on this Friday, the number of vehicles entering this intersection was 101 less than the volumes analyzed in the original TIA.

Acton Circle North/I-40 Eastbound Ramps and US 19/23 (City Exhibit 8-G)

The developer has proposed to add an additional approach lane on Acton Circle at this intersection, and to coordinate this signal with others on the 19/23 corridor. During the PM peak hour, this intersection currently operates at LOS C. At full build-out, with the proposed improvements, this intersection is estimated to operate at LOS C, but with a slightly increased overall delay. It should be noted that movements from Acton Circle and from the I-40 ramps currently operate at LOS E and F. With the development and the improvements, these same movements are estimated to continue operate at LOS E and F, but again with a slightly increased delay.

Residents in the vicinity were concerned about this intersection during the AM peak hour. Traffic counts and analyses are not available for this intersection during the AM peak. However, based on the PM analysis and the fact that Home Depot generates significantly less traffic in the AM, it is reasonable to assume that the proposed added approach lane at this intersection will result in better operating conditions at full build-out during the AM peak.

The proposed eastbound right turn lane at the intersection of Acton Circle and Monte Vista Road will allow drivers to more easily access the intersection of South Acton Circle and US 19/23. This will likely reduce the traffic using the North Acton Circle intersection, further improving the Level of Service. (City Exhibit 3 - location map)

I-40 Westbound Ramps and US 19/23 (City Exhibit 8-H) (City Exhibit 8-B)

Using the Highway Capacity Software, which analyzes intersections as isolated intersections, the consultant estimated that during the PM peak hour, this signalized intersection currently operates at LOS C and will operate at LOS C at full build-out. However, anecdotal evidence from citizens and the NC DOT indicate that traffic frequently backs up on the westbound off-ramp to the I-40 bridge. The consultant conducted an additional analysis using different computer software that allowed all four intersections on US 19/23 to be analyzed together. Based on this analysis, the consultant recommended the coordinated signal system discussed earlier in this report. This alternative analysis method resulted in LOS C for this intersection. In addition, the analysis shows that if the coordinated signal system is installed, there will be sufficient storage on the I-40 westbound off-ramp.

Old Haywood Road and US 19/23 (City Exhibit 8-H)

The TIA shows that this signalized intersection currently operates at LOS C and will continue to operate at LOS C at full build-out.

Mr. Moule said that after reviewing the TIA and the Technical Memo from the developer's traffic consultant, he concurred with the conclusions presented in those documents.

Mr. Moule responded to various questions from Council regarding the proposed roadway improvements.

Mr. W. Louis Bissette, attorney for the petitioner, explained how this project fits into the strategic plan for the sustainable economic development for the City of Asheville. He explained how residential property owners are paying too large a share of the ad valorem taxes required to operate the City. Prior to adoption of the UDO in May of 1997, this property was zoned Commercial Highway and has not been residential in many, many years. The current tax rate on this property as it now exists is approximately $200 a year to the City in ad valorem tax revenues. This same property, if developed by Home Depot, will generate ad valorem taxes in the range of $75,000 per year and that does not include the sales taxes which will be generated by this proposed store. This store will employ 150 people. (Applicant's Exhibit 2) Mr. Bissette pointed out that the surrounding land uses are commercial and that the use is permitted on that property. Home Depot has complied with everything it has been asked to do under the UDO. It has met all the conditions prescribed by the TRC and its design exceeds the point scale under the new design standards. (Applicant's Exhibit 3) (Applicant's Exhibit 4) Mr. Bissette explained that this proposed building design is drastically different from the standard Home Depot project in that it is designed to be in character of with the City of Asheville and the surrounding area (Applicant's Exhibit 5). (Applicant's Exhibit 7 - TIA dated 11-99) (Applicant's Exhibit 8 - TIA dated 1-24-00) He then described the road improvements proposed by Home Depot which is a substantial expenditure. He reviewed each of the conditional use requirements and how the project would be able to meet those standards. He believed that the development of this project will increase the value of adjoining properties. Home Depot is an excellent corporate citizen of the City and State as seen in Applicant's Exhibit 6 - 1998 Social Responsibility Report. The project will provide jobs, increase tax base and actually improve traffic conditions on US 19-23, Acton Circle and Monte Vista Road. Although there will be a few residences affected by this project, he urged Council to look at the big picture and what it will do for the City and the great majority of it's citizens. (Applicant's Exhibit 9 - TRC letter dated 12-20-99)

Mr. Chuck Tessier, Tessier & Associates, commented briefly on the impact of this project on the surrounding land values and urged City Council to proceed with this project.

Mr. Steve Blakely, Kimley-Horn & Associates, traffic engineers for the petitioner, summarized the road improvements and the benefits of those improvements. (Applicant's Exhibit 1) Home Depot is committed to ensure that any impacts that they have are more than mitigated as a result of these improvements.

When Mayor Sitnick asked if the applicant has any questions of staff members before they conclude this part of their presentation, Mr. Bissette replied that they had no questions.
